The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending Oct. 4, 1895.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency.....	1,735,000	$6,800,000	Loss.$5,065,000
Gold.....	366,000	850,000	Loss. 484,000
Total gold and legal tenders.....	$2,101,000	$7,650,000	Loss.$5,549,000

With the Sub-Treasury operations and gold exports the result is as follows.

Week Ending Oct. 4, 1895.	Into Banks.	Out of Banks.	Net Change in Bank Holdings
Banks' interior movement, as above	$2,101,000	$7,650,000	Loss.$5,549,000
Sub-Treas. oper. and gold expts....	16,700,000	19,200,000	Loss. 2,500,000
Total gold and legal tenders.....	$18,801,000	$26,850,000	Loss. 8,049 000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

NOTE.—We receive the foregoing results weekly by cable, and while not all of the date given at the head of the column, they are the returns issued nearest to that date—that is, the latest reported figures.

STATE OF THE TREASURY INCOME AND FINANCES.

The Government receipts in September have shown gratifying results. To be sure the total is not quite so large as the total for August; it would be a trifle less than in August even were we to allow for one less day in the month; but the item of internal revenue for September is the largest of any month in the calendar year with a single exception. This feature we consider especially important because the internal revenue receipts come nearer than any other class of the Government income to being an expression of the productiveness of the present tax law. Moreover the results are gratifying because in only one other month since the new law went into operation has the revenue been in excess of the disbursements.

There were no material changes made in the provisions of the internal tax laws under the 1894 revision except in the item of spirits and fermented liquors. That remark must be qualified to this extent—a tax was imposed on that occasion on playing cards of 2 cents a pack and the tobacco schedule also was modified. But those changes have not hitherto proved material as they have had no essential effect on the revenue, and may consequently be disregarded in this discussion. We notice, for instance, that the revenue from tobacco averaged about 2¼ million dollars a month before the 1894 revision and is averaging but very little more than that now, while the 2 cents a pack on playing cards has not up to this time given to the receipts from "other sources," under which head it is included, any noticeable increase. Later on as general business improves it is reasonable to expect from present indications that the imposts on tobacco and playing cards will be more productive. Those additions though cannot be large. It is from the whiskey tax and from the addition of 20 cents a gallon made to that tax under the 1894 law that the enlargement of the internal revenue receipts is chiefly to be obtained. As often heretofore explained, Government income from that source since the new tax went into operation was, for reasons we need not repeat, in large measure suspended for many months. The revenue from spirits alone in 1892 under the old tax was over 95 millions of dollars, averaging about 8 million dollars a month. If we may accept that result as normal the revenue from the same source the current year under the new law ought to reach about 116¼ million dollars, or almost 10 million dollars a month, whereas the highest it has reached as yet in a single month has been 6½ million dollars.

As the case stands then, with the internal revenue receipts for September from all sources, including spirits, $12,260,000, the public seem to be authorized to look for a further increase in that monthly total before the fiscal year closes of about 4 million dollars; and with the development of business activity, now so marked a feature, continued, that estimate would seem to be a minimum figure not unlikely to be exceeded in coming months. This certainly is reassuring. For if there were no other gain in revenue to be anticipated, here is a promising source of additional income which if realized will of itself more than make good the deficit since July 1. For instance, taking our own statement of receipts and expenditures, which will be found to-day in our "Commercial and Miscellaneous News" department, and which differs from the Government figures only in including the "National bank redemption fund"—taking that statement we find the receipts for the first quarter of the current fiscal year to have aggregated $86,586,000 and the disbursements $98,012,000, or a shortage in the three months of $11,425,000, which shortage would have been entirely wiped out had the tax on spirits yielded 4 millions additional a month, its estimated normal productiveness.

That, however, is by no means the sole dependence for enlarged income from the existing tax laws. A fair conclusion is that not only the internal revenue receipts will materially increase, but that Customs duties also are certain to be added to. This view is warranted in the first place because the imports of sugar, the article which was expected to be a chief source of revenue under the Customs provisions of the law of 1894, have not yet reached a normal movement, though they have increased quite steadily and largely in late months. It finds further support in the fact that other merchandise imports, although on the increase, have averaged less than the supply for the same period of an ordinary year. Very likely for the remainder of the calendar year imports may be even a little less than they were in the last two months. It will be noticed that Customs receipts were less in September than in August, the August total being $15,639,000 against $14,654,000 in September. Importers are moving cautiously. Requirements have to be anticipated and at a time like the present are uncertain. After recent experience it would not be natural for merchants to put out orders faster than the strength of the growing demand for consumption can be tested. Prevailing conditions can consequently only be met by more than the usual fluctuations in the volume of merchandise imported.

We have stated that the Government revenue in September was large enough to leave a favorable balance. According to our figures the receipts for the month were $2,771,000 in excess of the disbursements. This result, it will be noticed, was possible only because the payments were small. Pension requirements appear to have been $1,594,000 less than in August. But the chief reason the disbursements were at a minimum was that no interest falls due in September. The current month will differ in this particular and will no doubt show a deficit again. A quarterly payment on the old 4 per cents falls due on the first of October and that calls for about 5½ million dollars. Pensions also are likely to be a little larger than in September. Altogether it would not be surprising if the disbursements should exceed the revenue in the full amount that the interest payment calls for. But current conditions indicate that these deficits are on the decrease, and at the moment it looks as if existing laws, with business revival continued, would afford all the revenue the Government needs. This anticipated result, if realized, will be heartily welcomed by the public. Few things could be more disturbing to business, now so rapidly developing, than long-continued agitation by the approaching Congress of new changes in the tariff under the plea of a need for additional revenue. The people and their industries can be better served by special effort towards economy in appropriations than in devising new ways for taxation.

There are no special features in the reported cash holdings of the Treasury calling for extended notice. The most conspicuous change the figures for the first of October record is of course in the gold reserve. For the previous three months the opening report has shown this item to be above the 100-million-dollar

limit. On June 1 it was $99,151,409 and on May 1 it had been $91,247,144. Now on October 1 it is $92,911,974. So long as the export demand is in abeyance this condition is immaterial. A feeling prevails, born of recent experience, that after the new year opens and our cotton surplus has been mostly exported a new and large demand for gold will set in again. That is not possible unless something happens to change the trend of business affairs and conditions. We do not mean that no gold will be exported in 1896. More than likely such a movement will occur, but if it does its proportions will be greatly restricted. The current fiscal year in all that tends to foster and make needful gold exports is as different from last year as any two consecutive years could well be. Besides, we are likely to see a considerable inflow of gold before the first of January.

There are two other changes in the cash holdings which deserve a word of notice. The surplus in receipts for September already referred to has of course increased the cash holdings and increased the general balance. The balance has not been added to in the same measure as the cash, because the balances in the hands of disbursing agents, etc., are larger. Among the cash items it will be seen that the flow of currency to the interior has served to diminish the net silver dollar holdings; the "net silver coin and bullion," which was reported August 1 at $30,367,816, is now only $18,694,071. Both of these changes strengthen the Treasury situation by increasing the available resources of the Government. Silver dollars are not a quick asset. By means of the movement of currency to the interior they have been turned into legal tenders. The net legal tenders held August 1 were $18,411,688; on October 1 they were $42,476,600.

Below we give our usual table of Government cash holdings on the 1st of October and on the first of the three previous months. These are the figures we have referred to in the above remarks, except the receipts and disbursements, which, as already stated, will be found in the "Commercial & Miscellaneous News" department.

Holdings in Sub-Treasuries—	*July 1, '95.* $	*Aug. 1, '95.* $	*Sept. 1, '95.* $	*Oct. 1, '95* $

LOUISVILLE & NASHVILLE REPORT.

American railroad management has been much criticised in the past, but when one observes as each annual report is being received cumulating evidence of improvement in the administration of the properties—improvement in methods of accounting, in methods of financiering and in methods of operating—one is forcibly impressed with the fact that the occasion for adverse criticism is fast passing away. Even in the case of properties like the Louisville & Nashville, which have long been conservatively managed, there is an evident disposition to take further steps in the same direction by the inauguration of changes and reforms calculated to raise the properties still higher in public estimation.

Our readers are aware that during the late fiscal year the Louisville & Nashville management decided to close its construction account and determined that all items heretofore charged to this account should hereafter be charged to operating expenses under the sub-title of Improvement Account. The effect of this change is strikingly shown in the annual report of the company, issued this week. The change was made to date from the 1st of July 1894. In the previous fiscal year (the year to June 30 1894) the construction expenditures had amounted to $1,160,714, all of which was charged to capital account. In the late year this class of outlays, very naturally, was much smaller, aggregating only $279,583, but no portion of the amount was added to cost of road—that is, to capital account—the whole of it being included in expenses. As a result the increase in cost of road for the year is only very trifling, namely $18,547, this representing additional property acquired on some of the branch roads. It is proper to say that in the case of the Nashville & Decatur, a leased road, an apparent exception to the rule is found; there the construction account has been continued. The explanation, however, is very simple. Under the terms of the lease of that road all improvement and betterment outlays are to be settled for at the end of the lease. The amount involved is very small, $11,275 having been spent in that way during the twelve months.

An examination of the company's income account will show some other important changes in the direction of increased conservatism. The company has considerable sinking fund payments to make each year. These have not heretofore been treated as part of the income account. Now the practice has been adopted of charging up against income the difference between the year's payments and the market value of the securities received for the various funds. This difference for the late year amounted to $175,000, and it has been entered as a charge against earnings, the same as interest, rentals or other items. A few weeks ago, in reviewing the annual report of the Chesapeake & Ohio, we noted that the directors of that company had decided to carry in a special account the discount upon the bonds sold during the year and to charge off the proportion applicable to each year during the life of the bond. The Louisville & Nashville began this practice the previous year, and of course continued it in the late year. The charge against income on that account was only $6,887, but the matter is important as showing a desire to apply rigid methods of accounting.

The company also charged against the income of the late year the balance, amounting to $697,669, of advances to the South & North Alabama RR. This represents the remainder of advances made in past years to that company to meet yearly deficits, &c., and for which the Louisville & Nashville is entitled to be reimbursed, but which the South & North Alabama Company is not likely to be able to repay in the immediate future. The management concluded last year not to carry these advances as a credit upon the books of the Louisville & Nashville any longer. Accordingly $714,063 was written off in that year (in addition to $954,893 of advances to other companies, making altogether $1,668,956 written off in 1893-94) and the balance, $697,669, has now also been written off. The amount in the previous year was charged off against profit and loss, while the amount for the late year has been charged directly against income. We observe,

too, by the report that the directors have re-valued the assets of the company and have charged off to profit and loss all losses and accounts and advances considered uncollectible. From the profit and loss statement furnished by Mr. Cushman Quarrier, the Comptroller, it appears that the deduction for uncollectible accounts was $90,448 and for reduction in the market value of sundry stocks and bonds $24,500, making together $114,948.

These facts are interesting, both as showing the new methods adopted, all in the direction of increased conservatism, and because of their obvious bearing on the results for the year. We have seen (1) that the company has included $279,583 of construction outlays directly with the expenses; (2) that it has allowed for a net charge of $175,000 on account of the sinking funds; (3) that it has also allowed $6,887 for the year's pro rata of the discount on bonds sold; and (4) that $697,669 of advances to the South & North Alabama made in past years have been charged against the income of the late year. Yet after making all these deductions and allowances, as well as providing for fixed charges and operating expenses, the income account shows a surplus on the operations of the twelve months in the sum of $700,585. The deduction for advances to the South & North Alabama is of course a wholly exceptional item, not likely to occur again another year. Adding this therefore to the $700,585 surplus, to show the results on the basis of the regular calls, we get a surplus balance of $1,398,254. The company has $52,708,620 of stock outstanding, and thus it earned 2⅔ per cent for its shareholders in a phenomenally unfavorable year, and according to very strict methods of accounting too—not a bad showing, it will be admitted, for such a year.

We need not recount the various influences and conditions that marked the year, for we have done so repeatedly in other cases. The effect of the continued depression in trade which existed is seen in the further falling off in the passenger business, the earnings from passenger trains having declined from $5,676,105 to $5,443,084. In the earnings from freight trains there was an increase from $12,435,417 to $12,933,251. The average train-load was increased from 173 12 tons to 177·95 tons, but nevertheless the earnings per train mile fell off from $1·53·914 to $1·50·554. The explanation is that the earnings per ton per mile decreased from 889 thousandths of a cent to 846 thousandths. In 1892-3 the average was 932 thousandths. We may say that the average per passenger per mile also decreased—from 2·40 cents to 2·35. In view of these declines in rates the result for the year is of course all the more satisfactory. Aggregate gross earnings in 1893 94 had fallen off $3,429,000; in the late year only $301,000 of this loss was recovered. In the net earnings, on account of the augmentation in expenses, due in part to the inclusion of the construction outlays, there was no increase at all, but rather a further decrease, leaving the net in 1894-95 only $6,998,220 against $8,020,997 in 1893 93, and making the total the smallest of any year since 1888-89. Nevertheless, even with net diminished to that extent, a balance of 2⅔ per cent, as we have seen, can be shown for the stock.

One fact in the report which may perhaps not be understood is the apparent decrease in the extent of the company's equipment. The report shows only 526 locomotives on June 30 1895, against 549 on June 30 1894; 433 passenger cars, against 448, and 17,972 freight cars, against 18,417. This is on the Louisville & Nashville proper. The Birmingham Mineral and the Nashville Florence & Sheffield, for which separate inventories are furnished, also show decreases. Taking the total of them all, the number of cars for 1895 is only 20,104, against 20,583, and the number of locomotives 540, against 563. Thus there appears to be a considerable shortage. To those not familiar with the facts and who fail to study the report carefully, it may appear as if in the desire to keep expenses down not enough had been allowed to maintain the equipment up to its full number. In truth, expenses have been charged with the whole amount necessary to replace the equipment dismantled and destroyed, only the money was not actually expended but is carried in a deferred renewal account. There was allowed during the year $2,135,392 for account of building and maintenance of equipment, of which $1,632,413 was actually expended and $502,979 deferred until the present year. The latter appears in the balance sheet under the head of "Deferred Renewals of Equipment, Rails, Etc.," whose aggregate amount June 30 1895 was $638,347. In other words, in its income account the company has estimated in full for the repair and renewal expenditures, but not all the money appropriated was used, it not being advisable to replace the equipment destroyed while traffic conditions did not afford employment for what equipment there was. That there was little need for supplying the deficiency is evident from the fact that the excess of car mileage paid for the twelve months was only $5,206. The present year circumstances are likely to be different, and to make good the shortage the company purchased, for delivery subsequent to July 1 1895, fifteen new locomotives and 950 cars, which will be paid for out of the deferred renewal account.

The finances of the company are in good shape. A year ago the report showed $2,133,215 of bills and contracts payable; for June 30 1895 there are only $825,000 of bills payable. Including these bills payable and also the liability for deferred renewals, besides payrolls, vouchers, interest, &c., the total current liabilities June 30 1895 were $4,373,595, against which the company held at the same date $4,417,772 of cash and available assets, including $2,200,000 of Louisville & Nashville stock figured at its par value; the company also had in its treasury $2,263,400 of its Unified 4 per cent bonds, $531,000 of its 10-40 Adjustment bonds, besides a large mass of other securities, both stocks and bonds.

With reference to the recent financial transactions, these are not mentioned in the report, since they occurred after the close of the fiscal year. As will be remembered, the company has called for payment on the first of February next the whole of the 10-40 6 per cent adjustment bonds, amounting to $4,531,000. As will also be remembered, the company sold in August $2,000,000 of the Unified 4 per cent bonds held in its treasury and $4,000,000 of a new issue of Mobile & Montgomery 4½ per cent bonds. Out of the proceeds of this sale the company has retired the $825,000 of bills payable referred to above as outstanding June 30 1895, and has obtained the means for paying off the 10 40s next February, according to the call. The result of the whole transaction is to effect a saving in the yearly interest charges. The company has nearly 10 million dollars of 7 per cent bonds falling due in 1897 and 1898, which can no doubt also be refunded at a lower interest rate at the proper time.

UNEQUAL TAXATION.

Over five years ago we wrote of the efforts then making to tax personal property in the State of Ohio. These efforts we said were the survivals of an old regime struggling vainly to maintain itself in the face of new condi ions. For, as we explained, personal property which originally embraced mainly tangible articles, such as cattle and appurtenances of the farm, all easily taxed, to-day is chiefly composed of stock certificates and evidences of debt, which no law, however inquisitorial, can to any great extent bring within the grasp of the assessor. The attempt to tax intangible personalty it was predicted would fail in Ohio, and it has failed, though unfortunately the failure has not yet led to a modification of the erroneous system.

The subject is again called to mind by a history of the practical working of the efforts above referred to reported by the special committee on taxation of the Cleveland Chamber of Commerce, and by President Ingalls, of the Cleveland Cincinnati Chicago & St. Louis Railway Company, at a public dinner in Cleveland. Both the committee's report and Mr. Ingalls' remarks have recently appeared in pamphlet form, and both testify to the utter and ridiculous failure of the stringent measures taken to discover the property and enforce the tax. In passing we may say that an animated discussion is in progress between Mr. Ingalls and the committee as to whether the railroads of Ohio bear their share of the cost of government—an important question but one which we shall not attempt to elucidate, for it does not touch the main point at issue in the committee's report, namely the evils of the personalty tax so far as it applies to intangible property.

It was in 1887 or 1888, we think, that Ohio enacted its present notorious system, requiring the listing of personal property, appointing paid spies to ferret out evasions, assessing the property discovered at not less than 50 per cent above its actual value, and paying the spies a large percentage of the additional income s secured. What has been the result? Has the revenue of the State been largely increased? Far from it. The tendency to evade, as the committee says, grows more marked year by year, and a table is given which shows that in Hamilton County, of which Cincinnati is the county seat, the total assessed valuation now includes less than 3 per cent of intangible property. In Cuyahoga County, in which Cleveland is located, the percentage is about 4½ per cent. The average proportion in the country counties on the other hand is 11·45 per cent. Moreover, by comparison with previous years it is seen that the proportion of intangible property to the whole assessed grows less and less in the city counties, while in the country counties the proportion is a constant one.

This inequality is demonstrated by reference to the cash on deposit returned for assessment. The people of Hamilton County, including Cincinnati, return about $1,400,000, or 3 per cent of the total amount actually in the banks, over against 33 per cent returned by a country county like Montgomery. The total intangible property in Hamilton County moreover, according to the tax returns, including stocks, bonds, moneys and credits, is at present, it seems, only about $7,000,000, contrasting with $17,500,000 thirty years ago. As the report very truly says, "the general property tax is a tax upon all classes of property in the country counties only; in the cities it tends to become virtually a land tax purely." In other words the inequality and ineffectiveness of the system become more transparent as time goes on. And yet strange to say, too, in the face of such disclosures it is the country counties that clamor for the enforcement of the tax on all personalty.

The history of the tax inquisitor in Ohio is also highly instructive. Reformers sometimes in other States advise the construction of similar machinery for catching delinquents. As well might they strive to pick up quicksilver between the fingers. The tax inquisitor in Cuyahoga County, who receives for his services 25 per cent of the amount collected, last year succeeded in obtaining the payment of only $106 445. And yet this is said to be double the amount heretofore obtained, except in one year, 1888, when nearly $150,000 was collected, "the larger part of which came from several large estates, the owners of which immediately changed their residence, ceased to pay taxes here, and have paid nothing since." Only $506,000 in the aggregate was collected by the inquisitors from the entire State, over half this sum coming from three counties, while from thirty-one counties not a dollar was by this means obtained. Scandalous, moreover, to record, is the fact which the committee states, that two men acting as inquistors in three counties have been able in ten years to obtain for themselves as commissions sums aggregating nearly $400,000, with the pitiable result which we have seen to the public revenue.

The committee likewise, and very properly, lay stress on the demoralizing effect as regards public morals of a law which requires the citizens of a State to declare under oath all their taxable property and then applies to the personal property a tax which is in many cases almost confiscatory. To show that the law is so unjust as to incite to perjury and evasions, the committee refer to the taxes which must be paid on stocks and bonds by honest holders. For instance, a man who buys the bonds of the town in which he lives, "receiving $4 a hundred for the money which he has invested, has a right to feel that he is contributing more than his share to the public burden," when the same municipality by way of taxes demands from him $2 81 out of the $4 which has been paid him. So too, they add, persons whose investments in Lake Superior iron mines are paying large taxes to the State of Michigan have a right to feel harshly treated when the State of Ohio demands from them, as it does demand, an additional 20 to 60 per cent of their share of the property's yearly income simply because while holding a certificate of ownership in a Michigan property they happen to live in Ohio.

Aside from perjury and the consequent perversion of the sense of strict honesty which the law produces, its enforcement is a manifest obstacle to the growing prosperity of the State. What every State and municipality requires for its financial and commercial development is unquestionably the presence and support of large supplies of floating capital. To drive those possessing capital away means a loss, direct and indirect, that is incalculable, and out of all proportion to the small income derived from the tax. The committee sum up their record of events by drawing attention to this fact in the following words: "It will be seen therefore that the operation of the law is working out the results which might naturally be expected. In a few counties some little money is obtained which immediately results in the tax payers, from whom it is collected, leaving the county and ceasing to pay taxes in the State thereafter. In the greater part of the State

a few wealthy people are soon exhausted and then the results of the law drop to nothing. There are however indirect results of the operation of the law in our city which are extremely unfortunate. It is within the knowledge of the officers of this chamber that manufacturing corporations which would employ hundreds of men and contribute materially to the growth and prosperity of our city have been recently dissuaded from coming to Cleveland because of this act; specific instances are known of this. In this manner certain it is that capital is kept from our city by the operation of this law; that men of large capital have been driven away from the State and have removed to other States because of this act is of such common notoriety that it would be idle to discuss it."

Massachusetts, like Ohio, clings to old notions regarding taxation, and seeks to collect taxes from stock certificates representing the owner's share in property situated in sister States within whose borders the property itself is already fully taxed. In New York City, too, there is enough impolitic assessing of personal estates to drive many influential persons for residences into the suburbs, or to the more distant places where they may happen to be for the summer. The only material difference between the city of New York and the city of Cleveland is that in Cleveland the existing laws are sought to be enforced and personal property is driven out of town to the greatest possible extent, while in New York the laws are only very partially lived up to. In Europe there is scarcely a vestige left of the old practice formerly so common of trying to levy on things that are intangible. Here we are moving in the same direction, and a State like Ohio renders good service with its inquisitorial tax law by emphasizing the folly of the system.

THE CLEVELAND CINCINNATI CHICAGO & ST. LOUIS AND LOW RATES.

In the annual report of the Cleveland Cincinnati Chicago & St. Louis Railway, published by us last week, President Ingalls makes some observations bearing upon the question of rates, which deserve very careful consideration. They cover a feature to which we have frequently alluded—a recent instance being in the case of the report of the Chesapeake & Ohio, of which Mr. Ingalls is also President; but the point is one of controlling importance in the affairs of the railroads and it cannot be reiterated too often, or too much stress laid upon it. Repeating a remark made by him the previous year, to the effect that the future of the Cleveland Cincinnati Chicago & St. Louis, like that of all railway properties, depended largely upon rates, Mr. Ingalls points out that if the company had received during the late fiscal year the same rate per ton of freight and per passenger per mile as it received only as recently as 1892, it would have had $1,309,616 more of net earnings, an amount equal to over 4 per cent upon the company's stock; that is to say, 4 per cent would have been earned even in such a bad year as the last could the company have obtained the same average rates as three years ago. In the case of the Chesapeake & Ohio we made a similar calculation and reached a similar result a few weeks ago, it being there found that the difference represented by the decline in rates would pay 3 per cent upon the company's stock.

In contemplating the loss in revenues sustained by our railroads during the last two years we are very apt to ascribe it entirely to the depression in business which prevailed and to overlook the part played by the decrease in rates. As a matter of fact the freight movement of the Cleveland Cincinnati Chicago & St. Louis, like that of the Chesapeake & Ohio, was for 1895 the largest ever made. The number of tons actually carried was not quite as heavy as that two years ago, but the tonnage movement one mile was in excess of that for that year, the figures for the last three years being 1,349 million tons for 1895, 1,211 million tons for 1894 and 1,331 million tons for 1893. The freight revenues on the other hand for the three years compare as follows: in 1895 $8,783,930, in 1894 $7 866,967, in 1893 $9,338,787, showing for 1895 $555,000 less earnings on a larger tonnage movement than in 1893. The reason for the loss is found entirely in the reduction in the rates. For 1895 the average at 6·51 mills per ton mile was a trifle higher than the average for the previous year at 6·49 mills, but for 1892-93 the average was 7·01 mills and for 1891-92 7·22 mills. Even in the passenger business there has been a decided decline in rates during the last two years, the average for 1895 being 2·055 cents per passenger per mile, against 2·187 cents for 1893; and here there has also been a considerable falling off in the volume of the traffic, the two together having caused a marked contraction in the passenger revenues, which for 1895 were only $3,785,410, against $4,104,769 for 1894 and $4,307,871 for 1893. It is perhaps well to note that in 1894 the average per passenger per mile had dropped to only 1·882 cents, but the figure in that year was low for an exceptional reason, namely the large amount of travel to the World's Fair taken at very low rates.

In view of this decline in rates—which is merely typical of the condition of things on the railroads generally—one is inclined to wonder that so many roads have escaped bankruptcy and a receivership. In the case of the Cleveland Cincinnati Chicago & St. Louis the good results are ascribed to the excellent physical condition to which the property has been brought by expenditures in previous years for yards, sidings and equipment. President Ingalls notes that the company is to be congratulated on having succeeded in doing what but few railways have during the year, namely held its rate per ton per mile—that is, avoided a further decline in 1895 after the large decline in 1894 and previous years. He is moved to remark, however, that it would seem as though the public interest, as well as that of the stockholders, would be conserved if the road should at least get the low rates prevailing before the panic of 1893.

In this Mr. Ingalls gives expression to an important truth. There can be no question that public interests would be conserved by allowing the roads to obtain slightly better rates. The railroad industry is such a large and important one, and it is so intimately connected with other industries, that to raise it to a plane of prosperity would be certain to give a great stimulus to business activity everywhere in the country. At the same time the increase in rates required to bring about such a situation is so slight that no interest would feel it as a burden. It is the appreciation of the immense importance of better rates that accounts for the zeal and energy displayed by President Ingalls in promoting a new trunk line agreement, and it is certainly to be hoped that he will be successful in his efforts to place rates on an improved and lasting basis.

As regards the results of operations for the year, the company was not of course able to pay anything on its

common stock, but the regular 5 per cent dividends on the preferred stock, calling for $500,000, were paid, and the income account shows that they were earned with a surplus of $49,627 left over. Gross earnings were $13,625,027, against $13,034,049 in the year preceding (passenger earnings having further declined as already shown, while freight earnings recovered a part of their previous loss), but there was at the same time quite an increase in expenses, so that the gain in net was comparatively small, the amount of the net standing at $3,370,959 for 1895 against $3,283,545 for 1894. The increase in expenses is found chiefly under three main heads, namely taxes, car service and maintenance of equipment. The increase in taxes is the result of a court decision against the company, under which the yearly payment for taxes is greatly enlarged; the amount of taxes for 1895 is $539,273 against $405,688 charged out for 1894.

With reference to the increase in the car service payments, which were $309,236 in 1895 against only $164,018 in 1894, the explanation given by Mr. Ingalls brings to light a new difficulty with which railroad managers have to contend. Mr. Ingalls says that the increase is due in the case of passenger cars to the hauling of more sleepers, but in the case of freight (the increase is almost entirely in the freight mileage) it is due "to the fact that more and more each year the higher classes of freight are controlled by transportation companies who own their own cars and in order to secure this freight the company is obliged to use these private cars, paying mileage therefor, while its own are lying idle." As concerns the increase in maintenance of equipment, this has followed from large purchases of new cars and locomotives to replace equipment worn out, as detailed at length in the report.

It is pointed out that the company has had no construction account whatever during the year, all additions and improvements having gone directly to expenses. No bonds were sold during the year with the exception of $91,000 of first consolidated mortgage bonds; $33,000 of bonds were taken up for the sinking fund and canceled, and $680,632 of equipment notes falling due were paid. "The company's accounts receivable have been decreased and its bills audited have increased, but it has no loans and its working balances are in comfortable condition." The balance-sheet shows that outside of the equipment notes, on which the payments due in 1895-6 are $393,914, the aggregate of the current liabilities June 30 1895 was $3,227,380; the amount of the cash and accounts and bills receivable at the same date was $1,433,969.

In the case of the roads separately operated a very noteworthy improvement in the results of operations has occurred. The most important of these is the Peoria & Eastern, and there the change has been very striking indeed. That road increased its gross earnings $201,934 while expenses were actually reduced $84,814, and hence the net was enlarged in the sum of $286,748, making it $463,938 for 1894 5 against only $177,190 for 1893-4. The improvement is ascribed to the fact that the property is now in good physical condition, so that its expenses in the late year were normal, while in the previous year they had included large amounts for betterments; also in part to an increase in the average freight rate received. As a consequence of the improved net earnings, the road was able to show a surplus of $22,317 above the year's fixed charges, whereas in the previous year there had been a deficiency of $264,430. The importance of the change to the C. C. C. & St. L. will appear when we say that under the lease the company has to advance the moneys needed to make good any deficiency, taking reimbursement out of future surplus earnings.

The C. C. C. & St. L. has advanced altogether $893,563 to that road for deficits in earnings and for improvements, and it is also liable, the report says, as indorser upon its notes for $367,567, for which, however, it has $397,000 of its consolidated bonds as collateral. These bonds Mr. Ingalls thinks should be sold and the proceeds applied to the payment of advances, and the balance of the amount either funded or carried as an asset until the net earnings of the leased road shall suffice to pay it. He says that he does not expect any further deficits on that road, but rather a gradual improvement from year to year in its net earnings. The Kankakee & Seneca RR., operated jointly for the account of the C. C. C. & St. L. and the Rock Island, shows for 1894-5 net of $11,222, against a deficiency of $66,512 for 1893-4, and the Mt. Gilead Short Line was operated at a profit of $628, against a deficiency the previous year of $1,090.

COTTON CONSUMPTION AND OVERLAND MOVEMENT FOR SEPTEMBER.

Our usual statements of overland movement, receipts, exports, &c., for September, the opening month of the new crop season, are given below. The amount brought into sight through the ports, interior towns and the rail movement in September exhibits a considerable falling off from the figures for the corresponding period of last year, having been only 542,394 bales, against 663,703 bales in 1894, but as compared with 1893 there is a small increase. Northern spinners have taken 75,062 bales during the month, or a much smaller amount than in the same time in 1894.

OVERLAND MOVEMENT FOR SEPTEMBER,

The *gross* movement overland in September has been only 18,040 bales, against 31,908 bales in 1894 and 23,961 bales in 1893. In this decrease from last year of fourteen thousand bales most of the routes share, but the movement via Cairo and Cincinnati shows the greatest ratio of decline. The *net* for the month makes a less favorable comparison with the previous year than does the gross, the aggregate net being only 8,508 bales, against 21,441 bales in 1894 and 12,865 bales in the preceding season.

OVERLAND IN SEPTEMBER.

	1895.	1894.	1893.
Amount shipped—

Total to be deducted	9,532	10,467	11,096
Leaving total net overland*	8,508	21,441	12,865

* This total includes shipments to Canada by rail, which since September 1 in 1895 amounted to 1,639 bales; in 1894 were 1,686 bales and in 1893 were 1,543 bales.

RECEIPTS, EXPORTS AND SPINNERS' TAKINGS.

The net receipts at the ports in September exhibit an important decrease from the corresponding month last year, but a small excess is seen when contrast is made with 1893. The accompanying table discloses the fact that the decline from last year is shared in by all the important ports. Exports to foreign ports during the month have reached only 111,553 bales, against 202,673 bales last year and 153,275 bales in 1893.

* Great Britain exports include to the Channel.

Using the facts disclosed by the foregoing statements we shall find that the portion of the crop which has reached a market through the outports and overland, and the Southern consumption, during September this year and the two previous years is as follows.

	1895.	1894	1893
Receipts at the ports to Oct. 1 ..... bales.	383,[illegible]	518,762	377,408
Net shipments overland during same time	8,[illegible]	21,441	12,865
Total receipts ..... bales.	392,394	540,203	390,273
Southern consumption since Sept. number 1	80,000	65,000	65,000
Total to Oct. 1 ..... bales	472,394	605,203	455,273

The amount of cotton marketed during September in 1895 is thus seen to be 135,809 bales less than in 1894 and 17,121 bales greater than in 1893. To determine the portion which has gone into the hands of Northern spinners during the same period we have prepared the following:

Total receipts in September, 1895, as above ..... bales.		472,394
Stock on hand commencement of year (Sept. 1, 1895)—		
At Northern ports	169,527	
At Southern ports	110,536 - 280,063	
At Northern interior markets	5,782 -	285,845
Total supply to October 1, 1895		758,239
Of this supply there has been exported to foreign ports since Sept. 1, 1895.	111,553	
Less foreign cotton included	2,336 -	109,217
Sent to Canada direct from West		1,939
Burnt North and South		.....
Stock on hand end of month Oct. 1, 1895—		
At Northern ports	168,449	
At Southern ports	319,088 -	487,537
At Northern interior markets	4,784 -	603,177
Total takings by spinners since September 1, 1895		155,062
Taken by Southern spinners		80,000
Taken by Northern spinners since September 1, 1895		75,062
Taken by Northern spinners same time in 1894		115,179
Decrease in takings by Northern spinners this year ..bales.		40,117

The above indicates that Northern spinners had up to October 1 taken 75,062 bales, a decrease from the corresponding period of 1894 of 40,117 bales, and a gain over the same period of 1893 of 34,624 bales.

AMOUNT OF CROP NOW IN SIGHT.

In the foregoing we have the number of bales which has already been marketed this year and the two previous seasons. An additional fact of interest is the total of the crop which was in sight on October 1 compared with previous years, and which is shown in the following:

	1895.	1894.	1893
Total marketed, as above....bales.	472,394	608,203	455,273
Interior stocks in excess of Sept. 1.	70,000	55,500	56,000
Total in sight.....bales.	542,394	663,703	511,273

This indicates that the movement during September of the present year is 121,309 bales less than in 1894 and 31,121 bales in excess of 1893.

WEIGHT OF BALES.

To furnish a more exact measure of the receipts up to October 1 we give below our usual table of weight of bales. We give for comparison the figures for the same time in the two previous years.

	September 1895.			Same per'd in 1894	Same per'd in 1893.
	Number of Bales.	Weight in Pounds.	Average Weight.	Average Weight.	Average Weight.
Texas	103,300	55,765,472	539·84	553·53	550·24
Louisiana	95,768	50,211,162	524·30	530·00	497·90
Alabama	15,346	7,857,152	512 00	520·00	520·00
Georgia*	86,849	43,702,184	492·98	506·43	506·75
South Carolina	43,521	21,274,370	488·83	516·76	500·00
Virginia	12,267	6,133,500	500 00	495·00	481·33
North Carolina	19,153	9,384,970	490·00	506·30	497·33
Tennessee, &c..	94,320	47,195,000	500·00	499 50	491·78
Total	472,394	241,523,810	511·28	521 85	510·99

* Including Florida.

It will be noticed that the movement up to October 1 shows a decrease in the average weight as compared with the same period of last year, the average this year being 511·28 lbs. per bale, against 521·85 lbs. per bale for the same time in 1894 and 510·99 lbs. in 1893.

THE DRY GOODS TRADE DURING SEPTEMBER.

If the market for cotton goods during the month of September were to be judged by the volume of business transacted it would prove on the whole somewhat disappointing, but as a matter of fact the demand, particularly in staple cottons, was quite a subsidiary factor. The month opened with a strong tone ruling, and under the dominating influence of the continued rise in the price of raw cotton it closed with an extraordinary condition prevailing. The course of prices shown in the table below fails to fully indicate the situation. Standard sheetings (Atlantic As) are unaltered, but the price is nominal, agents taking orders at value only, whilst there have been general advances of ¼c. in lower-priced makes, and some high-grade goods are held at 6½c. and three yards are in limited supply at 5½c. Even this leaves something more to be told, and that is that a number of manufacturers are refusing to take orders in domestics for future delivery, although tendered at the highest point of current quotations. The market thus not only shows unusually light stocks of brown, bleached and colored cottons, but abnormally restricted opportunities open to buyers to make contracts ahead. Brown goods may be quoted nominally ½c., bleached ½c. to ½c., coarse colored ½c. to 1½c., and wide sheetings 1c. to 2½c. per yard upon the month. Cotton dress fabrics have on the whole ruled dull, a spell of very hot weather during the month affecting adversely the distribution of dark work in both printed and woven patterned lines. Prices of regular prints show an occasional advance of ½c. and staple ginghams advanced ½c. to ½c. per yard. Print cloths gained 1-16c., advancing to 3½c. for extras, but sellers declining bids thereat at the close.

The above prices are—For cotton, low middling uplands at New York; for printing cloths, manufacturers' net prices; for sheetings and ginghams, agents' prices, which are subject to an average discount of 5 per cent, except when otherwise stated; Southern sheetings net.

FAILURES FOR THIRD QUARTER AND SINCE JANUARY 1.—The following figures, prepared by Messrs. R. G. Dun & Co., show the number of failures in the United States and Canada during the quarter ending September 30, 1895, and the nine months. For purposes of comparison like figures for the corresponding periods of the preceding year are given :

Third Quarter.	1895. No. of Failures.	1895. Amount of Liabilities.	1894. No. of Failures.	1894. Amount of Liabilities.
New England States	303	$3,322,857	348	$4,263,045
Middle States	769	9,907,196	789	11,314,066
Southern States	420	3,909,929	387	2,916,713
Southwestern States	186	2,580,282	161	831,883
Central States	523	8,069,514	513	5,329,414
Western States	299	3,109,081	383	2,910,029
Pacific States and Territories	292	1,368,320	287	1,846,046
Aggregate United States	2,792	$32,167,179	2,868	$29,411,196
Dominion of Canada	432	$3,390,218	472	$3,634,303

Nine Months.	1895. No. of Failures.	1895. Amount of Liabilities.	1894. No. of Failures.	1894. Amount of Liabilities.
New England States	1,1 4	$14,049,095	1,232	$18,751,733
Middle States	2,456	43,535,205	2,578	45,404,614
Southern States	1,771	18,721,360	1,768	23,227,540
Southwestern States	692	6,109,070	579	5,238,552
Central States	1,559	23,110,194	1,569	17,472,443
Western States	965	9,574,854	1,055	12,155,456
Pacific States and Territor's.	892	5,907,345	1,026	8,893,964
Aggregate United States	9,449	$121,007,123	9,907	$131,144,802
Dominion of Canada	1,339	$9,928,203	1,514	$13,109.716

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.—Stock Exchange Clearing-House Transactions.—The subjoined statement, covering the clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1894 there is an increase in the aggregate of 14·8 per cent. So far as the individual cities are concerned New York exhibits an increase of 18 per cent, and the gains at other points are: Boston 17·8 per cent, St. Louis 27·8 per cent, Philadelphia 9·5 per cent, Baltimore 0·8 per cent, New Orleans 43·6 and Chicago 7·0 per cent.

CLEARINGS. Returns by Telegraph.	Week Ending October 5. 1895.	1894.	Per Cent
New York	$581,853,882	$493,241,785	+18·0
Boston	96,737,724	82,146,038	+17·8
Philadelphia	69,977,520	63,905,603	+ 9·5
Baltimore	11,053,774	10,968,882	+ 0·8
Chicago	84,500,048	78,956,995	+ 7·0
St. Louis	21,601,460	16,903,284	+27·8
New Orleans	9,084,386	6,327,383	+43·6
Seven cities, 5 days	$874,808,794	$752,449,924	+16·3
Other cities, 5 days	150,011,222	136,017,231	+10·3
Total all cities, 5 days	$1,024,820,016	$888,467,155	+15·4
All cities, 1 day	179,197,723	159,984,902	+12·0
Total all cities for week	$1,204,017,739	$1,048,452,057	+14·8

Another table, our usual monthly detailed statement of transactions on the various New York Exchanges, has also been crowded off of the first page. The results for the nine months of the current year are, however, given below and for purposes of comparison the figures for the corresponding period of 1894 are also presented.

Description.	Nine Months, 1895. Par Value or Quantity.	Actual Value.	Aver'ge Price.	Nine Months, 1894. Par Value or Quantity	Actual Value.	Aver'ge Price.

Monetary and Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, Sept. 21, 1895.

The relations of France and Russia are exciting a good deal of attention throughout Europe just now. The Russian Foreign Minister and a Russian military delegation, at the head of which is a distinguished General, attended the French military manœuvres which have just ended and were entertained at a banquet by the President of the Republic. Furthermore, the Russian Finance Minister has lately been in France, and a St. Petersburg banker is there at present who is believed to be his confidential adviser. One explanation offered is that Russia and France are merely replying to the Triple Alliance, the Emperor Francis Joseph and an Italian Prince having attended the German military manœuvres. To this it is replied that that does not account for the presence of the Finance Minister and therefore another story is current which, however, is a mere guess: that France and Russia are concerting some great movement, and are considering not only the military but the financial preparations necessary. A third story is that there is no connection between the visit of the Foreign Minister and that of the Finance Minister; that the latter came to France to arrange about another Russo-Chinese loan; whatever the real facts may be, there is much speculation; and although the public is looking on unmoved there is undoubtedly uneasiness in diplomatic circles all over Europe.

Gold continues to pour in in vast amounts. The supply of unemployed capital is therefore increasing, and rates of interest and discount are as low as ever and are likely to remain so for the rest of the year. It is true that trade is improving; but the improvement is slow and will not for some time yet affect the money market. It may be noted, however, that at the Colonial wool sales in Sydney this week there was a decided rise in wool, and there is expected to be a further rise at the London sales which begin next week. Great damage has been done to the flocks in New Zealand; and although satisfactory rains are reported from New South Wales and Southern Queensland, it is feared that there has been and will be much mortality, especially among lambs, in both colonies. The supply of wool in the early future is therefore thought likely to be rather short. The woolen manufacturing industry all over Europe is very active.

The silver market is quiet, and this week there has been less speculation in silver securities. Especially there has been a decided check to the speculation in Indian rupee paper. For all that, there is a firm tone. The report that the Russian Finance Minister is arranging in France for a new Russo-Chinese loan to be brought out in November is thought to foreshadow considerable purchases of the metal by either China or Japan, or possibly both. Nothing is yet known as to whether the loan is really to come out so soon; and of course it is possible that China may merely borrow enough to complete the indemnity to Japan and so hasten the evacuation of her territory. For the moment there is very little demand for silver for the Far East.

The stock markets have been quieter this week than for some time past. It will be recollected that at the fortnightly settlement on the Stock Exchange last week there was found to be a very large "bull" account and that many of the weaker operators were unable to carry over. Consequently realizations have continued ever since. Furthermore the Jewish New Year holidays, which began on Thursday, have decidedly checked business. Early in the week the Jewish operators abstained from business, and they have for the most part been absent since Wednesday. An adverse influence, too, has been exercised by fears of a strike in the ship-build-

ing yards on the Clyde; especially there has been a fall in Scotch railway stocks. At the same time the feeling on the Stock Exchange is as hopeful as ever, and most members expect that when the fortnightly settlement next week is ended there will be a great revival of business.

In the mining market, more particularly, the Continent continues to buy, and the reports received from Paris, Berlin and Vienna are that interest in mines is spreading, and that after the present pause transactions will become larger and more numerous than ever. It is to be noted that whereas until lately the chief interest centered in the Witwaterstrandt district and one or two other districts of the Transvaal, now there is a very large business being done in the Chartered Company's territory; and the interest felt in Western Australia is also decidedly increasing. Herr Schmeisser, the German Government mining expert, is in Western Australia at present at the instance of several mining companies, and if his reports are as favorable as is expected that will undoubtedly stimulate investment there.

In the American department not much has been doing here, partly owing to the absence of so many great operators and partly owing to the continued gold shipments. But while the public is abstaining, it is very closely watching for any sign of a wiser currency policy on the part of Congress. If proper measures were to be taken there is every reason to believe that British investments in the United States would be on a scale perhaps never before witnessed; and no doubt the Continent would invest very largely likewise.

For the past two or three days a check to the advance in Argentine securities has been given by the rise in the gold premium. Within less than three months the premium fell about 15 per cent; now it is rising rapidly again. The best opinion is that the fall was brought about by manipulation and that it was altogether excessive. However that may be, stocks rose rapidly while the premium was going down, and now they are declining as it is going up again.

In British securities of all kinds there is little doing, and not much either in Colonial. Inter-bourse securities are fairly firm, being supported mainly by Paris. But the best opinion in Paris seems to be that French rentes will decline, owing to the heavy cost of the Madagascar expedition and the unwieldly magnitude of the floating debt, which must soon be funded. The negotiations for a Spanish loan do not appear to be making much progress. And the Cuban expedition is hanging like a mill-stone round the neck of Spain.

The rates for money have been as follows:

London.	Bank Rate.	Open Market Rates. Bank Bills. Three Months	Four Months	Six Months	Trade Bills. Three Months	Four Months	Six Months	Interest allowed for deposits by Joint Stock Banks	Disc't H'se At Call.	Disc't H'se 7 to 14 Days.

CHANGES IN LEGAL TENDERS AND NATIONAL BANK NOTES TO OCTOBER 1.—The Comptroller of the Currency has furnished us the following, showing the amounts of national bank notes September 1, together with the amounts outstanding October 1, and the increase or decrease during the month; also the changes in legal tenders held for the redemption of bank notes up to October 1.

National Bank Notes—		
Amount outstanding September 1, 1895....		$212,249,173
Amount issued during September.....	$1,239,120	
Amount retired during September	726,056	513,064
Amount outstanding October 1, 1895*		$212,762,237
Legal Tender Notes—		
Amount on deposit to redeem national bank notes Sept. 1, 1895.....		$24,238,830
Amount deposited during September.....	$633,587	
Am't reissued and bank notes retired in Sept.	727,057	93,470
Amount on depos't to redeem national bank notes October 1, 1895		$24,165,360

*Circulation of National Gold Banks, not included in above, $89,697.

According to the above the amount of legal tenders on deposit October 1 with the Treasurer of the United States to redeem national bank notes was $24,165,360. The portion of this deposit made (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation, and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months:

Deposits by—	June 1.	July. 1.	August 1.	Sept. 1.	Oct. 1.
	$	$	$	$	$
Insolv'nt bks.	949,924	1,017,913	962,710	934,280	888,656

WALL STREET, FRIDAY, OCT. 4, 1895.—3 P. M.

The Money Market and Financial Situation.—Business in Wall Street has been dull and generally featureless during the week and prices for all classes of securities have moved within a very narrow range. These conditions may be accounted for in part by the interest manifested in the cotton and grain markets, which continue to be favorite fields for speculation.

Of the few features of interest the more favorable condition of the foreign exchange market and the cessation of gold shipments are among the more prominent.

The statements of the principal European banks, published on Thursday, are of special interest. They all show considerable losses of specie and a large increase of outstanding circulation. This though does not amount to as much as would appear from the bare statement. So far as the Bank of England is concerned the loss is due not to an export but wholly to a movement of £970,937 to the interior of Great Britain.

We learn from excellent authority that progress is being made with the new Reading plan of reorganization, and that it will soon be announced.

The anthracite coal business continues to improve and evidence is accumulating that this important industry will soon be established upon a firmer basis than it has occupied during the year thus far.

The phenomenal development in the iron trade is reflected in the advance in prices during the week of the stocks and securities of some of the iron-producing properties. This is especially true of the Tennessee Coal & Iron Company, the Illinois Steel Company, the Colorado Fuel & Iron Company and the Duluth & Iron Range Railway Company.

The money market has been somewhat more active, owing to the demand from the interior and the October first settlements and disbursements.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 1½ to 2½ per cent. To-day rates on call were 1½ to 2 per cent. Prime commercial paper is quoted at 4½ to 5½ per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £970,937, and the percentage of reserve to liabilities was 59·38 against 61·52 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 17,950,000 francs in gold and 1,700,000 francs in silver.

The New York City Clearing-House banks in their statement of Sept. 28 showed a decrease in the reserve held of $2,479,300 and a surplus over the required reserve of $22,296,175 against $22,448,500 the previous week.

Foreign Exchange.—The foreign exchange market has continued weak on a liberal supply of commercial bills, and rates have further declined. Gold bills have disappeared from the market, and no gold has been shipped to Europe during the week.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 86¾@4 87; demand, 4 87¾@4 88; cables, 4 87@4 88¼.

Posted rates of leading bankers are as follows:

October 5.	Sixty Days.	Demand.
Prime bankers' sterling bills on London..	4 87 @4 88	4 88 @4 89
Prime commercial	4 86½@4 86½	.....
Documentary commercial.....	4 85¾@4 86	.....
Paris bankers' (francs).....	5 19¾-5 18¾	p. 5 18⅛@5 17 7/16
Amsterdam (guilders) bankers.	40 1/16@40 1/8	40⅛@40¼
Frankfort or Bremen (reichmarks) b'kers'	95⅝@95 5/16	95⅝@95 11/16

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛@1-10 premium; Charleston, buying ⅛ discount, selling par; New Orleans, bank, $1 00 premium; commercial $2 00 premium; Chicago, 50c. per $1,000 discount; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Government bonds have been active and quotations are higher than last week. Sales at the Board include $35,000 4s, coup., 1925 at 122½ to 123; $2,500 4s, reg., 1907 at 111¾ to 112½; $5,000 5s, coup., at 116⅛ and $1,000 4s, coup., 1907 at (ex. int.) 111¾.

Following are closing quotations:

Total	22,310,954	17,314,459	.....	.....	.....

State and Railroad Bonds.—Sales of State bonds at the Board include $5,000 Alabama Class A at 105½, $3,000 Louisiana con. 4s at 98½, $10,000 Virginia fund. debt 2-3s of 1991 at 63, and $20,000 Va. 6s defd. trust rects., stamped, at 6½.

The railroad bond market has been steady to firm, with the activity confined chiefly to a few issues which include the Atchison, Chesapeake & Ohio, Chicago & Erie, Louisville N. A. & Chicago, Mo. Kan. & Texas, No. Pacific, Oregon Imp., Oregon Short Line, Phila. & Reading, St Louis Southwest., Tenn. Coal & Iron, Texas & Pacific, Union Pacific and Wabash bonds. Duluth & I. R. 1sts have been strong on the excellent showing of the company's business and have gained 1½ points. D. & Rio G. have advanced about 2 points. Ore. Imp. Con. 5s have fluctuated between 86½ and 40, closing at 38½. The Atchison & Reading issues have been steady and Tex. & Pacifics strong.

Railroad and Miscellaneous Stocks.—The stock market has ruled firm on a limited volume of business, which has been largely of a professional character. Prices in the railroad list have generally moved within narrow limits. The grangers have been strong on increased earnings and the certainty of heavy traffic during the coming months. North West. and Burlington & Quincy have made fractional gains within the week. St. Paul has been the most active of the group and is reported to have been freely sold for London account, but has been readily absorbed. The leading coal stocks, except Reading, have been exceptionally dull, and are firmly held. Lackawanna & Western advanced nearly 4 points above the previous highest price of the year on Tuesday, but even that rise failed to bring out much stock. Reading has been the most active of the railroad list, fluctuating within two points, and closes at 20⅜. The Southwestern stocks have been firm on liberal sales. Wabash pref. and Wheeling & Lake Erie shares have been relatively active without notable change in quotations.

The industrial list has, as usual, been in favor with the speculating element, with Chicago Gas, Am. Sugar and Distilling the most conspicuous. The former has advanced on buying reported to be by strong interests, and expectation of an early reorganization. Distilling reached the highest point of the year on Monday, when it sold at 25⅛. It is again reported that conflicting interests in this property have harmonized, and that the reorganization will soon be completed. Tenn. Coal & Iron has advanced about 2 points and Illinois Steel 7 points, on the improved conditions in the iron industry. The market has been weak to-day in consequence of a reported break in Kaffirs at Paris, higher rates for money and liberal selling for foreign account.

Declines are general, averaging a point or more.

NEW YORK STOCK EXCHANGE—*ACTIVE STOCKS for week ending OCTOBER 4, and since JAN. 1, 1895.*

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every STEAM road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page.

ROADS	Latest Gross Earnings.			Jan. 1 to Latest Date.

For the month of September 38 roads (all that have furnished statements for the full month as yet) show aggregate results as follows:

Month of September.	1895.	1894.	Increase.	Per Cent.
	$	$	$	
Gross earnings (38 roads)	24,336,938	23,297,505	1,039,433	4·46

It will be seen there is a gain on the roads reporting in the amount of $1,039,433, or 4 46 per cent.

Net Earnings Monthly to Latest Dates.—The table following shows the net earnings of Steam railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the Chronicle of September 21, 1895. The next will appear in the issue of October 19, 1895.

STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the *gross* earnings for the latest period of all Street railways from which we are able to obtain

weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month

STREET RAILWAYS AND TRACTION COMPANIES.

* Road in process of reconstruction.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns. The latest full statement will be found in the CHRONICLE of September 21. The next will appear in the issue of October 19.

ANNUAL REPORTS.

Louisville & Nashville Railroad.

(Report for the year ending June 30, 1895.)

The annual report of the Board of Directors (Mr. August Belmont, Chairman, and Mr. M. H. Smith, President) will be found in full on subsequent pages of the CHRONICLE with many valuable tables.

The statistics for four years have been fully compiled for the CHRONICLE as below.

Minneapolis & St. Louis Railroad.

(Report for the year ending June 30, 1895.)

The report contains the following remarks by President William L. Ball.

General Results.—This company commenced its operations on the termination of the receivership Nov. 1, 1894, but in order to furnish a basis for comparison with previous years, a statement is given for the last four months of the receivership, from June 30, 1894, to Nov. 1, 1894. It should be noted, however, that against this period are charged items aggregating $57,158, which had accumulated

during a long period of years, and which were brought to notice in the settlement of the receiver's accounts, and that in this way the ratio of operating expenses became abnormally large. This sum of $57,158, if added to the nominal net earnings of the road's operations for the past twelve months, would increase our net to $834,368 for the year ending June 30, 1895. In spite, however, of this fact the nominal net earnings for the entire year covered by this report show a handsome increase over those of the previous one, and the directors feel that the stockholders have reason to congratulate themselves on this result.

Financial Condition.—The company is without any floating debt whatever, and has in its treasury $276,360 in cash, as well as $282,000 consolidated mortgage 5 per cent bonds; $109,287 first preferred stock; $57,250 second preferred stock, and $379,600 common stock; also $95,000 5 per cent bonds of the Minnesota Transfer Company and one-eighth of its capital stock. The company has obtained judgment whereby the sum of about $75,000, secured by real estate at Kenwood, will be realized by the company.

Terminals.—The company has acquired additional real estate abutting on its present terminals in Minneapolis and paid for the same out of treasury funds. Our terminal properties at Minneapolis are very valuable and our facilities for handling the business of the company at that point for many years to come are unsurpassed.

The company has entered into contracts with the St. Paul & Duluth RR. Co. and with the receivers of the Northern Pacific RR. Co. for the use of terminals. The St. Paul & Duluth RR. Co. will use our freight terminals, thus giving us an additional income, besides reducing cost of maintaining them. The contract with the Northern Pacific Company and its receivers gives this company an entrance into St. Paul on terms of a very material reduction from the old contract in force at the termination of the late receivership.

Physical Condition.—The policy of improving the condition of the property generally has been steadily and conservatively carried out. The Chief Engineer reports that the bridges, buildings and track of the road are in good order, and that the property is in a high state of efficiency. The motive power is in excellent condition and appears to be sufficient for the demands of our business. Five thousand tons of steel rails were purchased last spring, at $23 per ton, before the advance in the price of rails took place.

Prospects.—The prospects for the current year are such as to justify the belief that the business of the road will show a substantial increase in net earnings.

Statistics.—The comparative figures for four years have been compiled for the CHRONICLE as follows:

EARNINGS AND EXPENSES.

	1894-95.	1893-94.	1892-93.	1891-92.

—V. 61, p. 69.

St. Louis Southwestern Railway.

(Report for the year ending June 30, 1895.)

President S. W. Fordyce, in the annual report, speaks in substance as follows:

Financial Results.—During the greater portion of July, 1894, the prevalence of the American Railway Union strike on connecting lines caused a general stoppage of through traffic and a consequent decrease in local traffic. The great financial and industrial depression, now it is hoped becoming a matter of history, continued during the early portion of the fiscal year ended June 30, 1895. The rate war to Southwestern Territory points existed during the entire month of June, 1895, but is now terminated and satisfactorily adjusted. Notwithstanding these adverse conditions, the gross and net results for the late fiscal year have largely exceeded those of any previous fiscal year in the history of the property.

As compared with the preceding fiscal year, the increase in gross earnings is 13·04 per cent and in net earnings 67·25 per cent. After providing for all charges there was a surplus of $306,189, while for the fiscal year ended June 30, 1894, there was a deficit of $197,763. Of the surplus income for the year just ended there has been applied toward the reduction of equipment trust obligations $139,139 for net additions to rolling stock $45,353, and the balance has been utilized mainly in reducing the floating debt, as shown June 30 1895, a large portion of which was caused by the deficit of $197,763 for the fiscal year ended June 30, 1894.

There has been expended for betterments and charged to operating expenses during the fiscal year ended June 30, 1895, the sum of $197,086, an increase over the amount of expenditures of a similar nature during the year ended June 30, 1894, of $83,539 and during the year ended June 30 1893, of $ 4,421.

Floating Debt.—First mortgage certificates for $176 302 were sold during the year for $120,444. Of this sum, $94,500, together with $121 697 from the year's surplus, was applied to reduction of the floating debt. The total floating debt June 30, 1895, including interest and taxes accrued, &c., was $1,068 683, contrasting with $1,290 434 June 30, 1894; current assets, including supplies, aggregated $532,554; making the net floating debt $536,128, against which are securities of an estimated market value of $328,747. The report says:

"After taking into consideration outstanding notes not due, taxes and interest accrued but not due, and the market value of investments in stocks and bonds, it will be seen from the following summary that the company has practically no floating debt."

The amount due the estate of Jay Gould has been reduced from $270,000 to $175,500. The securities in the treasury include $325,000 first mortgage certificates, &c.

Traffic.—Lumber still continues to form nearly one-half of the entire tonnage handled by this company. For the year ended June 30, 1895, compared with the preceding year, the tonnage of this commodity shows an increase of 34,450 tons, or 5·19 per cent. The cotton movement was the largest in the history of the road. The total number of bales hauled was 628,015, an increase compared with the previous year of 227,585 bales, the revenue therefrom being $1,019 333, against $744,484 in 1893-94. The increase in freight train mileage is only 4 32 per cent, as against an increase of 10 63 per cent in the total tonnage transported and an increase of 16·41 per cent in freight earnings.

Maintenance and Equipment.—The management having adopted as its standard steel rail weighing 75 pounds to the yard, 1,000 tons of such rail (sufficient to lay about eight track miles) were purchased during the month of June, 1895. Before the close of the fiscal year 4·1 miles of this rail were laid and the remainder has been laid since the close of the fiscal year. A contract has been let for 1,000 tons more of 75-pound rail for renewal purposes. As to equipment the report says:

Air brakes have been applied to 13 locomotives and 1112 freight cars and automatic couplers to 132 freight cars. In view of the steady improvement in the roadbed, the use of heavier locomotive equipment is considered more feasible now than in the past. The saving in operating expenses that would accrue from the use of heavier modern locomotives would pay for their first cost in two years. The necessity of equipping the company's locomotives and cars with air brakes and automatic couplers is very urgent. The work of equipping locomotives is almost completed, but comparatively few freight cars are so equipped. On June 30, 895 there were 56 locomotives and 4,15? freight cars requiring air brakes and 4,118 freight cars requiring automatic couplers. It is estimated that in order to thus equip this rolling stock it will require a monthly expenditure in the neighborhood of $12,000 for the succeeding thirty months.

The following table gives various statistics relating to road, equipment, train loads, etc., for the fiscal years ending June 30.

Road—	1895.	1894.
Main line and branches owned	1,223	1,223
Wgt. of rails on above—		
75 lbs. (steel) miles	4	....
56 lbs. (steel) miles	1,071	1,075
35 lbs. (steel) miles	148	148

Trestles (miles)	49	49

	1895.	1894
Total equipment—		
Locomotives (No.)	137	138
Passenger cars (No.)	95	91
Freight cars (No.)	4,400	4,379
Special statistics—		
Aver. train mileage—		
Freight train (tons)	161	154
Passengers per train (number)	27	28
Main. of way, etc —		
Amount per mile	$882	$846
New ties number laid per mile	518	481

General Remarks.—The yield of cotton in the section of country tributary to these lines, it is estimated, will be reduced the present season by about one-third. The loss in revenue resulting, it is believed, will be largely overcome by increases in other commodities and in the general improvement in the business of the country.

The change to standard gauge of the Tyler Southeastern Ry. was completed September 1, 1895. Arrangements have been perfected by which your company will have desirable outlet for its business (particularly lumber and cotton) by way of Delta, Cape Girardeau, Mo., and the Chicago Paducah & Memphis and Chicago & Texas railroads to a connection with the Wabash at Altamont, Ill. It is believed that the opening of this new line will add much to the value of your property. Emigration from the Northwest as well as from the Southeast continues to move into the country contiguous to your lines of railway, and the general improvement in the development of the Southwest continues.

Statistics.—Operations, earnings, charges, etc., of the combined system, compiled for the CHRONICLE, were as follows:

—V. 61, p. 569.

Chicago & Eastern Illinois Railroad.

(Report for the year ending June 30, 1895.)

In his annual report President M. J. Carpenter says in part:

General Remarks.—It is unnecessary to go into details of the well known unfavorable conditions that existed throughout the country during the period covered by this report. It is a pleasure to say that notwithstanding these conditions the road's entire physical properties are first-class, and the earnings of the coming year will not have to be diverted to repairs of equipment or track, except such as are incidental to that year. We have not attempted to postpone necessary current expenditures for the future to take care of. There was no change during the year in bonded debt or capital stock.

The decrease in gross earnings was 4·98 per cent and in net earnings 17·09 per cent; operating expenses having been 63·65 per cent of earnings this year, as against 58·80 per cent last year. Compared with last year there was an increase in freight earnings of $112,500, equal to 7·98 per cent and a decrease in passenger earnings of $381,921, equal to 35·72 per cent. The low average rate, revenue and distance per passenger is due to Chicago suburban business.

Four quarterly dividends of 1½ per cent each, making 6 per cent, were paid on the preferred stock, aggregating $240,842, necessitating the transfer from the surplus carried forward from previous years of $138,559.

Improvements, Construction.—With regard to improvements, charges to construction account, etc., the report says:

Improvements.—There was taken out a total of 1,973 lineal feet of pile trestles, which were replaced by permanent work. One 6-inch-foot arch was built north of Kempton, and 344 feet of trestle bridge filled in. The work of substituting iron spans for old combination spans over the Wabash river, Attica, was completed. A branch of 4·6 miles was built from the Roseville-Sidell line to the Mission Field coal mines. Some 60,000 cubic yards of gravel have been put on the track between Momence and Dolton, and a good start made toward putting it ballasted.

Changes in Operating Expenses.—Three hundred and two old cars were worn out in service were removed and a proper charge made to operating expenses. Everything has been done necessary to keep the property up to its previous good condition, and all the new work has been so done as to improve the general condition of the property. Extraordinary charges aggregating $45,468 were made to operating expenses as follows: On account of wreck in January, $43,4 5,45; wreck in October, 1892, $4,50; proportion of terminal expenses improperly charged to A. T. & S. F. R. R., $14,6 ; old cars destroyed, less salvage, 63 ,822; improvements to equipment to conform to United States laws, $4,8 5.

Construction Account.—There was charged to construction account $9 ,260; new brick and side tracks, $ 5,787; new stations and warehouses and other buildings, $14,559; bridges, masonry and structures over cost of renewal, $14,017.

Statistics.—Operations, earnings and charges are shown below for four years:

—V. 60, p. 480.

New York New Haven & Hartford Railroad.

(Report for year ending June 30, 1895.)

The pamphlet report has not yet come to hand, but from the United Press dispatches the facts below given regarding its contents are obtained.

Earnings.—The earnings and balance sheet for the late fiscal year were given in the CHRONICLE of Sept. 14, page 483. The annual report confirms the figures there given and shows that out of the year's surplus of $3,478,980, dividends aggregating $3,794,290 were paid, leaving a deficit for the twelve months of $315,310. The passenger earnings aggregated $ 5,298,656; freight earnings, $12 3 8,958. These figures refer to the same property and the same mileage reported last year. The statement says: "Stockholders will be gratified to note an increase of 9 per cent in the gross revenue of the properties, which is mainly due to the improvement in the business situation. Subscriptions to original issue debenture certificates amounted to $13,188,24 , of which $13,122,240 was taken."

New England RR.—The manner in which this road is controlled is stated in the report as follows: "The New England Railroad Company, at the writing of this statement, is in possession of the property formerly known as the New York & New England. Its lines reach many points in Southern New England which are also served by the roads of this company. At most of these points separate organizations are maintained. It is apparent that if the management of the two properties is unified the expenses of each can be diminished materially by the consolidation, upon equitable terms, of agencies, yards and freight houses at these points, and the customers of each company can enjoy the benefits of the facilities belonging to both. The properties will then yield the best results to each corporation and to the public. Your directors have therefore accepted an offer for the delivery, prior to the annual meeting, of a majority of the capital stock of the New England Railroad Company, and have also purchased $5,00 ,000 of its new 5 per cent mortgage bonds. But it is not proposed to make any consolidation with, or lease of, the New England Railroad."

Stamford Street RR.—The report also confirms the rumor that the company has secured a controlling interest in the

Stamford Street RR. Co. and proposes to develop that property in close relationship with its own property.

Nantasket Beach Branch.—Of the electrical equipment of the Nantasket Beach road the statement says:

The experiment has demonstrated that power generated in a stationary plant and transmitted by electrical agency can be successfully used in the operation of a standard railroad. The current expenses for fuel indicate that this result is economically obtained. Power thus transmitted is capable of indefinite subdivision and is therefore most available for frequent car service. The commercial result depends only on the number of electrical equipments. The use of the existing power station will be extended presently, and it is probable that electricity will be promptly adopted by the company at other points on its lines. With a road free from grade crossings it is not too much to expect its ultimate application wherever the business justifies a frequent train service and, it is hoped, without the use of an overhead trolley.

Steamship Stock.—The road now holds the entire stock of the Fall River Line and 18,233 of the 25,000 shares of the Providence & Stonington Line.—V. 61, p. 559.

GENERAL INVESTMENT NEWS

Reorganization Plans, etc.—The following is an index to all statements relating to defaults, foreclosure sales, reorganization plans, reorganization committees, payment of coupons, and receiverships, of the principal companies, that have been published in the CHRONICLE *since* the last editions of the INVESTORS' and the STREET RAILWAY SUPPLEMENTS were issued, all earlier facts of this nature being set forth therein. It does *not*, however, include matter in to-day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.*, for default; *Com.* for committee.

Alabama Great Southern Ry.—Southern Ry.—*Change of Directors.*—Representatives of the Southern Railway were elected this week to fill a majority of the places on the board of directors of the Alabama Great Southern Ry Co., which property therefore formally goes under the control of the Southern Railway system. It will be operated as an independent property.—V. 61, p. 569.

American Spirits Manufacturing—Distilling & Cattle Feeding—*Greenhut-Morris Settlement.*—The following from the New York *Times* is pronounced to be a substantially correct statement of the settlement made this week with the Greenhut-Morris interest:

Acceptance of the reorganization plan in full and installation of the American Spirits Manufacturing Company as successor; depositing 1,500 shares of certificates now controlled by the Greenhut-Morris opposition in New York with the holders of the majority interest; surrender of $1,000,000 bond issue at 50 cents on the dollar; withdrawal of all pending suits, including the litigation before Judge Beekman in the New York courts, attacking the purchase by the Reorganization Committee, the suits for the recovery of damages under cattle-feeding contracts by Nelson Morris, and the cessation of litigation to attempt the recovery of distilling plants by individual distillers.

The property has been turned over to the American Spirits Manufacturing Co., but when the new securities will be issued is uncertain.

The Chicago *Times-Herald* says: "Greenhut and Morris will receive 55 cents on the dollar for the $800,000 of bonds they hold and Greenhut will be paid $28 50 per share for the stock which he holds in the old company. An amicable arrangement has also been made with reference to ground leases of some of the property."—V. 61, p. 558.

Atchison System—Chicago Santa Fe & California Ry.—*Suit for Interest.*—At Topeka, Kan., William C. Osborn and Charles Guthrie have brought suit in the United States District Court against the receivers of the Atchison to compel payment of coupons on the Chicago Santa Fe & California 5 per cent bonds for $629,000, the outstanding portion of the loan for $15,350,000, of which the balance is owned by the Atchison, having been exchanged for Atchison bonds in the reorganization of 1889. These coupons remain unpaid, although Judge Caldwell is claimed to have ordered their payment some time ago.—V. 61, p. 557.

Bangor & Aroostook RR.—*Extension.*—The branch from Oakfield on the main line to Ashland, a distance of 40 miles, it is expected, will be completed by November 1. The county of Aroostook, Maine, voted the B. & A. a subsidy of $228,000 towards the building of this branch line.—V. 60, p. 794.

Bay State Gas.—*Increase in Stock.*—This company announces an increase in its capital stock from $5,000,000 to $15,000,000 to acquire "certain gas properties," by which some suppose the Brookline Gas Co. is meant. The stockholders are notified that they have the privilege of subscribing prior to 12 M Oct. 7 for two shares of the new stock for each share held Sept. 27 at the market price of $10 per share.

The following explanatory letter accompanied the announcement:

SIRS—Negotiations have been pending for a considerable time looking toward the acquirement of certain gas properties which it is manifestly for the interest of this company to own and control. A movement to place a large fund in the treasury of this company has its inception in the desire to increase the profitable business of the company.

J. EDWARD ADDICKS, *President.*

—V. 60, p. 873.

Belt Ry.—Union Ry. (Chattanooga, Tenn.)—*New Company; New Securities.*—The Union Railway Company has been reorganized by the formation of a new company under the name of the Belt Railway Company. The capital of this company is fixed at $300,000 and it will have a first mortgage of $300,000, bearing interest at the rate of 3 per cent for two years from July 1, 1895, 4 per cent for two years, and thereafter 5 per cent, and an income mortgage for $24,000, the income bonds to bear interest at the rate of 4 per cent, if earned, and from July 1, 1903, to become a fixed charge, the company, however, having the right at any time to retire them at par. The new company will be leased for fifty years to the Alabama Great Southern Railroad Co. at a price sufficient to guarantee the interest on the bonds issued. —V. 61, p. 112.

Carolina Cumberland Gap & Chicago Ry.—*Foreclosure Sale.*—The sale is advertised for October 29.

Chicago Gas—*Plan of Consolidation.*—A committee consisting of Frederic P. Olcott, Chairman; Roswell P. Flower, Anthony N. Brady, Walter Ferguson, C. K. G. Billings and Wm. K. Campbell, with J. N. Wallace as Secretary, 54 Wall Street, New York, has issued the following statement to holders of certificates of the Fidelity Insurance, Trust & Safe Deposit Company of Philadelphia:

The questions which have been raised as to the legality of the arrangement under which the Fidelity Company holds the deposited stocks of the Chicago Gas Companies, and the resulting litigation, render it advisable and necessary that a plan should be adopted by which your rights shall be maintained and preserved, and the existing difficulties removed. At the request of holders of a large amount of Fidelity Company certificates, we have undertaken to act as a committee under an agreement and plan of consolidation filed with the Central Trust Company of New York, dated October 1, 1895. The plan contemplates the merger or consolidation of the several companies whose properties are represented by the Fidelity Company certificates, so as to constitute one corporation under the laws of the State of Illinois, and after making proper provision for the protection of the security of the guaranteed mortgage bonds, the issue of new certificates entitling the registered owners and holders thereof to the same proportional interest in the properties as is now represented by the Fidelity Company certificates.

Certificate holders are asked to deposit their certificates, properly indorsed, with the Central Trust Company of New York, No. 54 Wall Street, New York, under said agreement, on or before October 17, 1895. Negotiable receipts will be issued.

The agreement referred to is merely a legal document authorizing the committee to use the stock deposited to effect a consolidation of the properties in whatever manner a majority of the committee shall deem best. No change, however, can be made which shall involve the acceptance by any depositor of less than his proportional share in the stock of the consolidated company. The committee may borrow money to carry out the consolidation but shall not have power to bind any depositor for the payment of any assessment.—V. 61, p. 558.

Choctaw Oklahoma & Gulf RR.—*Extension Opened.*—The extension from South McAlester to Oklahoma City, a distance of 120 miles, was completed last week, giving the company a direct line, about 224 miles in length, from Wister, I. T., to El Reno. As stated last week the Little Rock & Memphis reorganizers propose to build an extension of their road to Wister, which extension if built would afford the Choctaw company a direct connection to Little Rock and the Mississippi River. The company's prospects for traffic, now that its line is completed, are said to be encouraging, contracts having been made to supply the Atchison and Rock Island roads with coal. These two contracts, it is claimed, will require at least 150,000 tons a year. Commercial sales in Kansas and Nebraska are estimated at about 100,000 tons annually. A large traffic from lumber is also said to be assured.—V. 61, p. 516.

Fitchburg RR.—*New Stock.*—The Massachusetts Railroad Commissioners announce a hearing Oct. 9 on the petition of the Fitchburg RR. Company for authority to issue 3,600 shares of preferred stock for the purpose of consolidation with the Brookline & Pepperell, the Brookline and the Brookline & Milford railroad companies.—V. 61, p. 467.

Georgia & Alabama—Savannah Americus & Montgomery—*Securities Authorized.*—At Americus, Ga., Sept. 30, the stockholders of the Georgia & Alabama authorized the new mortgage securing the preference bonds and first mortgage consols. The Baltimore Trust & Guarantee Company is the mortgage trustee.

Prospects and Sale of Securities.—The following is furnished the CHRONICLE from an official source:

Out of a total issue of $3,350,000 first mortgage bonds of the Savannah Americus & Montgomery Railway, $3,323,000 were pooled with the Reorganization Committee. A majority of the old bondholders exercised their privilege to subscribe to the $1,675,000 preference bonds and the underwriting syndicate has assumed the balance. This sale gives the company about $1,700,000 available funds, of which $700,-

000 is to be used only for the purpose of extending the road to Savannah, where ample terminals are being arranged for. The length of the road from Montgomery to Savannah will be 340 miles, of which 265 miles is now in full operation. On the present basis of gross earnings, and a normal ratio of operating expenses, the net earnings of the company, even in advance of its extension to Savannah, will be sufficient to pay about three times over the interest on the first mortgage preference bonds issued on the present 265 miles of road.—V. 61, p. 470.

Houston City Street Ry.—*Foreclosure, Etc* —It is reported from Houston that a foreclosure suit is about to be instituted. The resignation of O. M. Carter as President has been accepted and Albert N. Parlin of Boston has been elected in his stead.—V. 61, p. 281.

International Bridge & Tramway.—*Foreclosure.*—The Holland Trust Company has filed a suit against this company of Laredo, Texas, for the foreclosure of the first mortgage for $300,000.

Jarvis Conklin Mortgage Trust Co.—*Total Indebtedness.*—Charles Steele, special master appointed to take proofs concerning the indebtedness of this company, has filed his preliminary report in the United States Circuit Court. It shows that on September 28, 1893, when the receivers were appointed, the indebtedness amounted to $8,383 449 64 with a contingent liability upon guaranteed mortgages and corporation bonds of $10,556,895. May 31, 1895, the actual indebtedness amounted to $7,731,636 88 and the contingent liability to $3,746,880 38. The greater part of the obligations are held and represented by the North American Trust Company, 40 Wall Street, New York.—V. 60, p. 1058.

Kentucky Midland Ry.—*Reorganization Committee.*—A committee has been formed representing the bonds of this company, Charles E. Hoge, of Frankfort, Ky. being a member. There has been no date set for offering the road at foreclosure sale the second time.—V. 61, p. 420.

Lehigh & New York RR.—Southern Central RR.—*Reorganization Notice.*—The Southern Central reorganization committee notifies holders of trust company receipts for first consolidated mortgage bonds that upon application to the Metropolitan Trust Company they will receive the cash amounts due them under the reorganization plan. The certificates for the preferred stock will be ready for delivery after Oct. 15.—V. 61, p. 558.

Little Rock & Memphis.—*Sale Postponed.*—The foreclosure sale fixed for October 17 has been postponed at the request of probable purchaser until November 25.—V. 61, p. 559.

Logansport & Wabash Valley Gas.—*Competition.*—This company, which owns the natural gas system at Peru, Logansport, Decatur and Wabash in Indiana has given notice that gas after Oct. 1 will be furnished to consumers at one-half the rates charged for the last seven years. This is the result of the organization by Wabash citizens of the Wabash Fuel Company, which will be ready to supply gas through its independent line Nov. 1 at a 10 per cent reduction from the company rates.

Louisville & Nashville RR.—*Election of Directors.*—At the annual meeting this week the following directors were elected: August Belmont, J. D. Probst, H. E. Garth, John I. Waterbury, J. A. Horsey, William Mertens, E. Mora Davison, Gardiner M. Lane, John L. Helm, J. D. Taggart, M. H. Smith, Attila Cox and Rudolph Ellis. The new directors are E. Mora Davison, Attila Cox and Rudolph Ellis, who succeed Albert Fink, Thomas Rutter and Edmund Smith.—V. 61, p. 281.

Lowell & Suburban St. Ry.—*New Stock.*—Touching this company's application for permission to issue $400,000 new stock, of which $300,000 for floating debt due to electrical equipment and $100,000 for park purposes, the Massachusetts State Railroad Commissioners have authorized the company to issue at $115 per share $176,500 stock for floating debt and $68,500 for park purposes.

Macon & Birmingham RR.—*Foreclosure Sale.*—The sale of this road is advertised for Nov. 5. Copies of the decree may be obtained from the New York Security & Trust Co.—V. 60, p. 795.

National Railway (St. Louis).—*Reduction in Dividend.*—The quarterly October dividend will be ¾ of 1 per cent, in place of the usual 1¾ per cent. The directors explain the reduction as follows:

> The earnings of the properties operated by the company since the panic of 1893 have increased as have the earnings of similar companies generally. The management has endeavored to a point consistent with the safety and conservation of the several properties, and thereby has been enabled to maintain the usual rate of dividend. The decrease in receipts has continued to a recent date, but since July 1 have shown an increase. Besides paying for extensions and new construction over $100,000 out of the net earnings, all obligations have been paid promptly when due. In view of the foregoing facts the directors deem it to be wise policy to declare for the quarter ending Oct. 1, 1895, a dividend of ¾ of 1 per cent instead of the usual 1¾ per cent, applying the 1 per cent to liquidate the above indebtedness. This makes a total of 2 per cent paid in 1895. If the increase in earnings shown preferred in September, as most seems probable, we may be able to resume the usual rate in the near future.—V. 60, p. 800.

New England RR.—*Transfer Books.*—The Reorganization Committee of the New York & New England gives notice that the transfer books for the reorganization certificates issued for preferred and common stock of the railroad company will be closed at noon on Oct. 2, preparatory to the issue of the stock of the New England Railroad Co.—V. 61, p. 517.

New London Street Ry.—*New Stock.*—The capital stock will be increased Oct. 15 by the issue at par of one new share for each ten old shares to such stockholders of record Oct. 1 as may subscribe therefor on or before Oct. 15.

New York New Haven & Hartford RR.—*Control of New England RR and Stamford Street Ry.*—In the annual report quoted on a previous page is an official statement regarding the manner in which the New England RR. and the Stamford Street Railway are now controlled.—V. 61, p. 559.

Northern Pacific RR.—*Change of Receivers.*—On Saturday last at Milwaukee, Wis., Judge Jenkins appointed Edward H. McHenry of St. Paul and Frank G. Bigelow of Milwaukee, receivers, to succeed the old receivers resigned. Mr. McHenry is Chief Engineer of the company and Mr. Bigelow is President of the First National Bank of Milwaukee, in which ex-receiver Payne is a director. Herbert B. Turner, attorney for the Farmers' Loan & Trust Co., expressed his satisfaction with the choice. Subsequently Judge Sanborn at St. Paul confirmed the appointment for the Minnesota District.

On Tuesday Judge Hanford at Tacoma, Washington, refused to accept the resignation of the old receivers which was tendered last week, and because of their failure to obey the court and to file reports removed them from office. In their stead for the district of Washington he appointed Andrew F. Burleigh, heretofore local counsel of the Northern Pacific.

This appointment was afterwards confirmed by Judge Gilbert for the district of Oregon.

On Thursday Judge Lacombe, in the Circuit Court at New York, deferred action with reference to the resignation of the old receivers and the appointment of their successor until Oct. 11, saying:

> The Court does not see its way clear to accept the resignations of the receivers upon the papers now before the Court. The case is too grave to be disposed of hastily. The appointment of other receivers would only tend to increase rather than diminish the present difficulties. If there should be an irreconcilable divergence between the judges in the West, it would then be proper for this Court to act. Any action that might tend to delay the coming together of the judicial minds of the West would be prejudicial to the interests of the company. I have such confidence in my brethren that I cannot believe they will continue to disagree. I therefore postpone further hearing to the next motion day, October 11, but in the meantime will be accessible should exceptional circumstances require earlier action.

Strong efforts are being made to secure the appointment of one set of receivers for the entire road by the judges of the several districts, and it is hoped these efforts will prove successful.

The old receivers have been ordered to appear before Judge Hanford on a charge of contempt of court.

Trustee of Third Mortgage.—At Seattle, Wash., Charles B. Van Nostrand, of the general third mortgage bondholders' committee, has filed a petition asking that he be made a party to the foreclosure suit, with the same effect as if he had been made a party to the bill. Mr. Van Nostrand alleges that the Farmers' Loan & Trust Company, being trustee of the consolidated mortgage as well as of the general third mortgage, is obliged to serve conflicting interests. Consequently, in behalf of the $2,000,000 of bonds which his committee represents, he asks that he be made a party as aforesaid to the foreclosure suit.

Land Grant.—A press dispatch says the Secretary of the Interior in Washington has approved grants of lands to the Northern Pacific amounting to 1,887,478 acres.—V. 61, p. 559.

Northern Pacific RR.—Central Washington Ry.—*Mortgage Trustee Etc.*—At Spokane, Wash., Sept. 29, Judge Hanford of the United States District Court removed the Farmers' Loan & Trust Co as mortgage trustee of the Central Washington Railway and substituted in its place the Knickerbocker Trust Company as requested by a majority of the bondholders. He also made Charles B. Chamberlain of Spokane sole receiver.

A press despatch from Spokane to the *New York Times* says:

> A very strong effort is being made by business men of this city to have the bondholders take charge of the road and run it as an independent line. The road runs through one of the most productive parts of Eastern Washington, and if the bondholders take charge of the road and extend it to the coast, it will give them control of a large tonnage of grain from all of Eastern Washington and Northern Idaho.—V. 61, p. 559.

Omaha & St. Louis—*Receivers' Certificates.*—An order has been made in the United States Circuit Court authorizing Receiver J. F. Barnard of the Omaha & St. Louis Railroad Co. to purchase 450 freight cars, capacity 60,000 pounds each, and two heavy engines. The new equipment will cost $260,000, which is to be raised by issuing receivers' certificates. No date for the foreclosure sale of this road has yet been fixed.—Vol. 60, p. 712.

Oregon Improvement.—*Default* —In view of the default which occurred Oct. 1 on the consolidated mortgage 5s, President Elijah Smith has issued a circular stating:

> The financial condition of the company on the Pacific Coast, including the steamship and railroad companies, all of the stock of which is owned by the Oregon Improvement Company, was as follows:
>
Cash		$22,065
Coal on hand at all depots		118,744
Supplies and materials		232,132
Accounts receivable	$715,490	
Less accounts payable	538,713	206,786
Total July 1, 1895		$580,631
>
> Since July 1 there has been received in New York from the San Francisco office $50,000, which is now on hand. The only debt now owed in New York is the amount due the sinking fund, $107,500. The company has on hand the following securities: $119,000 of its 5 per cent bonds and 131 shares of Oregon Improvement Co. preferred stock. There is now and will be due by Dec. 1 next:

Overdue sinking fund requirements	$107,310
Coupons due Oct. 1 on consolidated mortgage	155,300
Coupons Due Dec. 1 on first mortgage	150,000
Sinking fund due Dec. 1 on first mortgage	25,000
Total	$437,610
Cash on hand in New York	$58,000

"It is safe to assume that the cash receipts from the net earnings of the company between now and Dec. 1 next, together with the cash now on hand, will not be more than enough to pay the first mortgage coupons and sinking fund requirements Dec. 1, which must be paid; and it has been decided to pay immediately into the sinking fund the $107,310 now in default."

The net earnings of the Oregon Improvement Company (all departments) for the first eight months of the fiscal year ending July 31, 1895, were $277,2..; the fixed charges for the same time are $440,000.

Heavy repairs to steamships call for an outlay of from $100,000 to $250,000; instalments and bills for $41,500 must soon be paid, and considerable more should be spent on coal mines, etc.

In view of the situation as above shown, and the absence of encouragement as to an immediate increase in net earnings after providing for necessary repairs, the management after consultation with a number of bondholders and stockholders have deemed it for the best interest of the property and the security holders to make default in payment of the consolidated mortgage bond coupons due Oct. 1, 1895.

It is understood that the stockholders' protective committee (see vol. 60, p. 930) will also issue a circular.—V. 61, p. 569.

Oregon Railway & Navigation—*Sale of Collateral*.—The sale of the securities deposited in trust for the collateral trust bonds has been adjourned to Tuesday, Oct. 15, 1895. An article on the company's earnings was in the editorial department of last week's CHRONICLE.—V. 61, p. 517, 536.

Oregon Short Line & Utah Northern Ry.—Union Pacific Ry.—*Decree of Foreclosure.*—At Cheyenne, Wyo., Sept. 27, Judge Riner signed a decree of foreclosure in the case of the American Loan & Trust Company vs. Oregon Short Line & Utah Northern. This is confirmatory of decrees already rendered for the Oregon and Utah districts. Decrees in other districts are yet to be obtained before the road can be sold.

Utah Southern Bondholders' Committee—At the request of the holders of a large amount of the first general mortgage and extension first mortgage bonds, Alexander H. Stevens, Samuel Carr, Isaac H. Bromley and Peter B. Wyckoff, with George S. Clay, Secretary, 195 Broadway, New York, have undertaken to act as a committee for the protection of the bondholders and the enforcement of their rights. Holders are urged to deposit their bonds without delay with the Mercantile Trust Company of New York or the Old Colony Trust Company of Boston, under an agreement, copies of which may be obtained from either of the trust companies or from the secretary of the committee. See advertisement on another page.—V. 61, p. 517.

Pacific Railroads.—*Report of U. S. Commissioner.*—Gen. Wade Hampton, Commissioner of Railroads, in his annual report to the Secretary of the Interior says in part that in the hard times it appears the gross receipts of the Union Pacific system were reduced $1,000,000 a month below the normal; that a cast-iron rule as to payments cannot be observed, and he thinks there should be a flexible adjustment of annual payments to correspond with diminished earnings. He thinks that the Thurman Act will be found to justify the expectation of its framers if the following amendments are made:

First—To embrace within its provisions all Pacific roads which have received from the United States a loan of its bonds in aid of construction.

Second—To provide that 50 per cent instead of 25 of the net earnings be retained.

Third—To extend the debt until it shall have been discharged as provided.

Fourth—To provide that if any of the companies divert business from a subsidized to an unsubsidized road that the conditions which attached to the subsidized line shall be transferred to the new and unsubsidized line, in order that the rights of the United States may be protected. As an alternative he recommends that a commission be appointed by the President to settle the indebtedness of the bond-aided railroads. He commends the order of the Treasury Department which directs that compensatory services rendered the Government by the non aided and leased lines of the Union Pacific Company be paid to the receivers of the roads in cash, and not retained in the treasury, as formerly.

He also says:

The results of the past two years have shown that during a period of financial and industrial depression it would be impossible for the Union Pacific Company to meet the annual fixed charges, in addition to other necessary and inevitable expenses, of such an amount as would be required to discharge the debt to the United States in fifty years at 3 per cent, as proposed in the Reilly bill, or even 2 per cent, which the representatives of the company were understood to be willing to accept. Some regard should be had for such conditions as have existed and which are likely to arise again.—*New York Sun.*—V. 61, p. 518.

Peoria Decatur & Evansville.—*New Directors, Etc.*—At the annual meeting on the 1st inst. at Peoria, three directors whose terms expired were replaced by John L. Lamson, William E Strong and John H. Prall. The latter represents the minority stock interest. A plan of reorganization is being formulated which it is understood will take care of the stock on fair terms. The foreclosure proceedings are not being delayed, as has been heretofore stated.—V. 61, p. 569.

Pine Bluff & Eastern RR.—*Receiver.*—S. W. Fordyce, President of the St. Louis Southwestern RR., has been appointed receiver of the P. B. & E. road, extending from Rob Roy to English, Ark., 23 miles. F. M. Gillett, of New York, is President.

Pittsburg & West End Passenger—Pittsburg Crafton & Mansfield Traction.—*Guaranty.*—The stockholders of the Pittsburg & West End Passenger Ry. have passed a resolution authorizing the company to guarantee the $250,000 bonds issued by the Pittsburg Crafton & Mansfield Traction Co., an extension of the West End's system.

Pullman Palace Car.—*Capitalization of Surplus*.—Rumors are current that at the annual meeting Oct. 17 a proposition will be made to capitalize some part of this company's surplus which June 30, 1894, amounted to $26,042,606. It is known that some months ago a plan was under consideration having in view the formation of a company to take over the Pullman Company's real estate, and the distribution of the new company's stock as a scrip dividend to the Pullman stockholders. The present rumors refer to this plan, but whether they have any basis in fact remains to be seen. The Pullman Company owns in the town of Pullman 500 acres of land, and the "real estate and plant" there is valued in recent reports at about $8,000,000. The company owns also all of the shares of the Pullman Land Association, proprietor of 300 acres of land adjoining those of the car company in the town.—V. 60, p. 1010.

San Diego Land & Town.—*Reorganization Committee.*—The following are a reorganization committee: B. P. Cheney, C. W. Shattuck, E. H. Mason and W. L. Frost, with power to add to their number.

Seattle Consolidated Street Ry.—*Reorganization Plan.*—The reorganization committee, consisting of N. W. Harris, Allen B. Forbes and Henry S. Boutelle of Chicago; H. W. Bartol of Philadelphia, and Albert L. Chester of Westerly, R. I., has prepared a reorganization plan, which provides that a new company shall be formed after foreclosure sale and shall issue the following securities:

New first mortgage bonds to be dated Oct. 1, 1895, and for the first four years to be non-cumulative 6 per cent incomes, and after Oct 1, 1899, to bear fixed interest at 6 per cent yearly, said bonds to be subject to call at 105 on any coupon day. Total authorized issue $1,000,000

To be applied as follows:

For purposes of reorganization	457,000
For betterments [interest on these till Oct 1, 1899, to be preferred and to be a fixed charge]	68,000
For new construction or for the purchase of any other railway in Seattle on terms below mentioned	475,000

Income second mortgage bonds, series A & B. ("A" preferred as to principal and interest) 6 per cent, cumulative. Said bonds are to bear fixed interest at 6 per cent after the new company has earned and paid full interest upon them for three consecutive years, subject to call at par. They may be applied as follows:

Series A—	
For purposes of reorganization, about	31,780
To retire new 1st mortgage bonds at 105	1,050,000
Series B—	
For purposes of reorganization about	299,000
For compensation to present first mortgage bonds for all loss of interest (difference between rate which shall be paid and 6 per cent) to Oct. 1, 1899, at $2 for $1 of interest	Uncertain.
Series A or B for new construction	See Note.
Stock	1,000,000

NOTE.—*First mortgage provisions.*—For constructing new lines of railway and purchasing any other lines and plants in Seattle at such prices as shall be determined upon by said new company, not to exceed $475,000 of said new first mortgage may be issued, provided "that the committee shall in each case unanimously consent to the purchase; and provided further that none of said bonds from $525,000 upwards shall be issued for new construction at a greater rate than 85 per cent of the actual cost of such new construction (construction to include paving and increased power capacity when by the committee deemed necessary), or be issued for construction unless the net earnings of the new company for the six months then last past shall be equal to at least 10 per cent per annum upon its first mortgage bonds then outstanding, together with the new bonds then proposed to be issued."

Second mortgage provisions.—"Said new second mortgage shall provide that further bonds may be issued thereunder of either series A or B for the purpose of retiring prior liens, and upon the retirement of all prior liens then for extensions, on the same terms as are fixed in said new first mortgage for extension and purchase issues."

Exchange of Securities.—The old securities and floating debt are to be exchanged as follows for new securities:

Holders of following amounts.	*Pay assessments.*	*and receive— new 1st m.*	*"A" bonds.*	*"B" bonds.*	*Stock.*
First mortgage $1,000	None.	$1,000	.....	.....	.....
Loss of int. to Oct. '99	None.	.....	.....	$2 for $1	.....
Second mortgage $1,000	$100	$ 0‡	$500‡	$500	$500
Floating debt, $1,000	100	50‡	50‡	500	500
Stock, $100	2·50	.....	.....	.....	25

‡ For assessment.

The old securities are to be deposited with the Illinois Trust & Savings Bank of Chicago and the committee has the power to decide whether or not the amounts deposited are sufficient to justify the carrying out of the plan. The committee's address is 204 Dearborn St., Chicago, Ill.—V. 61, p. 569.

Tennessee Coal Iron & RR.—*Sale of Bonds.*—This company has sold to a syndicate represented by Moore & Schley $440,000 of the consolidated mortgage 6 per cent bonds of the De Bardeleben Company, it is reported, at 95. By this operation, it is said, all of the floating debt except that incidental to the transaction of current business is funded.—V. 61, p. 153.

Texas Trunk Ry.—*Sale Confirmed.*—The foreclosure sale of this road to Edward H. Pardee, of New York, for $250,000, has been confirmed.—V. 61, p. 241.

Union Pacific RR.—*Report of U. S. Commissioner*—Under the heading "Pacific RRs." is given a brief statement of the recommendations made by U. S. Commissioner of Railroads Wade Hampton in his annual report.

Coupon Payment—The annual payment of $72,000 due Oct. 1 on the principal of the equipment bonds, Series A, and interest on the three Series A, B and C, due October, has been made.—Vol. 61, p. 518.

Reports and Documents.

LOUISVILLE & NASHVILLE RAILROAD CO.

FORTY-FOURTH ANNUAL REPORT—FOR THE FISCAL YEAR ENDED JUNE 30, 1895

To the Stockholders of the Louisville & Nashville RR. Company:

The Board of Directors of the Louisville & Nashville Railroad Company respectfully submit their report for the fiscal year ended June 30, 1895, as follows:

LENGTH OF ROADS.

The length of roads operated by this Company, and of those in which it is interested, at the close of the fiscal year, June 30, 1895, is as follows:

I.—OWNED ABSOLUTELY OR THROUGH THE OWNERSHIP OF THE ENTIRE CAPITAL STOCK		2,606·35
II.—LINES OVER WHICH THIS COMPANY RUNS ITS TRAINS, THE EARNINGS OF WHICH ACCRUE TO THIS COMPANY.		
Birmingham Mineral Railroad		22·32
III.—OPERATED UNDER LEASE, EARNINGS IN EXCESS OF FIXED CHARGES ACCRUING TO THIS COMPANY.		
Nashville & Decatur Railroad	119·24	
Shelby Railroad	19·10	
		138·34
IV.—OPERATED FOR ACCOUNT OF THE SOUTH & NORTH ALABAMA RAILROAD COMPANY.		
South & North Alabama Railroad	182·67	
Wetumpka Branch	6·30	
		188·97
Total Louisville & Nashville System		2,955·98
V.—OPERATED UNDER LEASE FOR ACCOUNT OF THE FOLLOWING COMPANIES:		
Southern Division Cumberland & Ohio Railroad	30·90	
Northern Division Cumberland & Ohio Railroad	26·72	
Glasgow Railroad	10·50	
Elkton & Guthrie Railroad	10·92	
Mammoth Cave Railroad	9·17	
		88·21
VI.—LINES IN WHICH THIS COMPANY IS INTERESTED AS OWNER OF A MAJORITY OF THE CAPITAL STOCK IN THE COMPANY THAT OPERATES THE ROAD:		
Nashville Chattanooga & St. Louis Railway	902·09	
Nashville Florence & Sheffield Railway	101·83	
Henderson Bridge & Connecting Track	10·06	
		1,016·98
VII.—LINES IN WHICH THIS COMPANY IS INTERESTED AS JOINT LESSEE WITH THE CENTRAL RR. CO. OF GEORGIA:		
Georgia Railroad and Dependencies		721·00
VIII—LINES OWNED BUT NOT OPERATED BY THIS COMPANY:		
Cecilia Branch	46·00	
Clarksville & Princeton Branch	20·70	
		66·70
Total Mileage		4,848·87

The earnings and expenses in this report are based on an average of 2,955·98 miles, as shown in Table No. VI. Attention is called to the tables submitted herewith for details of the year's business:

I Income Account, Fixed Charges, etc.
II Profit and Loss Account.
III. General Balance Sheet.
IV. Bonded Debt—Detail.
V. Securities Owned by the Company.
VI Gross Earnings, Operating Exp., and Net, by months.
VII Gross Earnings, Operating Exp., and Net, summarized.

CAPITAL STOCK.

There has been no change in the Capital Stock this year; the amount is $75,000,000. Included in this amount is $2,200,000 held in the treasury. The additional increase of $5,000,000, which was authorized November 8, 1893, has not been issued.

BONDED DEBT.

The bonded debt as per Table No. IV last year's report, was		$79,131,660
BONDS ISSUED—		
Unified Fifty year Four-per-cent Gold Bonds		350,000
Kentucky Central Railway First Mortgage Four-per-cent Gold Bonds		219,000
Total Bonds issued and assumed		$79,700,660
DEDUCT BONDS REDEEMED AND CANCELED DURING THE YEAR—		
General Mort. Bonds canceled for the Sink'g Fund	$22,000	
Cecilia Br. Bonds canceled for the sink'g Fund	44,000	
Evansville Henderson & Nashville Division Bonds canceled for the Sinking Fund	24,000	
Pensacola & Atlantic Railroad Bonds canceled for the Sinking Fund	35,000	
Maysville & Lexington Railroad, Southern Division Bonds redeemed at maturity	219,000	
		542,000
Outstanding June 30, 1895		$79,158,660
Showing an increase over last year in the bonded debt of		$27,000

The increase in the bonded indebtedness is accounted for as follows:

Unified Fifty year Four-per-cent Gold Bonds issued for the following purposes—		
For sidetracks, betterments, such as side tracks, station buildings, ballast, renewals of bridges and equip't	$24,000	
For Bonds redeemed for Sinking Fund	326,000	
	$350,000	
Kentucky Central Railway First Mort. Four-per-cent Gold Bonds	219,000	
		569,000
FROM WHICH DEDUCT—		
Bonds redeemed during the year		542,000
Increase of bonded debt		$27,000

GENERAL RESULTS.

The general results from operations for the year were:

Gross Earnings		$19,275,993 79
Operating Expenses, 63·69 per cent		12,277,773 03
Net Earnings from Traffic, 36·31 per cent		$6,998,220 76
FROM WHICH DEDUCT CHARGES AGAINST INCOME—		
Interest, Rents, etc	$5,013,738 10	
Taxes	569,326 37	
		5,583,064 47
Net Earnings		$1,415,156 29
TO WHICH ADD—Income from Investments		363,273 42
		$1,778,429 71
FROM WHICH DEDUCT—		
Loss on Georgia Railroad	$108,263 58	
Loss on other roads	90,024 87	
Sinking Fund Payments	$587,264 62	
Less market value of securities receiv. for a part thereof	412,264 62	
	175,000 00	
Unfunded Discount	6,887 25	
Balance of advances to South & North Alabama Railroad Company	697,669 02	
		1,077,844 72
Net Income for the year		$700,584 99

The average length of roads operated was 2,955·93, the same as the previous year:

	1894-5.	1893-4.
Gross Earnings per mile	$6,521 01	$6,418 97
Operating Expenses per mile	4,153 53	4,013 48
Net Earnings per mile	$2,367 48	$2,405 49

The growth of traffic is shown by the following table:

Years.	Average Miles Operated.	Gross Earnings.	Operating Expenses.	Net Earnings.	Gross Earnings per Mile.	Operat'g Expen's per Mile.	Net Earnings per Mile.	P. ct. of Expens. to Earnings.
1879-80	1,109·58	$7,344,515	$4,173,302	$3,221,213	$ 6,619 85	$3,505 27	$2,705 58	56·84
1880-81	1,768·80	10,812,885	6,631,804	4,181,071	6,112 94	3,749 23	2,363 71	61·33
1881-82	1,911·56	11,911,439	7,371,911	4,539,527	6,229 02	3,854 61	2,374 39	61·88
1882-83	2,114·51	14,214,714	8,615,737	5,124,976	6,725 21	3,792 12	2,346 09	60·38
1883-84	1,927·25	4,261,866	8,823,782	5,437,083	7,119 44	4,417 80	2,701 64	61·87
1884-85	1,938·21	13,841,145	8,101,789	5,742,356	6,961 13	4,074 38	2,886 75	58·58
1885-86	1,941·32	13,676,729	8,195,305	4,955,388	6,758 41	4,181 93	2,576 08	62·15
1886-87	2,043·32	14,779,992	8,959,702	6,090,498	7,597 66	4,598 85	3,198 81	60·77
1887-88	2,127·00	16,360,251	10,247,445	6,092,806	8,271 16	5,095 39	3,095 77	62·76
1888-89	2,161·61	16,891,326	10,370,085	6,271,240	7,679 08	4,770 97	2,908 11	62·21
1889-90	2,198·26	18,846,000	11,419,089	7,426,911	8,573 19	5,194 64	3,378 56	60·59
1890-91	2,252·62	19,289,728	12,093,444	7,196,284	8,561 33	5,368 51	3,192 79	62·74
1891-92	2,357·70	21,295,731	14,252,132	7,443,599	7,490 50	4,825 01	2,664 56	64·95
1892-93	2,941·68	22,406,554	14,994,464	8,012,089	7,761 93	4,988 05	2,773 85	64·20
1893-94	2,955·98	19,274,336	11,858,784	7,115,552	6,418 97	4,013 48	2,405 49	62·53
1894-95	2,955·98	19,275,993	12,277,773	6,998,220	6,521 01	4,153 53	2,367 48	63·69

IMPROVEMENT ACCOUNT.

The following expenditures made during the year for equipment, improvements and additions to the several properties which heretofore were charged to Construction Account, have been charged to Oper. Exp., and are as follows:

Final payment on fruit cars		$1,500 00
Air Brake Equipment, applied to locomotives		56,773 44
Air Brake Equipment and Automatic Couplers, applied to refrigerator cars		4,515 57
Right of way		3,598 74
Bridges		10,974 89
Fences and safety gates		25,364 70
Tunnels		10,932 36
Ballast		25,195 87
Buildings		34,720 96
Shop machinery		525 00
Side tracks		50,077 66
Filling trestles		809 50
RAILS—Value of the difference in weight of 70-lb. steel replacing rails of lighter weight		41,997 00
Real estate		3,999 59
Additional telegraph line, Mobile to New Orleans		2,500 00
Wharf improvements, Mobile, Ala		1,682 58
Fire protection—Montgomery, Ala	653 89	
New Orleans, La	1,636 71	
Pensacola, Fla	7·4 85	
East St. Louis, Ill	565 95	
		3,652 90
Sundries		442 79
Total		$279,583 55

CONSTRUCTION ACCOUNT.

NASHVILLE & DECATUR RAILROAD.

SIDE TRACKS—		
Wales	$724 14	
Prospect	660 59	
Thompson	432 08	
Cleburne	94 24	
Buford	297 50	
Lynnville	450 59	
Godwin	269 84	
Callendar	23 01	
Pleasant Grove	42 06	
Reynolds	181 51	
Lusters	103 51	
State Line, Ala	125 62	
		$3,314 69
BUILDINGS—		
New depot at Callendar, Tenn		127 92
RAILS—		
Value of the difference in weight of 70-lb. steel rails replacing rails of lighter weight		7,578 78
Fencing on line of road		253 96
Total		$11,275 35

COST OF ROAD AND EQUIPMENT.

Cost of road June 30, 1894, was		$106,325,490 89
TO WHICH ADD THE FOLLOWING—		
Henderson Belt RR	$1,248 01	
Clarksville Mineral	17,438 19	
New and Old Decatur Belt & Terminal RR.	16 10	
	18,702 30	
		$106,344,193 19
FROM WHICH DEDUCT—		
Pensacola & Selma Railroad—Land sold and credited to this account		155 00
Total cost to June 30, 1895, as per Table No. III.		$106,344,038 19

STEEL AND IRON RAILS.

At close of year ended June 30, 1894, there were in tracks:

Steel rails	2,766·55	
Iron rails	167·11	
		2,933·66 miles

During the year there were 136·72 miles of track relaid with new steel rails, to replace old steel, at a cost of $199,683 71. Of this amount there was charged to Operating Expenses $192,104 98; of which $40,254 01 represents the difference in weight of rails, replaced by heavier rails, the cost of which in previous years has been charged to Construction Account, and $7,578 78 has been charged to Construction Account Nashville & Decatur Railroad. 17 07 miles of old steel from main lines was used to replace old iron on branches. There are in track, therefore, on June 30, 1895:

Steel rails	2,783·62	
Iron rails	150·04	
Total		2,933·66 miles

Of the new steel laid ·09 mile is of the 60-lb. pattern and ·06 mile is of the 68-lb. pattern, and 136·57 miles of the 70-lb.

INTEREST CHARGES FOR 1895-96.

Interest charges against Income are estimated as follows:

	Bonds Outstanding.	*Amount of Interest.*
Consolidated Mortgage Bonds, 7 per cent	$7,070,000	$494,900
City of Louisville, Lebanon Branch Extension Bonds, 6 per cent, due October 15, 1893	1,000	.....
General Mortgage Bonds, 6 per cent	10,836,000	646,320
Mem. & Ohio RR. Sterling Mort. Bds., 7 p. c.	3,500,000	248,784
Mem. Clarksv. & Lou. RR. Ster. Mort. Bds., 6 p. c.	1,996,660	120,424

The trustees of the Louisville & Nashville and South & North Alabama Railroad Trust Deed hold the following bonds for the Sinking Fund:

66 Louisv. & Nashv. RR. 5 p. cent Trust Bonds, $1,000 each	$66,000
27 Louisv. & Nashv. RR. and South & North Alabama RR. Trust Deed Bonds, 6 per cent, $1,000 each	27,000
131 Louisv. & Nashv. RR. Unified 50-year 4 p. c. Gold Bonds, $1,000 each	131,000
Total	$224,000

EQUIPMENT.

The equipment at the close of the year ended June 30, 1895, consisted of twenty thousand, one hundred and four cars, and 540 locomotives, as will be seen by the following statement.

There has been charged to Operating Expenses for the year ended June 30, 1895, the sum of $2,135 392 68 for account of building and maintenance of equipment. This amount is made up of $1,633,413 35 expended during the year, and $502,979 33 of deferred renewals, which will be expended during the succeeding year. The above charge shows an increase of $136,731 38 in excess of the charge for the year ended June 30, 1894.

There were built in the Company's shops, and charged to Operating Expenses, twenty-two cars, consisting of three baggage, one postal, three express, two box, ten flat, one gondola drop bottom, one coke, one furniture car, and one pile driver. This makes the equipment July 1, 1895, as follows:

CARS.—At the close of the fiscal year ended June 30, 1894,

The company owned		20,583
TO WHICH ADD:		
Bought and built during the year	23	20,606
FROM WHICH DEDUCT:		
Cars destroyed during the year—		
Passenger cars	13	
Freight cars	488	
Pile driver	1	502
On hand July 1, 1895		20,104

LOCOMOTIVES.—At the close of the fiscal year ended June 30, 1894,

The Company owned	563
FROM WHICH DEDUCT—	
Condemned during the year	23
On hand July 1, 1895	540

In order to perpetuate the equipment, there has been purchased, to be delivered subsequent to July 1, 1895, the following equipment:

Locomotives	15
Cars	950

The cost of which has been charged to Repairs during the year 1894-95.

For comparison your attention is called to the following tables, showing the number of locomotives, passenger and freight cars on hand at the close of each of the past seven fiscal years:

LOUISVILLE & NASHVILLE RAILROAD COMPANY.

	'88-89.	'89-90.	'90-91.	'91-92.	'92-93.	'93-94.	'94-95.

(a) Includes Mail and Express. (b) Excludes Mail and Express. (c) Excludes Freight on Company's supplies.

GENERAL REMARKS.

CONSTRUCTION ACCOUNT.

This account was closed July 1, 1894, since which time the items heretofore charged to this account have been charged to Operating Expenses under the sub-account of Improvement Account. The details of this account, amounting to $279,583 51, appear at length in this report.

All improvements and betterments upon the Nashville & Decatur Railroad, under the terms of the lease, are to be settled for at the end of the lease, therefore the Construction Account of the Nashville & Decatur RR. Co. is continued, and the amount charged to this account amounted to $11,275 35.

CHESAPEAKE OHIO & SOUTHWESTERN RR.

The suit of the Commonwealth of Kentucky, brought to enjoin this Company from purchasing the property of the Chesapeake Ohio & Southwestern R.R., has been decided in favor of the State of Kentucky. Under a writ of error the action has been removed to the Supreme Court of the United States. An early hearing is expected, and it is believed a decision favorable to the Company will be finally reached.

INCOME AND PROFIT AND LOSS ACCOUNTS.

Income Account has been charged with the difference between the Sinking Fund payments and market value of securities received for the various Sinking Funds, amounting to $175,977; also the annual prorata discount on bonds previously sold, $6,887 25, and the balance of advances to South & North Alabama RR. Co. of $607,669 02. The balance to the credit of Income Account, $700,584 99, has been transferred to the credit of Profit and Loss Account.

The Directors have re-valued the assets of the Company, and have charged all losses and accounts and advances considered uncollectible to Profit and Loss. The balance to the credit of Profit and Loss June 30, 1895, is $716,217 97.

By order of the Board of Directors

AUGUST BELMONT, *Chairman.*

M. H. SMITH, *President.*

REPORT OF THE COMPTROLLER.

ACCOUNTING DEPARTMENT LOUISVILLE & NASH. RR. CO.,
LOUISVILLE, September 16, 1895.

MR. M. H. SMITH, President:

I submit herewith statements showing the financial condition of the Company, and the results from operation for the year ended June 30, 1895, as shown in the following tables:

No. I.—Income Account. No. II.—Profit and Loss.
No. III.—Gen'l Balance Sheet. No. IV.—Bonded Debt.
No. V.—Securities owned by the Company.
No. VI.—Gross Earn., Operating Exp., and Net, by months.
No. VII.—Total Earnings, Operating Expenses, and Net.

Very respectfully,

CUSHMAN Q. JARRIER, Comptroller.

	Total Bonds and Stocks	$38,647,350	

The Company also owns $2,000,000 South & North Alabama Railroad Company Second Mortgage Bonds, which have been deposited with the Union Trust Company of New York City, Trustee, to secure the Louisville & Nashville Railroad Company's $2,000,000 six per cent Sinking Fund loan of April 1, 1880; $40,000 of these bonds, through the operation of the said Louisville & Nashville Railroad Sinking Fund loan, have been redeemed and canceled, thus reducing the amount to $1,960,000.

The Company also owns $1,200,000 Owensboro & Nashville Railway Company First Mortgage Six per cent Bonds and $3,929,000 Birmingham Mineral Railroad Company First Mortgage Five per cent Bonds, which have been deposited with the Farmers' Loan & Trust Co., Trustee, to secure the issue of $5,139,000 Louisv. & Nashv. RR. Five per cent Trust Bonds.

The Company also owns $250,000 South & North Alabama Railroad Company Five per cent Consolidated Mortgage Bonds and $350,000 Louisville & Nashville Pensacola & Selma Division Bonds, which are deposited with the Farmers' Loan & Trust Company, Trustee, as collateral for the Georgia RR. lease.

West Superior Iron & Steel.—The following are a bondholders' reorganization committee: Fred. T. Gates, Colgate Hoyt, George Welwood Murray, Stephen Baker and Robert Maclay; E. V. Cary, Secretary, 26 Broadway, New York. Bonds are to be deposited with the Knickerbocker Trust Co. under an agreement there to be seen.

—Messrs. N. W. Harris & Co. will send, on request, a special circular on the 4½ per cent water bonds issued by the city of Kansas City, Mo., to pay for water-works plant and which they offer for sale.

—For October investments, a line of first mortgage bonds and guaranteed stock is offered by Messrs. Redmond, Kerr & Co. in our advertising columns to day, to which attention is directed.

—Mr. F. J. Lisman announces in another column that he wishes to deal in all the different issues of the Long Island RR. system and any other inactive railway security.

—The *American Engineer and Railroad Journal*, which has been issued monthly, will after November 1 be issued bi-weekly and will appear every alternate Thursday.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, October 4, 1895.

A satisfactory movement for general merchandise is reported, with a noticeable increase in demand for seasonable goods. Collections are as a rule good and country merchants manifest an inclination to renew supplies upon a fairly liberal scale. Export trade is averaging quite as full as a week ago. Speculation in wheat has been fair and in cotton very active, the Southern staple attracting attention in consequence of continued belief in serious crop shortage. Weather has been favorable for an early and free movement of corn from growers' hands. An excellent milling demand prevailed for wheat, but the call from exporters was slow. Fall wheat seeding is still retarded in many localities by drought.

The following is a comparative statement of stocks of leading articles of merchandise at dates given:

	Sept. 1, 1895.	Oct. 1, 1895.	Oct. 1, 1894
Pork.....bbls.	11,608	13,439	11,922

Manila hemp.....bales.	10,297	7,861	6,364
Sisal hemp.....bales.	6,828	3,441	9,235
Flour.....bbls. and sacks.	140,100	134,000	139,900

For lard on the spot the demand has been slow and prices have weakened slightly, closing quiet at 6·22½c. for prime Western, 6c. for prime City and 6·65c. for refined for the Continent. Speculation in the local market for lard futures has continued at a standstill and prices have weakened slightly in sympathy with a decline in corn, closing dull.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat	Mon.	Tues.	Wed	Thurs.	Fri.
October.....c.	6·18	6·27	6·22	6·20	6·20	6·20

Pork has been in moderate request for export to the West Indies and prices have held steady, closing at $10@$10 25 for mess. Cut meats have been quiet. Tallow has advanced, but the close was easy at 4½c. asked. Cotton-seed oil has advanced, closing firm at 27½c. for prime yellow and 26½@27c. for off grade yellow. Butter has advanced. Cheese has been steady. Fresh eggs have advanced.

Coffee secured more attention and increased in value, for the better qualities in particular. Rio quoted 16½c. for No. 7, good Cucuta 15½c. and standard Java 27@27½c. Speculation for future delivery embodied very little new investment but further covering of short contracts sustained and stimulated values until the close, when a realizing effort created a little weakness. The following were the final asking prices:

Oct.....15·35c.	Jan.....14·95c.	April.....14·45c.
Nov.....15·10c.	Feb.....14·80c.	May.....14·35c.
Dec.....15·10c.	March.....14·75c.	

Raw sugars continue in good demand, offerings are limited and the market very strong. Centrifugal quoted at 3⅝c. for 96-deg. test and muscovado at 3 3-16c. for 89 deg. test. Refined sugars are steadily advancing and production is largely oversold; granulated quoted at 4½c. Teas steadier.

Kentucky tobacco has been in better demand and firm for desirable grades, closing at 2½@5c. for lugs and 5@14c. for leaf. Seed leaf tobacco has been in limited demand and steady. Sales for the week were 1,945 cases, as follows: 75 cases 1892 crop, New England Havana seed, 3@40c.; 400 cases 1894 crop, New England Havana seed, 15@22c.; 50 cases 1893 crop, New England Havana seed, 4c.; 150 cases 1894 crop, New England seed leaf, 18@22c.; 250 cases 1894 crop, Zimmers, 11@12½c.; 100 cases 1893 crop, Zimmers, 11½@12½c.; 340 cases 1894 crop, Pennsylvania Havana seed, 11@15c.; 125 cases 1892 crop, Pennsylvania seed leaf, 9@11½c.; 80 cases 1893 crop, Flats, 14c.; 200 cases 1894 crop, Flats, 10@13c.; 75 cases 1891 crop, Wisconsin Havana, 10c., and 100 cases 1893 crop, Gibharts, 10@11c.; also 2,000 bales Havana, 65c.@$1 10 and 250 bales Sumatra, 40c.@$2 80 in bond.

The market for Straits tin has been fairly active and prices have advanced, closing firm at 14 70@14 75c. Ingot copper has been firm, closing at 12·25c. for Lake. Lead has been steady, closing at 3·85@3 87½c. for domestic. Spelter has been dull, closing at 4·15@4·20c. for domestic. Pig iron fairly active and firm, closing at $13 75@$14 50 for domestic.

Refined petroleum has been unchanged, closing at 7·10c. in bbls, 4·60c. in bulk and 7·50c. in cases; crude in bbls has been nominal; naphtha, 9·25c. Crude certificates have been dull, closing at $1 24 bid. Spirits turpentine has declined, closing at 28@28½c. Rosins steady, closing at $1 45@$1 50 for common to good strained. Wool and hops dull.

COTTON.

FRIDAY NIGHT, October 4, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 217,679 bales, against 149,139 bales last week and 91,080 bales the previous week, making the total receipts since the 1st of Sept., 1895, 519,239 bales, against 728,664 bales for the same period of 1894, showing a decrease since Sep. 1, 1895, of 209,430 bales.

Speculation in cotton for future delivery at this market continues active, with an exceedingly feverish tone prevailing. The outside trading public invested freely upon apparent stronger evidences of crop injury, and the force of demand carried prices to a still higher plane than last week, but a large portion of the old "long" interest liquidated at the advance. Saturday opened with a drop of 14 points, which attracted new buying orders, and the decline was quickly recovered. On Monday the advices from abroad proved much better than had previously been calculated upon and that, together with reports of frost damage, attracted very liberal demand and stimulated an advance of 28 points, of which 5 points were afterwards lost, but the close ruled firm in tone. During Tuesday buying orders were less plenty, and after an opening flurry of 7 points cost sharply shaded and closed at 16 @18 points net decline. During Wednesday there were several fluctuations, ranging from 8 points advance to 17 points decline from highest of the day, finally closing at 3@4 points net decline; but yesterday upon renewal of light crop estimates and stronger cable advices demand came in again with great force and stimulated an advance of 25 points, closing firm. To-day, however, under evidences of an increased crop movement the tone was easy and prices averaged 8@10 points lower. Cotton on the spot closes dull at 9[illegible] c. for middling uplands.

The total sales for forward delivery for the week are 1,975,100 bales. For immediate delivery the total sales foot up this week 21,801 bales, including —— for export, 2,301 for consumption —— for speculation and 19,500 on contract. The following are the official quotations for each day of the past week—September 28 to October 4.

Rates on and off middling, as established Nov. 22, 1895 by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair.....	c. 1[illegible]	on.	Good Ordinary.....	c. 1[illegible]	off.
Middling Fair.....	[illegible]	on.	Good Middling Tinged...	Even.
Strict Good Middling.....	[illegible]	on.	Strict Middling Stained..	[illegible]	off.
Good Middling.....	[illegible]	on.	Middling Stained.....	[illegible]	off.
Strict Low Middling.....	[illegible]	off.	Strict Low Mid. Stained..	[illegible]	off.
Low Middling	[illegible]	off.	Low Middling Stained....	[illegible]	off.
Strict Good Ordinary.....	[illegible]	off.			

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri

☞ The imports into Continental ports the past week have been 2,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 241,958 bales as compared with the same date of 1894, an *increase* of 99,188 bales over the corresponding date of 1893 and a decrease of 249,906 bales from 1892.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1894—is set out in detail below.

Towns.	Movement to October 4, 1895.				Movement to October 5, 1894.

Total, 31 towns	31,000	367,574	46,811	101,738	36,525	370,890	106,569	151,000

* Louisville figures "net" in both years.
‡ This year's figures estimated.
† Last year's figures are for Columbia, S. C.
§ Includes 2,000 bales received previously.

The above totals show that the interior stocks have *increased* during the week 31,151 bales and are now 10,171 bales *less* than at same period last year. The receipts at all the towns have been 5,536 bales *less* than same week last year and since Sept. 1 are 117,329 bales *less* than for same time in 1894.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Oct. 4	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—					
	Satur.	*Mon.*	*Tues.*	*Wednes.*	*Thurs.*	*Fri.*

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	*Receipts at the Ports.*			*St'k at Interior Towns.*			*Rec'pts from Plant'ns*		
	1895.	1894.	1893.	1895.	1894.	1895.	1893.	1894.	1895.
Aug. 30.....	17,634	25,173	6,893	74,501	56,366	34,782	15,311	25,720	6,428
Sept. 6.	48,117	33,396	15,093	79,928	55,913	35,892	33,544	36,974	16,203
" 13	53,703	63,834	47,539	84 871	66,830	43,275	58,646	96,801	54,923
" 20.	95,849	148,547	91,080	96,756	84,519	66,739	107 734	166,236	114,544
" 27 ..	161,434	205,221	149,139	124,438	109,215	90,587	193 120	229,047	172,987
Oct. 4	224,456	247,816	217 679	156 962	151,909	141,738	251 980	290 280	268,880

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 624,277 bales; in 1894 were 828,238 bales; in 1893 were 616,410 bales.

2.—That although the receipts at the outports the past week were 217,679 bales, the actual movement from plantations was only 268,880 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the week were 290,280 bales and for 1893 they were 251,980 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Oct. 4 and since Sept. 1 in the last two years are as follows:

October 4.	1895.		1894	
	Week.	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*
Shipped—				
Via St. Louis.....	8,372	17,602	8,163	23,013
Via Cairo.....	2,624	3,472	4,652	10,212
Via Parker City.....	130	693	.....	.....
Via Evansville.....	.....	.....	173	173
Via Louisville.....	525	1,706	1,286	2,840
Via Cincinnati.....	634	1,059	1,376	4,282
Via other routes, &c.....	1,246	4,177	2,633	4,798
Total gross overland.....	13,532	28,709	18,280	45,318
Deduct shipments—				
Overland to N. Y., Boston, &c..	2,816	7,557	2,303	5,995
Between interior towns.....	315	340	639	960
Inland, &c., from South.....	1,840	4,195	2,403	6,744
Total to be deducted.....	4,771	12,072	5,345	13,705
Leaving total net overland*..	8,781	16,637	12,924	31,613

The foregoing shows that the week's net overland movement this year has been 8,781 bales, against 12,924 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 14,976 bales.

In Sight and Spinners' Takings.	1895.		1894.	
	Week.	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*
Receipts at ports to Oct. 4.....	217,679	519,239	247,816	728,664
Net overland to Oct. 4.....	8,781	16,637	12,924	31,613
Southern consumption to Oct. 4.	19,000	93,000	17,000	83,000
Total marketed	245,460	628,876	277,540	843,277
Interior stocks in excess	51,151	109,038	42,664	94,574
Came into sight during week.	296,611	.....	320,204	.....
Total in sight Oct. 4...	.....	737,914	.....	937,851
North'n spinners tak'gs to Oct. 4..	36,385	1 0,349	36,611	143,404

* Including movement by rail to Canada.

It will be seen by the above that there has come into sight during the week 296,611 bales, against 320,204 bales for the same week of 1894, and that the decrease in amount in sight to-night as compared with last year is 199 937 bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices this evening indicate that the weather conditions at the South the past week have favored the rapid gathering and marketing of cotton. Light frost occurred in some sections, but no damage is reported.

Galveston, Texas.—Picking is approaching completion in Southwest Texas, and in Central and Northern Texas it is progressing very well. The weather has been very favorable and cotton has opened rapidly. Some parts of North Texas report a new growth, though unless there is a very late frost it is not apt to mature. We have had rain on one day during the week, the precipitation reaching one hundredth of an inch. The thermometer has ranged from 58 to 86, averaging 72. Rainfall for the month of September one inch and eighty-six hundredths.

Palestine, Texas.—It has rained on one day of the week, the precipitation being too small to measure. Average thermometer 67, highest 86, lowest 48. Rainfall for the month of September one inch and five hundredths.

Huntsville, Texas.—We have had a trace of rain on one day of the week. The thermometer has averaged 69, the highest being 88 and the lowest 50. During the month of September the rainfall reached one inch and ten hundredths.

Dallas, Texas.—Rain has fallen on one day of the week, the rainfall reaching ninety-six hundredths of an inch. The thermometer has averaged 65, ranging from 46 to 84. Rainfall for September three inches and sixty-eight hundredths.

San Antonio, Texas.—It has rained on two days of the week, the rainfall reaching fifty-six hundredths of an inch. The thermometer has ranged from 54 to 86, averaging 70. During the month of September the rainfall was two inches and fifty-seven hundredths.

Luling, Texas.—There has been rain on one day during the week, the precipitation being ten hundredths of an inch. Average thermometer 68, highest 84 and lowest 52. During the month of September the rainfall reached ninety-two hundredths of an inch.

Columbia, Texas.—We have had rain on two days of the week, the rainfall being two inches and seventy-four hundredths. The thermometer has averaged 71, the highest being 92 and the lowest 50. Rainfall for the month of September three inches and seventy-six hundredths.

Cuero, Texas.—There has been rain on two days of the past week, the rainfall reaching two inches and fourteen hundredths. The thermometer has averaged 71, ranging from 54 to 88. Rainfall for the month of September two inches and forty-five hundredths.

Brenham, Texas.—It has been showery on one day of the week, with rainfall to the extent of eight hundredths of an inch. The thermometer has ranged from 52 to 92, averaging 72. September rainfall eighteen hundredths of an inch.

Belton, Texas.—We have had rain on two days of the past week, the precipitation being one inch and seven hundredths. Average thermometer 70, highest 92 and lowest 48. During the month of September the rainfall reached one inch and sixty hundredths.

Fort Worth, Texas.—We have had rain on one day during the week, the precipitation being sixty-five hundredths of an inch. The thermometer has averaged 68, the highest being 89 and the lowest 47. During the month of September the rainfall reached one inch and ninety-one hundredths.

Weatherford, Texas.—There has been rain on one day of the week, the rainfall reaching thirty-four hundredths of an inch. The thermometer has averaged 71, ranging from 48 to 94. During September the rainfall was one inch and thirty-five hundredths.

New Orleans, Louisiana.—There has been no rain the past week. The thermometer has averaged 70. September rainfall one inch and ninety-seven hundredths.

Shreveport, Louisiana.—It has been dry all the week. The thermometer has ranged from 46 to 84, averaging 65. September rainfall seventy-two hundredths of an inch.

Columbus, Mississippi.—Telegram not received.

Leland, Mississippi.—Rain has fallen during the week to the extent of fifteen hundredths of an inch. There has been a light frost this week. Average thermometer 63·7, highest 94 and lowest 42. During the month of September rainfall was five hundredths of an inch on one day.

Vicksburg, Mississippi.—Dry weather has prevailed all the week. The thermometer has ranged from 44 to 82, averaging 64.

Little Rock, Arkansas.—There has been but a trace of rain the past week. Average thermometer 61, highest 79, lowest 44.

Helena, Arkansas.—Cotton is being picked and marketed rapidly. We have had light rain on one day of the week, the precipitation being forty hundredths of an inch. Light frost on Wednesday. The thermometer has averaged 60, the highest being 76 and the lowest 42. During the month of September the rainfall reached eighty-five hundredths of an inch, on five days.

Memphis, Tennessee.—The weather has been dry all the week, with light frosts on Monday, Tuesday and Wednesday mornings throughout this section. No damage reported. Picking and marketing are active. The thermometer has averaged 60 4, ranging from 44 to 78·2. During the month of September the rainfall reached seventy-three hundredths of an inch, on seven days.

Nashville, Tennessee.—There has been no rain during the week. The thermometer has ranged from 37 to 82, averaging 58. September rainfall six inches and sixty-nine hundredths.

Mobile, Alabama.—Picking is active but the crop short. We have had no rain during the week. Average thermometer 69, highest 89 and lowest 50. During the month of September the rainfall reached one inch and sixty-eight hundredths.

Montgomery, Alabama.—Picking, marketing and selling are going on rapidly. We have had no rain in over three weeks. Frosts occurred in Northern Alabama on Monday. The thermometer has averaged 67, the highest being 79 and the lowest 54. During the month of September the rainfall reached seventy-four hundredths of an inch.

Selma, Alabama.—There has been no rain during the week. The thermometer has averaged 64, ranging from 44 to 85.

Madison, Florida.—Moisture is badly needed to mature the top crop. Dry all the week. The thermometer has ranged from 55 to 94, averaging 70.

Columbus, Georgia.—We have had no rain during the week. Average thermometer 67, highest 86 and lowest 47.

Savannah, Georgia.—We have had rain on two days during the week, the rainfall reaching two hundredths of an inch. The thermometer has averaged 71, the highest being 93 and the lowest 52. Rainfall for the month of September two inches and seventy-two hundredths, on nine days.

Augusta, Georgia.—The weather has been clear all the week. The thermometer has averaged 66, ranging from 46 to 91.

Albany, Georgia.—Telegram not received.

Charleston, South Carolina.—We have had no rain the past week. Average thermometer 70, highest 91, lowest 53. September rainfall six inches and ninety-four hundredths.

Stateburg, South Carolina.—Dry weather has prevailed all the week and at the close the weather is much cooler. The thermometer has averaged 68·1, the highest being 89 and the lowest 44. September rainfall eighty-three hundredths of an inch.

Greenwood, South Carolina.—Cotton is practically all open and is being gathered rapidly. There has been no rain during the week. The thermometer has averaged 65, ranging from 51 to 78. September rainfall ten hundredths of an inch.

Wilson, North Carolina.—We have had no rain during the week. Light frost has occured but no damage. The thermometer has ranged from 42 to 86, averaging 66.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock October 3, 1895, and October 4, 1894.

		Oct. 3, '95.	Oct. 4, '94.
		Feet.	Feet.
New Orleans	Above zero of gauge.	3·6	3·6

Nashville	Above zero of gauge.	0·7	*0·4
Shreveport	Above zero of gauge.	2·7	*3·3
Vicksburg	Above zero of gauge.	0·3	0·4

* Below zero of gauge.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to October 3.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week.			Shipments since Sept. 1.			Receipts.	
	Great Brit'n.	Continent.	Total.	Great Britain	Continent.	Total.	This Week.	Since Sept. 1.
1895	.....	11,000	11,000	.....	20,000	20,000	10.000	43,000
1894	.....	1,000	1,000	5,000	8,000	13,000	2.000	16,000
1893	.....	5,000	5,000	1,000	20,000	21,000	12,000	35,000
1892	.....	8,000	8,000	.....	14,000	14,000	3,000	13,000

	Shipments for the week.			Shipments since Sept. 1		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total
Calcutta—						
1895.....	.....	.....	.....	1,000	1,000	2,000
1894.....	.....	.....	.....	1,000	1,000	2,000
Madras—						
1895.....	3,000	1,000	4,000	5,000	3,000	8,000
1894.....	1,000	1,000	2,000	5,000	4,000	9,000
All others—						
1895.....	2,000	1,000	3,000	6,000	7,000	13,000
1894.....	1,000	3,000	4,000	4,000	9,000	13,000
Total all—						
1895.....	5,000	2,000	7,000	12,000	11,000	23,000
1894.....	2,000	4,000	6,000	10,000	14,000	24,000

The above totals for the week show that the movement from the ports other than Bombay is 1,000 bales *more* than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1895, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1895.		1894.		1893.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Bombay.....	11,000	20,000	1,000	13,000	5,000	21,000
All other ports.	7,000	23,000	6,000	24,000	5,000	20,000
Total.....	18,000	43,000	7,000	37,000	10,000	41,000

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, October 3	1895.	1894	1893.
Receipts (cantars*).....			
This week ...	150,000	40,000	35,000
Since Sept. 1.	245,000	71,000	51,000

	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week	Since Sept. 1
Exports (bales)—						
To Liverpool	6,000	7,000	5,000	10,000	3,000	9,000
To Continent†	3,000	9,000	2,000	12,000	2,000	11,000
Total Europe.....	9,000	16,000	7,000	22,000	5,000	20,000

* A cantar is 98 pounds.
† Of which to America in 1895, 800 bales; in 1894, —— bales; in 1893, 960 bales.

MANCHESTER MARKET.—Our report received by cable to night from Manchester states that the market continues strong for yarns and firm for shirtings. Production is being curtailed moderately. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1895.			1894.		
	32s Cop. Twist.	8¼ lbs. Shirtings, common to finest.	Cott'n Mid. Uplds	32s Cop. Twist.	8¼ lbs. Shirtings, common to finest.	Cott'n Mid. Uplds

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO OCT. 1.—In our editorial columns to-day will be found our usual overland movement brought down to October 1.

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (October 4) and since Sept. 1, 1895, the stocks to-night, and the same items for the corresponding periods of 1894, are as follows.

Receipts to Oct. 4.	1895.		1894.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1895.	1894
Savannah	2,570	4,731	2,834	7,929	4,095	6,143
Charleston.....	333	583	170	293	500	649
Florida, &c.....	.....	.....	.....	.....	539	515
Total.....	2,903	5,314	3,004	8,222	5,134	7,307

The exports for the week ending this evening reach a total of 139 bales, of which 75 bales were to Great Britain, 64 to France and —— to Reval, and the amount forwarded to Northern mills has been 190 bales. Below are the exports for the week and since September 1 in 1895 and 1894.

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations October 4 at Savannah, for Floridas, common, 9c.; medium fine, 12c.; choice, 15½c.

Charleston, Carolinas, medium fine, 19 to 20c; fine, 24 to 26c.; extra fine, 25c.

LIVERPOOL STOCK.—A re-count of the stock of cotton at Liverpool was made on Saturday last, September 28, and it disclosed an increase compared with the estimated figures of 154 bales, the actual stock being 1,037,154 bales. The total of American was 924,933 bales, or 3,067 bales less than the running count; and of all others the aggregate was 112,221 bales, or 3,221 bales more than the weekly estimate.

JUTE BUTTS, BAGGING, &C.—There has been only a moderate demand for jute bagging during the week under review, but the close is steady at 4½c. for 1¾ lbs., 4¾c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4¼c. for 1¾ lbs., 4⅝c. for 2 lbs. and 5¼c. for 2¼ lbs., f. o. b. at New York. Jute butts on the spot have been quiet on the basis of 1c. for paper quality and 1⅛c. for mixing. Bagging quality is nominal in the absence of stock. The deliveries of jute butts and rejections at New York and Boston during September were *nil* against 15,097 bales for the same month last year, and for the nine months the deliveries reached 382,968 bales against 202,194 bales in 1894. The aggregate stock in the hands of importers and speculators at New York and Boston on September 30 was 2,300 against *nil* at the corresponding date in 1894, and the amount afloat for the United States reaches 50,405 bales against 28,414 bales last year.

COTTON MOVEMENT AND FLUCTUATIONS, 1890-95.—New York: Latham, Alexander & Co.—(Twenty-Second Annual Edition.)—We are indebted to Messrs. Latham, Alexander & Co. for a handsomely bound copy of the twenty-second annual issue of their very useful publication 'Cotton Movement and Fluctuations." The value of the book has been further increased by the addition of new matter, all the features of former editions nevertheless being retained. There are a number of articles of considerable interest specially prepared for the publication, among which may be mentioned a general review of the New York cotton market for 1894-95 by the publishers and a letter from Messrs. Ellison & Co., on the cotton industry in Europe, in which they review the past season and remark upon the prospects for 1895-96. Mr. Ellison also contributes a paper on the cotton trade of India. Brief reference is made to the Cotton States Exposition at Atlanta and a short sketch of Mr. Julius Sterling Morton, U. S. Secretary of Agriculture, is given. Other articles cover the production and distribution of our cotton crop and Southern cotton manufacture. Remarks explanatory of contracts for future delivery which appeared in previous editions are retained, as well as the form of contract in use on the New York Cotton Exchange. The statistical matter includes fluctuations of cotton for future delivery in New York and Liverpool for five years and extensive tables of receipts, exports, total crop, etc., brought down to the close of the cotton year of 1894-95. The publication is one which will no doubt prove very useful and interesting.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 42,331 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

BREADSTUFFS.

FRIDAY, October 4, 1895.

Early in the week the demand for the trade brands of wheat flour was fairly active, owing to a further advance in the grain, and prices in some instances gained an additional 5c. per barrel; but subsequently demand became less active in consequence of a reaction in wheat, but prices were steadily maintained. City mills have been in fairly good request at full values. Rye flour has been without change. Buckwheat flour has been in fair supply, but demand has been poor and prices have declined. Corn meal has been in fair demand for the choice grades and steady. To-day the market for wheat flour was quiet but held steady.

Speculation in the market for wheat futures was fairly active early in the week and prices advanced on continued buying by leading "shorts" both here and at the West to cover contracts, stimulated by stronger foreign advices, a disappointing increase in the visible supply, a large decrease in the world's weekly shipments to Europe and unfavorable weather both here and in Europe for the planting of the new crop. Subsequently, however, weaker advices from abroad prompted realizing sales by longs under which all of the improvement was lost. In the spot market a small business has been transacted with shippers and prices have advanced slightly. The sales yesterday included No. 2 red winter at 1/8c. over Dec. f.o.b. afloat; No. 1 Northern at 1/8@1/4c. over Dec. f.o.b. afloat and No. 1 hard spring at 1 5/8c. over Dec. delivered and 2 5/8c. over Dec. f.o.b. afloat for old; also do. at 2 1/2c. over Dec. f.o.b afloat for new. To-day the market further declined under liquidating sales by "longs," prompted by a heavy movement of the crop at the Northwest and dull and easier foreign advices. The spot market was dull and easier. The only business reported was choice red winter on private terms. No. 2 red winter was quoted at Dec. price to 1/8c. over f.o.b. afloat and No. 1 hard spring at 2 1/2c. over Dec. f.o.b. afloat.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

May delivery.....c.	71 1/8	72 5/8	70 3/8	71 3/8	70 3/8	69 3/4

Indian corn futures have been fairly active, but prices have declined under free offerings prompted by large crop estimates. In the spot market business has been fairly active, as shippers have been moderate buyers, but prices have weakened with futures. The sales yesterday included No. 2 mixed at 38c. delivered and 2@2 1/2c. over October f. o. b afloat. To-day the market was quiet but steady. The spot market was quiet; the sales included No. 2 mixed at 2 1/2c. over October f. o. b. afloat.

May delivery .....c.	35 3/4	35 1/2	35 3/8	35 3/8	35 1/4	35 3/8

Oats for future delivery have been moderately active, but at declining prices, due to free offerings prompted by a large movement of the crop in the interior. In the spot market business has been quiet and prices have declined. The sales yesterday included No. 2 mixed at 23 1/4@23 1/2c. in elevator and No. 2 white at 25 1/2c. in elevator. To-day the market further declined under a continued free movement of the crop. The spot market was quiet. The sales included No. 2 mixed at 23 to 23 1/4c. in elevator and No. 2 white at 25 1/2c. in elevator.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., October 4, 1895.

The upward progress of the market for staple cotton goods has been further attested this week by the numerous advances reported in brown, bleached and colored cottons, and that too in face of a continued moderate demand from the general trade. The character of the demand, however, appears to be quite a minor consideration just now, as the great majority of sellers are more concerned in keeping their obligations within restricted limits than in seeking for new business, and are watching the course of the cotton market much more keenly than they are the actions of buyers. Raw material in fact dominates the market for all staple goods to pretty nearly the entire exclusion of other influences, and even where manufacturers are rapidly nearing the completion of orders on hand they are careless about selling on the present range of values. This feature, as previously reported, has hitherto been most noticeable in connection with Southern mills, but this week the Eastern mills in a number of instances have practically retired from the market for the time being also. Cotton dress fabrics have again been in quiet request, but the market rules very firm, with occasional advances in both prints and ginghams. The woolen and worsted goods departments continue in strong contrast to cotton goods, as apart from a fair business in dress goods for spring the market is dull and featureless.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending September 30 were 2,293 packages, valued at 302,296, their destination being to the points specified in the table below:

NEW YORK TO SEPT. 30.	1895. Week.	1895. Since Jan. 1.	1894 Week	1894 Since Jan. 1.
Great Britain	96	3,751	98	4,587
Other European	27	2,078	114	2,450
China	516	44,122	100	69,240
India	.....	3,701	180	5,935
Arabia	.....	17,512	901	18,[illegible]
Africa	.....	7,081	17	6,041

Mexico	60	2,122	168	1,876
Central America	661	9,194	561	7,[illegible]4
South America	790	45,714	765	36,811
Other Countries	15	5,757	80	2,801
Total	2,293	154,105	3,239	168,[illegible]6
China, via Vancouver	.....	19,655	.....	19,198
Total	2,293	173,760	3,239	187,[illegible]4

From New England mill points direct.

The value of the New York exports for the year has been $6,859,000 in 1895 against $8,770,811 in 1894.

A number of advances have been reported in brown goods during the past week, and at the close 5c. is generally asked for 4-yard sheetings, 5½c. to 5¾c. for 3 yard sheetings and drills and 5¾c. to 6c. for standards. There is no material change in the demand, buyers in face of the difficulty in placing orders restricting operations to immediate requirements. In bleached cottons the advance of Lonsdale 4-4s to 8¼c. has been the most noticeable feature; other tickets are moving up to a parity therewith, business meanwhile being moderate. Wide sheetings are quiet at recent advances. Coarse colored cottons are strong and have made marked advances in prices in denims, ticks, checks, stripes, cheviots and plaids. Business is on a moderate scale, but stocks are well controlled. Kid-finished cambrics are firmer under print cloth influences and generally held on the basis of 3⅞c. for 64 squares. Fancy calicoes are quiet but firm; other regular prints are tending against buyers with an occasional advance in indigo blue and shirting prints. Staple ginghams have advanced to 5½c. for Lancaster & Amoskeag makes; otherwise ginghams are unaltered. Print cloths have ruled strong throughout the week, and after small sales at 3 3-16c. extras close with nothing available in contracts under 3¼c.

Stock of Print Cloths—	1895. Sept. 28.	1894. Sept. 29.	1893. Sept. 30.
At Providence, 64 squares	98,000	89,000	171,000
At Fall River, 64 squares	40,000	123,000	422,000
At Fall River, odd sizes	86,000	135,000	
Total stock (pieces)	224,000	347,000	593,000

WOOLEN GOODS.—The demand for men's-wear woolens and worsteds in light weights has again been of an indifferent character in the aggregate, although an occasional fair re-order demand has been reported, chiefly in low-grade goods. Indications are not more promising than before for medium priced lines, outside of serges and Clay worsteds, which are well sold, and in these grades in cheviots and cassimeres the situation is still unsatisfactory. High priced fancies are in quiet request and generally firm in price. Overcoatings also are quiet throughout and featureless. Cloakings are in some request, chiefly in boucl varieties. The demand for spring dress goods has been on a fair scale and a number of agents report satisfactory progress at firm prices in soft wool and worsted fancies and lustrous effects. Flannels are very firm, with moderate sales, as are blankets. Carpets firm and in fair demand.

FOREIGN DRY GOODS.—In seasonable merchandise business has been quiet and chiefly of a cleaning-up character. The demand for spring lines in cotton and woolen worsteds and mohair dress fabrics continues satisfactory, with prices firm throughout and fair sales for next season are reported in silks, ribbons, hosiery, underwear, linens, etc.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending October 3, and since January 1, 1895, and for the corresponding periods of last year are as follows:

State and City Department.

TERMS OF SUBSCRIPTION.

The Investors' Supplement will be furnished *without extra charge* to every annual subscriber of the Commercial and Financial Chronicle.

The State and City Supplement will also be furnished *without extra charge* to every subscriber of the Chronicle.

The Street Railway Supplement will likewise be furnished *without extra charge* to every subscriber of the Chronicle.

The Quotation Supplement, issued monthly, will also be furnished *without extra charge* to every subscriber of the Chronicle.

TERMS for the Chronicle with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time	$3 50	Three Months (13 times)	$25 00
One Month (4 times)	11 00	Six Months (26 times)	43 00
Two Months (8 times)	18 00	Twelve Months (52 times)	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

MUNICIPAL BOND SALES IN SEPTEMBER.

Our record of municipal bond sales for the month of September which is given below shows that the total amount of new securities marketed was $11,292,564. It will be noticed that over eight million dollars of this amount is accounted for by the two large issues of the State of Massachusetts and New York City. The market for these securities during the month has been firm and many of the offerings called out an unusually long list of bidders. The total sales for September, 1894, amounted to $8,249,347. In the corresponding month of 1893 they were only $3,885,137 and in 1892 but $6,242,952.

In the following table we give the prices which were paid for September loans to the amount of $10,028,064, issued by 39 municipalities. The aggregate of sales for which no price was reported is $627,000 and the total sales for the month $11,292,564. In the case of each loan reference is made to the page of the Chronicle where a full account of the sale is given.

† Sold on a 3½ per cent basis.

In the Chronicle of September 14, vol. 61, page 483, a list of August bond sales amounting to $8,087,431 will be found. Since the publication of that statement we have received the following reports of sales in that month.

Additional August Bond Sales.

Page.	Location.	Rate.	Maturity.	Amount.	Award.
483	Arizona.	5	1945	$365,000	103¼
484	Lewiston School Dist. No. 1, Mont.	6	1915	12,000	102·33

These additional loans will make the total sales reported in August foot up $8,464,431.

Louisiana.—It is reported that at a meeting of the State Board of Liquidation held on Oct. 3 in Baton Rouge it was ordered that the State Treasurer purchase $200,000 of Louisiana bonds. When the news was received at the Stock Exchange in New Orleans there was a decided rise in the price of State securities, and at 2 o'clock $4,000 of State bonds were sold at par. This is the first time since the war that Louisiana State bonds have reached par.

Bond Proposals and Negotiations.—**We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale**

Ashland, Ky.—On September 24, 1895, this city sold $15,000 of funding bonds to Messrs. Seasongood & Mayer, of Cincinnati, for $15,025.

Belmont, Wis.—On October 1, 1895, the village of Belmont sold $3,000 of 5 per cent water-works bonds to the Citizens' National Bank, Darlington, Wis., at par and accrued interest. The securities will mature at the rate of $300 yearly from November 1, 1896, to November 1, 1905. Interest is payable annually.

Brockton, Mass.—On September 30, 1895, the city of Brockton sold $10,000 of 4 per cent registered fire bonds dated October 1, 1895, and payable at the rate of $1,000 yearly beginning October 1, 1896, at 101·03 and $25,000 of 4 per cent coupon water bonds dated Oct. 1, 1895, and payable Oct 1, 1925, at 105·79. Both loans were awarded to E. H. Gay & Co. of Boston. Interest on the bonds is payable semi-annually on April 1 and October 1. The water loan is secured by sinking fund.

Canton, Miss.—The citizens of Canton, Miss., have voted almost unanimously in favor of issuing $35,000 of bonds for water-works and electric lights.

Carbon County, Mont.—Proposals will be received until October 21, 1895, by E. J. McLean, County Clerk, for the purchase of $46,000 of 6 per cent bonds. The securities will be dated November 11, 1895, and will mature November 11, 1915.

Charleston, S. C.—On September 20, 1895, the city of Charleston sold $90,000 of 5 per cent bonds to the Carolina Savings Bank of Charleston at 105. Eleven bids were received for the loan. The securities are dated October 1, 1895, interest is payable semi-annually on April 1 and October 1, and the principal will mature October 1, 1925. The bonds are of the denomination of $500 each.

Charleston, W. Va.—On September 26, 1895, the city of Charleston sold $25,000 of 6 per cent hospital bonds to Rudolph Keybolte & Co., Cincinnati, O., for $27,312 75 and accrued interest. The securities are dated September 26, 1895, interest will be payable annually, and the principal will mature in 20 years, both principal and interest to be payable at the

Chase National Bank, New York. Thirteen bids were received for the loan as follows:

	Amount bid.
Rudolph Kleybolte & Co	$27,312 75
Hopkins Place Savings Bank, Baltimore	27,305 00
Edward C. Jones & Co	27,201 00
N. W. Harris Co	27,141 00
E. H. Rollins & Sons	26,922 50
E. D. Shepard & Co	26,672 50
Seasongood & Mayer	26,333 00
Second National Bank, Cumberland, Md	26,250 00
C. H. White & Co	26,117 00
W. J. Hayes & Son	26,075 20
Farson, Leach Co.	26,046 00
Lamprecht Bros. Co	25,985 00
Dietz, Denison & Prior	25,980 00

The city's bonded debt, including this issue, is $126,000; floating debt (estimated), $14,000; cash on hand, $14,846. The assessed valuation for 1894 was $3,950,680; estimated actual value, $12,000,000. The estimated population is 15,000.

Chicago, Ill.—It is reported that arrangements have been made to place $2,500,000 of city warrants to be issued to meet this year's deficiency. They will be sold as funds are required and will be taken by the Chicago banks. There is also talk of distributing them among Chicago Clearing House members pro rata to their capital.

Cicero, Ill.—On Sept. 29, 1895, the town of Cicero sold $103,411 95 of 4 per cent 20-year railroad-aid bonds for $103,425. Three bids in all were received for the securities, one from W. J. Hayes & Sons, of Cleveland, O., one from N. W. Harris & Co. of Chicago and one from the First National Bank of Chicago. The securities were awarded to the two latter parties, subject to the approval of their attorneys. Interest will be payable semi-annually, both principal and interest to be collected and paid by the State Auditor.

Dayton, Ky.—Proposals will be received until Oct. 10, 1895, by the bond commissioners for the purchase of $8,000 of 6 per cent street improvement bonds. Interest will be payable semi-annually and the principal will mature in ten years.

Dublin, Ga.—Water-works and an electric-light plant are under consideration, the building of which will require the issuance of bonds to the amount of $15,000.

Duluth, Minn.—On September 24 the citizens of Duluth voted in favor of issuing bonds to the amount of $1,856,000 for the purpose of erecting a water-works plant. The proposition to expend the money derived from the sale of the bonds for the purchase of the water plant already in existence in the city of Duluth was voted down.

Harris County, Texas.—On September 24, 1895, this county sold $100,000 of jail bonds to Mason, Lewis & Co., of Chicago, for $101,405. Five other bids were received for the loan.

Houston, Tex.—An ordinance authorizing the issuance of $100,000 of 5 per cent 40-year street improvement bonds has been introduced in the Houston Common Council. At an election held on the 21st of last month the proposition to issue $500,000 of bonds for the same purpose was voted down.

Jefferson, Mo.—On September 21, 1895, this city sold $2,000 of 5 per cent 5-20 year sewer bonds to the First National Bank of Jefferson for $2,012 50.

Leominster, Mass.—Proposals will be received until Oct. 7 for the purchase of $50,000 of water bonds, the loan to bear interest at the rate of 4 per cent and to run 30 years.

Minneapolis, Minn.—On September 24, 1895, the city of Minneapolis sold $100,000 of 4 per cent bonds to Messrs. Blair & Co. at 104·34 and accrued interest. The securities are dated July 1, 1895, interest is payable semi-annually and the principal will mature July 1, 1925, both principal and interest to be payable at the State Fiscal Agency, New York.

Montevideo, Minn.—Bids will be received until to-day for the purchase of $5,000 of water-works bonds. The loan will bear interest at the rate of 6 per cent and will become due in 20 years.

Montgomery County, Ala.—Proposals will be received until October 7 for the purchase of $50,000 of 5 per cent 40-year bonds.

New Brunswick, N. J.—Proposals will be received until October 15, 1895, by James Neilson, City Treasurer, for the purchase of $65,000 of New Brunswick refunding bonds. Th

NEW LOANS.

$65,000

City of

New Brunswick, N. J., Bonds.

DUE 1920.

Proposals will be received by the Finance Committee and City Treasurer at the office of the City Treasurer, Library Building, George street, corner of Paterson street, New Brunswick, N. J., until one o'clock

Tuesday, October 15th, 1895.

For the purchase in whole or in part of such one of the bonds of the city of New Brunswick, N. J. These bonds will be issued to refund maturing bonds. Interest payable May 1st and November 1st at the Treasurer's office. The bonds will be payable November 1st, 1920, and will bear interest at a rate to be fixed according to this issue and will be delivered on November 1st, when the price bid must be paid by the successful bidders.

Proposals should be sealed and addressed to the City Treasurer, and marked "Proposals for Bonds," and should state the price and the rate of interest at which the bidder proposes to take the bonds and must be accompanied by a certified check for 5 per cent of their amount.

It is proposed to issue coupon bonds of $1,000 each. Bonds may be registered.

The bonds are authorized by an act of the Legislature approved January 18th, 1870, and by resolution of Common Council September 17th, 1895, and are free from municipal, county or State tax in New Jersey.

The right to reject any or all bids is reserved.

For further particulars address JAMES NEILSON, Treasurer of the City of New Brunswick, N. J.

Last year $100,000 of renewal bonds were offered for sale and bids for a million were received.

The lowest bidders were local investors, including the New Brunswick Savings Institution.

MUNICIPAL ISSUES IN THE STATES OF NEW YORK & NEW JERSEY A SPECIALTY.

securities will be dated November 1, 1895, interest will be payable semi-annually on May 1 and November 1 at the office of the City Treasurer, and the principal will mature November 1, 1920. Bidders are requested to state the price and the rate of interest at which they propose to take the bonds.

The Treasurer's advertisement giving full particulars regarding the proposed sale will be found elsewhere in this Department. A detailed report of New Brunswick's debt and general financial condition is also published on next page.

New York State.—The New York Chamber of Commerce has passed a resolution favoring the proposition to issue $9,000,000 of State bonds for the purpose of enlarging and improving the Erie Canal, the Champlain Canal and the Oswego Canal. The question is to be submitted to a vote of the people at the November election.

Philadelphia, Pa.—Proposals will be received at the office of the City Treasurer beginning October 14, 1895, and continuing until the whole amount is subscribed for, for the purchase of a $1,200,000 3 per cent serial loan of the city of Philadelphia, exempt from all taxes. Interest, commencing July 1, 1895, will be payable semi-annually on January 1 and July 1, and the principal will mature at the rate of $60,000 yearly from December 31, 1905, to December 1, 1924. Settlement in full must be made with the City Treasurer within ten days after the subscription is made.

Rome, N. Y.—K. S. Putnam, City Chamberlain, reports to the CHRONICLE that an election held September 30 on issuing $240,000 of bonds for sewers resulted in favor of the proposition by a vote of 466 to 445.

Springfield, Mass.—On October 2, 1895, the City of Springfield sold $35,000 of 4 per cent registered school house bonds to Brewster, Cobb & Estabrook at 108·69. The securities are dated October 1, 1895, interest will be payable semi-annually in April and October and the principal will mature October 1, 1915, both principal and interest to be payable in gold coin at the office of the City Treasurer. The loan is secured by a sinking fund. Ten bids were received as follows:

	Bid.
E. C. Stanwood & Co., Boston	106·11
Blodget, Merritt Co., Boston	106·691
R. L. Day & Co., Boston	106·687
Brewster, Cobb & Estabrook, Boston	108·69
Blake Bros. & Co., Boston	106·56
E. H. Rollins & Sons, Boston	107·047
N. W. Harris & Co., Boston	106·83
German-American Investment Co., New York	106·65
William C. Simons, Springfield	107·075
H. H. Skinner, Springfield	107·25

The city's total water debt on September 24, 1895, was $1,625,000; sinking fund, $116,000; net water debt, $1,509,000. Other indebtedness, excluding temporary loans in anticipation of taxes and the present issue, was $284,500; sinking fund, $50,055 68; net debt, exclusive of water debt, $234,444 32. The assessed valuation for 1895 (which is about 85 per cent of actual value) of real estate is $46,063,460; personal property, $12,969,681; total, $59,033,141; total tax rate (per $1,000), $12 20. The valuation of city property in 1894 was $4,342,837 41. The population, by census of 1895, is 51,584.

Syracuse, N. Y.—On September 30, 1895, the city of Syracuse sold $300,000 of 3½ per cent water-works bonds at 102·5. Seventeen bids in all were received. The securities are dated October 1, 1895, interest will be payable semi-annually in January and July at the office of the Metropolitan Trust Company, New York, and the principal will mature July 1, 1920.

Van Wert, Ohio.—Bids will be received until October 7 for the purchase of 5 per cent street improvement bonds to the amount of $10,480.

Winton Place, Ohio.—On September 30, 1895, the village of Winton Place sold $12,000 of 5 per cent town hall refunding bonds to the Western German Bank of Cincinnati for $12,270 and accrued interest. Seven bids in all were received for the loan. The securities are dated Oct. 2, 1895, interest will be payable semi-annually, and the principal will mature in 30 years, with an option of call after 20 years; both principal and interest will be payable at the Fifth National Bank, Cincinnati.

Yarmouth, Me.—Four per cent gold water and sewer bonds to the amount of $40,000 have been sold to Swan & Bartlett, of Portland, Me. The loan matures in 20 years.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT. Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

New Brunswick, N. J.—This statement concerning the financial condition of New Brunswick has been corrected by means of an official report from James Nelson, City Treasurer.

The city is at present offering $65,000 of refunding bonds due November 1, 1920. See advertisement elsewhere in this Department.

This city is situated in Middlesex County.

* The bond issues marked thus (*) in the above table are all held by the sinking fund.

TAX FREE.—The city's bonds are exempt from taxation.

INTEREST on the water bonds, with the exception of the last two issues listed in the above table, is payable at the Ninth National Bank, New York City. All other interest at the National Bank of New Jersey in New Brunswick.

TOTAL DEBT, SINKING FUND, ETC.—The subjoined statement shows New Brunswick's total municipal debt, the sinking fund held by the city against the same, the water debt, and the city's floating debt the dates mentioned.

	Apr. 1, 1895.	Apr. 1, 1894.	Apr. 1, 1893.
Total municipal debt	$1,581,800	$1,585,600	$1,567,600
Sinking funds and cash assets	362,360	329,324	330,355
Net debt	$1,219,440	$1,256,276	$1,237,245
Water debt, included above	220,500	235,500	250,500
Floating debt (included above)	25,000	30,000	*70,000

* The floating debt as given for April 1, 1893, includes revenue bonds.

The total debt of the city in 1885 was $1,618,619; sinking fund and cash, $57,519; net debt, $1,561,100.

Regarding the bonds now being offered, the City Treasurer makes the following statement: "The bond offered is practically a water bond, having the double security of the credit of a growing and a wealthy city within 30 miles of New York which has never defaulted, and the assets of the water-works, rapidly increasing in value, and a practically inexhaustible supply of remarkably pure water."

CITY PROPERTY.—The city owns public buildings, steam fire engines, etc., and water works which cost $493,000. The gross earnings from the water works for the year 1894 were $52,107, including rental of fire hydrants; the cost and maintenance was $12 315, leaving a net income for the year of $39,792, or over 3 per cent of the net debt of the city. About $10,000 has been paid for new street mains and $20,000 for a new 20-inch pumping main during the past two years, all of which has been paid for out of the earnings of the works, while $10,000 has been expended in extending the sewerage system and charged to current expenses, showing a most conservative management of the city affairs.

ASSESSED VALUATION.—The city's assessed valuation and tax rate have been as follows:

Year.	Real Estate.	Personal Property.	Total Assessed Valuation.	Rate of Tax per $1,000
1895	$8,120,000	$2,105,000	$10,225,000	$26·00
1894	8,058,500	2,150,000	10,208,500	26·20
1893	8,040,000	2,160,000	10,200,000	24·80
1892	7,900,000	2,110,000	10,010,000	25·00
1891	7,930,000	2,110,000	10,040,000	24·20
1890	7,900,000	2,150,000	10,050,000	24·60
1885	4,062,455	1,325,850	5,388,305	41·40
1880	4,173,000	1,243,000	5,416,000	35·81

POPULATION.—In 1890 population was 18,603; in 1880 it was 17,166; in 1870 it was 15,058; Police census, 1894, 20,338. Population in 1895 according to local figures is 20,000.

1850. 1895.
The United States Life Insurance Co.
IN THE CITY OF NEW YORK.

This old and reliable Company now has the experience of forty-five years of practical Life Insurance, which has taught it that the *sine qua non* of success is the adoption of good plans of insurance, and the pursuit of a liberal policy towards both its Insured and its Agents. These essentials it possesses in an eminent degree, but judiciously tempered by that conservatism which is the best possible safeguard of the policy holder. Its contracts are incontestable after two years. They are non-forfeiting, providing generally for either paid-up policy or extended insurance, at the option of the policy holder. It gives ten days of grace in payment of all premiums. Its record during the past forty-five years abundantly demonstrates its absolute security.

Active and successful Agents, wishing to represent this Company, may communicate with the President at the Home Office, 261 Broadway, New York.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, October 12, have been $1,131,992,893, against $1,225,231,996 last week and $915,673,593 the corresponding week of last year.

CLEARINGS. *Returns by Telegraph.*	*Week Ending October 12.* 1895.	1894.	*Per Cent.*
New York	[illegible]	$480,890,967	+32·7
Boston	87,165,118	66,047,467	+32·3
Philadelphia	61,633,184	50	+22·9
Baltimore	12,072,317	[illegible]	4·2
Chicago	79,508,890	75,713,491	+ 5·0
St. Louis	20,032,419	19,881,021	+ 0·8
New Orleans	[illegible]	7,1[illegible]	+38·5
Seven cities, 5 days	$802,618,027	$431,864,813	+27·1
Other cities, 5 days	145,101,102	131,017,924	+10·8
Total all cities, 5 days	$947,719,129	$762,382,74[illegible]	+24·3
All cities, 1 day	184,273,764	153,290,850	+20·2
Total all cities for week	$1,131,992,893	$915,673,593	+23·6

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, October 5, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is an increase in the aggregate exchanges of over two hundred and thirty million dollars, and at New York alone the gain is nearly one hundred and thirty-five millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 16·9 per cent. Compared with the week of 1893 the current returns record an excess of 29·4 per cent and the loss from 1892 is 8·8 per cent. Outside of New York the gain over 1894 is 13·2 per cent. The excess over 1893 reaches 22·8 per cent, but making comparison with 1892 the decrease is seen to be 6·7 per cent.

Clearings at—	*Week ending October 5.* 1895.	1894.	1895. *P. Cent.*	1893.	1892.

THE FINANCIAL SITUATION.

Among the features in the financial markets this week have been increased activity followed by greater ease in money on call, lower rates for foreign exchange succeeded by a firmer tone, and a material advance in the price of silver bullion, the market for bullion closing strong at the advance. How permanent this upward turn in silver is it would be hazardous to say. No one can tell at just what price the world's needs for this metal can be supplied. If all the new production came from the United States, beyond question the yield would be short, for the output of our mines cannot be kept up at the old scale, even at 32d. per ounce, and hence from the American standpoint it has long looked as if a rise was assured. Outside of that fact though the relation of current supply to price and demand remains pretty much in the clouds. There is one circumstance with reference to the upward turn at this time in which all accounts agree, and that is that it is due to a special demand arising out of the payment of the indemnity money by China to Japan and its disbursement by Japan. One condition is worth recording. Cotton made a material decline this week while silver made a material advance. We several months since showed what a grand rise cotton had then secured and was securing while silver stood still. We are perfectly well aware that these movements in silver and cotton have no more relation to each other than either has to the changing phases of the moon. We only call attention to these fluctuations for the benefit of our numerous friends in the South, who told us so many times last year that the great decline in cotton in 1894 was due to the great decline which had taken place in silver. Current facts seem to be marvelously out of accord with such a notion.

The somewhat easier money market following the activity of last week some seem to interpret by saying that the interior movement of currency has almost stopped and is about at its end for the season. There is nothing at all in this statement except that there was in the early part of the current week a natural falling off in the currency outflow following the large movement the two previous weeks. The greater ease in money is a wholly temporary affair, and was fully forecast by the facts we gave last week; it has been caused in part by the return to the market of money withdrawn the close of September for divers interest payments due the first of the current month, but is chiefly a natural result of the 5½ million dollars of Government interest distributed on the first day of October, a large part of which has this week gone into the banks. As to the firmer tone in foreign exchange it is accounted for in part by our easier money market, but more largely by the fluctuations in cotton futures, which have tended to check purchases on foreign account and consequently the making of bills; first there was a rapid rise last week, continuing into the first part of this week, with a decline later, ending in a further material loss on Thursday when the Agricultural Department report appeared. Added to this diminished supply of cotton bills, the reported break in the Kaffir mining stocks at Paris and London and rumors of European complications growing out of the situation in Turkey have had some influence. But all these are but passing incidents likely to be followed within a week or two by another drop in exchange

A further event of special interest has been the action of the trunk lines with reference to rate-cutting, which we have referred to in a separate article. But while the trunk lines are thus taking steps to prevent these evils the rate situation on the roads west of Chicago has been becoming steadily worse and traffic is now being moved at ridiculously low figures. We cannot say who is responsible for the present critical state of things. But this much we know—that at a time like the present, when we have crops of unprecedented magnitude (as shown by an article on another page), and when as a consequence the roads are certain for months to come to have more traffic than they can handle, there is absolutely no excuse for such a situation. It is simply throwing money away. The only redeeming feature is that the war is so intense that it can not well be kept up long. The managers should consider the magnitude of the interests involved, and, throwing aside all personal feeling, take steps to bring the contest to a speedy termination. They might with advantage use the trunk line compact just adopted as the basis for a new agreement among themselves.

As showing how the public attitude towards the railroads is changing, the action of the Board of Trade and Transportation this week in passing a resolution urging that Congress repeal the prohibition of pooling as contained in the Inter-State law, and advising that the claims of the United States Government against the Pacific roads be funded "on a basis which these roads can stand," is noteworthy and significant. The Committee on Railway Transportation, which reported this resolution, consisted of F. B. Thurber, Simon Sterne, Oscar S. Straus, John A. Elmendorf, Seth E. Thomas and Charles H. Patrick, some of whom have in the past actively opposed the railroads in many of their measures. The committee well say that the time has gone by when any fear of exorbitant rates is justifiable; that rates have steadily declined to a point where the people of the United States get their transportation for less than half that paid by other countries; that nearly one-third of the mileage of the United States is, or has recently been, in the hands of receivers, and over one-half of the capital invested receives no dividend or interest; that the problem is how to eliminate unjust discriminations, reduce expenses and systematize administration so that shippers may enjoy reasonable, uniform and stable rates, and carriers may earn a just compensation for capital honestly invested; that this end can best be attained by the repeal of the clause prohibiting pooling, and that as far as the Pacific roads are concerned the conditions have changed so that it is impossible for the roads to meet their contracts, and that hence Congress should deal leniently with them.

The iron trade remains in a state of great activity, and according to the usual monthly report of the "Iron Age" production of pig iron the first of the month was at the rate of 201,414 tons a week—a figure never previously reached. At the same time the "Age" notes that preparations for putting additional furnaces in blast are in progress, so that the total is certain to be still further increased in the near future. A feature that has recently developed in connection with this phenomenal activity (which extends to all branches of the iron and steel trade), gives occasion for special encouragement. We refer to the reaction that appears to be under way in many departments of the trade.

The great increase in demand which has occurred since last spring has been attended not only with a marvelous increase in production but with a marked rise in prices as well. Within the last few weeks prices have fallen away to some extent. We regard this as in the highest degree satisfactory, for it will tend to keep the trade in a healthful state.

Money on call early in the week was active and loans were made at 2½ and at 3 per cent. The Bank return on Saturday had disclosed the fact that four of the banks held $8,857,000 out of the $16,471,525 surplus reserve reported by all the banks in the Association, indicating that by far the large majority were below the limit of 25 per cent reserve to liability and that the banks in the national system were consequently out of the market as lenders of money. The market though gradually grew easier, and on Wednesday money was loaned as low as 1 per cent, considerable amounts were placed at 1½ and at 2 per cent, while transactions at 2½ per cent were exceptional. On Thursday and Friday the range was from 2 to 2½ per cent, with the bulk of the business at 2 per cent, and the average for the week was about 2½ per cent. The banks and trust companies quote 3 per cent as the minimum; some obtain 2½ and very few 3 per cent. The feature in the time loan branch of the market is the desire of lenders to make contracts for long dates, and these are offered on favorable terms, much depending upon the grade of security and the standing of the borrower. Rates on good marketable Stock Exchange collateral are 2½ per cent for thirty days, 3 per cent for sixty to ninety days, 4 per cent for four and 4@4½ per cent for five to eight months. These rates are for round amounts, and borrowers of sums of $10,000 or under would be required to pay from ½ to 1 per cent above these rates. Re-discounting for institutions in the interior is reported by banks having large correspondence as still good, with inquiries from nearly all parts of the South, from the West and from the Middle Western States. The notes are generally payable on demand, and as 6 per cent interest is charged they are paid off as promptly as possible in order to stop interest. The average maturities of notes made this year has been about 90 days, against 85 last year. There has been a better demand for commercial paper this week, and one of the trust companies which was early in the market secured the most desirable names, leaving those banks which came in later to make selections from those names which remained, and the high-rate choice paper has nearly all been taken. The supply now offering is not large, but the assortment is good. Quotations are 4½@5 per cent for sixty to ninety-day endorsed bills receivable, 5@5½ per cent for four months' commission house and prime four months' single names, 5½@6 per cent for prime six months' and 6@7½ per cent for good four to six months' single names.

There have been two disturbing factors in the European financial situation this week. One was the speculation in Kaffir mining stocks, which early in the week resulted in a feverish break at Paris, somewhat affecting London, and later in the week there was some disturbance on the London, Manchester and Glasgow Exchanges, caused by the fall in those stocks. Reactions followed in each instance, and the support is reported to have come from parties who are largely interested in promoting the speculation. Another factor was the action of the Powers in insisting that Turkey should cease to persecute the Armenians, and the reply of the Porte not being satisfactory the English fleet has been concentrated at the island of Lemnos, the entrance to the Dardanelles. Though the London market for securities has been somewhat disturbed by these unsettling factors, the discount rates have not been affected. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London ⅝@11-16 of 1 per cent. The open market rate at Paris is 1¾ per cent, at Berlin it is 3½ per cent and at Frankfort 2⅝ per cent. According to our special London cable the Bank of England lost £1,045,674 bullion during the week and held at the close of the week £41,726,641. Our correspondent further advises us that the loss was due to £744,000 sent to the interior of Great Britain, to exports of £562,000 (of which £300,000 were to the Cape, £130,000 to Egypt, £120,000 to the Argentine Republic and £12,000 to the Continent) and to an import of £260,000, of which £179,000 were from Australia and £81,000 were bought in the open market. It is a notable fact that the Bank of France lost £1,354,510 and the Bank of Germany £497,500 gold during the week, making the total loss by the three European banks, including that of England, £2,897,684. It will be noticed that of the loss by the Bank of England £744,000 went to the interior.

The foreign exchange market was weak until Wednesday, when it grew steady, and it was firm on the following days. The market was influenced early in the week by more active money, by a fairly liberal supply of bills, chiefly commercial against cotton, and by a light demand. On Monday Heidelbach, Ickelheimer & Co. and Lazard Freres reduced rates to 4 87½ for long and 4 88½ for short, and though there was no change until the afternoon in actual rates for sixty-day sterling, sight bills and cable transfers were one-quarter of a cent lower compared with Friday at 4 87½@4 87¾ for the former and 4 87¾@4 88 for the latter. Before the close actual rates for long sterling were reduced and on Tuesday these opened at 4 86¼@4 86½, one-half of a cent lower than on Friday, while short sterling and cable transfers were one-quarter of a cent lower than on Monday at 4 87¼@4 87½ for the former and 4 87½@4 87¾ for the latter. The market was then weak and the Bank of British North America and Heidelbach, Ickelheimer & Co. reduced posted rates half a cent. Toward the close of the day the tone grew a shade firmer by reason of the absorption of the supplies of bills, and on Wednesday it was steady though not quotably higher for actual business, and the market was then somewhat influenced by the easier rates for money. On Thursday the tone was dull and firm and at the close bankers quoted rates for actual business one-quarter of a cent higher. While some houses reported a fairly liberal supply of near futures against cotton others asserted that the offerings were quite light and at comparatively high rates, such as 4 85½@4 85¾ for spot and 4 85 for November, and it was claimed that the advance in the price of cotton last week had induced shippers to hold their bills for higher prices. Yesterday the tone was very firm and rates for actual business for long sterling were advanced one quarter of a cent. Posted rates were marked up half a cent by the Bank of British North America and Heidelbach, Ickelheimer & Co. The following table shows the daily posted rates of exchange by leading drawers.

The market closed very firm on Friday at 4 87@4 87½ for sixty day and 4 88@4 88½ for sight. Rates for actual business were 4 86¾@4 87 for long, 4 87½@4 87¾ for short and 4 87¾@4 88 for cable transfers. Prime commercial bills were 4 86@4 86¼ and documentary 4 85¾@4 86.

The Illinois Central continues to make handsome gains in earnings. For the month of September its early estimate indicates an increase in gross over last year of $112,968, and for August its audited return shows an increase of $44,769 in gross and of $81,122 in net. The Mexican National for August reports $19,816 increase in gross and $18,061 increase in net; the Southern Pacific (including the affiliated roads), $17,789 decrease in gross, $145,401 decrease in net; the Union Pacific Denver & Gulf $1,166 decrease in gross, $3,555 decrease in net, and the Western New York & Pennsylvania $3,727 increase in gross, $23,119 decrease in net. The following is a four-year comparison for a number of roads.

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending Oct. 11, 1895.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency.....	2,350,000	$5,941,000	Loss. $3,591,000
Gold.....	211,000	674,000	Loss. 463,000
Total gold and legal tenders.....	$2,561,000	$6,615,000	Loss. $4,054,000

With the Sub-Treasury operations the result is as follows.

Week Ending Oct. 11, 1895.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	$2,561,000	$6,615,000	Loss. $4,054,000
Sub-Treasury operations.....	17,400,000	14,400,000	Gain. 3,000,000
Total gold and legal tenders.....	$19,961,000	$21,015,000	Loss. 1,054,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

HOW TO SECURE PERMANENT BUSINESS PROSPERITY.

The business outlook has long been in great part a currency question—that is, subject to prevailing currency conditions. Our currency remains to-day of a disturbing character, though when Congress stopped the further manufacture of silver notes the relationship between it and general business changed in a material respect. Many overlook or do not sufficiently regard this change. They are knowing to the mischief our currency law caused, and conclude that the situation cannot be corrected except through a law permanently withdrawing from circulation the outstanding Treasury notes, which in part occasioned the harm.

That method of reasoning is natural. A radical and thorough remedy for any evil is the removal of every agency which aided in causing it. It is the same method of reasoning which was widely used and became so conspicuous by its noisy character and failure to conform to the results in 1877 and 1878. Gold payments it was then said by many conservative people could not even if resumed be sustained a month unless preceded by a contraction of the greenback circulation. We do not deny that contraction would have been the wiser course; it would have worked a final and complete cure. Time though proved the faultiness of the conclusion, that it was the only means of relief and that without it there could be no gold payments and no business recovery; there was another remedy and for the time being just as efficacious. It consisted in the natural distribution throughout the country, to meet the demands of expanding business, of the congested currency, and its active employment in carrying forward the revival of our internal commerce.

We refer to this matter because so many usually good judges cannot now trust in any term of business prosperity which is not preceded by a complete reformation of our Government note issues. No one would like to have that end secured at once more than we would. We think all conservative classes should be unremitting in their efforts to keep active the continual agitation of the subject of currency reform until the people are educated up to the point of giving the country a sound system. But Congress would not authorize contraction in 1879 or before that date, though the subject was earnestly pressed in anticipation of gold payments; and hitherto Congress has failed to do so to meet the present crisis. Judging from appearances, although some erroneous currency views have weakened since the last session of Congress adjourned, the chances are that the next session of Congress will disappoint the hopes of those who put their faith in any radical currency action the coming winter. Under these circumstances it is gratifying and suggestive to recall past occasions when the country was suffering from a somewhat similar currency congestion, and when business revival afforded active use not only for the idle greenbacks but forced gold imports in large amounts, and so further fortified the currency situation.

There is one measure of relief our law makers may grant and which in a contingency may be needed and used. Although we have no hope that Congress will enter upon a course of currency contraction, not unlikely it can be induced to give the Treasury power to issue a 3 per cent or less temporary loan certificate. If the banks were authorized by the act to count the certificates in their reserve, and

the certificates were made payable at their face value on demand, the Secretary could probably put out and keep out all he wanted at 2 per cent. This device, while our currency is in its present congested condition, could be employed to such an extent as to probably prevent the money market dropping lower than 4 per cent, and so in large measure regulate and check gold exports and in that way protect the Treasury reserve. When the money market rose higher than 4 per cent they would probably be presented for payment and the monetary situation be relieved. Of course if renewed business activity should make a use for the surplus currency, and it should thus become distributed throughout the interior, there would probably be no call for the negotiation of these certificates, since the money market would be relieved of the congestion and the outflow of gold would be regulated in a natural way, as it was in 1879 and 1880. But so long as the Government is in the currency and banking business a law of the character indicated is highly desirable, and we trust Congress will not fail to grant authority for some such issue as we have suggested. If that statute could be enacted the mere possession of the authority on the part of the Government would be an assurance of safety, and its exercise might never be required.

By these means a recurrence of the embarrassment experienced the past year by the gold outflow would be wholly removed. Very likely it will be removed through the currency movement to the interior now in progress. That movement has been a little less this week than it was last week; but this indicates only a natural fluctuation in the demand and does not indicate that the demand is satisfied. Even the ordinary crop demand is by no means satisfied. From the nature of the case the interior requirements must be of a very different character from the annual flow for moving crops. This perhaps is especially true of the North west, where the lack of crops the previous year left producers with no surplus cash, no household hoards, to draw upon for future wants and daily use. It is true also of the South, where the yield of cotton was large but the price received for it did not cover cost of production. In a word, our farming sections now not only need currency for moving their products but likewise presumably for the ordinary surplus which, as the crops are turned into cash, will be required for each planter's little store and for each small community's larger exchanges.

The *Evening Post* put the whole case of present currency complications and curative methods into brief and clear form a few nights since. It stated, after showing how fiat money had been heaping up at the seaboard cities in such enormous stocks as to be unloanable, and so driving out foreign capital and thereby forcing gold exports,—after recalling these facts, it said that there were three obvious ways of correcting this situation and checking these exports. "The inflated currency, first, may be contracted by retirement of legal tender-notes. In this direction Congress has done no more than to check further inflation. Or, second, a Government revenue may be established so large as to lock up in the Treasury an enormous amount of money, and thus indirectly contract the circulation. This process, applied in 1886 and 1887, probably saved the United States from a break-down of its Government finances eight or nine years ago. * * * The third alternative is an increase of interior trade so large as to give employment to the idle surplus. This happened in 1891, when the results of 1890's inflation were already nearing a serious crisis, and it is possible that a similar trade relief is now developing."

Here we have the situation and the remedies. There is no hope at all that Congress at the approaching session will pass a measure contracting the circulation. That mode of relief can among the events possible to occur be dismissed from public anticipation. There remain then only two other ways through which a correction may come. The natural one is the movement of money to the interior now in progress and which we have some reason to hope may continue until it reaches large proportions. The other is a method for temporary contraction, that is for regulating the rate of interest and so protecting the Treasury gold reserve. We believe that if by either of these ways our inflated currency can be regulated and the business derangement it has been causing arrested, the next five years will be by far the most prosperous the country has ever enjoyed.

INDEPENDENT AUDIT OF RAILWAY ACCOUNTS.

Without doubt Mr. Joseph Price voices the opinion of a good many European investors when he declares it would promote confidence abroad in our railroad securities if there were an independent audit of the accounts of the companies. Mr. Price is the Vice-President of the New York Ontario & Western and of the Grand Trunk of Canada, and has also for many years been prominently identified with the English Association of American Bond and Shareholders, and thus, both from his knowledge of American railroads and his acquaintance with European investors, he is well qualified to speak regarding the matter. At the recent Ontario & Western meeting and in various interviews lately he has laid great emphasis on the point referred to. His views are tersely stated in the following from one of his quoted utterances: "There is a want of confidence in London as to the accuracy generally of accounts of American railways, arising from the fact that there is no audit of those accounts. The need of this has been painfully apparent in some important instances of late. I think that a very great step towards establishing the credit of American railway shares in Europe would be an audit of this nature, and I would like to present this subject to the serious consideration of American railroad companies. In England independent auditors are elected by the shareholders. They are independent of the boards of directors, and are held responsible for the accuracy of their certifications."

The views here expressed have long been held on the other side, and it has time and again been urged that American railroads must adopt the English system and have their accounts examined and certified to by accountants. In deference to this sentiment and in part no doubt also because they thought the practice a commendable one, two of our railroads, namely the New York Ontario & Western and the Denver & Rio Grande, have had their accounts regularly audited for the last eight years. In both of these companies the foreign interest is very strong, and they are the only prominent railroads that have seen fit to incorporate this feature as part of their regular practice, though one or two minor companies, to improve their standing before the public, have also given a real or a quasi adherence to the idea by having an accountant's certifi-

cate appended to their reports showing that the accounts had been subjected to a more or less close examination and found correct. Incidentally we may say that in the case of the Illinois Central it has long been the practice to have a committee of the board of directors examine the stocks, bonds and other assets of the company to see that they agreed with the schedules of the same as given in the balance sheet; we presume other companies have in operation like checks and safeguards to prevent peculation and fraud; but of course this is different from the system advocated by our friends on the other side.

It must be admitted that the arguments in favor of an inspection and examination of the books and records of the companies to verify their accuracy are much stronger than they were, that they have been measurably reinforced by the events and developments of recent periods, just as Mr. Price suggests. So the demand for an independent audit is not to be brushed aside lightly the same as in the past and as if there were no substantial reason for making it. Up to the time of the Atchison disclosures it was difficult to point to any case where the absence of an audit, such as proposed, had worked any harm. But that occurrence changed the situation. There we had a clear case of a misstatement of the earnings and accounts. The case stands all by itself and may be said to be sui generis, no other instance being known where at the direction of the highest executive official the accounts of a railroad have been stated erroneously. No doubt the Reading occurrence will suggest itself to many in connection with that of the Atchison, but that was an affair of a totally different kind. There the collapse was the result of speculations in which heavy losses were incurred—the books were correct. But though the Atchison case stands by itself, it yet furnishes a plausible contention in favor of an independent audit. If such an act was possible in the Atchison case, what is to prevent its occurrence in other cases; that is the argument advanced, and it is difficult to meet it.

But while admitting the force of this plea, it is open to question whether any such advantages would result from an independent audit as is claimed or believed there would. At the outset the manner in which the voting power of the shareholders is exercised in this country should not be overlooked. The stockholders do not attend the annual meetings or vote for the directors in person, except in very rare instances; they are represented at the election by proxy, and the proxies are held by the few persons who control the affairs of the road in each case. When this fact is remembered, it at once becomes evident that to speak of an election of independent auditors *by the shareholders* is a misnomer. The same power that elected the directors, namely the proxies, would also elect the auditors, and the control exercised by this power would be as complete and effective in the one case as in the other. We notice, too, that with both the Ontario & Western and the Denver & Rio Grande the same auditors have been continued through all the years, Messrs. Barrow, Wade, Guthrie & Co. having acted in that capacity year after year for the Ontario & Western and Mr. Charles Wheeler for the Denver & Rio Grande. Not unlikely this would be the course in other cases should the practice of having an audit find general favor or be insisted on. Obviously in such cases the policy of continuing the auditors might not be free from objection as it is with the two companies named, the reason being that under it the auditors become fixtures, the same as the regular officers of the road, and are subject only to change when the management itself is changed. Of course where the management, as in the case of the Denver and the Ontario & Western, was absolutely beyond reproach and had nothing to conceal, but on the contrary was anxious to submit its accounts to the most rigid inspection and scrutiny, they would appoint auditors that were really independent, just as these two companies have done; but in such instances there is really no occasion for a separate audit. On the other hand, where the management (holding the proxies) was not incapable of questionable acts there would be nothing to prevent their choosing auditors of the same character as themselves, making them their creatures, thus defeating the very purpose of an independent audit. If the stockholders exercised the voting power, as they do in England, instead of delegating it to others, this of course could not happen, for then the holders would see to it that there was absolutely no connection between the auditors chosen and the management whose accounts they were to pass upon.

If we apply the above reasoning to the case of the Atchison, it at once becomes evident that there is no assurance that an outside audit would reach instances of that kind. It should not be forgotten that the executive under whose administration the acts in question occurred was himself an expert accountant, that the entries were made at his express direction, and that if a separate audit had existed at the time no one could have held the position of auditor who was not entirely satisfactory to him. It is equally clear that the plan proposed would not meet cases like that of the Reading. An independent audit would tend to disclose transactions of that nature, and in that sense would be beneficial, but it could not prevent them; it will be recalled that the purchases of Mr. McLeod, which resulted so disastrously to the Reading, had all been approved by the Board of Managers, and thus the fault was one of management, and was not at all traceable to bookkeeping or accounting irregularities or defects.

We mention these two conspicuous instances because they have done much to discredit American railroad management in the eyes of the world, and because it is in the highest degree desirable that a repetition of such occurrences be avoided. But can they be avoided under the adoption of the English practice of having a separate audit? We have seen that it is at least doubtful whether they could in a case like that of the Atchison, and certain that they could not in a case like that of the Reading. Furthermore, it has been shown that under the methods of electing directors in this country an outside audit could not in any event be so conclusive as in England. When all this has been said, however, it still remains true that a great many security holders in Europe think that a separate audit would be a protection to their interests. And we are not at all sure that in this view it would not be best to accede to their request. The circumstances of the case must control in each instance.

In reaching a conclusion one important consideration should not be lost sight of. When sifted down it will be found that the demand for an independent audit arises after all out of a desire to seek protection against unfortunate investments in our railroad securities. Many of the foreign purchases of American

stocks and bonds have proved unprofitable, and the holders want a remedy for this condition of things. They have read the indiscriminate charges against our railroad officials, and they have hastily formed the conclusion that what is needed is a check upon the methods of accounting. As a matter of fact irregularities in accounting have played an exceedingly minor part in the disasters in the railroad world—a part so small that in the total result they might with justification be entirely ignored; and even the speculative element, which was a prominent and an objectionable feature in the early years of our railroad history, has now been almost entirely eliminated. On the other hand there have undoubtedly been mistakes of policy and errors of judgment on the part of the managers in numerous instances. But these are entirely outside of and have no connection with the methods of accounting, and the most extended and the most perfect audit in the world could not operate to avert such mistakes and errors.

The disasters to our railroads have arisen from a variety of causes. Overbuilding of new mileage has been one of these, based on a too sanguine estimate of the future possibilities of traffic. The managers may perhaps justly be held responsible for this error, but most of the other causes have been entirely beyond their control. Among them may be mentioned the enactment of the Inter State Commerce Law, with its long- and short-haul clause and its prohibition of pooling, the action of State legislatures and railroad commissions in reducing rates and hampering the railroads in other ways, the repeated failure of the crops, and finally silver issues and the panic of 1893, with the succeeding period of great industrial prostration all over the country.

These are all facts beyond dispute, and they deserve to be stated in justice to our railroad managers. Even in the Atchison case, reprehensible though the acts of the late executive were, these acts cannot be regarded as the cause of the present condition of the property. The over-statement of earnings for a time gave a fictitious appearance of prosperity to the company's affairs, and as a consequence we may suppose some investors were induced to buy the securities who otherwise would not have touched them. In this sense the occurrence has of course been very harmful, besides throwing discredit upon American railroad management. But it has not diminished the earning capacity of the property to the extent of a single dollar, and the reason why the company is not able to pay dividends on its stock the same as formerly is found in the fact that a few years ago it built 1,000 miles of new road in Kansas at a time when two other companies built a like amount each; that it built other extensions and additions; that as a result it enormously increased its obligations and liabilities, and that since then it has suffered from all the other drawbacks and depressing influences, enumerated above, in common with the rest of the railroads.

It may now fairly be claimed that a turn has occurred in the general railroad situation and that henceforward very decided improvement will occur. Railroad managers have learned a great deal by their experience in recent years, and many of their past errors will not be repeated. At the same time the grain crops are large and business is reviving all over the country. In addition some of the companies may adopt the suggestion of an independent audit. But where this is done the investor should clearly understand that it in no way relieves him from any of his own duties and responsibilities. If he wants to ensure good management he must exercise care in selecting the managers in the first place and then be duly watchful of their acts thereafter. An audit can form only a poor substitute for his personal attention. In the investment world, no less than in the political world, ceaseless vigilance is the price one must pay to protect his possessions. Mr. Price throws out some hints as to the advisability of having an audit by the Inter-State Commerce Commission. Without wishing to enter upon a discussion of that proposition, we will only say that it does not seem to us it would be regarded with favor anywhere, and perhaps least of all by Congress.

THE NEW TRUNK-LINE COMPACT.

The event of the week to which the foremost place must be assigned, in its far-reaching effects, is the action taken by the Trunk Line Presidents on Thursday. At a meeting called for this purpose on that day the new agreement for the regulation and maintenance of rates, after being thoroughly considered, section by section, was formally ratified and approved, with some very minor and unimportant changes. Nothing now remains but to have the agreement drawn up in proper shape for signature, and a committee has been appointed to put the document in form for final action at a future meeting. Of course the compact must also be passed upon by the boards of directors of the several companies, but their adhesion to it is assured in advance by the course of the Presidents, who have acted with their full authority.

This agreement marks an important departure in the affairs of these lines and at the same time constitutes one of the most noteworthy steps ever taken by any body of roads in this country. We commented on the scheme when it was first proposed, several weeks ago, and furnished an outline of its leading features. Since then the agreement has been revised in some of its details, and the phraseology altered in a number of respects. But no change has been made in the essential features of the plan, which remain as originally proposed. The agreement has nowhere been printed in full, and in fact only very imperfect summaries of it have been furnished the newspapers. Our readers will therefore appreciate our efforts in securing for them a copy of it. We are able to give it both in the form originally proposed and in the form in which it was submitted on Thursday and (with only very trivial changes) adopted. The document will be found on pages 643 to 645, and we advise all our readers to peruse it carefully.

We think the general public have no conception of the great revolution which this scheme, if carried out in its full purpose and intent, will work. By many persons it is looked upon as of a kind with those periodical agreements which have been so numerous in the past—made one day only to be broken the next. We do not regard it in that way. To us it appears as if the managers, determined to prevent the ruinous cuts in rates that have been common so long and have been so disastrous in their effects, had finally hit upon a scheme which promised to attain the end sought.

The delegation of the rate-making power on competitive business to a board of nine men, elected by the different roads, would not in or by itself be especially important. It is the fact that this rate-making body is endowed with the necessary authority to enforce its

control of the rates that gives to the new compact force and distinction. Previous agreements have all failed at this point. The managers might bind themselves in apparent good faith to live up to an agreed schedule, but the solicitors in their efforts to secure business, each for his own road, would soon upset the whole arrangement again and bring about renewed demoralization.

Under the new plan these solicitors will be directly under the control of the rate-making board—if they offend they can be dismissed by this board. The same body is also given control over the fast freight lines. The general purpose of the scheme is to do away altogether with separate soliciting agencies and to replace them by joint agencies. As pointed out by us in our issue of September 14, the abolition of these separate agencies will not only remove one of the most serious obstacles at present existing in the way of the maintenance of rates, but it will make possible a great saving in expenses.

The plan is to remain in force five years, and contains many other special provisions besides those mentioned calculated to make the control of rates effective and ensure the success of the scheme. Of course we do not imagine that all the changes contemplated can be inaugurated in a day. It will take time to effect them. But this much is certain, very important benefits to the roads will result from the very start. For it should be understood that without making any advance at all in existing schedules, but simply preventing the secret cuts and rebates which have so long been tolerated, many millions of dollars will be added to the revenues of the roads. It is no exaggeration to say that with this agreement in force the condition of the trunk-line properties is greatly strengthened and their outlook for the future very materially improved.

INDICATIONS OF CROP YIELD.

If any further evidence were needed of the excellent character of our grain harvests the present year it would be found in the report of the Agricultural Bureau at Washington, issued this week, on the condition of the crops. In the case of corn the result is fully up to the best expectations, while in the case of both oats and wheat the results are considerably in excess of previous estimates.

The Bureau in its present report of course does not attempt to give the production for any of the crops. That is never done until the issue of the December report after the close of the year. But it furnishes figures of condition for corn and estimates of the yield per acre for oats and wheat, and from these a very good idea can be obtained of what the final report when issued is likely to show. To furnish a survey of the entire crop situation, we give first a summary of the general averages for the last eight years.

CONDITION OF CROPS.

	1895.	1894.	1893.	1892.	1891.	1890.	1889.	1888.
orn	95·5	64·2	75·1	79·8	92·5	70·6	91·7	92·0
B ckwheat	84·8	72·0	73·5	85·6	92·7	90 7	90·0	79·1
fatoes	87·4	64·2	71·2	66·7	91·3	61·7	77·9	86·8
obacco	80·3	84·5	74·1	83·0	93·8	85·4	80·7	85·7
Cotton	65·1	92·7	70·7	73·3	75·7	80·0	81·5	78·9

AVERAGE YIELD PER ACRE—BUSHELS.

	1895.	1894.	1893.	1892.	1891.	1890.	1889.	1888.
Wheat	12·5	13·1	11·3	13·4	15·3	11·1	12·9	11·1
Rye	14·4	13·7	13·3	12·7	14·4	11·8	11·9	12·0
Oats	29·6	24·5	23·5	24·3	28·9	19·8	27·4	26·0
Barley	26·4	19·3	21·7	23·7	25·8	21·0	22·2	21·3

The comparison in the case of corn is here very striking—an average of condition of 95·5 for 1895 against only 64·2 for 1894 and much the highest average for any of the years given. The yield of oats is estimated at 29·6 bushels per acre, against 24·5 in 1894 and 23·5 bushels in 1893, and here too the 1895 figures are the best for all the years. The same is true also of many of the other crops. Cotton of course forms a noteworthy exception, and the shortage in that crop is reflected in the reported low average of 65·1, though in the view of some good judges this gives an exaggerated idea of the deficiency. Below we show the condition of corn for each of the leading corn-producing States.

CONDITION OF CORN.

States.	1895.	1894.	1893.	1892.	1891.	1890.	1889.
Illinois	99	78	66	71	92	72	90
Iowa	96	47	93	79	95	73	97
Missouri	111	70	89	82	96	80	96
Kansas	80	45	64	70	83	43	96
Indiana	92	78	61	77	94	71	83
Nebraska	50	14	65	78	93	54	97
Ohio	87	71	70	80	97	80	83
Michigan	89	56	63	70	85	72	66
Wisconsin	87	54	86	80	74	86	76
Minnesota	94	59	95	85	84	85	86
Texas	104	82	76	93	91	72	94
Tennessee	99	88	75	89	97	76	98
Kentucky	99	77	73	81	98	80	95
Pennsylvania	83	85	61	82	98	83	89
Av'ge U. States	95·5	64·2	75·1	79·8	92·5	70·6	91·7

As the corn crop exceeds all other crops in importance, we have undertaken to furnish an indication of the probable yield for the different States by applying the foregoing figures of condition to the changes in acreage previously reported. The result appears in the following, in which we compare the indicated product for 1895, arrived at in this way, with the Bureau's estimates of production for previous years. We show in the same table the indicated production of oats, based on the reported yield per acre.

Corn.	*Indicated Production, 1895.*	*Production. 1894.*	*Oats.*	*Indicated Product'n, 1895.*	*Production, 1894.*
	Bushels.	*Bushels.*		*Bushels.*	*Bushels.*
Iowa	258,890,000	81,344,210	Illinois	73,712,000	109,059,302
Illinois	238,410,000	169,121,491	Iowa	182,952,000	96,556,672
Kansas	167,909,000	41,797,728	Minnesota	78,004,000	50,860,078
Missouri	229,849,000	116,011,654	Wisconsin	63,047,000	57,870,014
Nebraska	168,926,000	13,855,524	Kansas	30,072,000	25,705,975
Indiana	125,761,000	96,8-8,377	Ohio	81,415,000	29,143,237
Ohio	91,595,000	71,973,737	Missouri	30,553,000	25,440,944
Texas	99,068,000	69,338,676	Pennsylvania	36,550,000	26,226,740
Tennessee	61,927,000	68,060,316	New York	45,680,000	30,320,758
Kentucky	88,99 ,000	67,892,297	Michigan	23,255,000	24,429,574
Pennsylvania	40,546,000	40,749,376	Nebraska	39,913,000	19,747,400
Arkansas	58,239,000	38,437,824	Indiana	25,900,000	35,809,040
Wisconsin	34,689,000	16,292,266	North Dakota	19,087,000	14,114,697
Michigan	36,668,000	21,757,447	South Dakota	18,165,000	5,992,972
Minnesota	36,645,000	18,933,282	Texas	14,573,000	20,013,119
Total	1,753,232,000	932,453,955	Total	712,856,000	571,290,517
All others	619,022,000	280,316,097	All others	112,636,000	90,716,411
Total U. S.	2,372,254,000	1,212,770,052	Total U. S.	825,494,000	662,036,928

It will be seen that the indications point to a corn crop but little less than 2,400 million bushels, decidedly the largest crop ever raised, and practically double the short yield of last year, when the product was only a little over 1,200 million bushels. The contrast with the previous year for some of the States, as will be seen, is very noteworthy, Iowa showing a crop of 258 million bushels, against only 81 million bushels; Illinois, 238 millions, against 169 millions; Kansas, 167 millions, against 41 millions; Missouri, 229 millions, against 116 millions, and Nebraska, 168 millions, against 13 millions.

In the case of wheat and oats, as the Department furnishes the estimated yield per acre the results worked out by us should be very close to the figures likely to appear in the Bureau's final report at the close of the year. It will be observed that the indicated production for oats is over 825 million bushels. A month ago the indications pointed to a yield of about 730 million bushels, which would have made the

crop close to the largest ever raised. The addition now of nearly one hundred million bushels places the crop far beyond that of any previous year and 163 million bushels in excess of the yield for 1894. We may say that competent authorities put the total even higher than that here given, placing it in some cases at 875 million bushels. In wheat, too, there has been a considerable addition. It will be remembered that the winter-wheat harvest was poor, but that the spring-wheat crop has generally proved to be the best on record. The total yield of wheat, however, based on the Bureau's figures, has not heretofore been estimated higher than 400 million bushels; now the figures point to a crop of 423 million bushels. Here are the results for the different States.

WHEAT CROP FOR FIVE YEARS.

Wheat.	Indicated Product'n, 1895.	Production, 1894.	Production, 1893.	Production, 1892.	Production, 1891.
	Bushels.	Bushels.	Bushels.	Bushels.	Bushels.

Total	354,774,000	391,709,185	325,934,651	439,749,000	517,962,000
All others	68,701,000	68,758,231	70,137,974	77,200,000	93,828,000
Total United States	423,475,000	460,467,416	396,131,795	515,949,000	611,790,000

To complete the record we present herewith one further statement. In this we show the combined aggregate of the crops in wheat, corn and oats for five years.

CROPS OF WHEAT, CORN AND OATS.

Total Production.	1895.	1894.	1893.	1892.	1891.
	Bushels.	Bushels.	Bushels.	Bushels.	Bushels.
Corn	2,372,874,000	1,212,770,000	1,619,496,111	1,628,464,000	2,060,154,000
Wheat	423,475,000	460,467,416	396,131,795	515,949,000	611,790,000
Oats	695,494,000	662,086,000	688,454,000	661,945,000	738,894,000
Total	3,491,843,000	2,335,324,416	2,704,081,906	2,806,448,000	3,410,838,000

It is only necessary to say with reference to the foregoing that it indicates a total for the combined crops 1,300 million bushels larger than for 1894, 1,000 millions larger than for 1893, 800 millions larger than for 1892 and even 200 million bushels larger than the extraordinary total for 1891. Of the effects of such excellent harvests upon the future of business and the traffic and earnings of our transportation lines, we need not speak. The figures tell their own story.

RAILROAD GROSS EARNINGS FOR SEPTEMBER.

Returns of railroad gross earnings for September furnish clear evidence of the improvement in business conditions which has occurred. There was during the month an unusual number of unfavorable factors and influences, and this has made the results somewhat irregular, and accounts for the fact that 43 out of the 126 roads contributing returns are obliged to report decreases. But notwithstanding these decreases the final result shows a gain, and this gain reaches in the aggregate almost two million dollars, in exact figures $1,997,302. In ratio the improvement is 4·57 per cent.

Unlike the showing in August, when the increase was only 1·63 per cent, the present increase does not follow an increase in 1894, but a decrease then and also a decrease in the previous year. The loss last year amounted to $2,878,167, and was explained by the small grain movement, the absence of the passenger travel to the World's Fair, which had been such a feature in the year preceding, and by the loss of a working day, the month in 1894 having contained five Sundays, the same as the present year, against only four Sundays the previous year. The decrease in September 1893 was almost five million dollars ($4,971,502), and occurred in face of the large passenger business to the Fair, the depressing cause having been the panic. The following will show the September results for the last five years.

	Mileage.		Earnings.		Increase or Decrease.
	Year Given.	Year Preceding.	Year Given.	Year Preceding	
September.	Miles.	Miles.	$	$	$
1891 (140 roads)	87,754	85,337	45,204,504	41,472,704	Inc. 3,731,800
1892 (139 roads)	92,610	91,154	50,271,944	48,854,206	Inc. 1,417,758
1893 (131 roads)	96,699	94,249	45,8?2,879	50,844,381	Dec. 4,971,502
1894 (129 roads)	99,701	98,842	43,395,384	46,273,551	Dec. 2,878,167
1895 (126 roads)	99,025	98,795	45,721,823	43,724,521	Inc. 1,997,302
Jan. 1 to Sept. 30.					
1891 (128 roads)	87,533	86,116	343,788,312	324,303,771	Inc. 19,484,541
1892 (135 roads)	90,972	89,516	377,109,633	354,218,024	Inc. 22,891,609

1894 (122 roads)	97,715	96,932	333,219,244	384,028,688	Dec. 50,809,394
1895 (124 roads)	97,961	97,?31	351,?75,616	337,115,260	Inc. 14,860,156

The unfavorable influences alluded to above as having diminished earnings the present year in September were of two kinds: those of a general nature and affecting large sections of the country, and those of a special nature affecting only limited districts or individual roads. Chief among the former class was the smaller cotton movement, which acted on practically all the Southern roads and which arose from the backwardness of the crop. The extent of the falling off may be judged from the fact that the receipts at the Southern outports during the month aggregated only 378,004 bales in September 1895, against 505,158 bales in September 1894, a decrease of 127,000 bales. It is a noteworthy fact that this decrease extended to all the ports, every one of which records lower totals than for 1894, as will appear by the following table. In 1893 the movement had also been small, and the present aggregate does not differ greatly from that at that time, though the figures at the various ports vary considerably. As regards the movement overland, the shipments were 18,040 bales in September 1895, against 31,908 bales in September 1894 and 23,961 bales in September 1893.

In the Central Western States—more particularly in Ohio, Indiana, Illinois, Michigan, Kansas and Missouri—the small movement of wheat, arising out of the poor winter-wheat crop, has also been an important drawback with many roads. The losses here, however, have in some cases been offset by gains in the other cereals—corn and oats—and it deserves to be mentioned that as the winter-wheat points reflect the short winter-wheat yield, so the excellent spring wheat yield is reflected in a free and full movement in the North-

western States. It happens therefore that the wheat movement has on the whole been irregular, the spring-wheat roads having gained decidedly by reason of a larger movement, and the winter-wheat roads having lost by reason of a diminution in the movement. This is well shown by deliveries of 9,108,975 bushels at Duluth in the four weeks the present year against only 4,695,938 bushels last year in the same four weeks, and receipts of 9,859,800 bushels at Minneapolis, against 8,295,180 bushels, these being both leading spring-wheat markets. On the other hand, at Toledo, a winter-wheat market, the receipts were only 563,100 bushels, against 1,916,200 bushels, and at Detroit, another winter-wheat market, 292,340 bushels, against 601,080 bushels. Chicago is a point which receives both winter and spring wheat, and while aggregate deliveries show a heavy falling off, the loss is entirely in the receipts of winter wheat, as appears from the fact that the inspection during the month comprised 593 car-loads of winter wheat against 5,247, but 1,532 car-loads of spring wheat against 22 car-loads. Full details of the grain movement are given in the following.

It is well to point out that in comparing with last year we are comparing with a period of heavily diminished grain receipts. For the purpose of illustration we may take the figures at Chicago for the even month, showing receipts of 1,793,373 bushels of wheat in September 1895, against 4,244,329 bushels in September 1894 and 9,945,721 bushels in September 1892. In the aggregate of all grain receipts the totals are 20,643,412 bushels in 1895, as against 19,274,270 bushels in 1894, but as against 30,561,376 bushels in 1893 and 32,493,422 bushels in 1892—that is, while there is a small improvement over last year's diminutive receipts, the aggregate is much below the totals for the years immediately preceding. And what is true of the grain movement is true also of the live-stock movement. The Rock Island, the Illinois Central, the Burlington & Quincy and the Alton brought in less live stock even than in 1894, but in the aggregate for all the roads there is a trifling increase over last year, the total standing at 21,940 car-loads against 21,714 car-loads; in September 1893, however, the deliveries had been 24,843 car-loads and in September 1892, 28,367 car-loads. In the provisions movement there was a falling off from last year, as may be seen by the following, showing both the grain and the provisions figures.

RECEIPTS AT CHICAGO DURING SEPTEMBER AND SINCE JANUARY 1.

A very serious adverse influence with the roads west of Chicago and down into the Southwest was the very unsatisfactory situation of freight rates. There were first cuts in coal and lumber rates, and then the trouble spread until at the close of the month the whole body of west-bound rates was affected, and pretty general demoralization prevailed. The situation has grown still worse since then. An exception to the rule is found in the case of the freight schedules to points in the territory on the North Pacific Coast. There rates were advanced, according to previous agreement, on September 20, after having ruled very low since the spring.

Among the unfavorable influences which affected only limited sections or special roads we may mention that a fire in the Bozeman (Montana) tunnel caused a freight blockade on the Northern Pacific, which, after continuing for several days, was finally broken by the laying of a switch-back over the mountain. In Michigan the strike of the iron ore miners, which had lasted for several months, assumed a very threatening aspect, and the State militia had to be called out to preserve the peace. The strike was settled by a return of the men to work on the 20th. Strikes at the coal mines in various parts of the country were also a serious drawback. The Wheeling & Lake Erie suffered from a strike in the Massillon district, the Western New York & Pennsylvania from a strike in the Reynoldsville district, the Columbus Sandusky & Hocking from a strike at the Oakdale mine from the 10th to the 13th and a strike at the Congo mine from the 24th to the 30th. A favorable circumstance with the roads running out of Louisville was the holding of the Grand Army Encampment at that point.

The benefits arising from the large spring-wheat movement in the Northwest are shown in the increase of $417,256 in the earnings of the Great Northern system of roads, making the total decidedly the largest for any September in the history of the road. The effect is also seen in the gain of $272,915 by the St. Paul, of $127,329 by the Burlington Cedar Rapids & Northern, &c., &c. Other large gains in various parts of the country which deserve enumeration are $184,912 by the New York Central, $121,289 by the Mexican Central, $120,157 by the Missouri Pacific, $112,963 by the Illinois Central, $100,048 by the Southern Railway, $94,032 by the Northern Pacific, $61,728 by the Atchison &c. The largest loss by any company is that of

the Texas & Pacific for $87,645; the loss is explained by the smaller cotton movement and the demoralization of rates in the Southwest. The following is a full list of the gains and losses down to $30,000.

PRINCIPAL CHANGES IN GROSS EARNINGS IN SEPTEMBER.

Increases.		Increases.	
Great Northern (3 rds).	$417,256	Ches. & Ohio	$35,495
Chic. Mil. & St. Paul	272,915	Canadian Pacific	34,947
N. Y. Central	184,912	Chic. & East Illinois	30,789
Burl. Ced. Rap. & No.	127,328		
Mexican Central	121,249	Total (representing 20 roads)	$1,901,253
Mo. Pacific	120,157		
Illinois Central	112,988	**Decreases.**	
Wabash	100,048	Texas & Pacific	$87,645
Southern Railway	97,95	Norfolk & Western	63,996
Northern Pacific	94,03		
Atch. T. & S. Fe (3 rds)	61,728	Total (representing 2 roads)	$151,641
Chic. Great Western	53,251		
Louisv. N. Alb. & Chic.	36,232		

On the whole the Northwestern roads, on account of the large spring-wheat crop, have done better than any others; the Duluth South Shore & Atlantic has fallen behind because of the strike of the iron-ore miners, but there is only one other and minor road in that group which is obliged to report a decrease. In the following the gain over last year is very substantial, reaching in excess of $900,000.

Southwestern roads have suffered in some cases from the smaller cotton movement, in other cases from the effects of last year's poor corn crop, and in addition, as already mentioned, rates were demoralized. Hence it is not surprising that decreases should come from a number of roads. However, the gains are much the more numerous. The following shows a small recovery the present year after a very heavy loss in the two years preceding.

EARNINGS OF SOUTHWESTERN GROUP.

Total.	[illegible]	[illegible]	9,117,[illegible]	[illegible]	10,[illegible]	...

a Includes the Kansas City Clinton & Springfield and the Current River for all the years.
b Includes Midland excluded for all the years.
c Figures here for 1895 and 1894 are simply the totals of the earnings for the four weeks of the month as reported in the weekly returns; the month's earnings usually exceed the weekly estimates quite considerably.

In the South, notwithstanding the smaller cotton movement, the roads with gains greatly outnumber those with losses. In the following the aggregate of the earnings for 1895 slightly exceeds that for 1894.

EARNINGS OF SOUTHERN GROUP.

a Figures here for 1895 and 1894 are simply the totals of the earnings for the four weeks of the month as reported in the weekly returns; the month's earnings usually exceed the weekly estimates quite considerably.
b Including Scioto Valley & New England and Shenandoah Valley for all the years.
c Returns for September, 1895, not received; taken same as last year.
d Figures for fourth week not reported; taken same as last year.
e Does not include the Elizabethtown Lexington & Big Sandy road in this year.
f Figures are approximate, same as for this year; actual earnings were larger.

The east-and-west trunk lines all show gains, though only for moderate amounts, so far as we have returns from them. Several of the larger companies, like the Pennsylvania and Erie, never furnish the figures in time for our early statement.

‡ For four weeks ended September 28.
♦ Includes Rome Watertown & Ogdensburg for all the years.
* Figures for last week not reported; taken same as last year.

Taking the other roads (aside from the trunk lines) in the Middle and Middle Western States, we find the losses much more numerous than in any other section, though by no means outnumbering the gains. It is not surprising that they should be more numerous, because that is the section where the short winter-wheat crop is most felt, and also the section where the bituminous coal roads have suffered most from one cause or another.

THE TRUNK-LINE AGREEMENT.

Below we give a complete copy of the Trunk Line Agreement as submitted this week for the approval of the Presidents of the roads. *This agreement has not previously been published.*

At the meeting on Thursday some slight changes in the form of the contract were made, but these are all trivial and immaterial. As stated in a previous article, the agreement has been formally approved by the Presidents and all that now remains to give effect to it is to have it drawn up in proper shape and signed.

AGREEMENT AS SUBMITTED THIS WEEK.

THIS AGREEMENT, made and entered into this — of ——, 1895, by and between the following railroad companies, and such other companies as may become parties hereto, WITNESSETH:

ARTICLE ONE.

Said companies to aid in fulfilling the purposes of the Inter State Commerce Act, to co-operate with each other and adjacent transportation associations, to establish and maintain reasonable and just rates, fares, rules and regulations on State and inter-State traffic, to prevent unjust discrimination, and to secure the reduction and concentration of agencies and the introduction of economies in the conduct of the service, hereby organize an association to be called "The Joint Traffic Association."

ARTICLE TWO.

SECTION 1. The association shall have jurisdiction over all freight and passenger traffic which passes to, from or through the Western termini of the trunk lines, viz.: Toronto, Can.; Suspension Bridge, Niagara Falls, Tonawanda, Black Rock, Buffalo, East Buffalo, Buffalo Junction, Dunkirk and Salamanca, N. Y.; Erie, Pittsburg and Allegheny, Pa.; Bellaire, O.; Wheeling, Parkersburg, Charleston and Kenova, W. Va., and Ashland, Ky., and such other points as may hereafter be designated as such termini; also all traffic which may pass through other junctions of the companies parties hereto which is included when passing through any of the termini or junctions above specified and such other traffic as may by common consent of the parties be hereafter included herein.

SECTION 2. The following traffic shall not be included:

(a) Coal, coke, iron ore, mill cinder, limestone and petroleum, crude or refined.

(b) Freight and passenger traffic destined to or coming from Florida, Georgia, North and South Carolina, Virginia and West Virginia south of the south line of the Chesapeake & Ohio Railway.

ARTICLE THREE.

The affairs of this association shall be managed by a board of not less than nine directors, hereinafter called the Board, of which each of the following nine systems shall designate one:

Grand Trunk System,	Pennsylvania System,
Vanderbilt System,	Baltimore & Ohio System,
Lackawanna System,	Chesapeake & Ohio System,
Lehigh Valley System,	Wabash System.
Erie System,	

ARTICLE FOUR.

Each director shall hold office during the continuance of this agreement, subject to the pleasure of and shall be compensated by the system appointing him.

ARTICLE FIVE.

The powers conferred upon the board shall be construed consistently with and so exercised as not to permit violation of the Inter State Commerce Act, or any other law applicable to the premises.

ARTICLE SIX.

SECTION 1. The Board shall have its principal office in New York and shall continue in session subject to its rules. It shall elect a chairman annually from its number.

SECTION 2. The Board shall adopt rules and perfect its organization, provided that it shall require the affirmative votes of two-thirds of its entire number to decide any question coming before it.

SECTION 3. It shall construe this agreement and resolutions adopted thereunder.

SECTION 4. Its decisions, except as to standard rates and fares, shall be subject to appeal to the Board of Arbitration, but shall be complied with until such appeals are decided.

ARTICLE SEVEN.

The Board may appoint not exceeding three commissioners to aid in effecting the purposes of this Association, and shall define their powers and duties.

ARTICLE EIGHT

SECTION 1. The Board shall, as such Board, be deemed the exclusive agent and representative of each Company party hereto as to the aforesaid traffic and in fixing and adjusting rates, fares and charges thereon, and in making the rules and regulations governing the traffic; the action of the Board as hereinafter provided shall control and be binding on the parties to this Agreement until such rates, fares or charges are disapproved by the Board of Directors of any company party hereto.

SECTION 2. The Board shall, from time to time, consider and fix such rates, fares and charges on said traffic as may be reasonable and just, and make all reasonable rules and regulations necessary for governing the traffic covered by this agreement, and shall adopt such rules as it may deem necessary for meeting the competition of other lines.

SECTION 3. The published rates and fares of the parties hereto shall conform to those established by the Board, and no company party hereto shall thereafter, through any of its officers or agents, deviate therefrom or change the same except by resolution of its Board of Directors, and after the public notice required by law. A copy of the resolution of the Board of Directors of any company authorizing such change shall be immediately furnished by the company making the same to the Board, and such change shall not become effective until thirty days after the date of such notice.

SECTION 4. The Board shall, as far as practicable, confer and co-operate with the Inter-State Commerce Commission, and to secure stability and uniformity in the rates, fares, charges, rules and regulations so established, the Board may from time to time, in its discretion, offer suitable rewards for information that will secure conviction for any violation of the provisions of the Inter-State Commerce Act.

ARTICLE NINE.

The Board shall be charged with the duty of securing to each company party hereto an equitable proportion of the competitive tariff covered by this agreement so far as can be legally done.

ARTICLE TEN.

The Board shall decide and enforce the course which shall be pursued with connecting companies not parties to this agreement which fail or decline to observe the rates, fares, rules and regulations of this Association. The interests of parties to this agreement injuriously affected by such action of the Board shall, in such instances, be accorded reasonable protection.

ARTICLE ELEVEN.

It is recognized and agreed that economy in the operation of through co-operative and commission freight lines and the limitation or termination of many of their existing powers and functions are absolutely required, and the companies parties hereto will actively co-operate with the Board to accomplish such results.

All soliciting by such freight lines and the issuance of bills of lading and rates by them shall be under the control of the Board.

ARTICLE TWELVE.

The Board shall have authority to organize such joint freight and passenger agencies as it may deem desirable, provided that if such joint agencies are established they shall be arranged in such manner as will give proper representation to each system.

ARTICLE THIRTEEN.

No soliciting or contracting passenger or freight agency shall be maintained directly or indirectly by any of the companies parties hereto in connection with the traffic covered by this agreement, except with the approval of the Board, and no person who is decided by the Board to be objectionable shall be employed or continued in such agency.

ARTICLE FOURTEEN.

SECTION 1. The Board is hereby given by the railroad companies parties hereto as their agents the power to define and decide the authority and duties of all persons acting as contracting and soliciting freight and passenger agents in relation to the traffic covered hereby, and to determine the number of such persons to be employed. The parties hereto shall observe and enforce the orders of the Board from time to time issued in that behalf.

SECTION 2. Such of said agents as the Board may designate shall be carried upon its pay rolls.

SECTION 3. The Grand Trunk Company may appoint soliciting agents to be located at such points in Canada as may be necessary to meet the competition of Canadian lines not parties hereto, but such persons shall in all respects be subject to the rules of the Board.

ARTICLE FIFTEEN.

When in the judgment of the Board the facts presented with any claim so warrant, the officials and employees of the companies parties hereto may be examined under oath, and, in investigating such complaints any or all officials or employees may be notified to attend and any or all matters affecting directly or indirectly the traffic herein covered may be considered.

In the event that any official or employee so notified fails or refuses to attend, without good reason, it shall be considered a violation of this agreement on the part of the company employing him and may subject said company to the forfeitures herein provided.

ARTICLE SIXTEEN.

Any unauthorized concession of any nature whatsoever that may tend to diminish established tariff rates or fares shall be considered a violation of this agreement, and any wilful violation of its provisions or any deviation from the rates, fares, rules or regulations made by the Board shall subject the offending party to the forfeitures herein provided.

ARTICLE SEVENTEEN.

For any violation of this agreement by any party hereto, the offending company shall forfeit to the Association a sum

to be determined by the Board, not exceeding five thousand dollars, but where the gross receipts of the transaction in which this agreement is violated shall exceed five thousand dollars, the offending party shall at the discretion of the Board forfeit a sum not exceeding the gross receipts derived from the transaction by which it is violated. Such forfeitures shall be applied to the payment of the expenses of the Association, except that no offending company shall participate in such application of the sum forfeited.

ARTICLE EIGHTEEN.

Within ten days after this agreement becomes effective there shall be deposited with the Board an aggregate sum of fifty thousand dollars, as an advance on account of the deposits required by Article Nineteen, to defray the current expenses of the Association; said aggregate sum to be apportioned among the companies parties hereto as the Board may determine.

ARTICLE NINETEEN.

SECTION 1. Each party hereto shall deposit with the Board, monthly, one per cent of its gross revenue derived from the business hereunder, but this percentage shall be reduced by the Board should it be evidently excessive for the ends desired.

SECTION. 2. From such deposits shall be paid, upon the approval of the Board, the expenses of the Association and the salaries of the arbitrators and commissioners.

SECTION 3. Any forfeiture made by any company party hereto under the rules shall be taken from the sums contributed by such company and charged in whole to it in final diitribution.

SECTION 4. The balance of said revenues deposited as aforesaid remaining at the expiration of this agreement shall be divided between the companies then parties hereto in the ratio in which they have contributed, less the amounts forfeited.

ARTICLE TWENTY.

Any party retiring from this agreement before the final completion of the time herein fixed, except by unanimous consent of the parties hereto, shall not be entitled to any refund from the residue of deposits remaining at the close of the agreement.

ARTICLE TWENTY-ONE.

SECTION 1. There shall be a permanent Board of Arbitration consisting of three disinterested persons to which may be appealed all questions arising under this agreement, except the determination of the standard tariff rates and fares. This, however, shall not be construed as a bar against any company which may desire to arbitrate the matter of its being accorded a differential from any standard rate or fare.

SECTION 2. Pending decisions by said Arbitrators the orders of the Board shall prevail.

SECTION 3. Hearings shall be had upon all questions arbitrated, under rules established by the Arbitrators, and the decision of two of said Arbitrators shall govern.

ARTICLE TWENTY-TWO.

SECTION 1. The Presidents of the companies forming this agreement and of such other railway companies as may become parties hereto shall constitute a Board of Control which shall meet as may be requested by any three Presidents of the companies parties hereto.

SECTION 2. It shall require a three-fourths vote of the whole number to carry any question.

SECTION 3. In case of absence of any member of the Board of Control from a meeting, the next ranking officer in such company having jurisdiction over traffic will have authority to act in his place and stead.

SECTION 4. The Board of Control shall fix the salaries of he Commissioners and shall select arbitrators and fix their ompensation and term of service.

SECTION 5. In case the question of standard rates or fares is not decided by a two thirds vote of the Board the subject shall be referred to the Board of Control for decision.

SECTION 6. The Board of Control shall appoint an auditing committee, who shall examine and report to it upon the accounts of the Board.

ARTICLE TWENTY-THREE

This agreement shall not be effective until it shall have been approved by the Boards of Directors of the several companies parties hereto, and certified copies of all resolutions giving such approval shall be filed with the Board.

ARTICLE TWENTY-FOUR.

This agreement shall continue in existence for five years from and thereafter until the expiration of ninety days' written notice given by any company of a desire to retire therefrom.

IN WITNESS WHEREOF the corporations parties hereto have caused the foregoing agreement to be signed by their respective Presidents and the seal of their respective corporations to be attached hereto on the day and year first above written.

As a part of the history of the present movement we also print here the agreement as first proposed and submitted on September 20. It will be seen that in its latest form the scheme does not differ in any of its essential features from the original contract, though the language of the document and the arrangement of the different clauses and sections has been considerably altered. About the only new provision is that creating the Board of Control, composed of the Presidents of the different roads, and which Board seems to stand in the relation of a supervisory body to the Board of Directors upon which the main duties and functions under the agreement rest.

AGREEMENT AS FIRST PROPOSED.

THIS AGREEMENT made and entered into this ——— day of ———, 1895, by and between the following railroad companies:
and such other companies as may hereafter become parties hereto, WITNESSETH:

I. Said Companies for the purpose of co-operating with each other and adjacent transportation associations to establish and maintain reasonable and just rates and fares on State and inter-State traffic, to prevent unjust discrimination, and to aid in carrying out the purposes of the Inter-State Commerce Act and for the reduction and concentration of agencies and the introduction of economies in the conduct of the service, hereby organize an Association to be called "The Union Traffic Association."

II. The traffic subject to such organization shall be all competitive freight and passenger business which passes to or from the western termini of the trunk lines and between or through points in Trunk Line and Central Traffic Association territories (except coal, coke, iron ore, mill cinder, limestone and petroleum, crude or refined), and such other traffic as may hereafter by common consent of the parties be included herein.

III. The affairs of this Association shall be managed by a Board of Directors.

IV. There shall be nine Directors, one of whom shall be selected by the Railroad Companies represented in each of the following nine systems:

Grand Trunk System,	Pennsylvania System,
Vanderbilt System,	Baltimore & Ohio System,
Lackawanna System,	Chesapeake & Ohio System,
Lehigh Valley System,	Wabash System.
Erie System,	

V. Said Directors shall hold their office during the continuance of this Agreement, subject to the pleasure of the appointing System.

VI. Said Directors shall continue in permanent session, and have their principal office in New York. They shall elect a Chairman annually from their number.

VII. Said Directors may appoint not exceeding three Commissioners to aid in effecting the purposes of this organization, and shall define their powers and duties.

VIII. Said Board of Directors shall establish rates, fares, rules and regulations on the traffic subject to this Association, and make rules for the meeting of competition of outside lines.

IX. All questions shall be decided by at least six affirmative votes of the members of said Board of Directors, and such decision shall be final, except as hereinafter provided.

X. Said Directors shall be given by the Railroad Companies parties hereto, as their agents, sole authority over all soliciting and contracting agents, in so far as relates to the traffic covered hereby, and they shall define the duties of such agents relative thereto, and continue or dispense with them as in their judgment seems proper, provided that said Directors shall appoint on the nomination of the Grand Trunk Railway, soliciting agents to be located at such points in Canada as may be necessary to meet competition of lines not parties hereto. Such agents as the Directors may specify shall be carried upon the pay-roll of this Association.

XI. No soliciting or contracting agent other than those appointed or approved by the Directors shall be employed in connection with the traffic now or hereafter covered by this Agreement.

XII. It is recognized and agreed that economy in the operation of through co-operative or commission freight lines and the limitation or termination of many of their existing powers and functions are absolutely required, and that the Companies parties hereto will actively co-operate with the Directors to this end, as experience may prove to be desirable and practicable. It is agreed, however, that all soliciting by and issuance of bills of lading and rates by such fast freight lines shall be under the control of the Directors.

XIII Such Directors shall also have authority to organize such joint freight and passenger agencies as they may deem desirable, provided that if such joint agencies are established they shall be arranged in such manner as will preserve to each railroad party hereto the integrity of its system. They may also create an office through which all joint rates, rules and regulations shall be promulgated and wherein all vouchers or accounts which affect or operate to reduce the revenue from the business covered hereby shall be cleared.

XIV. For any violation of this Agreement by the parties hereto the Directors may, after investigation, fine the offending Company in any sum not exceeding $5,000. But where the gross receipts of the transaction in which this agreement may be violated shall exceed five thousand dollars they may assess a fine against the Company so violating equal to the amount of the gross receipts derived from the transaction by which it is violated.

XV. Any willful under billing in weights or billing of freight at wrong classification shall be considered a violation

of this Agreement, and the rules and regulations of any weighing association or inspection bureau or other agency established by this Association shall be considered binding under the provisions of this Agreement, and any willful violation of them or violation of any rates, fares, rules or regulations made by the Board of Directors shall be subject to the penalties herein provided.

XVI. Each party hereto shall deposit with said Directors monthly two and one-half per cent of its gross revenue derived from the business hereunder until said deposit shall amount for each company to $50,000, and thereafter one per cent; but this percentage can at any time be reduced by said Board of Directors should it be evidently excessive for the ends desired. But the amount on deposit at all times for each Company shall never be reduced below $50,000.

XVII. From such amount shall be paid, upon the approval of the Directors, the expenses of the Association and the salaries of the Arbitrators and Commissioners.

XVIII. Any fines assessed against any parties hereto under the rules shall be taken from the sums contributed by the companies fined and charged in whole to them in final distribution.

XIX. The balance of said revenue deposited as aforesaid remaining at the expiration of the agreement shall be divided between the then parties hereto in the ratio in which they paid the same.

XX. Any party retiring from the agreement, except by unanimous consent of the parties hereto, before the final completion of the time herein fixed, shall not be entitled to any refund from the residue remaining at the close of the agreement.

XXI. When in the judgment of the Directors, the facts presented with any claim so warrant, the officials and employees of the companies parties hereto may be examined under oath, and in investigating such complaints any or all officials or employees, whether engaged in the local or through business, may be summoned, and any or all matters affecting directly or indirectly the traffic herein covered may be considered.

XXII. Said Directors shall adopt their own rules and perfect their own organization, except that it shall require six affirmative votes to decide any question coming before them.

XXIII. Said Directors shall be charged with the duty of securing to each party hereto an equitable proportion of the competitive traffic and the due protection of the revenues arising therefrom.

XXIV. There shall be a permanent Board of Arbitration consisting of three disinterested persons, who shall be unanimously elected by the Directors and who shall hold office from year to year. To such arbitrators may be appealed all questions arising under this agreement except the determination of the standard tariff rates. This, however, shall not be construed as a bar against any Company who may desire to arbitrate the matter of its being accorded a differential from any standard rate. Pending appeals to said Arbitrators, the orders of the Directors shall be conformed to. The said Arbitrators shall prescribe and announce the rules under which arguments shall be presented, hearings had, and decisions rendered and made effective. Hearings shall be had upon all questions arbitrated. The decision of two of said three Arbitrators shall govern when the decision of the Board is not unanimous.

XXV. This Agreement shall continue in existence for five years from ————————, and thereafter until the expiration of ninety days' written notice given by any Company of a desire to retire therefrom.

IN WITNESS WHEREOF, the corporations parties hereto have caused the foregoing agreement to be signed by their respective Presidents and the seal of their respective corporations to be attached hereto on the day and year first above written.

DEBT STATEMENT SEPTEMBER 30, 1895.

The following is the official statement of the United States public debt and of the cash in the Treasury at the close of business September 30, 1895.

INTEREST-BEARING DEBT.

Title of Loan.	Int'st Pay'ble	Amount Issued.	Amount Outstanding. Registered.	Coupon.	Total.

Monetary and Commercial English News

[From our own correspondent.]

London, Saturday, Sept. 28, 1895.

The excitement caused by the visit of the Russian Foreign Minister to France is dying out, but there are still many strange rumors afloat respecting the policy of Russia, not only in the Far East but also as regards the Balkan Peninsula and Greece. The rumors, however, rest upon nothing more than mere conjecture. The broad fact is that Russia is not prepared for a great European war, and that in the opinion of the best military authorities she will not be ready for at least a year and a-half. Meanwhile events in the Far East are watched with great interest in political circles and the feeling is growing that political trouble is much more likely to occur there than in Europe. The news of a marked success in Madagascar has dispelled some of the uneasiness in France; and negotiations are said to be still going on respecting a Spanish loan in Paris.

Trade is decidedly improving all over Europe. Here at home the first autumn wool sales began on Tuesday and showed an advance of about 15 per cent in price over the last series. The Yorkshire manufacturing industry is very active, and so are the Continental woolen districts. There is also a rise in hides, and there is some improvement in wheat and a few other articles. Money continues as abundant as ever. During the week ended Wednesday night the Bank of England received very nearly a million sterling in gold, and its stock now exceeds 44½ millions sterling.

There is little to report respecting the silver market. The rumors of an impending Chinese loan have died out and the expectation is now general that there will be no considerable buying for the Far East for months to come. Still the market is firm. The Indian exchanges are improving, the Indian reports having decidedly increased of late—especially the jute exports; and there is a better demand for Indian wheat, while the buying here in London of Indian rupee paper has again begun. The India Council on Wednesday sold at 1s. 1½d. per rupee the full 50 lakhs offered for tender.

During the week the stock markets have been entirely under the influence of the settlement in mining shares which began on Tuesday morning. On Monday there was an uncomfortable feeling that money would be exceedingly scarce, and that many small operators therefore would find themselves in difficulties. On Tuesday, however, a better feeling grew up, as it was found that, though very high rates were charged, every one with security to offer got accommodation. The rates were undoubtedly very stiff, ranging generally from about 9 per cent to 15 per cent and occasionally being as much as 25 and, in a few instances, even 40 per cent. On Tuesday afternoon buying began again, chiefly for the Continent, and continued throughout Wednesday. On Thursday there was a return of slackness, but again a recovery in the late afternoon, and yesterday the markets were very good. Paris is dealing as actively as ever, though the Coulissiers, or non-official brokers, are doing their utmost to check the speculation. They have decided not to admit to quotation any new shares until January. Germany, Austria and Holland are likewise buying very considerable amounts.

In the American department there is an undecided tone. The success of the Erie reorganization scheme, the sale of the 15 million dollars of prior lien bonds, and the hope that the reconstruction of the Philadelphia & Reading will be soon taken in hand, with the belief that the coal rate war is at an end, are all encouraging factors. But operators are checked by the fear that gold shipments may continue. The dissolution of the Bond Syndicate strengthens the fear. If the shipments go on there will not be much improvement in the market here. But if they cease, and that is the more general opinion in London at present, there will undoubtedly be a good deal of buying. Investors here would buy largely if they could be sure that a sound currency policy would be adopted; but until that is done they are afraid to venture far. In the meantime they are watching events very closely.

There has been good buying during the week in Argentine securities. Trade in the Republic is good, and the railway traffics are exceedingly satisfactory. The dispute between France and Brazil, however, has checked investment in the latter country, and there is not much doing in Chilian securities. The holidays have not quite ended on the Continental bourses and the belief of the best informed is that we shall not see much increase of activity for some time yet. Paris is the leader of all, and the Madagascar expedition is rather discouraging the Paris Bourse. The expenditure in both life and treasure is very great; the operations will last for a long time; the Chambers will have to grant further votes, and the floating debt is already unwieldy. There is therefore a general belief both in Paris and London that before very long the Finance Minister will be compelled to fund the floating debt; and it is argued by many that if that is done French Rentes will decline and that that may discourage investors. However that may be, the buying of gold shares here on French account continues very large—not, of course, as feverish as it was some time ago, but still remarkably large. Many of the orders are surprisingly small. Bankers say that they are often for only a single share and still more frequently for four or five shares, and that usually the orders that come through bankers are not for large numbers; the great operators who buy upon a considerable scale transact their business directly through brokers. A well-informed French banker here, who for the past twelve months has done an immense business in those shares, estimates that the total investment of French capital in gold, land and diamond shares during that time cannot be less than 60 millions sterling. Of course it is only an estimate, but it is given here for the purpose of conveying some idea of the magnitude of the dealings. The British railway market is rising and generally all British securities are firm.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

	1895. Sept. 25.	1894. Sept. 26.	1893. Sept. 27.	1892. Sept. 28.

Messrs. Pixley & Abell write as follows under date of Sept. 26:

Gold.—The Bank has received £2,070,000, of which £1,228,000 came from United States and £339,000 from Australia; and £410,000 has been withdrawn, of which Egypt took £400,000. The inquiry for the Continent has ceased. Arrivals: United States, £1,330,000; South Africa, £105,000; Calcutta, £12,000. Shipments to Bombay, £15,000 coin.

Silver.—The price of silver has been steady, owing to an inquiry for the Continent. Arrivals: New York, £113,000. Shipments: Bombay, £82,000; Hongkong, £10,000; Shanghai, £38,700.

Mexican Dollars.—There is a good demand for these coin, but the supply is very limited. Arrivals: New York, £17,400. Shipments: Penang, £2,700; Shanghai, £1,100.

The quotations for bullion are reported as follows:

—Messrs. E. D. Shepard & Co. offer for sale $140,000 City of Altoona, Pa., gold bonds, free from tax. Their advertisement will be found in our State and City Department.

—Mr. Charles Fairchild, who was elected a member of the New York Stock Exchange on Thursday, has formed a copartnership with Mr. Charles A. Watrous, under the firm name of Charles Fairchild & Co., for the transaction of a general brokerage business in securities, making a specialty of investments. Mr. Fairchild has had many years' experience in the banking business in Boston, and Mr. Watrous, who is a son of the late President of the New York New Haven & Hartford Railroad Company, was formerly financial editor of the *Evening Sun*, and more recently with H. B. Hollins & Co. The firm's card will be found on the first page of to-day's CHRONICLE.

WALL STREET, FRIDAY, OCT. 11, 1895.—3 P. M.

The Money Market and Financial Situation.—The market for railway securities has been dull and generally of an uninteresting character during the week. This condition has been attributed in part to the unsettled market for South African mining shares at the principal European centres, and may be in some degree owing to the firmer tone and higher rates now ruling in our foreign exchange market.

Business at the Stock Exchange to-day has been featureless. The market was heavy and changes in the railway list generally unimportant.

One of the important events of the week was the meeting of trunk-line railroad presidents, at which it was agreed that the matter of rates shall be submitted to a board appointed for the purpose of fixing the same. All the conditions of the agreement are of such a character that the results must be highly beneficial.

It has been announced during the week that a committee representing strong railroad interests have prepared a new plan for reorganizing the Union Pacific Railroad, and that the same will soon be given out. Securities of the Union Pacific system have materially advanced in consequence. On the other hand the disastrous rate-cutting in some parts of the West has had the effect to depress the market for some of the granger shares.

The activity and advance of silver bullion both in this market and at London has attracted attention in financial circles. The price was on Thursday at the highest point of the year, and the demand, which is always large for manufacturing purposes at this season of the year, is now in excess of the supply.

The money market has been somewhat unsteady.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 1 to 3 per cent. To-day rates on call were 2 to 2½ per cent. Prime commercial paper is quoted at 4¾ to 5½ per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £1,045,674, and the percentage of reserve to liabilities was 56·97 against 59·63 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 38,963,000 francs in gold and 10,296,000 francs in silver.

The New York City Clearing-House banks in their statement of Oct. 5 showed a decrease in the reserve held of $8,083,900 and a surplus over the required reserve of $16,471,525 against $22,296,175 the previous week.

Foreign Exchange.—The market for foreign exchange has been dull and steady, but with a firmer tone and higher quotations at the close. The demand has been light and the supply, chiefly of commercial bills, is moderate.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 86¼@4 87; demand, 4 87½@4 87¾; cables, 4 87¾@4 88.

Posted rates of leading bankers are as follows:

October 11.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 87 @ 4 87½	4 88 @ 4 88½
Prime commercial	4 70 @ 4 80½	.....
Documentary commercial	4 85½@4 86	.....
Paris (francs)	5 17½@5 17½	5 14½@5 17½
Amsterdam (guilders) bankers	40 @ 40¼	40 @ 40¼
Frankfort or Bremen (reichsmarks) bankers	95½@95¾	95½@95¾

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛@1-10 premium; Charleston, buying par, selling ⅛ premium; New Orleans, bank, par; commercial $1 75 premium; Chicago, 25c. per $1,000 discount; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include $8,000 5s, reg., at 116 $2,000 5s, coup., at 116⅛ to 116½; $10,000 4s, reg., 1907, at 112; $2,000 4s, coup., 1907, at 112, and $79,000 4s, coup., 1925, at 123. Following are closing quotations:

Mex. Doubloons	15 50 @15 75	English silver	4 85 @ 4 92
Fine gold bars	par @¼ prem.	U. S. trade dollars	— 55 @ — 75

State and Railroad Bonds.—State bonds have been dull. Sales at the Board include $9,000 Virginia fund. debt 3-3s of 1991 at 62¾ to 63, $10,000 Virginia 6s defd. trust receipts, stamped, at 6⅜, and $1,000 Alabama Class A at 109

The railroad bond market has been dull and generally steady. Various issues of the Union Pacific system have been the prominent features of the week, as a new plan of reorganization has been prepared which will soon be announced. Kansas Pacific 1st con. rects., which possibly have been abnormally depressed, selling at 63 within the year, have gained over 5 points during the week. Union Pacific 1sts of '96, '97 and '98 have been unusually active and are from 1 to 2 points higher than they were last week. Texas & Pacific issues have been freely sold and declined about 1 point. Oregon Impt. 1sts have declined 3 points, as the company has gone into a receiver's hands. Other active issues include the Atchisons, Ches. & Ohio, Readings and Wabash bonds, in which changes are unimportant.

Railroad and Miscellaneous Stocks.—The stock market has been dull and weak. The outside public are taking very little interest in stocks at present and commission business is light. These conditions favor active manipulation of the speculative industrial shares, and professional traders have taken advantage of the opportunity thus afforded. Chicago Gas has been the prominent feature of the week, and under various rumors about a reorganization and changes in the controlling interest it has fluctuated between 65¾ and 71, closing at 68½, against 70¼ last week.

Distilling has been active and relatively strong on the announcement of the withdrawal of litigation by parties who have been active in opposing the reorganization. American Tobacco has been dull and closes 2 points lower than our last quotations. American Sugar has been dull and steady.

United States Leather has been weak and the preferred dropped to 81½ on Tuesday, but rallied on the announcement of a dividend of 2 per cent, since which it has been somewhat unsteady and closes at 81. Western Union has been strong on the favorable showing made by the annual report.

In the railroad list the grangers have been most prominent and are generally fractionally lower. North West. has been the strongest of the group and sold up to 105½ on Wednesday. Southwestern shares have been weak and are lower, in sympathy with the general market, and Southern Railway preferred has declined one point. Louisville & Nashville declined on the announcement of the Government crop report. The coal shares have been dull with very little stock being offering. Reading has been a strong feature on the further advance in the price of coal and expectation of the new plan of reorganization in the near future.

NEW YORK STOCK EXCHANGE—*ACTIVE STOCKS for week ending OCTOBER 11, and since JAN. 1, 1895.*

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every STEAM road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page.

* Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & South western.

a These figures include results on eased lines.

b Includes earnings from ferries, etc., not given separately. † Mexican currency. c Includes only half of lines in which Union Pacific has a half interest.

Latest Gross Earnings by Weeks.—The latest weekly earnings in the foregoing are separately summed up as follows:

For the first week of October our preliminary statement covers 33 roads, and shows 6·59 per cent gain in the aggregate over the same week last year.

1st week of October.	1895.	1894.	Increase.	Decrease.

Net Earnings Monthly to Latest Dates.—The table following shows the net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of September 21, 1895. The next will appear in the issue of October 19, 1895.

Roads.	Gross Earnings. 1895.	1894.	Net Earnings. 1895.	1894.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

* After deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in Aug. was $86,122, against $80,464 last year, and for eight months to Aug. 31 $646,462, against $5??,?48; after adding earnings received from Federal Government net from January 1 to Aug. 31, 1895, was $616,46?, against $655,416. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, all depreciation beyond 20 per cent has already been allowed for.

Interest Charges and Surplus.—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus or deficit above or below those charges.

STREET RAILWAYS AND TRACTION COMPANIES

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns. The latest full statement will be found in the CHRONICLE of September 21. The next will appear in the issue of Saturday, October 19.

ANNUAL REPORTS.

Mobile & Ohio Railroad.

(Report for the year ending June 30, 1895.)

The remarks of President J. C. Clarke in the annual report will be found at length on a subsequent page.

An important feature in the year's operations was the funding of the floating indebtedness by the sale of 4 per cent bonds. This sale was effected without any consideration to the syndicate which underwrote the offering of the bonds to the stockholders. As the report shows, the stockholders largely availed of the option given them, leaving but a small fraction to be taken by the syndicate. No commission was paid to the syndicate. The statistics for four years have been compiled for the CHRONICLE, as follows:

A statement of the results for four years has been compiled for the CHRONICLE as follows:

St Louis Alton & Terre Haute RR.

(Report for year ending June 30, 1895.)

Mr. George W. Parker, President and General Manager, remarks as follows in his report for the fiscal year ending June 30, 1895:

Earnings, etc.—Added to the disastrous results of the panic of 1893, we have encountered during the year a heavy loss incident to the strike of the coal miners, which began about April 21, 1894, and continued about three months; also the strike and boycott of the American Railway Union, inaugurated June 26, 1894, with all their disastrous results to transportation.

Practically the entire surplus earnings have been spent for new equipment and betterments. It has not been possible to continue the work of ballasting track, but this work will be pushed as rapidly as the revenues will warrant. Sharp competition and economy of operation and maintenance make it a necessary requirement. We start off under our new *regime* with no floating debt and greatly reduced fixed charges.

The great Union Station at St. Louis, now completed, is conceded to be the largest and finest station in the world, but it involves to us, as to others, a large increase of terminal expenses. The entire cost of the plant, including real estate, is fixed at $6,500,000, upon which capitalization the roads using the station will have to pay an interest charge of 5 per cent in addition to the expense of operating and maintaining the same. This expense is shared by the roads on a wheelage basis.

Financial Operations.—From the sale in 1890 of that portion of the company's railroad which had been leased to the Cleveland Cincinnati Chicago & St. Louis Ry. Co. your company received $9,750,000 in C. C. C. & St. L. 4 per cent collateral trust bonds. During the year 1891, $1,237,000 of these bonds were exchanged for 8,126 shares of this company's cumulative preferred stock. The remaining $8,513,000 have

since been sold, and the proceeds, with the sinking fund and the proceeds of $2,275,000 of new first mortgage and terminal bonds, have enabled the company to discharge its entire funded debt due July 1, 1894; also to pay the accrued interest on all the outstanding preferred stock, to secure an exchange of the outstanding preferred for common stock, and to retire the dividend bonds, except $79,000 still outstanding. Of the new first mortgage and terminal bonds, $2,275,000 have been sold, leaving $225,000 in the company's treasury.

The receipts and disbursements from January 1, 1891, to June 30, 1895, from sale of securities, sinking fund, net earnings, etc., aggregated $12,873,094, which sum was applied as follows:

Interest on old bonds.	$1,641,500	Interest	$113,681
Bonds due July 1, 1894	6,700,000	For reorganization	43,330
Accrued interest on preferred stock	751,432	For dividend bonds at 86⅔ per cent	913,698
For 4,750 shares pref. and int., and $222,-25· dividend bonds.	857,655	For new equipment and betterments	665,893
Bonus to pref. exch. for common, 11,708 shares	1,112,260	Interest on new first mortgage	73,646
		Total	$12,873,044

The common stock has been increased to $3,470,800 by issuing 11,708 shares in exchange for the preferred stock referred to above.

Statistics.—Earnings, charges, etc., have been as follows:

Buffalo & Susquehanna Railroad.

(Report from October 1st, 1893, to June 30th, 1895.)

The report covers a period of 21 months, but contains the statistics for the year ending June 30, 1895, as given below. In the report Mr. F. H. Goodyear, Chairman of the Board, says in part:

Extensions.—During 1894 there was constructed a branch line 13 miles in length from Cross Fork Junction, Pa., to Cross Fork, Pa. In 1895 the company began the construction of a branch from Galeton to Perryville, a distance of about 25 miles, to a connection with the Wellsville Coudersport & Pine Creek RR. This latter road is 12·23 miles in length, extending from Perryville, Pa., to Wellsville, N. Y., where it connects with the New York Lake Erie & Western RR. It is contemplated to consolidate the Buff. & Susq. and the W C & Pine Creek RR., so that your company will have a total of 112 miles of railroad exclusive of sidings.

Physical Condition and Equipment.—As to the road and its equipment the report says:

Physical Condition.—The road from Keating Summit, Pa., to Galeton, Pa., and the branch from Cross Fork Junction, Pa., is generally laid with 67 and 70-pound steel rail; the road from Ansonia, Pa., to Perryville, Pa., is laid with new 80-pound rail. The Wellsville Coudersport & Pine Creek RR. above referred to, is laid with 63 pound rail. During the present year your company has replaced the only two remaining wooden bridges between Keating Summit and Ansonia with substantial, first class, steel bridges having stone buttresses.

Equipment.—Your road is equipped with 16 locomotives, 10 of them being of the consolidation type, built by the Baldwin Locomotive Works. Including the 200 freight cars under contract there are 748 freight cars. There are 12 passenger coaches.

Funded Debt.—First mortgage bonds had been issued up to June 30, 1895, to the amount of $1,095,000, of which $46,000 were retired by the sinking fund in 1894 and $58,000 will be retired on or before Oct. 1, 1895. Further issues of bonds at the rate of $15,000 per mile will be made on account of contemplated extensions to Wellsville and other points.

Statistics.—Results in 1894-95 were as follows:

Passengers carried	67,825	*Expenses*—	
Freight (tons) carried	700,234	Maintenance of way, &c.	$68,617
Earnings—		Maintenance of equip	31,517
Freight	$297,433	Cond. transportation	81,439
Passengers	33,876	General	31,874
Mail, express, &c.	22,523	Total	$213,477
Total	$353,832	Net earnings	$140,355

The statement below gives the results for 1894-95 and also for the nine months to June 30, 1894.

	—12 months.— July 1, '94, to June 30, '95.	—9 months— Oct. 1, '93, to June 30, '94.
Gross earnings	$353,832	$227.7 9
Operating expenses	213,477	131,135
Net earnings	$140,355	$ 6,624
Per cent of expenses to earnings	(60·33)	(57·58)

St. Paul & Duluth Railroad

(Report for the year ending June 30, 1895.)

President R. Somers Hayes says in part in his report:

Earnings and Expenses.—The decrease in gross earnings as compared with the previous year amounts to 5·95 per cent; the decrease in expenses of operation to 4·25 per cent. The general depression in business, together with the strike of the American Railway Union during the month of July, and the forest fires in September, have caused the decrease in gross earnings. The largest decrease in volume of commodities handled has been in lumber, coal and potatoes; the potato crop along the line having been an entire failure.

The economies practiced during the fiscal year ending June 30, 1894, would not permit of a further decrease in operating expenses; at the same time the condition of the property and its equipment has been fully maintained. The average cost of maintenance of way per mile for the year was $762. Extraordinary expenses to a total of $15,304 are included in operating expenses. No charges of any kind have been made to capital account with the exception of $2,050 expended to effect title to property at Duluth.

Improvements.—Since the close of the fiscal year the following work has been authorized and is well under way:

The ballasting of the tracks between Stacy and Forest Lake; the purchase and laying of about 3,000 tons of new rail; depots at Shafers, Miller, Mission Creek and Fond du Lac; the renewal of 2,000 feet of trestle over the St. Louis River at Duluth, and the filling in of the balance of the trestle, about 5,000 feet.

Terminals.—On May 1 the contract with the Great Northern Railway Company for the use of its tracks and the Union Depot in Minneapolis was canceled, and an agreement entered into with the Minneapolis & St. Louis RR. Co., under which this company now obtains its entrance into Minneapolis. Contract was also made with the C. M. & St. P RR. Co. for the use of its passenger station at the same point. This change has resulted in a saving in rental without in any way impairing the service at Minneapolis.

Lands.—Land and stumpage income for the fiscal year in cash was $145,396; land department expenses, $28,744; net income, $116,652; amount transferred to railroad income account to apply on dividends, $91,628; surplus, $26,-024; total to credit of land and stumpage income July 1, 1895, $80,956. Lands sold from June 30, 1894, to June 30, 1895, 27,930 acres, for $145,405.

Physical Condition Etc.—The following table gives various statistics relating to track, bridges, equipment, etc., for fiscal years ending June 30:

Road—	1895.	1894.	†*Bridges, &c.*—	1895.	1894.
Main line & br'ches owned	183	183	Iron bridges, feet.	.....	954

Memphis & Charleston Railroad.

(Report for the year ending June 30, 1895.)

The report of the receivers says in part:

Earnings.—The gross earnings show a decrease of 5 69 per cent; the op rating expenses of 3 9 per cent, and the net earnings of 15 11 per cent. Owing to a further reduction in the volume of traffic and the low rates per ton per mile, the operating expenses, including taxes, were 85 65 per cent of the gross earnings. There are included, however, in the operating expenses the expenditures made for ballasting and the rental paid to the Nashville Chattanooga & St Louis Railway Company for the use of its road, items which are usually charged respectively to construction account and to fixed charges.

Bonds Etc.—On July 1, 1895, the liabilities of the receivers, including interest on the bonded debt due and unpaid, exceeded their resources by $729,148. Authority to pay coupons on certain mortgage bonds that were due July 1, 1893, was not granted by the Court until the 23d day of July, 1895; hence no payment of interest due on the bonded debt has been made during the year. The interest due and unpaid July 1, 1895, was $971,735. The last of the company's car trust notes, amounting with interest to $87,252 88, was paid Oct. 1, 1894.

Physical Condition.—As to the condition of the property the report says:

The physical condition of the road at the close of the year was fairly good, all the necessary repairs having been made to keep the roadway, bridges and track in a safe condition. Some improvements have been made in substituting about 1,000 tons of new 75-lb. steel rails for old 11-lb. and worn 5-lb. steel rail, in ballasting about 26 miles, and in completing the ballasting of about 100 miles. These expenditures have been charged to operating expenses. There remain yet 40 miles of light 56-pound steel rail in the main line which ought to be replaced by heavy rail as soon as it is possible to do so and there are about five miles of dirt track yet to be ballasted and about 25 miles of track to be filled in. During the year 1·7,995 cross ties were put in the track. This is about 18,000 ties below the average number of ties required, but the road is generally sound in timber, and this deficiency will soon be brought up.

Considerable expenditures will have to be made in the near future for renewals of bridge masonry and bridge superstructure, and for repairs of station buildings. The trestles are generally in good condition, but there are about twelve spans of bridges, varying from 70 to 150 feet, of iron and combination wood and iron, that ought to be replaced with heavier iron structures. The masonry is generally in very bad condition. A great many culverts are out of repair.

The number of freight cars owned by the company are not even sufficient to meet the requirements of the present reduced volume of traffic. The locomotives and cars are very old, no addition having been made to the equipment since 18 4, and they are of too small capacity for economical transportation. The receivers, by authority of the Court, have made a contract for the construction of 200 ventilated box cars.

Conclusion.—The revenues of the road have been less than for any year since 1880. There are now indications, however, of a revival of business. The advance in the price of iron has induced parties to put in blast several furnaces on the line of the road that have been idle for several years, and it is expected that other furnaces will resume work at no distant day.

Operations, etc.—The operations and earnings have been as follows:

OPERATIONS.

	1894-95.	1893-94.	1892-93.	1891-92.

Maine Central Railroad.

(Report for the nine months and year ending June 30, 1895.)

President Franklin A. Wilson says in his annual report:

Prosp cts.—The business revival which has prevailed to some extent throughout the country, has been felt in a gratifying degree during the last six months upon the Maine Central system. No portion of this State has failed to feel the improved condition of business, but probably the most marked progress is noticed in the extreme Eastern section of the State, where the Bangor & Aroostook RR. Co. is this year adding by the construction of its Ashland Branch 42 miles to the 172 miles constructed last year.

Change of Year.—By an amendment to the company's by-laws the annual meeting is now held on the third Wednesday in October, and the fiscal year ends June 30 instead of, as formerly, on Sept. 30. Accordingly, the various reports submitted cover a period of nine months only.

Physical Condition, Etc.—The following table gives various statistics regarding equipment, bridges, train-loads, etc., for the fiscal years ending June 30:

Bridges, etc.—	1895.	1894.		1895.	1894.

—V. 61, p. 559.

Western Union Telegraph Company.

(Report for the year ending June 30, 1895.)

President Thomas T. Eckert says in part in his annual report:

Business.—There was a decrease of 324,922 messages transmitted as compared with the previous year. We transmitted about 600,000 more full-rate messages, and the falling off in the total number was principally in press messages, curtailed in number owing to the recent depression in business, and the diversion of press matter to the additional wires that we have leased to the press associations. The average tolls received were 30·7 cents per message. The average cost per message was 28·3 cents. The year's business, taken as a whole, which added $439,843 to the surplus, is I think gratifying, especially when it is remembered that we have maintained our dividend of 5 per cent, and have at the same time continued to make improvements. With the steady revival of business which seems to have begun, and which is indicated by an improvement in our weekly test office receipts, we have every reason to believe that the current year will bring us a larger measure of prosperity.

Stock.—The capital stock outstanding is $95,370,000, of which $28,850 belongs to and is in the treasury of the company. We have acquired the property of the American Rapid Telegraph Company by the issue of Western Union stock to the amount of $550,000 at par. By this purchase the lease of that company at a rental of $60,000 per year is canceled.

Construction.—We constructed 817 miles of new pole line, but the total length of pole lines was reduced 589 miles by the transfer of wires on highway lines to Western Union poles. We also constructed 15,748 miles of new wire, the net gain being 11,859 miles. Over 10,000 miles of new wire are of copper. Two-thirds of the weight of the iron wires of the larger gauges is thus saved, and moreover the copper wires can be used continuously through atmospheric conditions that frequently disable the best constructed lines of iron wires. The cost of construction of new property for the year was $574,689, and $16,000 was paid for patents. These items were provided for from the surplus.

Statistics.—The results for three years were as follows, compiled for the CHRONICLE:

RECEIPTS AND DISBURSEMENTS.

	1894-95.	1893-94.	1892-93.

GENERAL INVESTMENT NEWS.

Reorganization Plans, etc.—The following is an index to all statements relating to defaults, foreclosure sales, reorganization plans, reorganization committees, payment of coupons, and receiverships, of the principal companies, that have been published in the CHRONICLE *since* the last editions of the INVESTORS' and the STREET RAILWAY SUPPLEMENTS were issued, all earlier facts of this nature being set forth therein. It does *not*, however, include matter in to-day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.*, for default; *Com.* for committee.

American Spirits Manufacturing—Distilling & Cattle Feeding—*Greenhut Settlement Approved.*—At Chicago on Oct. 5 Judge Showalter entered an order approving the agreement entered into between Messrs. Greenhut and Morris and the New York representatives of the reorganization committee. The agreement as presented to Judge Showalter is reported as follows:

After a full investigation of all the facts a settlement has been effected of all the pending litigation and of all differences between Messrs. Greenhut and Morris and the Distilling & Cattle Feeding Company's reorganization committee on the following terms:

1. All suits and claims against Messrs. Greenhut and Morris and against the directors of the D. & C. F. Co. are dismissed and released without cost or expense to either party.

2. The sum of $150,000 is paid to Mr. Nelson Morris upon the claims filed by him against the company, of which $100,000 is in cash and $50,000 in bonds of the new company at par.

3. Messrs. Morris and Greenhut sell to the new company the bonds owned by them, amounting to $874,000, par value, for $480,700, being at the rate of about 57 per cent.

4. All suits affecting the reorganization are withdrawn, and all stockholders become parties to the reorganization.

5. Other business details affecting the reorganization have been satisfactorily adjusted.—V. 61, p. 610.

Atchison System—Atlantic & Pacific RR.—*Deposits.*—Guaranteed 4 per cent bonds to the amount of $17,645,000 have been deposited with the State Trust Co. No circulars have recently been issued, and there is nothing new to report in respect to the affairs of the road.—V. 61, p. 516, 610.

Atlantic & Danville Ry.—*Mortgage Filed.*—The new mortgage for $1,500,000 has been filed. The Mercantile Trust Co. is mortgage trustee.—V. 58, p. 873.

Bank of America (New York City)—*Reduction of Stock.*—In accordance with a vote of the stockholders the capital stock of this bank has been reduced from $3,000,000 to $1,500,000. Stockholders of Oct. 15, 1895, will be entitled, upon surrender of the certificates of stock then held by them, to receive on Nov. 1 one-half of the par value of their holdings in new certificates covering shares in the reduced capital, and one-half of the par value of their holdings in money.

Bank of New Amsterdam.—*Listing.*—The $250,000 capital stock of this bank has been listed on the New York Stock Exchange.

Belt Ry. of Indianapolis.—Indianapolis Union.—*Tax Settlement.*—It is reported from Indianapolis that the State Tax Commission and the Indianapolis Union RR. Co. which owns the Belt road and the Union Station have settled their differences. By the agreement, which is subject to the approval of the Supreme Court, the company is to pay its back taxes due since 1891 with 6 per cent interest on an appraisement reduced from $5,000,000 to $4,000,000, and is to concede the Tax Board the right to fix the valuation hereafter at what it deems proper. Under this arrangement it is said the company will pay into the county treasury about $200,000.

Dividend.—The Belt Railway Company paid its usual dividend on the preferred stock and 2 per cent on the common stock in July, 1895. An error with respect to this in a former issue was occasioned by a misuse of the word "passed" in an Indianapolis paper.

Central RR. & Banking Co. of Georgia.—*Foreclosure Sale.*—The property of this company was sold on Monday under foreclosure of the consolidated mortgage, and subject to the tripartite mortgage, to Samuel Thomas and Thomas F. Ryan, the reorganization committee, for $2,000,000.

Sale of Savannah & Atlantic Ry.—The foreclosure sale of his road is advertised for Nov. 2.—V. 61, p. 516.

Called Bonds.—The following bonds have been called for payment. The numbers may be learned at the offices of the respective companies:

JEFFERSONVILLE MADISON & INDIANAPOLIS RR.—Two hundred and twenty-six bonds dated Oct. 1, 1866, have been drawn for payment on presentation.

LEHIGH VALLEY RR.—Messrs. J. S. Morgan & Co., in London, will pay at par, on Dec. 2, 339 6 p. c. class "A" bonds. —V 61, p. 558

PENNSYLVANIA COMPANY.—Thirty-eight 6 p. c. bonds of 1907 will be redeemed Oct. 28.—V 60, p. 1010.

ST. LOUIS & SAN FRANCISCO.—Five of the Mo. & West. 1st M. 6 p. c. bonds have been drawn for payment on Dec. 1.—V. 61, p. 557.

Central RR. & Banking Co. of Georgia—Savannah & Western Ry.—*Foreclosure Sale.*—The property of the Savannah & Western was sold Saturday last under foreclosure of the first consolidated mortgage of 1889 and bid in for $1,500,000 by the bondholders' committee. The sale was made subject to the rights, liens and equities of the first mortgages executed by the Columbus & Western RR Co. and the Columbus & Rome RR. Co. and of mortgages of the Rome & Carrollton RR. Co. and the Chattanooga Rome & Columbus RR. Co.—V. 61, p. 470, 516.

Chicago Peoria & St. Louis RR.—St. Louis Alton & Terre Haute RR.—*Foreclosure Sale.*—Confirmation of the sale of the Chicago Peoria & St. Louis is delayed by the suit of Lewis H. Loss, a Chicago contractor, to whom the road was heavily indebted. Mr. Loss claims that the order of sale did not properly protect the settlement of his debt. The case comes up for argument before Judge Allen at Springfield, Ill., on Monday.

Agreement with St Louis Alton & Terre Haute—It appears questionable whether after all the proposed transfer of the Chicago Peoria & St Louis to the St. Louis Alton & Terre Haute will be carried out.—V. 61, p. 558.

Chicago & South Side Rap'd Transit.—*Receiver.*—Marcellus Hopkins, President of the company, was appointed its receiver on Saturday on application of the Northern Trust Co. and Illinois Trust & Savings Bank, the trustees respectively of the two mortgages, interest on both of which is in default.

Reorganization.—It is reported that over 40,000 shares of stock out of the existing 75,000 have been deposited with the committee of which Mr. Mitchell is Chairman, and that the additional members of the committee will soon be appointed and a plan of reorganization be prepared.

Change of Mortgage Trustee.—There is contention between the first mortgage and the extension mortgage bondholders as to whether or not the extension bonds are in fact a first lien, or are subject to the lien of the first mortgage of 1889. The extension bondholders claim that they have a second lien only on a portion of the first section and first lien on the remainder of the road as well as the entire equipment. In view of the opposing interests of the two loans, the Northern Trust Co. has resigned as trustee of the extension mortgage and the Illinois Trust & Savings Bank has been appointed trustee in its stead.—V 61, p. 470.

Citizens' Traction—Fort Pitt Street Ry. (Pittsburg)—*Lease Ratified.*—The stockholders of the Citizens' Traction Co. on Monday voted to lease their road for 950 years to the Fort Pitt Traction Co., of which C. L. McGee is President. The rental is to be $180,000 yearly, payable semi-annually ($90,000 each May 10 and Nov. 10) and also all taxes, etc. The Fort Pitt Co. agrees at its own expense, prior to Nov. 1, 1897, to reconstruct and equip that portion of the system now operated with cable as an electric road. The lessee moreover agrees to pay principal and interest on the outstanding bonds. Possession of the road is to be taken Nov. 1. The promoters of the Fort Pitt Traction and of the Consolidated Traction are in close accord, and it is expected that the union of other Pittsburg lines will speedily follow.—V. 61, p. 516.

City & Suburban Ry. (Baltimore.)—*Listing.*—New stock for $1,000,000, making the total $4,000,000, has been listed on the Baltimore Stock Exchange. The company's figures of earnings and the balance sheet are given on a preceding page under the heading "Annual Reports."—V. 60, p. 131.

Cleveland Terminal & Valley Ry.—Valley Ry. of Ohio—Baltimore & Ohio RR.—*Reorganized Company.*—The Cleveland Terminal & Valley Railway Company, with a capital stock of $7,400,000, has been organized as successor to the Valley Railway of Ohio. The following officers were elected: President, Thomas M. King, of Philadelphia; Vice-President, Secretary and Treasurer, Henry M. Keim; Directors—Thomas M. King, of Philadelphia; W. H. Buckford and Alex. Shaw, of Baltimore; L. V. Bockius, of Canton; G. A. Garretson, J. H. McBride, Henry M. Keim, S. T. Everett and F. H. Goff, of Cleveland. The property is now controlled by the Baltimore & Ohio. Extensive additions to the terminal facilities at Cleveland are proposed.—V. 61, p. 560.

Colorado Coal & Iron Development.—*Listing.*—This company has listed on the New York Stock Exchange $500,000 5 per cent non-cumulative preferred stock.—V. 59, p. 1141.

Columbus & Hocking Coal & Iron—*Foreclosure*—The Scudder Committee announces that a majority of the bonds have been deposited with the Central Trust Co. and that Nov. 1 has been fixed as a limit for receiving further deposits. Messrs. John H. Davis & Co., who represent a large interest in the bonds, oppose foreclosure as unnecessary and invite holders to communicate with them.—V. 61, p. 558.

Dallas Ry. & Union Depot.—*Mortgage Filed.*—This company, which proposes to furnish terminal facilities for all roads entering Dallas, Tex., has filed a mortgage for $500,000 to the St. Louis Trust Co. as trustee, covering its franchises, the proposed Union Station, tracks, etc. Construction is in progress.

Duluth & Iron Range RR.—Minnesota Iron.—*Earnings.*—The earnings of the Duluth & Iron Range RR., which is owned by the Minnesota Iron Company, have been greatly stimulated by the activity in the iron trade. For the first eight months of 1894 the following figures are published:

8 months.	Gross earn.	Net earn.	Interest.	Rentals	Bal., sur.
1895	$1,503,331	$950,154	$186,372	$1,260	$562,522

—V. 61, p. 152.

Eastern Trunk Lines.—*Agreement.*—In the editorial columns of to-day's paper is published at length the important traffic agreement proposed for the settlement of trunk line difficulties—both the original agreement and the agreement in its modified form as presented at Thursday's meeting. At this meeting George B. Roberts, President of the Pennsylvania lines, presided, and after the adjournment he authorized the following announcement: "The proposed traffic agreement, as revised and amended by the Committee of Ten appointed by the presidents September 20, was considered in detail by the presidents to-day and further amended by them. It was thereupon referred back to the Committee of Ten for a final revision and re-arrangement of articles and sections, and will be finally considered by the presidents at a further meeting to be hereafter appointed." In other words the representatives of the companies adopted the plan, with some trivial amendments, and turned it over to the committee in order that it might be put in proper shape to receive the signatures of the officials of the several companies.

The Committee of Ten to which the agreement is referred for final adjustment consists of Horace J. Hayden, E. B. Thomas, L. J. Seargeant, Oscar G. Murray, D. S. Gray, J. B. Garrett, C. M. Hays and Vice President Duncan of the Baltimore & Ohio Southwestern.

The next meeting of the presidents, it is thought, will be called about the end of this month. In the meantime the agreement will be submitted to the boards of directors of the several roads, and doubtless all of the trunk line presidents will be authorized to take final action on the measure when they re-assemble in the Trunk Line Association offices.

The meeting Thursday was largely attended, the several systems being represented as follows. *New York Central*, by Chauncey M. Depew, president; Horace J. Hayden, 2d vice-president and George H. Daniels, general passenger agent. The *Pennsylvania system* by George B. Roberts, president; Frank Thomson, 1st vice-president; James McCrea, 1st vice president of the lines west of Pittsburg; W. H. Joyce, general freight agent, and J. R. Wood, general passenger agent. *Grand Trunk system* by L. J. Seargeant, general manager, and W. J. Spicer, traffic manager. The *Erie Railway* by G. G. Cochran, traffic manager. *Chesapeake & Ohio* and the *Cleveland Cincinnati Chicago & St. Louis system* by Melville E. Ingalls, president, and Oscar G. Murray, vice-president. *West Shore* by J. D. Layng, general manager, and Percy R. Todd, traffic manager. The *Lake Shore* by D. W. Caldwell, president. *Baltimore & Ohio* by Charles F. Mayer, president; O. Ladd Smith and C. K. Lord, vice-presidents, and Frank Harriott, traffic manager. *Philadelphia & Reading* by Joseph H. Harris, president, and B. H. Bail, general freight agent. *Jersey Central* by J. Lowrie Bell, general traffic manager. *Lehigh Valley* by E. P. Wilbur, president, and J. B. Garrett, vice-president. *New York Ontario & Western* by T. P. Fowler, president. *Michigan Central* by H. B. Ledyard, president. *New York Chicago & St. Louis* by S. R. Callaway, president. The *Wabash* by O. D. Ashley, president, and the *Delaware Lackawanna & Western* by Samuel Sloan, president, and B. A. Hegeman, traffic manager.—V. 61, p. 470.

Erie & Central New York RR.—*Construction.*—This road is being built from Cortland to Cincinnatus, N. Y., through a fertile region, and is rapidly nearing completion. It is expected that regular trains will be running early in November. The road is being built and equipped in a substantial manner. Part of the rolling stock is expected this week. Next season it will be extended to connect with the Erie and also with the D. & H. RR. No bonds have yet been issued. J. S. Bull, of Cortland, N. Y., is General Manager.—*Railroad Gazette.*—V. 61, p. 470.

Fitchburg RR.—*New Stock*—Permission has been granted to issue $360,000 new preferred stock, to be exchanged share for share for the stock of the Brookline & Pepperell and the Brookline & Milford roads.—V. 61, p. 610.

Florida Southern RR.—Savannah Florida & Western—*New Bonds.*—To provide funds necessary to pay for certain betterments and extensions, the Florida Southern RR Co. requests bids for $180,000 first mortgage bonds, due 1945, for $1,000 each. The Florida Southern RR., which formerly belonged to the Jacksonville Tampa & Key West system, owns 247 miles of road and is now operated as part of the Plant system. Frank Q. Brown of Boston is President.—V. 60, p. 607.

Fort Worth & Denver City Ry.—*Listing.*—There have been listed this week on the New York Stock Exchange $3,035,000 Mercantile Trust Company certificates of deposit for first mortgage 6 per cent gold bonds of 1893.

The reorganization committee of the first mortgage bondholders accordingly gives notice that a majority of the first

mortgage bonds are now in control of the committee and that the receipts of the Mercantile Trust Co. have been listed, as above stated. Holders who have not deposited their bonds are requested to do so now, as the committee will at once proceed to ask necessary authority from the courts to reorganize the company without foreclosure. *See advertisement on another page.*—V. 60, p. 1104.

Galveston City RR.—*Change of Management.*—William H. Sinclair has sold his large interest in this road to a syndicate and has resigned the presidency of this company, Julius Runge, of Galveston, having been elected his successor.—V. 60, p. 928.

Inter-State Consolidated Ry.—*Bonds Authorized.*—The Massachusetts Railroad Commissioners have approved the issue of $90,000 out of the $250,000 of the 5 per cent 20-year bonds asked for by this company.—V. 60, p. 748.

Kansas City & Omaha RR.—Union Pacific Ry.—*Receivers.*—On application of the first mortgage bondholders' committee for a separate receivership, Judge Sanborn, at St. Paul on Saturday, appointed the Union Pacific receivers, Messrs Clark, Mink, Anderson, Doane and Coudert.—V. 60, p. 1009; v. 61, p. 612.

Kansas City Watkins & Gulf Ry.—*Subsidy.*—The town of Alexandria, La., has voted to authorize a tax sufficient to raise $150,000 to secure the extension of the Kansas City Watkins & Gulf from Alexandria to Natchez and Shreveport.—V. 60, p. 562.

Lake Street Elevated RR.—*Ziegler Interest.*—Henry Ziegler, who represents it is understood about $800,000 bonds that have not come into the reorganization plan, on Tuesday served notice on the Farmers' Loan & Trust Co., trustee, to foreclose the mortgage for non-payment of the January and July interest. The railroad company thereupon authorized the payment of the January coupons with interest thereon. Payment of the coupons without interest had previously been tendered and refused. This payment prevents any further foreclosure proceedings at present. It is questioned moreover whether Mr. Ziegler on so small an amount of bonds can require foreclosure, for under the terms of the mortgage, it is understood, the trustee is obliged to institute foreclosure suit only on request of a majority in interest of the bonds. Mr. Ziegler's suit asking for an injunction against the company, restraining it from carrying out various contracts, comes up on appeal next week. On the other hand a suit has been brought against Mr. Ziegler as a director to secure an accounting.—V. 61, p. 431.

Lehigh Valley RR.—*Earnings.*—The fiscal year of this company ends November 30 but earnings for the year ending June 30, 1895, were as follows:

	Gross.	*Net.*	*Other inc.*	*Charges.*	*Bal., surp.*
1894-95..	$18,026,418	$4,502,080	$1,282,800	$5,311,961	$472,919

Until August 1, 1893, the road was operated by the Philadelphia & Reading. For the *eleven* months from August 1, 1893, to June 30, 1894, earnings were:

	Gross.	*Net.*	*Other inc.*	*Charges.*	*Bal., surp.*
1893-94..	$15,844,960	$4,256,094	$1,561,396	$4,749,676	$1,067,814

—V. 61, p. 558.

Louisville St. Louis & Texas Ry.—*Reorganization Plan.*—The two committees representing respectively the firsts and consols are conferring on a reorganization plan which will shortly be made public.—V. 60, p. 88.

Marietta & North Georgia Ry.—*Foreclosure Sale.*—At Atlanta, Ga., Oct. 4, Judge William T. Newman, in the United States Court, issued a decree reducing the minimum upset price of this road from $940,000 to $750,000. The sale is to take place in forty-five days after the filing of the decree, which it was thought would take place this week.—V. 61, p. 281.

Missouri Kansas & Texas—*Supplementary Mortgages*—This company has filed a supplemental mortgage, conveying to the Central Trust Co. of New York, as trustee, the line from Green Ridge to Holden, Mo., thirty-five miles. The conveyance is made to secure the payment of bonds to the amount of $330,000. This is the recently-acquired St. Louis & Kansas City RR. reported in our issue of Sept. 14, and forms the connecting link in the M. K. & T's new line between St. Louis and Kansas City.—V. 61, p. 471.

Monterey & Mexican Gulf.—*Receiver Discharged.*—Receiver J. A. Robertson was discharged on the 10th inst. and the property turned over to the syndicate. The receiver submitted a report showing that during the first seven months of the present year the gross earnings of the road were $723,388 and the expenses $490,782, making the net earnings $232,605. During Mr. Robertson's administration there has been invested in permanent improvements $102,805; in the extension of the wharves at Tampico, $20,590; in general warehouse, $237,757; in locomotives, $161,955; in freight cars, $267,346; in improvements of other kinds, about $162,000.—V. 60, p 562.

New England RR.—*Stock.*—The new stock certificates will be exchanged for the reorganization receipts on and after Oct. 15.—V. 61, p. 611.

New York New Haven & Hartford RR.—*Annual Report.*—The annual report now at hand confirms the telegraphic report of its contents. It further shows that large charges to operating expenses have been made as usual to represent depreciation. Among these are expenditures for new equipment and station facilities aggregating $830,980. The company has acquired 11,552 shares of the capital stock of the Shepaug Litchfield & Northern RR. Co. The increase of the company's stock and debt will not, the officers believe, interfere with the continuance of dividends at the rate of 2 per cent quarterly.—V. 61, p. 611.

New York Susquehanna & Western Ry.—*Listing.*—There have been listed this week on the New York Stock Exchange $1,050,000 additional general mortgage 50-year 5 per cent gold bonds, making the total amount listed $2,800,000.

—A statement of earnings for the year ending June 30, 1895, compared with the previous year is as follows:

	1894-95. (12 *mos.*)	1893-94. (13 *mos.*)
Gross earnings	$1,753,359	$2,088,141
Operating expenses	1,166,505	1,184,422
Net income	$586,847	$903,719
Income from other sources	23,526	27,499
Total	$610,374	$931,218
Fixed charges, taxes and interest	751,750	735,268
Balance	*def.$141,376	†sur.$195,950

* This deficit was caused by the partial suspension of coal transportation during the months of June, July, August and September, 1894, which showed a net loss over the same months of the previous year of $1,1.59 90. † Dividend paid, $120,000, leaving surplus $75,950. —V. 61, p. 420.

North & East River Ry. (New York)—*Foreclosure Sale.*—This road was purchased at foreclosure sale on Thursday for $50,000 by John H. O'Rourke, the contractor who built the road, and who it is said owns over nine-tenths of the outstanding bonds.—V. 61, p. 517.

Northern Pacific RR.—*Receivers.*—On Monday at Helena, Mon., Judge Knowles confirmed the appointment of Andrew F. Burleigh, made by Judges Gilbert and Hanford, in the districts of Washington and Oregon, and appointed Captain James H. Mills, of Helena, and E. L Bonner, of Missoula, receivers for the district of Montana. The Court also refused to accept the resignations of former receivers and removed them instead.

The adjourned hearing on the application for the acceptance of the resignation of receivers Payne, Rouse and Oakes came up yesterday before Judge Lacombe in this city. The motion was again adjourned upon the application of the plaintiff corporation, the Farmers' Loan & Trust Company, who, through Mr. Turner, expressed their willingness—in accordance with the policy previously suggested by Judge Lacombe—to allow further opportunity for the Federal courts in the West to unify their action. No opposition was made on behalf of the Northern Pacific Company, and Judge Lacombe therefore ordered an adjournment for one week. In the meantime, under an order from Judge Lacombe, the old receivers are restrained from turning over to their successors any of the money or property within their jurisdiction.

Efforts are still being made to bring about an agreement, so as to secure one set of receivers for the entire road; it is believed these efforts will eventually be successful.

Improvements.—The receivers are preparing to lay the new steel track in accordance with the report of ex-receivers Oakes, Rouse and Payne, recently approved by Judge Jenkins. The cost, according to their report, after deduction of the value of the rails taken up, will be $2,500,000, which they recommended should be expended during the next five years at the rate of $500,000 a year, to be taken out of earnings. The purchasing department has just awarded contracts for supplying 500,000 ties during the next year to W. C. Davies of Tacoma and T. F. Greenough of Missoula, Mont. The ties are to be laid when the first of the new rails are put down.—V. 61, p. 611.

Northern Pacific RR.—Central Washington Ry.—*Receiver's Report.*—Receiver Chamberlain, of the Central Washington RR., in his report to Judge Hanford, at Spokane, is reported as saying in substance:

I believe that the earnings of the road could be increased fully 66 per cent by an extension west less than 50 miles, at a cost not to exceed $500,000. The present heavy operating expenses are largely accounted for by its earnings going toward paying the salaries and expenses for officers and offices that are entirely unnecessary for the operation of the road. But very little attention, if any, has been shown by its present lessee toward increasing its local business. I am sure the road is being operated under very great disadvantage, and should therefore be made an independent line.—V. 61, p. 611.

North Shore Traction—*Listing*—The common and preferred stocks of this company have been listed on the Boston Stock Exchange.—V. 60, p. 795.

Orange Mountain Cable RR.—*Sale.*—This road was sold at auction Oct. 9 to Charles E Eimerman of Philadelphia for $10,550, in pursuance of an order of the Court of Chancery.—V. 61, p. 366.

Oregon Improvement.—*Receiver.*—In view of the default on October interest Judge Hanford of the United States District Court at Seattle on Oct. 4 appointed C. J. Smith receiver of the company upon application of the Farmers' Loan & Trust Company of New York, the mortgage trustee. Mr. Smith lives in Seattle and has for several years been the General Manager for the company. The application for a receiver was made upon the request of W. H. Starbuck, the former President of the Oregon company, and his associates. It was a surprise to the present management, which only recently displaced the

Starbuck interests. They had not supposed that a receiver could be appointed at present.

Reorganization Committees.—A committee consisting of John G. Moore, of Moore & Schley; John I. Waterbury, Pres. of Manhattan Trust Co.; F. Jefferson Coolidge, Jr., Pres. Old Colony Trust Co., Boston; Henry W. Cannon, Pres. Chase National Bank; Edwin S. Hooley, of Rolston & Bass; Jules S. Bache, of J. S. Bache & Co., and Simpson, Thacher & Barnum, Counsel, invite holder of *first mortgage bonds, consolidated mortgage bonds* and *stock* to deposit the same with the Manhattan Trust Company, No. 1 Nassau Street, New York, or the Old Colony Trust Company, Ames Building, Boston, under a preliminary agreement, copies of which may be obtained from either depositary. Any depositor may withdraw his securities without charge if he is dissatisfied with the plan when issued.

Another committee consisting of Henry Hentz of Henry Hentz & Company, New York; Stuart G. Nelson, Vice-President Seaboard National Bank, N. Y.; Col. Francis Peabody, American Loan & Trust Co., Boston; B. F. Tracy, of Tracy, Boardman & Platt, New York, request holders of the *consols* and of the *stock* to send to the Farmers' Loan & Trust Company, New York, the amount of their holdings and their address. It is intended to present a plan for the protection of their common interests at an early date.

See further particulars as to both these notices in the advertising columns of to-day's Chronicle.—V. 61, p. 611.

Oregon Railway & Navigation—*Sale Postponed—Reorganization.*—The sale of this road, advertised for the 8th instant, was deferred on the application of Boston stockholders. They are seeking to obtain a stay of six or eight months, and a modified plan of reorganization which shall at least give the common stock a greater voice in the management or some assurance as to the disposition of surplus earnings. Under the present plan the preferred stock controls ten of the fifteen directors. The case of the Boston stockholders will be heard in the Court of Appeals, where it cannot come up until some time in the winter.

The majority interest in the stock are now considering the plan and have not yet determined as to the course they will pursue.—V. 61, p. 612.

Paducah Tennessee & Alabama RR.—*Reorganization.*—The reorganization committee consisting of Thomas H. West, Alvah Mansur, John L. Boland, John T. Davis and A. B. Lamb gives notice to the bondholders that a plan for the reorganization of the company is on deposit with the St. Louis Trust Company at St. Louis. Bondholders are invited to become parties thereto and to deposit their bonds.

Foreclosure Sale.—The sale is set for Oct. 18.—V. 61, p. 69.

Philadelphia & Reading RR.—*Distribution of Stock.*—According to the *Philadelphia Inquirer* the approximate distribution of stock between Philadelphia, New York and London, as compared with a year ago, is as follows:

	1895.	1894.
Philadelphia	375,000	500,000
New York	275,000	225,000
London	150,000	75,000

"In the year Philadelphia has sold 125,000 shares of stock, of which New York has bought 50,000 shares and London has bought 75,000. There is nothing in this to indicate any concentration of stock by New York capitalists, and a more likely explanation of the movement is that it is due to purchases for speculative account in the two cities."—V. 61, p. 569.

Richmond Nicholasville Irvine & Beattyville RR.—*Foreclosure Sale, Etc.*—The following is from the Louisville *Courier Journal:*

Affairs have now reached a stage when the bondholders must be about acting for themselves, inasmuch as the property has been ordered by the United States Court to be sold in January. They have recognized this fact and have begun working for their interests with the aim of effecting a reorganization of the properties. It is thought that something may be done whereby the bondholders will join with the bondholders in the reorganization.—V. 60, p 837.

Schuylkill Traction.—*Annual Report.*—This company of Girardville, Pa., reports as follows for the year ending September 30:

Years—	Gross earnings.	Net earnings.	Taxes, etc.	Interest on bonds.	Balance, surplus.
1894-95	$99,921	$38,130	$4,770	$25,000	$8,360
1893-94	88,288	.....	.....	25,000	6,724

—V. 60, p. 790.

Union Pacific Ry.—*Reorganization.*—New and important financial and railroad interests have undertaken the task of reorganizing the Union Pacific. A plan has been matured which will be made public in a few days, and which, it is hoped, will receive the necessary sanction of Congress. The plan deals solely with the Union Pacific main line, including the Kansas Pacific. The committee includes Gen Louis Fitzgerald, President of the Mercantile Trust Co.; Marvin Hughitt, President of the Chicago & North Western; Chauncey M. Depew, President of the New York Central; Jacob H Schiff, of Kuhn, Loeb & Co; Oliver Ames, second director of the Union Pacific; F. Jefferson Coolidge, Jr., president of the Old Colony Trust Company.

Kansas Pacific Consols.—A large majority of Kansas Pacific consolidated first mortgage bonds having been deposited with the reorganization committee of which Frederick D. Tappen is chairman, the committee now gives notice to the holders of bonds not yet deposited that their holdings must be placed with the Mercantile Trust Co., subject to the order of the committee, on or before December 1st next, after which date bonds will only be received at the will of the committee and with a penalty of $20 per bond. See advertisement on another page.

Coupon Notice.—Coupons on the collateral trust 6 per cent bonds due July 1, 1895, will be paid on presentation at the office of the Union Trust Company of New York, No. 80 Broadway, on and after Tuesday, Oct. 8, 1895.—V. 61, page 612.

Union, Philadelphia, People's and Electric Traction Companies—*Consolidation.*—At Philadelphia on Monday took place the signing and delivering of the Philadelphia Traction lease to the Union Traction Company, completing all the preliminaries to organization, so that the new company has assumed control of all the lines of the Philadelphia, People's and Electric Traction companies. J. R. Beetem, heretofore General Manager of the People's lines, is General Manager of the entire system. The new company assumes control as of October 1st, which is the date of the lease and will be the date of the new bonds when issued. Though the stock of the People's and the Electric Traction companies has not yet been actually purchased—not yet having been exchanged for the new trust certificates—nearly all the stockholders have assented to the plan of consolidation. It is reported that the first instalment of $5 on the stock of the Union Traction Company will be called October 25, and that the trust certificates will be ready for holders of People's and Electric Traction stock in a short time. The Union Traction Company's system comprises about 420 miles of road now in operation, and a combined capitalization in stock and bonds, including that of all the subsidiary companies, of more than $108,000,000.

Lease of Philadelphia Traction.—The lease, which is for 999 years, provides for dividends on the Philadelphia Traction stock as follows:

"Union shall and will, in addition to the payments hereinafter provided for, pay to Philadelphia as the rent of the premises hereby demised, the yearly rent or sum of one million six hundred thousand dollars ($1,600,000), which shall be payable in gold coin of the United States of America of the present standard of fineness and weight. Said yearly rental shall be paid in equal semi-annual payments on or before the first days of April and October in each year, so that Philadelphia on such days respectively may be able to make distribution of the same as a dividend to its shareholders, the first payment to be made on or before the first day of April, A. D. 1896. There shall be no abatement whatsoever upon these payments by reason of any advances or other payments which Union may hereafter be compelled to make on account of Philadelphia or for any other reason whatsoever, it being intended that Philadelphia shall receive the same clear of all deductions of every sort and kind, so that it may be able to declare and pay on the first days of April and October of each and every year during the continuance of this term, in gold coin, a semi-annual dividend upon each of the outstanding shares of $2, free and clear of all deductions, charges, taxes and assessments whatsoever."

The semi-annual dividend of $2 here guaranteed is on $50 shares, so that the rate per annum is 8 per cent. Other facts of importance from the lease are as follows:

The Union Company assumes and covenants to pay all taxes, assessments, fixed charges, including full interest on bonds and rentals, and "assumes" the Philadelphia Company's 4 per cent bonds. The Philadelphia Company is to be credited with all sums realized from sale of certain real estate belonging to it or its leased lines, and of certain securities turned over to the Union Company. If, in the opinion of the Board of Directors of Philadelphia, the Union Company shall at any time fail to keep the property, its equipment or operation, up to its agreed standard of efficiency, they may after notice submit the matter to three arbitrators; and in case of failure to comply with the decision of a majority of the arbitrators within three months the question shall be determined by said arbitrators and upon a decision adverse to Union, Philadelphia shall be at liberty by appropriate proceedings in a Court of Equity to compel specific performance of the covenant.—V. 61, p. 469, 569.

United States Leather—*Quarterly Dividend.*—This company has declared a quarterly dividend of 2 per cent on its preferred stock, payable Nov. 1. This dividend makes a total payment on the preferred stock since the incorporation of the company of 6 per cent, leaving 14 per cent still due. Dividends began to accrue May 1, 1893.—V. 61, p. 283.

United Traction & Electric (Providence)—*Earnings.*—The fiscal year ending June 30, 1895, was more or less a constructive period with this street railway system, and there being no construction account expenses of this character were charged to operating expenses. The results for the year were $1,532,375 gross and $634,930 net. The net is the result after deducting taxes, repairs, damages, etc. The fixed charges are $400,000.

Waco & Northwestern Ry.—*Sale Confirmed.*—The foreclosure sale for $1,505,000 was confirmed on Monday. It is thought that Mr. Boyle represented the Southern Pacific in the purchase.—V. 61, p. 431.

—The New York & New England Reorganization Committee, Mr. John I. Waterbury, Chairman, gives notice that on and after Oct. 15 trust company certificates, representing preferred and common stock of the New York & New England Railroad Co. deposited may be exchanged for stock of the New England Railroad Company, successor on reorganization, in accordance with the terms of the reorganization agreement dated April 26, 1894. Certificates must be presented, properly endorsed, at the office of the Manhattan Trust Company, New York, or the Old Colony Trust Company, of Boston.

—The Street Railway Publishing Company has issued a souvenir edition of their journal in honor of the Montreal Convention of the American Street Railway Association.

—The receivers of E. S. Jaffray & Co. to-day declared a second dividend of 20 per cent, making 80 per cent paid in all by them to date.

Reports and Documents.

MOBILE & OHIO RAILROAD CO.

FORTY-SEVENTH ANNUAL REPORT—FOR THE YEAR ENDING JUNE 30, 1895.

The Board of Directors of the Mobile & Ohio Railroad Company respectfully submits to the stockholders the following report for the year ending June 30, 1895.

ROAD OPERATED.

Owned.	*Miles.*
M. & O. RR., Mobile, Ala., to Columbus, Ky.	472
K. & T. RR., Columbus, Ky., to E. Cairo, Ky.	21
M. & O. RR., Aberdeen Branch	9
M. & O. RR., Columbus Branch	14
M. & O. RR., Starkville Branch	11
Operated under Lease.	
St. L. & C. RR., Cairo, Ill., to E. St. Louis, Ill.	151·6
St. L. & C. RR., Millstadt Branch	9
Total	687·6

REVENUE AND RECEIPTS:	1894-95.	1893-94.
From freight	$2,417,732 93	$2,387,801 59
" passengers	441,959 22	442,852 89
" mails	74,810 89	74,835 45
" express	74,939 79	72,237 27
" other sources	28,197 23	28,793 45
Total	$3,037,640 06	$3,006,520 65
MISCELLANEOUS RECEIPTS	232,349 62	247,170 52
Total	$3,269,989 68	$3,253,691 17
OPERATING EXPENSES	$2,037,347 72	$1,930,159 97
TAXES AND INSURANCE	117,139 01	114,494 12
Surplus	$1,115,502 95	$1,209,037 08
INTEREST AND RENTAL CHARGES:		
Interest on First Mortgage Bonds	$420,000 00	$120,000 00
Interest on First Mort. Exten. Bonds	60,000 00	60,000 00
Rental St. L. & C. RR	177,986 72	176,163 32
Interest on General Mortgage Bonds	320,766 67	317,586 67
Interest on Car Trust, etc.	55,600 40	63,573 27
Total disbursements	$1,034,353 79	$1,037,323 26
	$81,149 16	$171,713 82

Operating Expenses cover all expenditures, except the cost of additional equipment, including the principal of the Car Trust debt paid during the year, which amounted to $186,557 90, as against $164,396 78 paid during the previous year.

During the year 1894-95 material and supplies on hand have increased $16,613 80.

The floating indebtedness of the Company has been practically extinguished. The Car Trust debt June 30, 1895, amounted to $369,113 60, a decrease of $186,557 90.

The total Funded Debt of the Company on June 30, 1895, amounted to $17,752,300, a decrease of $59,000 ($29,000 General Mortgage Bonds canceled and $30,100 Debentures, assigned to the Trustee of the General Mortgage)

Of the Funded Debt, $601,500 General Mortgage Bonds are held in the treasury of the Company, a decrease of $1,250,000 Bonds, as hereinafter referred to; and $8,915 General Mortgage Bonds on deposit with the Farmers' Loan & Trust Company for exchange for debentures, a decrease of $19,555 delivered in exchange for debentures assigned to the Trustee of the General Mortgage.

On June 30, 1895, the debentures transferred to the Sinking Fund amounted to $1,493,500 First Debentures, an increase of $29,000 by the investment therein of the proceeds of land, etc., received from the Land Department.

On June 30, 1895, the Debentures transferred to the Farmers' Loan & Trust Company, in trust for the benefit and security of the General Mortgage Bonds, amounted to $7,141,700, an increase of $30,100.

The Capital Stock of the Company remains unchanged (authorized issue under the charter 100,000 shares of $100 each, $10,000,000). Issued and outstanding June 30, 1895, 53,206 shares, the holders of record of 49,429 shares of which have under the "agreement for the readjustment, etc., of the securities of the Mobile & Ohio Railroad Company, dated October 1, 1876, granted and given power and authority to the Farmers' Loan & Trust Company, in trust for the benefit and security of the Preferred Income and Sinking Fund Debentures, to vote in person or by proxy upon said shares of stock at any and all meetings of the stock of the Company."

23,594 shares ($2,359,400) issued in 1873 are in the Treasury of the Company.

The gross revenue and receipts of all kinds and from all sources of the Mobile & Ohio Railroad, proper, including the extension to East Cairo and its branches, and of the Leased Line and of its branch, for the year ending June 30, 1895, subject to the lease agreement with the St. Louis & Cairo Railroad Company, amounted to $3,037,640 06, 25 per cent of 150·640 of which amounted to $177,986 72, an increase of $1,823 40. Other revenue and receipts, not subject to said lease agreement were $232 349 62, a decrease of $13,820 90.

The tonnage movement for the year has been as follows:

M. & O. RR.	*Tons.*	*Ton miles.*	*Av'ge haul.*
1894-95	835,431	196,791,942	235·6
1893-94	834,223	203,053,639	243·0
Increase	1,208		
Decrease		6,261,697	7·4

St. L. & C. RR.	*Tons.*	*Ton miles.*	*Av'ge haul*
1894-95	773,201	89,479,367	115·8
1893-94	712,175	83,293,540	116·9
Increase	61,026	6,185,827	
Decrease			1·1

The average rate per ton mile for the entire line shows an increase of 11-100 of a mill per ton per mile.

The principal amounts charged in "Operating Expenses," account of maintenance and improvement of equipment, roadway and track, are the following:

	1894-95.		1893-94.
Equipment—	$		$
Repairs to cars, ordinary	110,810 72		97,795 84
Cars built and rebuilt to replace cars condemned or destroyed	180 46,786 98	33	8,174 86
Repairs of Locomotives	88,085 71		75,897 08
	245,683 41		181,867 78
Roadway and Track—			
Ballast	9,267 78		7,623 15
New Iron Br'ge over Okatibbee Creek	9,112 35		.....
Cross-ties, including cost of laying	90,567 01		85,129 46
New steel rail	32,575 77		.....
Total	141,522 91		92,752 61
Total	387,206 32		274,620 39

During the year 1894-95, 320 657 ties were put in track, against 273,954 during the year 1893-94.

These expenditures have resulted in restoring the general good condition of the property, which, owing to the disturbed condition of business generally throughout the country, had during the year 1892-93 and in the latter part of 1894 been somewhat impaired, it having been deemed not only prudent but obligatory during that period to restrict all expenditures to such as were requisite to secure safety in operation.

During the year, in order to restore the equipment to its full complement, alike in number, in condition and in efficiency, 100 new freight cars were purchased, 49 cars constructed and 31 rebuilt at the Company's shops; the cost of all of which has been charged to operating expenses.

GENERAL REMARKS.

The gross recipts for the year amounted to $3,269,989 68, an increase of $16,298 51, while the operating expenses, including Taxes and Insurance, amounted to $2,154,486 73, an increase of $109,832 64. The percentage of operating expenses (including Maintenance, Taxes and Insurance, and excluding only Interest and Rental Charges and payments in reduction of the principal of the Car Trust debt) to earnings, was 65·89 per cent, an increase of 3·09 per cent. The surplus over operating expenses, etc, amounted to $1,115,502 95, a decrease of $93,534 13. The increase of $16,298 51 in gross earnings is located as follows:

Freight increased	$29,931 34
Passengers decreased	893 67
Other sources decreased	12,739 16

During the month of July, 1894, the business of the Company was seriously affected by the strike inaugurated by the American Railway Union.

The sources from which the freight revenue was derived were as follows:

	1894-95.	1893-94.
From Cotton	$273,634 45	$229,601 76
From Coal	139,047 09	131,546 88
From Tropical Fruit, via Mobile	200,613 00	162,004 78
From other freight	1,804,438 39	1,864,648 17
	$2,417,732 93	$2,387,801 59

The cotton traffic shows an increase of 18 per cent in tonnage, the low price at which the crop was marketed, however, greatly reduced the purchasing power of the planters as compared with the preceding year, which accounts for the decrease in other freights.

The tropical fruit business via Mobile during the year was satisfactory. The rapid increase in this business since its encouragement by the Mobile & Ohio Railroad Co. has resulted in making the imports of bananas via Mobile the third in volume of all the ports of the United States.

The Company in June, 1895, desiring to liquidate its floating indebtedness, which its current earnings had not enabled it to do except to a very limited extent, because of maturing car trust debt and the cost of new equipment, which expenditures since 1888 have amounted to the aggregate of over $1,200,000, determined to and did sell to a syndicate, subject to the same being offered to the stockholders at the net purchase price (65 and interest) $1,250,000 of the General Mortgage Bonds in its Treasury, by the agreement of 1888, for the purpose of funding the floating indebtedness of the Company and to provide the means by which the necessary additions and improvements to the property may continue to be made. An option was accordingly given to the stockholders of record (including the holders of the "assented" stock) to purchase these bonds, and the registered holders of over seventy per cent of the entire stock availed thereof.

The relations of the Mobile & Ohio Railroad with connecting and competing lines during the year have remained harmonious.

The Directors desire to renew their thanks to the officers and employees for their zeal and faithful performance of duty during the year.

By order of the Board,

J. C. CLARKE, *President*

MOBILE, ALA., October 1, 1895

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, October 11, 1895.

A good volume of business is reported in most staple commodities, the movement of leading food products in particular proving satisfactory. The interior or country dealers are quite generally purchasing a larger and broader assortment of supplies for winter use than one year ago. Since opening of current month heavy contracts for steel rails have been booked, but other metal products have become quiet, and the previous buoyancy in values is checked. Speculation in leading articles of merchandise is fair, with cotton still attracting greatest attention. Breadstuffs have secured more attention on foreign orders, and the increased sales of grain for export served as a partial counteracting influence against the broadening receipts in the Northwest. Corn is being marketed steadily, and all previous evidences of a large yield appear confirmed. Private information during the week quite generally claimed backward seeding in winter-wheat localities, but no serious curtailment of planted area is as yet claimed.

There has been very little inquiry for lard on the spot, and with free offerings prices have steadily declined, closing easy at 6 10c. for prime Western, 5 75@5 90c. for prime City, and 6·45c. for refined for the Continent. The speculation in the local market for lard futures has been quiet, and prices have declined in response to weaker advices from the West and under full receipts of swine at primary points, closing easy.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
October.....c.	6·20	6·22	6·20	6·15	6·12	6·07

Pork has been in moderate request, principally for shipment to the West Indies, and prices have ruled fairly steady, closing at $9 75@$10 25 for mess, $11 50@$12 for family and $11 50@$13 for short clear. Cut meats have been moderately active and prices have advanced slightly, closing at 7@7¼c for pickled bellies, 12@10 lbs. average, 6¼@6½c. for pickled shoulders and 9@9½c. for pickled hams. Beef has been in moderate demand and steady, closing at $7 50@$8 for mess, $8 50@$9 for packet, $10@$12 for family and $15@$17 for extra India mess. Beef hams have declined, closing at $15@$15 25. Tallow has been fairly active and steady at 4⅜c. Oleo Stearine has been unchanged at 6c. Lard stearine has been dull, closing at 7@7½c. Cotton-seed oil has been firm but quiet, closing at 27½@28c. for prime yellow and 27c. for off grade yellow. Butter has been in moderate demand and steady, closing at 14@23c. for creamery. Cheese has been moderately active and firmer, closing at 6¼@10c. for State factory, full cream. Fresh eggs have advanced on light receipts, closing firm at 19@19½c. for choice Western.

Coffee shaded somewhat in cost, but fair demand and of late has become steadier for good roasting qualities, which are scarce. Rio quoted at 16c. for No. 7, good Cucuta at 18¼c and Standard Java 27@27½c. Speculation for future delivery was slow and unimportant, but local bullish sentiment served to sustain values until the close, when tone is easier. The following were the final asking prices:

Oct	15·40c.	Jan	15·00c.
Nov	15·25c.	Feb	14·90c.
Dec	15·10c.	March	14·75c.
April	14·60c.		
May	14·35c.		

Raw sugars have sold about as fast as offered and commanded prompt, full bids with further advance shown in value. Centrifugal quoted at 3⅝c. for 96-deg. test and muscovado at 3¼c. for 89-deg. test. Refined sugars not very active, but firm and tending upward; granulated quoted 4 13-16c. Teas and spices getting more attention.

Kentucky tobacco has been in moderate request and prices have been firm; sales 250 hhds., principally for export. Seed leaf tobacco was in fairly good demand at full values; sales for the week were 2,895 cases, as follows: 575 cases 1894 crop, New England Havana seed, 15@25c.; 200 cases 1894 crop, New England seed leaf, 18@22½c.; 100 cases 1893 crop, Zimmer's, 11½c.; 350 cases 1894 crop, Zimmer's, 11@12½c.; 500 cases 1894 crop, State Havana, 10@13½c.; 100 cases 1894 crop, Pennsylvania Havana, 10@15c.; 150 cases 1893 crop, Pennsylvania seed, 8@9c.; 320 cases 1893 crop, Wisconsin Havana, 5½@7c., and 100 cases 1892 crop, Wisconsin Havana, 9½@11c.; also 1,400 bales Havana, 66c.@$1 07½, and 375 bales Sumatra, 45c.@$2 75 in bond.

The speculative dealings have been moderately active in the market for Straits tin, and in response to stronger advices from abroad prices have advanced slightly, closing firm at 14 80c. Ingot copper has been quiet and slightly weaker, closing at 12@12 25c. for Lake. Lead has advanced and the close was firm at 3 40@3 42½c. for domestic. Spelter has been dull and without important change, closing at 4·10@4·20c. for domestic. Pig iron has been in fairly good demand and firm, closing at $12 @$14 50 for domestic.

Refined petroleum has been steady, closing at 7·10c. in bbls., 4·60c. in tank and 7·50c. in cases; crude in bbls. has been nominal; naphtha has declined to 8·25c. Crude certificates have been steady, closing at $1 34½ asked. Spirits turpentine have been steadier, owing to scarcity, closing at 28½@28¾c. Rosins have also advanced, closing at $1 50@$1 55 for common and good strained. Wool has been quiet but firmly held, owing to scarcity. Hops were fairly active for export early in the week, but the close was quiet

COTTON.

FRIDAY NIGHT, October 11, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 274,485 bales, against 217,679 bales last week and 149,189 bales the previous week, making the total receipts since the 1st of Sept., 1895, 793,724 bales, against 1,047,480 bales for the same period of 1894, showing a decrease since Sep. 1, 1895, of 253,756 bales.

Speculation in cotton for future delivery at this market has been less active than during the preceding week. Prices, however, were quite unsettled and underwent numerous sharp fluctuations. The period under review opened on Saturday rather tamely, and 9 points lower in consequence of the reported heavy crop movement and slack accounts from abroad, but recovery followed and left closing prices only 2 points net loss. During Monday trading was light and unimportant, with prices irregular, closing at 5 points net loss. Much the same conditions prevailed during Tuesday, operators appearing to have called a truce to await the forthcoming official crop statement, the final prices showing 2 points decline for the day. On Wednesday, however, demand quickened and the market was sharply stimulated through influence of heavy fall in temperature during preceding night, followed by reports of frost damage at the South, prices gaining 18@19 points. Yesterday the Agricultural Bureau issued its report showing crop conditions for September at 65 1-10, an average considerably above previous predictions of the bulls, and under quick free selling prices dropped 28 points, but afterwards recovered and reduced the loss to 17 points net. To-day the market opened 10@12 points higher, but lost it all under influence of large port and interior movement. Cotton on the spot dull at 9⅛c. for middling uplands.

The total sales for forward delivery for the week are 1,415,900 bales. For immediate delivery the total sales foot up this week 3,574 bales, including —— for export, 1,974 for consumption —— for speculation and 1,600 on contract. The following are the official quotations for each day of the past week—October 5 to October 11.

Rates on and off middling, as established Nov. 22, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1¼ on.	Good Ordinary	c. 1⅛ off.
Middling Fair	⅞ on.	Good Middling Tinged	Even.
Strict Good Middling	½ on.	Strict Middling Stained	7/32 off.
Good Middling	5/16 on.	Middling Stained	7/16 off.
Strict Low Middling	3/16 off.	Strict Low Mid. Stained	29/32 off.
Low Middling	7/16 off.	Low Middling Stained	1⅜ off.
Strict Good Ordinary	13/16 off.		

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary	8	8	8	8 1/16	8 1/16	8
Low Middling	8 11/16	8 11/16	8 11/16	8¾	8¾	8 11/16
Middling	9⅛	9⅛	9⅛	9 1/16	9 1/16	9⅛
Good Middling	9 7/16	9 7/16	9 7/16	9½	9½	9 7/16
Middling Fair	10	10	10	10 1/16	10 1/16	10

GULF.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary	8¼	8¼	8¼	8 5/16	8 5/16	8¼
Low Middling	8 15/16	8 15/16	8 15/16	9	9	8 15/16
Middling	9⅜	9⅜	9⅜	9 7/16	9 7/16	9⅜
Good Middling	9 11/16	9 11/16	9 11/16	9¾	9¾	9 11/16

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the afloat are this week's returns and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Oct. 11), we add the item of exports from the United States, including in it the exports of Friday only.

	1895	1894.	1893.	1892.
Stock at Liverpool.....bales.	938,000	742,000	845,000	1,028,000

☞ The imports into Continental ports the past week have been 9,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 235,543 bales as compared with the same date of 1894, an *increase* of 135,579 bales over the corresponding date of 1893 and a *decrease* of 246,107 bales from 1892.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1894—is set out in detail below.

Towns.	Movements to October 11, 1895. Receipts. This week.	Receipts. Since Sept. 1, '95.	Shipm'ts. This week.	Stock Oct. 11	Movements to October 12, 1894. Receipts. This week.	Receipts. Since Sept. 1, '94.	Shipm'ts. This week.	Stock Oct. 12.

* Louisville figures not in both years.
† This year's figures estimated.
‡ Last year's figures are for Columbia, S. C.

The above totals show that the interior stocks have *increased* during the week 62,014 bales and are now 13,350 bales *more* than at same period last year. The receipts at all the towns have been 29,819 bales *less* than same week last year and since Sept. 1 are 147,148 bales *less* than for same time in 1894.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Oct. 11.	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week ending—	*Receipts at the Ports.*			*St'k at Interior Towns.*			*Rec'pts from Plant'ns*		
	1895.	1894.	1895.	1893.	1894.	1895.	1893.	1894.	1895.
Sept. 6..	28,117	33,396	15,033	79,928	55,913	35,892	33,544	36,974	16,208
" 13	54,703	85,884	47,542	84,871	66,830	43,275	58,646	90,801	54,922
" 20.	95,549	148,547	91,050	86,756	84,519	66,739	107,784	160,286	114,544
" 27.	161,448	205,521	149,159	128,438	109,215	90,387	198,155	229,947	172,987
Oct. 4	234,456	247,416	217,679	156,362	151,900	141,788	251,980	260,260	208,830
" 11.....	261,595	318,816	274,480	188,723	190,402	203,752	296,339	357,309	330,490

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 964,776 bales; in 1894 were 1,189,547 bales; in 1893 were 942,769 bales.

2.—That although the receipts at the outports the past week were 274,480 bales, the actual movement from plantations was only 330,490 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the week were 357,309 bales and for 1893 they were 296,339 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Oct. 11 and since Sept. 1 in the last two years are as follows:

October 11.	1895.		1894.	
	Week.	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*
Shipped—				
Via St. Louis.....	16,960	34,582	26,507	49,520
Via Cairo.....	8,079	11,551	9,657	19,869
Via Parker City.....	360	1,093	250	250
Via Evansville.....	.....	.....	4	177
Via Louisville.....	1,769	3,475	3,376	6,216
Via Cincinnati.....	1,835	2,894	3,000	7,282
Via other routes, &c.....	843	5,020	1,479	6,277
Total gross overland.....	29,886	58,595	44,273	89,591
Deduct shipments—				
Overland to N. Y., Boston, &c..	3,451	11,008	5,589	11,584
Between interior towns.....	534	854	437	1,403
Inland, &c., from South.....	1,047	5,242	3,402	10,146
Total to be deducted.....	5,032	17,104	9,428	23,133
Leaving total net overland*..	24,854	41,491	34,845	66,458

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 24,854 bales, against 34,845 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 24,967 bales.

In Sight and Spinners' Takings.	1895.		1894.	
	Week.	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*
Receipts at ports to Oct. 11.....	274,185	793,724	318,816	1,047,480
Net overland to Oct. 11.....	24,854	41,491	34,845	66,458
Southern consumption to Oct. 11.	19,000	112,000	17,000	100,000
Total marketed	318,339	947,215	370,661	1,213,938
Interior stocks in excess.....	62,014	171,052	38,493	133,067
Came into sight during week.	380,353	.....	409,154	.....
Total in sight Oct. 11.	.....	1,118,267	.....	1,347,005
North'n spinners tak'gs to Oct. 11.	47,322	147,671	59,390	202,794

It will be seen by the above that there has come into sight during the week 380,353 bales, against 409,154 bales for the same week of 1894, and that the decrease in amount in sight to-night as compared with last year is 228,738 bales.

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph this evening denote that the temperature has been lower as a rule at the South during the week. Frosts have occurred in a number of localities, killing in portions of Alabama, Mississippi, Tennessee and Arkansas, but the resulting injury has not on the whole been important. Rain has fallen in most sections and in some districts of Texas heavy precipitation is claimed to have damaged cotton. Picking has made rapid progress generally, and in Southwest Texas and at a few points elsewhere is said to be approaching completion. The movement of cotton to market is quite free.

Galveston, Texas.—Reports received by cotton factors and merchants are poor. The general heavy rain did much damage, beating out cotton and materially lowering the grade. Rain has fallen on one day of the week, the rainfall reaching seventy-two hundredths of an inch. The thermometer has averaged 71, ranging from 59 to 83.

Palestine, Texas.—We have had rain on three days during the week, the precipitation reaching one inch and sixty hundredths. The thermometer has ranged from 46 to 86, averaging 66.

Huntsville, Texas.—It has rained on two days of the week, the precipitation being one inch and seventy-eight hundredths. Average thermometer 69, highest 88, lowest 50.

Dallas, Texas.—There has been no improvement in the condition of the crop. Cotton is opening rapidly, picking is progressing very well and will soon be over, as there is only a small chance for a top crop. We have had rain on one day of the week, the rainfall being sixty-four hundredths of an inch. The thermometer has averaged 68, the highest being 84 and the lowest 42.

San Antonio, Texas.—Picking is about over in Southwest Texas. The plant is dead and no more cotton can be made. The crop is barely half of last year. There has been rain on one day the past week, the rainfall reaching one inch and eighteen hundredths. The thermometer has averaged 68, ranging from 52 to 84.

Luling, Texas.—It has rained on two days of the week, the rainfall reaching ninety-six hundredths of an inch. The thermometer has ranged from 50 to 88, averaging 69.

Lampasas, Texas.—It is now conceded that not more than half of last year's crop will be made in this district. No top crop can be made. Rain has done damage.

Columbia, Texas.—There has been heavy rain on one day during the week, the precipitation being one inch and thirty-eight hundredths. Average thermometer 67, highest 86 and lowest 48.

Cuero, Texas.—We have had heavy rain on one day of the week, the rainfall being one inch and ninety-four hundredths. The thermometer has averaged 70, the highest being 88 and the lowest 52.

Brenham, Texas.—There has been rain on two days of the week, the rainfall reaching one inch and twenty-four hundredths. The thermometer has averaged 70, ranging from 50 to 90.

Belton, Texas.—It has rained lightly on two days of the week, with rainfall to the extent of eighty-nine hundredths of an inch. The thermometer has ranged from 46 to 86, averaging 68.

Fort Worth, Texas.—We have had rain on one day of the past week, the precipitation being eighty-six hundredths of an inch. Average thermometer 64, highest 84 and lowest 43.

Weatherford, Texas.—We have had rain on one day during the week. The thermometer has averaged 64, the highest being 84 and the lowest 44.

New Orleans, Louisiana.—We have had rain on two days of the week, the precipitation being sixteen hundredths of an inch. The thermometer has averaged 71.

Shreveport, Louisiana.—We have had rain on two days of the week, the rainfall reaching one inch and fifty-five hundredths. The thermometer has ranged from 43 to 90, averaging 65.

Columbus, Mississippi.—Rain has fallen on one day during the week to the extent of eighty hundredths of an inch. Average thermometer 62, highest 93 and lowest 38.

Leland, Mississippi.—Killing frost has occurred in this vicinity. We have had rain during the week to the extent of fourteen hundredths of an inch. The thermometer has averaged 62·9, the highest being 88 and the lowest 35.

Vicksburg, Mississippi.—There has been rain on one day during the week, the rainfall being forty hundredths of an inch. The thermometer has averaged 65·6, ranging from 42 to 88.

Meridian, Mississippi.—Picking is about completed and cotton has been marketed rapidly. Some farmers are reported to have sold their last bale. The crop is estimated as 40 per cent short. There has been frost on two mornings. Rain has fallen on two days and the thermometer has ranged from 42 to 74.

Little Rock, Arkansas.—We have had rain on one day during week to the extent of sixty-three hundredths of an inch. The thermometer has ranged from 40 to 82, averaging 62.

Helena, Arkansas.—Frosts have done no damage to cotton, which is about all opened and is being gathered and marketed rapidly. We have had light rain on two days during the week, the precipitation being fourteen hundredths of an inch. Average thermometer 60, highest 85 and lowest 37.

Memphis, Tennessee.—Killing frost occurred throughout this section on Wednesday and Thursday mornings. The damage was not great owing to the fact that cotton had all matured. There has been light rain on three days of the week, the rainfall reaching forty-nine hundredths of an inch. Picking and marketing are active. The thermometer has averaged 61·3, the highest being 80·8 and the lowest 40·9.

Nashville, Tennessee.—The week's rainfall has been fifty-nine hundredths of an inch. The thermometer has averaged 60, ranging from 33 to 84.

Mobile, Alabama.—Cotton-picking is progressing actively and is already completed in some localities. Frosts occurred in the interior on Wednesday and Thursday, killing in North Alabama and North Mississippi. We have had rain on two days of the week, the precipitation reaching sixty-four hundredths of an inch. The thermometer has ranged from 46 to 86, averaging 69.

Montgomery, Alabama.—Picking has suffered no interruption. Planters are rushing their cotton to market, selling as quick as they can. Picking will be over much sooner than expected; light frost north of Montgomery. There has been rain on one day of the week, the precipitation being sixty hundredths of an inch, and it is raining to-day. Average thermometer 67, highest 80 and lowest 55.

Selma, Alabama.—We have had rain during the week to the extent of one inch and ten hundredths. The thermometer has averaged 61, the highest being 82 and the lowest 42.

Madison, Florida.—Telegram not received.

Columbus, Georgia.—It has rained on one day of the week, the precipitation reaching thirty-two hundredths of an inch. The thermometer has ranged from 45 to 80, averaging 75.

Savannah, Georgia.—Rain has fallen on one day of the week to the extent of two hundredths of an inch. Average thermometer 69, highest 91 and lowest 46.

Augusta, Georgia.—We have had rain on one day of the week to the extent of twenty-two hundredths of an inch. The thermometer has averaged 64, the highest being 88 and the lowest 42.

Albany, Georgia.—Crop is turning out better than expected in this section. There has been rain on one day during the week, the precipitation being ten hundredths of an inch. The thermometer has averaged 61, ranging from 46 to 85.

Charleston, South Carolina.—We have had rain on one day during the week, to the extent of twelve hundredths of an inch. The thermometer has ranged from 49 to 88, averaging 67.

Stateburg, South Carolina.—Rain has fallen lightly on one day of the week, to the extent of thirty-four hundedths of an inch. Average thermometer 65 3, highest 89 and lowest 47.

Greenwood, South Carolina.—Picking and marketing are going on rapidly. It has rained on one day of the week, the precipitation reaching fifty-four hundredths of an inch. The thermometer has averaged 62, the highest being 76 and the lowest 48.

Wilson, North Carolina.—Frost this morning. There has been rain on one day during the week, the rainfall reaching eighty-five hundredths of an inch. The thermometer has averaged 61, ranging from 38 to 78.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 8 o'clock October 10, 1895, and October 11, 1894.

		Oct. 10, '95.	Oct. 11, '94.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to October 10.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week.			Shipments since Sept. 1.			Receipts.	
	Great Brit'n.	Continent.	Total.	Great Britain	Continent.	Total.	This Week.	Since Sept. 1.
1895	-----	2,000	2,000	.....	22,000	22,000	10,000	53,000
1894	.....	.....	.....	5,000	8,000	13,000	1,000	17,000
1893	1,000	5,000	6,000	2,000	25,000	27,000	11,000	46,000
1892	1,000	9,000	10,000	1,000	23,000	24,000	3,000	16,000

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 9,000 bales and a *increase* in shipments of 2,000 bales, and the shipments since Sept. 1 show an *increase* of 9,000 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week.			Shipments since Sept. 1		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
Calcutta—						
1895.....	.....	1,000	1,000	1,000	2,000	3,000

Bombay	2,000	22,000	.....	13,000	6,000	27,000
All other ports	5,000	28,000	4,000	28,000	5,000	25,000
Total	7,000	50,000	4,000	41,000	11,000	52,000

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co. of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, October 9	1895.	1894.	1893.
Receipts (cantars*)			
This week	240,000	70,000	20,000
Since Sept. 1	485,000	165,000	131,000

	1895. This week.	1895. Since Sept. 1.	1894. This week.	1894. Since Sept. 1.	1893. This week	1893. Since Sept. 1
Exports (bales)—						
To Liverpool	10,000	17,000	3,000	14,000	.....	9,000
To Continent†	4,000	12,000	6,000	24,000	4,000	15,000
Total Europe	14,000	29,000	9,000	38,000	4,000	24,000

* A cantar is 98 pounds.
† Of which to America in 1895, 1,500 bales; in 1894, —— bales; in 1893, 1,320 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is steady for both yarns and shirtings. Merchants are not willing to pay present prices. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1895. 32s Cop. Twist.	1895. 8¼ lbs. Shirtings, common to finest.	1895. Cott'n Mid. Uplds	1894. 32s Cop. Twist.	1894. 8¼ lbs. Shirtings, common to finest.	1894. Cott'n Mid. Uplds

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (October 11) and since Sept. 1, 1895, the stocks to-night, and the same items for the corresponding periods of 1894, are as follows.

Receipts to Oct. 11.	1895. This week.	1895. Since Sept. 1.	1894. This week.	1894. Since Sept. 1.	Stock 1895.	Stock 1894.
Savannah	3,631	8,362	2,436	10,365	6,089	5,033
Charleston	669	1,352	125	488	1,054	788
Florida, &c.	38	38	65	65	931	1,538
Total	4,338	9,752	2,626	10,918	8,074	7,359

The exports for the week ending this evening reach a total of 619 bales, of which 532 bales were to Great Britain, 86 to France and — to Reval, and the amount forwarded to Northern mills has been 780 bales. Below are the exports for the week and since September 1 in 1895 and 1894.

Exports from—	Week Ending Oct. 11. Great Brit'n.	France &c.	Total.	Since Sept. 1, 1895. Great Brit'n.	France &c.	Total.	North'n Mills Week.	North'n Mills Since Sept. 1
Savannah	.....	.....	.....	.....	.....	.....	742	1,107

Florida, &c.	..	.....	.....	.....	.....	.....	38	38
New York	532	86	618	608	230	838	.....	.....
Boston	.....	.....	.....	.....	.....	.....	.....	.....
Baltimore	.....	.....	.....	.....	.....	.....	.....	.....
Total	532	86	618	608	230	838	780	1,145
Total 1894	226	195	421	834	367	1,201	2,223	3,646

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations October 11 at Savannah, for Floridas, common, 10c.; medium fine, 12½c.; choice, 15½c.

Charleston, Carolinas, medium fine, 19 to 22c.; fine, 24 to 26c.; extra fine, 28c. and upwards.

THE AGRICULTURAL DEPARTMENT'S REPORT FOR OCTOBER.—The Agricultural Department's report on cotton for October 1 is given below:

The returns to the Statistical Division of the Department of Agriculture for the month of October make cotton show a decline of 5·7 points from the September condition, which was 70·8, against 65·1 for the present month.

There is a general complaint from all the counties reporting of extensive damage from early rains, recent drouth and ravages by boll worms and other insects. In South Carolina, Georgia and Mississippi there is not one exception; in the remaining States very few. Top crop almost everywhere reported a failure, and the yield shortened by premature opening.

The percentages by States are as follows: Virginia, 78; North Carolina, 68; South Carolina, 64; Georgia, 72; Florida, 84; Alabama, 70; Mississippi, 67; Louisiana, 64; Texas, 58; Arkansas, 72; Tennessee, 70; Missouri, 85.

That the reader may have for comparison the condition, according to the Agricultural Department, for October 1 of previous years, we give the following, collated from its reports:

States.	1895.	1894.	1893.	1892.	1891.	1890.	1889.	1888.	1887.	1886.	1885.	1884.
Virginia	78	89	93	71	72	92	58	80	79	72	78	81
No. Carolina	68	81	76	59	70	91	72	81	78	75	77	79
So. Carolina	64	79	62	73	72	83	81	75	70	74	79	80
Georgia	72	79	76	75	78	82	87	79	77	81	87	79
Florida	84	72	84	63	74	81	88	88	79	85	88	84
Alabama	70	84	76	69	76	80	87	82	76	80	81	74
Mississippi	67	80	73	72	74	75	79	81	77	79	80	76
Louisiana	64	89	71	71	79	83	83	70	78	79	77	77
Texas	58	88	85	77	78	77	78	75	75	74	78	62
Arkansas	72	79	71	74	76	80	83	82	75	86	70	76
Tennessee	70	79	59	75	70	83	82	91	74	96	74	85
Average	65·1	82·7	70·7	73·3	75·7	80·0	81·4	78·9	76·5	79·3	78	74·7

JUTE BUTTS, BAGGING, &c.—During the week under review the market for jute bagging has been very quiet, but former quotations have been well maintained at 4½c. for 1¾ lbs., 4¾c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4¼c. for 1¾ lbs., 4⅝c. for 2 lbs. and 5⅛c. for 2¼ lbs. f. o. b. at New York. Jute butts on the spot have been dull and featureless and are quoted at 1 1-16c. for paper quality and 1⅛c. for mixing. Bagging quality is nominal in the absence of stock.

MEMPHIS DISTRICT COTTON REPORT.—Messrs. Hill, Fontaine & Co.'s regular monthly report on cotton in the Memphis District, which embraces West Tennessee, North Mississippi, North Arkansas and North Alabama, was issued on October 7, as follows:

The weather during the month was dry and favorable for picking, but 184 out of 292 correspondents report it much less favorable than last year. Crops within the district, in the main, are in poor condition; 179 out of the total report them much worse than last year. This is due to the long-continued drought which set in early in August and was not broken by showers for nearly two months. The result has been most injurious to cotton. The extreme high temperature which prevailed for three weeks in September forced a premature opening of bolls and also caused heavy shedding. The damage has been serious, and is shown in the prospective yield of the district, which, as compared with last year, is now estimated at 27 1-3 per cent less, a deterioration of fully 4 per cent from what was reported last month. The net yield by States is as follows:

Mississippi, 31 per cent; Arkansas, 27½ per cent; Tennessee, 27½ per cent; Alabama, 23 per cent. The effect of the extreme hot weather in September is clearly indicated in the report of all our correspondents regarding picking, which is now in progress, and is general throughout the four States. An unprecedented condition for this early in the season. Cotton is all open in the fields, and many of our correspondents report that the picking season will be the shortest in the history of cotton raising in the South. In the bottoms, on fresh new ground, there will be some middle and a very light top crop, but on the sandy lands and on the table lands there will be nothing but the bottom crop, as the drought has taken all the vitality out of the plant.

Frosts are reported throughout the northern section of the district and in the immediate vicinity of Memphis. The dates of its appearance were September 28, 29 and 30, which is twelve days earlier than the average date for frost in this section, and no estimates of its damaging effect on cotton can at present be given.

EAST INDIA CROP PROSPECTS.—The following is from the Bombay *Prices Current* of September 13:

The cyclonic rain which visited Bombay on Friday night extended to some of the cotton-growing districts on this side of India, and the official telegraphic weather and crop reports to hand on Monday morning advised a heavy fall at Sholapore, Dhulia, and Julgaum, ranging from about 4½ inches in the latter district to 8¼ inches in the former, where, however, it had done no harm, though a break was needed at Sholapore. In the Bengal district no further rain had been registered, and the crop was flourishing in the fine weather. The plants were in flower at Khangaum, Oomrawuttee, Dhulia and Julgaum in the Oomra circle; but they needed more rain at Khangaum; as they also did at Broach, where, however, the crop was still flourishing and at Hubli. In the Dhoolera circle the plants were flourishing and looked healthy in the Wadhwan district, but more rain was wanted and also at Bhownugger in the same circle, while at Veerumgaum the cotton crop on the high ground was doing well, but was poor on low land.

This morning's advices by wire are, with scarcely an exception, of a favorable tenor. The cotton plants were in flower, and showing bolls at Benwar, Khangaum, Dhulia and Julgaum; but more rain was needed at Wadhwan and Hubli. The sowing of the crop had commenced at Bellary.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 80,056 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total bales.
NEW YORK—To Liverpool, per steamers Aurania, 1,979 upland and 10 Sea Island....Georgic, 10,111 upland and 522 Sea Island	12,621
To Hull, per steamer Galileo, 999	999
To Havre, per steamer La Bourgogne, 1,200 upland and 86 Sea Island	1,286
To Bremen, per steamers Lahn, 680....Trave, 500	1,180
To Hamburg, per steamer Patria, 120	120
To Antwerp, per steamer Kensington, 1,550	1,550
To Gothenburg, per steamer Venetia, 750	750
To Genoa, per steamer Alsatia, 668	668
To Naples, per steamer Alsatia, 50	50
NEW ORLEANS—To Liverpool, per steamers Barbadian, 7,140....Darien, 4,184	11,324
To Havre, per steamer Highland Prince, 6,050	6,050
To Hamburg, per steamer Markomannia, 3,091	3,091
To Genoa, per steamer Spanish Prince, 3,950	3,950

	Total bales.
Galveston—To Liverpool, per steamer Gracia, 8,312	8,312
To Havre, per steamer Heathfield, 6,004	6,004
Savannah—To Bremen, per steamer Bendo, 7,556	7,556
Brunswick—To Bremen, per steamer L rd Londonderry, 3,545	3.545
Charleston—To Barcelona, per steamer Madura, 8,000	8,000
Boston—To Liverpool, per steamers Michigan, 285....Ottoman, 92	377
Baltimore—To Bremen, per steamer Stuttgart, 2,723	2,723
Total	80,056

The particulars of these shipments, arranged in our usual form, are as follows:

	Liverpool.	Hull.	Bremen & Hamburg.	Antwerp.	Gothenburg.	B'lona, Genoa & Naples	Total.

BREADSTUFFS.

Friday, October 11, 1895.

A fair amount of business has been transacted in the market for wheat flour during the past week. The trade brands have been dealt in principally and the buying has been fairly general, both the home trade and shippers having shown interest, and prices have ruled steady. City mills have been in fair request at steady prices. Rye flour has been quiet but steady. Buckwheat flour has sold slowly and early in the week prices were lower, but subsequently there was a recovery on more favorable weather for trade. To-day the market for wheat was moderately active and an advance of 5c. per bbl. was obtained on some grades.

The speculative dealings in the market for wheat futures have been moderately extensive, but no material changes have been made in prices; early in the week selling was general, prompted by weaker foreign advices, and prices declined, but subsequently European advices turned stronger and this stimulated a demand from the "short" interest, which generally is supposed to be large, and prices advanced. In the spot market prices have advanced, checking trade. The sales yesterday included No. 2 red winter at 1¼c. over Dec. f.o.b afloat, No. 1 Northern at ½c. over Dec. f.o.b afloat and No. 1 hard spring at 2¾@2⅞c. over Dec. f.o.b. afloat. To-day the market was active and prices advanced sharply on brisk buying both for "long" and "short" account, stimulated by the continued unfavorable weather conditions in winter-wheat districts for seeding. The spot market was firmer but quiet. The sales included No. 1 Northern at ½c. over Dec. f.o.b. afloat.

May delivery.....c.	69¾	69⅛	70⅛	70½	69⅞	71

The market for Indian corn futures has been quiet, and prices have declined under free offerings, both for local and Western account, prompted by a free movement of the crop. In the spot market business has been fairly active, as shippers were buyers, but prices have weakened with futures. The sales yesterday included No. 2 mixed at 2⅜c. over October f.o.b afloat and yellow at 37⅝c. in elevator. To-day the market was firmer in sympathy with an advance in wheat. The spot market was quiet. The sales included No. 2 mixed at 2⅞c. over October f.o.b. afloat and No. 2 white at 2¼c. over October f.o.b. afloat.

May delivery .....c.	35⅛	35	35	35	34¾	35

Early in the week the market for oats for future delivery was weaker under a large movement of the crop and a material gain to the supply in sight, but subsequently there was an advance on a demand from "short" to cover contracts, stimulated to some extent by a report that shippers were negotiating for supplies in the spot market. Business in the spot market has been fairly active but at easier prices. The sales yesterday included No. 2 mixed at 23½c. in elevator and No. 2 white at 25c. in elevator. To-day the market was quiet but steady. The spot market was moderately active and a trifle higher for mixed. The sales included No. 2 mixed at 23¾c. in elevator and No. 2 white at 25c in elevator.

DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

AGRICULTURAL DEPARTMENT REPORT.—The Agricultural Department's report on the cereal crops was issued on October 10, and is given below:

The October returns to the Statistician of the Department of Agriculture make the general condition of corn 85 per cent against 96·4 for the month of September. In most of the Southern States the condition has fallen since last report.

The averages of condition in the large and surplus corn growing States are as follows: Tennessee 89, Kentucky 89, Ohio 87, Michigan 89, Indiana 92, Illinois 89, Wisconsin 87, Minnesota 94, Iowa 90, Missouri 1·1, Kansas 80, Nebraska 50.

The returns of yield per acre of wheat indicate a production of 12·5 bushels, being 0·10 of a bushel less than last October's preliminary estimate.

The rate of yield of selected States is as follows: New York 19·1, Pennsylvania 15, Ohio 12, Michigan 12, Indiana 9, Illinois 11, Wisconsin 15, Minnesota 19, Iowa 16·5, Missouri 12, Kansas 7·5, Nebraska 12, South Dakota 10·2, Washington 14, Oregon 20, California 10.

The indicated quality for the country is 85·7. The quality in some of the principal wheat states is, for New York 96, Pennsylvania 90, Kentucky 87, Ohio 85, Michigan 91, Indiana 94, Illinois 7 , Wisconsin 90, Minnesota 98, Iowa 93, Missouri 78, Kansas 69, Nebraska 88, South Dakota 85, North Dakota 90, Washington 92, Oregon 92, California 87.

The preliminary estimate of the yield of oats is 29·6 bushels per acre, of rye 14·4, of barley 26·4. The condition of buckwheat is returned at 84·8. Irish potatoes 87·4 and tobacco 80·3.

☞ For tables usually given here see page 648.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., October 11, 1895.

There has been no change in the temper of the market for cotton goods during the past week, but the advances recorded have been confined chiefly to bleached and colored cottons, brown goods resting for the moment at the top prices recently reached. The general demand has not changed in character, either the majority of buyers contenting themselves with meeting current requirements from supplies immediately available or resorting to jobbers' stocks where these are not to be secured at first hands. There are indications of such requirements increasing, and reports from large distributing centres in the West and Southwest speak of business recovering from the check imposed by the hot spell last month. The hesitating character of the cotton market this week has had no effect on the market for staple cotton goods, as even should cotton make no further tangible advance, a further rise in a number of directions will be necessary to bring goods up to a parity with the current level of raw material. Thus sellers relax none of their reserve and are as conservative as ever in booking orders for future deliveries. In dress cottons the tendency of the market is against buyers also, particularly in printed goods. There is no change of moment in the woolen goods situation. Collections are generally reported satisfactory.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending October 7 were 2,475 packages, valued at $139,027, their destination being to the points specified in the table below:

NEW YORK TO OCT. 7.	1895. Week.	1895. Since Jan. 1.	1894. Week.	1894. Since Jan. 1.

Total	2,475	176,235	2,754	190,618

*From New England mill points direct.

Business in brown sheetings and drills has been moderate and at full limit of recent advances. The tendency is still against buyers, but there has been no further upward movement this week. Bleached cottons have, however, taken another upward turn, Lonsdale, Fruit of the Loom and Masonville 4-4 bleached being advanced to 8½c., Hope & Blackstone to 7½c., with corresponding advances in various other tickets. The market is still well sold ahead and business doing at the latest advances. One or two leading makes of wide sheetings have been further advanced 5 per cent this week, but the general demand is indifferent. Coarse colored goods are strong throughout. Ticks are frequently quoted ½c. to 1¼c. higher. Denims are against buyers, and cheviots, plaids, checks and stripes are very firm. The general demand is improving, particularly in denims and ticks. Quilts show a general advance of from 5 to 10 per cent. Kid-finished cambrics are quoted at 4c. for 64 squares, an advance of ⅛c. Fancy calicoes are quiet but firm. Other regular prints are tending upwards under influence of the print cloth market, and are occasionally quoted ¼c. high. Ginghams are quiet and unaltered. Print cloths have sold to a fair extent at 3⅛c. for extras, spots and contracts, and close very firm thereat.

	1895. Oct. 5.	1894. Oct. 6.	1893. Oct. 7.
Stock of Print Cloths—			
At Providence, 64 squares	98,000	39,000	183,000
At Fall River, 64 squares	26,000	13,000	423,000
At Fall River, odd sizes	70,000	115,000	
Total stock (pieces)	194,000	167,000	606,000

WOOLEN GOODS.—The dress goods division has again shown the most satisfactory results in this department, a fair reorder business passing in fall lines and a good general business being reported in new spring fabrics. The market is very firm on the latter and in occasional instances advances of 5 per cent are reported on opening prices. Mohair and mohair mixtures show this feature most noticeably. Soft wool fancies are selling better for the coming season than generally expected. Henriettas and cashmeres are quiet, but suckings have an upward tendency. The men's-wear division has disclosed no new feature of encouragement beyond the receipt of an occasional order for goods to replace canceled foreign contracts. Some mills engaged on medium-priced lines are reported to be closing down until the heavy-weight season opens. Business in overcoatings is restricted and prices are irregular. Cloakings continue in fair request. Occasional advances are reported in carpets, and the tendency of the market generally is against buyers. Flannels and blankets are firm but not selling in any quantity.

FOREIGN DRY GOODS.—Dress goods for spring are scarce in desirable lines and prices have an upward tendency. Silks also firm, with fair orders again reported and ribbons in fully average request. Linens are in steady demand at previous prices. Men's-wear woolens and worsteds in light-weights are difficult to reorder except at higher prices, and the new heavy-weight season looks like opening at an advanced range of values.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending October 10, and since January 1, 1895, and for the corresponding periods of last year are as follows:

State and City Department.

TERMS OF SUBSCRIPTION.

The Investors' Supplement will be furnished *without extra charge* to every annual subscriber of the Commercial and Financial Chronicle.

The State and City Supplement will also be furnished *without extra charge* to every subscriber of the Chronicle.

The Street Railway Supplement will likewise be furnished *without extra charge* to every subscriber of the Chronicle.

The Quotation Supplement, issued monthly, will also be furnished *without extra charge* to every subscriber of the Chronicle.

TERMS for the Chronicle with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time		$3 50	Three Months	(13 times)	$25 00
One Month	(4 times)	11 00	Six Months	(26 times)	43 00
Two Months	(8 times)	18 00	Twelve Months	(52 times)	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

St. Paul's Debt Diminished.—City Comptroller J. J. McCardy, of St. Paul, has recently made a report showing that during the years 1892 to 1895, both inclusive, the city's debt has been reduced $1,452,926 53. The bonds paid during this period have amounted to $167,500, certificates of indebtedness $1,169,529 87, and miscellaneous contract estimates and judgments $115,896 66. The bonded debt of the city at present is $8,332,100, and there are no long-time certificates of indebtedness outstanding. This latter fact should be a matter of considerable satisfaction to those interested in the financial condition of St. Paul, as for a number of years the city has been burdened by an exceptionally heavy floating debt. The whole floating debt at present is in the form of tax levy certificates amounting to $1,476,000. Including this item the gross debt of the city is $9,808.100; less sinking funds, $343,057; net debt, $9,465,043. The Comptroller explains that the tax levy certificates should not, strictly speaking, be included in a statement of the city debt, as they are a direct lien on the taxes to be collected next year. On this subject he says that "such certificates are issued annually to the extent of 80 per cent of the amount of the tax levy estimate in anticipation of the collection of taxes. The object of this is to produce ready cash for operating expenses. The taxes of 1894 were not due and could not be paid until 1895. There was issued against 1894 taxes the sum of $1,496,000 in tax levy certificates, and these have all been paid during the year 1895 out of tax collections, just as the certificates of 1895 will be paid in 1896. The taxes of any year are an asset to meet the certificates issued against that year.

Included in the total debt, as figured above, is a water debt of $2,460,000. The water-works, it is reported, are self-sustaining, and the Water Board is rapidly accumulating a sinking fund. If the tax certificates and the water debt are excluded from the net debt, the remainder which the city must provide for is but $5,529,043.

It required $547,638 77 to pay interest on the city debt during the year 1892, and on Jan. 1, 1896, it will require $472,985 for the year 1896, a difference of $74,653 77, or a little over $200 per day less interest in 1896 than in 1892.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale

Albany, N. Y.—*Bond Offering.*—This city will offer at public auction on October 21, 1895, $62,500 of 4 per cent registered street improvement bonds. The securities will be dated November 1, 1895, interest will be payable semi-annually on May 1 and November 1, and the principal will mature at the rate of $12,500 yearly from November 1, 1896, to November 1, 1900.

The city's total general debt on October 8, 1895, was $2,592,000; water debt, $1,589,000; total debt, $4,181,000; sinking fund, $971,000; net debt, $3,210,000. The assessed valuation for 1894 was $64,895,635. The value of real and personal property owned by the city is $7,589,000. Population, according to local figures, 98,000.

Alleghany, Pa.—*Bond Sale.*—On Oct. 3, 1895, the city of Alleghany sold $650,000 of 4 per cent registered water extension water bonds to Whann & Schlesinger, of New York, at 106·045 and accrued interest. The securities are dated June 1, 1895, interest will be payable semi annually on June 1 and Dec. 1, and the principal will mature at the rate of $108,000 every five years from June 1, 1900, to June 1, 1920, and $110,000 on June 1, 1925.

Nine bids were received for the loan as follows:

	Bid.		Bid.
Benwell & Everitt, N. Y.	105·895	Rudolph Kleybolte & Co., Cincinnati	105·52
Walter Stanton & Co., N.Y.	106·014	Blair & Co., New York	104·64
Whann & Schlesinger, N.Y.	106·045	R. L. Day & Co., Boston	105·559
Brown Bros. & Co., Phila.	102·07	J. & W. Seligman & Co. N.Y.	105·773
E. C. Jones Co., N. Y.	102·56		

This is the balance of a $1,250,000 loan authorized in 1892, $600,000 having been sold in June last to the German National Bank of Alleghany at 106·712. Street, highway and sewer improvement bonds to the amount of $800,000 were also sold on July 2 at 106·54.

Appanoose County, Iowa.—*Bond Election.*—The people of this county will vote November 5 on issuing $65,000 of court house bonds.

Assumption, Ill.—*Bonds authorized.*—A vote taken September 26 on issuing $15,000 of water-works bonds resulted in favor of the proposition.

Belfast, Me.—*Bond Offering.*—Proposals will be received until October 15, 1895, by F. H. Welsh, Chairman of Refunding Committee, for the purchase of $113,000 of 4 per cent 10-30-year refunding bonds.

Bellevue, Pa.—*Bond Election.*—The people of Bellevue will vote next month on issuing $50,000 of bonds for water-works

Boston, Mass.—*Bond Sale.*—It is reported that this city has sold $5,000,000 of 3½ per cent bonds of the Metropolitan water loan to E. H Gay & Co. of Boston, at 110·67. This is part of an authorized issue of $27,000,000.

Brockton, Mass.—*Bond Sale.*—A list of the bids received on September 30 for the purchase of $10,000 of 4 per cent registered fire bonds dated October 1, 1895, and payable at the rate of $1,000 yearly, beginning October 1, 1896, and $25,000 of 4 per cent coupon water bonds, dated October 1, 1895, and payable October 1, 1925, is as follows:

	Bid for water bonds.	Bid for fire bonds.
E. H. Rollins & Sons	105·17	101·07
Brewster, Cobb & Estabrook	105·79	----
Blake Bros. & Co.	104·125	100·51
Blodget, Merritt & Co.	105·470	101·070
R. L. Day & Co	105·327	100·556
E. H. Gay & Co.	105·79	101·03

Both loans were awarded to E. H. Gay & Co. Interest on the bonds is payable semi-annually on April 1 and October 1. The water loan is secured by sinking fund.

Brooklyn, N. Y.—*Bond Sale.*—On October 7, 1895, the City of Brooklyn sold $1,052,000 of 3½ per cent gold bonds to Blake Bros. & Co. and Harvey Fisk & Sons jointly at 104·28. The details of the securities are as follows:

LOANS—	When Due.	LOANS—	When Due.
Local Improvement Bonds—		City Hall Improvement—	
3½g, J&J, $100,000	g. Jan. 1, 1914	3½g, J&J. $95,000	g Jan. 1, 1920
Sewers—		Museum of Art and Sciences—	
3½g, J&J, $250,000	g. Jan. 1, 1925	3½g, J&J, $100,000	g Jan 1, 1925
Auxiliary Sewers—		3½g, J&J, 100,000	g Jan. 1, 1926
3½g, J&J, $50,000	g. Jan. 1, 1925	3½g. J&J. 92,000	g Jan. 1, 1927
Wallabout Market—		Water-Works—	
3½g, J&J, $15,000	g. Jan. 1, 1925	3½g, J&J, $250,000	g. Jan. 1, 1925

The bonds are dated October 10, 1895, and are free and exempt from all taxation except for State purposes.

A list of the bids received is given below:

The Emigrant Industrial Savings Bank bid 103·75 for $350,000 of sewer bonds and $250,000 of water bonds.

Blake Bros. & Co. and Harvey Fisk & Sons, jointly, bid for the whole or any part of the issues, offering 102·86 for local improvement bonds, 103 60 for City Hall improvement bonds and 104·18 for all the other securities.

W. I. Quintard bid for the whole or none 103·69. Blake Bros. & Co. and Harvey Fisk & Sons, jointly, bid for the whole or none 104·28.

R. L. Day & Co. bid for $100,000 of local improvement bonds 102·559, for $95,000 of City Hall improvement bonds 102·959, for $100,000 of Museum of Art and Science bonds, due 1926, 103·459 and $92,000, due 1927, 103·489 and 103·429 for all the other securities.

Starrs & Smith bid for $100,000 of local improvement bonds 101·9, for $95,000 of City Hall improvement bonds 101·38, for $100,000 of Museum of Art and Science bonds, due 1926, 102·65 and $92,000, due 1927, 101·38, and 101·58 for all the other securities, or 101·59 for the entire issue.

Buffalo, N. Y.—*Bond Offering.*—Proposals will be received until Oct. 17, 1895, by Erastus C. Knight, City Comptroller, for the purchase of $77,000 of 3½ per cent refunding bonds. The securities will be dated Oct. 1, 1895, interest will be payable semi-annually on April 1 and Oct. 1, and the principal will mature Oct. 1, 1915, both principal and interest to be payable at the office of the Comptroller or at the Gallatin National Bank, New York, as the purchaser may desire. Proposals must state the price per one hundred dollars; also at which place it is desired to have the bonds made payable. They will be ready for delivery Oct. 21, 1895.

The city's bonded debt on May 1, 1895, less bonds held in sinking funds, was $11,782,214 85. Since that date there have been issued $250,000 of 3½ per cent one to twenty year Buffalo school bonds and $350,000 of 3½ per cent 5 year tax loan bonds. The assessed valuation for 1895 is $220,064,300.

Columbus, Wis.—*Bonds Proposed.*—An election will probably be held November 15 on issuing $25,000 of water works bonds.

Denton County, Texas.—*Bond Sale.*—Court house bonds of this county to the amount of $95,000 have recently been sold.

Evanston, Ohio.—*Bond Sale.*—On October 5, 1895, the village of Evanston sold two $500 6 per cent light bonds to the Centreville National Bank of Thurman, O., for $1 042 50. The securities are dated October 1, 1895, interest will be payable semi-annually and the principal will mature in 10 years, both principal and interest to be payable at the Atlas National Bank, Cincinnati, Ohio.

Proposals will be received until October 6, 1895, by William H. Krapp, village clerk, for the purchase of $2 063 65 of Clarion Avenue bonds and $9 536 31 of Trimble Avenue bonds. The securities will be dated Oct. 1, 1895, interest will be payable annually and the principal will mature in equal annual instalments in from one to ten years. Principal and interest will be payable at the Atlas National Bank, Cincinnati, O. lo.

Fairfax, Minn.—*Bond Offering.*—Proposals will be received until October 26, 1895, by Thomas Greer, Village Recorder, for the purchase of $4,500 of 6 per cent water works bonds. The securities will be dated October 26, 1895, interest will be payable annually, and the principal will mature at the rate of $500 each year in 2, 4, 6, 8, 10, 12, 14, 15 and 17 years.

Fargo, N. Dak.—*Bond Election.*—The people of Fargo will vote October 15 on issuing $30,000 of water works and sewer extension bonds.

Florence School District No. 2, Colo.—*Bond Sale.*—Bonds of this district to the amount of $10,500 have recently been sold at 98. The loan bears interest at the rate of 6 per cent and matures in 5 and 15 years.

Galveston, Texas.—*Bonds Authorized.*—Bonds of this city to the amount of $293,000 have been authorized by the Council for the payment of existing floating general indebtedness. The securities will bear interest at the rate of 5 per cent, payable semi-annually, and will mature in 20 years, with an option of call after 10 years, both principal and interest to be payable at the office of the City Treasurer or at the city's fiscal agency, New York. Payment of principal and interest will be secured by sinking fund.

Hamilton County, Ohio.—*Bonds Authorized.*—Bonds to the amount of $48,000 for the renewal of Spring Grove Avenue bridge over Mill Creek near Ivorydale have been ordered issued by the County Commissioners. The securities will be of the denomination of $500 each, dated November 1, 1895, and payable November 1, 1902. Interest at the rate of 4 per cent will be payable semi-annually.

Julesburg, Col.—*Bonds Authorized.*—Reservoir bonds to the amount of $10,000 have been voted.

Kendrick, Idaho.—*Bonds Authorized.*—Water-works bonds of this municipality to the amount of $11,000 have been voted.

Lancaster, Pa.—*Bond Sale*—On October 4, 1895, the city of Lancaster sold $130,000 of 4 per cent judgment bonds to Rudolph Kleybolte & Co., of Cincinnati, for $135,400 and accrued interest. The securities are dated October 1, 1895, interest is payable semi-annually at the City Treasurer's office, and the principal will mature October 1, 1925, with an option of call after October 1, 1915. The loan is exempt from taxation.

The city's bonded debt, including this issue, is $1,134,958; sinking fund, $171,458; net debt, $963,500. The city has no floating debt. The assessed valuation for 1895 is $14,250,000; estimated actual valuation, $25,000,000; city tax rate (per $1,000), $9. The population, according to local figures, is 40,000.

Lancaster, Wis.—*Bond Offering.*—Proposals will be received until Oct. 23 for the purchase of $24,000 of water-works bonds. The securities will be dated Nov. 1, 1895, will bear interest at the rate of 5 per cent, and will become due part yearly from Feb. 1, 1905, to Feb. 1, 1915, both principal and interest to be payable at the Importers' & Traders' National Bank, New York.

La Grande School District, No. 1, Ore.—*Bond Sale.*—On October 1, 1895, this district sold $3,000 of bonds to Messrs. Theiss & Barroll, of Spokane, Wash., at 101 55, the purchaser paying all expenses connected with the issue. Six bids were received for the securities. The loan bears interest at the rate of 6 per cent, payable semi annually, and matures in 20 years, with an option of call after 10 years.

The total debt of the district, including this issue, is $7,000. Its assessed valuation for 1894 was $637,000. The population according to local figures, is about 4,000.

Leominster, Mass.—*Bond Sale.*—On Oct. 7, 1895, the city of Leominster sold $50,000 of 4 per cent 30-year water bonds to Messrs. E. C. Stanwood & Co., of Boston, theirs being the highest of eight bids.

Le Sueur County, Minn.—*Bond Offering.*—Proposals will be received until October 24, 1895, by the Board of County Commissioners for the purchase of $30,000 of 5 per cent Court House bonds. The securities will be dated October 24, 1895, interest will be payable semi-annually on January 1 and July 1, and the principal will mature at the rate of $10,000 each year on January 1, 1901, 1906 and 1911. Principal and interest will be payable at such place as shall be agreed upon between the purchaser and the Board of Commissioners.

Lisbon, N. Dak.—*Bond Election.*—The people of this city will vote October 22 on the proposition to issue $10,000 of water-works bonds.

London, Ohio.—*Bond Offering.*—Proposals will be received until November 8 by John Redden, City Clerk, for the purchase of $15,000 of electric-light bonds.

Malden, Mass.—*Bond and Note Sale.*—It is reported that this city sold on October 5, 1895, $10,000 of coupon water bonds, due January 1, 1915, and $40,000 of coupon notes, $35,000 maturing at the rate of $3,500 yearly from June 1, 1896 to 1905, $3,000 maturing at the rate of $1,000 yearly from June 1, 1896 to 1898, and $2,000 maturing $1,000 each year on July 1, 1896 and 1897. The securities all bear interest at the rate of 4 per cent and were awarded to E. H. Rollins & Sons.

Niagara Falls, N. Y.—*Bond Sale.*—Water bonds of this city to the amount of $48,000 and bridge bonds to the amount of $9,000 have recently been sold to Isaac W. Sherrill, of Poughkeepsie, N. Y.

Middletown, Ohio.—*Bond Election.*—Water-works extension bonds to the amount of $35,000 will be voted on next month.

Montgomery County, Ala.—*Bond Sale.*—Five per cent 40-year bonds of this county to the amount of $50,000 were sold on October 7 to Messrs. C. H. White & Co.

Nevada City, Cal.—*Bond Election.*—A vote will be taken October 28 on issuing $60,000 of sewer bonds.

Norwood, Ohio.—*Bond Sale.*—On September 27, 1895, the village of Norwood sold $10,648 of 6 per cent 1 to 10-year Franklin Street assessment bonds to Seasongood & Mayer at 105 32 and accrued interest.

On October 4, 1895, 5 per cent 20-year general purpose bonds to the amount of $25,000 were awarded to the German National Bank of Cincinnati for $25,090 and accrued interest, the premium and interest amounting to $203. Four other bids were received for this loan, the lowest offering a premium of $75.

Electric-light bonds to the amount of $30,000, bearing interest at the rate of 5 per cent, were also sold on October 4, 1895, to S. Kuhn & Sons of Cincinnati for $30,125. Bidding on this loan was very close. Five bids in all were received, the lowest of which offering a premium of $52. These securities are dated October 1, 1895, interest is payable semi-annually, and the principal will mature at the rate of $1,000 yearly from October 1, 1897, to October 1, 1926.

Paducah, Ky.—*Bonds Proposed.*—A vote will probably be taken November 5 on issuing bonds for water works.

Pottsville, Pa.—*Bonds Authorized.*—The School Board will issue $30,000 of bonds. Interest at the rate of 4 per cent will be payable semi-annually, the bonds to be redeemed at any time after Dec. 1, 1899, at the option of the Board. A special tax of one-half mill will be levied to pay interest and taxes on the loan, the residue to be applied to a sinking fund for the payment of the bonds.

Santa Barbara, Cal.—*Bond Election.*—The citizens of Santa Barbara will vote October 28 on issuing $60,000 of street improvement bonds.

San Luis Obispo, Cal.—*Bonds Authorized.*—Water-works bonds to the amount of $90,000 and sewer bonds to the amount of $34,500 have recently been authorized.

Schenectady, N. Y.—*Note Sale.*—On October 8, 1895, the city of Schenectady sold $36,873 of 4 per cent street improvement notes to the Schenectady Savings Bank at 100.957. Four bids in all were received for the securities as follows:

	Bid.
Schenectady Savings Bank	100·957
Isaac W. Sherrill, Poughkeepsie	100·50
Street, Wykes & Co., New York	100·25
S. A. Kean & Co., Chicago	100·00

Sherman, Tex.—*Bond Sale.*—It is reported that this city has sold $81,000 of 6 per cent refunding railroad bonds to Mason, Lewis & Co.

Sleepy Eye Independent School District No. 24, Minn.—*Bonds Authorized.*—W. W. Smith, Treasurer, reports to the CHRONICLE that $20,000 of school bonds, recently voted, will bear interest at the rate of 5 per cent, payable semi-annually,

and will mature at the rate of $2,000 yearly in 1907, 1908 and 1909, and $14,000 in 1910. They will be issued about October 15 and will be sold about November 1. The assessed valuation of the district is $300,000; actual valuation about $1,000,000.

Sweet Grass County, Montana.—*Bond Offering.*—Bids will be received until December 2, 1895, by George F. Hudson, Clerk of the Board of County Commissioners, for the purchase of $85,000 of 6 per cent 15-20 year bonds.

Syracuse, N. Y.—*Bond Sale.*—On September 23, 1895, the city of Syracuse sold a $120,000 4 per cent registered local improvement serial loan to Messrs. Whann & Schlesinger, of New York, at 101·2. Following is a list of the bids received:

		Bid.

Much of the real estate is assessed above selling price.

NEW LOANS.

$65,000

City of

New Brunswick, N. J., Bonds.

DUE 1920.

Proposals will be received by the Finance Committee and City Treasurer at the office of the City Treasurer, Library Building, George Street, corner of Paterson Street, New Brunswick, N. J., until one o'clock.

Tuesday, October 15th, 1895.

For the purchase in whole or in part of $65,000 of the bonds of the city of New Brunswick, N. J. These bonds will be issued to refund maturing bonds. Interest payable May 1st and November 1st at the Treasurer's office. The bonds will be payable November 1st, 1920, and will bear interest at a rate to be fixed according to the bids, and will be delivered on November 1st, when the price bid must be paid by the successful bidders.

Proposals should be sealed and addressed to the City Treasurer, and marked "Proposals for Bonds," and should state the price and the rate of interest at which the bidder proposes to take the bonds, and must be accompanied by a certified check for 5 per cent of their amount.

It is proposed to issue engraved coupon bonds of $1,000 each. Bonds may be registered.

The bonds are authorized by an act of the Legislature approved February 18th, 1879, and by resolution of Common Council September 27th, 1895, and are free from municipal, county or State tax in New Jersey.

The right to reject any or all bids is reserved.

For further particulars address James Neilson, Treasurer of the City of New Brunswick, N. J.

Last year $100,000 of renewal bonds were offered for sale and bids for a million were received.

The lowest bidders were local investors, including the New Brunswick Savings Institution.

{Seal.} W. S. JOHNSON,
Notary Public, N. Y. Co.

UNITED STATES CIRCUIT COURT, FOR THE Southern District of New York.—Benjamin M. Fowler, J. G. Zachry, Elizabeth Garnett and Henry P. Morgan (the two last named being intervenors), complainants, against The Jarvis-Conklin Mortgage Trust Company, defendant.

Whereas, I have been appointed by order duly made and entered in this cause as Special Master to take proofs of the indebtedness of the defendant, the Jarvis-Conklin Mortgage Trust Company, notice is hereby given pursuant to such order that any and all persons having claims against the said company are invited to appear before me, at my office, No. 20 Nassau Street, in the City of New York, on the 12th, 14th and 16th days of November, 1895, at eleven o'clock in the forenoon, to make proof of their claims.

Where claims are presented by any persons or corporations claiming to act as agents, attorneys or assignees of debenture holders, guaranteed mortgage holders or other creditors, they will be required to exhibit to me or file with me satisfactory evidence in writing of their authority to act in the premises.

Claimants who do not appear either in person or by agent or attorney may submit a statement of their claim in writing, duly verified by affidavit, and containing the name and address of the claimant and a description of the character of his claim. Wherever the nature of the claim admits, the proof of claim must also set forth the amount of principal and interest, separately stated, which was due thereon at the date of the appointment of the receivers, namely, the 28th day of September, 1893. Such proofs may be submitted at any time up to and including the date of the last hearing, namely, the 16th day of November, 1895.

Dated New York, September 28, 1895.
(Signed) CHARLES STEELE,
Special Master.

The United States Life Insurance Co.

IN THE CITY OF NEW YORK.

This old and reliable Company now has the experience of forty-five years of practical Life Insurance, which has taught it that the *sine qua non* of success is the adoption of good plans of insurance, and the pursuit of a liberal policy towards both its Insured and its Agents. These essentials it possesses in an eminent degree, but judiciously tempered by that conservatism which is the best possible safeguard of the policy-holder. Its contracts are incontestable after two years. They are non-forfeiting, providing generally for either paid-up policy or extended insurance, at the option of the policy-holder. It gives ten days of grace in payment of all premiums. Its course during the past forty-five years abundantly demonstrates its absolute security.

Active and successful Agents, wishing to represent this Company, may communicate with the President at the Home Office, 261 Broadway, New York.

POST OFFICE BOX 958. **NEW YORK.**

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, October 19, have been $1,135,639,406, against $1,140,514,380 last week and $940,025,104 the corresponding week of last year.

CLEARINGS. Returns by Telegraph.	Week Ending October 19. 1895.	1894.	Per Cent.
New York	$527,863,416	$408,[illegible],900	+29·1
Boston	87,148,777	69,[illegible],792	+16·9
Philadelphia	71,302,551	53,250,287	+34·0
Baltimore	13,470,708	11,136,762	+21·9
Chicago	92,213,327	76,[illegible],540	+ 8·0
St. Louis	24,114,836	20,170,211	+19·6
New Orleans	12,206,612	7,706,288	+58·4
Seven cities, 5 days	$812,976,403	$[illegible],'91,550	+23·2
Other cities, 5 days	148,704,262	142,861,279	+ 4·5
Total all cities, 5 days	$961,622,665	$791,552,829	+21·5
All cities, 1 day	194,016,741	149,072,275	+30·1
Total all cities for week	$1,155,639,406	$940,625,104	+22·9

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, October 12, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is a decrease in the aggregate exchanges of nearly eighty-five million dollars, and at New York alone the loss is almost fifty-six millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 24·5 per cent. Compared with the week of 1893 the current returns record an excess of 28·2 per cent and the loss from 1892 is 4·1 per cent. Outside of New York the gain over 1894 is 14·8 per cent. The excess over 1893 reaches 23·9 per cent, but making comparison with 1892 the decrease is seen to be 8·5 per cent.

THE FINANCIAL SITUATION.

The prominent feature of the week has been the cotton speculation. It has at length assumed proportions not attained in any previous recent year. So far as a rising market finds its support in the facts which go to make up the situation of the crop the movement is of course healthful and no one could wish to interfere with its progress until the consumption of the raw material had thereby been made to conform to the narrower limits of supply. But though a rising market for cotton was assured this year the speculative view as to supply is, we are convinced, wrong on this occasion in one important particular. It is based upon a crop not to exceed and possibly less than 6½ million bales. We have taken pains this week to inform ourselves with reference to the extent of the yield. The result of this examination appears to be that the out-turn cannot in any event fall below 7 million bales and with fairly favorable future conditions there is reason to believe it will exceed that figure. A crop equalling the last one has not been expected from the start. In the first place the planting, as we showed in our acreage report last June, was smaller by a little over 11½ per cent, while the seed after being put into the ground germinated slowly and poorly. Growth since then has encountered various set-backs through the summer and through the autumn. The previous season, on the contrary, was favored with nearly faultless conditions throughout, and hence that crop was not only good in every State but showed a full yield almost everywhere, the chief exceptions being in sections of the Atlantic States. Altogether then, with these differences in acreage, in early start, and in subsequent development, it is no surprise that the product this year should have declined materially from 9,892,766 bales, the extremely large total of a year ago.

What has made this cotton speculation especially conspicuous is another feature which has grown out of it—an advance in foreign exchange this week of one and-a-half cents per pound sterling. When cotton is moving to Europe so freely as it now is there is no real ground for this advance in exchange. Of course the shipment of cotton is not quite as large as it was last year, but comparing the probable surplus for export of the two years it is larger, and comparing values it is quite as large, prices being over 3 cents a pound higher. For instance our telegrams reported last Saturday 185 thousand bales on shipboard not cleared (valued at 8½ million dollars on the basis of middling uplands at New York on that day), against 261 thousand bales same day last year valued at 8 million dollars. To-day (see our cotton report) we report 202 thousand bales on shipboard and 346 thousand bales same date a year ago, valued on the basis of prices of middling uplands at the two dates at 9½ million dollars October 18 1895, against 10½ million dollars October 19 1894. If we were to take the figures of actual clearances, that is actual exports, for each of the weeks referred to, they would show the same relative conditions—clearly indicating that there is no reason at all on the surface of affairs for the rise in exchange.

Our inquiries in the foreign exchange market likewise disclose unnatural conditions. The facts set out above with reference to cotton obviously indicate an abundance of bills to meet all wants, while the general report has been a dearth of bills. A most surprising circumstance, however is that we find, in spite of this general report, that the market was bare of bills, that offerings have been made to certain bankers this week of bills to the amount of over £2,000,000 sterling, deliverable up to November 15. These facts and the heavy selling movement in cotton reported Thursday in Liverpool on American account give the appearance that we are nearing the end of the speculation—that the accumulating cotton to be carried is getting to be too heavy a load for those who are engineering the movement. Thus it happens to all syndicates or combinations who try to corner commodities. The experiences in wheat, in cotton, in silver, fill many pages of history, but the records differ only in names and dates. As soon as the article begins to accumulate the power to advance price is lost, and soon thereafter the break follows. Such occurrences are every way unfortunate. They never benefit, but are always hurtful to values; they disorganize every industrial market directly or indirectly dependent upon the commodity affected, and they injure the numerous innocent parties who become involved.

Secretary Carlisle delivered another one of his capital speeches on financial questions last Saturday, on the occasion of the dinner tendered in his honor in Boston by the Massachusetts Reform Club. It is largely owing to his efforts that the free-silver craze is subsiding, and that public opinion has been educated up to the point where (as evidenced by the discussions at the Bankers' Convention this week) a very strong sentiment has been created in favor of the retirement of the Government note issues. In the meantime there is no check to the revival in trade, which has been such a feature of the situation in recent months; if prices in the iron and steel industries have receded in some instances from the extraordinarily high level to which they had been carried, that is all the more reason for feeling confidence in the outlook. At the same time the phenomenal grain crops which we have harvested the present year give assurance that the circle of business activity will continue to widen and expand.

We have an excellent illustration of the advantages that will accrue to some of our railroads from these large crops and the recovery in business in the return of the Chicago Milwaukee & St. Paul for the second week of October, showing gross earnings the present year in that week of $836,407, against only $637,289 in the same week of last year, an increase of almost one-third; this year's total is but 3 per cent less than that for 1893, when the passenger travel to the World's Fair was adding so largely to the revenues of the road. It is also an encouraging feature that the railroads in the West have this week settled up their differences, and that an agreement has been reached to restore rates. We stated last week that the war was too intense to last long, and this view has proved correct. We notice, too, that in the South the new Southern States Freight Association has been definitely organized, and that the prospect for the maintenance of rates in that section is considered better than for many years past.

Last week's bank statement showed further liquidation of $3,596,200 loans, making $16,292,900 since September 14, while the cash was reduced $3,946,700 and the surplus reserve was carried to $14,176,900 against $13,413,450 March 30, which was the lowest of the year. The statement was most likely made on rising averages. At least as the figures stand we can find no evidence in them of the Government interest payments due October 1st. The flow of money to the

interior has again become freer the latter part of the week. This appears at least to be true of the movement through the Sub-Treasury, the shipments having been largest after the middle of the week. It is presumable therefore that the week's statement will be made on declining averages.

Money on call has this week loaned at 2 and at 2½ per cent, averaging less than 2½, the bulk of the business having been done at 2 per cent. The offerings have been principally by trust companies and foreign bankers, who are not disposed to accept less than 2 per cent, and as banks are not competing to any extent, lenders have little difficulty in getting fair rates. Banks and trust companies quote 2 per cent as the minimum. Brokers report that very little is doing in time loans. Those of the banks that are in the market do not care to make engagements beyond four months, and the offerings are not liberal from any quarter for longer dates. Quotations are 2½ per cent for thirty days, 3 per cent for sixty to ninety days, 3½ @4 per cent for four and 4@4½ per cent for five to eight months on good marketable collateral. There is a good assortment of commercial paper offering, and at the same time a good demand, but rates do not change and they remain at 4½@5 per cent for sixty to ninety day endorsed bills receivable, 5@5½ per cent for four months' commission house and prime four months' single names, 5½@6 per cent for prime six months and 6@7 per cent for good four to six months' single names.

The European financial situation has assumed a more settled aspect. On Thursday the news was reported by cable that the Porte had acceded to the demands of the Powers for reforms in Armenia. The semi-monthly settlement on the London Stock Exchange passed off without disturbance, though it is said that Mr. Barnato loaned large sums to assist in adjustments on Kaffir stocks. On Tuesday the settlement in Paris is reported to have resulted in a semi panic in mining shares, which was reflected in London, but discounts were not affected, indicating that special rates are demanded for loans upon mining securities. One feature of the week was an advance on Tuesday in the open market discount rate in Germany to 3 per cent, supposed to be due to local settlements; later in the week there was a reaction to 2½ per cent. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London 11-16 of 1 per cent. The open market rate at Paris is 1½ per cent, at Berlin it is 2½ per cent and at Frankfort it is 2½ per cent. According to our special cable from London the Bank of England lost £569,416 bullion during the week and held at the close of the week £41,157,225. Our correspondent further advises us that the loss was due to the export of £590,000 (of which £400,000 were to the Cape, £150,000 were to Eygpt and £40,000 were to Roumania), to shipments of £144,000 to the interior of Great Britain, and to an import of £165,000, of which £108,000 were bought in the open market, £50,000 were from Australia and £7,000 from Egypt.

The foreign exchange market has been strong this week in consequence of a scarcity of bills, but the demand did not appear to be urgent until Wednesday, when one of the large coffee importers bought freely, causing an important advance in rates. On Tuesday of last week three of the leading drawers of exchange quoted 4 87 for sixty day and 4 88 for sight, while five posted 4 87½ for the former and 4 88½ for the latter; then rates for actual business in sterling were 4 86½@4 86½ for long, 4 87¼@4 87½ for short and 4 87½@4 87¾ for cable transfers, and the tone was quoted weak. These rates were only one-quarter of a cent higher than those ruling early in May, which were the lowest of the year, the decline at that time being brought about by the offering of bills drawn against securities placed in Europe, at which time it is understood that the Syndicate and other bankers covered bills previously sold at high prices at various times after the beginning of operations under the bond contract. Subsequently, as is well known, the market advanced, and in July and August nominal rates ruled at 4 90 for long and 4 91 for short, the highest on record, and those for actual business in sterling were as high as 4 89 @4 89½ for long, 4 90@4 90½ for short and 4 90½ @4 90½ for cable transfers. While the market was moving upward bankers drew against their credits for their legitimate needs, expecting that they would be able to cover these bills with commercial drafts against cotton when that staple began to be marketed. But the movement began late, and it was not until August 21 that the market grew easier. The decline in the market was very gradual for nearly a month, and it was occasionally arrested by an increase in the demand, which absorbed offerings of bills. The change came on September 19, when the market began to grow distinctly easier, being positively weak at the end of the month. On October 3 Brown Bros. posted 4 87 for long and 4 88 for short. It is fair to assume, and indeed it is reported, that during this downward movement from August 21 bankers who had sold bills at high prices during June and July and early in August covered them with cotton and grain futures, and they could well afford to pay abnormally high figures for them because of the high prices which they received for their bills. This may, and probably will, account for the statements that commercial bills were scarce, and that those offered were held at too high figures to make them available for the drawing of bankers' bills against them. When cotton began to move with some degree of freedom speculators manipulated the market and checked the supply of spot bills. It is a noticeable fact that for the past fortnight the quotations in our exchange market have been for spot or near bills and that for the most of the time there have been few or no offerings of November or December cotton drafts. This would indicate an unwillingness to offer other than October bills.

The market this week opened dull and steady on Monday and rates for actual business were unchanged compared with Friday at 4 86¾@4 87 for long, 4 87¼@4 87¼ for short and 4 88@4 88¼ for cable transfers. Commercial bills were reported in moderate supply and the demand was light. On Tuesday there was a firmer tone, with a good inquiry, which disclosed the absence of bills, and Brown Bros. and Lazard Freres advanced posted rates half a cent, while rates for actual business rose one quarter of a cent. On Wednesday the market opened dull and firm, and Brown Bros., the Bank of British North America, Heidelbach, Ickelheimer & Co., Lazard Freres and the Merchants' Bank of Canada advanced their posted rates half a cent, while rates for actual business rose one-quarter of a cent, and in the afternoon there was a further advance of one quarter of a cent, and then it was reported that a large coffee house had

been buying freely. On Thursday Brown Brothers, the Bank of British North America, the Bank of Montreal, the Canadian Bank of Commerce, Heidelbach, Ickelheimer & Co. and the Merchants' Bank of Canada advanced their posted rates half a cent, while Baring, Magoun & Co. moved their rates up one cent. Rates for actual business were advanced one quarter of a cent to 4 87½@4 87¾ for long, 4 88½@4 88¾ for short and 4 89@4 89½ for cable transfers, and some bankers reported 4 87¾@4 88 for long. This made an advance of two cents for sixty day and one cent for sight and cable transfers since Monday morning. The market was reported dull and steady at the close on Thursday. Yesterday the tone was easier and Brown Brothers reduced their posted rates half a cent, while rates for actual business were reduced one-quarter of a cent. The following table shows the daily posted rates for exchange by leading drawers.

		Fri., Oct. 11.	Mon., Oct. 14.	Tues., Oct. 15.	Wed., Oct. 16.	Thurs., Oct. 17.	Fri., Oct. 18.
Brown Bros.	60 days	87	87	87⅛	87⅛-⅜	88-⅛	88⅛-⅜

	Sight	88⅛	88⅛	89	89⅛	89⅛	89⅛
Merchants' Bk. of Canada	60 days	87⅛	87⅛	87⅛	88	88⅛	88⅛
	Sight	88⅛	88⅛	88⅛	89	89⅛	89⅛

The market closed firm on Friday at 4 88@4 88½ for sixty day and 4 89@4 89½ for sight. Rates for actual business were 4 87½@4 87¾ for long, 4 88¼@4 88½ for short and 4 88¾@4 89 for cable transfers. Prime commercial bills were 4 87@4 87¼ and documentary 4 86½@4 86¾. Muller, Schall & Co. yesterday engaged $400,000 gold for shipment to Buenos Ayres. The Bureau of Statistics at Washington has this week issued the return of the country's foreign trade for September, and we give the figures below in our usual form.

FOREIGN TRADE MOVEMENT OF THE UNITED STATES.

In the following tables three ciphers (000) are in all cases omitted.

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending Oct. 18, 1895.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	2,241,000	$4,383,000	Loss. $2,142,000
Gold	408,000	562,000	Loss. 154,000
Total gold and legal tenders	$2,649,000	$4,945,000	Loss. $2,296,000

With the Sub-Treasury operations the result is as follows.

Week Ending Oct. 18, 1895.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	$2,649,000	$4,945,000	Loss. $2,296,000
Sub-Treasury operations	16,800,000	14,800,000	Gain. 2,000,000
Total gold and legal tenders	$19,449,000	$19,745,000	Loss. 296,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

THE CONVENTION OF THE AMERICAN BANKERS' ASSOCIATION.

The American Bankers' Association is a progressive as well as a very useful body, and it is not surprising therefore that at its annual convention at Atlanta this week the topics which engaged its attention and the papers read before it were nearly all such as possess much immediate public interest. Nor is it surprising either that among these topics there was one which overshadowed all the rest, namely that concerning our currency system, its weakness and its inefficiency, and the difficulties under which the Treasury labors through its operation. This was the subject of a great many papers, and while the views as to the best way of treating the situation naturally differ, the subject easily held first place. And well it might, for there is no other that so vitally affects the welfare and prosperity of all industrial interests and all classes of our population.

The present was the twenty-first annual meeting—a fact which led to some review of the work of the association by several of the speakers. Mr. John J. P. Odell, the President, in his annual address, gave an interesting account of what the association has accomplished thus far in its career, and at the same time made some excellent suggestions for extending its usefulness by giving State organizations representation in the national body. Mr. William H. Rhawn, the President of the National Bank of the Republic of Philadelphia, in introducing Mr. James T. Howenstein, "the founder of the association," also had something to say regarding its work and alluded to the influence which it has had in stimulating the growth of State Bankers' associations. Mr. Howenstein, who derives his designation of "founder from the active part played by him in organizing the first convention at Saratoga Springs in 1875, devoted himself entirely to this subject, and indeed the theme of his discourse was "the Founding of the American Bankers Association." His address abounded in historical reminiscences.

A year ago the Association, in its convention at Baltimore, took noteworthy action in favor of a new bank-note system, giving its approval to the scheme which has since become known everywhere as the Baltimore plan. This year no formal action was had on the subject. But the sentiment controlling the delegates, and their conviction that a change in the system is imperatively required, may be observed all through the various addresses. While there are quite wide differences of opinion as to what the substitute shall be, practically all the members are agreed on this one point, that the Government note issues should be retired. Mr. Odell sounded the keynote of the prevailing spirit when, in his opening address, he spoke of "the present makeshift and pernicious system of Governmental note issues" and declared that "with a scientific monetary system based upon a standard which has received the endorsement of the most civilized nations, we may feel assured that the intelligent and energetic people of the United States will develop and utilize to an extent beyond the dreams of the wildest visionary the marvelous resources which Nature has with such generosity bestowed upon us."

Ex-Governor William R. Merriam, President of the Merchants' National Bank of St. Paul, delivered an excellent and a very able address, his subject being "The Currency of the Twentieth Century." He pointed out that we have utilized a *credit* currency—checks, drafts, &c.—to an enormous extent, and that credit money performs the functions of real money to a greater degree than ever before in the history of the world. On the other hand the people of the United States have not up to this time been able to put into execution any satisfactory plan for furnishing the nation with a paper currency at all adeqate to the commercial situation as we find it at the threshold of the Twentieth Century. "Wonderful in commercial achievements, unprecedented in the world's history, in the highest stages of civilization, with all the concomitants of a rich and powerful people, enjoying the highest blessings ever vouchsafed to a prosperous nation, we stand confessed to-day," he says, in the presence of every commercial competitor as having a monetary system inadequate to the demands of commerce, as well as one fraught with the greatest dangers to the welfare of every citizen of our country. "With as many kinds of money as there were colors in Joseph's coat, this country of enormous resources and of unlimited opportunities is without any well-defined financial scheme suitable to conduct its business and maintain its credit."

Mr. Merriam well says that a currency based upon securities or land can never respond to the demands of commerce. The national bank notes constitute a rigid currency without any of the real functions incident to a paper money, to be put to work when needed and retired when no longer required; in addition a paper currency issued upon securities may under some circumstances result in financial chaos. He thinks it may be assumed that in the future we are to have some kind of a paper currency based upon the credit of the institution emitting it. He shares the prejudice of so many others against State bank note issues, but he would utilize the suggestions of Secretary Carlisle and Comptroller Eckels as far as applicable. In other words, he believes in a plan that will practically absorb the "greenback,' and provide as well for a bank circulation based upon credit. He would require the banks to invest 40 per cent of their capital in United States notes and issue circulation against the same, the bills remaining in the hands of the Treasurer, and deliver currency to the banks for the remaining 60 per cent, to be issued by them when desired. He would also have the banks pay a tax of 2 per cent upon the average amount of their circulation, and thinks this would secure elasticity in the note issues. His theory is that whenever the demand for money was sufficiently active to enable banks to lend their funds at prices that would net over 2 per cent, there would be an incentive to put out the currency, while on the other hand when money was worth less that that amount the effect would be to keep the unsigned bills in the bank vaults.

It is not necessary to enter upon a discussion of Mr. Merriam's scheme. Nor have we space on this occasion to pass judgment upon the proposals of any of the other

speakers. Mr. John F. Burt of Boston has elaborated his proposal made last spring under the title of "Credit Currency and Credit Redemption on a Gold Basis." This is a plan of a totally different kind from that of Mr. Merriam. Mr. Burt would provide a currency to take the place of all the present issues of paper money, amounting to about one billion dollars. He thinks in some form the new device should have the guaranty of the Government, but the redemption of it should be thrown entirely upon the banks. His proposition contemplates the issue by the United States of so called credit notes, payable in credit at any national bank. He would allow a bank to receive on application a deposit of such credit notes to the extent of 25 per cent of its assets, this percentage to be increased on application of clearing-house committees in the central reserve cities, but subject to the approval of the Comptroller of the Currency; the deposit to be credited to account of United States credit notes, and said notes to be redeemed by United States check against said account; the checks to be paid through the clearing-house, and clearing-house settlements to be made, as at present, in gold; the credit note to be a first lien on all the assets of the bank, including double liability of stockholders; and interest to be allowed on the credit note account at a rate not less than 1 per cent, "and equal to the highest rate paid on any account." We do not think Mr. Burt's plan will find much favor, but every one will agree with him when he says: "Gold credit will purchase any and everything, anywhere and everywhere. Even the deluded devotees of silver with gold credit can fill their houses from cellar to roof with silver, and that is the place for it, and not in Government vaults."

Various other plans were submitted, not all of which we have space to outline. One of these was by Mr. William Hackett, the Cashier of the Easton National Bank of Easton, Pa. This plan provides for the issue of 700 million dollars of United States bonds, to bear 2 per cent interest (and he thinks the rate might be reduced to 1 or 1½ per cent), and to be used only for deposit as security for the circulating notes of banks. The distinctive features of the plan are that it makes the organization of the banks into clearing-house associations compulsory, and that it permits these clearing houses to issue clearing-house certificates to the extent of 75 per cent of the assets of their members, said certificates to bear 6 per cent interest; and furthermore that it provides that in times of emergency each bank can have permission from the Comptroller of the Currency, after he has satisfied himself as to its solvency, "to demand reasonable time in payment of all claims upon it."

These schemes show how wide is the divergence of views even among those supposedly most competent to advise as to the treatment to be pursued to cure our ills. Mr. Edward Atkinson made some suggestions for withdrawing the Government note issues, and in his address, strangely enough, he is led to remark: "It is time, in my judgment, for some to say, plainly, the national banks have not been free from blame in these troubled times. They now have the opportunity to justify their title of national, and if they fail to meet it they should be deprived of that title. It is time that this ample reserve of gold should be so used as to sustain the Treasury. In fact, the withholding of this gold by banks is a potent cause of the distrust of the ability of the Treasury to maintain gold payments.' There is nothing new in these statements. They have been answered time and again. But that they should be sanctioned by Mr. Atkinson is surprising. Nevertheless, at the conclusion of his address the Convention acted on his suggestion, and adopted a resolution offered by Mr. Rhawn providing for the appointment of a committee to "confer with the Secretary of the Treasury with reference to the co-operation of the banks in maintaining the national credit."

Mr. Rhawn, who, as already stated, is President of the Bank of the Republic of Philadelphia, read a suggestive paper on the utilization of money reserves through bank clearing houses in relieving monetary stringencies and preventing panics. After showing what a beneficent agency clearing-house certificates have proved in times of crises, and particularly during the panic of 1893, Mr. Rhawn notes that it is a defect of the national-banking law that it does not provide for these certificates. Such legalization, he thinks, to be most effective should be accompanied by the authorization of their use by the banks holding them as a part of their lawful money reserves, say to the extent of one-half or two-thirds of such reserves; this would release a corresponding amount of currency that could be immediately paid out with the effect of at once relieving the stringency and preventing it from running into a panic; when the emergency had passed, the certificates, having performed their function, would be rapidly retired. He also throws out the suggestion, which has previously been advanced in other quarters, that in this idea there may be found the basis for a national currency based upon the pledged assets of the associated banks "that would be as secure as the clearing-house loan certificates, with all their elasticity, and that would supplement or take the place of the present bank currency secured by Government bonds as such bonds gradually cease to be available for the purpose."

An address which deservedly attracted attention by reason of the forcible style of its author was that of the Hon. George N. Aldredge of Dallas, Texas. The speech was devoted to showing the advantages of the single gold standard and was a strong argument against the free and unlimited coinage of silver. Speaking of the decline in the interest rates which has occurred since 1872, Mr. Aldredge averred that the South and West have saved more on this decline of interest than they have lost on the decline in wheat and cotton. "Interest is always low under an honest standard, among an honest people, where money is plentiful. It is lower in London than in any other spot on the globe because her standard is stable and her commercial integrity has been the care of her statesmen and her people for ages past.' He also makes a strong point when he says the poor man is not in debt; he never had a chance to get in debt. "The corporations, speculators and plungers generally constitute the debtor class. Every wage-earner belongs to the creditor class. No one would be benefitted by 16 to 1 coinage except the debtor class. Even the mine-owner would not, for the temporary stimulus given to silver would increase its production until the price would fall below what it is now. On the other hand, all would suffer."

Altogether we may say that this annual session of the American Bankers' Association has been a notable one. It shows that the leading men in business circles all over the country are alive to the importance of our currency problem and through discussion are contributing to its early solution.

THE UNION PACIFIC REORGANIZATION PLAN.

An important event of the week has been the promulgation of a plan for the reorganization of the Union Pacific Railway Company. The plan strikes us as being a very clever contrivance and as containing within it the elements that are likely to ensure its success. It deals only with the mortgage liens of the main line (comprising the Union and Kansas divisions), but these are the equities in the property that have chiefly to be reckoned with, aside from the lien of the United States Government. The auxiliary properties are not comprehended in the scheme. As the plan states, independent reorganizations of many of these properties are pending.

We do not understand that it is the intention to cast off the auxiliary properties entirely. With many of them doubtless separate arrangements can be made. It is evidently felt that the essential point is to provide for the reorganization of the main or trunk lines; that with this done the new company will be in position to enter upon negotiations with such of the branch and auxiliary properties as it may be desired to retain. Any scheme which went further than this, and attempted to embrace all the various lines in the system, would stand little chance of success, because of the impossibility of making such a scheme satisfactory to all the numerous, diverse and conflicting interests; and the opposition of only a few of such interests would be certain to jeopardize its success. Besides, there is force in the remark of the Reorganization Committee that "geographical conditions and considerations of mutual advantage point to a continued operation of such of these auxiliary properties as have had a demonstrated value, in harmony with that of the reorganized company; and relief from the burden of these guaranties will, it is believed, be an advantage obtained without detriment to the earning capacity of the property."

In considering the plan, one is impressed first of all with the fact that the committee proposing it is an unusually strong one, it comprising the names of Louis Fitzgerald, Jacob H. Schiff, Marvin Hughitt, Chauncey M. Depew, T. Jefferson Coolidge, Jr., and Oliver Ames, the 2d. Whether or not the composition of this committee is such as to suggest a Vanderbilt interest is not of so much importance as that these men should be willing to lend the weight of their influence and prestige in support of the undertaking—admittedly a very difficult one. Then also the terms offered the bondholders are such as would be likely to secure their support. These holders are to get new first mortgage 50 year gold bonds for the full 100 per cent of the amount of their present holdings in all cases except the Kansas Pacific consols and a few other and very trifling liens on the Kansas division; and in addition to these new bonds they get a bonus in new preferred stock amounting in all but one instance to 50 per cent. The Kansas Pacific consols are to receive 80 per cent in new bonds and 50 per cent in new preferred stock, besides a further amount of preferred stock for the accumulations of interest. As an additional inducement, a syndicate for 10 million dollars has been formed to pay to the holders in the case of all the first mortgage bonds cash for the coupons now in default on such issues and also for the coupons (as they fall due) maturing up to the time when the new bonds shall begin to bear interest, namely the 1st of January 1897. The stock of the Union Pacific is to pay an assessment of $15 per share, and the proceeds will go to meet the cash requirements of the plan.

Of course a very important consideration is as to how it is proposed to deal with the claims of the United States Government. Here, too, it seems to us, the plan is strong. We are not told what terms of settlement it is intended to offer to the Government. We can only surmise their probable nature from certain statements in the plan. The new 1st mortgage is to be for $100,000,000 and the amount of the preferred stock is to be $75,000,000. The exchanges called for under the plan will require $51,244,720 of the new bonds and $47,135,600 of the new preferred stock; in addition it is provided that $13,000,000 of bonds and $7,000,000 of preferred stock shall be set aside "to dispose of equipment obligations and for reorganization and corporate uses." There then remains a balance of $35,755,280 of bonds and $20,864,400 of stock and this is specifically reserved "for settlement of the debt to the United States and for extraordinary requirements."

The sum owing to the Government is $33,539,513 for principal of the debt and $19,500,000 for accumulations of interest, after allowing for the value of the sinking fund. It will be observed that these amounts correspond quite closely with the reserve of bonds and stock, and from this we draw the inference that it is the intention of the committee to offer the Government the new first mortgage bonds (precisely the same bonds as the Union Pacific first mortgage bondholders are to receive) for the principal of the debt and to make some allowance for the accumulations of interest in new preferred stock. We have no authority for this supposition and nothing to support it beyond the facts mentioned, but if it is the purpose to offer a settlement on that basis, Congress had better by all means accept the proposal. The terms are exceedingly liberal.

What view Congress will take of the matter it is of course impossible to say. Our legislators have been strangely neglectful of the interests of the country in this affair thus far. Several schemes for the adjustment of the debt have been offered in recent years, and been rejected by Congress, and that body may persist in its policy of obstinacy and hostility. At the same time it should be borne in mind that the present committee will be in position to appeal to Congress more effectively than any previous party. It will represent, not the stockholders, nor any other junior interests, but the first mortgage bondholders, those who hold the lien which stands ahead of that of the United States, and who thus possess the power to enforce their claim by foreclosure. The Reorganization Committee say that they are advised by eminent counsel that this first lien can be effectively foreclosed. Supposing it should be foreclosed the Government would either have to sacrifice its entire interest of 53 million dollars in the property or it would have to pay off the 54 millions of prior liens. We do not believe the people would sanction either one of these two steps. As for the value of the new bonds, the plan shows that the requirements for interest on the new mortgage bond (4 per cent on 100 million dollars) would be $4,000,000, whereas even in 1894 the net earnings available for the purpose were $4,315,077, while on the other hand the average of the net earnings for the last ten years has been $7,563,669, which latter sum would be sufficient to pay not only the new bond interest but also 4 per cent on the new preferred stock. It

will thus be observed that there is an ample margin against any possible loss in earnings that might result from the separation of any of the auxiliary properties.

THE FRENCH IN MADAGASCAR.

The struggle which has lasted so long in Madagascar, and which for some time threatened to prove disastrous to France, has at last been brought to a close, and the French protectorate may be regarded as established on sure foundations. The struggle was much more protracted than the French people thought it ought to be, and considerable impatience found expression through the press and in the Legislative Chamber towards the close of last session. It may be regarded as a moral certainty that the protectorate will result in annexation. France does not show more willingness to abandon her hold on territory which comes within her grip than any of the other Powers. Tunis was placed under her authority temporarily under the name of a regency, but Tunis has no longer a shadow of independence. It has become a French possession. In the case of Madagascar the French Government have made no promises—have come under no obligations—to vacate the territory at any given time or under any specified conditions.

It is not unfair, therefore, to look upon this latest conquest by the French Republic as resulting in a fresh and permanent acquisition of territory. And after making liberal allowance for certain inconveniences, resulting largely from the climate, a most valuable acquisition it is. Allowing continental honors to Australia, Madagascar is the second largest island in the world, being nearly one thousand miles in length and eight hundred and fifty miles wide at its broadest part, with an area of two hundred and thirty thousand square miles, or nearly four times the size of England and Wales. The island has many natural sources of wealth. Lying off the southeast coast of Africa, in latitudes 11 deg. to 25 deg., it has all the advantages of tropical heat. Under proper management, the soil, naturally productive, ought to yield ample returns for labor and care. Rice, sugar, cocoa-nuts, bananas, indigo, sweet potatoes, pepper, silk, cotton and other products are grown even now. Botany, geology and biology in all its shades and forms will have in Madagascar fruitful fields of labor. Iron and coal have both been found, and gold, silver, copper and lead have given traces of their existence. What intelligent surveying would reveal we can only guess at.

It is long since France set her heart on Madagascar. Henry IV., the famous Henry of Navarre, had his attention directed to the island, the discovery of which is said to be due to Marco Polo, and considered it to be valuable territory. In 1642 Louis XIII. had the courage to declare it French territory. Attempts were made to establish colonies; but every effort failed, and French influence gradually died out on the island. Somewhat later Great Britain was successful in establishing commercial relations with the government of Madagascar; but in the case of the British as well as of the French, the climate made life unpleasant, and British influence also declined. In spite of hard experience and actual failure, the French hankered after Madagascar; and in 1885, after a war which ended in a sort of compromise, Madagascar, with the full consent of Great Britain, was declared a French Protectorate. The war just ended was a species of protest by the Malagasy against French domination. The question, however, is now apparently settled.

Politically the acquisition of the island is a gain to France. In view of present complications it gives her some vantage ground in the Indian Ocean. In the event of war, Russia and France remaining on terms of friendship it would give these two powers an immense leverage as against the Triple Alliance, and especially as against Great Britain. In any war in which France or Russia, or both, should be opposed to Great Britain, the Suez Canal would be in danger. There are many who think the Suez Canal would be useless. In such a case the care of Great Britain would be directed more to India than to her native shores. If Italy and France should go to war, or if Russia and Japan should go to war, and India were threatened, the highway to India would be around the Cape of Good Hope. Madagascar in French hands would furnish splendid harborage for both French and Russian ships; and the experiment made by Lord Beaconsfield when he brought battalions of Sepoys to Malta might be found impossible. What would be even worse, it might be found extremely difficult to send British troops to India. Of course England can do wonders at sea. But spite of her immense resources there is some reason to fear that the balance of power is affected more or less seriously by the French acquisition of Madagascar. Among the many possibilities there is the possibility that the Dutch settlers in Southeastern Africa, in the event of difficulty with the Cape Government, might court French interference.

England and America have both interests in Madagascar through the Christian missions, and they will both be watchful enough to see that the missionaries are respected and the mission property protected. In the central parts the Malagasy are well advanced. Schools and colleges and churches abound. France will not suffer by respecting the missions.

RIO GRANDE WESTERN REPORT.

Like the Denver & Rio Grande, the Rio Grande Western has during the last two years suffered not only from the general prostration of business interests all over the country, but it has in addition had to contend with special depression in the silver-mining industry arising out of the decline in the price of the metal, the stoppage of silver purchases by the United States Government and the closing of the mints of India to free coinage. The silver-mining industry is a very important one in the part of the country from which the Rio Grande Western obtains its traffic, and it was feared that the effect of the blow which that industry had received would be very serious upon the fortunes of the property. The road did sustain important losses of revenue as the result, and it has not been able to earn the usual dividends on its preferred stock during the two years. Nevertheless its record for this period of great trial is a very creditable one, and, as in the case of the Denver & Rio Grande, the experience through which it has passed has been useful in proving the strength of the property.

The annual report of the company for the year ending June 30 has been issued this week, and it shows that in that year of unfavorable conditions the company was able to earn all its fixed charges and carry forward a surplus of $40,261. This result is the more noteworthy since, though earnings were better than in the year preceding, the recovery was comparatively

small. In the gross the addition was only $88,372, or 4·21 per cent; in the net but $19,142, or 2 64 per cent. The total of the gross now is only $2,189,691, while in 1891-92 it was $2,643,924 and the net at $743,448 compares with $975,589 in that year. The Debs strike in July last year on the connecting lines east and west reduced earnings to the extent of about $64,000, and it is estimated that the whole of this was a loss in net, as all the general expenses and those of maintenance, as well as many of the expenses pertaining to transportation, had to be kept up; what little saving there was was offset by the extra outlays entailed by the strike. With $64,000 more net earnings the surplus for the year, instead of being $40,261, would have been over $100,000.

It is also to be observed that the company had to contend with a further decline in its freight rates. The average per ton per mile for the late year was 1·383 cents, against 1·405 cents in the year preceding. The decline is not very large—only about 1½ per cent—and is ascribed mainly to the carriage of a larger proportionate quantity of trans-Continental and other low-priced freight. But the important fact is that this decline in 1895 came after large declines in the previous years, and that in the aggregate there has been a very great shrinkage in the average rate during the last three or four years. Thus as against 1·383 cents for 1894-5 the average in 1892-3 was 1·69 cents, in 1891-2 1·71 cents and in 1890-91 1·95 cents. In the passenger business the average per passenger per mile had been very low in the previous year (only 1·72 cents) by reason of the large number of through passengers moved, presumably in connection with the World's Fair, so a recovery in the late year under a diminution in the volume of such through traffic naturally followed; the average for the year was 2·04 cents. In 1890-91 the average was 2·20 cents per passenger per mile. Passenger earnings in the late year fell off as much as $78,945, or over 15 per cent. But this follows entirely from the decrease in through travel; in the earnings from local passenger business there was a considerable increase.

The freight traffic of the company shows gratifying growth. In fact, notwithstanding the depression the road had the largest tonnage in its history. The amount was 678,539 tons, which is 43,000 tons in excess of the total for the previous year and 11,000 tons in excess of the highest previous total. This gain in the aggregate is made in the face of the fact that in the case of some of the leading items of freight the 1895 movement was much below the best previous figures. The ore traffic, for instance, reached only 84,065 tons, against 106,435 tons in 1894 and 128,550 tons in 1893. The falling off here of course is due to the depression in silver-mining. It was supposed, though, that with the depression in that industry there would come also a large falling off in the traffic in coal, coke, &c., the company's most important sources of revenue. As a matter of fact, if we take the tonnage in coal, coke, charcoal, ore and bullion combined, the loss from 1893 is found to be less than in the case of ore by itself. In other words, in 1895 the road had an aggregate in these items of 390,298 tons, against 377,098 tons in 1894 and 417,957 tons in 1893. The loss from 1893 is only 27,659 tons, and as showing one of the ways in which this loss was overcome we may say that the tonnage in fruits and vegetables in the same two years increased from 24,284 tons to 67,921 tons. There has also been a decided increase in the tonnage in sugar from the beet sugar works at Lehi.

President Palmer notes that the local business of the road (freight and passenger combined) reached the level of 1892, even surpassing it in tonnage, and both as regards earnings and tonnage exceeded the results of any year save the one immediately preceding the panic, and that it came within 7 per cent of even that maximum, and yielded over 48 per cent of the total earnings—the largest proportion since the gauge was widened. It is chiefly traffic originating or terminating outside of the company's line, he says, that still lags behind. He also points out that when the conditions which hamper that traffic and the general internal commerce of the country are recovered from, the company may hope for much larger profits, "remembering that the normal condition of all the Far West is one of rapid growth, and that it is our [the road's] especial business to supply and furnish a market for a vast section which includes what are now the most growing parts of the United States."

The charge to capital account during the year amounted to only $54,587. No bonds or stocks were issued, and the reserve also remains unchanged. This reserve consists of $800,000 of the company's own first mortgage bonds, $1,951,000 of the 1st mortgage bonds of other companies, and $1,000,000 of Western Express Company stock on which dividends are assured. The company also holds 1¼ million dollars of its preferred stock unissued in its treasury. There is no floating debt, and the ordinary current liabilities amount to only $690,956. The current assets, not including any of the securities enumerated above, nor counting $285,366 of materials and supplies on hand, aggregate $441,151. Thus the company's financial position is exceptionally strong, and General Palmer's summing up would appear to be justified, when he remarks: "It may be said in conclusion that the property is in excellent physical condition, better in fact than ever before, notwithstanding the stress of the past two years, which has strewn the wrecks of great enterprises on all sides of it. It has earned during that period about $40,000 more than its fixed charges, kept every engagement and come through without any floating debt, and with a Treasury reserve in which is included over $2,750,000 first mortgage bonds and $1,000,000 in dividend-paying stock."

RAILROAD NET EARNINGS FOR AUGUST.

Our compilation of railroad gross and net earnings for August records moderate improvement over the same month last year. And this accords with the results foreshadowed by the early statements. We are comparing with a month last year when there had been not a decrease but an increase. The increase was small, but it marked a turn in the tide after a long and continued series of decreases. The conditions last year in that month were somewhat exceptional. In July of that year we had had the great railroad strike, and in the previous months we had had the great strike in the bituminous coal regions. The result was that in August much business was done which had been delayed in the earlier months by the events enumerated—the bituminous coal roads, for instance, being then engaged in replenishing stocks. Where earnings were swollen in this special way last year it was of course not to be expected that there would be any very

large increase the present year, and indeed a number of roads have found it impossible to maintain their totals of 1894.

At the same time we have also had the present year some depressing influences and conditions. With the roads in the Central Western belt the shortage of the winter-wheat crop was quite a serious matter. The falling off in the wheat movement as the result of that shortage was very large, though this does not apply to the roads in the spring-wheat sections, where the movement was full and free. Again, many of the Western roads have continued to feel in one way or another the effects of last year's general crop shortage. In addition the cotton movement in the South was of very diminutive proportions; it is never large in August, but the present year it was smaller than usual. Altogether it is not difficult to understand why the increase in earnings has not been large in the aggregate notwithstanding the undoubted revival of trade. The following furnishes a summary of the totals.

	August. (133 *roads.*)			*January 1 to August. 31.* (124 *roads.*)		
	1895.	1894.	*Increase.*	1895.	1894.	*Increase.*
	$	$	$	$	$	$
Gross earn's	57,125,228	55,060,460	2,064,768	389,797,355	371,067,759	18,729,596
Oper. exp...	37,562,907	36,261,154	1,301,753	274,198,443	266,508,533	7,689,910
Net earn's	19,562,321	18,799,306	763,015	115,598,912	104,559,226	11,039,686

It will be observed that the gain for the month amounts to $2,064,768 or 3·75 per cent in gross and $763,015 or 4·06 per cent in the net. In the previous year the gain had been $301,909 in the gross and $1,395,757 in the net. In August 1893 the panic prevailed, and then we had a falling off of very large dimensions. The following carries the comparisons back to 1890.

Year and number of roads.	*Gross Earnings.*			*Net Earnings.*		
	Year Given.	*Year Preceding.*	*Increase or Decrease.*	*Year Given.*	*Year Preceding.*	*Increase or Decrease.*
August.	$	$	$	$	$	$
1890 (125)	58,743,102	57,477,526	+1,265,576	20,83 ,964	22,015,220	−1,206,256
1891 (137)	62,474,852	59,542,861	+2,931,991	22,510,970	21,333,778	+1,177,192
1892 (129	69,069,880	65,221,441	+3,785,239	24,1 9,362	23,553,481	+555,881
1893 (130	54,737,181	63,126,250	−8,389,069	17,495,308	21,592,375	−4,101,067
1894 (137)	57,651,077	57,349,168	+301,909	19,680,852	18,285,095	+1,395,757
1895 (133)	57,125,228	55,060,460	+2,064,768	19,562,321	18,799,306	+763,015
Jan. 1 to Aug. 31.						
1890 (115)	398,132 686	363,967,093	+34,165,593	125,177,550	17,816,684	+7,360,866
1891 (122)	419,002 120	406,539,088	+12,462,032	131,315,60	124,621,876	+6,693,728
1892 (124)	476,601,12	447,963,424	+28,637,696	144,227,251	139,8 7,233	+4,370,018
1893 (125)	428,813,287	427,788,813	+824,474	126,914,558	131,550,595	−4,635,037
1894 (127)	356,397 86	417,234 738	−60,836,875	102,314,382	120,014,088	−17,699 706
1895 (124)	389,797,35	371,067,759	+18,729,596	115,598,912	104,5 9,226	+11,039,686

The Pennsylvania, which is deriving such important benefits from the revival in trade, and particularly from the great activity of the iron and steel trades, leads in the amount of gain, it reporting $671,602 increase (Eastern and Western lines combined) in gross and $340,929 increase in net. It is noteworthy that this follows a large increase last year—$419,470 in gross and $773,748 in net. The St. Paul reflects the large spring wheat movement in the Northwest and shows $169,908 increase in gross and $196,712 increase in net. Here, too, there had been an increase the previous year—$85,235 in gross, $185,060 in net. The anthracite roads in August 1894 had been distinguished for very large losses. The present year these roads have some noteworthy gains. The Reading (including the Coal & Iron Company) reports $493,505 increase in gross and $43,086 increase in net, and the Central of New Jersey $121,553 increase in gross and $156,268 increase in net. Among roads elsewhere the Mexican Central has $118,548 increase in gross, $114,384 increase in net; the Burlington & Quincy $140,052 increase in gross but $30,644 decrease in net. As regards the roads which have fallen behind, the Union Pacific has $337,180 decrease in gross and $84,945 decrease in net, in which we see reflected the effects of last year's poor crops, and the Atchison $77,357 decrease in gross and $192,362 decrease in net. Several of the bituminous coal roads, like the Chesapeake & Ohio, the Toledo & Ohio Central, &c., also report losses, either in gross alone or in both gross and net. The following is a full list of all losses and gains down to $30,000 in amount.

PRINCIPAL CHANGES IN **GROSS** EARNINGS IN **AUGUST.**

Increases.		**Increases.**	
Pennsylvania (3 r'ds)†	$671,602	Rio Grande Western	$34,362
Ph. & Read. and C. & I.	493,505	Kan. City Ft. S. & Mem.	31,382
Chic. Mil. & St. Paul	169,908		
Chic. Burl. & Quincy	140,052	Total (representing 26 roads)	$2,374,282
Central of N. Jersey	121,553		
Mexican Central	118,548	**Decreases.**	
Clev. Cin. Chic. & St. L.	76,217		
Burl. Ced. Rap. & Nor.	75,592	Union Pacific (6 roads)	$337,180
Mex. International	55,802	Atch. T. & S. Fe (3 r'ds)	77,357
Grand Trunk	54,949	Chesapeake & Ohio	68,641
Baltim. & Ohio (2 r'ds)	47,025	Oregon Impt. Co.	56,687
Southern Railway	46,503	Tol. & Ohio Central	52,983
Wabash	46,014	Ft. Worth & Den. City	40,102
Illinois Central	44,764	Chic. & East Illinois	35,944

Pittsb. & West (3 r'ds)	38,229		
Louisville & Nashville	34,493	Total (representing 15 roads)	$702,147
Allegheny Valley	34,370		

† The gross on Eastern lines increased $346,906 and on Western lines $324,696.

PRINCIPAL CHANGES IN **NET** EARNINGS IN **AUGUST.**

Increases.		**Decreases.**	
Pennsylvania (3 r'ds)†	$340,929	Atch. T. & S. Fe (3 r'ds)	$192,362
Chic. Mil. & St. Paul	196,712	Southern Pac. (6 r'ds)	98,865
Central of N. Jersey	156,268	Union Pacific (6 r'ds)	84,945
Mexican Central	114,384	Louisville & Nashville	54,598
Illinois Central	81,122	Chesapeake & Ohio	48,945
Canadian Pacific	72,121	Tol. & Ohio Central	46,549
N. Y. Susq. & Western	49,100	Northern Central	45,472
Grand Trunk	46,783	Chic. Burl. & Quincy	30,644
Ph. & Read. and C. & I.	43,086		
Wabash	40,142	Total (representing 20 roads)	$600,380
Clev. Cin. Chic. & St. L	38,339		
Southern Railway	38,273		
Rio Grande Western	37,985		
Mex. International	30,418		
Total (representing 17 roads)	$1,285,662		

† The net increased $81,037 on Eastern lines and $259,832 on Western lines.

When arranged in groups two groups show a small loss in both gross and net, namely the Southwestern and the Pacific; and the Southern group, while having a slight increase in gross, has a small loss in net, and the same is true of the Eastern and Middle group. The Southern Railway and the Rio Grande Western—the one in the Southern group, the other in the Pacific Coast group—both have a considerable increase in gross and net. In the anthracite group the gain in net reaches as much as 21·46 per cent and in the Mexican group it reaches 43·84 per cent. In the trunk-line group the increase in net is 8·54 per cent and in the Middle Western group 4·92 per cent. The latter group would show a loss except for the large gain on the Illinois Central. In the Northwestern group the gain in net is 7·53 per cent, and this follows chiefly from the increase on the Chicago Milwaukee & St. Paul. The Burlington & Quincy, the Chicago Burlington & Northern and the St. Paul & Duluth have sustained losses.

MR. BALFOUR ON BIMETALLISM.

We have been requested to publish Mr. Balfour's letter in explanation of his remarks in the House of Commons declining to pledge Government action in the matter of convoking another monetary conference. The letter is quite old now, but we give it, as it may prove useful for reference to many of our readers.

"10 Downing Street, Sept 4.

"Dear Sir—I know not why persons interested in the subject should be, as you say they are, 'perplexed at my supposed change of attitude towards the question of International Bimetallism,' for no such change of attitude has taken place. The terms of my answer in the House of Commons, which has given rise to so much unnecessary discussion, explicitly stated opinions which I have long held, and which I thought that all bimetallists held also. The answer was textually as follows, except that I have numbered the propositions it contains for convenience of reference:

"(1) I am, as I have always been, strongly in favor of international agreement; but

"(2) I have no right to pledge my colleagues on the subject, nor

"(3) Have I any grounds for thinking that such an agreement would at the present moment be the result of an international conference.

"(4) A second abortive conference would be a serious misfortune.

"Number 1 is a mere recommendation of my belief in the advantages of an international agreement. 2 is a statement which I have constantly made before in public. 4 appears to be self evident. It is only as regards the subject dealt with in 3 that any difference of opinion may possibly be found among bimetallists.

"In my judgment, however, there is but little prospect of a conference succeeding unless the governments who are to be represented at it come to some kind of an understanding on the main points at issue before the conference assembles. No such understanding, unfortunately, at present exists, and until it does exist a conference would probably do more harm than good.

"I remain, yours faithfully,

"ARTHUR JAMES BALFOUR."

"SOUND CURRENCY ILLUSTRATED."—The Reform Club's Committee on Sound Currency has just issued a pamphlet unique in character and of peculiar interest—"Sound Currency Illustrated." It consists of reprints on a reduced scale of some sixty of the illustrations used by the committee during the past summer, in the plate and broadside matter furnished by the million copies to newspapers in all parts of the country.

The Bible, Mother Goose, Shakespeare, Pilgrim's Progress, and many another most familiar work, are drawn upon *ad libitum* for strong, telling and timely sketches—Beard's Uncle Sam as Pilgrim; the Free Silver Advocates as the Gadarene Pigs driven into the sea by the Devils of Populism, Anarchism, Communism, Demagoguery, etc.; Edey's Uncle Sam's Lucky Piece; Colman's Comparison of Wages on the Two Standards; Remy's "Bimetallic" See-Saw; Wood's Dog in the Manger, and Beard's Five Little Pigs, serving as a tail piece, being but a few of the more characteristic examples.

The chinks between the illustrations are filled by accompanying legends and short, pithy quotations; while for the benefit of those wishing to utilize the sketches either for newspaper or cartoon work, schedule and price list are given.

The pamphlet may be obtained by sending five cents to the Reform Club, 52 William Street, New York City.

Monetary and Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, Oct. 5, 1895.

Uneasiness has prevailed all over the Continent, as well as here, throughout the week, the rioting in Constantinople being the chief cause. The Sultan dreads nothing more than the collection of even a few people. So far does he carry his apprehension that he will not allow even Mahommedans themselves to assemble many people in their own houses in Constantinople. The demonstration of Armenians carrying arms was, therefore, a great shock to him. Unfortunately the Mahommedan students have been making counter-demonstrations and have brutally attacked peaceful Armenians. Great excitement is reported to prevail at the palace and the Grand Vizier has been dismissed. His successor is believed to be a statesman of far broader views and more liberal tendencies. The general impression is that the Sultan will feel it necessary to come to an arrangement with Great Britain, France and Russia; but at the same time there is much anxiety at all the foreign offices.

Russia, too, is strengthening her military forces on the frontier of China, and it is said that Japan is rapidly increasing her armaments. The British ultimatum to China has added to the general sense of insecurity, though happily China has given way and the British demands are all conceded. Over and above this there is much dissatisfaction in France at the tediousness and cost, as well as the great loss of life, attending the Madagascar expedition; while the liquidation in Paris at the beginning of the month, which has been going on all through the week, has been a very difficult one and has shown a dangerously large "bull" account, especially in the mining department.

On the other hand, money remains exceedingly abundant. For the liquidation in Paris there has been some scarcity, due rather to the unwillingness of bankers to lend than to the want of funds. But here in London the accumulation of unemployed capital is so great that there is actually some foolish talk of a proposal to stop the free coinage of gold at the Mint. The proposal of course is preposterous and would not be listened to; but it shows the temper of the city at the moment. Some impression too has been made in banking and discounting circles by the refusal of some of the great banks to take bills drawn by important Continental banks upon their branches in London. The bills are believed to be for the purpose of financing mining transactions. No danger has been incurred; indeed, the bills are secured by the pledge of really good securities, and the incident will soon be forgotten. For the moment, however, it has added to the general feeling that the mining boom has been carried too far.

The India Council on Wednesday offered as usual 50 lakhs of rupees in bills and telegraphic transfers, but sold less than 33 lakhs, as it refused to dispose of any below 1s. 1 19-32d. per rupee and the market was not willing to pay as much. The Council has sold wonderfully well so far and has now command of sufficient funds. It has thought it prudent, therefore, to wait a little while, as the active export season is rapidly coming on. The silver market is firm, though there is not much doing for the Far East.

The Stock Exchange has all the week been under the influence of the Paris settlement. Several of the banks not only in Paris, but in Germany and Austria as well, have been enabling their customers to buy mining shares in London on an immense scale by drawing bills upon their branches here; and as the banks here now refuse to take the bills it would seem that for the moment there has been some difficulty in financing the transactions. The banks, however, are all sound, and some of them at least are admirably managed. They have plenty of securities therefore on which to obtain any funds they require either from the Bank of France or elsewhere, and the affair will soon be settled satisfactorily. However, for the time being it has undoubtedly added to the difficulties of the liquidation in Paris. Some of the usual lenders there have not advanced as much money as hitherto, and the weaker "bulls" have been in consequence obliged to sell. The principal fall has been naturally in mining shares. But at the decline there were plenty of buyers and the market is believed now to be in a much healthier state. There has been a corresponding decline in London. But considering how extraordinary the rise in prices has been during the past twelve months and how vast the speculation has been, especi-

ally during the past three or four months, it is surprising that the fall has been so slight. The weakness of the market has been increased by the absence of the great Jewish operators, owing to fresh Jewish holidays. For a week or two a great many of these holidays have occurred; and the absence of the Jews makes an immense difference in the purchasing power of the London Stock Exchange and the Paris Bourse.

International securities have likewise been weak, especially Spanish, mainly owing to the Paris settlement and the political incidents referred to above. There has been a decline also in French rentes. For a considerable time past the French savings banks department has been selling. Not much attention was paid to this until it was found this week at the settlement that the supply of rentes had greatly increased. The cost of the Madagascar expedition is emphasizing the decline, for it is known that large sums will have to be voted. It is estimated, therefore, that the floating debt will be so increased that there must be a funding operation before very long.

The American market has been somewhat stronger in spite of so many adverse influences. There is a fair amount of investment in good bonds and there is some little speculation in shares. But the currency uncertainty is still weighing upon the market. The belief is very general here that the gold shipments have stopped for a while; but it is feared that they may begin again at the end of the year or early in the new year. And while such a fear lasts there cannot be very great activity in the market. Undoubtedly, however, there is a better feeling and more inclination to deal than for some time past.

The rates for money have been as follows:

London.	Bank Rate.	Open Market Rates. Bank Bills. Three Months	Four Months	Six Months	Trade Bills. Three Months	Four Months	Six Months	Interest allowed for deposits by Joint Stock Banks.	Disc't H'se At Call.	Disc't H'se 7 to 14 Days.

—Mr. Jacob Rubino, No. 3 Broad Street, offers South & North Alabama const. 5 per cent gold bonds, due 1936, in exchange for Louisville & Nashville 10-forty bonds, which are called for redemption February 1st. The South & North Alabama forms part of the main line of the L. & N., which guarantees the bonds, principal and interest.

—"Investment Laws," by Albert Hale, Jr., 86 Beacon Street, Boston, is a very convenient little manual of the laws throughout the greater part of the United States governing the classes of securities in which savings banks, trust companies, insurance companies and other institutions are allowed to invest their funds.

—The monthly quotation circular of F. J. Lisman, October issue just received, is especially full in quotations of inactive stocks. Copies may be had at Mr. Lisman's office, No. 10 Wall Street, New York.

Breadstuffs Figures Brought Forward from Page 717.—The statements below are prepared by us from the figures of the New York Produce Exchange. We first give the receipts at Western lake and river ports, arranged so as to present the comparative movement for the week ending Oct. 12, 1895, and since August 1, for each of the last three years:

Receipts at—	Flour.	Wheat.	Corn.	Oats.	Barley.	Rye.
	Bbls. 196lbs	Bush. 60lbs	Bush. 56 lbs	Bush. 32lbs	Bush. 48 lbs	Bush. 56 lbs
Chicago	73,415	1,602,397	2,127,583	4,532,540	673,903	52,764
Milwaukee	71,600	138,100	21,350	252,000	636,915	44,235
Duluth	172,750	2,552,246		62,379	126,570	26,397
Minneapolis		4,627,270	19,240			
Toledo	2,150	181,200	202,300	23,700		8,500
Detroit	4,500	62,715	27,448	46,000	9,200	
Cleveland	1,000	43,000	4,000	45,000		
St. Louis	27,400	295,700	58,870	50,000	101,400	9,150
Peoria	5,400	12,600	602,100	715,100	61,100	2,000
Kansas City		264,000		700		
Total week	361,215	7,757,248	3,073,451	6,111,419	1,647,248	142,246
same week '94	283,500	6,593,161	2,866,200	1,866,200	1,500,000	71,110
same week '93	326,130	4,335,307	3,644,650	3,068,741	1,150,000	98,220
Since Aug. 1						
1895	2,954,774	51,450,954	25,533,814	36,121,721	5,612,750	847,645
1894	3,644,440	60,367,227	19,338,111	47,442,498	10,000,848	611,950
1893	3,577,764	37,202,226	37,145,220	30,437,722	4,440,264	930,541

The receipts of flour and grain at the seaboard ports for the week ended Oct. 12, 1895, follow:

Receipts at—	Flour. bbls.	Wheat. bush.	Corn. bush.	Oats. bush.	Barley bush.	Rye. bush.
New York	121,471	6,450	902,000	68,000	144,175	21,400
Boston	50,000	40,000	200,000	100,000		
Montreal	1,000	600,000		10,000	15,000	
Philadelphia	30,000	2,000	70,000	1,000	28,000	
Baltimore	2,500	2,000	214,000	100,000		5,000
Richmond	1,000	20,000	5,000	5,000		2,100
New Orleans	1,000	1,000	110,000	37,000		
Total week	214,971	1,711,450	1,501,000	1,021,000	187,175	31,111
Week 1894	208,150	1,295,449	855,861	775,000	230,175	19,901

The total receipts at ports named in last table from Jan. 1 to Oct. 12 compare as follows for four years:

Receipts at—	1895.	1894.	1893.	1892.
Flour	bbls.			
Wheat	bush.			
Corn	"			
Oats	"			
Barley	"			
Rye	"			
Total grain				

The exports from the several seaboard ports for the week ending Oct. 12, 1895, are shown in the annexed statement:

Exports from	Wheat bush.	Corn. bush.	Flour bbls.	Oats bush.	Rye. bush.	Peas bush.
New York	7,450	200,717	91,277	66		1,675
Boston						
Portland			716			
Philadelphia	92,313	141,000	21,700			
Baltimore		459,163	7,221	1,814		
Richmond						
Newport News		110,000	2,000			
Norfolk	92,313	4,000	6,731	66,750		
Total week	191,076	914,880	129,645	68,630		1,675
Same week 1894	200,000	1,000,000	204,000	76,511	2,611	60,000

The destination of these exports for the week and since Sept. 1, 1895, is as follows. We add the totals for the corresponding periods of last year for comparison:

Exports for week and since Sept. 1 to—	Flour. Week	Flour. Since Sept.	Wheat. Week	Wheat. Since Sept.	Corn. Week	Corn. Since Sept.
	bbls.	bbls.	bush.	bush.	bush.	bush.
United Kingdom	91,277	1,000,000	7,450	2,000,000	200,717	5,000,000
Continent	30,000	1,000,000	5,000	1,000,000	100,000	2,000,000
S. & C. America	11,000	200,000		200,000		500,000
West Indies	11,000	200,000				500,000
Brit. N. Am. Col's	1,000	20,000				
Other countries	1,000	20,000				
Total this week	129,645	2,440,000	12,450	3,200,000	300,717	8,000,000
Total since Sept. 1, '94	204,000	3,000,000	200,000	4,000,000	1,000,000	12,000,000

The visible supply of grain, comprising the stocks in granary at the principal points of accumulation at lake and seaboard ports, Oct. 12, 1895, was as follows:

In store at—	Wheat, bush.	Corn, bush.	Oats bush.	Rye, bush.	Barley bush.

WALL STREET, FRIDAY, OCT. 18, 1895.—5 P. M.

The Money Market and Financial Situation.—The conditions prevailing in the foreign exchange market have been the dominant influence in Wall Street during the week now closing. These conditions, while they may be readily explained and are generally understood to be abnormal, are not calculated for the time being to encourage operations on the Stock Exchange.

The most important event of the week was the announcement of the plan for reorganizing the Union Pacific railway system. The plan seems feasible and reasonably favorable to the security holders.

The action of Eastern trunk line officials in the matter of a traffic agreement encouraged a movement in the same direction, and a settlement of differences by the managers of Western lines. The result is a more confident feeling and a firmer tone in the market for Western railway securities.

Another important factor which contributes to the same result is the largely increased traffic reported by the spring-wheat-carrying roads, that of St. Paul for the second week in October amounting to $199,118. The *Northwestern Miller* reports the output of flour at Minneapolis during the same period as being the largest ever made in any one week.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 2 to 2½ per cent. To-day rates on call were 2 to 2½ per cent. Prime commercial paper is quoted at 4¾ to 5½ per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £569,416, and the percentage of reserve to liabilities was 56·92 against 56·97 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 7,475,000 francs in gold and 4,425,000 francs in silver.

The New York City Clearing-House banks in their statement of Oct. 12 showed a decrease in the reserve held of $3,946,700 and a surplus over the required reserve of $14,176,900 against $16,471,525 the previous week.

Foreign Exchange.—The foreign exchange market has been strong, and rates have advanced on a limited supply of bills. Commercial offerings are restricted and the demand from remitters keeps the market firm, although somewhat easier to-day.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 87½@4 87¾; demand, 4 88¼ @4 88½; cables, 4 88¾@4 89.

Posted rates of leading bankers are as follows:

October 18.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 88 @4 88½	4 89 @4 89½
Prime commercial	4 87 @4 87¼	.....
Documentary commercial	4 86½@4 86¾	.....
Paris bankers' (francs)	5 18⅛@5 17 7/16	5 16 3/16@5 16¼
Amsterdam (guilders) bankers	40 1/16@40⅛	40¼@40 5/16
Frankfort or Bremen (reichmarks) b'kers'	95 3/16 @95¼	95⅜@95 13/16

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛@1-10 premium; Charleston, buying ⅛ discount, selling par; New Orleans, bank, par; commercial $1 75 premium; Chicago, 30c. per $1,000 discount; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Government bonds have been dull. Sales at the Board include $74,000 4s coup., 1925, at 122½ to 123, and $500 4s coup., 1907, at 112¼. Following are closing quotations:

Mex. Doubloons	15 50 @15 75	English silver	4 85 @ 4 92
Fine gold bars	par @¼ prem.	U. S. trade dollars	— 55 @ — 75

State and Railroad Bonds.—Sales of State bonds at the Board include $17,000 Virginia fund. debt 2-3s of 1991 at 62¾ to 63; $12,000 Louisiana con. 4s at 98½ to 99½; $11,000 Tenn. settlement 3s at 88¼ to 89½; $1,000 Alabama, Class A, at 100½, and $5,000 Virginia 6s defd trust rects, stamped, at 6½.

The railway bond market remains practically unchanged. The volume of business was fairly good on Monday and Tuesday, but has since been more limited, and in sympathy with the stock market the tone has been weaker, although actual declines are generally nominal. Savannah & Western 1sts are the chief feature, having advanced over 3 points on the progress which has been made with the reorganization. Gains averaging about a point have been made by Lex. Ave. & P. F. 1sts, Kan. Pac. 6s, Ore. S. L. 6s, Ore S. L. & U. N. con. rects., several of the U. P. issues and the Atchison adj. 4s (when issued), while fractional advances have been made by Mo. Kan. & Tex. bonds, some of the Reading, and Chic. & Erie 1sts.

Railroad and Miscellaneous Stocks.—The stock market was firm during the early part of the week and on Wednesday morning prices in the railroad list had generally advanced from one to over two points since our last quotations, the grangers leading in the movement. The developments since Wednesday have resulted in a decline and the average of prices to-day is not far from that of last Friday.

North West. went nearly a point above its previous highest price of the year on Wednesday, stimulated by the expectation of benefits to result from the reorganization of Union Pacific under the new plan, and by the increasing traffic of the spring-wheat carriers. St. Paul sold on Wednesday at 77⅝, closing to-day at 76⅝, against 76⅛ last week. Rock Island on the same day at 79 and Burlington & Quincy at 87⅜ had each gained about 2½ points. They close to-day at 77⅝ and 86 respectively. Scarcely enough coal stocks have been sold to establish quotations, but they are generally firm. Union Pacific has been more active than usual and it is reported that considerable amounts of the stock heretofore held abroad have been marketed here. It was readily absorbed on advancing quotations. Manhattan has fluctuated between 109¼ and 111 and it is argued that its earnings will be reduced by the operation of the Lexington Ave. cable line, which has been opened this week.

The industrial list has been subject to different influences and conditions. American Tobacco and U. S. Leather prfd. have each declined nearly 4 points, and American Sugar at 107½ is 1½ points lower than last week. Chicago Gas sold on Monday above 71, and closes at 68⅜. American Spirits Manufacturing Company (when issued) was placed in the market on Tuesday. The common has sold at 14½ to 15¼ and the preferred at 45½ to 49. The old Distilling Company certificates have remained steady around 24.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every STEAM road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page.

ROADS.	Latest Gross Earnings.			Jan. 1 to Latest Date.

* Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & South western.

a These figures include results on leased lines.

b Includes earnings from ferries, etc., not given separately. ‡ Mexican currency. *c* Includes only half of lines in which Union Pacific has a half interest.

Latest Gross Earnings by Weeks.—The latest weekly earnings in the foregoing are separately summed up as follows

For the second week of October our preliminary statement covers 37 roads, and shows 5·98 per cent gain in the aggregate over the same week last year.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month. *The returns of the street railways we give by themselves under a separate head at the extreme end of these tabulations—see page 700.*

a Net earnings here given are after deducting taxes.
b Net earnings here given are before deducting taxes.
c After deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in Aug. was $886,122, against $80,404 last year, and for eight months to Aug. 31 $846,462, against $677,748; after adding earnings received from Federal Government net from January 1 to Aug. 31, 1895, was $646,167, against $655,116. This is the result in Mexican dollars treated according to the company's method of keeping its accounts as equivalent to 80 cents in United States money—that is, all depreciation beyond 20 per cent has already been allowed for.
d Does not include earnings of Albany Florida & Northern after August 14 the present year.
e Results of coal mining operations only.
f Mail money received in July in 1894, but in August in 1895.
g Including other income, the net from January 1 to September 30 was $217,854, against $313,069 for 1894, and from July 1 to September 30, $91,809, against $94,606.
h After deducting proportion due roads operated on a percentage basis and including results of operations of auxiliary companies, net in July, 1895, was $405,394, against $377,673 in 1894; for seven months ended July 31 $1,[illegible]48,[illegible]74, against $1,913,345, and for ten months from October 1 to July 31 $3,[illegible]98,721, against $3,749,140.
i Includes only one half of lines in which Union Pacific has a part interest. Figures are given exclusive of results on Oregon Railway & Navigation, Union Pacific Denver & Gulf, Fort Worth & Denver City, Leavenworth Topeka & Southwestern and Montana Union.
j May and June for 1895 estimated.
k Including income from ferries, &c.

* After allowing for other income received.
† These charges are simply for taxes and rentals of leased lines and do not include bond interest.

STREET RAILWAYS AND TRACTION COMPANIES

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

* Road in process of reconstruction.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the third or the fourth Saturday of the month) we bring all the roads reporting together, as is done to-day.

Cleveland Akron & Columbus Railway.

(Report for the year ending June 30, 1895.)

The report of President George W. Saul says in part:

Earnings.—The total earnings decreased 4·26 per cent, while the expenses decreased 15·65 per cent. The cost of operating the main line decreased from 72·54 per cent to 62·86 per cent, or 13·34 per cent. The cost per ton per mile decreased from 6·2 mills to 5·4 mills. The cause of the decrease in gross earnings was largely due to the general depression in business throughout the country and the general railroad strike which prevailed in July last year, and which practically suspended traffic on all of our connections. Our road was not affected by the strike, excepting so far as connections could not give us or take business from us. The decrease in cost of operation was due to the strictest economy being exercised in every department.

Maintenance, Etc.—Regarding maintenance and improvements the report says:

Repairs to trestles and bridges cost $1,422. Stations received general repairs at a total cost for heavy repairs of $1,639. All of our main line stations are now covered with slate roofs. There were seven miles of track ballasted charged to repairs and twenty-one miles ballasted charged to construction. 35,782 feet of fence and 1,226 feet of cross fence were built at a cost of $2,055·60 and charged to expenses; 10 locomotives received general repairs, at a cost of $8,197; 6 coaches received heavy repairs, at a cost of $2,773; 9 locomotives received heavy repairs at a cost of $2,799.

We have under contract the construction of four iron bridges, which are to replace four old wooden ones, making approximately 915 lineal feet of iron bridging, which will be completed about the first of November. Some of the cost of masonry for these bridges has been charged in this year's expenses.

Necessity for entrance into Cleveland.—For the preservation and future prosperity of the property an entrance into Cleveland is absolutely necessary. At Columbus we could not procure commercial terminals except at a great cost, and the nature of the business we do at Columbus in our judgment would not warrant the expenditure.

Statistics.—The earnings and expenses, and income account, are given below for four years

EARNINGS AND EXPENSES.

Western New York & Pennsylvania Railway.

(Report for the year ending June 30, 1895.)

The first report of the reorganized company covers nine months during which the road was in receiver's hands and three months since the receiver was discharged. President De Coursey directs attention to the improved financial condition of the company, and then says in part:

Earnings.—The average rate per ton per mile received in 1895 is 759 thousandths mills less than in 1894, which, upon the ton mileage of 1895 amounts to $489,011 67; so that our greater economies (largely secured through reduction in salaries and wages) were nearly absorbed by the lower rates received. The tonnage for the year shows an increase of 806,595 tons, or over 23 per cent. The greatest increase was in bituminous coal, ore, iron, stone and lime, ice, refined oil and merchandise, and the greatest decrease was in the tonnage of anthracite coal, lumber and bark. Our iron tonnage for this year was largely in excess of any previous year (132,061 against 92,447 tons) and our expectation for further good business in this item is one of the promising signs for the future. The increase in bituminous coal is gratifying, the total tons carried being 1,738,638 against 1,016,400 in 1893-94. Refined oils shows an increase of over 12 per cent (81,495 tons), attributable to our having secured additional tonnage to markets not reached by pipe lines. Lumber shows a decrease of over 7 p. c. (57,748 tons.) We expect an increase in this traffic the coming year. The decrease [of 42,520 tons] in bark traffic was anticipated in our report for 1893. The decrease in anthracite coal was mainly in the spring of 1895, and was caused by the stringency in money in the West and Northwest. We confidently look for larger shipments during the coming fall. The question of abolishing grade crossings in Buffalo is slowing progressing, and your company hopes to be able to make satisfactory arrangements by which its part of the work may be done without financial inconvenience.

Financial Operations.—Tables presented show expenditures for payment of equipment notes (principal) $308,127; for betterments and rolling stock, $153,640; for expenses of reorganization, etc., $348,703; total, $809,471. This sum was provided for partly from earnings and partly by sale of $350,000 first mortgage bonds and by issuing bills payable (for reorganization purposes solely) to a total of $312,730.

Improvements.—Some of the principal improvements made during the year were as follows.

There were erected 12 bridges (13 spans) of iron and iron and steel, aggregating 981 feet, replacing wooden bridges; 196,406 cross-ties (mostly white oak) were put in main track and sidings; 24·99 miles of standard section 67-lb. steel rail were

put in main track, replacing worn rail; 56,133 cubic yards (10,038 car-loads) of first-class ballast were used in ballasting 56·25 miles of track. All wooden trestles have been carefully repaired and renewed; all wooden bridges have been strengthened, pending the erection of new iron and steel bridges.

Statistics.—The comparative tables of statistics, compiled in the usual form for the CHRONICLE, are as follows:

Cincinnati Portsmouth & Virginia Railroad.

(Report for the year ending June 30, 1895.)

President Samuel Hunt says in part in his report:

Earnings.—While the change in our gross earnings is not large as compared with the previous year the increase in net earnings is nearly 11 per cent. Had it not been for the great coal strike north of the Ohio River in May and June of last year, which gave us very large earnings in those months, our gain in gross earnings would have been much larger.

While the net decrease in operating expenses is only 1·13 per cent, the cost for repairs to bridges and trestles shows a decrease of 30·23 per cent, and a saving in fuel account of 11·17 per cent. The operating expenses have absorbed 82 24 per cent of the gross earnings, as against 83 81 per cent in 1893-94.

Improvements.—As to improvements the report says:

Eight new trestles, aggregating 1,752 feet in length, have been filled, 50 per cent of this betterment having been charged to operating expense. Since May 23, 1895, the cost of improvement has been charged to capital account, the amount of which to Aug. 31, 1895, was $18,242, but bonds to cover same have not yet been issued and will not be until in December next. The steel structures replacing the wooden ones West of Red Bank will be erected within the present month (October). Two thousand car-loads of gravel have been distributed and put under the track. One hundred and fifty tons of new steel rails have been placed in track and the old rail used in additional sidings, all of which has been charged to operating expenses.

Statistics.—The earnings, expenses, charges, etc., have been as follows:

EARNINGS, EXPENSES AND CHARGES.

	1894-95.	1893-94.	1892-93
Rate per passenger per mile	2 cts.	2·12 cts.	1·98 cts.

GENERAL INVESTMENT NEWS.

Reorganization Plans, etc.—The following is an index to all statements relating to defaults, foreclosure sales, reorganization plans, reorganization committees, payment of coupons, and receiverships, of the principal companies, that have been published in the CHRONICLE *since* the last editions of the INVESTORS' and the STREET RAILWAY SUPPLEMENTS were issued, all earlier facts of this nature being set forth therein. It does *not*, however, include matter in to-day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.*, for default; *Com.* for committee.

American Bell Telephone.—*Stock at Auction.*—The unsubscribed for stock, amounting to $584,800, will be sold at auction in Boston by R. L. Day & Co. on Oct. 30. See advertisement on another page.—V. 61, p. 420.

Aransas Pass Terminal Railroad.—Sealed proposals will be received at the office of the company and at the office of Alex. Brown & Sons, Baltimore, Md., up to noon of the 25th day of October, 1895, for the construction of a terminal railroad from the City of Aransas Pass to and across Harbor Island, a distance of about 7 miles.

Atchison Topeka & Santa Fe RR.—St. Louis & San Francisco R.—*Reorganization.*—The Atchison reorganization committee expects very shortly to make a proposition to the bondholders of the St. Louis & San Francisco looking to the reorganization of that property as part of the Atchison system. There are at present no committees representing the San Francisco bonds.

Foreclosure Sale, Etc.—The sale of the Atchison has been fixed for Dec. 5, 1895. The report that Edward T. Jeffery, President of the Denver & Rio Grande Railroad, will be President of the reorganized Atchison company cannot be verified.

Coupons.—Under order of court the coupons due July 1, 1895, on Chicago Santa Fe & California bonds (the $629,000 of bonds outstanding) are being paid. The earlier coupons were also paid, but the Court has rescinded the order requiring the payment of future coupons.—V. 61, p. 610.

Atlantic Coast Electric Ry.—Asbury Park & Belmar Street Ry.—*Lease.*—A dispatch from Asbury Park, N. J., says that the Atlantic Coast Electric Ry. Co. has arranged to lease the Asbury Park & Belmar Street Railway.

Baltimore & Ohio RR.—*Directors' Meeting.*—At their meeting on Wednesday the directors resolved that, in view of the very recent revival in railroad business and rates, and consequent propriety of adhering to a financial policy of the utmost conservatism, it would not be wise to distribute at present any portion of the earnings to the common stock. The directors announced that the net earnings for the twelve months ended June 30, 1895, applicable to a dividend upon the common stock amounted to over 2½ per cent after the deduction of all charges of every description, including dividends upon preferred stocks, cash, sinking funds and car trusts.

The directors also ratified the new trunk line agreement.—V. 61, p. 661.

Boston & Albany RR.—*Stock at Auction.*—The $100,000 stock was sold Wednesday as follows: 300 shares at 208; 550 shares at 208⅛ and 250 shares at 208¼; total realized, $218,131, less $125 commission. Messrs. Brewster, Cobb & Estabrook purchased 700 shares.—V. 61, p. 384.

Central RR. & Banking Co. of Georgia—Savannah & Western RR.—*Sale Confirmed.*—The foreclosure sale of these properties has been confirmed by Judge Pardee in the United States Circuit Court at Atlanta.—V. 61, p. 661.

Chicago Gas.—*Listing.*—The receipts of the Central Trust Company issued on the certificates of the Fidelity Insurance, Trust & Safe Deposit Company of Philadelphia for the capital stocks of the Chicago Gas Companies, to the amount of 37,459 shares, were listed this week on the New York Stock Exchange. The application for the listing of the trust receipts states that there is now under the control of the committee 152,502 certificates of the Fidelity Trust Company out of an authorized issue of $375,000,000.

The time for deposits under the plan is extended until and including November 1.—V. 61, p. 610.

Chicago Peoria & St. Louis RR.—St. Louis Alton & Terre Haute.—*Difficulty regarding transfer.*—President Parker, of the Terre Haute road, is quoted as saying that the reorganization committee of the Chicago Peoria & St. Louis was unable to deliver the property to his company as agreed on or before Oct. 1, owing to a dispute between the security holders of the Peoria system. His company was prepared to assume control, but the committee is unable at present to turn over the property free from encumbrances.—V. 61, p. 661.

Chicago & West Michigan.—*Coupons.*—The directors Wednesday decided to continue the payment of interest on the first mortgages, the West Michigan, due Dec. 1, and the North Michigan, due Nov. 1, in half cash and half scrip. This is the third such payment on both issues. A circular has been mailed to bondholders setting forth the facts as given above, similar to that of April 26. The scrip is payable in ten years, bearing interest at 5 per cent, with the option of prepayment; it is secured by the coupons placed in trust. No stock dividends are possible until all scrip coupons are paid off. The net earnings of the roads for the past six months, although somewhat more than sufficient to pay a half coupon in cash, yet fall short of the amount necessary to pay in full the coupons maturing respectively November 1 and December 1. The directors are compelled to again ask the indulgence of bondholders."—V. 60, p. 748.

Cleveland Lorain & Wheeling.—*Preferred Stock.*—A circular offering a block of this company's preferred stock contains a statement from President Woodford with the following report of earnings for the year ending June 30, 1895.

Year.	Gross earnings.	Net (over taxes).	Interest.	Bal., surplus.
1894-95..	$1,360,464	$401,428	$264,000	$137,428.

The Cleveland line for which an annual interest charge of $85,000 (included in the $264 000) was incurred was only partially opened in May, hence the benefit from that source does not appear to any large extent in the above earnings. For the quarter ending Sept 30, 1895, the report, partly estimated, shows a surplus over charges of $34 713. The management proposes to make the preferred stock a regular dividend payer.

This road is in a certain sense a feeder of the Lake Shore, but the Lake Shore no longer owns any of its stock, the shares which it did own having been sold in 1893.—V. 60, p. 1058.

Columbus & Hocking Coal & Iron—*Stockholders' Committee.*—At a meeting of the directors on Wednesday Mr. John Bloodgood was authorized to form a Protective Stockholders' Committee to prepare a plan which should save the stock, in view of the movement on a part of a majority of the bondholders to foreclose. It is intimated that a small assessment of three to five dollars a share would provide a fund that would give the company an ample working capital, which it is believed would, with a concession from the bondholders in the rate of interest, place the company in a substantial position.—V. 61, p. 661.

Great Northern Ry.—St. Paul Minneapolis & Manitoba RR.—*Exchange of First Mortgage Bonds.*—The St. Paul Minneapolis & Manitoba RR. Co. has renewed its offer to exchange first mortgage 7 per cent land grant gold bonds for its consolidated mortgage 4½ per cent gold bonds, dollar for dollar. The present offer omits the premium of 5 per cent in cash which was given in the former privilege, expired July 25, but on bonds exchanged before December 1 next interest will be adjusted to the date of exchange. *See advertisement on another page.*—V. 61, p. 558.

Kentucky Midland Ry.—A second attempt to sell this road under order of Court will be made at Frankfort, Ky., Dec. 2, the upset price being fixed as before at $320,000.—V. 61, p. 611

Metropolitan Traction (New York City).—*Change of Directors, Etc.*—In order, it is said, to bring the Metropolitan Traction Co. into closer union with its operating company, the Metropolitan Street Railway Co., H. H. Vreeland, President of the latter, has been made President also of the former and C. E. Warren has been made Secretary and Treasurer of both companies. Both have been elected directors of the Traction Company in place of Messrs. Whitney and Henderson, resigned. Mr. Whitney's retirement, it is said, has no significance, as he retains his large financial interest in the property. P. A. B. Widener continues as Vice President and W. L. Elkins and Thomas Dolan as directors of the Traction Company.

Lexington Avenue Cable Line.—Cable cars began running on this line on Monday.—V. 61, p. 69.

Montgomery & Eufaula Ry.—Central Ry. of Georgia.—*Sale of Sinking Fund Securities.*—At the auction sale of the Montgomery & Eufaula sinking fund securities at Savannah, Ga. on Oct. 8, all but two parcels were bought in for Messrs. Samuel Thomas and Thomas F. Ryan, the Central of Georgia reorganization committee. The two parcels were $26,000 stock of the First National Bank of Albany, Ga., and $31,800 stock of Central of Georgia stock, the former selling for 120 and the latter for 12½ to outside parties. The securities, etc. purchased by the committee were as follows: *Wrightsville & Tennille* first 6s, due 1919, $35,000 at 100; *Savannah & Western* first consols $34,000 at 62; *Central of Georgia* certificates of indebtedness $7,000 at 23; Savannah Hotel Co. (De Soto Hotel) $25,000 stock at 57; certain notes at $1,000; railroad iron under lease to branch roads $5,345. The total sum realized appears to have been about $112,000.—V. 61, p. 559, 661.

Nevada Southern RR.—*Sale.*—This road is reported to have been sold at Sheriff's sale for $158,966 to H. C. Dillon for K. B. Anderson, who represents Woodbury and Denver capitalists. The road, it is said, will be deeded to the California & Eastern, a Denver corporation, and pushed to completion.

New York Lake Erie & Western RR.—*Reorganization.*—Oct. 25 is the limit fixed for receiving deposits of bonds under the plan. Practically all of both classes of old stock have been deposited. The second instalment of the assessment on the stock is payable Oct. 21. As already announced the foreclosure sale has been fixed for Nov. 6.—V. 61, p. 559.

New York New Haven & Hartford RR.—*Annual meeting.*—At the annual meeting in New Haven on Wednesday, President Clarke said the outlook was very favorable. For the three months ending Sept. 30 (September being partly estimated) there was an increase in gross earnings of over $1,000,000 and in net earnings of $375,000. Resolutions of a formal character accepting legislation providing for the transfer of Stonington and New Haven steamboat wharf properties were passed, and last year's board of directors, with A. D. Osborn of New Haven substituted for the late L. B. Morris, was elected.

Meriden Electric Ry.—Meriden Waterbury & Connecticut RR.—The New York *Evening Post* prints the following from New Haven:

Reports from Meriden make it almost certain not only that the N. Y. N. H. & H. RR. Co. has bought the Meriden Electric Railroad, but also will equip the Meriden Waterbury & Connecticut steam road with electricity. The receivers of the New England RR. proposed dropping the road, but it now comes to the New Haven along with its New England control. It is understood that this latest step of the New Haven Company was precipitated by the action of hostile parties holding bonds, who hope to get both the Meriden steam and electric roads, and establish competition with the New Haven Company. The Meriden Electric Railway Company, by its charter, has the right to carry freight as well as passengers.—V. 61, p. 662.

Norfolk & Western RR.—*Foreclosure Suit.*—At Clarksburg, W. Va., Judge Goff in the United States Circuit Court entered an order authorizing the foreclosure of the 100 year mortgage. Bills have also been filed by the mortgage trustees for foreclosure of the Clinch Valley and the Maryland & Washington Division mortgages. This is in line with the plans of the reorganization committee.—V. 61, p. 471.

Northern Pacific RR.—*Annual Meeting.*—At the annual meeting of the stockholders Thursday the following directors were elected: August Belmont, Henry L. Burnett, J. Horace Harding, Marcellus Hartley, E. C. Hegeler, Brayton Ives, Donald Mackay, Wm. E. Rogers, W. F. Sanders, John E. Searles, George R Sheldon, Winthrop Smith and Charlemagne Tower, Jr. The directors were instructed to prosecute suits against Henry Villard and others for the recovery of moneys alleged to have been wrongfully appropriated.

President Ives's Circular—President Brayton Ives has issued a circular which says in part:

It is pleasant to be able to report a decided improvement in the condition of the company during the last year. The net earnings were greater by $1,384,204 than those of the previous year, and the increase to date of the present fiscal year is $876,448. Moreover, abundant crops and reviving business give grounds for believing that the improvement will continue.

The present complications are unfortunate, but there is reason to believe that they will be of short duration, and in any case they can hardly be as costly to the road as the management of the old receivers.

The stockholders are to be congratulated on the failure of a plan which, under the guise of reorganization, was intended to secure the absorption of the Northern Pacific by the Great Northern and its elimination as an independent corporation. It is rumored that the same parties are striving to reach the same end by different means, but there is little prospect of success. The Northern Pacific has seen its darkest days. The region through which it runs is growing, and must grow as rapidly as any in the country. If the road can be run on a strictly business basis it cannot fail to give good returns to its security holders and satisfactory service to the States which it traverses.—V. 61, p. 662.

Suit before Judge Lacombe.—The application for the removal of receivers Oakes, Payne and Rouse before Judge Lacombe has been adjourned again till Oct. 25 at the request of Mr. Herbert B. Turner, counsel for the Farmers' Loan & Trust Co. Mr. Turner gave as his reason that he thought the interested parties would have settled matters between themselves by that time.—V. 61, p. 663.

Northern Pacific R'd.—Central Washington Ry.—*Order of Court.*—A press dispatch from Spokane, Wash., Oct. 17, says that Judge Hanford, of the United States District Court, has filed an order empowering Receiver Chamberlain, of the Central Washington Railway Company to cancel on Nov. 30 the lease under which the road is operated by the Northern Pacific, and enter into negotiations with Receiver Burleigh, of the Northern Pacific, for a new lease of the road upon equitable terms. Failing to make such lease he is to open negotiations with any other railway company or to lease the necessary rolling stock and operate the road independently.—V. 61, p. 662.

Oregon Railway & Navigation.—*Sale of Collateral.*—The adjourned trustees' sale of the bonds securing the collateral trust bonds of 1889, which was advertised for this week, was again adjourned to Oct. 29.—V. 61, p. 663.

Oregon Short Line & Utah Northern Ry.—*Coupons*—At Omaha arguments have been heard by the Court regarding the payment of back coupons on the Oregon Short Line first 6s. Holders of the 5 per cent bonds object to their payment. The Judge reserved his decision.—V. 61, p. 612.

Port Royal & Augusta.—*Foreclosure Sale.*—Litigation promises to delay foreclosure.—V. 57, p. 939.

Port Royal & Western Carolina RR.—*Foreclosure Sale.*—The sale of this road, including the Augusta & Knoxville RR., is advertised for Nov. 20, 1895. The upset price for the Augusta & Knoxville is fixed at $850,000, for the Port Royal & Western Carolina, exclusive of the Augusta & Knoxville, at $1,800,000, and for the entire system at $2,650,000. It is expected that the road will remain as formerly in the Central of Georgia system.—V. 61, p. 282.

St. Louis Cape Girardeau & Fort Smith.—*Reorganization.*—At a meeting a few days ago in this city of the bondholders, at which the President and Receiver, Mr. Louis Houck, was present, it was resolved to re-lay the first 40 miles of the road with 56-pound steel rails as soon as litigation now pending with the Missouri Pacific can be adjusted, and in order to adjust this litigation a tender was made by Mr. Newman Erb, Chairman of the Reorganization Committee, of all amounts due the Gould interest, and also a statement made that the road would be put in good condition. It is reported that the Wabash will very likely run through trains from Chicago to East Cape Girardeau, connecting via the Cape road with the Southwestern systems. A preliminary survey is to be made of a line from Hunter, on the St. Louis Cape Girardeau & Fort Smith, to Harrison, Ark., and perhaps through to Fort Smith, the line passing through the Ozark country.—V. 61, p. 282.

Syracuse Street Railway.—*Consolidation.*—The Syracuse Street Railway Company has absorbed the Syracuse & East Side Railway Company and the Syracuse Consolidated Street Railway Company. This latter company was recently sold under foreclosure for $865,000. The Syracuse Street Railway, which is controlled by Cleveland capitalists, has a capital stock of $4,000,000, and will issue its consolidated bonds covering about eighty miles of street railroad track, that will be equipped with the modern improvements.—V. 61, p. 328.

Union Pacific Ry.—*Reorganization Plan.*—The committee mentioned last week has submitted a plan of reorganization, of which the following embraces the salient features. The plan applies only to the Union Pacific main line and the Kansas Pacific. The plan in full will be found on subsequent pages of to-day's CHRONICLE.

New Securities.—It is proposed that through foreclosure proceedings or otherwise a new company, or the present company reorganized, shall issue the following securities:

Common stock	$61,000,000
Of which to go to old stock on payment of assessment	60,868,500
Four per cent non-cumulative preferred stock	75,000,000
Of which for purposes of reorganization	47,135,600
For equipment obligations, &c.	7,000,000
For settlement of debt to United States, &c.	20,864,500
First mortgage railway and land grant 50-year 4 per cent gold bonds, to be dated Jan. 1, 1897, interest payable January and July	100,000,000
Of which for old bonds to be retired	51,244,720
For equipment obligations, &c.	13,000,000
For settlement of debt to United States, &c	35,755 280

Securities Not Embraced in Plan.—The following securities are not provided for, the committee believing it advantageous to the company to be relieved from branch line obligations:

Collater l trust 6s	$3,626,000, due July 1, 1908
Collateral trust 5s	4,677,000, due Dec. 1, 1907
Collateral trust 4½s	2,030,000, due Nov. 1, 1918
Equipment trust 5s	1,149,000, due 1896 to 1900
Collateral trust gold note 6s	8,610,000, due Aug. 1, 1894

Exchange of Securities.—The old securities are to receive cash and new securities as follows, the stock first paying the assessment named:

Old Securities in amounts of		*and will receive*			
$1,000 *bond*, $100 *stock*—	*Pays Assessm't.*	*Cash.*	*1st mort. 4s.*	*Pfd. Stock.*	*Com. Stock.*
Union Pacific debt—					
1st mort. 6s	.....	.....	$1,000	$500	.....
Coupons to maturity	.....	¶	.....	.....	.....
Sinking fund 8s	.....	.....	1,000	500	.....
Omaha Bridge 8s	.....	.....	1,000	500	.....
do renewal 5s	.....	.....	1,000	250	.....
Kansas Pacific debt—					
Eastern Division 6s, Middle Division 6s, Denver Extension 6s	.....	.....	1,000	5 0	.....
Do coupons to maturity	.....	¶	.....	.....	.....
Consol. 6s	.....	.....	800	500	.....
Defaulted interest	.....	.....	.....	25 p.c.	.....
Kansas Div. and collat. 5s, pledged for col. trust gold note 6s	.....	.....	.....	500	.....
Fragments of old loans†	.....	.....	800	500	.....
Union Pacific stock	$15	.....	.....	†15	$100

† For assessment.

¶ Interest in default on these bonds is to be paid in cash at the time of their deposit under the plan, and subsequent coupons as they mature until Jan. 1, 1897, when the new 4 per cents begin to draw interest; the difference in interest (2 per cent) between the rate of the bond surrendered and the rate of the new bond is also to be adjusted to the maturity of the old bond by a cash payment at the time the new bonds are issued.

†The outstanding portions of the income 7s (subordinate and unsubordinate), Leavenworth branch 7s, Denver Pacific 1sts, aggregating only $40,520 all told.

Deposits, Etc.—All stocks and bonds must be deposited between Nov. 1, 1895, and Dec. 31, 1895, after which latter date there will be a penalty of 5 per cent on bonds and an additional assessment of $5 per share on stock. The assessments will be payable in instalments of not over $5 per share after the plan shall have been declared operative. Shareholders not paying the assessment will forfeit their rights. The time for declaring the plan operative is limited to Dec. 31, 1896, with option to extend the time till June 30, 1897.

Underwriting Syndicate.—A syndicate organized by Kuhn, Loeb & Co. will furnish the sum of $10,000,000 for purchase of coupons, etc., and they may be called upon if necessary to increase the amount to $15,000,000. The syndicate will receive as compensation $6,000,000 preferred stock, of which $1,000,000 is to be retained by the bankers above named.

Earnings and Charges.—The committee figures the average net earnings for the ten years 1895-1894 on the 1,827 miles of road embraced in the plan as $7,563,669; the lowest net earnings in any year were $4,315,077 in 1894. Under the plan the interest on the 100 millions of new 4 per cents will call for $4,000,000 per annum and dividends at 4 per cent on the $75,000,000 of new preferred stock will call for $3,000,000, a total of $7,000,000 yearly, or $563,669 less than the average net earnings for ten years, as above stated.

☞ For other Investment Items see page 710.

Reports and Documents.

PLAN AND AGREEMENT FOR THE REORGANIZATION OF THE UNION PACIFIC RAILWAY COMPANY, INCLUDING ITS Kansas Pacific Lines.

DATED OCTOBER 15, 1895.

LOUIS FITZGERALD, CHAUNCEY M. DEPEW,
JACOB H. SCHIFF, MARVIN HUGHITT,
T. JEFFERSON COOLIDGE, JR., OLIVER AMES, 2nd,
Committee.

WINSLOW S. PIERCE, *Counsel.*

KUHN, LOEB & CO., *Bankers.*

ALVIN W. KRECH, *Secretary.*

Depositaries:

The Mercantile Trust Co. of New York.
Old Colony Trust Co. of Boston.
Bank of Montreal, of London.
Amsterdamsche Bank, of Amsterdam.
Deutsche Vereinsbank, of Frankfort-on-Main.

To the Security Holders of the Union Pacific Main Lines Proper, inclusive of the Kansas Pacific Line:

The system of the Union Pacific Railway Co having become dismembered, and the holders of the securities of the branch lines having already taken steps for their own protection, it has become evident that the holders of the various kinds of bonds secured upon the main stem of the Union Pacific Railway Co., including the Kansas Pacific line, must combine in order to protect themselves.

The main difficulty in effecting a prompt reorganization of the Union Pacific Railway Co. proper is in the impracticability thus far experienced of reaching a settlement with the United States Government, which holds a second lien upon the Union Division from Omaha to a point 5 miles west of Ogden, 1,038 miles, and on the Kansas Division from Kansas City (exclusive of the Kansas City, Missouri, terminals) west to the 394th Mile Post in Kansas; but which has no lien upon that part of the Kansas Pacific line between the 394th Mile Post and Denver, 345 miles, nor on the Leavenworth Branch, Leavenworth to Lawrence Junction, 32 miles, nor on the Cheyenne Division, Denver to Cheyenne, 104 miles. Congress having thus far been unwilling to pass any legislation authorizing a settlement, it becomes imperatively necessary on the part of the holders of the First Mortgage Bonds, of which part have already matured, and all of which will mature within the next few years, to combine for an enforcement of their prior lien. Eminent counsel have advised that the lien of the First Mortgage Bonds may be effectively foreclosed; and while it is very desirable to make a settlement with the United States Government, and to continue efforts in this direction, further delay on the part of the First Mortgage Bondholders in protecting themselves by securing their legal rights would be likely to become dangerous and to result in loss.

The undersigned have been asked by large interests to formulate and proceed with a reorganization which shall at once secure to the holders of the First Mortgage and other bonds requiring consideration in reorganization a full return in new securities of the successor Company with fixed charges based upon the lowest results from the operation of the main line, and the Kansas Pacific and Denver Pacific lines, which have been obtained during the times of the greatest depression. A plan is submitted herewith to the consideration of the security holders which, it is believed, fully carries this purpose into effect, and at the same time secures to First Mortgage Bondholders the payment of the matured and maturing interest until it shall become practicable to carry out the reorganization. Should this end, contrary to expectation, not be attained, the bonds, which holders are requested to deposit without delay, will be returned without expense.

Prompt action on the part of bondholders in uniting being imperative, the time during which deposits can be made has been limited to December 31st, 1895, after which date no bonds will be admitted, unless otherwise determined, except upon the payment of a penalty of five per cent.

Stockholders must likewise deposit their share certificates, properly endorsed, prior to December 31st, 1895, but will not be required to pay any part of the assessment of $15 a share until the same is called for hereafter by the Committee after the Plan shall have been declared operative. Upon stock deposited after December 31st, 1895, the assessment will be at the rate of $20 a share, unless otherwise determined, $5 of which shall be payable at the time of the deposit as a penalty.

In case the reorganization is abandoned without having been declared operative, holders of receipts will receive back the shares to which they are entitled, without expense to them, on surrender of their receipts, properly endorsed, at the Depositaries which issued them.

Deposits may be made at any of the Depositaries on and after November 1, 1895, from which date matured coupons on First Mortgage Bonds will be cashed as provided in the Plan.

The Committee may at any time after December 31, 1895, alter the penalties above specified or decline to receive further deposits of bonds or stock.

The Mercantile Trust Company of New York has been designated as the Central Depositary both for the bonds and the stock (with auxiliary Depositaries as set forth in the Plan), and will issue engraved Certificates of Deposit, for the listing of which application will be made to the New York Stock Exchange at the proper time. Temporary receipts will be issued in exchange for securities deposited until the engraved Certificates shall be ready.

Protectives Committees already organized in the interests of the holders of either of the classes of bonds embraced in the Plan are invited to confer and co-operate with this Committee in respect to such interests.

NEW YORK, October 15, 1895.

LOUIS FITZGERALD, CHAUNCEY M. DEPEW,
JACOB H. SCHIFF, MARVIN HUGHITT,
T. JEFFERSON COOLIDGE, JR., OLIVER AMES, 2D,
Committee.

REORGANIZATION OF THE UNION PACIFIC RAILWAY COMPANY.

STATEMENT.

Mileage.

The main lines of the Union Pacific Ry. Co. are as follows:

Union Division—Council Bluffs to a point 5 miles west of Ogden	1,048·01 miles.
Kansas Division—Kansas City to Denver	643·55 "
Leavenworth Branch—Lawrence to Leavenworth	31·93 "
Cheyenne Division—Denver to Cheyenne	104·10 "
Total main line mileage	1,827·59 "

Lands.

The outstanding land and town lot contracts on December 31st, 1894, were as follows:

UNION DIVISION	$2,727,480 27
KANSAS PACIFIC AND DENVER PACIFIC DIVISIONS	3,435,271 28
TOTAL	$6,162,751 55

It is believed that a considerable amount of these contracts will, as a result of the recent industrial depression, be canceled, in which event the figures in the following table hould be correspondingly increased.

The acreage and estimated value of unsold Land Grant lands, excluding those under contract, on December 31, 1894, were as follows:

DIVISION.	*Acres.*	*Est'd Value.*
Union	3,345,000	$3,157,000
Kansas Pacific and Denver Pacific	3,179,000	10,201,500
Total	6,524,000	$13,358,500

Funded Debt (Oct. 1, 1895):

UNION DIVISION:				
Union Pacific First Mortgage 6s		$27,229,000,	due	Jan. 1, 1896-1899
" Land Grant 7s		7,000,	"	April 1, 1889
" Sinking Fund 8s		3,736,000,	"	Sept. 1, 1899
" Omaha Bridge 8s		508,000,	"	April 1, 1896
" Omaha Bridge Renewal 5s		1,036,000,	"	Oct. 1, 1915
" Not entitled in reorg.	Collateral Trust 6s	3,626,000,	"	July 1, 1908
"	Collateral Trust 5s	4,677,000,	"	Dec. 1, 1907
"	Collateral Trust 4½s	2,030,000,	"	Nov. 1, 1918
"	Equipment Trust 5s	1,149,000,	"	1896 to 1900
"	Collateral Trust Notes 6s	8,610,000,	"	Aug. 1, 1894
		$52,622,000		

KANSAS PACIFIC AND CHEYENNE DIVISIONS AND LEAVENWORTH BRANCH.

Eastern Division 6s	$2,240,000,	due	Aug. 1, 1895
Middle Division 6s	4,063,000,	"	June 1, 1896
Denver Extension 6s	5,887,000,	"	May 1, 1899
Kansas Pacific Consolidated 6s	11,724,000,	"	May 1, 1919
Kansas Pacific Income 7s	263,700,	"	July 1, 1916
" " " subordinated 7s	4,011,650,	"	July 1, 1916
Kansas Division and Collateral 5s	5,000,000,	"	May 1, 1921
Denver Pacific First Mortgage 7s	975,000,	"	May 1, 1899
Leavenworth Branch First Mtge. 7s	600,000,	"	Jan. 1, 1896
	$34,764,350		

*INDEBTEDNESS TO THE GOVERNMENT:		
For Principal	$33,539,512,	due Nov. 1, 1895 to Jan. 1, 1899
For interest (approximately, after deducting estimated value of the Sinking Fund)	19,500,000	
	$53,039,512	
TOTAL FUNDED DEBT		$140,425,862

Capital Stock.

The capital stock of the Union Pacific Railway Company outstanding is $60,868,500

* NOTE. The lien of the Government for the security of this debt is a second lien subordinate to the lien of the First Mortgage bonds on the Union Division, and of the Eastern and Middle Division bonds on 394 miles of the Kansas Division. The proportions of the Principal of the debt ($33,539,512) applicable to the Union and Kansas Divisions, respectively, are as follows:

Union Division debt to the Government	$27,236,512
Kansas Division " " "	6,303,000

Fixed Charges.

The interest on the debt to the United States (Principal $33,539,512) has been an accumulating obligation, diminished only by application of withheld compensation for Government service and by Sinking Fund receipts. The accumulated interest, now aggregating, after all deductions, more than $19,000,000, will mature, it is claimed, with the maturity of the principal of the debt which now impends.

In the following table, which states the fixed charges of the Union Pac. Ry. Co. (proper) for each of the five years from 1890 to 1894, inclusive, the following liabilities are not included:

1. The excess of interest on the debt to the Government over the percentage of net earnings applicable to it under the Thurman and other Acts.*
2. Interest on bonds held in main line mortgage Trusts under conversion provisions.
3. The obligations under guaranties, determined by the deficit in the operations of auxiliary lines, to meet interest or provide the traffic receipts guaranteed by the Union Pacific.

Fixed charges or deductions from net earnings:

	Interest on bonds.	*Sinking Funds.*	*Government requirements.*	*Total Charges.*
1890	$4,613,097 85	$705,158 75	$1,041,153 43	$6,359,710 03
1891	4,782,230 29	708,332 50	1,278,488 82	6,769,051 61
1892	5,371,587 40	705,172 50	1,338,044 37	7,414,804 27
1893	4,902,594 03	666,182 50	1,203,303 73	6,772,080 26
1894	4,767,613 81	677,685 00	1,249,061 46	6,694,360 27

Average charges as above for five years.....$6,802,001 28

Earnings.

The following table shows the gross and net earnings resulting from the operation of the Union Pacific Main Lines (exclusive of the Company's income from other sources) for each of the 10 years from 1885 to 1894, inclusive.

Year.	*Gross Earnings.*	*Net Earnings, Taxes Deducted.*
1885	$17,455,031 51	$8,404,676 31
1886	17,806,132 59	7,522,707 02
1887	19,546,088 62	9,111,886 85
1888	19,898,816 93	8,119,468 16
1889	19,775,555 84	8,286,679 63
1890	20,438,208 36	7,274,759 06
1891	18,687,738 48	7,846,451 70
1892	20,361,401 66	8,550,268 22
1893	17,376,792 11	6,204,716 81
1894	14,739,436 76	4,315,077 25

Average net earnings for ten years.....$7,563,669 10

General Considerations.

1. The mortgage debt for which provision is made in the following Plan for Reorganization is exclusive of main-line bonds held in Trusts or Sinking Funds under Mortgages included in the proposed reorganization, the issues being reduced to that extent for reorganization purposes.

The bonds thus available under new plan without the necessity for provision in new securities are as follows:

Omaha Bridge Renewal 5% Bonds (held by the Receivers)..	$322,000
Eastern Division bonds (held in Denver Ex. Sinking Fund)	304,000
Middle Division bonds (held in Denver Ex. Sinking Fund)	385, 00
Denver Extension bonds (held in Denver Ex. Sinking Fund)	1,781,000
Kansas Pacific Consols. (held in Kansas Pacific Further Security Trust and by the Receivers)	120,000
Kansas Pacific Income 7s, unsubordinated (held in Kansas Pacific Consolidated Mortgage Trust)	252,300
Kansas Pacific Income 7s, subordinated (held in Kansas Pacific Consolidated Mortgage Trust)	3,988,550
Denver Pacific First Mortgage 7s (held in Kansas Pacific Consolidated Mortgage Trust)	971,000
Leavenworth Branch First Mortgage 7s (held in Kansas Pacific Consolidated Mortgage Trust)	585,000

2. Nor does the reorganization include provision for the Collateral Trust obligations of The Union Pacific Railway Company. The securities embraced in these Trusts are largely those of companies which have already, by orders of court made in the original general receivership cause or in independent foreclosure proceedings, lost in part or in whole their character as portions of what has been distinctively known as the Union Pacific System. Independent reorganizations of many of these properties are pending. The purposes which brought into existence guaranties of the obligations of many of these auxiliary companies have been acomplished by construction and otherwise, and considerations will not exist under reorganization for continued relations with these properties upon the basis of an assumption of any of their fixed charges. Geographical conditions and considerations of mutual advantage point to a continued operation of such of these auxiliary properties as have had a demonstrated value, in harmony with that of the reorganized company, and relief from the burden of these guaranties will, it is believed, be an advantage obtained without detriment to the earning capacity of the property.

3. The total charges for the prosperous year of 1892 (including interest on fixed bonds, mortgage sinking funds, Government deductions and requirements, and other charges made up in large part of guaranty obligations), aggregated the sum of $7,881,475·44; or a sum greater by $881,475·44 than an amount necessary to pay the annual interest on the maximum Mortgage Debt and full dividend on the maximum issue of Preferred Stock contemplated in the following plan of reorganization:

The *maximum* interest and dividend requirements under the Plan applied to the average annual net earnings of the past 10 years show these results:

NET EARNINGS.

Average Net Earnings of Union Pacific Railway (proper) for 10 years, 1885, to 1894, inclusive	$7,563,669
Annual Interest on the maximum issue of $100,000,000 Four Per Cent Bonds under following plan	$4,000,000
Annual Four Per Cent Dividend on the maximum issue of $75,000,000 Preferred Stock	3,000,000
Interest and Dividends on Preferred Stock	$7,000,000
Average Surplus over Interest and Full Dividends on Preferred Stock	$563,669

NOTE: The lowest net earnings realized by the Union Pacific Railway were those of the year 1894, when they were $4,315,077·25, or $315,077·25 in excess of interest on the maximum amount of bonds as proposed in the following Plan.

* NOTE.—The annual interest charge accumulating on this debt is $2,012,370 72, less the deductions above explained.

PLAN

It is proposed, through such foreclosure proceedings as the Committee shall cause to be instituted or shall adopt, or through such other means as the Committee shall determine, that a new company shall succeed to (or that the present company reorganized upon the basis of indebtedness fixed in this plan shall retain) the main lines and lands covered by the mortgages included in the plan.

The New Company shall issue the following

New Securities:

First Mortgage Railway and Land Grant Fifty Year Four Per cent Gold Bonds	**$100,000,000**
Four per cent preferred stock	**75,000,000**
Common Stock	**61,000,000**

NEW BONDS:

The new bonds shall be dated January 1, 1897, and shall bear interest from that date payable on the first days of each January and July thereafter until maturity. They shall be secured by a First Mortgage lien upon all the main line mileage of The Union Pacific Railway Company, upon the equipment acquired by the new company and upon the unsold lands and the land contracts embraced in the trusts of the Union Pacific Land Grant and Sinking Fund Mortgages, the Denver Extension First Mortgage, the Kansas Pacific Consolidated First Mortgage and the Denver Pacific First Mortgage, and upon such branch lines of railway as the Committee shall avail of through the ownership of branch line bonds in the trust of the Kansas Pacific Consolidated First Mortgage.

NEW PREFERRED STOCK:

The new preferred stock shall be entitled to Four per cent non-cumulative dividends, payable out of the net or surplus earnings of the Reorganized Company before the payment of any dividend on the Common Stock.

The following will be the

DISTRIBUTION OF NEW COMPANY'S SECURITIES.

	New 4% 50-Year Gold Bonds.		*New Preferred Stock.*		*New Common Stock*

* The Union Trust Company, of New York, Trustee under the Land Grant Mortgage, has funds in hand with which to pay the $7,000 outstanding bonds.

† Should a greater or less amount of interest than that here estimated be in default on these bonds at the date from which the new bonds bear interest, the provision in Preferred Stock will be varied accordingly so as to equal in amount such defaulted interest. Interest received by the Committee on deposited bonds of this class will be accounted for to the holders of corresponding Certificates of Deposit.

Cash Provisions for First Mortgage Bonds.

Through arrangements made with the Syndicate hereafter mentioned, the following cash provisions are made in respect to defaulted and future interest on present outstanding First Mortgage bonds of the Union Pacific and Kansas Pacific Railway Companies, as shown in detail below.

FIRST. The coupons now in default upon present First Mortgage bonds are to be purchased in cash for account of the Syndicate at the time of the deposit with the Committee of the bonds to which they pertain.

SECOND Coupons maturing on deposited First Mortgage bonds in the interval between the deposit thereof under the plan and the date from which bonds of the new company are to bear interest (January 1st, 1897), are to be purchased by the Syndicate from the Committee, which in turn shall apply the amounts so received, at the respective due dates of the coupons, to the payment of corresponding instalments on its outstanding certificates applicable to such deposited bonds.

THIRD At the time of the issue of the new Four Per Cent bonds the difference between the interest at their rate and at the rate of the present First Mortgage bonds (*i. e.*, the rate difference of 2 per cent) shall be adjusted, in cash covering the period between January 1st, 1897, and the respective dates of the maturity of the present bonds. The proportion of the current semi-annual interest instalments which shall have accrued on January 1st, 1897, on such of said bonds as do not bear January coupons shall be likewise provided for in cash at the time of the delivery of the new bonds.

The BONDS to which the foregoing cash provisions apply and the extent of the CASH REQUIREMENTS to meet these provisions, are thus shown.

Union Pacific First 6s:

(DUE IN INSTALMENTS JANUARY 1, 1896, TO JANUARY 1, 1899, INCLUSIVE.)	
DEFAULTED COUPONS of January 1 and July 1, 1895	$1,633,740
INTEREST MATURING during pendency of plan, to and including January 1, 1897	2,450,610
ADJUSTMENT OF INTEREST as between rates of old and new bonds—2 per cent per annum, from January 1, 1897, to maturity of old bonds:	
On $1,320,000 bonds, due July 1, 1897	$19,200
On $5,299,000 bonds, due January 1, 1898	119,080
On $8,837,000 bonds, due July 1, 1898	265,110
On $2,400,000 bonds, due January 1, 1899	96,000
	500,290

Kansas Pacific, Eastern Division, 1st 6s:

(MATURED AUGUST 1ST, 1895.)	
DEFAULTED COUPONS of Aug., 1894, and Feb. and Aug., 1895	201,600
INTEREST MATURING during pendency of plan to Jan. 1, 1897	190,400

Kansas Pacific, Middle Division, First 6s:

(DUE JUNE 1ST, 1895.)	
DEFAULTED COUPONS of June 1st and December 1st, 1894, and June 1st, 1895	365,670
INTEREST MATURING during pendency of plan to Jan. 1, 1897	385,985

Kansas Pacific, Denver Extension, First 6s:

(DUE MAY 1ST, 1899.)	
DEFAULTED COUPONS of May 1st and November 1st, 1894, and May 1st and November 1st, 1895	706,440
INTEREST MATURING during pendency of plan to Jan. 1, 1897	412,080
ADJUSTMENT OF INTEREST as between rates of old and new bonds—two per cent from January 1st, 1897, to maturity of old bonds	274,727
Total	$7,121,552

In all cases where the foregoing provisions apply to semi-annual interest instalments not represented by coupons because of the prior maturity of the principal of the bonds, the Syndicate will take assignments of such interest instalments from holders presenting their bonds for deposit, or from the Committee as to such bonds as shall have been deposited, and will hold and treat such assignments in the manner hereinafter provided with respect to coupons taken up by the Syndicate.

Assessment.

The common stock of the present Company will be assessed at the rate of $15 per share.

Shareholders paying the assessment of $15 per share will receive the amount of the assessment (viz., $15 per share) in new preferred stock at par, and will also receive par of their present common stock in common stock of the new company.

Shareholders who do not pay their assessments as called will forfeit their rights. The stock assessment will be underwritten before the plan is declared operative.

The proceeds of the assessment shall be applicable to the cash requirements of this plan as herein provided and to such requirements as shall be fixed and determined by the Committee, including such expenses and charges as it shall make or incur in the premises, and suitable compensation to the members of the Committee.

The amount of this assessment shall be payable at such times and in such instalments as the Committee shall determine after the plan has been declared operative, but not more than $5 per share shall be called in any consecutive thirty days.

Reorganization Syndicate.

A Reorganization Syndicate has been organized under the management of Messrs. Kuhn, Loeb & Company, Bankers, to furnish the sum of $10,000,000 for the following purposes:

1. To purchase all the interest coupons on First Mortgage bonds now in default.

2. To purchase as they shall mature hereafter the interest coupons on First Mortgage bonds and also the semi-annual assignments of interests accruing on bonds already matured during the pendency of the Plan and until it shall become operative.

3. To purchase, if it shall be found advisable for the promotion of the reorganization, any outstanding First Mortgage bonds and Omaha Bridge bonds and to deposit the same under this plan; and, if it shall be found advisable, to purchase all or any defaulted or future maturing coupons or interest assignments on Omaha Bridge bonds.

Coupons and interest assignments purchased for account of the Syndicate shall be deposited in The Mercantile Trust Company of New York, which shall issue its certificates for the same to the Syndicate, or such other course shall be taken in respect thereto as shall be determined by the Committee and the Bankers to effectively and conveniently carry out this feature of the plan, and as will secure to the Syndicate all rights of the bondholders in and to the coupons and interest claims so purchased and in and to the lien and right of enforcement of the lien thereof.

Such steps shall be taken in respect to all purchased coupons and interest assignments as will secure a valid claim for cumulative interest in favor of the Reorganization Syndicate.

The right is reserved on behalf of the Committee, with the assent of the Bankers, to call for an increase of the amount required to be advanced by the Syndicate to $15,000,000.

The Syndicate is to advance a sum not exceeding $100,000 for expenses re-payable with six per cent interest after the plan shall have been declared operative.

All advances made by the Syndicate shall be re-payable to it in gold.

Six Million Dollars of preferred stock are to be turned over as compensation to the Syndicate, of which the Bankers are to retain One Million as their own compensation.

Limitations of Time.

FOR DECLARING PLAN OPERATIVE:

The time for declaring this plan operative is to be limited to December 31st, 1896, with the right on the part of the Committee to extend the time for six months—namely, to June 30th, 1897. Notice that the plan is operative shall be given by publication through each of the Depositaries hereinafter mentioned.

FOR DEPOSIT OF SECURITIES:

The time for the deposit of bonds receivable under this plan and of the shares of stock of the present company is limited to December 31st, 1895, after which date no bonds will be admitted except upon the payment of a penalty of 5 per cent. Upon shares of stock deposited after the time above limited (December 31st, 1895), the assessment will be at the rate of $20 a share. After the expiration of the limit of time the penalty of $5 a share will be payable at the time of deposit, and will not be refunded.

Deposits may be made on and after November 1st, 1895. The Committee reserves the right at any time to alter the penalties above specified or decline to receive further deposits of bonds or stock.

Should it in the opinion of the Committee appear desirable to make any substantial alterations in the foregoing plan, it shall make publication of such proposed alterations for at least twenty days, during which time the security holders not approving of the proposed alterations, shall be permitted to surrender their certificates of deposit and withdraw their securities upon refunding with six per cent interest the amounts advanced in purchase of the coupons and interest assignments on their respective bonds.

Securities receivable on deposit under this Plan.

THE FOLLOWING SECURITIES will be received under this plan at either of the Depositaries hereinafter mentioned:

BONDS.

1. UNION PACIFIC RAILROAD COMPANY'S FIRST MORTGAGE BONDS.
2. UNION PACIFIC RAILROAD COMPANY'S SINKING FUND MORT. BONDS.
3. UNION PACIFIC RAILROAD CO.'S OMAHA BRS. P. C. MORT. BONDS.
4. UNION PACIFIC RAILROAD CO.'S OMAHA BR. RENEWAL BONDS.
5. THE UNION PAC. RY. CO., KANSAS DIV., AND COL. MORT. BONDS.
6. (KANSAS PAC.) UNION PAC., EASTERN DIV., FIRST MORT. BONDS.
7. (KANSAS PAC.) UNION PAC., MIDDLE DIV., FIRST MORT. BONDS.
8. KANSAS PACIFIC RAILWAY DENVER EXT. FIRST MORT. BONDS.
9. KANSAS PACIFIC RAILWAY CONSOLIDATED FIRST MORTGAGE BONDS.
10. KANSAS PACIFIC RAILWAY INCOME BONDS.
11. LEAVENWORTH BRANCH BONDS.
12. DENVER PACIFIC RAILWAY AND TELEGRAPH FIRST MORT. BONDS.

Also:

STOCK.

13. THE CERTIFICATES OF STOCK OF THE PRESENT COMPANY.

Depositaries.

THE MERCANTILE TRUST CO. OF NEW YORK.
OLD COLONY TRUST CO., of Boston.
BANK OF MONTREAL, of London.
AMSTERDAMSCHE BANK, of Amsterdam.
DEUTSCHE VEREINSBANK, of Frankfort-on-Main.

Bonds and shares may be deposited by the holders thereof in either of the above named Depositaries, who shall issue their own negotiable certificates. After the plan has become operative, the Committee may order the transmission of securities deposited in any one of the Depositaries into the keeping of The Mercantile Trust Co. of New York, who shall constitute the Central Depositary, and who shall, thereupon, issue its own engraved certificates for the previously-issued certificates of the branch or auxiliary Depositaries.

Until the plan shall have been declared operative, depositors of bonds in either of the Depositaries may apply to have their bonds transferred to any other Depositary upon payment of the expense thereof, and shall be entitled to the certificates of the last Depositary upon the surrender of the certificates previously issued to such depositors.

Holders of securities who shall have deposited the same in any one of the foreign auxiliary Depositaries shall, where such securities have had the foreign Government stamp attached, be entitled to receive the new securities likewise with the foreign Government stamp.

For further particulars and powers of the Committee Depositors are referred to the agreement of which this plan is a part.

RIO GRANDE WESTERN RAILWAY CO.

ANNUAL REPORT FOR THE YEAR ENDING JUNE 30, 1895.

COLORADO SPRINGS, COL., September 23d, 1895.

To the Stockholders of the Rio Grande Western Railway Company:

The Gross Earnings were	$2,189,691 00	
Net Earnings from Traffic	743,447 00	
Net Earnings after adding $48,655 Interest received on Leased Line Securities		$792,102 00
FIXED CHARGES.		
Taxes, Insurance, Rentals and Interest amounted to	$747,409 51	
Other items	4,431 22	
		751,841 00
Surplus Earnings for the year		$40,261 00
Add the surplus of June 30th, 1894	$24,160 00	
Less amounts charged against the same during the year	473 00	
		23,687 00
And the amount to credit of Profit and Loss, or Surplus, June 30th, 1895, was		$63,948 00

The Gross Earnings show an increase over the previous year of $88,372, or 4·21 per cent.

The Operating Expenses an increase of $69,230, or 5·03 per cent.

The Net Earnings from traffic an increase of $19,142, or 2·64 per cent. And the Surplus Income for the year an increase of $30,911, or 330 per cent.

As pointed out in the Report of the General Manager, Col. Dodge, about 92 per cent of the above increase in Operating Expenses was for the maintenance of Roadway, Structures and Equipment. The physical condition of all these has been kept at our usual high standard and is certainly not inferior to that of any road between the Missouri and the Pacific.

The "Debs" Strike on our connecting lines to the eastward and westward occurred in the first month of the fiscal year, and in the opinion of Col. Dodge impaired our Gross Earnings to the extent of $64,000. As the lessened cost from reduced train service was not appreciable by reason of the strike expenses, he considers the net loss as fully equal to the gross, so that the Company's Surplus Earnings for the year would have been over $100,000, but for this interference.

All of the General Expenses and those of Maintenance, and many of those directly pertaining to Transportation, had, however, to be kept up. In the language of the General Superintendent, "The work of the Roadway Department was practically suspended in July, and the section men were engaged in patrolling track and watching bridges."

Of paying *Freight*, we hauled 678,539 tons, a larger quantity by 11,000 tons *than ever before*, and 43,000 tons, or 6·8 per cent, more than the previous year. It was also hauled an average distance of 173 miles, against 164 miles last year. So that the tons hauled one mile show an increase of 12 per cent.

The gain in freight earnings was $151,422, or 10·36 per cent.

The average earnings per ton were slightly larger than last year, to wit: $2 38 against $2 30, but the average per ton per mile was the lowest ever experienced, having been 1·383 cents against 1·405 cents in 1894, a decline of about 1½ per cent, which is due mainly to the carriage of a larger proportionate quantity of trans-Continental and other low-priced freight.

While there was an increase varying from 7 to 12 per cent in all three classes of freight earnings—"Local," "Into and Out of Utah" and "Through" (comprising trans-Continental and Colorado-California), about half the total gain is due to *local* freight, which increased 11½ per cent.

Of *Passengers* there were carried 219,813, an increase of 2·94 per cent over the previous year. But as this was the resultant of a decline of 48 per cent in through passengers and a gain of 28 per cent in local passengers, the average distance traveled shows a marked decrease, being 99 miles, against 142 miles last year—a falling off of 30 per cent. The average fare received was $2 02 against $2 44 last year. The average rate per passenger per mile, however, which last year was but 1·72 cents—*probably the lowest average of any railway in the United States or elsewhere*—rose this year to 2·04 cents, attributable to the larger relative proportion of local travel.

In fact, the *local passengers* constituted about eight-tenths of the whole, and contributed over 45 per cent of the total passenger earnings. This shows a gain over the previous year of 28 per cent in local passengers and 17 per cent in the earnings from that source, which, while still behind the years 1892 or 1893, are about equal to those of 1891.

On the other hand *through passengers* fell off nearly one-half—and the revenue from them declined $103,812, or 39¼ per cent. There was also a slight decline in the passenger business "Into and Out of Utah"—about 9 per cent in number and 5 per cent in revenue.

The number of passengers carried one mile decreased 8,528,720, or 28 per cent. It is evident, therefore, that the falling off in total Passenger Earnings for the year, which reached $78,945, or over 15 per cent, is due to conditions originating or existing outside of our line, more or less Continental in their character, and from which our local territory was exempted.

The *Local Earnings* of all kinds, freight and passenger, show an increase of $120,000, a gain of 12¾ per cent.

Coal (bituminous and anthracite, with coke and charcoal) furnished as heretofore the principal traffic, 297,000 tons, and rose to nearly 44 per cent of the whole tonnage, against 41 last year, and to 30½ per cent of the total freight earnings, which is about the same as last year.

The increase over 1894 was 36,461 tons (or 14 per cent) and $43,880 in Earnings (or nearly 10 per cent).

Ores, on the other hand, fell off 22,370 tons (21 per cent) and ore earnings $18,620 (10 6-10 per cent). But from the mines on our own Road the decline was but 10,442 tons, while the revenue was practically the same as last year.

COMPARATIVE SHIPMENTS OF COAL, COKE, CHARCOAL, ORE AND BULLION.

Years.	1891.	1892.	1893.	1894.	1895.
Tonnage	339,375	328,224	417,957	377,098	390,298
Revenue	$721,669	$731,034	$777,939	$667,345	$686,338

These are the particular staples that were expected to be seriously affected by the collapse of silver mining. It will be seen that compared with the fiscal year ending June, 1893, the falling off has been about 12 per cent. It is equivalent, however, to but a fraction over 5 per cent of the gross freight earnings of our heaviest year.

This list exhibits a gain of 13,200 tons and $19,000 in earnings as compared with the previous year.

At the rate stamp and other mills for the reduction of precious ores are being put up along our line in Utah, however the tonnage shipped may be affected, there is but little doubt that the bullion yield, the number of employed men, and the demand for railroad transportation (due to the increased output of low-grade ores for concentration, the larger requirements of coal, salt, machinery and supplies generally, and the greater general activity of the mining camps), will come up to what they were before the panic, at least during the coming year, if they have not already reached that level this summer. As an evidence of the progress in this direction, it may be noted that the coal shipped over our principal mining branch, "The Tintic Range Railway," showed an increase of 131 per cent over the previous year, and of 109 per cent in earnings from coal carried.

The Auditor's traffic table discloses some further facts worthy of mention here.

FRUIT (and Vegetables.)

Years.	1890.	1891.	1892.	1893.	1894.	1895.
Tonnage	2,200	8,767	20,965	24,284	49,302	67,921
Revenue	$10,110	$34,359	$72,244	$76,723	$130,264	$167,781

Gain in tonnage in five years, nearly 30 fold.

Gain in revenue in five years, 16 fold.

It will be seen that this business, now ranking next to coal and ores in order of tonnage, continues to show its customary heavy gains—the increase over last year being 38 per cent in tonnage and 28 per cent in earnings.

It was predicted in the last annual report that an increase in the "purchasing power" of Utah farmers might be manifest in the coming year, and the results show that, despite the inveterate "economy" of the Mormon population when times are hard, they have taken by our line, *merchandise, agricultural implements, wagons and carriages* to an extent that yielded 25 per cent more than the previous year. This result is but 13 per cent short of the year ending June, 1893. Neither in "household goods and furniture" nor in "wine, liquors and beer," however, was there any increase, and these continue to yield 30 per cent less revenue than in 1893.

The crops in Utah this season are understood to be again very good—better, perhaps, even than last year. Marked attention is being given to new irrigating projects in diverse parts of the Territory, and much new land is being, or is evidently soon to be brought "under water."

Although building has not re-commenced in Salt Lake and the other towns, the business outlook for the Territory during the coming fiscal year is altogether encouraging, including the prospect of what, as a beginning, may be considered a very respectable yield from recently-opened gold mines.

Live Stock has become a leading component of our traffic, and promises continued growth from year to year.

The same is more or less true of *Wool*.

From *Grain* the revenue increased 50 per cent, but is still considerably short of the best year, 1891.

Lumber and Wood gave us 43 per cent more earnings, and *Bar and Sheet Metals* 81 per cent more than the previous year.

The Beet Sugar works at Lehi gave us an increased revenue of 56 per cent. This is one of the six mills as yet existing in the United States, and has demonstrated the adaptability of the soil and climate of Utah to the profitable production of beet sugar. The managers of the Lehi Works anticipate a considerably increased crop of beets this season over the last. About 3,500 acres of land are given to the cultivation, and the average product is estimated to be 10 per cent more per acre this season than last. As the result of their operations seems to improve with every year's experience, 177 lbs. of granulated sugar per ton of 2,000 lbs. beets are expected. Last year it was 167 lbs. A further yearly increase in the saccharine yield is anticipated until it reaches 10 per cent. The farmers appear to be well satisfied with the results from beet culture, and it is to be hoped the capacity of the works may be increased by their enterprising owners.

From the Auditor's analysis (on pages 54 and 55 of pamphlet report) of the returns from the "Tintic Range" and "Sevier" branches, including business contributed thereby to the main line, it will be seen that the Company is found to be $99,073 better off for the year by reason of the operation of the

"Tintic Range," and $42,782 better off from the "Sevier" line (net in both cases), than if these branches had not existed.

As regards the "Tintic Range," this is a gain in net revenue of 22 per cent over last year and is equivalent to 5 per cent on the First Mortgage Bonds of the Tintic Range Railway with over 6 per cent on its preferred stock (or to nearly 4 per cent upon the $3,500,000 common stock of the Rio Grande Western Railway Company issued to pay for these securities). As regards the "Sevier" branch, it shows a net gain of 33 per cent over last year, and is equivalent to 5 per cent on the First Mortgage Bonds of the Sevier Company besides 4 per cent on its preferred stock (or to 12½ per cent upon the Rio Grande Western preferred stock issued to acquire those securities). In each case the computation ignores any traffic that might have come into the former termini by carts, had the respective branches not been built—which, in the case of the Tintic line, at least, would have been nil.

All of the Bonds and Shares of both branches are held by this Company, to whose whole total net earnings they have contributed about one-fifth.

The Working Expenses for the year were 66 per cent of the gross earnings, the largest since 1890. But such figures are of course as a comparison not of the least value in weighing questions of real railroad economy. In the present case nearly the whole increase over the previous year was expended in maintaining the rolling stock, track, bridges and buildings; "Conducting Transportation," as pointed out by Col. Dodge, having increased but little over 2 per cent, although the train mileage run was 4·8 per cent greater and there were 12 per cent more gross tons hauled one mile.

From the General Superintendent's yearly letter it appears, among other very complete data, that no passenger was killed or injured during the year; that three deaths of employees occurred from other causes than their own default, or some cause for which the Company or its employees were not responsible; that the water and coaling stations are now probably in better condition than at any time in the past; that the whole cost of repairing "washouts" for the year was within $500; that the claims and payments for live-stock killed were each less than half those of the previous year; and 3,300 cars of gravel, slag, cinders, etc., were hauled and distributed as ballast for the track, yards and station grounds.

More cross-ties will have to be replaced the coming year than last, but on the other hand the rolling stock has been put in such condition that comparatively little need be expended on its maintenance, while the outlays on track, bridges and buildings, as a whole, should be about the same as last year.

Any expansion of gross earnings, therefore, due to improved trade and general activity throughout the country, especially in travel, will be largely a net gain to the Company, should the rates not decline; and as these have already been forced down partly by competition but chiefly by the hard times to such extremely low figures, a further reduction is not reasonably to be expected.

There was charged to Capital Account during the year for additions to the property, chiefly for additional buildings, the sum of $50,137, besides an amount expended in betterments on the Tintic Branch, $4,450; total, $54,587. The items are set forth in detail in the Auditor's Report on pages 34 and 35 of the pamphlet report.

The *total* amount expended on Capital Account, in excess of any provision to meet the same through issue of securities, is $269,905.

No Bonds or Stocks have been issued during the year. Neither has there been any alteration in the

RESERVE

which stands as follows:

An authorization for a further issue of Preferred Stock, amounting to	$1,250,000

And in the Treasury of the Company:

First Mortgage Bonds, making up the total authorized issue, which is limited to $15,000,000 against which the required mileage of railway line has already been completed)		800,000
First Mortgage Bonds of other Railway Companies (their entire issues)		1,951,000
Also Preferred Stock of other Railway Companies (their entire issues)	$780,400	
Common Stock of other Railway Companies (their entire issues)	1,170,600	
And 10,000 shares of the Western Express Company's Stock (the entire issue), on which dividends averaging four per cent are assured by a lease for five years from July 1, 1893.		1,000,000

The entire condition of the line, physical and financial, is now quite healthy, and the outlook is in every way promising. The earnings for the first three months of the new fiscal year* show already a gain in gross of $114,000, or 20 per cent, and in net of $86,000, or 47 per cent, over the first quarter of the previous year.

GENERAL CONSIDERATIONS.

To sum up what may be gathered from the foregoing Report, together with some characteristic general features of the property, it may be said in conclusion that it is in excellent physical condition, better in fact than ever before, notwithstanding the stress of the past two years, which has strewn the wrecks of great enterprises on all sides of it. It has earned during that period about $40,000 more than its fixed charges, kept every engagement and come through without any floating debt, and with a Treasury Reserve in which is included over $2,750,000 first mortgage bonds and $1,000,000 in dividend-paying stock.

It is not a great system, but what in these days is considered a short line, simple in its structure and finances, with an experienced working staff who have it well in hand. It occupies a singularly strong position as a link in the trans-Continental chain of communication, and is the *throat* for the Salt Lake and Pacific Coast traffic of numerous trunk lines.

It occupies not only the most central route across the Rocky Mountains, but the most attractive one for travelers, and one which we believe to be the strongest in local resources—advantages permanent in their character and likely to gain in weight from year to year.

Its leading traffic is coal—of superior quality—whose tonnage has increased nearly 80 per cent since the year 1890, and as it is the only coal on this zone for nearly 1,000 miles from Colorado to the Pacific Coast, it seems likely to go on increasing with the development of Utah and of the vast *mineralized* basin west of it.

Our *local* business (freight and passenger *combined*) has reached the level of 1892—even surpassing it in tonnage, and exceeds, both as regards earnings and tonnage, the results of any year save the one immediately preceding the panic; is within 7 per cent of even *that* maximum, and now produces over 48 per cent of the total earnings—the largest proportion since the gauge was widened.

It is chiefly traffic originating or terminating outside of our line that still lags behind, and when the conditions which hamper *that* trade and travel and the general internal commerce of the Continent are recovered from, we may hope for much larger profits, remembering that the normal condition of all the Far West is one of rapid growth, and that it is our especial business to supply and furnish a market for a vast section, which includes what are now the most growing parts of the United States.

A consideration of these general facts may give encouragement to Stockholders, who have been for two years without dividends, and inspire them with the confidence felt by the Directors that, with the tide of prosperity which appears to be rising over the country, it cannot be long before they will be rewarded for their patience and again be permitted to enjoy an income from their investment.

By order of the Board of Directors,
WM. J. PALMER.
President.

[See comparative tables of earnings, balance sheet, etc., on a preceding page.]

BUFFALO ROCHESTER & PITTSBURGH RAILWAY COMPANY.

ANNUAL REPORT FOR THE YEAR ENDING JUNE 30, 1895.

The Board of Directors of the Buffalo Rochester & Pittsburgh Railway Company submits to the stockholders the following report for the year ending June 30, 1895:

Gross Earnings		$3,066,440 40
Against last year		2,819,825 17
An increase of 8·75 per cent, or		$246,615 23
Operating Expenses		$2,172,428 20
Against last year		2,050,435 13
An increase of 5·95 per cent, or		$121,993 07
Net Earnings		$894,012 20
Against last year		769,390 04
An increase of 16·20 per cent, or		$124,622 16
Cost of operating, including $39,131 83 extraordinary expenses and improvements, and excluding $38,224 78 miscellaneous receipts		73·03 per cent
Against last year		74·83 per cent
From the Net Earnings		$894,012 20

Are to be deducted:

Interest on funded debt	$596,270 84	
Interest on floating debt	31,252 49	
Rochester & Pittsburgh Coal & Iron Co.—Rental of 500	16,200 00	
New York Lake Erie & Western RR. Co.—Rental of track	87,260 00	
Clearfield & Mahoning Ry. Co.—Rental of track	71,500 00	
Taxes	59,728 00	
		812,211 33
Net Income		$81,800 87
Extraordinary expenses and improvements		39,131 83
Profit		$42,669 04
Against a loss last year		79,026 59

Although the business depression noted in the last report continued throughout the greater portion of the year, the increased tonnage moved caused an increase in both the gross and net earnings.

No strikes or suspensions of mining occurred during the year.

The rate received per ton per mile is the lowest ever obtained, being 4 66-100 mills, as against 5 87-100 mills last year—a reduction of 71-100 mills.

The cost per ton per mile was reduced in nearly the same ratio, being 3 23 100 mills, as against 3 81-100 mills last year—a reduction of 59-100 mills. Notwithstanding that the operating expenses were charged with an unusual amount of im-

* Estimating September.

provements, including ten freight locomotives condemned and intended for scrap, which were thoroughly rebuilt by the Brooks Locomotive Works, at a cost of $48,688 77, and 47½ miles of main track ballasted with gravel, cinders and stone, etc., etc.—a reduction was made possible in the cost per ton per mile by the benefits accruing from the better physical condition of the property.

TRAFFIC.

The tonnage moved was as follows:

Bituminous Coal	2,535,008	
Last year	1,894,595	
An increase of 33·80 per cent, or		640,413
Coke	259,425	
Last year	177,149	
An increase of 46·44 per cent, or		82,276
Other freight	960,513	
Last year	910,988	
An increase of 5·44 per cent, or		49,525
Grand total tonnage	3,754,946	
Last year	2,982,732	
An increase of 25·89 per cent, or		772,214

The bituminous coal tonnage for this year was the largest in the history of the company.

The coke tonnage shows an improvement over the preceding year, growing better every month with the revival of the iron trade.

In other freight all the items increased, excepting Salt, Ice and Anthracite Culm—these three showing a loss of 68,875 tons.

The passenger traffic was as follows:

Passengers carried	742,702	
Last year	771,128	
A decrease of 3·69 per cent, or		28,426

This may be wholly attributed to the World's Fair business included in the previous year.

ROAD OPERATED.

	1895. Miles.	1894. Miles.	Increase.
Main line owned	240·09	240·09	
Branches owned	14·13	14·13	
Three proprietary roads	30·93	30·93	
One road leased	25 87	25·87	
Trackage rights	24·76	24·76	
Length of road operated	335·78	335·78	
Sidings	121·42	112·49	8·93
Total miles of track operated	457·20	448·27	8·93
Total miles laid with steel rails	425·20	413·27	11·93

The length of road operated remains the same as last year.

The sidings were increased 7·94 per cent, or 8·93 miles, making the ratio of sidings to road operated at present time 36·16 per cent, as against 33·50 per cent last year.

CONSTRUCTION.

The following amounts have been charged to this account

Three new iron bridges—¼th cost	$2,722 00
New coaling station, Bradford, Pa	9,671 64
New coaling station, Dubois, Pa	1,825 91
Additions to shops, machinery, etc	8,451 75
Re-laying track with heavy steel rails	16,663 78
Sidings and track extensions	18,621 59
Land and land damages	2,277 28
Sundry miscellaneous items	1,319 20
Total	$61,553 15

New coaling stations at Bradford, Pa., and DuBois, Pa., are both completed and now in use, lessening the cost of operation at these important terminal points.

During the year 25·1 miles of main track were relaid with standard steel rails, weighing 80 lbs. to the yard—making a total mileage of 105 6 miles, or 31·45 per cent, of the total road mileage, now equipped with heavy rail.

Sidings were increased 8 93 miles.

In addition to the above improvements, 29·25 miles of new wire fencing were built, and charged to extraordinary expense and improvement account.

EQUIPMENT.

There was expended for new rolling stock as follows:

Two locomotives	$19,970 00	
Two hundred freight cars	95,858 68	
Eight Company's service cars	3,537 00	
Air brakes and other betterments	22,719 00	
		$142,084 68

The account was credited for equipment, wrecked and destroyed, charged to operating expenses.

One baggage car	$1,800 00	
Eighty-two freight cars	32,813 33	
Sixteen Company's service cars	7,179 50	
		41,792 83
Making a net increase of		$100,291 85

Of the above equipment the eight company's service cars were built at the company's shops.

BONDED DEBT.

$141,000 00 car trust bonds matured and were paid off. A new series No. 12 was authorized for $237,500 00, and $80,000 00 issued, making a net decrease of $61,000 00 in outstanding car trust bonds.

A payment of $8,000 00 was made on the real estate mortgages.

The net result is a decrease of $69,000 00 in the total bonded debt of the Company.

CLEARFIELD & MAHONING RAILWAY.

The following amounts have been advanced to this line for needed improvements:

New station at Clearfield, Pa	$1,301 49
Weighmaster's building at Rockton, Pa	1,141 83
Land and land damages	5,473 25
Sidings and yard extensions	9,903 29
Hogback siding—3 miles long	34,385 56
Total	$52,205 42

In last year $44,478 63 was advanced, making a grand total to date of $96,684 05 due to the Buffalo Rochester & Pittsburgh Railway Company.

ROCHESTER & PITTSBURGH COAL & IRON CO.

The operation of the Rochester & Pittsburgh Coal & Iron Company for the fiscal year, after deducting $62,388 38 bonds that matured and were paid off out of the net earnings, shows a profit of $24,289 22; sufficient to cover the deficit of $17,471 27 at the beginning of the year and give a surplus on June 30, 1895, per their general balance sheet, of $6,817 95.

The extensive improvements, designed to lessen the cost of producing coal, in progress for some time past, will be completed during the ensuing year, and better results will necessarily follow.

Liberal expenditures upon the rolling stock and roadway have continued, and the physical condition of your property is greatly improved.

The Board desires to express its thanks to the officers of the company for the efficient services rendered by them.

Statements and statistics of the operations for the year are submitted herewith.

By order of the Board,

ARTHUR G. YATES,
President.

[See comparative tables of earnings and balance sheet, etc., for four years on a preceding page.]

Tennessee Midland RR.—*Foreclosure Sale.*—This road is reported to have been sold this week by the receiver for $1,000,000, the upset price. The only bidder was the St. Louis Trust Company, trustee of the first mortgage.—V. 61, p. 69.

Union Pacific Denver & Gulf Ry.—*New Committee.*—At the request of the owners of about one-fourth of the outstanding bonds of the *Denver Texas & Gulf* and of the *Denver Texas & Fort Worth Railroad* companies, the New York Security & Trust Company invites holders of these bonds to send their names, addresses and the amount of their holdings to it, with a view to the formation of an independent protective committee.—V. 60, p. 928.

Union Pacific Ry.—Kansas Pacific RR.—*Soldiers' Home Suit—Committees*—Judge Beach, of the Supreme Court, has filed an order discontinuing the action in the suit brought by the Soldiers and Orphans' Home of St. Louis against Russell Sage and other executors of the Jay Gould estate.

The Dutcher Kansas Pacific committee has issued a circular to depositors of consolidated bonds of the company announcing its retirement. The committee has effected an agreement whereby such holders can exchange receipts for the transferable certificates of the Tappen Committee, on presenting the first mentioned at the Mercantile Trust Company, without expense. The Tappen Kansas Pacific consolidated first mortgage bondholders' committee announces that holders of receipts of the Continental Trust Company who desire to deposit their bonds with this committee may do so before Nov. 1 without expense, on presenting their receipts at the Mercantile Trust Company. *See advertisement in another column.* V. 61, p. 663.

United States Express.—*Dividend Passed.*—A circular explains that it has been decided to pay no dividend, although the business of the company in the last year shows a considerable increase over that of the preceding year. The directors are unanimous in the opinion that the permanent interests of the shareholders will be best subserved by the accumulation of an increased surplus.—V. 60, p. 393.

—"Railways and Their Employees," by O. D. Ashley, President of the Wabash Railroad, is a discussion of labor organizations, co-operative methods, profit-sharing and socialistic theories. It is a practical and interesting treatise on a subject of vital consequence to all railway men, and indeed to all who are interested in economic questions. The book is published by the "Railway Age," Chicago; price, one dollar.

—The issue of Oct. 15 of *The Evening Wisconsin* is a souvenir number commemorative of the fiftieth anniversary of the city of Milwaukee. The history of the city is told on many pages appropriately and handsomely illustrated.

—Broadway & Seventh Ave. 1st mortgage 5 per cent bonds, due in 1904. Messrs. Wood & Havemeyer, Mills Building, offer a limited amount of these bonds for sale.

—Messrs. R. L. Day & Co., Boston, will sell at auction on Wednesday, Oct. 30, 5,849 shares of American Bell Telephone Company stock.

—Messrs. Redmond, Kerr & Co. advertise a line of high-grade investment securities, to which attention is directed.

—A line of investment bonds is offered in our advertising columns by Messrs. Charles T. Wing & Co.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, October 18, 1895.

The movement of general merchandise continues in encouraging form. Buyers are unwilling to make liberal individual investments, but the number of customers seeking supplies is large and a varied assortment of goods called for. Speculators in staple commodities have found greatest attraction in wheat and cotton, the latter in particular showing animation. Iron and metals are quiet on new orders, but mills and factories generally busily engaged in execution of previously-booked contracts. There is a noticeable increase of foreign demand for manufactured specialties. Export demand for grain has shown only fair average volume, but considerable flour has been purchased to go abroad on through shipment from interior market. The output of flour at the Western mills was of unusually liberal proportions.

The amount of business transacted in lard on the spot has been small, and prices have further declined, closing easy at 6c. for prime Western, 5 65c. for prime City and 6 40c for refined for the Continent. There has been no trading in the local market for lard futures, and nominal prices were quoted lower in response to weaker advices from the West, and under heavy receipts of swine at primary points, closing easy.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
October.....c.	6·07	6·15	6 12	6·05	6 00	5·97

Pork has been in slow request but prices have been unchanged and steady, closing at $9 75@$10 25 for mess, $11 50@$12 for family and $11 50@$13 for short clear. Cut-meats have been in light request and prices have weakened slightly, closing at 6¼@7½c. for pickled bellies, 12@10 lbs. average, 6¼@6½c. for pickled shoulders and 9@9¼c. for pickled hams. Beef has been moderately active and firm, closing at $7 50@$8 for mess, $8 50@$9 for packet, $10@12 for family and $15@$17 for extra India mess. Beef hams have been steady, closing at $23@$25. Tallow has been quiet and prices have weakened slightly, closing at 4¼@4 5 16c. Oleo stearine has been firmer, closing at 6½c. Lard stearine has declined, closing at 6½@7c. Cotton seed oil has been firmly held, closing at 28c. for prime yellow and 23½@24c. for new crop prime crude. Butter has been in fair demand at steady prices, closing at 14@18c. for creamery. Cheese has been fairly active and with limited supplies prices have further advanced, closing at 7@10½c. for State factory, full cream. Fresh eggs have advanced, but the close was dull and easy at 19½@20c. for choice Western.

Coffee secured somewhat irregular attention, but on the whole the movement was more liberal in both jobbing and roasting qualities, with fairly well-sustained rates. Rio quoted at 16c. for No. 7, good Cucuta 18½c. and standard quality Java 27@27½c. Speculation has been moderate and uncertain, the market closing lower, owing to a full crop movement in Brazil.

The following were the final asking prices:

Oct..... 15 40c.	Jan..... 14 75c.	April..... 14 30c.
Nov..... 15 35c.	Feb..... 14 65c.	May..... 14 15c.
Dec..... 14 95c.	March..... 14 50c.	June..... 14 00c.

Raw sugars found less demand, with tone of market easier, but importers have ordered several arriving parcels in store rather than allow concession on cost. Centrifugal quoted at 3⅝c. for 96-degree test. Refined sugars dull and prices reduced; granulated quoted at 4¾c., without rebate.

Kentucky tobacco had a limited call and prices were steady; sales 200 hhds. Seed leaf tobacco has sold fairly well and choice grades brought full values; sales for the week were 2,836 cases, as follows: 500 cases 1894 crop, New England Havana, 15@20c.; 200 cases 1894 crop, New England seed leaf, 17½@23c.; 250 cases 1893 crop, New England Havana, 6½@9½c.; 75 cases 1892 crop, New England Havana, 30@40c.; 200 cases 1892 crop, Pennsylvania Havana, 10½@11c.; 161 cases 1892 crop, Pennsylvania Havana, 11@12c.; 200 cases 1894 crop, Zimmer's, 11¼@12½c.; 150 cases 1893 crop, Zimmer's, 11¼@12½c.; 100 cases 1891-2 crop, Gebhart's, 9@11c.; 150 cases 1892 crop, Wisconsin Havana, 6@8½c.; 125 cases 1892 crop, Wisconsin Havana, 11@17½c.; 175 cases 1894 crop, State Havana, 8@13c.; 250 cases 1894 crop, Pennsylvania Havana, 10@15c., and 300 cases 1894 crop, Pennsylvania seed, 11@13c.; also 1,250 bales Havana, 68c.@$1 05, and 200 bales Sumatra, 45c.@$2 75 in bond.

The speculative dealings in the market for Straits tin have been quiet, and prices have declined in response to weaker foreign advices, closing quiet at 14 35c. Ingot copper has sold slowly, and prices have further declined, closing dull at 11 90@12c. for Lake. Lead has also weakened a trifle, and the close was quiet at 3 77½@3 80c. for domestic. Spelter has declined, but the close was steady at 4 10@4 15c. for domestic. Pig iron has been fairly active and firm, closing at $12 50@14 50 for domestic.

Refined petroleum has been fairly active, closing at 7 10c. in bbls., 4 60c. in bulk and 7 50c. in cases; crude in bbls. has been nominal; naphtha unchanged at 8 25c. Crude certificates have been quiet, closing at $1 24½ asked. Spirits turpentine has been steady, closing at 28½@28¾c. Rosins have advanced, owing to scarcity, closing at $1 55@$1 60. Wool has been in fair demand for foreign grades and firm. Hops have been freely offered and prices have been weak.

COTTON.

FRIDAY NIGHT, October 18, 1895

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 280,659 bales, against 274,435 bales last week and 217,679 bales the previous week, making the total receipts since the 1st of Sept., 1895, 1,074,383 bales, against 1,431,611 bales for the same period of 1894, showing a decrease since Sep. 1, 1895, of 357,228 bales.

Receipts at—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.	Total.

Speculation in cotton for future delivery at this market has been liberal and of an exciting character. The old long interest appeared disposed to accept profits and realize, but a new investing element quickly absorbed the offerings and carried prices to highest level of the season. Saturday opened with cable advices a trifle better than previously calculated upon, and fair buying orders coming in from the South, 6 points gross and 4 points net advance was the result of the session. Monday's reports from abroad, both public and private, were firmer, which, together with renewal of poor crop accounts and reduced estimates of yield, served as a fresh stimulus, and about 14 points average advance was made, closing well sustained. The same general influences prevailed on Tuesday, drawing in a very liberal demand and stimulating a further advance of 22 points, from which there was only slight reaction. Wednesday's dealings in certificates were the largest on record, prices fluctuating sharply and finally closing at 12 points net decline. Thursday there was a decline during early 'Change, but towards the close active buying by "bulls" caused a rally and the close was at a net advance of 1 to 4 points. To-day the market was active and prices broke sharply under heavy liquidation, prompted by heavy interior receipts exclusive of Texas, closing at a decline of 16 to 17 points for the day.

The total sales for forward delivery for the week are 2,161,900 bales. For immediate delivery the total sales foot up this week 2,151 bales, including —— for export, 1,751 for consumption — for speculation and 400 on contract. The following are the official quotations for each day of the past week—October 12 to October 18.

Rates on and off middling, as established Nov. 22, 1895, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1¼ on.	Good Ordinary	c. 1⅛ off.
Middling Fair	⅞ on.	Good Middling Tinged	Even.
Strict Good Middling	⅛ on.	Strict Middling Stained	7/32 off.
Good Middling	5/16 on.	Middling Stained	7/16 off.
Strict Low Middling	3/16 off.	Strict Low Mid. Stained	25/32 off.
Low Middling	7/16 off.	Low Middling Stained	1⅜ off.
Strict Good Ordinary	13/16 off.		

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary	8	8 1/16	8¼	8¼	8 3/16	8⅛
Low Middling	8 11/16	8¾	8 15/16	8 15/16	8⅞	8¾
Middling	9⅛	9 3/16	9⅜	9⅜	9 5/16	9¼
Good Middling	9 7/16	9½	9 11/16	9 11/16	9⅝	9 9/16
Middling Fair	10	10 1/16	10¼	10¼	10 3/16	10⅛

GULF.	Sat.	Mon	Tues	Wed	Th.	Fr
Good Ordinary	8¼	8 5/16	8½	8½	8 7/16	8⅜
Low Middling	8 15/16	9	9 3/16	9 3/16	9⅛	9 1/16
Middling	9⅜	9 7/16	9⅝	9⅝	9 9/16	9⅛
Good Middling	9 11/16	9¾	9 15/16	9 15/16	9⅞	9 13/16
Middling Fair	10¼	10 5/16	10½	10½	10 7/16	10⅜

STAINED.	Sat.	Mon	Tues	Wed	Th.	Fr.
Low Middling	7¾	7 13/16	8	8	7 15/16	7⅞
Middling	8 11/16	8¾	8 15/16	8 15/16	8⅞	8 13/16
Strict Middling	8 29/32	8 31/32	9 5/32	9 5/32	9 3/32	9 1/32
Good Middling Tinged	9 1/16	9 3/16	9⅜	9⅜	9 5/16	9¼

MARKET AND SALES.

The total sales of cotton on the spot and for future delivery each day during the week are indicated in the following statement. For the convenience of the reader we also add a column which shows at a glance how the market closed on same days.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the afloat are this week's returns and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Oct. 18), we add the item of exports from the United States, including in it the exports of Friday only.

☞ The imports into Continental ports the past week have been 16,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 187,070 bales as compared with the same date of 1894, an *increase* of 152,934 bales over the corresponding date of 1893 and a decrease of 195,001 bales from 1892.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1894—is set out in detail below.

Towns	Movement to October 18, 1895. Receipts. This week	Since Sept. 1, '95	Shipm'ts This week	Stock Oct. 18	Movement to October 19, 1894. Receipts. This week	Since Sept. 1, '94	Shipm'ts This week	Stock Oct. 19.
Total, 81 towns.....	234,474	1,122,203	170,235	293,101	307,503	1,122,709	268,807	233,898

* Louisville figures "net" in both years.
‡ This year's figures estimated.
† Last year's figures are for Columbia, S. C.

The above totals show that the interior stocks have *increased* during the week 64,439 bales and are now 34,203 bales *more* than at same period last year. The receipts at all the towns have been 72,329 bales *less* than same week last year and since Sept. 1 are 219,497 bales *less* than for same time in 1894.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Oct. 18	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	*Receipts at the Ports.*			*Stk at Interior Towns.*			*Rec'pts from Plant'ns*		
	1895.	1894.	1895.	1893.	1894.	1895.	1893.	1894.	1895.
Sept. 13.	53,703	83,884	47,536	84,871	66,840	43,275	58,046	96,891	54,923
" 20.	95,842	148,547	91,080	76,756	84,519	66,739	107,734	160,256	114,544
" 27	161,135	265,522	149,139	125,438	159,345	99,587	193,123	225,947	172,987
Oct. 4.....	224,476	347,214	217,659	156,962	184,999	141,778	241,980	276,280	268,830
" 11.	264,150	318,818	274,485	188,773	199,472	204,732	288,359	331,349	336,499
" 18	280,739	341,141	280,659	227,161	233,598	205,191	325,167	427,627	345,098

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 1,309,874 bales; in 1894 were 1,608,174 bales; in 1893 were 1,267,936 bales.

2.—That although the receipts at the outports the past week were 280,659 bales, the actual movement from plantations was only 345,098 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the week were 427,627 bales and for 1893 they were 325,167 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Oct. 18 and since Sept. 1 in the last two years are as follows:

October 18	1895.		1894.	
	Week	*Since Sept. 1.*	*Week.*	*Since Sept. 1*
Shipped—				
Via St. Louis.....	23,992	58,534	38,006	87,526
Via Cairo.....	12,701	24,952	13,753	33,622
Via Parker City.....	1,710	3,309	300	550
Via Evansville.....	.....	.....	.....	177
Via Louisville.....	4,775	8,050	4,348	10,562
Via Cincinnati.....	2,385	5,209	4,828	12,110
Via other routes, &c.....	2,511	7,925	3,660	9,939
Total gross overland.....	48,174	106,789	64,895	154,486
Deduct shipments—				
Overland to N. Y., Boston, &c..	5,454	16,463	8,241	19,825
Between interior towns.....	206	1,110	655	2,058
Inland, &c., from South.....	1,351	6,593	3,123	13,269
Total to be deducted.....	7,082	24,166	12,019	35,152
Leaving total net overland*..	41,112	82,603	52,876	119,334

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 41,112 bales, against 52,876 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 36,731 bales.

In Sight and Spinners' Takings.	1895.		1894.	
	Week.	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*
Receipts at ports to Oct. 18.....	280,659	1,074,383	384,131	1,431,611
Net overland to Oct. 18.....	41,112	82,603	52,876	119,334
Southern consumption to Oct. 18.	19,000	131,000	17,000	117,000
Total marketed	340,771	1,287,986	454,007	1,667,945
Interior stocks in excess.....	64,439	235,491	43,496	176,563
Came into sight during week.	405,210	.....	497,503	.....
Total in sight Oct. 18.....	.....	1,523,477	.....	1,844,508
North'n spinners tak'gs to Oct. 18.	71,755	219,426	84,565	287,359

It will be seen by the above that there has come into sight during the week 405,210 bales, against 497,503 bales for the same week of 1894, and that the decrease in amount in sight to-night as compared with last year is 321,031 bales.

Weather Reports by Telegraph.—Our telegraphic advices this evening indicate that the weather has been dry in the greater part of the South the past week and the temperature has been higher. As a result picking and marketing have made rapid progress. Our correspondent at Memphis states that the Mississippi River at that point is at the lowest stage on record and that receipts by water have been delayed.

Galveston, Texas.—Reports from all sections of the State continue unfavorable. Picking is about over in South and Southeast Texas, and it is claimed that no top crop will be made. In Central and North Texas about three-quarters of the crop, it is asserted, has been gathered. We have had a trace of rain on one day during the week. The thermometer has ranged from 59 to 81, averaging 70.

Palestine, Texas.—We have had no rain the past week. Average thermometer 64, highest 86 and lowest 42.

Huntsville, Texas.—We have had no rain during the week. The thermometer has averaged 62, the highest being 86 and the lowest 38

Dallas, Texas.—Picking is progressing rapidly, and if the weather continues favorable it will be finished in about three weeks from now all over North Texas. A few points report a top growth, but as a rule there will be little or none over this section. No rain all the week. The thermometer has averaged 65, ranging from 42 to 88.

San Antonio, Texas.—Cotton is about all gathered in this vicinity, and the plant is stated to be dead. The yield is claimed to be only one-half of last year. It has been dry all the week. The thermometer has ranged from 48 to 86, averaging 67.

Luling, Texas.—There has been no rain during the week. Average thermometer 67, highest 88 and lowest 46.

Columbia, Texas.—We have had no rain all the week. The thermometer has averaged 65, the highest being 86 and the lowest 44.

Cuero, Texas.—The weather has been dry all the week The thermometer has averaged 66, ranging from 42 to 90.

Brenham, Texas.—We have had no rain during the week. The thermometer has ranged from 50 to 86, averaging 68.

Belton, Texas.—There has been no rain the past week. Average thermometer 64, highest 84, lowest 44.

Fort Worth, Texas.—There has been no rain during the week. The thermometer has averaged 64, the highest being 84 and the lowest 44.

Weatherford, Texas.—We have had no rain the past week. The thermometer has averaged 63, and ranged from 46 to 80.

New Orleans, Louisiana.—It has rained on one day of the week, the precipitation being one hundredth of an inch. Average thermometer 68.

Shreveport, Louisiana.—We have had no rain the past week. Average thermometer 63, highest 84, lowest 46.

Columbus, Mississippi.—We have had no rain during the week. The thermometer has averaged 59, the highest being 82 and the lowest 37.

Leland, Mississippi.—There has been no rain during the week. The thermometer has averaged 61·7, ranging from 39 to 85.

Vicksburg, Mississippi.—It has rained very lightly on one day of the week, the rainfall being too small to measure. The thermometer has ranged from 42 to 81, averaging 63.

Meridian, Mississippi.—It has been clear all the week. Picking is about finished, and it is reported that some planters have sold their last bale. The thermometer has ranged from 40 to 72.

Little Rock, Arkansas.—We have had no rain the past week. Average thermometer 62, highest 83 and lowest 41.

Helena, Arkansas.—Cotton is mostly all open and is being gathered rapidly. Some planters say that picking will be completed before December. We have had no rain during the week. Water is very scarce; the river is very low. The thermometer has averaged 60, the highest being 81 and the lowest 38.

Memphis, Tennessee.—The weather has been dry all the week. Picking and marketing are active, but receipts by river have been delayed owing to low water. The river is one foot and seven-tenths below the zero of the gauge—the lowest on record. The thermometer has averaged 63, ranging from 43·9 to 80·2.

Nashville, Tennessee.—Telegram not received.

Mobile, Alabama.—Picking is nearing completion. Rain has fallen on two days during the week, to the extent of two inches and seventeen hundredths Average thermometer 65, highest 83 and lowest 49.

Montgomery, Alabama.—There has been light rain on one day of the week, the rainfall reaching sixteen hundredths of an inch, but now the weather is dry and warmer. The thermometer has averaged 63, the highest being 74 and the lowest 51.

Selma, Alabama.—Telegram not received.

Madison, Florida.—We have had rain on one day during the week to the extent of thirty hundredths of an inch. The thermometer has ranged from 48 to 75, averaging 63.

Columbus, Georgia.—We have had no rain during the week. Average thermometer 63, highest 76 and lowest 48.

Savannah, Georgia.—We have had rain on two days of the week, the precipitation being two hundredths of an inch. The thermometer has averaged 67, the highest being 84 and the lowest 49.

Augusta, Georgia.—There has been rain on one day during the week, the rainfall being thirty-six hundredths of an inch, The thermometer has averaged 62, ranging from 42 to 81.

Albany, Georgia.—Telegram not received.

Charleston, South Carolina.—There has been rain on two days of the week, the precipitation being five hundredths of an inch. Average thermometer 67, highest 80 and lowest 53.

Stateburg, South Carolina.—We have had rain on one day during the week to the extent of thirty-one hundredths of an inch. The thermometer has averaged 60, the highest being 77 and the lowest 39.

Greenwood, South Carolina.—Rain has fallen on one day of the week, to the extent of forty-four hundredths of an inch. Average thermometer 49.

Wilson, North Carolina.—It has rained on one day of the week, the precipitation reaching forty-eight hundredths of an inch. The thermometer has ranged from 42 to 72, averaging 61.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock October 17, 1895, and October 18, 1894.

	Oct. 17, '95.	*Oct. 18, '94.*
	Feet	*Feet*
New Orleans.....Above zero of gauge.	3·0	3 0
Memphis.....Below zero of gauge	1·7	0·0
Nashville.....Above zero of gauge.	0·4	*0·2
Shreveport.....Below zero of gauge.	3 6	3·6
Vicksburg.....Below zero of gauge.	3·7	1·9

* Below zero of gauge.

India Cotton Movement From All Ports.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to October 17.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	*Shipments this week.*			*Shipments since Sept. 1.*			*Receipts*	
	Great Brit'n.	*Continent.*	*Total.*	*Great Britain*	*Continent.*	*Total*	*This Week.*	*Since Sept. 1.*
1895	.....	5,000	5,000	.....	27,000	27,000	10,000	63,000
1894	.....	4,000	4,000	5,000	12,000	17,000	3 000	20 000
1893	..	3,000	3,000	2,000	28,000	30,000	11,000	57,000
1892	1,000	4,000	5,000	2,000	27,000	29 000	4,000	20 000

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 7,000 bales and a *increase* in shipments of 1,000 bales, and the shipments since Sept. 1 show an *increase* of 10,000 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week.			*Shipments since Sept 1*		
	Great Britain.	*Continent.*	*Total.*	*Great Britain.*	*Continent*	*Total.*
Calcutta—						
1895.....	.....	.....	.....	1,000	2,000	3,000
1894.....	.....	1,000	1,000	1,000	2,000	3,000
Madras—						
1895.....	3,000	1,000	4,000	9,000	5,000	14 000
1894.....	2,000	1,000	3,000	7,000	6,000	13,000
All others—						
1895.....	.....	3,000	3,000	6,000	12,000	18,000
1894.....	2,000	.....	2,000	7,000	11,000	18,000
Total all—						
1895.....	3,000	4,000	7,000	16,000	19,000	35,000
1894.....	4,000	2,000	6,000	15,000	19,000	34,000

The above totals for the week show that the movement from the ports other than Bombay is 1,000 bales more than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1895, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1895.		1894.		1893	
	This week.	*Since Sept. 1.*	*This week.*	*Since Sept. 1.*	*This week.*	*Since Sept. 1.*
Bombay.....	5,000	27,000	4,000	17,000	3,000	30,000
All other ports	7,000	35,000	6,000	34,000	5,000	30,000
Total	12,000	62,000	10,000	51,000	8,000	60,000

Alexandria Receipts and Shipments.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, October 16	1895.		1894		1893.	
Receipts (cantars*).....						
This week.....	250,000		115,000		120,000	
Since Sept. 1.	735,000		280,000		251,000	
	This week.	*Since Sept. 1*	*This week*	*Since Sept. 1.*	*This week*	*Since Sept. 1.*
Exports (bales)—						
To Liverpool	12,000	29.000	4,000	18,000	8,000	17,000
To Continent†.....	5,000	17,000	4,000	28,000	4,000	19,000
Total Europe.....	17,000	46,000	8,000	46,000	12,000	36,000

* A cantar is 98 pounds.

† Of which to America in 1895, 1,600 bales; in 1894, 1,205 bales; in 1893, 1,320 bales.

his statement shows that the receipts for the week ending Oct. 16 were 250,000 cantars and the shipments to all Europe 17,000 bales.

MANCHESTER MARKET.—Our report received by cable to night from Manchester states that the market is firm for both yarns and shirtings. The demand for India is poor. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1895.				1894.

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (October 18) and since Sept. 1, 1895, the stocks to-night, and the same items for the corresponding periods of 1894, are as follows:

Receipts to Oct. 18	1895.		1894.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1895	1894
Savannah	4,647	13,642	3,241	13,6 6	6,891	7,018
Charleston	537	1,000	160	48	1,167	957
Florida, &c.	80	118	191	2	707	1,175
Total	5,324	14,9 6	3,892	14,810	8,725	9,160

The exports for the week ending this evening reach a total of 2,745 bales, of which 2,450 bales were to Great Britain, 295 to France and — to Reval, and the amount forwarded to Northern mills has been 1,928 bales. Below are the exports for the week and since September 1 in 1895 and 1894.

Exports from—	Week Ending Oct. 18.			Since Sept. 1, 1895.			North'n Mills	
	Great Brit'n.	France &c.	Total.	Great Brit'n	France &c.	Total	Week	Since Sept. 1

Total	2,450	295	2,745	3,0 8	52	3,543	1,928	3,073
Total 1894	617	.....	617	1,451	367	1,818	1,274	4,920

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations October 18 at Savannah, for Floridas, common, 10c.; medium fine, 12½c.; choice, 15½c.

Charleston, Carolinas, medium fine, 20 to 22c; fine, 24 to 26c.; fully fine, 28 to 30c.; extra fine, 35 to 40c.

EXPORTS OF COTTON GOODS FROM GREAT BRITAIN.—Below we give the exports of cotton yarn, goods, &c., from Great Britain for the month of September and since October 1 in 1894-95 and 1895-96, as compiled by us from the British Board of Trade returns. It will be noticed that we have reduced the movement all to pounds.

Total exports of cotton manufactures							1,269,304	1,252,073

The foregoing shows that there has been exported from the United Kingdom during the twelve months 1,269,304,000 lbs. of manufactured cotton, against 1,252,073,000 lbs. last year, or an increase of 17,291,000 lbs.

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during September and since October 1 in each of the last three years:

EXPORTS OF PIECE GOODS AND YARNS TO PRINCIPAL COUNTRIES IN SEPTEMBER, AND FROM OCTOBER 1 TO SEPTEMBER 30.

JUTE BUTTS, BAGGING, &C.—There has been a dull market for jute bagging the past week, no sales being reported. Quotations this evening are 4½c. for 1¾ lbs., 4½c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4½c for 1¾ lbs., 4⅝c. for 2 lbs and 5⅛c. for 2¼ lbs. f. o. b. at New York. Jute butts on the spot have been very quiet and are quoted at 1 1-16c. for paper quality and 1½c. for mixing. Bagging quality is nominal in the absence of stock.

THE EXPORTS OF COTTON from New York this week show an increase compared with last week, the total reaching 21,782 bales, against 19,224 bales last week. Below we give our usual table, showing the exports of cotton from New York, and the direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1895, and in the last column the total for the same period of the previous year.

EXPORTS OF COTTON (BALES) FROM NEW YORK SINCE SEPT. 1, 1895.

BREADSTUFFS.

Friday, October 18, 1895.

The amount of business transacted in the market for wheat has been small, but prices have been steadily maintained; winter grades having been in light supply, and of spring grades millers were in most cases sold ahead, and consequently were not disposed to enter into further negotiations except at full quoted values. City mills have had only a moderate call, but prices have been well held. Rye flour has been quiet and unchanged. Buckwheat flour has sold slowly, but prices have held steady. Corn meal has been moderately active at steady prices. To-day the market for wheat flour was quiet but steady.

Speculation in the market for wheat futures has been quiet, and early in the week prices declined under realizing sales by "longs," prompted by dull and easier foreign advices, but subsequently continued unfavorable weather advices from the winter-wheat belt for seeding stimulated a demand from "shorts" to cover contracts, and part of the loss was recovered. In the spot market shippers were fairly large buyers during the latter half of the week, and prices advanced, particularly for red winter grades; millers have also been moderate buyers. The sales yesterday included No. 2 red winter at 2c. over December, f. o. b. afloat; choice do. at 1½c. over December in store; No. 1 Northern at ¾c. over December f. o. b. afloat; No. 1 frosted Manitoba at 10c. under December, c. i. f., to Buffalo, and No. 2 Manitoba at 5c. under December do. To-day the market opened higher in response to stronger foreign advices, but subsequently weakened under predictions of rain in the winter-wheat districts. The spot market was quiet. The sales included No. 2 red winter at 2c. over December f. o. b. afloat and No. 1 hard spring at 3c. over December f. o. b. afloat.

Indian corn futures have been quiet, but prices have steadily advanced on buying by shorts to cover contracts, stimulated by large clearances from the seaboard and predictions of a decrease in the crop movement. In the spot market a moderate amount of business has been transacted with shippers and prices have advanced with futures. The sales yesterday included No. 2 mixed at 39c. delivered and 2⅛c. over Oct. f.o.b. afloat for delivery end of October; yellow at 38½c in elevator and No. 2 white at 38½c. in elevator. To-day the market was fractionally higher on stronger foreign advices. The spot market was quiet. The sales included No. 2 mixed at 2⅜@2½c. over Oct. f.o.b. afloat.

May delivery .....c.	35 1 2	35 3 8	35 5 8	35 7 8	35 7 8	35 3 4

Oats for future delivery have been dull but prices have made fractional advances in sympathy with the improvement in corn and on buying by a few shorts to cover contracts. The spot market has been fairly active with shippers buying, having taken 100,000 bushels No. 2 mixed at about 25 5/8@25 7/8c. f. o. b. afloat. To-day the sales included No. 2 mixed at 24¼c. in elevator and No. 2 white at 25½c. in elevator. To-day the market was quiet and easier. The spot market was weaker. The sales included No. 2 mixed at 23⅞c. in elevator and No 2 white at 24¼c. in elevator.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., October 18, 1895.

There has been no material change in the demand for staple cottons during the past week and the market has presented a generally quiet appearance, with few advances in prices recorded in either brown, bleached or coarse-colored cottons, and these have been more of an evening up character than marking new high limits. Sellers do not show any growing disposition to meet buyers despite the fact that most of the mills must be catching up on orders, and the tone continues quite strong. The uncertainty as to the course of prices of cotton and the fact that the full effect advance in manufactured goods has not kept pace with the rise in raw material are factors tending to the exercise of caution in undertaking new obligations except for the near future, and most important mills are already covered with orders for some time to come. The print cloth market has advanced 1-16c., and the influence of this continued upward movement is seen in various advances in the more staple lines of prints. Staple woolens for men's wear are advancing, but beyond this the woolen goods division of the market shows little alteration. The general jobbing trade is moderate, but has a tendency towards improvement as retailers' supplementary requirements develop.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending October 14 were 2,362 packages, valued at 138,084, their destination being to the points specified in the table below:

NEW YORK TO OCT. 14	1895.		1894	
	Week	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	123	3,916	41	4,642

Total.....	4,548	180,783	2,845	193,463

* From New England mills, points direct.

The value of the New York exports for the year has been $7,127,111 in 1895 against $9,050,932 in 1894.

The market for brown goods has been quiet throughout. The general demand is for moderate quantities and special bids in volume for later deliveries are mostly turned down. Sheetings and drills are unchanged in price, but some makes of ducks and osnaburgs are advanced 1½c. per yard. In coarse colored cottons incidental advances of ¼c. to ½c. also are noted, but the general market for denims, ticks, plaids, etc., is unchanged but quite firm at full prices, with a quietly steady business passing. In bleached cottons of all grades moderate sales only are reported, but stocks being light prices are firmly maintained. No change is noted in wide sheetings, for which the demand is slow. Cotton flannels are against buyers and cotton blankets strongly held. Quilts are firm at recently advanced price, and lace curtains marked up 10 to 15 per cent in some makes. There is but a slow demand for kid-finished cambrics at previous prices. Fancy calicoes are in limited supply in dark work and very firm, with advances of ¼c. recorded in indigo blues, shirtings, mournings, grays, robes and draperies. Staple ginghams well controlled by agents and prices firm. Dress ginghams unchanged in all respects. Print cloths have advanced 1-16c. to 3 5 16c. for extras with a moderate business reported. Odd goods also advancing, 38½ inch 64 squares sold at 4¾c.

Stock of Print Cloths—	1895. Oct. 12.	1894. Oct. 13.	1893. Oct. 14.
At Providence, 64 squares.....	103,000	41,000	185,000
At Fall River, 64 squares.....	29,000	16,000 }	418,000
At Fall River, odd sizes.....	58,000	103,000 }	
Total stock (pieces).....	190,000	160,000	603,000

WOOLEN GOODS.—Manufacturers of Clay worsteds are all well sold ahead, and in a better position to enforce their own prices than those handling other makes of men's-wear fabrics. Buyers discover this when re-ordering, and have had to pay advances this week of 7½ to 10 per cent over original orders. In other directions the men's-wear market has shown little change, the general demand being quiet and sellers meeting it at previous prices despite the increased cost of raw material. Prospects for the coming heavy-weight season are, however, more promising. Low-grade fabrics in cotton warps, satinets, etc., are quiet and unchanged. Cloakings in moderate request and overcoatings generally slow. Woolen and worsted dress goods very firm for spring in all desirable lines and well ordered. Carpets are firm and occasionally dearer in ingrains, with flannels and blankets quiet at full prices.

FOREIGN DRY GOODS.—Business has been quiet in dress goods for spring, foreign makes being largely withdrawn from sale; prices tending upward. Silks and ribbons well ordered at firm prices and more doing in laces. Linens firm and in fully average demand. Men's wear fabrics for new heavy weight season are being shown, but in worsteds prices quoted are above buyers' present ideas.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending October 17, and since January 1, 1895, and for the corresponding periods of last year are as follows:

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

Brooklyn's Borrowing Capacity.—According to a statement made this week by City Treasurer John D. Kelley, Brooklyn's borrowing capacity on January 1, 1894, was $3,697,150 60, and on January 1, 1896, it will be $2,925,074 10. The net increase of the city's debt in 1894 was $1,609,678 27 and during 1895 it will be $1,981,000. In the year 1894 the amount of bonds and certificates issued was $5,688,361, of which the sinking fund took $4,572,000. There were redeemed in 1894 bonds and certificates to the amount of $4,078,682 73. During 1895 the bonds and certificates sold and to be sold will aggregate $4,454,000. The bonds and certificates redeemed and to be redeemed aggregate $2,473,000.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Asbury Park, N. J.—*Bond Offering*—Bids will be received until Oct. 21, 1895, for $10,000 of 5 per cent fire bonds to be dated Oct. 1, 1895, and to mature in twenty years, with option of call after five years. Interest will be payable semi-annually on April 1 and Oct. 1. The total debt of the borough is $217,220 35, including water bonds $142,000, road bonds $15,500, school bonds $52,250 and a net floating debt of $7,470 35.

The assessed valuation for 1895 is $3,156,325, real valuation being about $9,468,975.

For further particulars regarding the sale of these bonds see advertisement elsewhere in this Department.

Ballard School District No. 50, King County, Wash.—This school district will vote a second time on bonds to the amount of $18,000. A loan for this amount was awarded in September to Messrs. Morris & Whitehead, of Portland, but was rejected on the ground of illegality, as the notice for the previous election had not been posted the full length of time required by law. The securities will be dated October 1, 1895; interest at a rate not exceeding 6 per cent will be payable semi-annually, and the principal will mature September 30, 1915, both principal and interest to be payable at the County Treasurer's office or at the State's Fiscal Agency, New York, at the option of the purchaser.

The total debt of the district is at present $38,000, including $20,000 of bonds, the remaining $18,000 to be paid from the proceeds of the above-mentioned issue. Its assessed valuation for 1894 was $983,550. The valuation of improved real estate belonging to the district, including school buildings, is $20,625; valuation of school furniture, $2,100. The population, according to local figures, is 3,000.

Bayfield County, Wis.—*Bonds Authorized.*—The people of this county voted September 18 in favor of issuing $240,000 of bonds in aid of the Washburn Bayfield & Iron River Railroad. John Froseth, County Clerk, reports to the Chronicle that the securities will not be offered for sale, but will be deposited with the Illinois Trust & Savings Bank at Chicago, and delivered to the Railroad Company, in six separate lots each, when a certain number of miles of road are built and trains running thereon.

Blue Earth City, Minn.—*Bond Sale.*—On October 8, 1895, the village of Blue Earth City sold $10,000 of 20-year bonds to Messrs. Dietz, Denison & Prior, of Cleveland, O., for $10,321, the loan to bear interest at the rate of 5½ per cent. The securities are dated October 1, 1895, and interest is payable annually, both principal and interest being payable at the Chemical National Bank, New York.

A list of the bids received for the loan is as follows:

	Premium.
Dietz, Denison & Prior, Cleveland, O., for 6 per cent bonds	$807 00
Dietz, Denison & Prior, Cleveland, O., for 5½ per cent bonds	321 00
E. H. Gay & Co., Chicago, Ill., for 6 per cent bonds	781 00
E. H. Gay & Co., Chicago, Ill., for 5½ per cent bonds	181 00

W. E. C. Ross, Blue Earth City, Minn., for 6 per cent bonds	706 00
C. H. Brown, Mapleton, Minn., for 6 per cent bonds	550 00
F. M. McKay, Chicago, for 6 per cent bonds	500 00
W. J. Hayes & Son, Cleveland, for 6 per cent bonds	455 00
Mason, Lewis & Co., Chicago, for 6 per cent bonds	449 00
First National Bank, St. Paul, for 6 per cent bonds	405 60
C. A. Smith, St. Paul, for 6 per cent bonds	400 00
E. D. Shepard & Co., New York, for 6 per cent bonds	302 00
Illinois Trust & Savings Bank, for 6 per cent bonds	300 00
E. W. Peet & Son, St. Paul, for 6 per cent bonds	268 00
Dr. Henry F. Hoyt, St. Paul, for 6 per cent bonds	250 00
C. Livingston, St. Paul, for 6 per cent bonds	228 00
Mills & Blanchard, Boston, for 6 per cent bonds	217 00
Farson, Leach & Co., Chicago, for 6 per cent bonds	212 50
F. W. Welcome, Minneapolis, for 6 per cent bonds	200 00
I. B. Thurman & Co., Chicago, for 6 per cent bonds	60 00
S. A. Kean, Chicago, for 6 per cent bonds	25 00
State Savings Bank, St. Paul, for 6 per cent bonds	25 00

Brooklyn, N. Y. *Bond Offering.*—Proposals will be received until October 25, 1895, by George W. Palmer, City Comptroller, for the purchase of $800,000 of 4 per cent registered tax certificates, maturing December 27, 1895. Payment of purchase money must be made October 29, 1895, at which time the securities will be dated. Interest will be payable at the date of maturity.

Buffalo, N. Y.—*Bond Sale.*—It is reported that on October 17, 1895, the city of Buffalo sold $77,000 of 3½ per cent refunding bonds to Joseph E Gavin of Buffalo at 103·0975 and accrued interest. The securities are dated October 1, 1895, interest is payable semi-anually on April 1 and October 1, and the principal will mature October 1, 1915.

The following is a list of the bids which were received for the loan:

	Bid.
Joseph E. Gavin, Buffalo	103·0975
Dietz, Denison & Prior, Cleveland	102·87
Storrs & Smith, New York	102·80
Farson, Leach & Co., New York	102·76
Roberts & Co., New York	102·82
R. L. Day & Co., Boston	102·329
Whann & Schlesinger, New York	102·147
Frank J. Rooth, Buffalo	102·20
Geo. M. Hahn, New York	102·13
U. S. Mortgage & Trust Co., New York	102·07
Walter Stanton & Co., New York	102·029
The Lamprecht Bros. Co., Cleveland	101·775
Western Savings Bank, Buffalo	101·44
W. I. Quintard, New York	101·29
W. J. Hayes & Co., Cleveland, O.	101·09
John A. Donaldson, Buffalo	100·97
Daniel A. Moran & Co., New York	100·789
Edward C. Jones Co., New York	100·67

Camden, N. J.—*Bond Issue*—The city of Camden, N. J. will issue $75 000 of 4 per cent park bonds to the trustees of the Cooper estate in payment for land purchased.

Cicero, Ill.—*Bond Litigation*—No definite action has yet been taken by the town officers in regard to issuing $102,411 95 of 4 per cent twenty-year funding bonds, as the matter is still in the hands of the Court. The securities were offered for sale on September 29, but an injunction was requested to restrain the floating of the loan on the ground that a part of the indebtedness which it is proposed to refund was illegally incurred.

Cold Spring, N. Y.—*Bond Offering*—Proposals will be received until Oct. 25 by Henry Metcalfe, President of the Board of Water Commissioners of the village of Cold Spring, N. Y., for $40,000 of 4 per cent sinking fund water bonds. The securities will be in the form of coupon bonds, with privilege of registration. They will be dated Nov. 1, 1895, interest will be payable May 1 and Nov. 1, and the principal will mature Nov. 1, 1925. Both principal and interest will be payable at the office of the United States Mortgage & Trust Company of New York City. The securities will be certified as to identity by the United States Mortgage &

Trust Company and will have opinion of counsel as to legality endorsed on each bond.

The official advertisement of these bonds will be found elsewhere in this Department.

Dayton, Ky.—*Bids Rejected.*—C. B. Hayward, City Clerk, reports to the CHRONICLE that $8,000 of 6 per cent street improvement bonds offered for sale October 10 have not been disposed of, the bids having been rejected. Three proposals were received as follows:

Seasongood & Mayer, of Cincinnati, O., offered par.
John Trapp, of Dayton, Ky., offered 101.50.
R. Kleybolte & Co., of Cincinnati, O., offered 102.021.

The securities will be sold privately. Interest is payable semi-annually and the principal will mature in ten years.

Duluth, Minn.—*Bond Offering.*—Proposals will be received until November 11, 1895, by C. E. Richardson, City Clerk, for the purchase of $1,000,000 of 4 per cent water and light bonds. The securities will be dated December 2, 1895, interest will be payable semi-annually on January 1 and July 1, and the principal will mature December 2, 1925, both principal and interest to be payable in gold coin at the American Exchange National Bank, New York. Two hundred thousand dollars of the amount will be delivered December 2, 1895; $300,000 March 1, 1896; $200,000 July 1, 1896; $100,000 January 1, 1897; $100,000 April 1, 1897, and $100,000 July 1, 1897. These bonds are part of an authorized issue of $1,856,000 voted September 24, 1895.

The city's bonded debt is at present $1,920,250; floating debt, $397,362; sinking fund, $45,700; special assessment debt, additional, $680,748. The assessed valuation for 1895 of real estate is $35,948,886; personal property, $4,814,493; total, $40,663,379; estimated real valuation, $80,500,000. The population, according to the State census of 1895, is 59,396.

The following extracts from the City Charter and a decision of the Supreme Court are appended to the City Clerk's announcement of the bond issue described above:

City Charter.—The City of Duluth is hereby authorized to issue water and light bonds to such an extent as may be necessary for the purpose of erecting and maintaining suitable water and light plants, or for purchasing any water or light plant in operation in said city. Said bonds shall be issued, sold and evidenced in the same manner as the general bonds of the city, except as hereinafter provided. They shall be a first lien upon all water and light appliances and structures of every kind erected, owned or purchased by said city, and *the amount of indebtedness required in order to secure said water and light plants shall not be deemed to be a part of the general indebtedness of the city heretofore referred to as not to exceed* [illegible] *per cent of the assessed valuation of property within said city*, but shall be held to be a special indebtedness, and shall be, as hereinbefore stated, a special and exclusive lien upon all water and light franchises purchased by said city in whole or part by said funds.—Extract from City Charter of the City of Duluth, as found in the act of the Legislature of the State of Minnesota, entitled an Act "To define the boundaries of, and establish a Municipal Government for the City of Duluth," approved March 2, 1887, and the acts amendatory thereof, being a part of Section 35, chapter 55, Special Laws of Minnesota, 1891.

Supreme Court Decision.—"If these bonds were not to be considered as a part of the general indebtedness of the city, all reference to the five per cent clause was superfluous and unnecessary. There can be no doubt but that while these bonds—undoubtedly for better security—are made a special and exclusive lien upon the plants, they are a part of the bonded indebtedness of the city as much as any other bonds.—Extract from Supreme Court decision. Woodbridge vs. City of Duluth, *et al*, May 11, 1894. 59 N. W., page 296."

Everett, Mass.—*Loan Authorized.*—This city will borrow $8,500 for street purposes.

Everett, Wash.—*Bond Issue.*—The City Council of Everett has ordered that $81,900 of 6 per cent bonds be issued to Messrs. Morris & Whitehead, of Portland, in exchange for outstanding warrants at par. About one-half of the securities are payable in ten years and the remainder in twenty years. The issue was authorized at an election held June 15.

Falmouth, Ky.—*Bonds Authorized.*—Bonds to the amount of $15,000 have been voted for water-works.

Ford County, Kan.—*Bids Rejected.*—J. H. Leidigh, County Clerk, reports to the CHRONICLE that all bids received on October 7 for the purchase of $55,000 of 5 per cent 20-year funding bonds were rejected.

Fort Worth, Texas.—*Bonds Authorized.*—Five per cent water-bonds to the amount of $12,000, maturing January 1, 1916, have been authorized.

Glastonbury, Conn.—*Bonds Proposed.*—Three and one-half per cent refunding bonds of this city to the amount of $100,000 are under consideration.

☞ For other proposals see next page.

4 PER CENT SEWER NOTES

PLAINFIELD, N. J.

CORPORATION NOTICE.

Pursuant to a resolution adopted by the Common Council of the city of Plainfield, New Jersey at a meeting thereof held October 14th, 1895, notice is hereby given that the Common Council will meet on Monday, October 28th instant at 8 o'clock P. M. at the Council Chamber, No. 139 Park Avenue, in the city of Plainfield, at which time and place said Common Council will receive and open sealed proposals for furnishing to the city moneys that may be needed and expending part of the construction of the sewerage system now being introduced in the said city under and by virtue of the ordinance of said city entitled "An Ordinance to provide for the construction of a system of sewerage," approved July 25th, 1895, and other ordinances relative to contracts and proceedings relative to the introduction or construction of said sewerage system, including moneys to take up bonds heretofore made by said city in the premises said moneys to be loaned on the notes of the city bearing date and interest having one year to run, subject to renewal, to be issued from time to time in such amounts as may be required and as soon as bonds are issued as authorized by the Act of the Legislature under which said sewerage system is being constructed, said notes to be redeemable for said bonds in whatever extent said bonds may be issued which bonds shall bear interest at the rate of four per cent per annum payable semi-annually and interest to be payable in gold. Any person desiring a greater amount of money required, bonds are referred to the records in the office of the City Clerk of the city of Plainfield.

Upon receipt of the bids or proposals the Council will immediately proceed to unseal the same and publicly announce the contents in the presence of the parties bidding or their agents, provided said parties or agents choose to be there, and there proceed and take the most proper course of the offers and terms of the bidders of the Council.

The right to reject any or all bids is expressly reserved by the Council as aforesaid.

All proposals must be endorsed "Proposals for furnishing moneys to the city of Plainfield for the construction of sewerage system."

By order of the Common Council of the city of Plainfield.

Dated October 14, 1895.

Harris County, Tex.—*Bond News.*—Jail bonds of this county for $100,000 have been approved by the Attorney-General and registered with the State Comptroller.

Haverhill, Mass.—*Bond Offering.*—Proposals will be received until October 23 for the purchase of $100,000 of coupon bonds. The securities will be dated October, 1895, will bear interest at the rate of 4 per cent and will mature in 10 years

Highland Park, Mich.—*Bonds Proposed.*—Water-works bonds to the amount of $40,000 and sewer bonds to the amount of $60,000 are under consideration.

Houston, Tex.—*Bonds Authorized.*—Five per cent 40-year street-paving bonds of this city to the amount of $100,000 have been authorized by the Council. The securities will be dated November 1, 1895, and interest will be payable semi-annually on May 1 and November 1. Both principal and interest will be payable at the office of the Union Trust Company, the bonds to be payable in gold coin. Payment of principal and interest will be provided for by sinking fund. The date of sale has not yet been fixed.

Hubbard, Ohio.—*Bond Offering.*—Henry Holzbach, Treasurer, reports to the *Chronicle* that $6,000 of electric-light bonds of Hubbard will be offered for sale next week. The securities will bear interest at the rate of 5 per cent, and will become due at the rate of $600 yearly from July, 1899, to July, 1908. These are the bonds issued by this municipality.

Jamestown, N. Y.—*Bonds Authorized.*—Four per cent paving bonds to the amount of $13,000 have been authorized by the Council, the loan to mature October 1, 1905.

Five per cent certificates of indebtedness to the amount of $26,500, maturing at the rate of $5,300 yearly in from one to five years, have also been authorized by the Council.

Jersey City, N. J.—*Bonds Authorized.*—This city will issue improvement bonds of $600,000 in anticipation of taxes.

Kittitas County, Wash.—*Bonds Authorized.*—Bonds to the amount of $119,000 will soon be offered for sale.

Lancaster, Pa.—*Bonds Authorized.*—Four per cent bonds to the amount of $10,000 will soon be issued by the School Board. These are part of an authorized issue of $40,000.

Lestershire, N. Y.—*Bonds Authorized.*—The citizens of this municipality have voted to issue bonds for the purchase of the water-works.

Le Sueur, Minn.—*Bonds Authorized.*—It is reported that this municipality will issue $20,000 of 5 per cent water-works and electric-light bonds.

London, Ohio—*Bond Offering.*—Proposals will be received until November 8, 1895, by John D. Redden, Village Clerk, for the purchase of $15,000 of 6 per cent electric-light bonds. The securities will be dated Nov. 8, 1895, and will become due at the rate of $1,000 yearly from Jan. 1, 1898, to Jan. 1, 1912, payable at the London Exchange Bank, London, O. The first instalment of interest will be payable July 1, 1897, and semi-annually thereafter.

Bond Election.—The citizens of London will vote November 5 on issuing $40,000 of bonds for the erection of a hall and public offices.

Louisville, Ky.—*Bond News.*—An amendment to the city's charter is proposed to provide for the issuance of 10-year street improvement bonds which shall be subject to call at any time.

Long Island City—*Bond News*—Judge Bartlett of the Supreme Court has decided the suit between Lucien Knapp, Treasurer of Long Island City, and Mayor Stanford and the Common Council, over the issuance of $119,135 75 of revenue bonds. Mr. Knapp refused to issue the bonds because the law expressly provides that the proceeds must be used exclusively for the purpose for which the taxes themselves had been intended. His position is sustained by Judge Bartlett.

Newberry, S. C.—*Bonds Proposed.*—Bonds from $25,000 to $30,000 will probably be issued for water-works.

New Britain, Conn.—*Bond Offering.*—Proposals will be received until October 24, 1895, at the office of the Board of Sewer Commissioners, No. 359 Main Street, Room 12, for the purchase of $25,000 of 4 per cent sewer bonds. The securities are dated October 1, 1895, interest will be payable semi-annually on February 1 and August 1, and the principal will

mature in 30 years, with an option of call after 15 years. This is part of an authorized issue of $100,000.

New Brunswick, N. J.—*Bond Sale.*—On October 15, 1895, the city of New Brunswick sold $65,000 of refunding bonds to C. Zabriskie, of Jersey City, at 105 17, the loan to bear interest at the rate of 4½ per cent. The securities are to be dated November 1, 1895, interest will be payable semi-annually on May 1 and November 1 at the office of the City Treasurer, and the principal will mature November 1, 1920. Nine bids were received for the loan as follows:

S. A. Kean, Chicago, offered par for 4½ per cent bonds.
National Bank of New Jersey offered par for 4½ per cent bonds.
Edwin C. Jones Co., New York, bid 104·76 for 4½ per cent bonds, subject to legality of securities.
J. B. Farlee & Bro. bid 96·86 for 4 per cent bonds.
Parson, Leach & Co., New York, bid par and $101 premium for 4½ per cent bonds.
Bet well & Everitt bid 103·85 and accrued interest for 4½ per cent bonds.
E. H. Rollins & Sons, Boston, bid 102·01 and accrued interest for 4½ per cent bonds.
Storrs & Smith, New York, bid 102·07 and interest for 4½ per cent bonds.
C. Zabriskie, Jersey City, bid 105·17 for 4½ per cent bonds.

New Haven, Conn.—*Bond Offering.*—Proposals will be received until November 1, 1895, for the purchase of $125,000 of 4 per cent school bonds, the loan to run 30 years.

New Haven County, Conn.—*Bond Offering.*—Proposals will be received until October 26, 1895, at the office of the County Commissioners for the purchase of $150,000 of 3½ per cent coupon bonds. The securities will be dated November 1, 1895, interest will be payable semi-annually on May 1 and November 1 at the office of the County Treasurer, and the principal will mature November 1, 1915, with an option of call at any time upon payment of 2 per cent premium, both principal and interest to be payable in gold. Bonds may be registered if desired by the holder.

The county has at present only a floating debt of $35,000. Its assessed valuation is over $100,000,000.

Newton, Mass.—*Bond Sale.*—It is reported that on October 11, 1895, the city of Newton sold $75,000 of 4 per cent coupon school-house bonds at 106·67 and accrued interest. The securities are dated August 1, 1895. Interest will be payable semi-annually on February 1 and August 1 at the office of the City Treasurer, or at the National Revere Bank, Boston, and the principal will mature August 1, 1915.

Niagara Falls, N. Y.—*Bond Sale.*—On October 11, 1895, the city of Niagara Falls sold $4,500 of 4 per cent redemption school bonds to Isaac W. Sherrill, of Poughkeepsie. Interest is payable semi-annually at the Hanover National Bank, New York, and the principal will mature in twenty years. Four bids in all were received for the loan.

North Dakota—*Bond Sale*—On Oct. 10, 1895, the State of North Dakota sold $38,000 of 4 per cent refunding bonds to Messrs. C. H. White & Co., of New York. The securities are dated July 1, 1895, interest is payable semi-annually on Jan. 1 and July 1, and the principal will mature in 20 years; both principal and interest to be payable at the Chemical National Bank, N. Y.

Three other bids were received for the securities as follows:

	Bid.
Edward C. Jones Co., New York	101⅛
S. H. Kean & Co., Chicago	100⅛
Theis & Bawoll, Spokane	101½

Philadelphia, Pa.—*Bond Sale.*—Bids have been received during this week for $634,300 of the 3 per cent city loan, which has been offered at par in sums of $100 or multiples thereof. The subscriptions received on Monday, the first day of the sale, amounted to $378,660.

The bonds will be exempt from all taxes, interest commencing July 1, 1895, will be payable semi-annually on Jan. 1 and July 1, and the principal will mature at the rate of $60,000 yearly from December 31, 1905, to December 31, 1934. Settlement in full must be made with the City Treasurer within ten days after the subscription is made.

Plainfield, N. J.—*Sewer Notes.*—The Common Council of Plainfield, N. J., will receive bids until October 28th for the purchase of 4 per cent one-year sewer notes of the city not to exceed $100,000 in amount. The notes are to be subject to renewal and will be issued from time to time in such amounts as may

be required. The notes will be exchangeable for 4 per cent gold bonds when the latter securities are issued.

The official advertisement of the City Clerk, James T. McMurray, will be found elsewhere in this Department.

Richland County, N. D.—*Bond Sale.*—On October 8, 1895, the county of Richland sold $45,000 of 5 per cent bonds—$15,000 running 10 years, $15,000 15 years and $15,000 20 years—to the Farmers' & Mechanics' Savings Bank of Minneapolis, Minn., for $47,401 and accrued interest. Four bids in all were received.

Rockbridge County, Va.—*Bond Election.*—The people of this county will vote on the proposition of issuing court-house bonds to the amount of $30,000.

Santa Rosa, Cal.—*Bond Sale.*—Water-works bonds of this city have recently been sold.

Sandusky, Ohio—*Bond Offering.*—Proposals will be received until November 2, 1895, by A. W. Miller, City Clerk, for the purchase of $19,500 of 5 per cent refunding sewer bonds. The securities will be dated November 1, 1895, interest will be payable semi-annually, and $3,000 of the principal will mature in 2 years, $5,000 in 3 years, $2,000 in 4 years, $6,500 in 5 years and $2,500 in 6 years from date. Both principal and interest will be payable at the City Treasurer's office. The city's indebtedness at present consists of $219,000 of water-works bonds; $8,000 of market-house bonds; $127,000 of street improvement bonds; $6,500 of building bonds, $146,000 of sewer bonds and $75,000 of dock improvement bonds; total, $581,500. The assessed valuation is $7,000,000; estimated real value, $18,000,000. The tax rate (per $1,000) for 1895 is $31·50. The population, according to local figures, is 20,000.

Sedalia, Mo.—*Bonds Authorized.*—This city will issue bonds to the amount of $211,500, to refund its existing bonded indebtedness.

Sharon, Mass.—*Bond Offering*—Proposals will be received by Sanford Walters Billings until October 28, 1895, for the purchase of $21,000 of 4 per cent water-works bonds, the loan to mature at the rate of $1,000 yearly from October 1, 1896, to October 1, 1916. The securities will be dated October 1, 1895, and interest will be payable semi-annually on April 1 and October 1 at the National Exchange Bank of Boston.

Spring Grove, Minn.—*Bond Sale.*—Water-works bonds of this village to the amount of $3,000 have recently been sold.

Sweet Grass County, Mont.—*Bond Offering.*—Proposals will be received until December 2, 1895, by George F. Hudson, Clerk of the Board of County Commissioners, for the purchase of $85,000 of 6 per cent coupon bonds. Interest will be payable semi-annually at the office of the County Treasurer or at the First National Bank, New York, and the principal will mature in twenty years, with an option of call in fifteen years, both principal and interest to be payable in gold coin.

Talmage, Neb.—*Bonds Authorized.*—It is reported that this municipality will soon issue bonds for water-works.

Thompsonville, Conn.—*Bond Election.*—The people of Thompsonville will vote to-day on issuing bonds not to exceed $50,000.

Troy, N. Y.—*Bond Offering.*—City Comptroller James W. Coffey will receive proposals until October 25 for $25,000 of 3½ per cent street extension bonds. The securities will be dated November 1, 1895, interest will be payable on May 1 and November 1 at the City Chamberlain's office, and the principal will mature at the rate of $5,000 yearly from November 1, 1900, to November 1, 1904, both dates inclusive.

The net funded debt of the city on March 1, 1895, was $1,112,750 28, and the net water debt (principal and interest of which is fully provided for from the income of the water-works) was $268,537 50. The city has no floating debt. The assessed valuation of real and personal property for 1895 is $47,958,787 74 and the tax rate per $1,000 is $14.

Webster County, Iowa.—*Bonds Authorized.*—Bonds of this county will be issued for a new court house.

Youngstown, Ohio.—*Bond Offering*—Proposals will be received until November 11 by J. Howard Edwards, City Clerk, for the purchase of $20,000 of road bonds.

UNITED STATES CIRCUIT COURT, FOR THE Southern District of New York.—Benjamin M. Fowler, J. G. Zachry, Elizabeth Garnett and Henry P. Morgan (the two last named being intervenors), complainants, against The Jarvis-Conklin Mortgage Trust Company, defendant.

Whereas, I have been appointed by order duly made and entered in this cause as Special Master to take proofs of the indebtedness of the defendant, the Jarvis-Conklin Mortgage Trust Company, notice is hereby given pursuant to such order that any and all persons having claims against the said company are invited to appear before me, at my office, No. 29 Nassau Street, in the City of New York, on the 12th, 14th and 16th days of November, 1895, at eleven o'clock in the forenoon, to make proof of their claims.

Where claims are presented by any persons or corporations claiming to act as agents, attorneys or assignees of debenture holders, guaranteed mortgage holders or other creditors, they will be required to exhibit to me or file with me satisfactory evidence in writing of their authority to act in the premises.

Claimants who do not appear either in person or by agent or attorney may submit a statement of their claim in writing, duly verified by affidavit, and containing the name and address of the claimant and a description of the character of his claim. Wherever the nature of the claim admits, the proof of claim must also set forth the amount of principal and interest, separately stated, which was due thereon at the date of the appointment of the receivers, namely, the 28th day of September, 1893. Such proofs may be submitted at any time up to and including the date of the last hearing, namely, the 16th day of November, 1895.

Dated New York, September 28, 1895.

The United States Life Insurance Co.

IN THE CITY OF NEW YORK.

This old and reliable Company now has the experience of forty-five years of practical Life Insurance, which has taught it that the *sine qua non* of success is the adoption of good plans of insurance, and the pursuit of a liberal policy towards both its Insured and its Agents. These essentials it possesses in an eminent degree, but judiciously tempered by that conservatism which is the best possible safeguard of the policy-holder. Its contracts are incontestable after two years. They are non-forfeiting, providing generally for either paid-up policy or extended insurance, at the option of the policy-holder. It gives ten days of grace in payment of all premiums. Its course during the past forty-five years abundantly demonstrates its absolute security.

Active and successful Agents, wishing to represent this Company, may communicate with the President at the Home Office, 261 Broadway, New York.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, October 26, have been $1,141,806,190, against $1,159,757,442 last week and $916,796,165 the corresponding week of last year.

CLEARINGS. Returns by Telegraph.	Week Ending October 26. 1895.	1894.	Per Cent.
New York	$635,535,031	$407,741,710	+31·3
Boston	70,914,571	66,000,617	+16·5
Philadelphia	69,251,577	55,690,705	+24·4
Baltimore	11,240,731	10,194,150	+10·2
Chicago	77,908,517	70,456,062	+12·6
St. Louis	19,820,982	17,738,185	+11·8
New Orleans	15,618,435	8,249,410	+89·3
Seven cities, 5 days	$830,278,944	$656,067,909	+26·8
Other cities, 5 days	146,017,248	130,923,476	+11·5
Total all cities, 5 days	$952,296,192	$786,991,385	+22·9
All cities, 1 day	189,509,998	149,804,780	+26·5
Total all cities for week	$1,141,806,190	$916,796,165	+24·6

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, October 19, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is an increase in the aggregate exchanges of nineteen and a-quarter million dollars, but at New York alone the loss is almost six millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 23·3 per cent. Compared with the week of 1893 the current returns record an excess of 25·5 per cent and the loss from 1892 is 1·2 per cent. Outside of New York the gain over 1894 is 16·1 per cent. The excess over 1893 reaches 25·6 per cent, and making comparison with 1892 the increase is seen to be 5·8 per cent.

Clearings at—	Week ending October 19. 1895.	1894.	1895. P. Cent.	1893.	1892.

PIRACY—PROTECTING OUR PUBLICATIONS.

The following news item, which has appeared this week in many of the daily papers, relates to a matter that concerns ourselves.

IMPORTANT COPYRIGHT DECISION.—BOSTON, MASS., Oct. 23.—An interesting case involving the value of a copyright has just been decided by Judge Colt in the United States Circuit Court for the District of Massachusetts The William B. Dana Company are the publishers of the COMMERCIAL AND FINANCIAL CHRONICLE and four other publications issued in connection therewith, namely: The STATE AND CITY SUPPLEMENT, the STREET RAILWAY SUPPLEMENT, the INVESTORS' SUPPLEMENT and the QUOTATION SUPPLEMENT. Both the CHRONICLE itself and all its various supplements are copyrighted.

The "United States Investor" last May also began the publication of a so-called supplement, modeled after those of the CHRONICLE, but to be issued in monthly instalments. The publishers of the CHRONICLE brought an action before Judge Colt, charging that nearly all the matter in the instalment supplements of the "United States Investor" had been taken from the CHRONICLE supplements; that this was an infringement of the CHRONICLE'S copyright, and asking for a writ of injunction against the "Investor" Publishing Company restraining the publication of the instalment supplements, and also forbidding their issue in book form, as contemplated.

In their affidavits the CHRONICLE people furnished a list of several hundred items appearing in the monthly supplement of the "Investor" which had been taken either bodily from one of the several CHRONICLE supplements or but slightly altered in form. Several instances were cited where even typographical mistakes had been repeated. The case was argued, and came up for final hearing Friday of last week. Judge Colt has now granted the prayer for an injunction. The form of order is understood to be very broad.

The case is considered an important one, because it has been deemed almost impossible heretofore to protect publications like those of the CHRONICLE. The decision just rendered establishes the fact that a copyright is something more than an empty form in such instances.

We have only to add to the foregoing that the facts stated do not half disclose the offensive character of the proceeding this injunction stops. Seldom has there been such a bold act of appropriation by one journal of another's property as that of which the outlines are furnished in the above dispatch. The SUPPLEMENTS of the CHRONICLE have been entirely a conception of its editor and his able assistants. It would be difficult to convey to the reader a full idea of the mere labor, time and money spent in their production. In the shape they now appear they likewise represent long years of study and experience in the departments they cover. The publishers of the "United States Investor," seeing the merit and value of these SUPPLEMENTS, sought to make profit out of them for themselves by appropriating almost in mass the matter contained in them. By stealing our work and palming it off as theirs, they hoped to give value to their own periodical. It is worth noting, too, that none of the charges in our bill of complaint were denied.

The publications of the CHRONICLE are well known among investors, and there was of course no likelihood that any of our subscribers could be deceived as to the nature and character of the work in the spurious supplements referred to. On the other hand, among those not familiar with our publications knowledge of the fact that the matter in those supplements was identical with that in our SUPPLEMENTS might create an impression that there existed somewhere a common source for that class of information from which both had drawn; whereas the truth is, the facts and data given by us had been diligently gathered in a thousand different ways, through patient research and investigation, and the offending party was simply appropriating the results of our labor. Moreover, the case was such a flagrant one that aside from our desire to protect our property rights we felt it incumbent upon us to make an example of the offender.

We are persuaded that we have rendered a public service in demonstrating that a copyright, in the language of the above dispatch, is not an empty form, but confers rights adequate to the protection of its owner. The dispatch speaks of the injunction order as being very broad. It is certainly broad enough to prevent a repetition of the offense in any form or guise. As a matter of interest, we quote the essential portions of the order below.

In the Circuit Court of the United States.
District of Massachusetts, *ss.* OCTOBER 18, 1895.
William B. Dana Company *v.* Investor Publishing Co.—In Equity.
Order of Court.

Colt, J. This case came on to be heard upon motion of complainant for a preliminary injunction and was argued by counsel for the respective parties, and now, to wit, October eighteenth, 1895, it is ordered by the Court that a writ of injunction issue enjoining and restraining the defendant, its clerks, attorneys, agents, servants and workmen from printing, publishing, selling, or exposing for sale, giving, circulating, distributing, or causing, or being in any way concerned in the publishing, selling, or exposing for sale, giving, circulating, distributing, or otherwise disposing of any matter or thing copied, taken or colorably altered from the publications of the complainant described in its bill, to wit: "STATE AND CITY SUPPLEMENT of the COMMERCIAL AND FINANCIAL CHRONICLE," * * * "STREET RAILWAY SUPPLEMENT of the COMMERCIAL AND FINANCIAL CHRONICLE," * * * "INVESTORS' SUPPLEMENT of the COMMERCIAL AND FINANCIAL CHRONICLE," * * * in the following publications of the defendant, to wit: [Here the order enumerates the various issues of the monthly supplement in which the offense charged was committed] or in any other publication or form; and from printing, publishing or selling any index thereof referring to any article in the defendant's said publications, copied, taken or colorably altered from said publications of the complainant; and further from printing, publishing, selling or otherwise disposing of, or issuing in any form any copies of either or all of said defendant's supplements, or any part or portion of any thereof, containing any article or articles, passage or passages, copied, taken or colorably altered from the complainants' said publications; and also from printing in one volume the material contained in its said supplements, or any portion thereof, which has been taken, copied or colorably altered from the complainant's said publications; and also from hereafter in any manner infringing upon, or pirating, the complainant's said publications.

By the Court,
(Signed) BENJ. H. BRADLEE,
Deputy Clerk.

THE FINANCIAL SITUATION.

The features of the week have been the irregular movement and wide fluctuations in the price of cotton and the rates for foreign exchange. On Saturday and Monday there was almost a panic in cotton; since then a recovery has taken place, but the market is still unsettled. Foreign exchange has followed pretty much the same course—at first a material fall occurred and later a rise, until on Thursday the rates were again very near the gold export point, though at the close that day the market was a little easier, while yesterday rates were off again a quarter cent for sterling. So long as the cotton speculation continues and the free marketing of the staple is thereby interrupted, the cotton market must remain sensitive and fluctuating. This does not mean that prices are higher than the shortened supply warrants, or than may rule later on when relieved from the disorganizing effects of the attempted corner. It means simply that the stoppage of the outflow is accumulating stock here to such an extent that for the time being the speculator has disturbed confidence, making price a mere question of endurance between him and the consumer; and with the world's large and increasing visible supply, price must remain subject to wide changes from slight causes until the congestion is removed either by the consumer buying more largely or by the speculator yielding.

The decline in exchange is not believed to have been occasioned directly by the break in cotton. The two events were concurrent but not dependent. Bankers report that the fall in exchange was brought about by the offerings of bankers bills against the Anaconda copper mine negotiation and by some loan drafts; that the subsequent advance was due to the absorption of those bills, also to the disappointment felt that the break in cotton should not have resulted in a more liberal supply of drafts against that staple, and to the speedy subsidence of the panicky feeling in cotton and the reaction in the price of the staple which induced holders of cotton drafts to advance their prices above the views of buyers. The easier exchange market as the week closes is due to the fact that, according to the views of those best able to judge, bills enough are in sight now to meet all the requirements of the market, at least for next week. One special source of anticipated supply arises from the announcement that the Pennsylvania Railroad Company has

negotiated with Kuhn, Loeb & Co. and Speyer & Co. 6 millions of Pittsburg Cincinnati Chicago & St. Louis 4 per cent bonds, guaranteed by the Pennsylvania Company, and that a public offering of these bonds will soon be made here and in London, and of course to the extent that these are taken abroad the market will be supplied with exchange. Then again it seems certain now that a further and larger supply will grow out of the Anaconda mine mentioned above. The amount already reported to have been sold to the foreign syndicate and drawn against is a quarter of the 1,200,000 shares, at $25 per share. It is reported that the same syndicate had an option on a still larger block of the same stock, including about all of it; that Mr. Hamilton Smith, a mining expert, was sent out to examine and report upon the mine, and that he has returned, and that his report is favorable, and that the syndicate has actually exercised the option.

But aside from these special matters, we must not lose sight of the fact that the dearth of cotton bills is mainly due to the fact that the crop is late. Every one is apt to compare the current October with October a year ago and to forget that the cotton movement this season began nearly six weeks later. It takes time for a contract to mature. We reported one transaction last week for £2,000,000, deliverable on or before November 15th. Others are reported to us this week. Giving, then, this fact of a very late crop proper consideration, and remembering that the early supply of cotton bills, as it is every year, was this season used to cover sales of futures put out in July and August, the dearth of commercial bills thus far the current year appears to be accounted for. If this view be correct the supply of such drafts in November ought to be much more abundant. Wheat as well as cotton will be moving at higher values than a year ago and wheat at least in larger quantity. The expected gold import movement is consequently not an improbable event the coming month. But whether it is realized or not, it is well to have in mind the further fact that the United States will be very differently situated with reference to merchandise exports, with reference to its money market, and with reference to railroad earnings the first six months of 1896 than in the same period of 1895 and that consequently a gold outflow the coming year of at least anywhere near the proportions reached in 1895 is not possible.

Wall Street has again given proof of the controlling force of the currency question upon its operations. Its market has refused to respond to the very favorable commercial conditions, some of the more prominent of which are noted below. This is natural, for the financial feature is stronger in its influence upon dealings there than all other influences, and that is the sense and only sense in which the movement at the Stock Exchange can be taken as the pulse of the country's industrial situation. Railroad earnings may improve surprisingly, and the elements which promise further improvement in all directions be rife, without a chance of an active market for securities or for general enterprise—which is much the same thing—so long as a tendency exists at this period of the year of rates for foreign exchange to keep threateningly near the gold-export point. This condition of affairs ought to admonish our legislators of the weakness in the industrial situation and the imperative need for its cure. Why should the country be kept all the time anxious and nervous about gold exports. Such an outflow, independent of currency stability, is a matter of no moment at all. We produce gold. Let us stop driving it from us, but put ourselves into position so that if other nations want it more than we do they can have it. The remedy is within easy reach. Retire the legal tenders, says Secretary Carlisle, and the weakness and the nervousness and the anxiety caused by gold exports will all be gone. How can any wise man object to the remedy?

All the business indications continue of a highly favorable nature. In the iron and steel industry some recovery in prices after the recent reaction from the previous high figures is already under way, and though the production of pig iron is at the extraordinary rate of over 200,000 tons per week, the demand seems to be fully equal to it, and no accumulations of stocks are reported. In the anthracite coal trade there have been further advances in prices and also some advances in tolls. The latest advance brings the price for stove coal free on board in New York Harbor up to $4 15 per ton net; in July sales were freely made at $2 75 per ton, and in some instances even lower. In the bituminous regions, too, the situation remains very encouraging, and the attempt to precipitate a general strike of the miners in Pennsylvania seems to have proved a failure.

Returns of earnings of our transportation lines show that these important interests are sharing in the general improvement. The Chicago Milwaukee & St. Paul has issued another weekly report with a very large amount of gain. The report is for the third week of October and the amount of the gain is $192,991. This follows $199,118 gain in the second week of the month and $155,399 gain for the first week, making for the three weeks together an increase of $547,408. We notice that Vice-President Bond is quoted as saying that these gains are not due alone to a heavy grain traffic—he says the ordinary local freight is growing rapidly. The other roads in the same section must be doing equally well. Even the Northern Pacific is making noteworthy gains, and for the second week of October (the latest week to hand) reports $118,715 increase. The Chicago & North Western has just issued its return for the month of September, and for that period shows an improvement of $508,369. We have received too the report of the Central of New Jersey—an anthracite coal road—for the same month, and this is also very favorable, showing $154,211 increase in gross and $116,668 increase in net. There is one class of roads that is falling behind, namely those running through the cotton belt in the Southwest. Thus for the 3d week of October the Texas & Pacific has $45,451 decrease and the International & Great Northern $18,919 decrease, though on the other hand we notice that the St. Louis Southwestern for the same week is able to show a small increase. But these losses are exceptional and are due to a special cause—the smaller cotton crop raised the present year, particularly in Texas. It is at this period of the year, when the crop moves to market freely, that the shortage is mainly felt in the revenue returns of the roads. As showing the course of earnings in other sections we may note that the Toledo St. Louis & Kansas City reports for the third week of October the largest earnings for that week in its history, the figures being $53,013 for 1895, $38,902 for 1894, $32,671 for 1893, $51,825 for 1892 and $43,445 for 1891.

We gave last week extracts from the annual report of the Western New York & Pennsylvania, and this week publish President De Coursey's remarks in full. The report possesses special interest because it is the first made since the reorganization of the property. Under the reorganization the funded debt has been reduced from $34,821,802 to $29,990,000 and the stock from $30,000,000 to $20,000,000. Fixed charges have been cut down from $1,114,060 to $714,960, though after April 1 1897 the interest on the new general mortgage will be increased 1 per cent (to 3 per cent), adding $100,000 to the total, and after April 1 1901 there will be a further increase of 1 per cent, adding another $100,000 per year. The interest charges when at their maximum therefore will be $914,960, as against $1,114,060 before reorganization. The property remained in the hands of receivers up to March 31 1895, but the accounts are stated so as to show a full year's results. It appears that the net income available on the operations of the twelve months was $1,018,775, against which the requirements for interest and taxes were $685,914, leaving a surplus of $332,861. In this the interest at 2 per cent on the $10,000,000 of general mortgage bonds has not been deducted, as provision for the coupons on these bonds up to and including the coupon due April 1 1896 was made in the reorganization. Had that interest been a charge against the year's income, the surplus would have been reduced in amount of $200,000, making it $132,861.

What renders this exhibit particularly encouraging is that it has been made in face of an average freight rate of less than half a cent per ton per mile, the average having been only 4·903 mills. In the previous year the average was 5·662 mills, so that there was an important decline. Except for the economies practiced, the showing for the year would have been totally different, but through these economies the company was able to overcome the loss in rates. A large proportion of the road's tonnage consists of coal, mainly bituminous coal, and on this the rates have been ruinously low, largely due, we are told, to the poor price obtained for the coal because of its over-production. Mr. De Coursey says that while in the light of the past it would be unwise to speculate as to a probable advance in the future, the management cannot help feeling that any sustained improvement in general business must influence favorably the soft-coal trade, and if producers are able to get better prices the transportation companies will share in the advance.

The movement of money to the interior has been lighter this week, less going to the South, but fairly large amounts have been sent to the West and Northwest, and there has been some demand from Chicago. The express companies have advanced their rates for the transportation of money about one-third, and this must tend to check the movement. Money on call representing bankers' balances has loaned generally at 2 per cent at the Stock Exchange, with very few transactions, and these for small amounts, at 2½, and the average for the week has been about 2½ per cent. The supply has been somewhat increased by offerings by some of the foreign bankers who have been unable to place money for fixed periods, and the demand has been light because of the small speculation in stocks. Banks and trust companies quote 2 per cent as the minimum. The inquiry for time contracts is comparatively insignificant, the outlook being considered good for easy rates on call, and the little business done has been at 4 per cent for four months. Foreign bankers have offered money on gold notes and on exceptionally good security at 3½@4 per cent for four to six months, but so far as is known not much has been placed because domestic money can be obtained on as favorable terms without a gold note. Quotations for domestic time loans on good marketable security are 2½ per cent for thirty days, 3 per cent for sixty to ninety days, 3½@4 per cent for four and 4@4½ per cent for five to eight months. There is a good assortment of commercial paper in the market and some excellent names, but brokers report that paper is of slow sale, mainly for the reason that many buyers among the banks are below the limit of 25 per cent of reserve to liabilities. Quotations are 4¾@5 per cent for sixty to ninety-day endorsed bills receivable; 5@5½ per cent for four months' commission house and prime four months' single names; 5½@6 per cent for prime six months' and 6@7 per cent for good four to six months single names.

Aside from the feverish speculation in Kaffir mining stocks in Europe, which keeps the London and the Paris markets in more or less of an unsettled condition, there is no special feature in the European financial situation. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London 11-16 of 1 per cent. The open market rate at Paris is 1⅞ per cent and at Berlin and Frankfort it is 2¾ per cent. According to our special cable from London the Bank of England gained £367,933 bullion during the week and held at the close of the week £41,525,158. Our correspondent further advises us that the gain was due to the import of £241,000 (of which £158,000 were bought in the open market, £74,000 were from Australia and £9,000 from South America), to receipts from the interior of Great Britain of £347,000 and to exports of £220,000, of which £100,000 were to the Cape, £100,000 were to Turkey and £20,000 to the Argentine Republic.

The foreign exchange market has been active this week. On Monday the opening was weak, influenced by a pressure of commercial bills and also by offerings of drafts by Kuhn, Loeb & Co., above referred to, and Brown Bros., Baring, Magoun & Co., Lazard Freres and Heidelbach, Ickelheimer & Co. reduced their posted rates half a cent. Rates for actual business were 4 87@4 87¼ for sixty days, 4 88@4 88¼ for sight and 4 88¼@4 88½ for cable transfers. Before the close of the day the actual sight rate was reduced to 4 87¾@4 88 and the actual cable rate to 4 88@4 88¼. On Tuesday the Bank of British North America reduced the posted rates half a cent. The tone of the market early in the day was dull and steady; in the afternoon it was firmer and active, short bills and cable transfers being one quarter of a cent higher. On Wednesday Brown Bros. advanced their posted rates half a cent early in the afternoon, and rates for actual business were one-quarter of a cent higher at 4 87¼@4 87½ for long, 4 88¼@4 88½ for sight and 4 88½@4 88¾ for cable transfers. Though there were some loan bills in the market, these were absorbed, and there was a good demand for remittance. On Thursday the market was strong and Brown Bros., the Bank of British North America, Heidelbach, Ickelheimer & Co. and Lazard Freres advanced their posted rates half a cent, and those for actual business were moved up one quarter of a cent to 4 87½@4 87¾ for long, 4 88½@

4 88¾ for short and 4 88¼@4 89 for cable transfers; toward the close of Thursday the tone grew a shade easier. Yesterday the opening was quiet and easy, and Brown Brothers marked their posted rates down half a cent and actual rates were reduced ¼ cent. The following table shows the daily changes in posted rates of exchange by leading drawers.

		Fri., Oct. 18.	Mon., Oct. 21.	Tues., Oct. 22.	Wed., Oct. 23.	Thurs., Oct. 24.	Fri., Oct. 25.
Brown Bros.	60 days	88	88–87⅞	87⅞	87⅞–9	88–⅛	88
	Sight	90	90–89⅞	89⅞	89⅞–9	90–⅛	90
Baring, Magoun & Co.	60 days	88¼	88	88	88	88	88
	Sight	90¼	90	90	90	90	90
Bank British No. America	60 days	88¼	88¼	88	88	88¼	88¼
	Sight	90¼	90¼	90	90	90¼	90¼
Bank of Montreal	60 days	88	88	88	88	88	88
	Sight	90	90	90	90	90	90
Canadian Bank of Commerce	60 days	88	88	88	88	88	88
	Sight	90	90	90	90	90	90
Heidelbach, Ickelheimer & Co.	60 days	88¼	88	88	88	88¼	88¼
	Sight	90¼	90	90	90	90¼	90¼
Lazard Freres	60 days	88¼	88	88	88	88¼	88¼
	Sight	90¼	90	90	90	90¼	90¼
Merchants Bk. of Canada	60 days	88¼	88¼	88¼	88¼	88¼	88¼
	Sight	90¼	90¼	90¼	90¼	90¼	90¼

The market closed steady on Friday at 4 88@4 88½ for sixty day and 4 89@4 89½ for sight. Rates for actual business were 4 87½@4 87½ for long, 4 88¼@4 88½ for short and 4 88½@4 88¾ for cable transfers. Prime commercial bills were 4 86¾@4 87 and documentary 4 86¼@4 86½.

The Pennsylvania Railroad statement of earnings for the month of September has been issued this week. We are no longer comparing with heavy decreases last year and hence the gains now are proportionately smaller than in the earlier months. For September the decrease in gross last year on the lines west of Pittsburg and Erie was only $220,381 while on the lines east of Pittsburg there was an increase of $103,573, leaving a loss for the combined system of only $116,808. And this was the result, too, it is proper to say, with one less working day in the month, September 1894 having contained five Sundays. The present year with also five Sundays in the month there is an increase in the gross of the eastern lines of $288,456 and in the gross of the western lines of $259,023, making $547,479 together. In the net we have this year $20,194 increase on the lines east of Pittsburg and $137,137 increase on the lines west of Pittsburg, or a total increase of $157,331. Last year the decrease in net for the combined system was only $25,593. The following compares the results for the eastern lines for a series of years past, both for September and the nine months.

LINES EAST OF PITTSBURG.	1895.	1894.	1893.	1892.	1891.	1890.
September.	$	$	$	$	$	$
Gross earnings	5,788,579	5,499,993	5,384,510	6,069,024	6,159,207	5,790,339
Operat'g expenses	3,674,168	3,403,852	3,446,210	4,043,029	3,913,181	3,562,908
Net earnings	2,112,411	2,092,217	1,947,591	2,022,995	2,246,376	2,227,371
Jan. 1 to Sept. 30.						
Gross earnings	46,846,673	43,244,641	50,303,951	50,504,754	49,527,125	42,046,171
Operat'g expenses	33,132,560	30,056,171	36,180,288	36,076,161	34,046,072	29,194,560
Net earnings	13,713,113	13,188,470	14,123,663	14,428,593	15,481,053	12,851,611

Several other roads have also furnished returns for September this week. We have already referred to the figures of the Central of New Jersey and the Chicago & North Western. The Chicago St. Paul Minneapolis & Omaha reports $137,709 increase in gross; the Northern Central has $26,792 increase in gross, $2,347 decrease in net; the Southern Railway $100,843 increase in gross, $38,558 increase in net; the Allegheny Valley $19,336 increase in gross, $2,664 decrease in net; the Western Maryland $1,852 increase in gross, $2,837 decrease in net; and the Iowa Central $20,268 increase in gross and $22,247 increase in net. The Tennessee Coal & Iron reports a surplus of $66,558 above charges for September 1895, against a deficit of $4,900 for September 1894.

		September Earnings. 1895.	1894.	1893.	1892.

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending Oct. 25, 1895.	*Received by N. Y. Banks.*	*Shipped by N. Y. Banks*	*Net Interior Movement.*
Currency	3,180,000	$3,931,000	Loss. $751,000
Gold	511,000	549,000	Loss. 38,000
Total gold and legal tenders	$3,691,000	$4,480,000	Loss. $789,000

With the Sub-Treasury operations the result is as follows.

Week Ending Oct. 25, 1895.	*Into Banks.*	*Out of Banks.*	*Net Change in Bank Holdings*
Banks' interior movement, as above	$3,691,000	$4,480,000	Loss. $789,000
Sub-Treasury operations	13,800,000	13,900,000	Loss. 100,000
Total gold and legal tenders	$17,491,000	$18,380,000	Loss. 889,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

Bank of	*October 24, 1895.* Gold.	Silver.	Total.	*October 25, 1894.* Gold.	Silver.	Total.

OBEDIENCE TO THE LAW THE REMEDY FOR RATE-CUTTING.

There seems to be some question whether the new trunk-line agreement in the form in which it is to receive the signatures of the contracting parties will contain the clause with reference to offering rewards for evidence that shall lead to the conviction of parties violating the provisions of the Inter-State Commerce Act. The purpose to co-operate with the Inter-State Commerce Commission in the enforcement of the law remains unchanged, and indeed there are many passages in the new agreement which expressly affirm the determination of the Association to aid the Commission in carrying out the intent of the law; but some of the presidents seem to doubt the wisdom and propriety of going into the business of offering rewards, considering it outside the province of the Association to do that.

As concerns the efficacy of the new agreement, we do not think it makes any difference whether the clause referred to is retained or expunged. We feel confident that the agreement will be a success with or without that clause. As pointed out by us on previous occasions, the scheme differs in essential particulars from past agreements, and contains provisions which are calculated to ensure its successful working. Besides, the determination exists to make it a success, which is an important element in the calculation. At the same time there is no denying the fact that such a feature would furnish striking evidence of the purpose to give effect to the provisions of the law. It would also be very useful in a great many other ways. In setting an

example for the roads in other sections to follow its value would be almost incalculable. Finally, it would be an announcement to the public that a new era in the railroad world was dawning—that the action of the trunk lines was only the first steps in a movement which must extend till it embraces all the railroads in the country.

The rate cutting evil has reached such proportions in the United States that it is absolutely necessary that something be done to check it. With the trunk lines removed from its influence the rest of the railroad mileage of the country will still remain subject to the old conditions. The serious nature of the evil, as well as the inadequacy of the ordinary methods for dealing with it, was well shown a couple of weeks ago, when a violent rate war broke out among the roads leading west and southwest from Chicago at the very time when a car shortage was reported and the roads had all the traffic they could handle. Such performances are not calculated to promote confidence in our railroad properties. To be sure, this particular difficulty has now been patched up. But why was it not checked at an earlier stage? Why was it allowed to begin at all? These are the questions everybody is asking, and it is difficult to answer them. The railroads are frequently called upon to resist the efforts of Railroad Commissions and State Legislatures in seeking to force upon them unremunerative schedules of rates, but here we find the officials of the roads deliberately throwing money away and several times a year taking traffic at less than the cost of moving it. Is it any wonder that the Western farmer and the Western law-maker are unable to understand why a standard apparently fixed by the roads themselves, and certainly adopted by them for the time being, is not a fair one?

In the case cited—which, by the way, simply furnishes a type of the class of disturbances common to the whole railroad system—the determination having been reached to advance rates, the passenger agents and the freight agents, the very persons, forsooth, who, with their brood of solicitors, are responsible for the whole trouble, have been charged with the duty of framing a new agreement. They are now at work undertaking to carry out their commission. While no one can tell what the result of their labors will be, of this we may be certain, they will not deprive themselves of any of their powers. Unless the experience in this case is to be totally different from what it has been in other cases, sooner or later there will be renewed cutting of rates and general demoralization again. In the meantime stockholders will have to go without returns, bondholders will in many cases lose their interest, the public will suffer because of violent fluctuations and inequalities in rates, and the freight agents and the solicitors will lose—well, they will lose neither their equanimity nor their worldly possessions.

What is the remedy for this condition of things, for it is obvious that a remedy must be found. We have no doubt the answer will be, allow the railroads to enter into pooling agreements. We concede this would be a great advantage, and that it would be helpful in overcoming many of the difficulties now in the way of the maintenance of rates. We have always considered the clause in the Inter State Act forbidding pools a weak feature of the law, and we have time and again urged that this prohibition be removed. Public sentiment, too, has changed in that respect, as witness the action of the Board of Trade and Transportation two weeks ago in adopting resolutions urging Congress to repeal the provision referred to. With pooling legalized, and each road assured a fixed proportion of the business, the incentive to cutting would be removed, and at the same time it would be possible to enforce the terms of the pooling contracts against the parties undertaking to violate them.

But while holding these views, we cannot get ourselves to believe that the absence of this power prevents absolutely the maintenance of rates. The lack of such provision undoubtedly makes the task more difficult, but does not render it impossible. The truth is, cut rates are unlawful, and hence there is absolutely no excuse for them; for no one, no matter what his position, is justified in violating a plain provision of the statute. In all the discussions of the matter this phase of the subject appears to be overlooked. Cutting is accomplished by means of rebates and allowances in the earlier stages of the trouble, and finally leads to a regular rate war in which daily and even hourly reductions in rates are made. But the Inter-State Commerce law forbids the granting of rebates or allowances, or the making of any preferences or discrimination as between different shippers. It also forbids any reduction in rates except upon three days' notice. Both these provisions of the law are being constantly violated. The remedy, then, would seem to be to observe the law.

We know that this is more easily said than done. The practices complained of are of long standing and seem almost inherent in the system. The honest officials have sought to remove them but have been powerless to do so. With two or three roads making concessions, the others have considered themselves obliged in self defense, and to protect their interests, to follow suit. The fact remains, however, that the law forbids such practices, and that consequently the latter roads have been just as guilty of unlawful acts as the former. Here has been the weak point in the management of our railroads. Where the law was being violated, to their detriment, instead of seeking to bring the guilty parties to justice they have allowed their own agents to commit the same lapses.

This has led to very lax notions and to a very anomalous state of things. The Inter-State Commerce Commission has made several attempts to prosecute offenders against the law, but it has in nearly every case been defeated in its efforts by the refusal of railroad officials to testify, on the plea that their testimony if given would tend to incriminate them. There has been a decision recently which makes it at least doubtful whether this plea will avail any longer. But the feature about such acts which attracts chief attention is that it puts the railroads in the position of countenancing disregard of the law. This is an attitude they cannot afford to hold. For an official to declare that he will not reveal his acts, in fear that he may give damaging evidence against himself, is the same as saying that he has been engaged in doing something which the law forbids for there can be no criminality where there is no crime. In other words, it is a tacit confession of guilt.

The course of the higher officials towards such of their subordinates as have acted in this way may not be justifiable but is perfectly comprehensible. No cases have come to our knowledge where subordinates of this kind have been dismissed from the service of the roads. It would obviously be incorrect to say the higher officials have favored breaking the law. They have not. At the same time they have felt that their representatives were simply doing what the agents of

other roads were doing, that their refusal to join in the movement would merely result in the loss of the business to which they were entitled. In other words, it has been felt that in the course pursued the agents were influenced solely by a desire to promote and protect the interests of the roads they represented. In this view, to dismiss them would be to deprive them of employment for a course of action that had really been forced upon them by influences and conditions which no one road alone can control. The result is that the traffic officials and the solicitors have had things pretty nearly their own way, and that a mere statement on the part of any one of them that the representative of some other line had made a cut was accepted as a sufficient justification for similar action on his part. In the general confusion no consideration has been given to the important fact that the ability of a traffic official is not to be determined by the amount of business he manages to secure at a concession but that his capacity and fitness are to be measured by the volume of traffic which he succeeds in obtaining *without* concessions. Obviously anybody can get business by selling at lower prices than his competitors.

The remedy then, as already said, would seem to be that the roads must cultivate a spirit of obedience to the law which forbids the things that are proving so disastrous to railroad interests. The higher officials must resume control of their functions. The traffic agents must be taught that rate-cutting in whatever guise or form will no longer be tolerated, not alone because it is against the best interests of the roads but also because it is against the provisions of the Inter-State act. These agents must be given to understand that the penalty for infractions of the law will be the loss of their positions, and that at the same time the roads will see to it that those guilty of such offenses shall be prosecuted and convicted, and to that end will place all the evidence in their possession at the disposal of the Inter-State Commerce Commission and the United States District Attorney.

While we do not under-estimate the difficulties in the way of the adoption of such a course, obviously if *every* road would agree to observe the provisions of the law in this particular, the rate-cutting evil would at once become a thing of the past. It will no doubt be urged that two or three roads will always be sure to break the law. But in that event the duty of the rest of the roads towards these offenders is plain. There should be no squeamishness about bringing their transgressions to the attention of the Government authorities. Instead of being led into like transgressions (as has been the case in the past), they should make every endeavor to have the guilty parties brought to justice and punished. The railroads have means of obtaining evidence against the offenders which the Inter-State Commerce Commission does not possess. A few convictions, followed by the prescribed penalty of a fine of five thousand dollars and sentence to two years' imprisonment, would act as an effective deterrent against a repetition of the occurrence. After this policy had been continued for a while we are sure offenses against the Inter-State law would become so infrequent and be no more difficult of treatment than violations of the Customs or tariff laws. And in the process of time one class of acts would come to be considered by all parties as reprehensible as the other.

Of course it is possible that with rate schedules rigidly adhered to, the weaker lines in the absence of a pooling provision might lose some of their business. We are not sure that if they did they would not be just as well off as they are now, for if they got less business at least they would receive full rates on what traffic they did obtain. However, if they suffered by reason of their conformance to the law, we are sure that Congress would grant them equitable relief and repeal the provision against pooling. It is by no means certain that the anti-pooling clause will not be repealed at the coming session of Congress, for public sentiment is growing very strong in favor of such a course. But whatever the result in that respect, the roads must obey the injunction of the law against rate-cutting. Such a course would, too, as we have shown, be beneficial to all concerned. To the roads it would mean larger returns by reason of the receipt of full rates. To their patrons and the public it would afford the assurance that there was to be absolute equality of treatment as between the different shippers, as contemplated by the Inter State act, and that there was to be stability in transportation charges instead of the violent and extreme fluctuations which now mark the course of rates from day to day. It behooves railroad managers, therefore, to make rigid observance of the law a cardinal feature of their policy hereafter.

TAXATION—THE MASSACHUSETTS SYSTEM.

[FIRST ARTICLE.]

The revenues of the Commonwealth, so far as they are derived from taxes, come from the following sources, viz.:

First—Taxes on the franchises of domestic corporations. These taxes yielded during the calendar year 1894 $3,387,560, of which the State distributed to the several cities and towns $2,549,863 and retained for its own treasury $837,697.

Second—Taxes on bank stocks owned by non-residents, which yielded in 1894 $437,099.

Third—Taxes on certain savings banks deposits. These yielded in 1894 $1,138,128.

Fourth—Taxes on insurance companies, both foreign and domestic. These yielded in 1894 $535,222.

Fifth—One quarter of the proceeds of liquor licenses. These yielded in 1894 $544,292.

Sixth—Special taxes on corporations formed to construct railroads in foreign countries. These yielded in 1894 $53,498.

Seventh—Taxes on collateral legacies and inheritances, which yielded in 1894 $247,129.

Besides these seven principal sources of revenue from taxation the State collects from gas and electric lighting and power companies a sufficient sum to pay the cost of the commission which supervises such corporations (in 1894 $17,747); and from foreign mortgage corporations enough to pay the cost of another commission (in 1894 $4,612); from steam and street railroads, to cover the cost of the railroad commission (in 1894 $25,733); from coal and mining corporations, for no apparent reason, a tax of one-twentieth of one per cent on their capital stock and an additional tax on home companies of four cent on net profits; this yielded in 1894 $3,503; and finally, fees for licenses issued to hawkers and peddlers by the Secretary of State (in 1894 $19,271).

In addition to its revenues from these taxes, the State has an income from miscellaneous sources, mainly from the business operations of its penal institu-

tions, and interest, which amounted in 1894 to $1,080,804. The State Auditor prepares at the beginning of each fiscal year estimates of all these revenues, and of ordinary and extraordinary expenses, and recommends what amount, in addition to the ordinary revenue, shall be raised by direct taxation. In 1894 the Legislature fixed this sum at $2,000,000, which was levied upon the cities and towns pro rata, according to valuation.

The commissioners of the several counties also annually estimate the sum required for county expenses, and this also is levied upon the respective cities and towns pro rata. Cities and towns are permitted to raise their State and county contributions by a tax on adult male polls not exceeding one dollar for each purpose—two dollars in all. If this be insufficient, the remainder must be raised by property tax. The poll tax was insufficient to pay State and county taxes in every municipality in the commonwealth in 1894, except the little town of Gay Head, which, with only thirty-seven polls, managed to pay its State and county dues with a poll tax of only $1 50 each.

Each municipality obtains its own revenues, first from a proportion of the franchise tax collected by the State, second from three-quarters of the proceeds of liquor licenses, where these are issued, and finally from direct taxation upon all real and personal property, including personal property situated outside the State, but owned by residents. School districts and fire districts possess the power, but rarely used, to levy taxes on their inhabitants and property for their own purposes only. Water works are generally maintained by taxes upon consumers only. Special taxes are frequently laid upon individuals benefitted thereby for the construction and maintenance of sewers, sidewalks, etc.

In thus enumerating the various sources of revenue, the system of taxation has been outlined; but to obtain a clear comprehension of the whole system, with the inequalities of its bearings, the several items must be examined more in detail.

Considering these items in the order named, the taxation of domestic corporations has been generally considered to be the nearest approach to ideal justice.

For example, we will suppose that a manufacturing corporation with capital of $1,000,000, whose stock has a market value of $200 per share, owns mills and machinery in Fall River valued by the Fall River assessors at $750,000. It is taxed in Fall River at the Fall River rate on this $750,000. It is taxed by the State on the total market value of its stock, say $2,000,000, less the $750,000 locally taxed, say $1,250,000, at the average rate throughout the Commonwealth. Supposing one-half in value of its stock is owned by residents of Boston, one-quarter by residents of Cohasset and the remainder by non-residents, then the city of Fall River would receive of course the tax on the value of the property actually within its borders; the city of Boston would receive the tax on $625,000 in value at the average rate of the whole State; the town of Cohasset would receive the tax on $312,500 at the same rate, and the State Treasury would retain the remainder. By this process it is generally believed a rough sort of equity is established.

The corporation itself is taxed only once. It obviously may suffer by having to pay a higher rate on a part of its property occasioned by the extravagance or bad financiering of some distant town in whose affairs it has not the slightest interest or influence. On the other hand, it gets the advantage of any reduction in the average rate arising from good management of other towns. The stockholders of domestic corporations are not directly taxed for their stock. Cities and towns where the stockholders reside get the proportion due them from such stockholders, at a rate which may be much higher than their own, or vice versa, according as their own rate is higher or lower than the average. The non-resident stockholder is indirectly compelled to pay his due proportion, which, being carried into the general treasury, relieves by so much the ultimate burden on every municipality.

There is some discontent, however, with the method of distribution of this tax. The town of Nahant, for example, received from the State the tax on corporation stock valued at $1,254,000, at the average of $14·80, while its own rate was only $6·50; but the town of North Attleborough received from the State the tax on the $221,800, value of stock owned by its citizens, at the average rate of only $14·80, while its own rate was $24. Now, in Nahant there are no corporations and many stockholders. North Attleborough is distinctly a factory town and comparatively few stockholders reside there. It is evident that if each town were permitted to assess shareholders in domestic corporations as they are required to assess shareholders in foreign corporations, there would be an increased tendency for large stockholders to choose their residences in the already wealthy towns, where the rate is low.

The remedy proposed at two sessions of the Legislature is to change the basis of distribution. Instead of, as now, the State paying over the proceeds of the tax collected by the fortunate cities and towns where stockholders reside, to apportion it among all the cities and towns in proportion to the attendance of children at the public schools. It was urged in support of this scheme that factory towns were compelled to provide schools for the children of operatives, whose labor produced the wealth that made the taxation possible, while the rich stockholders rarely sent their children to public schools, and so the towns of their residence escape this expense.

Again, the great railroad corporations are often wholly free from local taxes in many of the towns through which their lines run and from the inhabitants of which they derive considerable revenue. Unless these towns happen to be chosen as places of residence by stockholders they get no advantage from the franchise taxes paid by the railroad. The Boston & Albany Railroad, for example, is constructed upon a right of way five rods wide, granted by the State, through about seventy cities and towns. It has most of its stations, side tracks and yards within the five-rod limit, which, under the name of property taken for public uses, escapes local taxation. These towns and cities furnish to the railroad, police and fire protection and public schools for the children of its employees, but in very many instances get nothing in return. A similar condition of affairs exists on the lines of the other great railroads.

The attempts to modify the law in this respect have always met with a chorus of derision from the public press. It is worth noting that in the latest of these efforts to change the law the advocates of change caused to be prepared and officially printed a table showing exactly how much each city or town throughout the State would gain or lose by it, and that every representative who voted at all voted exactly as the table showed the pecuniary interest of his town or district to be. In other words, there was no expression of senti-

ment as to the wisdom of the change, but only a sordid desire to make or save a few dollars at once. As the representatives of the cities and towns which would lose were numerically in the majority, the change was overwhelmingly defeated.

In determining the value of shares of railroad and elegraph companies whose lines extend beyond the limits of the Commonwealth, the Commissioner is required to deduct from the gross value of the shares a sum proportionate as the miles of line lying outside the State bear to the whole miles of line. At least two attempts have been made to have the law in this respect modified so as to read "miles of track" or wire instead of miles of line. It was claimed that the mileage of a railroad within the Commonwealth was relatively more valuable than the mileage it might own stretched away in a single track through comparatively unproductive territory of neighboring States; and so with telegraph companies, whose chief value might consist of the hundreds of wires stretched upon poles or carried under ground within the neighborhood of Boston, that these should not be allowed to offset, mile for mile, long stretches of single wire extending to Northern Vermont or Canada. But each of these attempts has failed, and the law remains as d scribed.

It has been suggested, however, that inasmuch as the collection and distribution of this franchise tax involves an immense amount of book-keeping, besides compelling an annual semi-public disclosure of the private affairs of a la·ge class of the community (*i. e.*, the lists of stockholders), that if the State should retain the whole franchise tax so collected it would not be nec·s·sary to levy any direct tax whatever for State uses.

The tax upon bank stocks is distributed in much the same manner as the tax upon corporation franchises. There is a difference, however, in the method of collection. This tax is in the first place levied and collected by the city or town in which the bank is situated, and at the local rate. The local assessors are required to assess, first, the real estate of the bank and then the shares, deducting from the total value of the shares the value of the real estate. A list of shareholders, with their residences, is then sent by the local assessors to the Tax Commissioner, and the city or town is charged with the amount of tax upon all shares owned outside its own jurisdiction, and is credited in like manner with the tax levied by other municipalities upon shares of banks situated elsewhere but owned by its citizens. This method secures to the State the amount of tax on shares held by non-residents. The city or town gets the tax on the value of stock in its own banks, held by its own citizens, at the local rate, and the value of stock held by its own citizens in other banks at whatever rate may be imposed where such other banks may be situated. No attempt has been made to change the law regarding taxation of bank stocks; it seems to secure substantial equity. The reason a corporation engaged in banking is treated differently from a corporation eng·ged in manufacturing or in operating a railroad is to be found in the character of the provisions of the national banking law regulating taxation.

Savings banks in Massachusetts have no capital. They are purely mutual institutions, in which all property, profits and losses belong to the depositors. These institutions are required to make semi-annual returns to the Treasurer, showing the average amount to the credit of their depositors during the six months preceding each first of May and November. From these average amounts they are permitted to subtract whatever sum is invested in real estate used for banking purposes, also the amount invested in mortgages on real estate subject to taxation, also the amount invested in real estate held under foreclosure for a period not exceeding five years; on the remainder they are subject to a tax of one-half of one per cent per annum (payable semi-annually), but from this tax they may deduct whatever sum the State has already actually received as tax upon shares of national or other joint-stock banks held by the savings banks respectively. Depositors in savings banks are not taxed for their deposits; although the rate of taxation upon savings bank deposits is but little more than one-third the average rate throughout the Commonwealth, it is believed that this form of personal property, largely belonging to the poorer and working classes, contributes a greater percentage of the revenue than any other (except shares of banks and domestic corporations) because none of it escapes, nor can it be concealed.

Life insurance companies are required to pay an annual excise tax of one-quarter of 1 per cent upon the aggregate net value of all policies in force each 31st of December held by residents of the Commonwealth. Domestic fire and marine insurance companies are taxed 1 per cent on all premiums received in the State, also 1 per cent on all assessments made upon policy holders. Foreign fire and marine insurance companies are taxed 2 per cent on all premiums charged or received on contracts made in the Commonwealth, and if any other State taxes Massachusetts companies at a higher rate, then Massachusetts taxes the companies of such other States at an equivalent rate. Foreign life insurance companies also may be taxed on their premium receipts in Massachusetts at whatever rate is imposed by the State of their creation upon Massachusetts companies or their agents doing business in such other State. Domestic insurance companies are liable to a franchise tax like other corporations, but may deduct from such tax the amount actually received by the Commonwealth as tax on bank shares held by such insurance companies respectively. All taxes on insurance companies go directly to the State for its own use.

Under the law each city or town votes annually on the question of licensing the sale of intoxicating liquors; if the vote is that licenses shall be granted, the city or town imposes the fee for each license. One-fourth of the gross license fees collected is paid to the State for public uses.

Any corporation established under the laws of Massachusetts to construct railroads or railroads and telegraphs in foreign countries is subject to a tax of one-twentieth of one per cent on the par value of its capital stock. This tax applies only to the Mexican Central and Sonora Railway companies. An attempt was made this year to have the basis reduced from par value to market value of stock, but was defeated.

The tax upon collateral inheritances is of recent origin. Instituted in 1891, it provides that five per cent shall be paid from any part of every estate exceeding $10,000 gross that passes by will or succession to other than direct heirs or charitable institutions themselves exempt from taxation. This law has excited a great deal of controversy and is likely to be repealed altogether or extended to cover all inheritances. It is argued that it is in effect double taxation, because an estate worth $10,000 or more has presumably paid

taxes during its owner's life-time and to levy another tax at the moment of the owner's death on that part of it which he chooses to bequeath outside his direct heirs is taxing the same thing twice in the same year. It is argued also that there is no equity in the arbitrary exemption of estates under $10,000. On the other hand, it is urged that in this manner a great deal of personal property which now avoids taxation will be caught occasionally whenever it passes by will or succession, and the State will derive a great revenue which may be ultimately sufficient to pay the whole direct State tax.

The growth of the revenue from this source since the law was passed has been somewhat remarkable, as follows:

In 1892	$13,954
In 1893	59,429
In 1894	247,129
In 1895, to Oct. 1st, 9 months	270,000

During the first two years many payments were held back pending an attempt to repeal the law. It seems probable that the gross receipts for 1895 will exceed those for 1894 nearly $100,000.

The remainder of this article, which relates mainly to municipal taxation, will be given next week.

THE RAILROAD INDUSTRY IN A YEAR OF DEPRESSION.

The year 1894 will always stand as one of the most remarkable in our railroad history, and hence the report of the Statistician of the Inter-State Commerce Commission for the twelve months ending June 30 1894, with an advance copy of which we have been favored this week through the kindness of Mr. Edward A. Moseley, the Secretary to the Commission, possesses more than the ordinary interest. A general summary of the figures compiled for this report was sent out last June, and we commented on the results at the time. The present is not the full report in bound form, but is a complete copy of the Statistician's introductory remarks. These remarks are not open to the adverse criticisms passed upon the remarks of some of the previous years, and on the whole furnish a very useful and instructive analysis of the results and operations for the twelve months. They are accompanied by a series of colored diagrams which possess a great deal more merit than such diagrams usually do.

In our previous article (Chronicle of June 22 1895) we gave the figures to show the great falling off in traffic and earnings which had occurred during the year, and also directed attention to the large proportion of the total capitalization of the railways which was receiving no return in the shape of interest or dividends. In our present article we shall take up other branches of the inquiry. One very useful statement is a list of the railroads in the hands of receivers on June 30 1894. None of our readers need to be told that the list is a very extensive one. It appears that there were on the date mentioned 192 roads in that condition of insolvency, of which 126 had been relegated to the care of receivers during the twelve months preceding and 35 during the year ending June 30 1893. The mileage of road operated by the 192 companies in default was 40,819. The total capitalization of the roads in the hands of receivers was about $2,500,000,000, equal roughly to one quarter of the total of the railway capitalization of the country. This as a record of insolvency, the Statistician notes, is without a parallel in the previous history of American railways, except it be in the period from 1838 to 1842. It is undoubtedly a result, he says, of the general business depression through which the country is passing, and we may accept the conclusion. But what a commentary it is upon the condition of the railroad industry that a single year of intense depression in business should throw such a large proportion of the roads into bankruptcy. Since June 30 1894 some important reorganizations have been undertaken, but only a few of these have yet been carried to completion, and a record at this date would not show any great improvement.

The gross revenues of the roads in 1893-94 fell off no less than $147,390,077 as compared with the twelve months preceding, and this of course necessitated the practice of absolute economy in the operation of the roads. We find that the loss in earnings was accompanied by a reduction of $96,506,977 in expenses. This still left a decrease of $50,883,100 in net revenues, and as a consequence the roads show a deficiency in meeting the dividends paid during the year in the large sum of $45,851,294. Thus we see reflected one of the results of the trying conditions to which the roads were subjected. It is a noteworthy fact that with this deficiency for the year the current liabilities have been reduced (in amount of $11,674,068) rather than increased. On the other hand, cash and current assets were diminished $44,402,673, and materials and supplies were reduced $13,988,383.

Some of the effects of the great reduction in expenses form an interesting subject for study. It is well known that the roads stopped almost completely the buying of additional equipment. There was a double reason for this policy. In the first place the falling off in tonnage did away with the necessity of an enlargement of the equipment, as existing motive power and rolling stock were more than sufficient to meet all requirements and needs. In the second place the loss in earnings compelled those roads which had been making large purchases of equipment out of earnings from year to year to discontinue the practice for the time being, as all their income was needed to meet the call for interest or dividends. The report before us shows that the total of cars in the railway service on June 30 1894 was 1,278,078. This was an increase over the year preceding of only 4,132. The corresponding increase of 1893 over 1892 had been 58,854, and this brings out forcibly the difference between the two years in that respect. The Statistician says that the falling off in the regular increase in railway equipment is one of the marked features of the present report, and may be accepted as one of the important results of the business depression to which the railway industry, in common with other industries, was subjected. At the same time it may be questioned whether the small increase shown for the latest year does not give an exaggerated idea of the change. The report states that the change early attracted the attention of those in the office of the Statistician and led to correspondence to ascertain its cause and nature. In almost every instance we are told the correspondence showed that the railway management made the slackness in business the occasion for destroying a larger number than usual of old cars and cars of inferior type. In some cases, while the number of cars had been decreased the capacity and value of equipment had been increased. But all proper allowance being made for transformations of this character, it still remains true, the Statistician observes, that the abnormal extension of railway equipment, as shown by the statistics of previous years, was arrested in the year covered by the present report.

Another effect of the saving in expenses was a large reduction in the number of employees in the service of the roads. No previous report of the Commission had shown a decrease in the number of such employees. But it appears that on June 30 1894 the roads had only 779,608 persons in their service as against 873,602 persons on June 30 1893, a decrease of not far from one hundred thousand. It is necessary to go back to the year 1890, when the number of railway employees was 749,301, to find a pay-roll as limited as that of 1894. The reduction was universal and widespread. It is noted however as a remarkable fact that there was no very marked decrease in the average compensation of employees. The saving in the pay roll was effected by the reduction in employees rather than a reduction in wages. So far as the movement for the last three years is concerned, it appears that in most cases the average rate of compensation was higher in 1893 than in 1892, and although the year 1894 shows a decrease it still remains higher in some groups for quite a number of classes than in 1892.

The report summarizes the results for the year by saying that railway construction was arrested, that the development of railway equipment was nearly stationary, that railway employees were reduced, that the density of passenger traffic and freight traffic, after having experienced a progressive development for a series of years, was subjected to a marked decrease, and that owing to the great falling off in revenues the roads had to draw upon the accumulated surplus of previous years to the extent of $45,851,294 in order to provide for the dividends paid.

As regards the results for the time which has elapsed since June 30 1894, the year to June 30 1895 was of course another period of very great depression. In the current fiscal year, however (we mean the year to June 30 1896), there is likely to be a decided change for the better. Our grain crops are very large, business is reviving, and at the same time many of the defaulted properties are being reorganized and taken out of the hands of receivers. Unless therefore the prospect is marred by a rate war or by attacks by railroad commissions and State legislatures, the outcome for this year is certain to be very much better than for some time past.

COTTON CONSUMPTION OF EUROPE AND THE WORLD.

Mr. Ellison's Annual Review of the Cotton Trade was issued in Liverpool on Thursday of this week, or a fortnight later than in the previous year. For many years past it has been our custom to obtain by cable all the important statistics contained in Mr. Ellison's review and the same plan has been continued this year, as the subjoined tables will indicate. First we give the takings by European spinners in *actual* bales and pounds for the past season in comparison with the figures for 1893 94 and 1892 93.

October 1 to October 1.	*Great Britain.*	*Continent.*	*Total.*
For 1894-95.			
Takings by spinners ...bales	3,311,000	4,502,000	7,813,000
Average weight of bales...lbs	473	475	484 8
Takings in pounds	1,648,843,000	2,138,564,000	3,787,407,000
For 1893-94.			
Takings by spinners ...bales	3,330,000	4,257,000	7,587,000
Average weight of bales lbs	473	455	467·3
Takings in pounds	1,595,070,000	1,950,090,000	3,545,160,000
For 1892-93.			
Takings by spinners ...bales	2,893,000	3,885,000	6,778,000
Average weight of bales lbs	488	46	473 7
Takings in pounds	1,411,896,000	1,798,212,000	3,210,808,000

The foregoing shows that the takings by spinners in Great Britain this year have been 53,773,000 pounds greater than in the preceding season and 236,947,000 pounds more than in 1892-93. Carrying the comparison back to earlier years, it is found that in no season except 1890-91 have the takings been as heavy as in 1894 95.

On the Continent the 1894 95 figures are much the heaviest on record, exceeding those for 1893-94 by 188,474,000 pounds. For the whole of Europe the aggregate takings have therefore increased appreciably this season, the excess over a year ago being 242,247,000 pounds, and are 227,023,000 pounds greater than in 1890-91, the year which has heretofore shown the largest total.

During August and September the average weekly rate of consumption in Great Britain was reduced to some extent as a result of the holidays and short-time, and the average for the whole season therefore has been only 78,462 bales of 400 lbs. each per week, or 770 bales per week greater than last season and 2,878 bales less than in 1890 91. Continental spinners, however, have kept up a uniform rate of 98,000 bales per week throughout the season, against only 92,000 bales per week in 1893-94 and 88,000 bales in 1892-93. The weights given in the above table are ordinary weights covering all varieties of cotton. The average weights of the various growths for 1894-95, as cabled to us, are as follows: American, 483 lbs.; Egyptian, 717 lbs.; East Indian, 400 lbs.; Brazilian, 214 lbs.; Smyrna, 385 lbs., and West Indian, &c., 165 lbs. In 1893-94 the weights were: American, 474 lbs.; Egyptian, 718 lbs.; East Indian, 400 lbs.; Brazilian, 225 lbs.; Smyrna, 385 lbs., and West Indian, &c., 175 lbs.

These figures of takings and average weekly consumption serve to give one a fair idea of the results for the year, but the relation which one season bears to another is better disclosed by presenting in tabular form not only the takings but the consumption and stocks, all reduced to bales of uniform size. This has been done in the subjoined statement, which covers the items referred to expressed in *bales of 400 lbs.* This enables the reader to see at a glance the changes in each item for the last three years, both in Great Britain and on the Continent.

Bales of 400 lbs. each.	1894-95.	1893-94.	1892-93.
GREAT BRITAIN—			
Stock Oct. 1 (beginning of year)	16,000	68,000	114,000
Deliveries during year	4,122,000	3,988,000	3,587,000
Total supply for year	4,138,000	4,056,000	3,651,000
Total consumption for year	4,080,000	4,040,000	3,583,000
Stock Oct. 1 (end of year)	58,000	16,000	68,000
CONTINENT—			
Stock Oct. 1 (beginning of year)	348,000	258,000	337,000
Deliveries during year	5,343,000	4,874,000	4,497,000
Total supply for year	5,691,000	5,132,000	4,834,000
Consumption during year	5,096,000	4,784,000	4,576,000
Stock Oct. 1 (end of year)	595,000	348,000	258,000

The totals for the whole of Europe for the three years are as follows (in bales of 400 lbs.):

Gt. Britain and Continent.	1894-95.	1893-94.	1892-93.
Stock Oct. 1	364,000	326,000	451,000
Deliveries during year	9,465,000	8,862,000	8,084,000
Total supply	9,829,000	9,188,000	8,485,000
Total consumption	9,176,000	8,824,000	8,159,000
Stock Oct. 1 (end of year)	653,000	364,000	326,000

Our cable also gives the average weekly consumption, in bales of 400 lbs., as follows:

Consumption per Week.	1894-95.	1893-94.	1892-93.
Great Britain	78,462	77,692	68,904
Continent	98,000	92,000	88,000
Total	176,462	169,692	156,904

It is understood of course that these takings and consumption of cotton relate only to Great Britain and the Continent. To obtain an idea of the world's consumption the corresponding statistics for the United States and India must be added. For the United States the results were fully set forth in our annual crop report issued in September, and it was then shown that consumption of cotton in this country had increased considerably during the season of 1894-95. The returns for India indicate a fair increase in consumption. Bringing together the results for Europe and India, and adding the figures of the United States, we substantially cover the world. Below we give these returns combined for fifteen consecutive years, all bales being reduced to the uniform weight of 400 lbs.

World's Consumption.	Great Britain.	Continent	United States.	India.	Total.
1880-81	3,572,000	2,956,000	2,118,000	371,400	9,017,400
1881-82	3,640,000	3,198,000	2,197,000	389,600	9,424,600
1882-83	3,744,000	3,380,000	2,375,000	447,400	9,946,40
1883-84	3,666,000	3,380,000	2,244,000	520,700	9,810,70
1884-85	3,433,000	3,255,000	1,909,000	584,800	9,181,800
1885-86	3,628,000	3,465,000	2,278,000	630,300	10,001,300
1886-87	3,694,000	3,640,000	2,423,000	711,800	10,468,800
1887-88	3,841,000	3,796,000	2,530,000	771,670	10,938,670
1888-89	3,770,000	4,069,000	2,685,000	870,880	11,394,880
1889-90	4,016,000	4,280,000	2,731,000	988,293	12,015,293
1890-91	4,233,000	4,538,000	2,958,000	1,155,328	12,884,328
1891-92	3,977,000	4,524,000	3,220,000	1,142,619	12,863,619
1892-93	3,583,000	4,576,000	3,189,000	1,147,588	12,495,588
1893-94	4,040,000	4,784,000	2,830,000	1,199,234	12,853,234
1894-95	4,080,000	5,096,000	3,219,000	1,342,000	13,737,000

Note.—The above does not include American cotton consumed in Canada, in Mexico, and burnt.

From the above we see that the increase in consumption in 1894-95 reached 883,766 bales of 400 lbs. each. Comparing the first year (1880-81) with the last (1894-95) we find there is a gain in the aggregate of over 52 per cent. During the same interval the world's supply or crop increased about 50 per cent.

Our cable states that the imports into Europe during the season of 1894-95 were 8,184,000 bales of ordinary weights, made up of 6,618,000 bales American, 774,000 bales East Indian, 630,000 bales Egyptian and 162,000 bales sundries. Mr. Ellison estimates that Europe and the United States will in 1895-96 need for its consumption 10,550,000 bales of 480 lbs. average weight, making 12,669,000 bales of 400 lbs each against 10,403,000 bales of ordinary weights, equaling 12,549,000 bales of 400 lbs. each in 1894-95. The United States he estimates will produce 7,000,000 bales.

We have also received by cable Mr. Ellison's estimate of the number of spindles in Europe, America and India during 1895, and give it below, adding, for purposes of comparison, the figures for previous years.

Spindles.	1895.	1894.	1893.	1892.
Great Britain	45,400,000	45,270,000	45,270,000	45,350,000
Continent	28,250,000	27,350,000	26,850,000	26,405,000
United States	16,133,000	15,841,000	15,641,000	15,277,000
East Indies	3,810,000	3,650,000	3,576,000	3,402,000
Total	93,593,000	92,111,000	91,337,000	90,434,000

This shows an increase in the spinning power of the world of 1,482,000 spindles, all the countries sharing in the excess.

IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

The Collector of Customs at San Francisco has furnished us this week the details of imports and exports of gold and silver through that port for the month of September, and they are presented below, together with the figures for the preceding months, thus completing the results for the nine months of the calendar year 1895. The imports of gold were slightly greater than in August, the amount received reaching $97,136, of which $8,318 was in coin; and of silver there came in $347,878, of which $119,501 was bullion. There has been received during the nine months a total of $1,198,883 gold and $1,539,703 silver, which compares with $629,028 gold and $1,670,236 silver in 1894. The shipments of gold during September reached $61,748 coin and $460 bullion, and the exports of silver have been very heavy, reaching $2,022,750, of which $1,209,400 was in coin. For the nine months the exports of gold have been $353,607, against $650,477 in 1894, and $9,463,980 silver has been sent out, against $9,076,070 in 1894. The exhibit for September and the nine months is as follows:

IMPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

Months.	Gold.			Silver.

IMPORTS, EXPORTS AND IMMIGRATION FOR SEPTEMBER.

The Bureau of Statistics has issued a detailed statement of the foreign commerce and immigration of the country for the month of September, 1895 and 1894, and for the nine months ending September 30, in 1895 and 1894, as follows:

MERCHANDISE.

	September.	9 mos. end. Sept. 30.
1895.—Exports—Domestic	$57,067,338	$546,427,889
Foreign	1,476,105	11,502,957
Total	$58,543,443	$557,930,846
Imports—Free of duty	$30,525,348	$284,999,995
Dutiable	34,710,775	315,983,127
Total	$65,236,123	$600,983,122
Excess of imports	$6,692,680	$43,052,276
1894.—Exports—Domestic	$57,820,737	$562,288,257
Foreign	977,938	14,330,019
Total	$58,798,675	$576,618,276
Imports—Free of duty	$28,178,017	$298,075,881
Dutiable	22,469,681	205,514,161
Total	$50,647,698	$503,590,042
Excess of exports	$8,150,977	$73,028,234

GOLD COIN AND BULLION.

1895.—Exports	$17,424,065	$73,190,282
Imports	749,456	28,839,939
Excess of exports	$16,674,609	$44,350,343
1894.—Exports	$237,477	$90,506,508
Imports	655,595	16,691,345
Excess of imports	$418,118	....
Excess of exports	....	$73,815,163

GOLD IN ORE.

1895.—Exports	$5,884	$326,653

Monetary and Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, Oct. 12, 1895.

The riots in Constantinople between fanatical Mahommedans and Armenians and the obstinacy of the Porte in adopting necessary reforms have caused much apprehension all over Europe during the week. That the Sultan in the long run will have to give way is generally believed, and that all the Great Powers are intent upon maintaining peace is also the general opinion. But there is much anxiety all the same respecting the outbreak of fanaticism amongst the Turks. People are asking, If the necessary reforms are carried out, will Mahommedan fanaticism resent the yielding to Europe and will there be a Turkish revolution? There also continues to be some apprehension respecting the Far East, although nothing fresh has occurred to increase the feeling. On the other hand, the success of the French in Madagascar has somewhat reassured French feeling, while the success of the Spanish Government in obtaining a loan of a couple of millions sterling in Paris has also helped to support the French Bourse and to allay uneasiness respecting Spain. Meantime, the plethora of money continues; rates are exceedingly low, and are likely to continue so for many a month.

The silver market has been very strong this week, and the tendency is to a further advance. Largely this appears to be due to the successful action of the American mine owners, who for several months past have never forced sales upon the market, and yet when a demand sprang up they had always been ready to supply it cautiously. Now there seems to be an increasing demand in the United States itself, in Europe and in the Far East: Japan particularly being a considerable buyer. To defray the cost of the operations in Formosa and to carry out public works at home the Japanese Government is drawing upon the large funds standing to its credit in the Bank of England. It has been buying silver and it has also been largely buying India Council drafts. On Wednesday of this week 50 lakhs were offered for tender as usual and the whole amount was sold at 1s. 1 27-32d. per rupee, which is about 1-16d. higher than the real market quotation. From this it is inferred that the purchaser was some agent of the Japanese Government who is not used to the special kind of business entrusted to him. The impression in the city is likewise that the Japanese Government is buying Indian rupee paper. It seems to be certain that the Bank of England has for some time past been a purchaser, and the public in the city think that the bank did not buy for itself but for a customer, and the general opinion is that the Japanese Government is the real buyer.

The stock markets have been very apprehensive all through the week—at times almost panicky—owing to the heavy fall in gold shares. For a considerable time past there has been a reckless speculation in those shares both at home and upon the Continent, and a set-back therefore was inevitable before long. The slump has been brought about by the sudden action of the great London banks. It appears that several Continental banks have been facilitating the speculation on the Continent by instructing their London branches to accept very large amounts of financial paper. The creation of these acceptances went on so rapidly that at last the principal London banks grew somewhat anxious and decided not to discount more of them. Of course this has caused inconvenience to the accepting banks.

It is understood that the withdrawal of money from the Paris Bourse at the settlement last week, which was on a very considerable scale, was largely due to the necessity the leading banks found themselves under to provide the means of the taking up their acceptances in London. The banks are well managed and the acceptances are covered by the deposit of good security. There is therefore no serious danger to be apprehended. But at the same time the banks concerned are obliged to take up a great deal of paper, and to do so in a hurry must necessarily cause somewhat of a flurry in the great Continental centres. As soon as the actual facts became known there was consternation among the leading speculators here and in Paris, and ever since the beginning of the week sales have been effected on a great scale. Early in the week indeed it looked almost as if there might be a semi-panic; but gradually confidence has been recovering and it may be hoped now that all danger is over.

The settlement in the mining market begins to-day, in the other departments it will begin on Monday; and until it is over it is of course impossible to speak with any certainty as to the real condition of the account. The opinion of those in the best position to judge, however, is that the weak "bulls" have been nearly all cleared out and that the stocks previously held by them have been bought by wealthy capitalists who are able to pay for and take them up. If that turns out true, then there will doubtless be a rapid recovery.

Owing to the anxieties thus generated, all departments of the Stock Exchange have been depressed, and exceedingly little business has been doing. Nevertheless the American market has been fairly steady. There have been very few transactions, but there has been still less of a decline; the market has shown very considerable steadiness. In the international department there has been more fall, but the slump that was expected in Spanish has not taken place, since the Banque de Paris et des Pays Bas has agreed to lend a couple of millions sterling to the Spanish Government to defray its most urgent requirements in respect to Cuba.

Trade is steadily though slowly improving. Prices are all tending upwards. The wool sales, which are just closing, have been very successful, and although for the last day or two there has been somewhat of a decline, that is believed to be due to manipulation intended to prevent much of a rise at the Colonial wool sales, which are about to begin. Nothing is yet definitely settled with regard to the threatened strike in the Clyde ship-building trade, but the hope is very generally entertained that an arrangement will be arrived at.

The imports since January 1st have been as follows:

Imports.	1895. £	1894. £	Difference. £	Per Ct
January	36,753,068	38,458,613	−1,705,545	−4·43

Rapid Transit in New York City—*Appointment of Commissioners.*—The Court of Appeals has upheld the right of the Rapid Transit Commissioners to apply to the General Term for the appointment of three commissioners who shall report as required by the Constitution as to whether a railroad ought to be constructed or not in the city of New York. If the Court approves the report of the commissioners, when appointed, such approval is to operate in lieu of the consents of the property owners. The lower courts held that such application should be made to the Appellate Division of the Supreme Court, to do which would cause delay. If everything goes well, it is thought the commission may be ready to offer the franchise for sale early in 1896.—V. 60, p. 887.

Staten Island Ry.—*Listing.*—On the New York Stock Exchange have been listed this company's fifty-year 4½ per cent first mortgage gold bonds for $500,000, dated June 1, 1884, due June 1, 1943. The bonds were sold during the year 1885, and $240,000 of the proceeds was used to pay off the mortgage which matured on April 1, 1885. The balance is being used in double-tracking the road and extending the main track 6.6 feet in Tottenville, N. Y., to close connection with the Perth Amboy ferry, and in building new station and ferry buildings at Tottenville. The interest and dividends are paid by the lessee, the Staten Island Rapid Transit Co., directly to the bond and stock holders.

United States Leather.—*Stock Issued.*—THE CHRONICLE is officially informed that this company has now outstanding $61,...,900 of common and $8...,900 of preferred stock. The total authorized issue of each was recently raised to $64,000,000. The absorption of some of the constituent companies was not completed Dec. 31, 1894, and is still in progress, which, it is understood, accounts for the increase of stock since the first of the year.—V. 61, p. 683.

Western New York & Pennsylvania Ry.—*Listing.*—This company has listed on the New York Stock Exchange $322,000 additional first mortgage bonds, making the total listed $9,549,000. These bonds, and $451,000 additional which have also been sold but not delivered, are issued to retire the Warren & Franklin bonds for a like amount due Feb. 1, 1896. On payment of the W. & F. bonds the other loan becomes an absolutely first lien.—V. 61, p. 701.

WALL STREET, FRIDAY, OCT. 25, 1895.—5 P. M.

The Money Market and Financial Situation.—To the unusual development in the cotton market during the week may be attributed in part the dulness and depression which has prevailed in the market for railroad securities.

Another reason for this condition may be found in the uncertainty now existing in the Kaffir markets abroad. But the chief reason has been the high rates for foreign exchange. The latter feature has attracted attention in commercial as well as in financial circles and the probable future course of the foreign exchange market is studied with interest.

While the public generally are in the main keeping aloof from Stock Exchange transactions, there is a steady demand for high-grade bonds and stocks at good prices.

Latest reports of railroad earnings are in most cases highly satisfactory, and show not only a heavy movement of grain and produce but of general merchandise.

Business at some Western trade centres is good. The retail merchants at Minneapolis report recently the largest sales they have ever had except at a holiday season.

Among other favorable features of the week is the termination of the miners' strike in the bituminous coal region and another advance in prices of anthracite coal.

The money market has been dull and steady, with rates practically unchanged.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 2 to 2½ per cent. To-day's rate on call was 2 per cent. Prime commercial paper is quoted at 4¾ to 5½ per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £307,233, and the percentage of reserve to liabilities was 58·07 against 56·92 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows an increase of 2,068,000 francs in gold and a decrease of 851,000 francs in silver.

The New York City Clearing-House banks in their statement of Oct. 19 showed an increase in the reserve held of $811,500 and a surplus over the required reserve of $15,330,175, against $14,176,900 the previous week.

Foreign Exchange.—There has been a steady demand for foreign exchange during the week and the lower rates which followed the break in the cotton market have not continued. The supply of commercial bills has been limited and a considerable amount of bankers' bills have been drawn against sales of securities abroad. Rates steadily advanced from Monday until to-day, when the market became easier and quotations declined.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 87¼@4 87½; demand, 4 88¼ @4 88½ cables 4 88½@4 88¾.

Posted rates of leading bankers are as follows:

October 25.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 88 @4 88½	4 89 @4 89½
Prime commercial	4 86¾@4 87	.....
Documentary commercial	4 86¼@4 86½	.....
Paris bankers' (francs)	5 18 1/16 @5 18 1/8	5 16 3/16 @5 16 1/4
Amsterdam (guilders) bankers	40 1/16 @40 1/8	40 5/16 @40 3/8
Frankfort or Bremen (reichmarks) b'kers'	95 1/4 @95 5/16	95 1/16 @95 3/4

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛@1-10 premium; Charleston, buying ⅛ discount, selling par; New Orleans, bank, par; commercial $1 50 premium; Chicago, 60c. per $1,000 discount; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include $35,000 4s reg., 1907, at 111⅞; $25,000 4s coup., 1907, at 111⅞; $5,000 5s reg., at 114⅝ and $5,000 5s coup., at 116. Following are closing quotations:

Fine gold bars	par @¼ prem.	U. S. trade dollars	— 55 @ — 75

State and Railroad Bonds.—Sales of State bonds at the Board include $34,000 Virginia fund. debt 2-3s of 1991 at 62 to 62¾; $700 Tenn. settlement 3s at 84; $5,000 Alabama, Class B, at 110¼, $6,000 Louisiana Con. 4s at 98¾ and $40,000 Virginia 6s defd. trust rects., stamped, at 6¼.

The railroad bond market has been dull and nearly all speculative issues, including the Atchisons, Mo. Kan. & Texas, Readings, St. Louis Southwesterns and Union Pacifics, following the course of the stock market, are lower than last week.

Savannah & Western 1st rects. have lost a part of the gain noted in our last issue. Southern Ry. 5s are fractionally lower and Ore. Short Line 6s have lost 1⅜ points. On the other hand, there is a steady demand for bonds of the better class, and Lex. Ave. & Pav. Ferry 5s have advanced 2½ points to 114½, and several of the No. Pacific issues have sold a point or more above our last quotations.

The Readings have been most conspicuous for activity, and transactions have been relatively large in Atchison, Mo. Kan. & Texas, No. Pacific, St. Louis Southwestern, Texas & Pacific, Union Pacific and Wabash bonds.

Railroad and Miscellaneous Stocks.—The market for stocks has been weak and in the absence of investment and commission house buying the business has been chiefly of a professional character.

Under these conditions the railway list has declined almost without exception. Manhattan Elevated is down over 3 points on continued liquidation, notwithstanding frequent reports of largely increased earnings. The prices of anthracite coal have been again advanced, but the coal stocks did not respond to the movements, and the decline in them averaged over 1 point. Southwestern shares have been weak on the reduced cotton crop and Kansas & Texas preferred and Mo. Pacific have lost about 2 points. Reading is down over 1 point and Louisville & Nashville over 2 points since the close last week. The grangers have been relatively strong on the excellent traffic reports, and in most cases declines in the group are fractional.

In the industrial list American Sugar is again most conspicuous and after mild fluctuations closes 2⅜ points lower than last week. American Tobacco, Chicago Gas and Distilling have been more than usually steady and changes in them are only fractional. General Electric has lost 1¼ points and Tenn. Coal & Iron is 2 points lower on liberal sales.

NEW YORK STOCK EXCHANGE—*ACTIVE STOCKS for week ending OCTOBER 25, and since JAN. 1, 1895.*

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every STEAM road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page.

* Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & Southwestern.

‡ These figures include results on leased line.

b Includes earnings from ferries, etc., not given separately. ‖ Mexican currency. c Includes only half of lines in which Union Pacific has a half interest.

Latest Gross Earnings by Weeks.—The latest weekly earnings in the foregoing are separately summed up as follows:

For the third week of October our preliminary statement covers 35 roads and shows 7.81 per cent gain in the aggregate over the same week last year.

Net Earnings Monthly to Latest Dates.—The table following shows the net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of October 19, 1895. The next will appear in the issue of November 23, 1895.

STREET RAILWAYS AND TRACTION COMPANIES

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

STREET RAILWAYS AND TRACTION COMPANIES.

* Road in process of reconstruction.
† Earnings increased largely on account of G. A. R. encampment in Louisville.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns. The latest full statement will be found in the CHRONICLE of October 19. The next will appear in the issue of Saturday, November 23.

ANNUAL REPORTS.

Western New York & Pennsylvania Railway.

(Report for year ending June 30, 1895.)

The usual statistical tables showing the results of operations for the late fiscal year were given in the CHRONICLE last week on page 701. On a subsequent page of to-day's issue will be found the remarks of President De Coursey in extended form.

Physical Condition, Etc.—The following table gives various statistics relating to tracks, bridges, equipment, etc., for fiscal years ending June 30:

Road—	1895.	1894.
Main line and br'nch's owned, of which 40 m. is narrow gauge	641	641
Weight of rails on above—		
Steel rails (40-73 lbs.)	m. 577	577
Iron rails, miles	64	64
Total leased lines, m.	36	36
Sidings owned and l's'd.	201	201
Bridges, etc.		
Steel & ir'n b'dg's (ft.)	11,517	
Wooden bridges (ft.)	6,908	
Trestles (ft.)	36,706	

Total Equipment	1895.	1894.
Locomotives (n'mb'r.)	149	153
Pass. cars (number)	120	122
Fr'ght cars (number)	8,066	8,087
Add. fr'g't cars leased	390	392
Special statistics—		
M't'nce of way, p'r m.	$822	$923
Maint. & renewals, per freight car	$37	$24
Do per pass. car	324	380
Do per locomotive	807	968

* Including on June 30, 1895, narrow-gauge locomotives, 8; pas cars, 19; freight cars, 70.

The report furnishes the detailed statement of the reorganized company's funded debt as it stood June 30, 1895, as follows:

FUNDED DEBT JUNE 30, 1895.

First mortgage 5 per cent gold bonds of the Western New York & Pennsylvania *Railroad* Company, due January 1, 1937, interest payable semi-annually, Jan. and July. Annual interest charges, $460,850.	$9,217,000
First mortgage 7 per cent bonds of the Warren & Franklin Railroad Company, due February 1, 1896, interest payable semi-annually, February and August. Annual interest charges, $54,110.	773,000
General mortgage gold bonds, due April 1, 1943, interest payable semi annually, April and October	10,000,000
These bonds bear interest at the rate of 2 per cent per annum for the first four years, from April 1, 1893; 3 per cent per annum for the next four years and 4 per cent per annum thereafter. The interest on these bonds up to and including April 1, 1896, having been provided for by a fund subscribed for that purpose, is not a charge upon earnings until after that date.	
Income mortgage gold bonds, due April 1, 1943.	10,000,000
After July 1, 1895, such interest is payable on these bonds as can be paid out of the net income for each year after deducting from the gross income cost of operation, maintenance, repairs, taxes, insurance, renewals, additions and improvements, the interest on indebtedness and any working capital which the directors of the company shall deem necessary.	
Such interest shall be non-accumulative, and, if payable, shall be paid on the first day of November in each year, for the year ending with the thirtieth day of June next preceding, and shall not exceed 5 per ct. in any one year.	
Total funded debt	$29,990,000

—V. 61, p. 701.

Evansville & Terre Haute Railroad.

(Report for the year ending June 30, 1895.)

President H. C. Barlow says in part:

General Results.—It was confidently expected that the results for the year would show a substantial improvement. This hope, however, has not been realized, owing to the strike of railway employees in July and the depressed business conditions that prevailed during the last half of 1894. While the total freight tonnage carried is substantially equal to that of last year, the decrease in coal traffic, total loss of Florida fruit crop, and excessive competition in rates on coal, farm products, and other commodities, have contributed to reduce your revenues from freight traffic. Your passenger earnings have been nearly normal compared with years not affected by World's Fair travel. Notwithstanding the unusual depression and fierce competition, all maturing obligations have been met, and the physical condition of your property greatly and permanently improved, without the creation of any floating debt. The present outlook is most encouraging. Equipment notes to the amount of $154,121 have been paid during the year, leaving amount outstanding $214,121, to be provided for during the next five years, $81,471 being payable in 1895-96.

Improvements.—The policy of permanently improving your property, inaugurated two years ago, has been carried on during the past year: 814 feet of wood trestle have been filled with earth, and 8 wooden bridges, aggregating 268 feet, have been replaced with stone and steel. The cost of these improvements in excess of original structures has been charged to betterments.

Evansville & Richmond Settlement.—The complication arising under the alleged guaranty by your company of the principal and interest of Evansville & Richmond bonds is in process of adjustment. During January a settlement was arranged with a large majority of the Richmond bondholders, subject to your ratification. Under this agreement over $1,200,000 in bonds have been exchanged for preferred stock. The wisdom of providing for Richmond charges other than by a direct charge against Evansville & Terre Haute earnings cannot be questioned.

Physical Condition.—The following table contains various facts as to the road and its equipment:

Road, miles—	1895.	1894.
Road own'd (& op.)	167	167
New ballast'g (gravel)	22	14
" " (o'd'rs)	....	2
Rails laid	....	3½
Cross ties (per mile)	419	535
Cost m'nten'nce way & structure (p. m.)	$695	$912
Rep'rs per fr'ht car	$16	$12

Equip't June 30,	1895.	1894.
Locomotives	55	55
Passenger cars	40	40
Freight cars	4,410	4,543
Bridges built during year—		
Steel replac'g wood, ft.	124	....
" " trestle, ft.	144	....
Wood. trestle filled, ft.	814	446

Evansville & Indianapolis RR.—Regarding this road the report says:

The result from operations of this company has been disappointing, owing almost entirely to the impossibility of placing the output of coal as against the cheaper quality, which has substantially driven block coal out of the market of the Northwest. The decrease in coal traffic as compared with last year aggregates 36,500 tons, while rates have averaged about 2½ per cent less than last year. The physical condition of the property rendered many improvements necessary, making it impossible to reduce operating expenses much below last year's figures. The result has been a deficit for the year amounting to $93,039 after payment of fixed charges. One mile of 52-pound steel rail has been laid, replacing worn out rail. Two miles of track have been ballasted with cinders, and one mile of ditching has been done; 47,395 cross ties have been used, being about 11 per cent of total number in track.—V. 60, p. 1144.

The yearly statements compare as follows:

Operations—	1894-95.	1893-94.	1892-93.	1891-92.
Total miles operated	167	165	165	165

Pullman's Palace Car Company.

(Report for the year ending July 31, 1895.)

President Pullman supplemented his annual report with the following general information:

General Results.—The decrease apparent in gross earnings as compared with last year is explained by the fact that the previous fiscal statement included three months of abnormally large travel, due to the World's Fair at Chicago. The demand for cars has not been equal to the existing facilities for supplying it, and the competition naturally resulting from this condition has compelled us to take contracts, as in the previous year, absolutely without profit.

The number of passengers carried during the year was 4,758,509, and the number of miles run was 179,547,071, contrasting with 5,282,253 and 197,469,508 respectively during 1893-4. The year just ended therefore shows a decrease of about 9 per cent both in the number of passengers carried and in the number of miles run. The total mileage of railways covered by contracts for the operation of cars of this company is 126,685.

During the fiscal year a new contract has been made with the Mobile & Ohio Railroad Company for a period of 25 years, expiring June 1, 1920.

Manufacturing.—The value of the manufactured product of the car works of the company for the year was $4,419,555, and of other industries, including rentals, $596,578, making a total of $4,966,133, against $4,925,331 for the previous year. Wages paid during the year aggregated $5,011,565, as compared with $4,892,549 the previous year.

Cars.—There have been built during the year, for the use of the company, 19 compartment cars, costing $194,291. The number of cars owned and controlled is 2,756, of which 2,393 are standard and 353 tourist or second-class cars.

Statistics.—The comparative statistics compiled for the CHRONICLE show the following:

INCOME ACCOUNT.

Revenue—	1894-95.	1893-94.	1892-93.	1891-92.
Earnings of cars	$ 7,452,853	$ 8,761,935	$ 9,200,685	$ 8,061,081

Comstock Tunnel Company.

(Report for the year ending Aug. 31, 1895.)

The remarks of President Franklin Leonard concerning the present condition of the property and its future prospects will be found at length on a subsequent page. During the year the management of the company was changed, the Board of Directors now consisting of the following: Franklin Leonard, Ambrose Leonard, Gordon Macdonald, M. L. Muhleman, R. Hart Smith, H. H. Penman and P. H. S. Vandervoort.

The Treasurer's report shows as follows:

RECEIPTS AND DISBURSEMENTS YEAR ENDING AUGUST 31, 1895.

Receipts		*Disbursements.*	
Balance Aug. 31, 1894	$15,441	Oper. expenses, Nevada	$20,540
Royalty	20,257	Legal services prior to Sep. 1, 1894 (extraordinary)	19,672
Transportation	3,043	Former Supt., Aug., 1894	684
*Royalty withheld	12,882	Extraordinary expenses	600
Subscription account	2,179	Taxes	1,383
Payment of judgment	1,000	Royalty attached for labor liens	1,906
Advances by two directors for settlement of claims	5,500	Expenses N. Y. office	3,816
Loan notes	7,119	Claims former President	5,500
Rents, etc	1,197	Loans and loan notes	5,449
		Other disbursements	1,440
Total receipts	$75,579	Total payments	$60,990
		Bal. of receipts at N. Y. office, $14,169; at Nevada, $420)	$14,589

*Since vacated.

South Carolina & Georgia Railroad.

(Report for the year ending June 30, 1895.)

The following statement is furnished by the company's officials:

Year ending June 30—	1895.	1894.	*Inc. or Dec.*
Gross earnings (including rents)	$1,094,385	$1,233,327	—140,942
Operating expenses	728,910	1,002,906	—273,996
Net earnings	365,475	232,421	+133,054
Fixed charges	262,560	.....	.....
Taxes	52,486	.....	.....
Int. on new equipment notes	303	.....	.....
	315,349	.....	.....
Surplus applicable to dividends	50,126	.....	.....

The decrease in gross for 1894-95, the company reports, was nearly all due to the decrease in fertilizers shipped from Charleston.—V. 60, p. 749.

Seattle Lake Shore & Eastern Railroad.

(Report for the year ending June 30, 1895.)

The receivers have filed a report with the United States Circuit Court at Seattle for the year ending June 30. Regarding it the *Seattle Post-Intelligencer* says:

An encouraging report has been filed by Thomas R. Brown and John H. Bryant, receivers. It shows net earnings of $43,093 for the year ending June 30. The number of industries from which the road receives its freight has been materially increased during the year. The

shipment of coal from the Issaquah mine has also increased. While there has been a decrease in passenger earnings, the freight earnings have taken such an advanced st ile as to give a n t increase in gross earnings of more than $7,000.

By careful attention the expenses of the operating department have been reduced to a minimum, with out affecting the successful operation of the road.

The financial statement shows the following figures:

YEAR ENDING JUNE 30, 1895.

Gross earnings.	Net earnings.	"Other" income.	"Other" expenses.	Total net income.
$277,736	$45,975	$20,153	$23,,34	$43,094

Cash on hand $7,844

During the year the company handled 35,735 cars of freight as follows: Shingles, 3,414; coal, 7,33 ; logs, 7,340; lumber, 1,457; merchandise, 3,8 8; miscellaneous, 8,11 . Of the total shipments 7,1 8 cars were westbound and 2 ,53 eastbound. There were 90,6 9 passengers, of who a 4 ,427 were westbound and 44,382 eastbound. The Nor hern Pacific received from the Lake Shore 6,089 cars, Great Northern 1,142 and Canadian Pacific 1,250, while the total delivered to connections was 11,418.

Physical Condition —The report says:

On the E stern division, extending 50 miles from Spokane to Davenport, nothing has been done in th way of improvement Before the road can be properly operated it will have to be re-filled, and cuts and banks widened. On the Western division a total of 3,520 feet of new steel rails have been laid as renewals and 27,059 new crossties put in. Eighteen new sidings have been put in, with a total length of 14,1 7 feet, while eighteen spurs have been taken up, with a total length of 13,926 feet. The b idges are in safe co dition, and barring accidents will require only light repairs, with the exception of pony spans of bridge No. 21, North branch, which will have to be replaced by one span of ninety feet. The cost is estimated at $1,900.—V. 59, p 970.

American Type Founders' Company.

(For year ending August 31, 1895)

The report of President John E Searles says in part:

Business.—The business has largely increased in volume over any pr ceding year of the company's exi tence. The net sales have b en over $300,000 greater than in 1894, and the pres nt outlook indicates that the year now entered upon will show even larger growth An average credit of four months is unavoidable and thus every $300,000 increase in annual sales calls for $100,000 ad ditional working capital

The operations of the Thorne Type Setting Machine Company in which this company is interested have been highly satisfactory, th receipts of your company from this source in commissions and profits upon goods sold having already amounted in the twenty-one months since the alliance was made to more than 40 per cent of the amount of the investment.

The table showing profits does not fairly represent the real result of the year's operations, inasmuch as th profits are diminished by items there shown, and also by the fact that merchandise was inventoried August 31, 1895, at a reduced price, involving a shrinkage of nearly $50,000 in the net earnings.

Improvements —Perfecting machines will now be installed at th rate of six machines a month, the economy reaching a very large sum an nually. The consolidation of foundries and branches outlined in the report of 1894 has been fully accomplished and a similar policy pursued in like cases. Manufacturing has been classified and concentrated at the centres where economy and quality can be best secured. By various changes the aggregate rentals have been reduced over $10,000 a year and further saving will be secured in the near future when certain existing leases shall have expired.

Financial Needs.—While the company's entire indebtedness is considerably less than the sum of its cash and receivables without its large merchandise and plant accounts, which are entirely unencumbered, so that the solvency of the company cannot be imperiled, yet the enlarged needs for money and the exigencies of credit render it important that some method of funding this indebtedness be devised. In the absence of some such provision it will be impracticable for some time to divert earnings from the business needs of the company to the payment of dividends.

Denver Consolidated Tramway.

(Report for the year ending June 30 1895.)

The report of President Rodney Curtis says in part:

The de rease i the gross receipts fo the year is accounted f r, first, by the business depressio ; secondly, by the use of bicycles; thirdly, by stormy weather, and lastly by the boiler explosion at the generating station, which decreased the car service for several weeks. The experience of the com pany for th last three months warrants the belief that there will be no decrease in revenue on account of bicycle riding gre ter th n that already sustained.

During th year $20,019, was expended for maintenance of way and $3 ,48 31 for maintenance of cars and motors, and from the earnings were paid two dividends of one per cent each.

Negotiations are pending for the sale of bonds held by this company and used as collateral to secure its floating debt. It is probable that this sale will be concluded, and the floating debt of the company practically extinguished within a very short time.

GENERAL INVESTMENT NEWS.

Reorganization Plans, etc.—The following is an index to all statements relating to defaults, foreclosure sales, reorganization plans, reorganization committees, payment of coupons, and receiverships, of the principal companies, that have been published in the CHRONICLE *since* the last editions of the INVESTORS' and the STREET RAILWAY SUPPLEMENTS were issued, all earlier facts of this nature being set forth therein. It does *not*, however, include matter in to-day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.*, for default; *Com.* for committee.

For references to railroad and miscellaneous company items see the INVESTORS' SUPPLEMENT, issued to-day.

American Spirits Manufacturing.—*Possession*—A dispatch from Chicago says that Receiver McNulta on Thursday formally turned over to the American Spirits Manufacturing Company seventeen distilleries of the old Distilling & Cattle Feeding Co. A combination with the outside distilleries is talked of to control production and sales.—V. 61, p. 558.

American Tobacco.—*Litigation.*—A petition in the name of Charles A. Whelan has been presented to Attorney General Hancock asking him to institute proceedings to prevent this company from doing business in New York State on the ground that it is an unlawful combination.

Competition.—The competition between the company and the independent cigarette and plug tobacco manufacturers continues extremely keen.—V. 61, p. 557.

Anaconda Copper Mine.—*Sale to London Syndicate.*—Messrs. Kuhn, Loeb & Co. confirm the report that they have negotiated the transfer to a London syndicate of 300,000 shares of the stock of the Anaconda Copper Mine. The price is understood to be about $50 per share, the par value being $25. The entire issue is 1,500,000 shares, and it is understood the foreign syndicate has an option on practically all of it, an option which it will probably exercise, as the expert sent out to examine the property has reported favorably.

Atchison Topeka & Santa Fe RR.—*Reorganization.*—The joint reorganization committee gives notice to the holders of Atchison stock that more than 20 per cent of the stock has been deposited, and in view of the small amount of stock still outstanding the committee will allow stockholders, if they desire to participate in the reorganization, to deposit their stock and pay the assessment on or before Nov. 10, 1895.

The deposits of securities amounting to the plan on Oct. 25 were as follows: General 4s $128,106,500 out of $129,320,777, second mortgage "A" and incomes $78,538,500 out of $79,191,167, second mortgage "B" $9,381,400 out of $10,000,000; stock $100,294,800 out of $102,000,000.

Foreclosure Sale.—The date of sale has had to be postponed till Dec. 10.—V. 61, p. 703.

Auburn City RR.—*Stock Increase.*—The New York State RR. Commissioners have authorized an increase of stock from $50,000 to $250,000.

Baltimore & Ohio RR.—*Staten Island Terminals.*—Important improvements looking to the development of the Staten Island terminals opposite New York City are reported in contemplation. In this connection it is interesting to note the listing mentioned below of Staten Island Railway bonds.—V. 61, p. 703.

Brooklyn Street Railways.—*Reported Negotiations.*—Reports are current respecting propositions made by the new Nassau Electric Railroad Company to lease first one and then another of the street railways in Brooklyn. While no definite information is obtainable enough has transpired to make plausible the theory that an effort is making to bring all the street railways under one management. If this is so it will probably be found that the Nassau Electric Railroad Company is merely the means used by a large syndicate to accomplish this end.

Burlington Cedar Rapids & Northern Ry.—*Old Suit.*—The United States Supreme Court has rendered a decision favorable to this company in the old suit brought by holders of the Burlington Cedar Rapids & Minnesota equipment and income bonds to compel the B. C. R. & N. to pay their bonds. The *New York Times* states the facts as follows.

The Minnesota road was bought by the Burlington Company under a decree made Oct. 20 1875, and it was not until 1880 that the second mortgage bondholders instituted these proceedings. A judgment by the Circuit Court of the United States for the Southern District of Iowa in May, 1889, affirmed the validity of certain of the bonds and decreed others to be invalid, but the Supreme Court of the United States, in an opinion rendered by Justice Gray, reverses that judgment and remands the case, with instructions to dismiss the bill at the cost of the bondholders.—V. 60, p. 871.

Cape Fear & Yadkin Valley RR.—A despatch to the *Evening Post* says:

Sale.—This road is soon to be sold in foreclosure, the exact date to be set in a few days.

Reorganization.—The Baltimore bondholders' committee have completed a plan of reorganization, which looks to the consolidation of the road as one line, and it is very essential to the success of that plan that the road be sold as a unit at the forthcoming sale. But the New York security holders will make a strong fight to have the road sold in sections, there being three divisions. At least they will demand that that part of the road represented by the "A" bonds be sold separately.

Some well informed railroad men think there is much truth in a report that has been current lately that the Baltimore & Ohio system would seek to obtain control both of the Cape Fear & Yadkin Valley and the Roanoke & Southern. Thus, by building a link from Lexington, Va., to Roanoke, Va., the Baltimore & Ohio would have a through route through Southern Virginia, Piedmont and North Carolina to the sea coast at Wilmington.—V. 61, p. 558.

Central of Georgia Ry.—*Organization.*—This company was organized Oct. 17 under a Georgia charter to succeed to the property of the old Central of Georgia Railroad & Banking Company, foreclosed. The directors elected are only temporary. There will be another stockholders' meeting within sixty days, when a permanent board and executive officers will be chosen.—V. 61, p. 703.

Chattanooga Electric Ry.—*Foreclosure Sale.*—The sale of this road is advertised for Dec. 30, 1895, under foreclosure of the consolidated mortgage to the St. Louis Trust Co. There are coupons for $650,000 outstanding.

Cleveland Electric Ry.—*New Bonds.*—N. W. Harris & Co. of Chicago have purchased $250,000 20-year gold 6s, making the total purchased $1,000,000.

Columbus Sandusky & Hocking Ry.—*Foreclosure Sale.*—This railway was sold by the receiver at Bucyrus, Ohio, Oct. 19, to the bondholders' committee for $1,500,000. There were no other bidders. It is understood that at the hearing on the 29th inst. for the confirmation of the sale of this road objection will be made by the attorney who obtained the appointment of a receiver on June 28th. His action was a surprise to the company and the following week the Court appointed another receiver. See pages 26 and 68 of current CHRONICLE volume. The reorganization committee will oppose the claims on the part of the anticipated objector as exorbitant and some slight delay in the confirmation of the sale may occur and postpone the reorganization.—V. 61, p. 558.

Continental Match—Diamond Match.—*Competition.*—The Continental Match Company, organized in 1894 with a capital of $1,000,000 and Edwin Gould as President, is reported to have in operation a factory at Passaic, N. J., to be completing another at Ogdensburg, N. Y., and to have in contemplation a third in Illinois. The Continental Company is said to be at present the Diamond Match Company's only competitor of any magnitude.—V. 60, p. 301.

Detroit Railway (Detroit, Mich.)—*New Company.*—This Street Railway Company was organized in December, 1894, and began construction in May last. It has now 47.18 miles about completed and expects to have the entire road in operation by the 1st of November. About two thirds of the 47 miles are now in operation. The company has 75 cars, all of one pattern, the door being on the side and all seats facing forward. About 20 miles of franchises are owned in addition to the road built and under construction. The original franchise granted December 4, 1894, provided that the cash fare shall be 5 cents, but that 8 tickets shall be sold for 25 cents during the greater part of the day and 6 tickets for 25 cents during the balance of the day. This, it will be seen, is very different from a 3-cent cash fare, which it was said the company must charge. The original franchise was largely for a much needed cross-town road in Detroit, but the company reports that it has been granted several other franchises, under which it has built, so that its system now covers a large portion of the city of Detroit. Further facts of interest relating to the company are furnished as follows:

The Detroit Railway has no bonds as yet. The capital stock of the company is $1,000,000. The stockholders have paid in $1,000,000. The receipts at present of the portion of the road that we are imperfectly operating average $600 per day. Our power house is advantageously situated on the real estate owned by the company near the Michigan Southern Railway depot on the Detroit River. We have our own dock and are able to receive coal either by rail or water. We also get water free from the Detroit River, making a great saving in expense.

Eastern Trunk Lines.—*Agreement.*—The boards of directors of the following additional companies have this week formally ratified the new agreement for the restoration and maintenance of rates: The New York Central, West Shore, Michigan Central, Lake Shore, Nickel Plate, Delaware Lackawanna & Western and Lehigh Valley. Mr. Chauncey M. Depew is reported as saying that, so far as he can see, nothing stands in the way of the final adoption of the agreement by all of the railroad companies interested in it. He attaches no importance to the reports that the Canadian Pacific's opposition was likely to influence the Grand Trunk and the Wabash adversely. Including the Baltimore & Ohio (mentioned last week) the directors of eight of the sixteen trunk lines have thus far given their official sanction to the agreement. The meeting of the presidents of the trunk line roads to take final action on the agreement, it is believed, will be held October 30.—V. 61, p. 661.

Edison Electric (Philadelphia)—Pennsylvania Light Heat & Power—*Lease.*—The preliminaries were arranged this week for a lease of the property of the Edison corporation to the Pennsylvania Company for 39 years at a guaranteed dividend on the Edison stock of 8 per cent for the first two years and 9 per cent thereafter. The Pennsylvania has a capital stock of $10,000,000 while that of the Edison is $2,000,000. The new company will furnish electric light and steam heat and electric power.

Elmira Municipal Improvement—Elmira & Horseheads Ry.—*Funding Proposition*—Interest due Oct. 1, 1895, on the Improvement Co. bonds has not been paid, and the management is asking the bondholders to fund the same for the purpose, as stated, of allowing the company to use the money in making repairs. Coupons of Oct. 1, 1894, to Oct. 1, 1894, both inclusive, were funded, but the April, 1895, interest was paid in cash, the receiver being then discharged. The Improvement Company controls the Elmira & Horseheads Railway.

Green Bay Winona & St. Paul.—*Plan Operative.*—The holders of a large majority of the income bonds, preferred stock and common stock having assented to the plan, it is announced that the same has been declared operative. Until October 30, 1895, securities will be received only upon the payment of a penalty of ¼ of 1 per cent of the par of the same, in addition to the assessments fixed by the plan. *See advertisement on another page of to-day's* CHRONICLE.—V. 61, p. 558.

Illinois Central RR.—*Chicago Lake Front.*—An agreement has at length been reached with the city of Chicago regarding the tracks on the Lake Front. Under an ordinance of the City Council the railroad company will spend $1,250,000 in building sea-walls and viaducts and depressing its tracks, &c. The Illinois Central will acquire nearly eight acres of

additional land while the city will gain 1-12 of an acre more than that. The expenses to the Central will be met by the sale of stock, as previously announced.—V. 61, p. 560.

Jacksonville Louisville & St. Louis Ry.—Jacksonville Southeastern Ry.—*Reorganization.*—Robert T. Kennedy and J. H. Dunn, of Dunn Brothers, Bankers (Philadelphia), are a "Bondholders' Committee" appointed by the holders of the *Jacksonville Louisville & St. Louis Ry. Co.* consolidated mortgage in which are in default, the coupons due July 1, 1893, and subsequent ones remaining unpaid.

Foreclosure proceedings were commenced by holders of *Jacksonville Southeastern* mortgage 6s, the coupons on which due July 1, 1892, Jan. and July, 1894, and Jan., 1895, were unpaid and have since been sold and are outstanding as a lien under the mortgage. The coupons due July 1, 1895, were paid under an order of court by the receiver. The $300,000 Jacksonville Southeastern sixes were purchased by the consolidated bondholders and foreclosure suit withdrawn. The plan of reorganization is still in abeyance.—V. 60, p. 552.

Lehigh Valley RR.—Lehigh & New York RR—*Listing.*—The Lehigh & New York RR bonds for $2,000,000 have been listed on the New York Stock Exchange. The application says:

The total issue of $2,000,000 bonds are dated Aug. 24, 1895, and due Sept. 1, 1945, and not redeemable before that date, interest at 4 per cent, payable at the office of the Lehigh Valley RR. in Philadelphia, Pa., or at the Metropolitan Trust Company, New York. Both the principal and interest are guaranteed by the Lehigh Valley R R. Co. by an endorsement on each bond; and the bonds are payable in United States gold coin of the present standard of weight and fineness, without deduction from either principal or interest for any tax which may be made payable under any present or future laws of the United States of America, or of the State of New York, for national, State or municipal purposes, and which the said company may be required by any law to retain therefrom. The Lehigh & New York RR. Co is a corporation organized by the purchasers at foreclosure sale of the property and franchises of the Southern Central RR. Co The road, with its equipment, was leased to the Lehigh Valley Railroad Company for a term of 949 years from Aug. 24, 1895. The road extends from the New York State line, near East Waverly, and runs east and north to Fair Haven, on Lake Ontario, 115 miles.—V. 61, p. 558, 661.

Louisville & Nashville RR—*Listing.*—On the New York Stock Exchange have been listed $4,000,000 Louisville & Nashville RR and Mobile & Montgomery Ry. 50-year 4½ per cent gold first mortgage joint bonds, dated September, 1895, due September 1, 1945, Central Trust Company of New York, trustee. The Mobile & Montgomery Railway extends from Montgomery, Ala., to Mobile, Ala., a distance of 178 57-100 miles, the whole of its outstanding capital stock, amounting to $2,950,800, being owned by the Louisville & Nashville. Of the bonds now listed, $2,950,000 were disposed of to redeem the prior 6 per cent mortgage bonds of the Mobile & Montgomery for the same amount, which bonds have been canceled and the mortgage securing the same duly released; the proceeds of the balance of the bonds, viz.: $1,050,000, to be used only in accordance with the terms of the mortgage. The Mobile & Montgomery for the year ending June 30, 1895, showed: Gross earnings, $1,548,438; operating expenses, $944,196; net earnings, $604,242.—V. 61, p. 613.

Market Street Ry.—San Francisco—*Consols Valid.*—A press dispatch from Los Angeles states that the Supreme Court has affirmed the validity of the $17,500,000 bond issue of the Market Street Railway Company. The company, which is controlled by Southern Pacific interests, was formed in 1893 by consolidation of a number of companies, and the suit regarding the bonds was an amicable one to determine their legal standing.

New York Lake Erie & Western RR.—Chicago & Erie RR.—*Deposits.*—The time for deposits of bonds under the plan of reorganization expired last night. Between 98 and 99 per cent of all the bonds of the Erie and Chicago & Erie called for deposit had then been turned in. Further deposits will be received, if at all, on such terms as the committee may decide.—V. 61, p. 559, 703.

Northern Ohio Ry.—Lake Erie & Western RR.—*Bonds Offered.*—Messrs. Vermilye & Co. offer to investors at 103 and accrued interest, $2,500,000 Northern Ohio Railway Company first mortgage 50-year five per cent gold bonds, principal and interest guaranteed by the Lake Erie & Western RR. Co. The Northern Ohio Ry. extends from a connection with the Toledo Kansas City & St. Louis RR. and the Pittsburg Ft. Wayne & Chicago Ry. at Delphos, Ohio, through Bluffton, where it connects with the Lake Erie & Western system to Akron, Ohio, 166 miles. The mortgage under which the bonds are offered provides for a further issue of $1,500,000 upon new road to be built or acquired. The additional mileage contemplated will, it is thought, furnish further valuable connections to the Northern Ohio Railway and so to the Lake Erie & Western, which owns the common capital stock of the Northern Ohio. The surplus of the Lake Erie & Western road for the last fiscal year was $300,543 over charges and five per cent dividend on its preferred stock. *See advertisement in another column.*—V. 61, p. 282, 558.

Northern Pacific RR.—*Coupon Payment.*—The receivers give notice that the coupons due November 1 of the collateral trust notes will be paid on and after that date at the office of the Farmers' Loan & Trust Company pursuant to the order of the United States Circuit Court for the Eastern District of Wisconsin.

Case before Judge Lacombe.—The motion of the Farmers' Loan & Trust Company for the acceptance of the resignation of the receivers of the Northern Pacific Railway Company—Thomas F. Oakes, Henry C. Payne and Henry C. Rouse—and for the appointment of other receivers, came up before Judge Lacombe in the United States Circuit Court yesterday, after several previous adjournments.

Mr. Herbert Turner, for the plaintiff company, withdrew the previous request he had made for the appointment of Messrs. Bigelow and McHenry, to whom the direct representatives of the Northern Pacific Railway Company had objected because of alleged personal relations with the resigning receivers, and asked for the appointment of one receiver, naming Robert M. Gallaway, President of the Merchants' National Bank. Mr. Cardozo, representing the second mort. bondholders, protested against the appointment of any one who had not in some federal jurisdiction already been named as a receiver. He was emphatically opposed to any increase in the number of receivers, of whom he said there were now five. Silas Pettit, general counsel of the railway company, advocated the appointment of a distinct receivership for the funds of the company in this city, and seemed to be in favor of Mr. Gallaway's designation. Judge Lacombe said that to him it would seem but common sense that, since what was desired was as near an approach as possible to a single and harmonious receivership, this object would be more furthered by leaving any vacancy here unfilled than by making any appointment. C. C. Beaman, representing the reorganization committee, urged the appointment of a receiver of the company's property here, and favored the appointment of Mr. Gallaway.

Judge Lacombe said that the proper thing to do was for counsel representing all interests to unite in a letter to the United States Circuit Court judges of the seventh and ninth circuits asking them to agree upon receivers acceptable to all parties. It was monstrous, he said, that the affairs of the road should stand week after week in their present predicament. It must be, he asserted, because of the lack of some proper suggestion. If after a week to consider the suggestion he had made counsel did not choose to write the letter to the Western circuit judges, then he himself would do so. There was thereupon an adjournment for another week.—*New York Evening Post.*

Receivership.—Judge Beatty this week appointed Andrew F. Burleigh receiver of the Northern Pacific for Idaho.—V. 61, p. 704.

Ohio Southern RR.—*Listing.*—First mortgage 6s for $392,000 have been listed on the New York Stock Exchange, making the total listed $3,924,000; the authorized issue is $4,000,000. The new bonds it is stated were issued on extensions prior to the receivership and all coupons on them have been paid. For the 56 days of the receivership ending Oct. 12 the earnings were: Gross, $120,073; operating expenses, $72,886; net, $47,186. The application to the Exchange further says:

The road has been seriously embarrassed in its operation from the want of motive power resulting from the neglect of maintenance of locomotives during the last two years. This is being remedied by the purchase of six new locomotives, all of which are to be delivered prior to the 12th prox., after which we are justified in saying that there will be a very material increase in the earnings of the road.

On September 2, 1895, the Board of Directors and official list of the company were largely changed, and is now as follows:

Board of Directors: Edward R. Thomas, 80 Broadway, N. Y.; Stephen D. Bayer, Bache & Co., 48 Exchange Place, N. Y; H. L. Chapman, Jackson, O.; James B. Townsend, Lima, O.; Daniel O'Dell, 80 Broadway, N. Y.; Archibald H. Smith, 42 Broad St., N. Y.; Geo. H. Frey, Sr., Springfield, O.; H. B. Morehead, Cincinnati, O., O. S. Kelly, Sr., Springfield, O..

Officers of the company are: Edward R. Thomas, President, Geo. A. Morrison, Assistant Secretary and Treasurer. V. 61, p. 367.

Oregon Short Line & Utah Northern RR.—*Coupon Payment.*—Application has been made to the Court for permission to pay the interest due Feb. 1, 1895, on the Oregon Short Line first 6s.

Utah Southern.—An intervening petition in the foreclosure suit of the Oregon Short Line & Utah Northern consolidated 5 per cent bonds has been filed by Counsel Holmes for the committee of holders of the 7 per cent bonds of the Utah Southern RR. There will be a hearing on this petition in Utah next Monday.—V. 61, p. 704.

Oswego Street Ry.—*Stock Increase.*—The N. Y. State RR. Commissioners have authorized an increase of stock from $125,000 to $200,000.—V. 60, p. 606.

Paducah Tennessee & Alabama RR.—*Foreclosure Sale.*—This road was sold Oct. 18 at foreclosure sale for $1,000,000 to a representative of the St. Louis Trust Co., acting for the bondholders' committee. The Tennessee Midland, the sister road, was also purchased last week by the Trust Company, and it is understood that on reorganization the two lines will be consolidated.—V. 61, p. 663.

Philadelphia & Reading.—The results of operations for September and the ten months of the fiscal year—Dec. 1 to September 30—have been as follows:

	—September.—		—Dec. 1 to Sept. 30.—	
Railroad Company—	1895.	1894.	1894-95.	1893-94.
	$	$	$	$
Gross receipts	1,931,561	1,785,151	17,008,627	16,409,895
Operating expenses	1,018,655	962,928	9,616,138	9,369,657
Operating profit	912,906	822,223	7,392,489	7,040,238
Net from other sources	24,685	18,172	484,133	415,085
Total	937,591	840,395	7,876,622	7,455,323
Deduct— Charges, &c	853,073	1,041,396	8,455,834	8,903,099
Balance	sur.84,518	df.201,001	def.579,212	df.1,447,776
Balance of C. & I. Co.	df.301,694	df.134,731	df.1,699,463	df.1,086,390
Balance both cos.	df.217,176	df.335,732	df.2,278,675	df.2,534,166

Pittsburg Cincinnati Chicago & St. Louis Ry.—Pennsylvania RR.—*Bonds Sold.*—The Pennsylvania Railroad Co. has sold $6,000,000 Pittsburg Cincinnati Chicago & St. Louis 4 per cent bonds, guaranteed by the Pennsylvania Company, to Kuhn, Loeb & Co. and Speyer & Co., New York. The increase in the funded debt as of Dec. 31, 1894, resulting from this sale, will be insignificant. The bonds will shortly be offered for public subscription.—V. 61, p. 472, 661.

Raleigh & Augusta Air Line RR.—Seaboard Air Line.—*Bond Sale.*—The Mercantile Trust & Deposit Co. of Baltimore and Baltimore Trust & Guarantee Co. offer at 105 and accrued interest, netting about 5% per cent, $456,000 first mortgage 6 per cent bonds of the Raleigh & Augusta, dated 1886, due Jan. 1, 1926, being the portion of the $1,000,000 loan heretofore held in the treasury of the Seaboard Air Line system. The bonds are unconditionally guaranteed as to principal and interest by the Raleigh & Gaston RR. Co., and they are a first lien at about $9,300 per mile on the Raleigh & Augusta RR., whose earnings are reported as follows for the years ending June 30:

	Gross.	Net.		Gross.	Net.
1895	$477,037	$107,128	1893	$369,294	$89,416
1894	326,911	*38,440	1892	283,562	67,952

*Haw River Bridge, $30,274, paid for and charged to operating expenses.

The proceeds of the sale, it is said, will be applied to improvements, including a new freight depot at Atlanta, Ga., etc.

Latest Earnings.—The earnings of the Raleigh & Augusta for July and August of the present fiscal year (1895) show a net increase of $13,510. The net earnings of the Seaboard Air Line for the year ending June 30, 1895, show an increase over the previous year of $220,450; for the entire system for the first two months of the present fiscal year an increase of $48,726.

See full particulars in our advertising columns.—V. 60, p. 84.

Union Pacific Ry.—Central Pacific RR.—*Report of Government Directors.*—The Government Directors of the Union Pacific in their annual report make mention of the various foreclosure suits in progress under mortgages prior to the Government lien, and then go on to outline a plan by which the Government shall acquire the Central Pacific main line and the Union Pacific, exclusive of the Kansas Pacific, and shall sell them as a through line from Omaha to San Jose to some corporation willing to bid a fair price for them. They say in part:

Policy Advised.—It is claimed by holders of bonds having a lien prior to the Government lien that if notice of the pendency of foreclosure proceedings is given to the United States and a full opportunity offered to redeem the mortgaged property by the payment of the prior liens, a complete title will pass under a foreclosure and sale, free from the lien under which the property is sold and from all junior liens, including the lien of the United States. Whether this claim be a correct statement of the law or not it is the imperative duty of Congress to take prompt and definite action. The Government Directors have frequently declared their opposition to any scheme of Government ownership of railroad properties. We therefore suggest the following:

FIRST.—That it is desirable to terminate the relations between the Government and the railroad properties, either by accepting a fixed sum in money or a determinate amount of bonds.

SECOND.—That the adjustment of both the liens prior to the lien of the United States and of the liens on parts of the railroad not subject to the lien of the United States involves amounts out of proportion to the claims of the United States.

The great object which inspired the Pacific legislation of 1862 and 1864 was to secure continental railroad service between the Missouri River and the Pacific Ocean. It is not necessary for the accomplishment of this purpose to retain the Kansas Pacific RR. as part of the continuous line intended by Congress. We therefore suggest the passage of a bill containing the following provisions:

Plan Outlined.

FIRST.—The Attorney-General shall, immediately after the maturity of any portion of the debt due to the United States from the Union Pacific Railway or the Central Pacific RR., institute proceedings for the foreclosure of the liens of the United States from Omaha to Ogden, and from Ogden to Sacramento, and thence to San Jose.

SECOND.—The Secretary of the Treasury shall have power to settle all claims due for principal and interest of liens prior to the liens of the United States.

THIRD.—The entire railroad property from Omaha to San Jose shall, under orders of Court, to be ordered in the suits to foreclose the Government liens, be forthwith sold to such purchasing committee or corporation authorized to take title as will agree to refund the entire amount advanced by the Government for the discharge of prior liens and of the interest on the same, and an amount not to be less than a sum fixed by Congress as the minimum to be received in satisfaction of its claims. The purchasing committee or corporation purchasing said railroads shall have power to possess and operate the same and to complete construction between Sacramento City and Oakland; shall not be allowed to consolidate with other trans-Continental lines, and shall be subjected to reasonable conditions as to freight and passenger rates.

UNTIL a purchasing committee or corporation were found willing to take title, the management of the property would, necessarily, remain in the Courts having jurisdiction of the foreclosure of the Government liens.

The fixing of the minimum price would naturally be attended with some difficulty, but a free negotiation would certainly soon develop the practical limits of the price to be obtained, and would, it seems to us, realize a better return to the United States than could be reached through the agency of any funding bill or extension of the present indebtedness.

The entire gross amount of the prior liens on the Union Pacific and the Central Pacific properties of the Kansas Pacific, less the amounts held in the several sinking funds, will be $34,821,802. The amount which might be required to discharge or purchase these prior liens is liable to be increased if the sums in the sinking funds of the United States should under the decision of the Secretary of the Treasury and the Attorney-General not be available.—V. 61, p. 704, 705.

Union Pacific Ry.—*Coupon Payment.*—Application has been made to the Court for permission to pay the interest due Jan. 1, 1895, on the first mortgage 6s.—V. 61, p. 704, 705.

Reports and Documents.

WESTERN NEW YORK & PENNSYLVANIA RAILWAY COMPANY.

FIRST ANNUAL REPORT—FOR THE YEAR ENDING JUNE 30, 1895.

To the Stockholders of the Western New York & Pennsylvania Railway Company:

Your Board of Directors submits the following report of the operation of your road for the fiscal year ending June 30th, 1895:

The property of the Western New York & Pennsylvania Railroad Co. was placed in the hands of Samuel G. DeCoursey, Receiver, on April 1st, 1893, and so continued until the close of March 31st, 1895. The operations for nine months of the present fiscal year (from July 1st, 1894, to March 31st, 1895,) were therefore under the administration of said Receiver; they are included in this report for the purpose of enabling a comparison of results for a full period of one year. For details as to Funded Debt and the financial condition of the Company you are referred to the Auditor's Report; and to the General Superintendent's Report for details as to physical operations and improvements of your property.

Attention is called to the changed condition of the Funded Debt and fixed charges as the result of the reconstruction effected. On March 31st, 1895, the funded debt was:

First mortgage bonds	$9,217,000 00
Warren & Franklin bonds	773,000 00
Second mortgage bonds	19,970,000 00
Debenture bonds and scrip	4,861,802 22
	$34,821,802 22

The fixed charges upon which were as follows:

5 per cent on $9,217,000 First mortgage bonds	$460,850 00
7 per cent on $773,000 Warren & Franklin bonds	54,110 00
3 per cent on $19,970,000 second mortgage bonds	599,100 00
	$1,114,060 00

On April 1st, 1895, the Funded Debt was:

First mortgage bonds	$9,217,000 00
Warren & Franklin bonds	773,000 00
General mortgage bonds	10,000,000 00
Income mortgage bonds	10,000,000 00
	$29,990,000 00

The fixed charges upon which are:

5 per cent on $9,217,000 First mortgage bonds	$460,850 00
7 per cent on $773,000 Warren & Franklin bonds	54,110 00
2 per cent on $10,000,000 General mortgage bonds	200,000 00
	$714,960 00
After April 1st, 1897, the interest upon the General mortgage bonds runs at 3 per cent to and including April 1st, 1901, adding	100,000 00
After April 1st, 1901, the interest runs at 4 per cent, adding another	100,000 00
	$914,960 00

Under the plan of reconstruction, the interest on the $10,000,000 General mortgage bonds issued was provided for up to and including the coupon due April 1st, 1896, so that interest on said Generals does not become a charge on earnings until after that date; and therefore until April 1st, 1896, the annual fixed charges, payable out of earnings, are at the rate of $714,960.

During the coming year the 7 per cent Warren & Franklin bonds will mature, and an equal amount of 5 per cent First mortgage bonds will be issued in lieu thereof, which will effect a saving of $15,460 annually. In addition to the reduction in funded debt the capital stock was also reduced from $30,000,000 to $25,000,000.

Compared with the fiscal year which ended June 30th, 1894:

The Gross Earnings increased 5·07 per cent	$270,108 53
The Operating Expenses increased 3·54 per cent	78,480 52
The Net Earnings, after deducting only operating expenses, which include $50,000, the amount of rental paid under Lake Shore & Michigan Southern lease, and which heretofore was not included in operating expenses, have increased 24·03 per cent	191,628 01
The net income, after deducting taxes, interest on real estate mortgages and interest on equipment notes, increased 16 per cent	223,459 37
New equipment notes have been paid, amounting, with accrued interest on all outstanding notes, to	381,019 22
Of this amount of $381,019 22, over $273,000 were paid at a rebate of 6 per cent, out of the proceeds of the sale of $350,000 of Western New York & Pennsylvania RR. Co.'s First mortgage bonds, sold for that purpose, and the balance was paid out of earnings.	
The outstanding notes given for new equipment, with interest included, amount to	242,518 68

These notes are payable monthly, and mature as follows:

In the calendar year 1895	$27,133 20
" " " 1896	54,266 40
" " " 1897	94,965 01
" " " 1898	67,054 07

The only new equipment purchased during the year was one extra large Barnhart steam shovel, at a cost of $5,850, which was paid for in cash. The policy of renewing worn-out wooden structures with new ones of iron and steel, and of sufficient capacity to meet modern requirements, has been continued by erecting thirteen bridges, aggregating 981·55 feet in length.

The total cost of the metal work of these bridges was over $26,000, only one-third of which has been charged to betterments.

For the coming year it is estimated that we will be required to erect seven new iron and steel bridges, at an approximate cost, exclusive of masonry, of $27,350. We will also have to erect a stone bridge at Wolf Run at an estimated cost of $15,000.

The average condition of motive power is not quite so good as last year, and in the near future the usual depreciation from wear and tear, especially on the lighter engines, will require the purchase of additional locomotives. By reason of the dull state of trade in 1894 our expenditures for maintenance of freight car equipment in that year were made as small as possible. The increased expenditures on this equipment during this year has resulted in restoring our freight cars to about their normal condition. We have expended less this year than last on our passenger equipment, but it is in good condition for present requirements.

The providing of air-brakes and couplers is being proceeded with as rapidly as our means will permit.

During a portion of the year the exigencies of our traffic, caused more particularly by the unsettled condition of the soft-coal trade, resulted in the blocking of our yards in Buffalo to such an extent that we decided upon locating a large poling yard outside the city's limits, as necessary to the prompt and economical handling of business concentrating at Buffalo; and the purchase of land and fitting up of such a yard has been authorized and will be secured in time for the coming year. This yard will, through the belt lines which are being constructed, furnish us with facilities for transferring, outside the city of Buffalo, cars for connecting roads. By comparison with 1894, our operating expenses have decreased 789 thousandths mills per ton per mile, amounting, upon the ton mileage of this year, to the sum of $395,031 89. The average rate per ton per mile received in 1895 is 759 thousandths mills less than in 1894, which, upon the ton mileage of 1895, amounts to $380,011 67; so that our greater economies (largely secured through reduction in salaries and wages) were nearly absorbed by the lower rates received. This reduction in the average rate of freight is mainly attributable to the larger percentage of increase in low-rate freight carried and the longer average haul. From the facts above stated it will be seen that our hopes, so cautiously expressed in the report for 1894, of a gradual improvement in rates were not realized, and that but for the rigid economies practiced, and which cannot, in our opinion, be further increased, the results would have been less satisfactory.

The tonnage for the year shows an increase of 806 595 tons, or over 23 per cent. The greatest increase was in Bituminous Coal, Ore, Iron, Stone and Lime, Ice, Refined Oil and Merchandise, and the greatest decrease was in the tonnage of Anthracite Coal, Lumber and Bark. Our iron tonnage for this year was largely in excess of any previous year, and our expectation of further good business in this item is one of the promising signs for the future. The increase in bituminous coal is gratifying, and it has brought the tonnage fully up to its average for the past six years. Except for the ruinously low rates prevailing, largely influenced by the low price obtainable for the coal, because of its overproduction, the amount of traffic in this item would be satisfactory. The report of 1894 referred to the then rate on soft coal as the lowest in the history of your company. It is with much regret and disappointment that we record the rates received for 1895 as having been still lower. In the light of the past it is unwise to speculate as to probable advance in the future, but we cannot help feeling that any sustained improvement in general business must influence favorably the soft coal trade, and if producers are able to get better prices the transportation companies will share in the advance. Refined oil shows a gratifying increase of over 12 per cent, attributable to our having secured additional tonnage to markets not reached by pipe lines. Our general merchandise traffic has responded to the slight improvement in business generally, and we report an increase of 7 per cent in this item. Lumber shows a decrease of over 7 per cent. This is accounted for because this item of traffic is always the last to improve after a general business depression. The improvement in business, which commenced in the fall of 1894, was not sufficiently pronounced to influence favorably orders for lumber for the Spring of 1895. It must be remembered also that there is an appreciable decrease in the amount of lumber being used in the large buildings now being so generally erected. We expect somewhat of an increase in this traffic the coming year. The large decrease in bark traffic was anticipated in our report for 1893. The decrease in anthracite coal was mainly in the Spring of 1895, and was caused by the stringency in money in the West and Northwest, whereby dealers declined to anticipate purchases prior to actual demand. We confidently look for larger shipments during the coming Fall. The question of abolishing grade crossings in Buffalo is slowly progressing, and your company hopes to be able to make satisfactory arrangements by which its part of the work may be done without financial inconvenience.

Grateful acknowledgement of the continued faithful and efficient performance of duty is cordially expressed to Officers and Employees. By Order of the Board,

SAMUEL G. DECOURSEY.
President.

[Statement of earnings, expenses, etc., for a series of years were published in the CHRONICLE of Oct. 19 on p. 701.]

COMSTOCK TUNNEL COMPANY.

ANNUAL REPORT FOR THE FISCAL YEAR ENDING AUGUST 31, 1895.

NEW YORK, Sept, 1, 1895.

To the Stock and Bond Holders:

Herewith is submitted for your information and consideration a brief summary of the affairs, property and condition of the Comstock Tunnel Company in New York and in Nevada and an opinion of its great possibilities under a wise and judicious policy.

The outstanding stock and bonds and unissued reserve bonds of the Company remain as stated in the last Annual Report as per Treasurer's statement, and the floating debt of the Company at the close of the fiscal year was August 31, 1895, about $19,000, contrasted with April 25, 1895, about $25,300, a reduction of about $6,300

As most of you are aware, a change in the management of the Company has taken place since the date of our last meeting. Convinced that the difference of opinion manifested at that meeting and previously could not but interfere with the best interests of the Company, the undersigned began early in the year to take steps looking to a reorganization which would harmonize all the interests and place the affairs of the Company in such a condition that advantage could be taken of any opportunity to improve the property that might offer itself. After much time spent in conferences and selecting a Board of Director which would allay all feelings of antagonism, I was able to conclude my negotiations with Mr. Sutro, and thereby discontinued a heavy contingent charge against the Company. The new Board entered upon its duties on the 25th day of April last, and the undersigned was chosen President, and made it his first duty to reduce the current expenses as far as possible, reducing the rent by $500 per annum and the other office expenses to the minimum. The ordinary expenses of the New York office have thus been diminished from about $400 per month, with certain other contingent liability of about $200 per month additional, to about $100 per month. It should not be forgotton, however, that the former Secretary and Treasurer received no salary. The floating indebtedness of the Company, consisting of notes, unpaid bills, etc., next received attention. By meeting the conditions in an amicable spirit and offering cash for a portion of the claims, a saving of over $5,000 was effected. These obligations therefore stood at about $19,000 at the close of our fiscal year, which includes the amount due the attorneys in San Francisco on account of the Symmes, Aron litigation under the existing arrangements made by our predecessors in the management. It is expected that this last mentioned debt will be extinguished by January or February next, which will release our earnings from a troublesome burden. Having thus done all that was practicable in the direction of economy at this end, the property in Nevada was visited. The Tunnel and its appurtenances were thoroughly inspected and the business methods examined.

It cannot be said that matters were found in an entirely satisfactory condition. A break in the Turbine Tunnel which should have been repaired long ago was not attended to in time, thus entailing greater expense than should have been incurred. The most necessary repairs were at once provided for, involving the temporary employment of additional force, so that the tunnels, including the North and South laterals, are supposed to be in a fair and safe condition at present. Further work therefore in the direction of improvement as well as repairs will be postponed until the development of larger plans, to be discussed in another part of this report.

The expense at the Nevada end was practically reduced to a minimum by the preceding management under the habits and methods in vogue. It is not believed judicious to jeopardize the tunnel by delaying repairs until breaks and caves submit us to extraordinary expense. It is expected, however, that by personal attention better results will be obtained for the amount expended. The insurance which was carried on the mansion alone to the extent of $12,000 it was thought best to reduce and to distribute to cover other valuable property, including the machine shop, tool house and stable, with their contents. It was possible to obtain a reduction in our taxes considered as equitable. The judgment against Messrs. Symmes, Aron, *et al.*, was finally compromised, collected, and applied to the reduction of obligations.

ENTERPRISE AND DEVELOPMENT.

The continuous low price of silver has unquestionably affected the income of the Company, and while the question of rehabilitating the white metal is being aggressively agitated not only in this country but in Europe as well, it is believed that the success of the movement is still some distance away, and it is for us not a practical matter of discussion. It is as well, therefore, to look upon the material at hand and available for the improvement of our income. Foremost among these are the prospects of the Brunswick Lode proposition, the American Flat Country, so called, and the building of mills at the mouth of our tunnel. The Brunswick Exploration Company, comprising the Consolidated California and Virginia, and six other wealthy Comstock Mining Companies, have already commenced development operations upon the Brunswick Lode, which is situated about one mile easterly of the Comstock Lode and the Virginia & Truckee RR. Depot, and so nearer the

mouth of our tunnel. It will be remembered that under the grant to Adolph Sutro the Comstock Tunnel Company has the first right to purchase at $5 per acre the mineral lands adjoining the lines of the tunnel for a distance of 3,000 feet upon either side. The Company never having availed itself of this right, in the meantime and before the date of the grant certain claims were located within the limits referred to. Thus far the Government has denied patents to others upon this ground within the limits of the tunnel grant. It is proposed by the Brunswick Exploration Company and other companies to develop the outlying claims as well as those falling within the 3,000 foot limit. Negotiations are pending to have the Tunnel Company join the Exploration Company in this work, and among the plans mooted is one for the erection of stamping mills at the mouth of the tunnel under the auspices of our Company for the purpose of reducing the ore from the Brunswick and other lodes. The cost of transporting the ore to such mills would be so much less than the present cost that it is confidently asserted that the low-grade ore now neglected throughout the mines thereabout would be brought to market at a handsome profit to the mining companies, thus adding materially to our royalties and general income. In order to accomplish this it may be necessary to have available a larger sum of ready money than the Tunnel Company's income is likely to produce in the near future. In the event that the negotiations assume definite shape the share and bondholders may be called upon to consider the feasibility of raising the necessary capital among themselves. The negotiations have been retarded by inquiries at Washington and elsewhere in connection with our mineral rights, but we expect to visit the Pacific Slope at an early date in order to resume and conduct the negotiations on the spot.

The far-reaching importance of this undertaking to the Tunnel Company presenting as it does possibilities of such magnificent proportions as to be comparable only with the past history of the Comstock lode, renders it my duty to direct your earnest attention thereto. It is among the probabilities that an equitable arrangement may be made with the projectors of this great enterprise which will enable this Company to undertake its share of extending the tunnel by laterals and erecting mills at a minimum cost and entirely without large risks to be assumed by you. My personal attention will be given to the business and negotiations will be energetically pushed forward with an eye single to the Company's interests. A second project submitted by the Comstock Mining Companies is the extension of the tunnel from the Alta shaft about 6,000 feet to the American Flat Country, so called, which would bring into the service of the Company 18 mining companies not now paying royalties and capable of turning out with this improvement very considerable quantity of valuable ore. The proposition as now made involves on the part of our Company the cutting and lowering of the drift from the Overman shaft to the Alta shaft to the proper grade, a distance of about 1,200 feet, at an estimated outlay of about $12,000, the mining companies to bear the entire expense of extending the tunnel the 6,000 feet to the American Flat Country or the western branch of the Comstock lode. This is Colonel Boyle's proposition, and is strongly recommended by Wm. E. Sharron, General Keating, Mr. Zadig, and others, and is commended to your careful consideration. A third project is the extension of the tunnel from the Alta shaft in a southerly direction some 6,000 feet into Silver City district, thus opening a very rich and promising gold-bearing country. The companies operating the claims in this section are exceedingly anxious to have this accomplished in order to render their working at lower depths than at present practicable. Thus far however no definite proposition has been made to us in the matter. The existence of vast amounts of low-grade ore in this section tributary to the tunnel is beyond dispute. The fact that the districts not yet reached by the tunnel are rich in mineral deposits has been demonstrated. It would therefore appear necessary only that this company place itself in position to reap the benefit of these sources of wealth, and thus place its securities on a high plane, at the same time it behooves us to regard the projects conservatively and carefully, but we should be prepared to take advantage of an opportunity when clearly profitable, but with the least possible burdens to the holders of our securities.

It is for the purpose of being able to accomplish as much as possible toward this end that the undersigned anticipates spending some months in the vicinity of the Company's property, for it is only by means of personal attention and personal conferences with the parties interested in the mining companies that the best results can be obtained. A formulated plan of operations is nearly completed and a proposition which it is hoped the Mining Companies will endorse, looking to mutual and speedy co-operation for the development of the boundless resources of this district. Whatever is narrated the possibilities of the future in connection with this great property, and while we are thoroughly imbued with them and their magnitude, our recommendations must necessarily be of a conservative character. Every new step should be taken with great care, for there are many important questions to be considered. The Comstock lode with its unparalleled record of hundreds of millions of dollars of gold and silver produced from these mines has still promising virgin ground, and it is strongly asserted that rock worth from $5 to $10 per ton can be extracted and worked at a profit at the mouth of our tunnel, and it is the testimony of those who should know that there are millions of tons worth from $5 to $10 per ton already opened, through which bodies explorations have already been made in search of pay spots. In view of this fact, taken in connection with the great possibilities of the Brunswick Lode, the Silver Star Lode, the Solforino and Garfield lodes, together with the American Flat and Silver City districts, as well as on the main tunnel grant beyond its present limit into and beyond Mount Davidson, comprising as they do altogether acres and acres of virgin mineral ground traversed and contiguous to the Comstock Tunnel property, which in the range of possibilities may develop bonanzas, it is said, and it is the universal testimony of the people on the Coast, that there is not a place known to them that presents more encouraging prospects for mining operations of great magnitude than does this famous mineral zone in connection with our tunnel property, and it is believed that it only awaits mutually advantageous, equitable and combined friendly efforts by all interested upon approved principles of business economy and by the use of modern machinery and invention to re-establish confidence, a return of dividends upon invested capital and growth to Storey and Lyon counties. I have recommended a thorough inquiry by our Board of Directors into the true situation, and have asked them to adopt such liberal policy, but upon such safe business lines as shall be necessary to secure some return upon the large amount of capital already invested in this great enterprise. This company has its tunnels, its portion of rich mineral ground, its water power, shops and tenement houses, its ranches, building lots and mansion; let us make a lively use of them, but conservatively and to the profit of this company.

In closing, we are pleased to say that we have received information and encouragement from the retiring Board of Trustees. We also desire to acknowledge the courtesy extended by His Excellency, Governor Jones, Justice Hawley and Hon. W. J. Westerfield, State Treasurer, to your President at Nevada, as well as the kind assistance in making his investigations rendered by Mr. Lyman, Mr. Sharron and General Keating (to whom Mr. John W. Mackay gave letters) during his recent visit. The interest shown by all these gentlemen in the future of our enterprise was most gratifying. I desire now to express entire confidence in the value and future possibilities of the Comstock Tunnel Company under economical, judicious and honest management.

Respectfully submitted.

FRANKLIN LEONARD,
President.

[The Treasurer's statement will be found on a preceding page.]

Pittsburg Junction RR.—*Earnings.*—For the fiscal years ending June 30 earnings have been as follows:

Years—	Gross.	Oper. exp.	Net.	Int. & taxes.	Bal., sur.
1894–5	$343,507	$131,464	$213,343	$117,485	$95,858
1893–94	270,620	92,537	178,083	113,120	64,963

Operating expenses include rentals, which in 1893-94 amounted to $49,294.

Toronto Hamilton & Buffalo RR.—Vanderbilt Roads—Canadian Pacific Ry.—*New Road.*—The T. H. & B. road, which will soon be completed so as to form a through line from Toronto, Canada, to Buffalo, N. Y., is to be aided by a traffic agreement with the Vanderbilt roads, and also by a lease of a part of its line to the Canadian Pacific. The *Railroad Gazette* states the facts as to the arrangement as follows:

President Van Horne of the Canadian Pacific has given the details of the agreement between the New York Central & Hudson River, Michigan Central, Canada Southern and the Canadian Pacific on the one side and the T. H. & B. on the other. The above company shall, in addition to its present line from Waterford to Hamilton, Ont., complete a line from Hamilton to Welland, and another from Hamilton to Toronto, the latter section to be a double track one, and the four first-named companies shall set aside a certain percentage of their earnings on traffic received from or delivered to the T. H. & B., for the purpose of meeting any deficiency in the net earnings applicable to the interest on the T. H. & B. bonds. "And in consideration of this undertaking the four companies named are to receive a majority of the T. H. & B. stock and are to be represented by a majority on the Board of Directors, there having control of the management." The section between Hamilton and Toronto is to be leased to the Canadian Pacific and to be operated as one of the lines of that company. The rest of the road will be operated by the T. H. & B., under the direction of the four companies before mentioned. These four companies have nothing to do with procuring the necessary capital for building the line.—V. 61, p. 197.

Tri-City Ry.—Davenport & Rock Island Ry.—*Reorganization.*—A Chicago paper states that the reorganization of the Davenport & Rock Island, under title of the Tri-City Railway, has been entirely completed. The property is said to be earning $50 a day more than for the corresponding period last year.—V. 61, p. 470.

Union Elevated RR. (Chicago).—*New Company.*—This company, which will build a road enabling the Chicago Elevated roads to reach the business center of the city, has called for the payment of $1,000,000 on its stock. The authorized stock is $5,000,000.—V. 61, p. 481.

Union Gas—Brooklyn Gas Companies.—*Consolidation.*—Meetings of the stockholders of the Nassau Gas Light, Citizens' Gas, Fulton Municipal Gas, Williamsburg Gas Light People's Gas and two other companies, respectively, have been called for Nov. 4 "to vote upon a proposition for the sale and conveyance of all the property, rights and franchises" of the companies. The sale will be to or in the interest of the new Union Gas Company.—V. 61, p. 473.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, October 25, 1895.

The distribution of general merchandise from second hands is reported as maintaining about the previous volume. The demand for bulk parcels of some leading articles, however, show some falling off and buyers are manifesting greater caution in securing accumulations than previously calculated upon, but otherwise the average tone of the markets appears healthy. The speculative movement in cotton continued liberal and fair in wheat, but unimportant in other lines of merchandise. The foreign demand for flour is slightly below last week, yet still considered fair, and exporters have purchased wheat with greater freedom toward the close. Advices from the winter-wheat belt report continued drought, seriously retarding seeding and germination. A slight increase in movement of grain toward the seaboard is shown. Harvesting the domestic sugar cane crop has commenced with prospect of satisfactory yield.

Lard on the spot has received a limited amount of attention, but prices have declined, though the close was steady at a partial recovery from bottom prices, at 5·95c. for prime Western, 5 60c. for prime City and 6·40c. for refined for the Continent. Speculation in the local market for lard futures has been at a standstill and nominal prices have been quoted lower under continued heavy receipts of swine at primary points and in response to weaker advices from the West. During the latter part of the week, however, there was a partial recovery in sympathy with an advance in corn, closing steady.

DAILY CLOSING PRICES OF LARD FUTURES

	Sat.	Mon.	Tues.	Wed.	Thurs	Fri.
October.....c.	5·97	5·85	5·80	5·92	5·95	5·95

Pork has had a limited sale at steady prices, closing at $9 75@$10 for mess, $11 50@$12 for family and $11 50@$13 for short clear. Cut meats have sold slowly and prices have declined, closing at 6¼@6¾c. for pickled bellies, 12@10 lbs. average, 6c. for pickled shoulders and 9c. for pickled hams. Beef has been quiet but steady, closing at $7 50@$8 for mess, $8 50@$9 for packet, $10@$12 for family and $15@$17 for extra India mess. Beef hams have been quiet, closing at $15@$15 50. Tallow has declined, closing steady at 4 3-16c. Oleostearine has also declined, closing at 5⅞@6c. Lard stearine has been weaker, closing at 6½c. Cotton-seed oil has been dull, closing weak at 27¾@28c. for prime yellow and 23½@24c. for prime crude. Butter has been quiet, closing barely steady at 14@23c. for creamery. Cheese has been fairly active and firm, closing at 7@11c. for State factory, full cream. Fresh eggs have been dull, closing easy at 19½@20c. for choice Western.

Coffee has sold slowly and irregularly, and with large arrivals rather forced to sale in some instances, prices eased away a fraction. Rio quoted at 15⅝c. for No. 7, good Cucuta at 18¼c. and standard quality Java 27@27½c. Speculation has attracted very few new orders, and with an effort made to liquidate old contracts prices weakened.

The following were the final asking prices:

Oct.....15·00c.	Jan.....14·55c.	April .....14·00c.	
Nov.....14·85c.	Feb.....14·40c.	May .....13·90c.	
Dec.....14·70c.	March.....14·30c.	June.....13·70c.	

Raw sugars were offered with a trifle more freedom and meeting only indifferent demand prices shaded, closing somewhat nominal. Centrifugal quoted at 3½c. for 96-deg. test and muscovado at 3⅛c. for 89 deg. test. Refined sugars neglected and prices reduced to meet competition from imported stock; granulated quoted at 4⅝c. per lb.

Kentucky tobacco has been in light request but firmly held; sales 150 hhds. Seed leaf tobacco has been quiet but prices were firmly maintained; sales for the week were 1,400 cases, as follows: 350 cases 1894 crop, New England Havana seed, 15@20c.; 100 cases 1893 crop New England Havana seed, 7@9c.; 100 cases 1894 crop, New England seed leaf, 19@24c.; 100 cases 1893 crop, Zimmer's, private terms; 275 cases 1894 crop, Zimmer's, 11½@12½c.; 100 cases 1893 crop, Pennsylvania Havana, 9½@11c.; 75 cases 1892 crop, Pennsylvania Havana, 11@12c.; 200 cases 1894 crop, Pennsylvania seed leaf, 11½@13c., and 200 cases sundries, 2½@12c.; also 750 bales Havana, 68c.@$1 10, and 200 bales Sumatra, 40c.@$2 80 in bond.

The speculation in the market for Straits tin has been quiet, but prices have been steady, closing at 14·55c. Ingot copper has further declined, closing dull at 11·85@11·90c. for Lake. Lead has been quiet and the close was slightly lower at 3·85@3·87½c. for domestic. Spelter has been weaker, closing dull at 4·05@4·10c. for domestic. Pig iron has been moderately active and firm, closing at $12@$14 50 for domestic.

Refined petroleum has been in fair demand, closing at 7·10c. in bbls., 4·60c. in bulk and 7·50c. in cases; crude in bbls. has been nominal; naphtha unchanged at 8·25c. Crude certificates have been steady, closing at $1 25 bid. Spirits turpentine has been quiet, closing at 28½@28¾c. Rosins have advanced, closing firm at $1 65@$1 70 for common and good strained. Wool has continued in fair demand for the foreign grades at steady prices. Hops have been dull and easy.

COTTON.

FRIDAY NIGHT, October 25, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 295,438 bales, against 280,659 bales last week and 274,485 bales the previous week, making the total receipts since the 1st of Sept., 1895, 1,369,821 bales, against 1,832,287 bales for the same period of 1894, showing a decrease since Sep. 1, 1895, of 462,466 bales.

Speculation in cotton for future delivery at this market has been of phenomenal character, the dealings for the week exceeding in amount any record for similar period in history of the trade. A general liquidation of an immense long interest was the principal feature of the situation. During the hour's session of Saturday there was a decline of 1/4c per pound under immense pressure to sell from the South, where a slightly better feeling regarding crop prospects and comparative neglect of actual cotton had broken the confidence of holders of contracts. The rush to sell on Monday was remarkable, Europe breaking down in tone and contributing to feeling of demoralization, with values here shrinking 59 points gross and 55 points net, the recorded deals for the session reaching 810,700 bales. Tuesday the feeling was feverish, but with some modification of pressure to sell, and many shorts covering, the final result was an advance of 29 points. On Wednesday demand became indifferent and fresh selling orders appearing upon the market prices dropped 28 points, closing at lowest. Yesterday, upon apparent better accounts from Europe, there was an early gain of 14@16 points, but renewed attempts at liquidating long contracts forced a decline of 20 points, recovering slightly at the close. To-day the tone has been firmer and 25 points gain made, stimulated by improved feeling abroad and smaller crop movement than expected, which served to stimulate covering demand. Cotton on the spot show at 9 9-16c. for middling uplands.

The total sales for forward delivery for the week are 2,742,800 bales. For immediate delivery the total sales foot up this week 3,197 bales, including —— for export, 2,897 for consumption, —— for speculation and 300 on contract. The following are the official quotations for each day of the past week—October 19 to October 25.

Rates on and off middling, as established Nov. 22, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1/8 on	Good Ordinary	c. 1/8 off.
Middling Fair	7/8 on	Good Middling Tinged	Even.
Strict Good Middling	5/8 on	Good Middling Stained	7/32 off
Good Middling	3/8 on	Middling Tinged	7/16 off
Strict Low Middling	3/8 off	Strict Low Mid. Stained	9/32 off.
Low Middling	7/16 off.	Low Middling Stained	1/2 off
Strict Good Ordinary	10/32 off.		

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri

☞ The imports into Continental ports the past week have been 45,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 173,142 bales as compared with the same date of 1894, an *increase* of 91,890 bales over the corresponding date of 1893 and a decrease of 163,672 bales from 1892.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1894—is set out in detail below.

Towns.	Movement to October 25, 1895.				Movement to October 26, 1894.

* Louisville figures "net" in both years.
† This year's figures estimated.
‡ Last year's figures are for Columbia, S. C.

The above totals show that the interior stocks have *increased* during the week 57,383 bales and are now 51,309 bales *more* than at same period last year. The receipts at all the towns have been 35,071 bales *less* than same week last year and since Sept. 1 are 294,392 bales *less* than for same time in 1894.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Oct. 25	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—					
	Satur.	Mon.	Tues.	Wednes.	Thurs.	Fri.

Eufaula.....	7⅞	Natchez.....	8⅛	Shreveport.....	7¹⁵⁄₁₆

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			Stk at Interior Towns.			Rec'pts from Plant'ns		
	1893.	1894.	1895.	1893.	1894.	1895.	1893.	1894.	1895.
Sept. 20. ...	95,549	148,547	91,080	76,756	84,519	68,739	107 734	166,296	114,544
" 27. ..	161,438	205,221	149,139	128,438	169,245	90,587	193 120	229,947	172,987
Oct. 4.....	223,456	247,916	217,679	156 962	151,909	141,778	251,980	210,280	268,830
" 11.	264,194	318,816	274,485	188,723	190,402	203,752	296,359	357,309	336,499
" 18	286,739	334,131	280 659	227,101	233,898	268,191	325,167	427,627	345,098
" 25.	358,258	400,676	295 438	276 982	274,265	325,574	408,119	441,043	352,821

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 1,662,695 bales; in 1894 were 2,049,317 bales; in 1893 were 1,676,055 bales.

2.—That although the receipts at the outports the past week were 295,438 bales, the actual movement from plantations was only 352,821 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the week were 441,043 bales and for 1893 they were 408,119 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Oct. 25 and since Sept. 1 in the last two years are as follows:

October 25.	1895.		1894.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1
Shipped—				
Via St. Louis.....	28,869	87,423	41,917	129,443
Via Cairo.....	15,307	39,359	17,799	51,421
Via Parker City.....	2,022	5,331	400	950
Via Evansville.....	.....	.....	...	177
Via Louisville	8,995	17,045	6,645	17,207
Via Cincinnati	3,002	8,281	7,089	19 199
Via other routes, &c	2,714	10,039	4,873	14,812
Total gross overland.....	60,909	167,678	78,723	233 209
Deduct shipments—				
Overland to N. Y., Boston, &c	9,630	26,043	9,450	29,275
Between interior towns.....	178	1,284	763	2,821
Inland, &c., from South.....	914	7,507	3,124	16,393
Total to be deducted	10,722	34,888	13,337	48,489
Leaving total net overland*..	50,187	132,790	65,386	184,720

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 50,187 bales, against 65,386 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 51,930 bales.

In Sight and Spinners' Takings.	1895.		1894.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Oct. 25.....	295,438	1,369,821	400,676	1,832,287
Net overland to Oct. 25.....	50,187	132,790	65,386	184,720
Southern consumption to Oct. 25.	20,000	151,000	17,000	134,000
Total marketed.....	365,625	1,653,611	483,062	2,151,007
Interior stocks in excess.....	57,383	192,874	40,367	216,930
Came into sight during week.	423,008	.....	523,429	.....
Total in sight Oct. 25.	.....	1,946,485	.....	2,367,937
North'n spinners tak'gs to Oct. 25.	77,951	297,397	110,532	397,691

It will be seen by the above that there has come into sight during the week 423,008 bales, against 523,429 bales for the same week of 1894, and that the decrease in amount in sight to-night as compared with last year is 421,452 bales.

WEATHER REPORTS BY TELEGRAPH.—Reports to us from the South this evening by telegraph denote that the weather conditions have in general been very satisfactory for out-door work during the week and that picking has made excellent progress. Advices from Texas indicate that the gathering of cotton will be completed in that State by about the middle of November. The crop is being freely marketed, but our correspondent at Montgomery states that planters in that vicinity refuse to sell at the present prices. Killing frost occurred in East Mississippi on Monday.

Galveston, Texas.—The general tenor of reports is that the cotton crop will be all gathered by the middle of next month. In the Southwestern, Central and Southern portions of the State picking will practically be completed in ten days. The weather has been very favorable and planters are rushing picking. It has been dry all the week. Average thermometer 70, highest 79, lowest 62.

Palestine, Texas.—Farmers are busy in the fields and picking is nearly finished and will be completed in about ten days. The plant is generally dead and it is said no top crop will be made. We have had no rain during the week. The thermometer has averaged 65, the highest being 96 and the lowest 44.

Huntsville, Texas.—There has been no rain during the week. The thermometer has averaged 67, ranging from 50 to 84.

Dallas, Texas.—The weather has been very favorable for gathering cotton during the week and picking has progressed rapidly. It is generally believed that picking will be completed in this district by the middle of November. In a few localities there will be a small top crop. We have had no rain. The thermometer has ranged from 48 to 84, averaging 66.

San Antonio, Texas.—The fields are well cleaned of cotton and picking is about over. The yield is said to be very short over this district, conservative estimates putting it at one half that of last year. Dry all the week. Average thermometer 69, highest 86 and lowest 52.

Luling, Texas.—We have had no rain all the week. The thermometer has averaged 69, the highest being 88 and the lowest 50.

Columbia, Texas.—There has been no rain the past week. The thermometer has averaged 68, ranging from 50 to 86.

Cuero, Texas.—It has rained very lightly on one day of the week the precipitation being inappreciable. The thermometer has ranged from 54 to 86, averaging 70.

Brenham, Texas.—There has been no rain during the week. Average thermometer 70, highest 88 and lowest 54.

Belton, Texas.—The weather has been dry all the week. The thermometer has averaged 64, the highest being 84 and the lowest 44.

Fort Worth, Texas.—We have had no rain during the week. The thermometer has averaged 61, ranging from 39 to 83.

Weatherford, Texas.—Dry weather has prevailed all the week. The thermometer has ranged from 40 to 82, averaging 61.

New Orleans, Louisiana.—We have had no rain during the week. Average thermometer 69.

Shreveport, Louisiana.—We have had no rain during the week. The thermometer has averaged 62, the highest being 83 and the lowest 42.

Columbus, Mississippi.—It has been dry all the week. The thermometer has averaged 66, ranging from 42 to 86.

Leland, Mississippi.—There has been no rain during the past week. The thermometer has ranged from 34 to 85, averaging 59.9.

Vicksburg, Mississippi.—The weather has been dry all the week. Average thermometer 62.4, highest 81 and lowest 42.

Little Rock, Arkansas.—There has been no rain during the week. The thermometer has averaged 66, the highest being 84 and the lowest 48.

Helena, Arkansas.—The rainfall the past week has been too light to measure. Cotton is being picked rapidly and in good condition. The thermometer has averaged 56, ranging from 27 to 81.

Nashville, Tennessee.—Telegram not received.

Memphis, Tennessee.—The weather has been dry all the week, except a light rainfall of one hundredth of an inch on Thursday night. Picking and marketing are active. Receipts by river have been delayed by low water, the present stage being two feet below the zero of the gauge—the lowest on record. The thermometer has ranged from 38 to 81·4, averaging 58.

Montgomery, Alabama.—Picking is progressing rapidly, but farmers are generally stowing their cotton. They refuse to sell at the recent decline. The crop is nearly all gathered and is short indeed. The weather has been dry all the week. The thermometer has averaged 62, ranging from 47 to 79.

Selma, Alabama.—There has been no rain during the week. The thermometer has ranged from 38 to 74, averaging 58.

Mobile, Alabama.—Killing frost has occurred in East Mississippi as far south as Meridian. The weather has been dry all the week. The thermometer has averaged 64, the highest being 81 and the lowest 47.

Madison, Florida.—Rain is very much needed. Average thermometer 64, highest 80 and lowest 48.

Columbus, Georgia.—Dry weather has prevailed all the week. The thermometer has averaged 64, the highest being 76 and the lowest 46.

Savannah, Georgia.—The weather has been dry all the week. The thermometer has averaged 65, ranging from 49 to 81.

Albany, Georgia.—Telegram not received.

Augusta, Georgia.—There has been no rain during the week. The thermometer has ranged from 37 to 82, averaging 61.

Statesburg, South Carolina.—There has been no rain during the week. The thermometer has averaged 61·3, ranging from 43 to 79.

Greenwood, South Carolina.—Picking is nearing completion. We have had no rain during the week. The thermometer has ranged from 49 to 76, averaging 63.

Charleston, South Carolina.—The weather has been dry all the week. The thermometer has averaged 65, the highest being 80 and the lowest 52.

Wilson, North Carolina.—Heavy frost occurred in this vicinity on Tuesday. There has been no rain during the week. Average thermometer 57, highest 72 and lowest 38.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock October 24, 1895, and October 25, 1894.

		Oct. 24, '95.	Oct. 25, '94.
		Feet	Feet
New Orleans	Above zero of gauge.	3·3	3·3
Memphis	Below zero of gauge.	1·9	0·9
Nashville	Above zero of gauge.	0·2	0·3
Shreveport	Below zero of gauge.	1·4	4·6
Vicksburg	Below zero of gauge.	4·3	3·2

* Below zero of gauge.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to October 24.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week. Great Britain.	Shipments this week. Continent.	Shipments this week. Total.	Shipments since Sept. 1. Great Britain.	Shipments since Sept. 1. Continent.	Shipments since Sept. 1. Total.	Receipts. This Week.	Receipts. Since Sept. 1.
1895	....	4,000	4,000	....	31,000	31,000	9,000	72,000
1894	.....	...	...	5,000	12,000	17,000	3,000	23,000
1893	2,000	3,000	5,000	4,000	36,000	40,000	5,000	62,000
1892	.....	2,000	2,000	2,000	29,000	31,000	3,000	23,000

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 6,000 bales and a *increase* in shipments of 4,000 bales, and the shipments since Sept. 1 show an *increase* of 14,000 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week. Great Britain.	Shipments for the week. Continent.	Shipments for the week. Total.	Shipments since Sept. 1. Great Britain.	Shipments since Sept. 1. Continent.	Shipments since Sept. 1. Total.
Calcutta—						
1895	.....	.....	.....	1,000	2,000	3,000
1894	2,000	...	2,000	3,000	2,000	5,000
Madras—						
1895	1,000	2,000	3,000	10,000	7,000	17,000
1894	.....	.....	.....	7,000	6,000	13,000
All others—						
1895	2,000	3,000	5,000	8,000	15,000	23,000
1894	3,000	1,000	4,000	10,000	12,000	22,000
Total all—						
1895	3,000	5,000	8,000	19,000	24,000	43,000
1894	5,000	1,000	6,000	20,000	20,000	40,000

The above totals for the week show that the movement from the ports other than Bombay is 2,000 bales more than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1895, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1895. This week.	1895. Since Sept. 1.	1894. This week.	1894. Since Sept. 1.	1893. This week.	1893. Since Sept. 1.
Bombay	4,000	31,000	.....	17,000	10,000	40,000
All other ports	8,000	43,000	6,000	40,000	5,000	35,000
Total	12,000	74,000	6,000	57,000	15,000	75,000

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, October 23	1895.	1894	1893.
Receipts (cantars*)			
This week	200,000	190,000	190,000
Since Sept. 1	1,915,000	443,000	441,000

	1895. This week.	1895. Since Sept. 1.	1894. This week.	1894. Since Sept. 1.	1893. This week.	1893. Since Sept. 1.
Exports (bales)—						
To Liverpool	10,000	48,000	8,000	24,000	7,000	24,000
To Continent	9,000	25,000	6,000	28,000	7,000	26,000
Total Europe	22,000	73,000	14,000	52,000	14,000	50,000

* A cantar is 98 pounds.

† Receipts at Alexandria in 1895, 2,000 bales; in 1894, 1,200 bales; in 1893, 1,820 bales.

This statement shows that the receipts for the week ending Oct. 23 were 200,000 cantars and the shipments to all Europe 22,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is quiet for both yarns and shirtings, in consequence of Liverpool news. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1895.			1894.		
	32s Cop Twist.	8¼ lbs. Shirtings, common to finest.	Cott'n Mid. Uplds	32s Cop Twist.	8¼ lbs. Shirtings, common to finest.	Cott'n Mid. Uplds

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (October 25) and since Sept. 1, 1895, the stocks to-night, and the same items for the corresponding periods of 1894, are as follows.

Receipts to Oct. 25	1895.		1894.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1895.	1894
Savannah	5,101	18,150	3,641	17,247	7,747	8,675
Charleston	688	2,497	383	1,131	1,461	1,265
Florida, &c.	76	194	106	362	1,112	1,420
Total	5,865	20,841	4,130	18,740	10,320	11,360

The exports for the week ending this evening reach a total of 3,632 bales, of which 2,664 bales were to Great Britain, 568 to France and 400 to Reval, and the amount forwarded to Northern mills has been 638 bales. Below are the exports for the week and since September 1 in 1895 and 1894.

Exports from—	Week Ending Oct. 18.			Since Sept. 1, 1895.			North'n Mills	
	Great Brit'n.	Fr'nce &c.	Total.	Great Brit'n.	Fr'nce &c.	Total.	Week.	Since Sept. 1
Savannah	2,564	907	3,471	4,138	907	5,045	542	3,487
Charl't'n, &c	.....	.....	.....	449	.....	449	20	30
Florida, &c.	.....	.....	.....	.....	.....	.....	76	194
New York	100	61	161	1,135	586	1,721	.....	.....
Boston	.....	.....	.....	.....	.....	.....	.....	.....
Baltimore	....	.....	.....	.....	.....	.....	.....	.....
Total	2,664	968	3,632	5,722	1,493	7,215	638	3,711
Total 1894	295	82	377	1,746	449	2,195	1,553	6,473

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations October 25 at Savannah, for Floridas, common, 10½c.; medium fine, 13c.; choice, 15¼c.

Charleston, Carolinas, medium fine, 24 to 25c.; fine, 26 to 27c.; fully fine, 28 to 30c.; extra fine, 35 to 40c.

ELLISON'S ANNUAL COTTON REVIEW FOR THE SEASON OF 1894-95.—In our editorial columns will be found an article in which we give the figures from Mr. Ellison's annual review of the European cotton trade for the season of 1894-95, as received by us to-day by cable.

COTTON CROP OF 1894-95 APPORTIONED TO STATES.—We publish to-day our usual table showing the cotton production of each State for the crop year ending with September 1, 1895. This division among the States is not claimed to be accurate, but as usual we have made every effort to get as near to the true result as possible, and the figures are believed to be approximately correct. It is well understood that nothing but an actual census can divide production accurately between the States. The subjoined compilation covers our estimates for the past five seasons, which embrace the amount marketed through the ports, interior towns and rail overland and Southern mill consumption during the season.

	1894-95.	1893-94.	1892-93.	1891-92.	1890-91.	1889-90.
	Bales.	Bales.	Bales.	Bales.	Bales.	Bales.
North Carolina	405,000	447,000	388,000	518,000	588,000	330,245
South Carolina	750,000	675,000	587,000	773,000	859,000	746,798
Georgia	1,200,000	1,046,000	934,000	1,245,000	1,310,000	1,191,919
Florida	45,000	50,000	45,000	50,000	53,000	57,928
Alabama	1,000,000	792,000	660,000	1,016,000	1,011,000	915,414
Mississippi	1,200,000	1,021,000	851,000	1,330,000	1,209,000	1,154,406
Louisiana	650,000	529,000	500,000	798,000	736,000	659,583
Texas	3,111,000	1,993,000	1,850,000	2,032,000	1,708,000	1,470,353
Arkansas	875,000	632,000	574,000	825,000	760,000	691,423
Tennessee	400,000	280,000	255,000	365,000	345,000	180,072
All others	173,000	83,000	64,000	87,000	76,000	57,975
Total crop	9,892,000	7,527,000	6,717,000	9,089,000	8,655,000	7,471,116

It will be noticed that we start the foregoing with the returns for 1889-90. Those are the census returns, and consequently give a good basis for comparison.

DOMESTIC EXPORTS OF COTTON MANUFACTURES.—Through the courtesy of Mr. W. C. Ford, Chief of the Bureau of Statistics, we have received this week a statement showing the exports of domestic cotton manufactures for August and for the eight months ended Aug. 31, 1895, with like figures for the corresponding periods of the previous year, and give them below:

Quantities of Manufactures of Cotton (colored and uncolored) exported to—	Month ending Aug 31.		8 mos. ending Aug. 31.	
	1895.	1894.	1895.	1894.

Aggregate value of all cotton goods	$1,297,603	$1,426,716	$9,012,221	$9,822,95

JUTE BUTTS, BAGGING, &C.—The market for jute bagging has been very quiet during the past week in the absence of any inquiry. Quotations are unchanged at 4⅛c. for 1¾ lbs., 4½c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4¼c. for 1¾ lbs., 4⅝c. for 2 lbs. and 5⅛c. for 2¼ lbs. f. o. b. at New York. Jute butts on the spot have been devoid of animation and are quoted at 1 1-16c. for paper quality and 1½c. for mixing. Bagging quality is nominal.

EGYPTIAN COTTON CROP.—The following report on the cotton crop in Egypt issued by the Alexandria General Produce Association under date of September 30 has been furnished us by Mr. Fr. Jac. Andres of Boston.

Worms did not make their appearance in September. There were very few fogs, not intense in character and of short duration. They did not cause any appreciable damage. The temperature was favorable up to the 22d of the month. These circumstances combined assured the result of the first picking, which for some time now has been out of all danger. It began about the 15th September, or about ten days earlier than last year. The fields however that were attacked by the worms are still backward The yield in ginning found up to the present is about equal to that of last year.

As for the second and third pickings these depend upon the temperature in October. It has been observed that the bolls which produce these pickings have suffered a certain check, in consequence of the cool weather prevailing at the end of the month. They are however in a normal condition, and present a sufficiently favorable aspect, but strong heat is still necessary to bring them to maturity. It is confirmed that Upper Egypt will produce a crop of about 20 per cent more than last year. Such is the *resume* of the information we have received in September. It will be seen that it is satisfactory on the whole.

THE EXPORTS OF COTTON from New York this week show a decrease compared with last week, the total reaching 11,493 bales, against 21,782 bales last week. Below we give our usual table, showing the exports of cotton from New York, and the direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1895, and in the last column the total for the same period of the previous year.

EXPORTS OF COTTON (BALES) FROM NEW YORK SINCE SEPT. 1, 1895.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.—A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The monthly movements since September 1, 1895, and in previous years, have been as follows:

Monthly Receipts.	Year Beginning September 1.					
	1895.	1894.	1893.	1892.	1891.	1890.
Sept'mb'r	383,442	515,762	377,409	405,355	676,923	732,236
Per ct'ge of tot port receipts Sept. 30	06·58	06 31	07 91	09·46	10·47	

This statement shows that for the month of September the receipts at the ports this year were 132,320 bales less than in 1894 and 6,033 bales greater than in 1893. By adding to the totals to Sept. 30 the daily receipts since that time we shall be able to reach an exact comparison of the movement for the different years.

	1895.	1894.	1893.	1892.	1891.	1890.
To Sep 30	383,442	515,762	377,409	405,355	676,923	732,236

Total	1,369,921	1,761,314	1,165,150	1,274,056	1,841,375	1,902,463
Percentage of total port receipts Oct. 25	22 34	22 61	24 66	25 78	25 79	

This statement shows on account of receipts since Sept. 1 up to to-night are now 391,393 bales less than they were to the same day of the month in 1894 and 1,621 bales greater than they were to the same day of the month in 1893. We add to the table the corresponding of total port receipts which had been received to October 25 in each of the years named.

THE FOLLOWING ARE THE GROSS RECEIPTS OF COTTON at New York, Boston, Philadelphia and Baltimore for the past week, and since September 1, 1895:

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns have reached 151,085 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total bales.
NEW YORK—To Liverpool, per steamer Cevic, 6,204	6,204
To Hull, per steamer Concordia, 908	908
To Glasgow, per steamer Buenos Ayrean, 100 Sea Island	100
To Havre, per steamer La Gascogne, 992 upland and 61 Sea Island	1,053
To Bremen, per steamer Ems, 453	453
To Hamburg, per steamer Pomerania, 600	600
To Antwerp, per steamer Southwark, 2,168	2,168
To Copenhagen, per steamer Virginia, 100	100
NEW ORLEANS—To Liverpool, per steamers Cubat, 6,041 ... Engineer 3,678 ... Legislator, 4,150 ... Panama, 7,993	21,712
GALVESTON—To Liverpool, per steamers Beddam, 5,131 ... Thomas Wayman, 5,910 ... Tripoli, 7,520 ... Wilderspool, 7,047 ... William Branfoot, 5,724	31,342
To Havre, per steamer Westgate, 7,616	7,616
To Bremen, per steamer Aldersgate, 6,454	6,354
MOBILE—To Bremen, per steamer Reaper, 7,602	7,602
SAVANNAH—To Liverpool, per steamer Sandhill, 4,036 upland and 1,574 Sea Island	5,610
To Bremen, per steamer Birdswald, 5,730	5,730
To Hamburg, per steamer Birdswald, 1,200	1,200
To Barcelona, per steamer St. Marnock, 4,800	4,800
To Genoa, per steamers St. Marnock, 3,20 ... Springfield, 4,637	7,837
CHARLESTON—To Liverpool, per steamer Fairland, 6,282 upland and 247 Sea Island ... Wylo, 2,973 upland and 212 Sea Island	9,704
To Bremen, per steamer Madelina, 9,018	9,018
PORT ROYAL—To Liverpool, per steamer Werneth Hall, 8,450	8,450
WILMINGTON—To Liverpool, per steamer Oceana, 10,846	10,846
BOSTON—To Liverpool, per steamers Cephalonia, 852 ... Saga-more, 28	880
BALTIMORE—To Liverpool, per steamer Queensmore, 687	687
To Antwerp, per steamer Norse King, 200	200
PHILADELPHIA—To Liverpool, per steamer Belgenland 4	4
Total	151,085

The particulars of these shipments, arranged in our usual form, are as follows:

	Liverpool	Hull & Glasgow	Bremen & Hamburg	Antwerp	Copenhagen	Barcelona & Genoa	Total.

Below we add the clearances this week of vessels carrying cotton from United States ports, bringing our data down to the latest dates:

GALVESTON—To Bremen—Oct. 24—Steamer Maritime, 8,093.
To Hamburg—Oct. 22—Steamer Hilbertia, 900.
To Genoa—Oct. 23—Steamer Boyalton, 5,450.
NEW ORLEANS—To Liverpool—Oct. 19—Steamer Horrox, 1,673.....Oct. 21—Steamers Astronomer, 4,900; Madrileno, 5,526.
To Havre—Oct. 2—Steamer Freshfield, 7,482.
To Bremen—Oct. 23—Steamer Alsace, 6,300.
SAVANNAH—To Liverpool—Oct. 21—Steamer Lambert's Point, 8,896 upland and 4,504 Sea Island.
To Havre—Oct. 21—Steamer Osborne, 6,504 upland and 507 Sea Island.
To Bremen—Oct. 19—Steamer Glenloig, 6,883....Oct. 25—Steamer Westhall, 5,700.
To Hamburg—Oct. 18—Steamer Glenloig, 300....Oct. 25—Steamer Westhall, 600.
To Reval—Oct. 19—Steamer Remus, 7,250 upland and 400 Sea Island.
CHARLESTON—To Bremen—Oct. 14—Steamer Gulf of Taranto, 9,200....Oct. 23—Steamer Saxe, 5,497.
WILMINGTON—To Bremen—Oct. 21—Steamer Haxby, 10,303....Oct. 24—Steamer Dorset, 7,123.
NEWPORT NEWS—To Liverpool—Oct. 21—Steamer Shenandoah, 597.
BOSTON—To Liverpool—Oct. 15—Steamer Armenian, 4,374....Oct. 17—Steamer Roman, 1,753....Oct. 19—Steamer Catalonia, 1,803....Oct. 23—Steamer Cambroman, 1,374....Oct. 22—Steamer Lancastrian, 2,345.
BALTIMORE—To Liverpool—Oct. 16—Steamer Templemore, 3,456.
To Bremen—Oct. 21—Steamer Wyndhall, 2,960.
SAN FRANCISCO—To Japan—Oct. 1—Steamer Oaelic, 700.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.:

WEIMAR, steamer (Ger.), from Baltimore, Oct. 9, arrived at Bremen the 23d with cargo on fire in the forehold. She carried 5,488 bales of cotton, of which 200 bales were damaged by fire and water and 1,000 bales by water.

Cotton freights the past week have been as follows:

BREADSTUFFS.

FRIDAY, October 25, 1895

There has been a fairly active demand for wheat flour, particularly for the trade brands, and prices have ruled firm, especially for the winter-wheat grades, which have been in light supply. City mills have secured a fair amount of attention at full values. Rye flour has sold slowly but prices have been unchanged and steady. Buckwheat flour has been in light request and prices have weakened slightly. A moderate business has been transacted in corn meal at steady prices. To-day the market for wheat flour was fairly active and firm.

Early in the week the speculation in the market for wheat futures was quiet and prices made little change, but subsequently trading became more active and prices advanced on a demand from "shorts" to cover contracts, stimulated by an active export demand for spot wheat, together with firmer foreign advices, a decreased movement of the crop in the Northwest and continued reports of drouth in the winter-wheat district. In the spot market business has been active, shippers having been brisk buyers, their purchases for the week amounting to about 1,000,000 bushels. The sales yesterday included No. 2 red winter at 3c. over Dec., f. o. b. afloat; No. 1 Northern at 1@1⅜c. over Dec., f. o. b. afloat, and No. 1 hard Manitoba at 2@2¼c. under Dec., c. i. f., to Buffalo. To-day the market was stronger during early 'Change in response to firmer foreign advices and buying for foreign account, but later realizing sales caused a reaction. In the spot market shippers continued good buyers at full prices. The sales included No. 1 Northern, N. Y. inspection, at ¾@⅞c. over Dec., f. o. b. afloat; No. 1 hard spring at 3c. over Dec., f. o. b. afloat, and No. 1 hard Manitoba at 2¼c. under Dec., c. i. f. to Buffalo.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

March delivery.....c.	70	70	70	....	....	....
May delivery.....c.	70¼	70⅛	70⅛	70¼	70⅞	70⅞

Indian corn futures have been moderately active and prices have made fractional advances on buying by "shorts" to cover contracts, stimulated by a falling off in the crop movement and fairly large shipments from the seaboard. In the spot market shippers have been moderate buyers and prices have advanced. The sales yesterday included No. 2 mixed at 2⅛c. over October f. o. b. afloat, yellow at 39c. in elevator and No. 2 white to arrive at 38¾c. in elevator. To-day the market was firmer on a small crop movement. The spot market was fairly active and stronger. The sales included No. 2 mixed at 40⅛c. delivered and 2½c. over October f. o. b. afloat; also yellow at 40c. in elevator.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
October delivery.....c.	37⅝	37¾	37¾	38⅜	38¾	39
November delivery.....c.	36⅞	37⅛	37¼	37⅝	38⅛	38⅛
December delivery.....c.	35½	35⅝	35⅝	35⅝	36	36⅛
May delivery .....c.	35⅝	35⅝	35⅝	35⅝	35⅞	36

Oats for future delivery were quiet and slightly weaker early in the week, but subsequently sympathy with the improvement in corn and buying by shippers in the spot market caused an advance. In the spot market business has been fairly active; the sales to shippers amounted to about 200,000 bushels. Yesterday's business included No. 2 mixed at 24c. in elevator and No. 2 white at 25¼c. in elevator. To-day the market was quiet but steady. The spot market was moderately active and steady. The sales included No. 2 mixed at 24c. in elevator and No. 2 white at 25¼c. in elevator.

DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat	Mon.	Tues.	Wed.	Thurs.	Fri.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., October 25, 1895.

The heavy decline in the price of cotton since last report has had no material effect on the price of the general run of cotton goods. Print cloths have given way 1-16c. for contracts, but in other directions sellers are holding for and securing previous prices. The upward tendency has, however, been interrupted, if not quite checked, and there is in some quarters less reserve in accepting business for forward delivery in staple cottons on the basis of prevailing prices. Buyers who were conservative before are probably less inclined than ever to anticipate their requirements to any extent, and the week's business has been on a moderate scale. The prevailing firmness of the market, in face of the adverse influence of so serious a break in the price of raw material, is easily explained by the well nigh unanimous opinion of agents generally, and the fact that prices have never been on a parity with cotton during the recent rise in the latter. In addition to this, many manufacturers seem to be by no means disabused of the impression that on its merits cotton will speedily react, and are content to await developments. In cotton dress fabrics and in the woolen and worsted goods departments the market has been without change of importance.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending October 21 were 4,530 packages, valued at $216,245, their destination being to the points specified in the table below:

NEW YORK TO OCT. 21.	1895. Week.	1895. Since Jan. 1.	1894 Week	1894 Since Jan. 1.
Great Britain	127	4,048	139	4,821
Other European	713	2,810	349	2,891

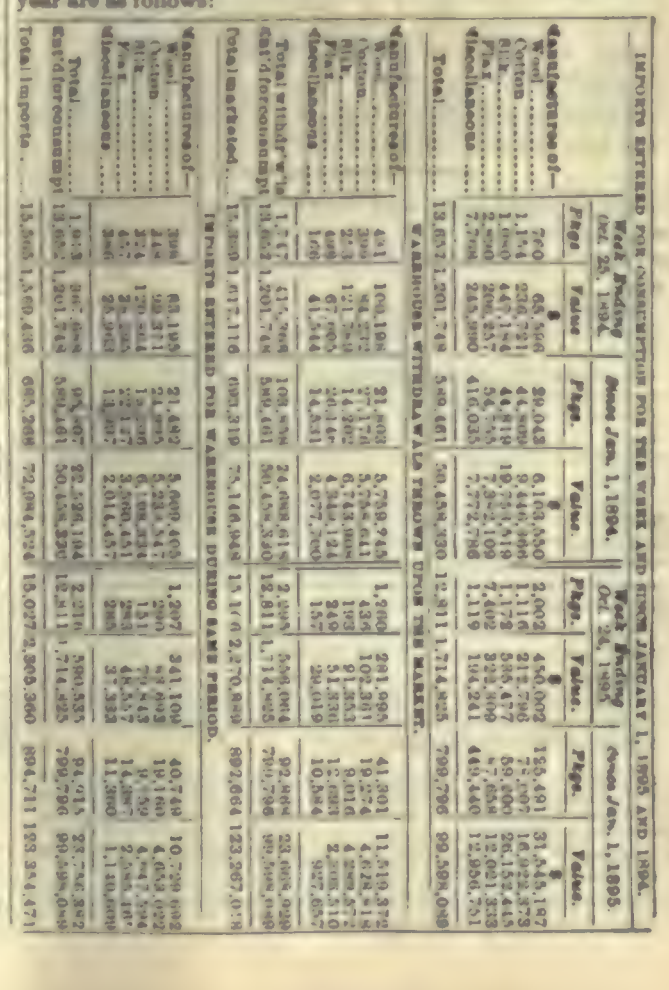
Total	4,530	185,313	4,229	197,692

*From New England mill points direct.

The value of the New York exports for the year has been $7,348,336 in 1895 against $9,294,540 in 1894.

There has been a limited demand for staple cottons of all descriptions. Occasional buyers have tested the market with bids for quantities at prices prompted by the decline in cotton only to discover, however, that sellers are not inclined to recede from present prices. Brown sheetings, drills, ducks and osnaburgs are quietly firm. Stocks are scanty in the aggregate and quite bare in many quarters. Like reports are made of bleached cottons in all grades. Denims and ticks sell in small quantities, as a rule, with full prices paid. Checks and stripes, cheviots, plaids and cottonades are generally held firmly in face of a quiet demand. No change in wide sheetings, cotton flannels, cotton blankets, quilts, lace curtains, etc. Kid finished cambrics and other cotton linings are firm, but sales are light. Printed calicoes are firm throughout. Stocks of dark fancies are small and other regular prints, such as shirtings, indigo blues, mournings and grays, are frequently quite sold up. Dark dress ginghams continue slow, and business in spring lines restricted, few agents yet showing samples. Staple ginghams are firm. Print cloths have ruled quiet and close with sellers of extras, both spots and contracts, at 3 1/16c., a decline of 1-16c. in contracts. Odd goods are 1-16c. lower also; 38 1/16 inch 64 squares offered at 4 11-16c.



Stock of Print Cloths—	1895. Oct. 19.	1894 Oct. 20.	1893. Oct. 21.
At Providence, 64 squares	76,000	41,000	192,000
At Fall River, 64 squares	21,000	25,000	415,000
At Fall River, odd sizes	53,000	106,000	
Total stock (pieces)	150,000	172,000	607,000

WOOLEN GOODS.—The reorder business on light-weight woolens and worsteds has been of moderate dimensions this week. Woolens show no improvement in condition but, as noted last week, staple worsteds, such as Clays, can only be reordered at an advance on original business. The market for cotton-warp cassimeres, satinets and doeskin jeans is generally firm, cotton playing an important part in these and being considerably higher even at present prices than when the season opened. There have been no developments of importance in the new heavy-weight woolen and worsted goods, agents doing little in these as yet. Business in overcoatings slow but fair in clothings at previous prices. Flannels and blankets are dull but prices well maintained. Woolen worsted and mohair dress fabrics sell fairly for spring and the market presents a generally firm appearance in both staples and fancies.

FOREIGN DRY GOODS.—A moderate business is reported in seasonable merchandise for piecing-out requirements. Stocks of desirable goods well sold up. Business for spring in dress goods, silks, ribbons, linens, &c., fair, with prices firm all around. New heavy-weights for men's wear but sparingly shown and quoted prices still too high for buyers to operate to any extent.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending October 24, and since January 1, 1895, and for the corresponding periods of last year are as follows:

State and City Department.

TERMS OF SUBSCRIPTION.

The Investors' Supplement will be furnished *without extra charge* to every annual subscriber of the Commercial and Financial Chronicle.

The State and City Supplement will also be furnished *without extra charge* to every subscriber of the Chronicle.

The Street Railway Supplement will likewise be furnished *without extra charge* to every subscriber of the Chronicle.

The Quotation Supplement, issued monthly, will also be furnished *without extra charge* to every subscriber of the Chronicle.

TERMS for the Chronicle with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time	$3 50	Three Months (13 times)	$25 00
One Month (4 times)	11 00	Six Months (26 times)	43 00
Two Months (8 times)	18 00	Twelve Months (52 times)	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyse in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

STATE AND CITY INDEX.

In this number of the Chronicle we publish an index to all news items printed in this Department since the issuance of our last State and City Supplement, April 13, 1895. In all cases when the item includes later figures of debt, assessed valuation, &c., full-face types are used. Items published in to-day's Chronicle are not included in the index. This index will be published the last Saturday of each month.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Albany, N. Y.—*Bond Sale.*—City Chamberlain Wm. H. Haskell reports to the Chronicle that on October 21, 1895, $32,500 of 4 per cent registered street improvement bonds were sold to the Albany Savings Bank at 101·98. Four other bids were received for the loan. The securities will be dated November 1, 1895, interest will be payable semi-annually on May 1 and November 1, and the principal will mature at the rate of $12,500 yearly from November 1, 1895, to November 1, 1900.

The city's total general debt on October 8, 1895, was $2,592,000; water debt, $1,589,000; total debt, $4,181,000; sinking fund, $971,000; net debt, $3,210,000. The assessed valuation for 1894 was $64,895,635. The value of real and personal property owned by the city is $7,589,000. Population, according to local figures, 98,000.

Athens, Ga.—*Bond Election.*—The people of Athens will vote to-day on issuing $15,000 of electric-light bonds.

Belfast, Me.—*Bond Sale.*—On October 15, 1895, the city of Belfast sold $118,000 of 4 per cent 10-30 year refunding bonds to Woodbury & Moulton at 101·69 and accrued interest. Five bids in all were received as follows:

	Bid.
Woodbury & Moulton, Portland	101·69 and accrued interest
E. C. Stanwood & Co., Boston	101 and accrued interest
Cushman, Fisher & Co., Boston	100·53 and accrued interest
S. A. Kean, Chicago	100⅛ and accrued interest

James W. Longtreet & Co., Boston, offered par and accrued interest less 3 per cent commission.

Bellevue, Pa.—*Bond Election.*—A vote will be taken in November on issuing bonds for water-works.

Boise City, Idaho.—*Bonds Not Authorized.*—We are officially informed that the report that Boise City has voted $100,000 of bonds in aid of the California Idaho & Montana railroad is incorrect. The report had its origin in the fact that individual subscriptions for a cash bonus of $100,000 when the road shall have been completed have been secured. The city has also given a right of way which is considered to be worth $200,000.

Bluffton, O.—*Bonds Authorized.*—The citizens of Bluffton have voted, by 254 to 24, in favor of issuing water-works bonds for $17,000. The securities will probably bear 6 per cent interest and will be offered for sale some time this winter.

The assessed valuation of real estate in Bluffton is $255,000.

Canton, Ohio.—*Bonds Authorized.*—It is reported that bonds of this city to the amount of $117,000 have been authorized. The City Clerk has been empowered to make a temporary loan of $23,000.

Carthage, Ohio.—*Bond Offering.*—Proposals will be received until November 20, 1895, by Lewis Hall, Village Clerk, for the purchase of $700 of 5 per cent cement sidewalk bonds. The securities will be dated November 20, 1895, interest will be payable semi-annually, and the principal will mature November 20, 1905. Both principal and interest will be payable at the German National Bank, Cincinnati, Ohio.

Cass County, N. D.—*Bond Sale.*—On October 15, 1895, this county sold $15,000 of hospital bonds to Martin Hector of Fargo, N. D., for a premium of $375. Other bids received were as follows:

Farmers' & Merchants' Savings Bank of Minneapolis offered par and accrued interest and $416 premium.

S. A. Kean of Chicago offered $375 premium and interest, subject to legality.

Mason, Lewis & Co. of Chicago offered par, less $124 commission.

W. J. Hayes & Sons of Cleveland, O., offered par and a premium of $180.

State Savings Bank of St. Paul offered par and accrued interest and $25 premium.

Dietz, Denison & Prior, by A. L. Cary, offered $281 premium.

The securities bear interest at the rate of 5 per cent and run 15 years.

College Hill, Ohio.—*Bond Offering.*—Proposals will be received until November 18, 1895, by F. R. Strong, Village Clerk, for the purchase of $1,859 76 of 6 per cent avenue-improvement bonds. The securities will be dated November 18, 1895, interest will be payable annually, and $194 76 of the principal will mature in one year and $185 yearly thereafter. Principal and interest will be payable at the Citizen's National Bank, Cincinnati, Ohio.

Columbus, Ohio.—*Bond Offering.*—Proposals will be received until November 20 for the purchase of $85,000 of 4½ per cent bonds, $38,000 of the amount running from one to eight years, to be issued for the improvement of High Street, $22,000 running from one to ten years for the improvement of Linwood Avenue and $25,000 running from one to ten years for the improvement of Selbach Avenue.

Dawson County, Mont.—*Bond Offering.*—Proposals will be received until November 30 by James M. Cormick, County Clerk, for the purchase of $50,000 of funding bonds. The securities will be dated November 1, 1895, will bear interest at the rate of 6 per cent, payable semi-annually, and will mature in twenty years, with an option of call after ten years.

Dayton, Ky.—*Bond Sale.*—City Clerk C. B. Hayward reports to the Chronicle that $7,000 of 6 per cent 10 year street improvement bonds have been sold to the First National Bank of Newport, Ky., at 102½. The original amount of the securities offered was $8,000, but this was reduced by the payment of assessments by property owners.

Dublin, Ga.—*Bond Election.*—A vote will soon be taken on issuing $30,000 of water-works and electric-light bonds.

East Liverpool, Ohio.—*Bonds Issued.*—It is reported that about $150,000 of bridge bonds of East Liverpool have recently been disposed of.

Elkhart, Ind.—*Bonds Authorized.*—Bonds of this city to the amount of $25,000 have been authorized by the Council.

Erie County, N. Y.—*Bond Offering.*—County Treasurer George Baltz will receive proposals at Buffalo, N. Y., until November 1st for $70,000 of 4 per cent Erie County bonds. Interest on the securities will be payable on May 1 and Nov. 1, and the principal will mature at the rate of $7,000 yearly from Nov. 1, 1900, to Nov. 1, 1909, both inclusive. Both interest and principal will be paid at the office of the County Treasurer in Buffalo. The bonded debt of Erie County on November 1, 1895, including the new issue, will be $712,500. The assessed valuation on January 1, 1895, was $257,123,113.

Grant County, South Dak.—*Bond Offering.*—County Auditor N. Forsberg will receive proposals until November 1 at Milbank, S. D., for $100,000 of Grant County funding bonds. The securities will bear 5 per cent interest, payable semi-annually, and the principal will mature in twenty years, with option of call after ten years.

Grass Valley, Cal.—*Bond Election.*—A vote will be taken Oct. 28 on issuing $60,000 of water-works bonds.

Hamilton County, Ohio.—*Bond Offering.*—Proposals will be received until October 30, 1895, by the County Commissioners for the purchase of $46,000 of 4 per cent Spring Grove Avenue bridge bonds. The securities will be dated November 1, 1895, interest will be payable semi-annually and the principal will mature November 1, 1902.

Hastings, Neb.—*Bond Election.*—The people of Hastings will vote on issuing $10,000 of improvement bonds.

Haverhill, Mass.—*Bond Sale.*—It is reported that on Oct. 23, 1895, this city sold $100,000 of coupon bonds to the German-American Investment Company of New York at 103·931. The securities are to be dated October, 1895, will bear interest at the rate of 4 per cent and will mature in 10 years.

Hempstead, N. Y.—*Bonds Defeated.*—At a second election to vote on water bonds the tax-payers of Hempstead defeated the proposition by a vote of 74 to 36. A favorable vote was polled last month on this question, and bonds for $42,000 were issued, but the election then held was subsequently declared illegal, as notice had been published only thirteen days, instead of fourteen days as required by law.

Houston, Tex.—*Bond Offering.*—On November 7, 1895, the Mayor and Finance Committee of Houston, Tex., will offer at public sale $100,000 of 5 per cent street paving bonds. Interest will be payable semi-annually and the bonds will mature in 40 years from date of issue. Both principal and interest will be payable at the Union Trust Company, New York City. The successful bidder will be required to deposit a certified check for $2,500, made payable to the order of John T. Browne, Mayor.

The Mayor's official advertisement will be found elsewhere in this Department.

Hyattsville, Md.—*Bonds Proposed.*—The citizens of this municipality will petition the Legislature for authority to issue bonds for water works.

Idaho County, Idaho.—*Bond Offering.*—County Clerk A. W. Talkington will receive bids at Mt. Idaho until December 2 for $74,500 of 10-20 year Idaho County bonds.

Independence, Mo.—*Bonds Defeated.*—The proposition to issue $50,000 of sewer bonds voted on October 15 failed to receive the necessary majority of two-thirds of the votes cast and was therefore defeated.

Jamaica Union Free School District No. 2, N. Y.—*Bond Offering.*—Proposals will be received by F. W. Dunton, Chairman of Board of Education, for the purchase of $5,000 of 5 per cent bonds. Interest will be payable semi-annually and the principal will mature at the rate of $1,000 yearly from 1920 to 1924. The bonded debt of the district is at present $30,000. Its assessed valuation is $400,000.

Jersey City, N. J.—*Bond Sale.*—Jersey City has sold $45,000 of 25 year bonds to C. Zabriskie, a local banker, who bid 105·17 for 4½ per cent securities. Nine bids were received for the loan.

Bonds Not Authorized.—George B. Hough, City Comptroller, notifies the CHRONICLE that a report to the effect that Jersey City will issue $900,000 of bonds in anticipation of taxes is incorrect.

Lancaster, Pa.—*Bond Sale.*—On October 21 $10,000 of 4 per cent 20 year school bonds of Lancaster, Pa., were sold for a total premium of $177·50. The securities are in denominations of $100 each and are exempt from taxation.

Linneus, Mo.—*Bond Issue.*—City Hall bonds to the amount of $2,000 will probably be issued.

Macon, Ga.—*Bonds Proposed.*—The Georgia Legislature will be asked to authorize the city of Macon to issue bonds for $50,000.

Marion County, Iowa.—*Bond Offering.*—Proposals will be received until Nov. 13 by the Board of Supervisors for the purchase of $80,000 of county bonds. The loan will be dated Nov. 1, 1895, will bear interest at the rate of 5 per cent, and will mature in 10 years, with an option of call after 5 years.

Mount Vernon, N. Y.—*Bond Offering.*—Proposals will be received until November 4, 1895, by the Common Council for the purchase of $50,000 of 5 per cent assessment bonds. The securities will be dated November 1, 1895, interest will be payable semi-annually, and the principal will mature November 1, 1901, both principal and interest to be payable at the office of the City Treasurer.

Nashville, Tenn.—*Bond Offering.*—Proposals are invited until Nov. 15 for 4½ per cent Nashville City bonds, issued in payment of Nashville subscription to the stock of the Tennessee Centennial Exposition. The securities will be dated January 1, 1896, and interest will be payable semi-annually. Bids are asked for bonds maturing in 5 years, 10 years, 15 years or 20 years; also for 30-year bonds, with option of call after 10 years; also for the shortest time bonds for which par will be paid.

Further particulars regarding the securities and terms of the sale will be found in an advertisement elsewhere in this Department.

New Carlisle, Ohio—*Bond Sale.*—On October 18, 1895, the village of New Carlisle sold $2,500 of bonds to Messrs. W. J. Hayes & Sons for $2,588. One other bid was received from Messrs. Dietz, Denison & Prior, offering $2,556. The securities bear interest at the rate of 6 per cent and run from 4 to 7 years.

Peoria, Ill.—*Bond Sale.*—The Board of Park Commissioners of Peoria recently sold $200,000 of bonds to E. H. Gay & Co., of Boston and Chicago, at par, the loan to bear interest at the rate of 4½ per cent. Four bids in all were received for the securities. The bonds are to be dated November 1, 1895, interest will be payable semi-annually, and the principal will mature at the rate of $50,000 every 5 years from November 1, 1900, to November 1, 1915.

Philadelphia, Pa.—*Bond Sale.*—Up to and including the sales of Thursday the total amount of bonds subscribed for of the 3 per cent Philadelphia popular loan was $939,000. The securities are being sold at par in sums of $100 and multiples thereof.

The bonds will be exempt from all taxes, interest commencing July 1, 1895, will be payable semi-annually on January 1 and July 1, and the principal will mature at the rate of $60,000 yearly from December 31, 1905, to December 31, 1924. Settlement in full must be made with the City Treasurer within ten days after the subscription is made.

We are informed that no action has as yet been taken with reference to the issuance of the sub-way loan of $6,000,000 which was authorized some time since.

Pittsburg, Pa.—*Legal Decision.*—It is reported that the Allegheny County Court has declared the Kennedy School Act unconstitutional. This decision will interfere with the issuance of Pittsburg school bonds, which were proposed under the provisions of the bill.

Pueblo County School District No. 1, Colo.—*Bond Sale.*—It is reported that on Oct. 10, 1895, this district sold $176,000 of 4½ per cent refunding bonds to Farson, Leach & Co. for $176,449. The securities will run 20 years, with an option of call after 10 years.

Raleigh, N. C.—*Bond Election.*—The citizens of Raleigh will vote January 14, 1896, on issuing $50,000 of street improvement bonds. The details of the proposed securities have not as yet been determined.

Rockbridge County, Va.—*Bond Election.*—S. R. Moore, County Treasurer, reports to the CHRONICLE that the discussion over an election to vote on issuing $30,000 of court-house bonds has called out opposition, and if a vote should be taken at present it would probably result adversely. It is proposed that the bonds bear interest at the rate of 5 per cent, payable semi-annually, on January 1 and July 1, and they will probably run 20 years before they can be called for payment. The election, if held, may take place in the spring.

St. Cloud, Minn.—*Bond Issue.*—It is reported that this municipality will issue $10,000 of bonds in anticipation of taxes, the loan to bear interest at the rate of 6 per cent.

San Antonio, Tex.—*Bond Election.*—Street improvement bonds of the city to the amount of $50,000 will be voted on by the Council.

San Luis Obispo, Cal.—*Bond Offering.*—The $90,000 of water bonds and $30,000 of sewer bonds recently voted by this city will probably be offered for sale on January 6, 1896. The securities will bear interest at the rate of 5 per cent, payable yearly. The principal will be retired at the rate of one-fortieth yearly. Both principal and interest will be payable in gold.

Scott County, Kan.—It is reported that the Probate Judge of Scott County has issued an injunction restraining the County Treasurer from paying interest on county bonds, which are almost entirely held by the State School Fund. The State Treasurer has requested the Attorney-General to bring proceedings to force the payment of the interest now due. Scott County is in an unfortunate financial position, as its assessed valuation has decreased from $1,024,881 in 1890 to $870,026 in 1894. The total debt of the county has increased from $151,000 in 1890 to $178,000 in 1895.

Sedalia, Mo.—*Bond Offering.*—The city of Sedalia has an outstanding bonded indebtedness of about $300,000 bearing interest at the rate of 5 per cent which it proposes to refund at 4½ per cent. Proposals will be received for the securities until Nov. 4, 1895, by S. D. Trumbo, City Clerk. The city's assessed valuation is nearly $4,500,000; actual valuation about $12,000,000.

The question of making Sedalia the seat of State Government will be voted on in November, 1896, and it is expected that the proposition will carry.

South River, N. J.—*Bond Issue.*—This borough will issue $10,000 of street improvement bonds.

Tampa, Fla.—*Bond Sale.*—It is reported that this city has recently sold $350,000 of bonds to W. N. Coler & Co. at par.

Toluca, Ill.—*Bonds Authorized.*—William Hawthorne, City Attorney, reports to the CHRONICLE that at a special election held September 28 the proposition of issuing bonds for the construction of water-works at Toluca was favorably voted upon. The amount of the first issue will be $8,500 and the securities will be placed on the market about March 1, 1896. The bonds will bear interest at the rate of 6 per cent, payable annually, and will mature in 15 years.

The city has at present no debt of any kind and its assessed valuation for 1895, which is 25 per cent of actual value, is about $175,000.

Turner, Ill.—*Bonds Authorized.*—A vote taken October 15 on issuing $10,000 water-works bonds resulted in favor of the proposition.

Wakefield, Mich.—*Bond Issue.*—It is reported that bonds of this municipality will be issued for water-works.

Warehouse Point, Conn.—*Bond Issue*—This municipality will issue $2,000 of 5 year sewer bonds.

Wauwatosa, Wis.—*Bonds Authorized*—Bonds to the amount of $40,000 have been voted for water works.

Westwood, Ohio—*Bonds Authorized*—Road bonds to the amount of $20,000 have been voted.

West Point, Miss.—*Bonds Authorized*—Water-works bonds of this municipality to the amount of $20,000 have been voted.

Yeadon, Pa.—*Bond Election.*—The people of this municipality will vote on the proposition of issuing $25,000 of bonds for sewers. An election was to have taken place October 17, but Albert Moore, Borough Clerk, reports to the CHRONICLE that action has been deferred until the February election. The borough has at present a bonded debt of only $6,883. Its assessed valuation for 1895, which is about one-third actual value, is $583,000; total tax (per $1,000), $10 50.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT. Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

Bloomington School District, Ill.—The financial condition of this district on Sept. 1, 1895, was as follows:

Bonded debt Sept. 1, '95. $30,000	Real valuation $14,275,148
Tax valuation 1894.....3,568,787	Population '95 (sch. census).25,000

Dallas City, Oregon.—A statement of the financial condition of Dallas City on Oct. 1, 1895, is as follows.

Dallas City is in Wasco County.

LOANS—	When Due.		
WATER BONDS—(Gold)—		Water debt (included)...	$100,00 0
6s, ...,	$100,000.....1900-1915	Tax valuation 1894.....1,152,34 4	
($25,000 due every 5 yrs. in Mar.)		Real valuation.....3,500,00 0	
Total debt Oct. 1, 1895..$160,000		Population in 1890 was.....3,029	
		Population in 1895 (est.) 3,500	

Hillsboro, Texas.—Below is a statement of the financial condition of this city on Sept. 1, 1895.

Hillsboro is in Hill County.

Total debt Sept. 1, 1895. $47,500	Real valuation.....$2,000,000
Water debt (included)... 20,000	Population in 1890 was.....2,541
Tax valuation 1894.....1,926,475	Population '95 (sch. census) .6,010

☞ For other Debt Changes see page 768.

INDEX TO STATE AND CITY DEPARTMENT.

In the following index references are given by volume (v.) and page (p.) to every item regarding State, city, town or county finances which as been published in the CHRONICLE since the issuance of the last STATE AND CITY SUPPLEMENT, APRIL 13, 1895

Items in the current number are not noted in the index.

Full-face types refer to latest reports of total debt, assessed valuation &c.

This index will be published in the STATE AND CITY DEPARTMENT of the CHRONICLE on the last Saturday of each month

4 PER CENT SEWER NOTES

PLAINFIELD, N. J.

CORPORATION NOTICE.

Pursuant to a resolution adopted by the Common Council of the city of Plainfield, New Jersey, at a meeting thereof held October 14th, 1895, notice is hereby given that the Common Council will meet on Monday, October 28th instant, at 8 o'clock p. m., at the Council Chamber, No. 249 Park Avenue, in the city of Plainfield, at which time and place said Common Council will receive and open sealed proposals for borrowing a sum not to exceed that may be required, not exceeding $100,000, for the purpose of the borrowing money now being authorized by the said city council, and for the purpose of paying and discharging the indebtedness of said city, and for the purpose of providing for the construction of a system of sewerage, approved July 15th, 1895, and other purposes, regulations, restrictions and proceedings relative to the borrowing or contracting of said sewerage system, borrowing moneys to pay the same, issuing bonds therefor, and all matters connected therewith, as provided by said city ordinance. An ordinance to provide for the construction of a system of sewerage, approved July 15th, 1895, and other ordinances, regulations, restrictions and proceedings relative to the borrowing or contracting of said sewerage system, borrowing moneys to pay the same, issuing bonds therefor, and all matters connected therewith, as provided by said city ordinance. An ordinance to provide for the construction of a system of sewerage, approved July 15th, 1895, and other ordinances, regulations, restrictions and proceedings relative to the borrowing or contracting of said sewerage system, borrowing moneys to pay the same, issuing bonds therefor, and all matters connected therewith, as provided by said city ordinance.

Said notes will be dated November 1st, 1895, and will bear interest at the rate of four per cent per annum, payable semi-annually, and will be payable in one, two, three, four, five, six, seven, eight, nine and ten years from date, respectively, as may be determined by the Common Council, and as may be provided in an ordinance passed by the Common Council of the city of Plainfield, entitled "An Act of the Legislature to authorize the borrowing of money by the city of Plainfield, and issuing bonds therefor," approved March 31st, 1892, and the supplements thereto and amendments thereof, and bonds to the aforesaid amount shall be issued, which bonds shall bear interest at the rate of four per cent per annum, payable semi-annually, and shall be payable in gold. The proceeds of said bonds shall be applied to the purposes for which they are authorized, and to no other purpose whatsoever.

Each proposal must state the amount of premium that the bidder will unconditionally pay to the city for the bonds, if awarded to him, and must be accompanied by the guarantee of the proper officers of three sureties, approved and satisfactory to the Common Council, or by the deposit of a certified check for ten per cent of the amount of bonds bid for, and the proceeds of such check will be forfeited to the city if the bidder shall refuse to take the bonds awarded to him.

The right to reject any or all bids is expressly reserved by the Common Council.

All proposals must be endorsed "Proposals for furnishing moneys to the city of Plainfield for the construction of a sewerage system."

By order of the Common Council of the city of Plainfield.

Dated, October 14, 1895.

Population in 1890 was	20,111
Population in 1895 (est.)	21,000

Texas.—Below is a statement of the financial condition of the State of Texas which has been corrected to September 1, 1895, by means of a report from W. B. Wortham, State Treasurer. Since the first of this year the State has paid off $560,463 of revenue warrants which were outstanding at the time of our last report although not included in the bonded debt. On Sept. 1, 1895, the total debt of the State was only $3,992,080, and of this sum only $750,490 was in the hands of individuals, all the rest being in the possession of State funds.

NAME AND PURPOSE.	Interest. P. Ot.	Interest. Payable.	Principal, When Due.	Principal, Outstand'g.
Floating debt bonds, 1874, gold	7g	J & J	Jan. 1, 1904	$288,000
Frontier defense, 1870, gold	7g	M & S	Aug. 5, 1910	298,000
do do refunding	5	M & S	1919	201,000
Redemption State debt, 1876, g.	6g	J & J	July 6, 1906	1,647,000
Retiring outstanding bonds, 1879	5	J & J	July 1, 1909	1,068,900
Retiring outstanding bonds	4	Jan.	Jan., 1899	2,630
Refunding bonds 1893	5	J & J	Optional.	152,000
do do 1893	4	J & J	1933	334,500

PAR VALUE OF BONDS.—The 5 per cent bonds for retiring outstanding bonds are $100 and multiples; the other bonds are nearly all $1,000 each.

INTEREST is payable in New York and at the State treasury.

TOTAL DEBT, ETC.—The subjoined statement shows the State's total debt on each of the dates indicated.

	Sept. 1, '95.	Jan. 1, '95.	Sept. 1, 93.
Total bonded debt	$3,992,030	$3,992,030	$3,992,030
Of which held in State funds	3,241,540	3,241,540	3,235,040
Leaving amount outstand'g	$750,490	$750,490	$756,990

ASSESSED VALUATION.—The State's assessed valuation and tax rate at different periods have been as follows:

Years.	Real Estate.	Pers. Prop.	Total.	Tax p. $1,000
1894	$599,868,515	$265,252,474	$865,120,989	$2·75
1893	607,941,700	278,233,695	886,175,395	.....
1892	.....	.....	886,175,395	2·75

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, November 2, have been $1,139,852,973 against $1,127,761,132 last week and $1,015,654,859 the corresponding week of last year.

Clearings Returns by Telegraph.	Week Ending November 2. 1895.	1894.	Per Cent
New York	594,378,310	0459,[illegible],681	+14.1
Boston	79,601,423	83,595,923	- 4.6
Philadelphia	63,678,151	53,[illegible],923	+19.2
Baltimore	12,187,878	11,[illegible],631	+ 7.1
Chicago	78,884,484	78,[illegible],383	+ 0.2
St. Louis	20,703,216	17,661,540	+17.2
New Orleans	10,736,319	7,[illegible],846	+29.1
Seven cities, 5 days	$779,119,001	$703,[illegible],358	+10.8
Other cities, 5 days	145,308,724	135,[illegible],372	+ 7.4
Total all cities, 5 days	$924,428,725	$[illegible],[illegible],748	+10.2
All cities, 1 day	208,627,249	176,[illegible],[illegible];	+17.9
Total all cities for week	$1,139,852,973	$1,015,[illegible],[illegible]	+11.6

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, October 26, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is a decrease in the aggregate exchanges of about twenty-three and a half million dollars, but at New York alone the loss is only nine millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 24.0 per cent. Compared with the week of 1893 the current returns record an excess of 19.5 per cent and the loss from 1892 is 13.4 per cent. Outside of New York the gain over 1894 is 15.1 per cent. The excess over 1893 reaches 21.9 per cent, and making comparison with 1892 the decrease is seen to be 10.4 per cent.

(Clearings at—)	Week ending October 26. 1895.	1894.	1895. P. Cent.	1893.	1892.

THE FINANCIAL SITUATION.

If any reader will study the various markets, commercial as well as financial, he will find one condition common to almost all of them. When business in the earlier months of the year began to show evident and decided signs of improvement, the natural recoil from the long extreme depression caused a speculative feeling to develop which continued until prices had reached a high level, and in some departments at least a higher level than the existing circumstances warranted. To day it is quite significant to notice how many of the markets are in turn reported in a waiting attitude. The fact is, current quotations in many cases have shown not only that the present degree of prosperity has been discounted but that the future has been drawn upon to a considerable extent. In some respects this represents the iron market, a department which reports a production larger than ever before reached and increasing, and for the moment at least a still larger consumption; but important buyers are holding off, not willing to place orders lest there may be a drop in price after their contract is in. Leather furnishes another conspicuous instance of somewhat similar surroundings, and textile fabrics another, and these together typify a numerous class. Have not securities been in much the same predicament? Gauged by existing dividends, and in many cases by current earnings, have not recent quotations been far enough in advance of present developments to warrant a waiting attitude?

The foregoing suggestions indicate a natural but temporary state of business affairs, with a promise of renewed activity later on under the influence of the favorable industrial conditions which are developing now. That favorable outlook though is beset with one serious drawback which the course of transactions at our Stock Exchange this week, under the prominent influence of the week, has again illustrated. The whole truth is that every strain in Europe means now-a-days a pinch here because of the condition of our currency. Among ourselves confidence in the convertibility of our dollars is with good reason absolute. We do not merely believe but the general feeling is that we know it will be maintained. And yet we have been forcibly reminded the past few days of the sensitiveness and weakness of our financial arrangements. Under ordinary circumstances the effect of war, if it were imminent, or suggestions of war in Europe, ought to be not to decrease but, if anything, to increase foreign investments in America. The natural course of action would be to incline capitalists to put their money where it would be least affected by the event of such a contest. Moreover while the war was in progress its probable effect would be to add to the demand for our food products and to increase our general trade. Altogether then if we had a sound currency, more or less political tension in Europe ought to have no unfavorable influence on securities here, while actual war would presumably add to their value.

On Wednesday and Thursday the European centers of trade gave evidence of a disturbed feeling prevailing in foreign financial circles everywhere. As a common source for the feeling could only account for such a general derangement it was assumed chiefly to reflect an increased delicacy in the relations existing between Great Britain and Russia, in confirmation of which extracts were cabled from an article in a Russian newspaper, claimed to be a semi-official utterance, expressive of the fresh irritation felt towards Great Britain. Features of this disturbance on that day were an unsettling effect upon the Paris, Berlin, London and Vienna bourses, a decided break on the Continent in Turkish stocks, new anxiety about mining properties in London and Paris, and increased sales in New York of American shares for London account. Yesterday the disquietude in London was less of a feature. A fact of some importance as indicating the lack of substance to these rumors was that the open market discount rates in Europe were not materially changed. We have written on a subsequent page on these new outcroppings of the Eastern question, and we need only say here that we can see nothing of a startling nature in the recent rumors. It seems to us much more likely that Lord Salisbury will surprise the world by some arrangement of the differences so long existing between Russia and England than that there will be a breaking out of hostilities.

This subject of European political complications, is, as we have already said, chiefly of interest to the United States because the results on our foreign exchange rates and the spasm on our Stock Exchange warn us again to put our financial house in order if we would expect to reap the full benefit of the revival of trade which has so auspiciously begun. As things now stand, there is not an adverse financial or political symptom noticeable in any foreign bourse that does not strike our foreign exchange market, and through that our Stock Exchange. Bankers say that about £1,000,000 of cotton drafts have come forward this week, having been delivered on contract, and more are expected to be delivered within the next fifteen days; but they add that in their opinion these will be insufficient under existing circumstances to meet the requirements of the market. No new bankers' bills against the negotiation of securities have been offered and none are looked for at present. The unsettled condition of the London and Continental markets, which, as heretofore remarked, has resulted in increased arbitrage selling of American stocks on European account, does not encourage attempts to place American loans abroad for the time being.

Contrary to general expectations the new trunk line agreement was not formally signed and sealed at the meeting of the presidents in this city on Wednesday. The delay is not to be regarded, however, as indicating any change of attitude towards the scheme on the part of the various railroads. The official statement given out after the close of the meeting distinctly says that "no dissent was expressed, and the boards of directors of the parties to the agreement have acted favorably upon it." The postponement was occasioned by the suggestions of further amendments to the scheme, some of these suggestions coming from the legal advisers of the roads and being prompted by a desire to remove any possibility of doubt as to the legality of the contract. There is one aspect of the matter that must be regarded as very encouraging. We have on previous occasions expressed our opinion that the new agreement, in its general features, was one of the most important contracts ever formulated for the acceptance of any body of roads in the country. It would of course be a strange condition of things if the contracting parties did not understand and appreciate its importance and the noteworthy departure in the affairs of the roads which its adoption will work. The fact that they are proceeding slowly and deliberately, weighing the bearing and effect of every

clause and section, shows that in proposing the radical changes in railroad affairs which the new agreement will involve they are acting advisedly and that they are determined that the provisions of the scheme shall be such that they can be lived up to and carried into effect. When the document is finally signed we may take it for granted that every part of it will have the sanction of all the contracting parties and that each road will therefore feel itself bound by it. In that way, and in that way only, can a lasting and a successful arrangement be reached, and this is evidently what is being done in the present instance.

The striking gains in earnings, both gross and net, which the Chicago Milwaukee & St. Paul Railroad is showing in its returns still continue one of the most marked features of the railroad situation. The road's statement for September has been issued this week, and it shows that with an addition that month of $272,916 to the gross revenues, there was a reduction of $66,841 in expenses, thus yielding a gain of $339,757 in net earnings, and raising the amount of the net from $1,005,610 in September 1894 to $1,345,367 in September 1895, an improvement of over 33 per cent. For the three months of the fiscal year from July 1 to September 30 the statement records an addition of $952,839 to the gross revenues, and an addition of $895,293 to the net revenues, the latter rising from $2,208,703 in 1894 to $3,103,996 in 1895—the improvement in this instance being over 40 per cent. For October it is likely the showing will be yet more remarkable, for in the first three weeks of the month gross earnings have increased $547,408 over the corresponding three weeks of 1894.

The gains here are due to the excellent harvest of spring wheat gathered in the Northwest and to the activity in business occasioned by that fact. The roads which have only a small mileage in the spring-wheat districts, or which are more largely dependent upon the corn crop than the St. Paul, are not of course being favored in the same way. Their time will come later on, when the corn crop begins to move. The Chicago Burlington & Quincy for instance reports for September only $265,280 increase in gross and $164,131 increase in net, while the Chicago Burlington & Northern has $14,266 *decrease* in gross and $21,174 decrease in net. Some quite good returns come from other sections. Thus the Wabash has increased its gross earnings from $1,075,511 to $1,175,561 and its net earnings from $289,721 to $341,100; while the Canadian Pacific reports gross of $1,820,398 for 1895 against $1,776,958 for 1894, and net of $744,545 against $673,206. A statement for the Northern Pacific for the same month given in the newspapers, but which we have not been able to get verified, shows a gain of $109,031 in gross and of $198,696 in net.

Money on call has been a little more active this week, the result of some calling in of bankers' balances in consequence of the decline in the stock market; some derangement has also been caused by preparations for the November settlement. Business has been done this week at 2 and at 2½ per cent, and as loans have been large at both rates the average has been fully 2½ per cent. Banks and trust companies quote 2 per cent as the minimum, some obtaining 2½ where the loan stands undisturbed. For time contracts there is a very light inquiry, while the offerings are liberal and rates are 2 per cent for thirty days, 2½ per cent for sixty to ninety days, 3 per cent for four and 3½@4 per cent for five to six months on good marketable collateral. The supply of commercial paper is not large, though there is a fair assortment of acceptable names, and the demand is good. Quotations are 4½ per cent for sixty to ninety day endorsed bills receivable, 4½@5 per cent for four months commission house and prime four months' single names, 5@5½ per cent for prime six months' and 6 per cent and above for good four to six months' single names. Re-discounting for interior banks is only moderate in amount and chiefly confined to the South. There is reported to be a scarcity of currency in the Northwest, which may result in a continuance of the movement to that section for some time.

The prominent features in the European financial situation have been referred to above. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety-day bank bills in London 11-16 of 1 per cent. The open market rate at Paris is 1⅞ per cent and at Berlin and Frankfort it is 2½ per cent. According to our special cable from London the Bank of England gained £178,871 bullion during the week and held at the close of the week £41,704,029. Our correspondent further advises us that the gain was due to the import of £137,000 wholly bought in the open market, to receipts from the interior of Great Britain of £113,000 and to exports of £71,000, of which £64,000 were to Roumania and £7,000 to India.

The foreign exchange market has been dull and steady to firm and higher this week. On Monday the market opened steady, and Baring, Magoun & Co. and the Bank of Montreal advanced their posted rates half a cent, while rates for actual business were unchanged compared with Friday of last week. There was a moderate supply of cotton bills on contracts. On Tuesday the market opened firm, and Brown Bros. & Co. advanced their posted rates half a cent and rates for actual business were moved up one quarter of a cent to 4 87½@4 87¾ for sixty days, 4 88¼@4 88¾ for sight and 4 88¾@4 89 for cable transfers. There was a little better supply of commercial bills on contract, and some near cotton drafts were offered at about 4 87, which was within half a cent of the rate for documentary bills, these being quoted at 4 86½@4 86¾. The market was firmer on Wednesday, and some bankers quoted it strong. Rates for actual business were advanced to 4 87¾@4 88 for long, 4 88¾@4 89 for short and 4 89@4 89¼ for cable transfers, and though the tone was a shade easier in the afternoon it was not quotably lower. No change was made in rates on the following day and bankers called the market dull and steady. Yesterday the same conditions continued. The following table shows the daily posted rates for exchange by leading drawers.

		Fri., Oct. 25.	Mon., Oct. 28.	Tues., Oct. 29.	Wed., Oct. 30.	Thurs., Oct. 31.	Fri., Nov. 1.

	Sight	89⅛	89⅛	89⅛	89⅛	89⅛	89⅛

The market closed steady yesterday at 4 88¼ for sixty day and 4 89¼ for sight. Rates for actual business were 4 87¾@4 88 for long, 4 88¾@4 89 for short and 4 89@4 89¼ for cable transfers. Prime commercial bills were 4 87¼@4 87½ and documentary 4 86¾@4 87.

In the earlier portion of this article we have referred to a number of returns of gross and net earnings for September. Quite a good many other roads have also furnished us with their September exhibits this week. The Cleveland Cincinnati Chicago & St. Louis reports gross of $1,238,528, against $1,205,677, and net of $361,833, against $348,519; the Peoria & Eastern gross of $174,140, against $150,699, and net of $46,421, against $41,366; the Chesapeake & Ohio gross of $831,510, against $789,304, and net of $270,251, against $262,942; the Louisville & Nashville gross of $1,693,934, against $1,688,690, and net of $555,880, against $674,121; the Oregon Improvement gross of $270,517, against $308,664, and net of $37,189, against $44,930; the Minneapolis & St. Louis gross of $193,276, against $184,135, and net of $89,506, against $87,504; the Chicago & Eastern Illinois gross of $335,188, against $301,817, and net of $154,238, against $85,773; the Kansas City Fort Scott & Memphis gross of $399,461, against $387,259, and net of $130,049, against $119,215; the San Antonio & Aransas Pass gross of $223,442, against $265,395, and net of $103,471, against $157,809; and the Buffalo Rochester & Pittsburg gross of $267,485, against $280,099, and net of $85,474, against $101,336. The following furnishes a four-year comparison for a number of roads:

		September Earnings.

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending Nov. 1, 1895.	Received by N. Y. Banks.	Shipped by N. Y. Banks	Net Interior Movement.
Currency	4,353,000	$3,295,000	Gain. $1,058,000
Gold	608,000	420,000	Gain. 188,000
Total gold and legal tenders	$4,961,000	$3,715,000	Gain. $1,246,000

With the Sub-Treasury operations the result is as follows.

Week Ending Nov. 1, 1895.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	$4,961,000	$3,715,000	Gain. $1,246,000
Sub-Treasury operations	12,000,000	13,000,000	Loss. 1,000,000
Total gold and legal tenders	$16,961,000	$16,715,000	Gain. 246,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

Bank of	October 31, 1895.			November 1, 1894.

HOW BEST TO SETTLE THE PACIFIC RAILROAD DEBT.

There is one suggestion in the report of the Government directors of the Union Pacific, just submitted, to which Congress should give heed. The suggestion is to the effect that in any settlement of the debt, provision be made for terminating absolutely all Government interest in the Pacific railroads. The Government directors would have the United States accept a fixed sum in money or a determinate amount of bonds, and once and forever take the Government out of the affairs of the Pacific roads. They well say that such a course would be preferable to the continuance for an indefinite number of years of an unsatisfactory and imperfect lien, the supervision and protection of which necessarily involves friction between departments of the Government and the management of the railroads.

It seems to us this is the proper way to treat the matter. All previous plans have had as their essential feature the continuation and extension of the debt in one form or another. Some of these proposed a larger burden of annual payments than the companies could safely afford to assume. But aside from that the objection to the extension of the debt is found in the fact mentioned, that for a long term of years the present relations of the Government to these properties would be continued. Under such an arrangement the properties could never be operated to the best advantage. They would in the first place be subject to certain restrictions at the hands of the Government, and in the second place they would be liable to constant attack by demagogues in and out of Congress, who would seek to hamper the roads in every conceivable way. They would thus never be a free agent in the sense that the other trans-Continental roads are, and their successful operation would hence be rendered correspondingly more difficult. Another objection to the extension propositions is that they place the roads in the false attitude of wanting to avoid the payment of the debt. Every such scheme that we have seen proposed to exact the full pound of flesh, only that the roads were to be given a long time in which to make the payment and meanwhile the debt was to draw a low rate of interest. Nevertheless our Congressmen, suspicious of an attempt to defraud the Government, have looked upon the propositions as efforts to evade the obligations owing to the United States.

Under the circumstances, the wiser course will be to provide for the extinguishment of the debt by the payment of a lump sum—the United States abating a portion of its claim in view of the bankrupt condition of the properties—and thereafter divorce the Government entirely from any unusual relationship with the roads. We are not sure either that this is not the only kind of a measure that would stand any chance of success in Congress. We have seen that propositions for extending or funding the debt are looked upon with

distrust and suspicion. On the other hand, a bill calling for an actual money payment in satisfaction of the debt—say for the full principal amount of the bonds—would, we are persuaded, meet with little antagonism. The proposition would be plain and easily understood, the money payment required would be certain, definite and tangible, rather than remote and subject to future contingencies and mishaps, and no opportunity existing for taking advantage of or overreaching the Government, there would be no basis on which to hang charges to that effect.

There is still another consideration that enters into the matter. In the way suggested the Government would be able to secure better terms than by any other means. The most serious factor in the affairs of the Pacific roads in the past—the most deterrent element to an outsider—has always been the peculiar Government relationship to the properties. There was no telling what embarrassments, troubles and difficulties this might not eventually lead to. With the debt extended, the same element of doubt and uncertainty would exist as before. But with the debt satisfied that factor would be removed and the Government be placed in position to realize the largest possible amount from the companies.

The Government directors advance certain proposals for carrying out their suggestion of a severance of the relations with the Government. These propositions, however, we cannot regard as altogether feasible. The substance of the plan is that both the Central Pacific and the main line of the Union Pacific be foreclosed; that the Government in both cases pay off or settle the prior-lien indebtedness, and that having gained possession of the roads in this way the whole line from Omaha to San Jose (covering the Central Pacific as well as the Union Pacific) be sold as one piece of property to a party or corporation willing to refund the amount advanced by the Government to discharge the prior liens and pay in addition a minimum sum, to be fixed by Congress, in satisfaction of the existing claims against the roads. In the contingency that no one shall be found ready to take the property at the price fixed, it is made the duty of the Secretary of the Treasury to report the facts to the next session of Congress for such further action in regard to the minimum bid as Congress may think proper to take.

This latter discloses the first of the weak points in the proposition. After the United States had advanced anywhere from thirty to fifty million dollars to take up the prior liens it might be left with the property still on its hands. It would then be more deeply involved than ever. To its present investment there would be added this further large new outlay, and as a result it would not be any better off, but worse off, than at present, for it would have much more at stake. It will no doubt be urged that the contingency suggested can be avoided by fixing the minimum price at which the Government claims are to be sold low enough, but the contingency will always have to be reckoned on as possible, for until the roads have actually been foreclosed and the prior liens taken up, no one can know the outlays that may be required for the purpose and therefore the amount to be reimbursed to the Government on that account by the intending purchasers. The Government directors are strongly opposed to Government ownership of the roads, and yet to buy up the roads by paying off the prior liens might easily be the first step in that direction. Consider, also, the thousand and one propositions to which possession of the roads (in the event of the failure to obtain the amount of the bid) would give rise in Congress. We are all aware how difficult it has been to unite our legislators upon a plan for dealing with the roads thus far, and in the case mentioned the difficulty would be increased many fold, and at the same time the pecuniary considerations involved would be larger. We opine that if the roads once came into the hands of the Government (even under a contemplated temporary and provisional arrangement) and bidders failed to appear, control would, for the reason given, remain with it for a long time.

It also appears to us undesirable that the Government should undertake the work of foreclosure. Government has no fitness for the task. No matter what latitude might be allowed the Secretary of the Treasury by Congress, he would not and could not have the same freedom of action as private parties. For that reason the work could not be as well done nor as cheaply done in that way. Lack of experience would be another element in the problem tending to make Government conduct of the foreclosure inadvisable. If the properties are to be sold under the hammer, those having the necessary experience and training (other things being the same) will be able to do the job much more satisfactorily than the Government. Besides, as the purpose is to dispose of the investment of the United States in the properties, there is no reason why this should not be done *before* foreclosure rather than after foreclosure, thus relieving Government officials of all the labor incident to foreclosure proceedings.

Perhaps the most serious objection to the plan outlined by the Government directors is that it would require the United States to raise a very large sum of money. It is not intended to include the Kansas Pacific line in the arrangement. Excluding that line, it is stated the total of the prior lien indebtedness on the Union and Central Pacific which would have to be provided for is $55,847,000, and this would be increased to $58,847,000 by equipment payments, etc. But the Government directors estimate that through the application of the sinking funds in the United States Treasury and the company sinking funds, the call for cash could be reduced to $30,961,660. They admit that in certain circumstances this amount might be materially increased. But in addition the United States will also have to make provision for the maturing currency 6s—a fact of which no cognizance is taken in the plan of the Government directors. Counting the Kansas Pacific and the various minor lines to which aid was extended by the Government, the aggregate of these currency 6s or subsidy bonds is $64,623,512. The sinking funds in the United States Treasury would take care of a part of this, but obviously if these sinking funds are to be used to take up the prior liens, they will not be available in payment of the currency 6s. To the $30,961,660, therefore, there must be added the $64,623,512, making over 95½ million dollars. Allowing for other outlays, the total would easily be swelled to 100 million dollars, and this is without doubt the lowest minimum of cash that would have to be provided.

Of course the 100 millions could easily be raised, but Government officials have so many other pressing problems to deal with they ought not to be burdened by additional work in this way. There is the question of protecting the gold reserve, the question of retir-

ing the legal tenders, the question of providing a new bank note currency, the question of making Government revenues equal to the disbursements, &c. All these require attention, and their treatment should not be hampered by considerations affecting the Government interest in the Pacific railroads. As a minor criticism upon the plan of the Government directors, we may say that in excluding the Kansas Pacific division of the Union Pacific from its operation, the scheme would seem to place in jeopardy the Government's investment in that division, amounting to several million dollars.

As stated at the outset, we regard the suggestion that the relations between the Government and the Pacific roads be terminated an excellent one; but we also think that the end sought can be attained without the machinery proposed. All that seems necessary is for the Government to fix a price at which it will dispose of its interest in the properties. The rest would be comparatively easy, always providing that the price is not placed too high. Such a plan would have the advantage of relieving the Government of the necessity of taking up the prior liens in protection of its interest in the properties and at the same time would (through the moneys received from those purchasing the roads) provide the United States with the means with which to meet the maturing currency sixes.

This plan, too, would accomplish all that the Government directors hope to accomplish by their plan, except that it would not put the Central Pacific and the Union Pacific under a common control and make a single line of the two roads. The object of uniting the properties is to carry out the original intent of Congress in authorizing the construction of the roads, and to obviate the friction alleged to exist at present between the roads. In our estimation the amount of friction existing in this way has been greatly exaggerated. The two lines are natural connections, and it will always be to their joint interest to work in harmony with each other. If, as charged, traffic has been diverted from the Central Pacific to the Southern Pacific, it should be remembered that with the Union Pacific in the hands of strong parties, such as those who are now guiding the reorganization (commonly supposed to represent the Vanderbilts), the latter road would no longer be helpless, but be in position to exact equal and fair treatment.

As it happens, too, the recently promulgated reorganization scheme of the Union Pacific is well adapted for carrying out the arrangement here proposed as far as that road is concerned. Under this scheme there is a reserve of 35 millions of new 1st mortgage bonds and 20 million dollars of new preferred stock specifically set aside for settling with the United States. If Congress should fix the sum to be paid the Government in settlement of the debt and the amount was not placed too high, this reserve of bonds and stock could easily be sold to a syndicate and the whole question disposed of in short order. We do not know, of course, what the intentions of the Reorganization Committee are in this respect, nor what terms they would be willing to accept, but that the matter could be arranged in the way suggested does not admit of doubt.

It would be the part of wisdom, therefore, for Congress early in the coming session to pass an act empowering the President to arrange the terms for a settlement on the basis proposed. The measure should be short, and might be compassed in a few sections. It should simply provide for the disposal of the Government's interest in the Pacific roads and name a limit in each case below which the Government authorities may not go. As to what the price should be, that is a matter for consideration. We should think a fair figure would be the amount of the principal of the debt. The sinking funds might be applied to the liquidation of the accumulated interest as far as they will go and the rest of the claim for interest abated. It is possible, however, that these terms might be too onerous and that the sinking funds would have to be allowed as offset to the principal of the debt. The matter should be carefully studied and a hearing given to the officials of the roads before a conclusion is reached.

Of course the situation is urgent and Congress will have to act quickly. Foreclosure proceedings under the prior liens are pending, and at the same time increasing amounts of the currency sixes are maturing, and it is desirable that the Government should obtain the means to pay them from the railroads, since the sinking funds will not go very far towards that end, and a new bond issue should be avoided if possible. It is also important that the existing relations with the roads should be dissolved as speedily as may be, and that the finances of the properties be, through reorganization, placed on a sound and solvent basis.

THE SITUATION IN EASTERN ASIA.

Our news from the late seat of war in the East has been recently of a singularly conflicting character. There have been all kinds of sensational rumors. A secret treaty, it was stated, had been concluded between China and Russia by which the latter Power had secured Port Arthur. Later reports had it that Russian men-of-war to the number of thirteen or fourteen were anchored, some inside and some in the immediate neighborhood of the port. It was also stated that Chusan had been occupied—an island which lies off the east coast of China about seven miles from the mainland and some fifty miles northeast of Ningpo. Chusan has been called the "Key of China" from its commanding position at the mouth of the Yellow Sea. It acquired some notoriety from the fact that it was taken by the British in 1840, and held by them till the terms of their treaty with China were fulfilled. In the later reports Chusan is no longer mentioned and flat contradictions have been given of the secret treaty placing Port Arthur in Russian hands.

It would appear, however, as if there was some certainty about the concentration of Russian war ships in and about Port Arthur, the reports to this effect having been so continuous and uniform. It is the motive more than the fact which constitutes the mystery. In the circumstances it is not wonderful that speculation should be exercised. It is the less wonderful when we take into consideration the numerous questions relating to foreign affairs now commanding attention. The slightest ripple on the surface of diplomacy is sufficient to enable some people to see war, and war on a gigantic scale, in the immediate future. At the present time there are not only ripples but matters of moment with reference to which there is no little contention. There is difficulty between Great Britain and France—unsettled questions between them both in Africa and Asia; there is difficulty between France and Italy; there is diffi-

culty in the Northwest, and danger of civil war in Sweden and Norway; there is the old standing grievance between France and Germany; there is the fresh outbreak of the disease of the sick man to the east of Europe; there is the hereditary rivalry and antagonism of Great Britain and Russia; there is also this greatly and unreasonably magnified difficulty which has stirred up both the old world and the new in relation to Venezuela.

The most serious difficulty of all, if it really is serious, is that connected with Russia's movements in the East. British ascendancy in China as well as in Japan has long been of the most pronounced character. All of a sudden, rumor would have us believe that Great Britain had given way to Russia. The latter Power has taken China under her wing, and helped her not only to pay her indemnity but to the recovery of the territory wrested from her by conquest. From all present appearances, it would seem as if we should not have to wait long to see not only Liao-Tung, but Corea, through Russian pressure, evacuated by the Japanese troops. And now we have these rumors and reports about Port Arthur. Ten years ago, when it was feared that Russia was about to annex the small group of islands known collectively as Port Hamilton, Great Britain sent an iron-clad to the Port and rendered such annexation impossible. Out of deference to Russia, the British did not carry out their purpose to make it a coaling station; but they have continued to keep possession of the islands. They were certainly careful of their interests in the East then, and it is to be presumed that they are no less careful of them now.

It is not to be forgotten, however, that the British are essentially a commercial people, and that their government is conducted with a view to commercial ends, not with a view to territorial conquests. Great Britain would be most unwilling to rush into war, not because she is unable or unwilling to assert her rights or to defend her interests, but, among other reasons, because of the injury which a great war would entail upon trade and commerce the world over; and a war involving her with any of the other great Powers could not be other than a war of world-wide proportions. If war should break out between Great Britain and Russia it would necessarily be very destructive. Russia is undoubtedly a mighty Power, especially on land, and it is only at two or three points she is approachable by sea. At these points, however, she is vulnerable. She could be attacked again through the Black Sea and she could be attacked by way of the Baltic. If left to themselves, Great Britian could divide Russia's forces by attacking her at each of these ports with her ships of war. Russia's opportunity would be to strike at India. But the East Indians remaining loyal, the British, with their Indian troops trained up to the highest standard of European excellence, could meet her antagonists with superior numbers. It is difficult, though, to think of war breaking out, especially in connection either with Egypt or with this Far Eastern question, without involving other of the great Powers. If France should take part in this contest—and France could hardly stand aloof, things being as they are—Germany and Italy would be forced into the strife, and Japan would find an opportunity to redress some of her later wrongs. Such a war it is somewhat alarming to contemplate. How it would result no man looking at the future from the standpoint of the present can dare to predict.

Is there, however, any likelihood of such a war? We think not. We have put the possibilities strongly to make it plain what war would mean in the circumstances described. We have put them the more willingly because we know they are present to the minds of all thoughtful men in power. Lord Salisbury has not taken the public into his confidence. But has he been indifferent? Has he been inactive? Has he in any particular been over-reached by diplomacy? If he has he is not the man he once was. We are more prepared for a sudden revelation to the effect that important diplomatic work has been going steadily on and that peace without any humiliating sacrifice has again been secured. We feel justified in taking this view of the situation from the recent remarks made in public by Lord Salisbury at Hatford and by the Duke of Devonshire at Leeds. There are questions between the two Powers which ought to be settled and which we believe could be settled amicably and without recourse to arms. What Russia does need, in view of her Siberian developments, is a harbor for her ships more to the south than Vladivostock. If that can be granted her without detriment to China, Corea or Japan, or without limiting British influence or imperiling British interests, the peace of the world might be placed on a basis firmer and more secure than it has been for many years.

TAXATION—THE MASSACHUSETTS SYSTEM.

[COMMUNICATED—SECOND ARTICLE.]

Municipal or local taxation has given rise to continued controversy for a long series of years. The theory of Massachusetts law is that all property, real and personal, of the inhabitants of the Commonwealth, not expressly exempted, shall be subject to taxation. Real estate is easily defined; it includes all lands and buildings within the State. A tax on real estate consequently reaches every holder. There is, however, opportunity for inequality and hence for a degree of injustice in the valuation of real estate. Assessors are chosen annually in the towns by popular vote, and are usually appointed in cities by the Mayor. In towns where their continuance in office is dependent upon public favor, assessors are prone to be lenient with holders of land out of use. It not infrequently happens that large tracts of vacant land are assessed as farming land, although suitable for, and at the time really valuable as, building lots.

In a city near Boston the Government recently purchased for a school-house lot a parcel of land, paying for it about $8,000 per acre, which had previously been taxed for many years on a valuation of only $100 per acre.—In the same city, after a change in the Board of Assessors, a new survey of all the land was made which resulted in an increased valuation of land alone of over $1,600,000, about 20 per cent of the total valuation. In another city an energetic assessor, newly appointed, created a great improvement in the appearance of the business section by simply increasing the valuation of lots covered by inferior buildings. The owners, finding they must pay in proportion to their more enterprising neighbors, tore down their old and unsightly structures and erected others more suitable in their place. The landless generally believe that land is insufficiently taxed, while land-owners, in the country especially, are inclined to think that personal property does not bear its fair share of the burden; in the cities, however, the more enlightened real estate owners have come to

realize that it is the presence of personal property which gives its value to realty, and are almost unanimously among the tax reformers. Real estate experienced an immense gain by the law relieving mortgages from taxation, and real estate owners are bitterly opposed to the farmers who would reimpose this tax.

Personal property is more difficult to describe accurately. Under the law it includes goods, chattels, money and effects, wherever they are, ships and vessels at home and abroad, money at interest, and other debts due the persons to be taxed more than they are indebted or pay interest for, but not including in such indebtedness any loan on mortgage of real estate, taxable as real estate, except the excess of such loan above the assessed value of the mortgaged real estate. It also includes public stocks and securities, bonds of all railroads, including street railways, stocks in turnpikes, bridges or moneyed corporations *within or without* the State, and income from trade or profession exceeding $2,000. Shares of domestic corporations which pay a franchise tax are expressly exempted from taxation for State, county or town purposes, but may be taxed for school district or parish purposes.

It will be seen by this very comprehensive description, which is quoted almost *verbatim* from the law, that there is little if any imaginable personal property that is not covered, nevertheless it is the general belief that not more than a quarter of the personal property actually held by citizens is assessed.

The State is divided into two hostile camps, as almost all other States are, on this question of taxation of personal property. One party contends that it is unjust to tax goods, chattels, money and effects, *wherever they are*, because if these things are beyond the borders of the State, they are undoubtedly taxed by the State where they exist, and to tax the owner here results in double taxation. A Massachusetts man, for example, who owns a herd of cattle in Texas is doubtless taxed there for the value and again here. So the farmer living near the border line may have his live stock in a neighboring State and be taxed in both places.

This party also contends that the taxation of stocks of corporations organized under the laws of other States is unjust. If these foreign corporations own real estate in Massachusetts, as many of them do, they are fully taxed for this real estate where it is situated, and to tax the shareholders also is taxing the same thing twice in the same place and year. If the property of the foreign corporation is situated beyond the borders of the State it must contribute to the revenue of the State which gives it protection, and its owners, the shareholders, ought not to be compelled to contribute again in Massachusetts, where, in the nature of things, it cannot receive the slightest protection. This party quotes in support of their contention the language of the Constitution, which in Part 1, Article X., says: "Each individual of the society has a right to be protected by it in the enjoyment of his life, liberty and property, according to standing laws. He is obliged, consequently, to contribute his share to the expense of this protection." They claim also that the injustice of the law is proved by its inefficiency. Just and equitable laws are generally obeyed and not evaded. But it is an admitted fact that whereas this class of evidences of property known to be held by citizens of the commonwealth exceeds one thousand millions of dollars in market value, the total assessed value of personal property of all descriptions is less than six hundred millions, and of this particular class (shares of foreign corporations) less than one hundred millions is actually discovered for taxation, showing that about nine-tenths of it is concealed from the assessors; the small part that is taxed mainly belongs to helpless widows and minors whose trustees and guardians have no personal interest in avoiding the unjust tax.

This party of tax reformers secured the abolition of the double taxation of mortgaged real estate in 1881, after ten years' hard struggle in the Legislature, and has been active almost every year since in defending that law and preventing its repeal. They also contend that the taxation of "public stocks and securities" is not only unjust but bad business policy; it is unjust in that every tax-payer is proportionally responsible for the annual interest and ultimately for the principal of these bonds, and to require the holder to pay back from a quarter to a third of the interest he receives is in effect double taxation; it is also bad business policy in that it compels the municipality to pay a higher rate of interest to market its bonds than would otherwise be necessary. As a result of this injustice and bad policy a very large proportion of city and town bonds are sold outside the State, whereas if these bonds were free from tax they would be attractive to a very large class of home investors who prefer absolute security to high interest. Moreover, as the savings banks are taxed only about one-third the average rate, they have become the chief home customers for city and town loans. These institutions are reported at a late date to have held about $42,500,000 of the $120,000,000 of these bonds then outstanding. Every attempt to procure a law relieving the bonds from taxation has been met with the plea that in that case justice to the depositors in savings banks would require that the depositors be permitted to deduct the sum so invested from their return for taxation, as they were permitted to deduct money invested in mortgages by the law which made mortgages free, and so the State would lose a considerable income. It is believed that the fear of this loss has prevented the fair consideration of the proposition. The tax reformers reply that it is only proposed to make future issues free, and so the loss of revenue would be very gradual; besides that, it would be better that the State should lose a half per cent on forty-two millions than that each debtor city and town should go on paying a half per cent extra interest (it is believed that at least so much could be saved if the bonds were made free) on one hundred and twenty millions.

The tax reformers also maintain that incomes should not be taxed when derived from property already taxed; that this is double taxation. The practice of taxing incomes derived from property subject to taxation is indeed forbidden in express terms by the law, but is sustained by a judicial decision in a case where a merchant, who had been fully taxed on his stock in trade, was taxed again on his income exceeding $2,000. The judge said that as this income was the combined result of capital, industry and skill, the industry and skill should be taxed, although the capital already had been!

The other party in the State opposed to the tax reformers contends that every man should be taxed according to his ability, and that it matters not if the property he owns has already been taxed in some other State; his mere ownership and residence in Massachusetts implies an ability which should be taxed again. They would have the law more strictly enforced, so that no person should escape taxation not only on all his

visible and tangible property but on the shadows of things. They scoff at the idea that a certificate of stock is not property but only an evidence of property somewhere taxed, and maintain that the certificates themselves are valuable things which should be taxed. They claim that there would be no appreciable saving of interest on municipal bonds if made tax free; that the rate of interest is governed by other things and would not be influenced by any concession of taxes. This party is composed mainly of farmers, and its influence is felt through the organizations of grangers and the Farmers' Alliance. The grangers appear before every Legislature and steadfastly oppose every measure of relief suggested by the tax reformers. It is their belief that the farmers' property, being mostly visible, is fully taxed, while the capitalist, whose stocks and bonds are easily concealed, escapes, and they would have a law which should compel every person to disclose under oath, subject to a severe penalty for failure or refusal to do so, every item of his property to the assessors. The law does not now require sworn returns, but permits the tax payer to remain silent while the assessors doom him for whatever sum they consider him worth. If this doomage is too high, the tax-payer's only redress is that he may secure an abatement of whatever sum is in excess of fifty per cent over his actual estate.

In some cities and towns the assessors have attempted a system of progressive doomage, that is, by constantly increasing their estimate of the tax payer's property they hope to force him to disclose, or in the expressive language of the inventor of this system, they would "make the victim squeal." The result of this process has been usually to drive away the capitalist about the time the progressive estimate approached his actual wealth. This has been notably the effect in the city of Boston, where the progressive doomage system was attempted with great rigor. Although the value of real estate in Boston has risen in twenty years from $[illegible] in 1875 to $733,744,850 in 1894, personal estate assessed has fallen from $235,020,895 in 1875 to $204,305,192 in 1894. Meanwhile many rich suburban towns and cities have been developed and their valuation, both real and personal, has gone up by leaps and bounds. In short, the Boston capitalist is human and will not submit to double taxation, which he considers unjust.

The grangers advocate another proposition, which is to have all personal property assessed by a new board of State officials to be appointed by the Tax Commissioner; and that the property so assessed shall be taxed at an equal rate to be determined by taking the average of local rates. The grangers claim that an independent set of officials would be free from local influences, and, being clothed with inquisitorial powers, would uncover large sums which are now concealed. Also that an equal rate throughout the State would take away the temptation from tax-dodgers who fly from towns where the rate is high and colonize in places where, by great aggregations of wealth, they make the rate low. The effect of such a system would be to make two rates of taxation in nearly every city and town, one for real estate and the other for personal property. The benefits, if any were secured, would be distributed very unequally, those places losing where the present rate is above the average, while the richer towns, where the rate is low, would become still richer. It is probable that such a law would drive away from the State altogether many capitalists whose presence and expenditures now conduce to the general prosperity.

The tax reformers on the other hand contend that the exemption of shares of foreign corporations and of municipal bonds would induce capitalists to come into the State to the great advantage of all interests.

The contest between these two factions will go on before the new Legislature the coming winter. It is probable that the tax reformers will renew their efforts to secure the abolition of all forms of double taxation, and it is certain that the Farmers' Alliance will oppose them and endeavor to secure a more stringent doomage law, and to repeal the law which exempts mortgaged real estate from double taxation.

Certain forms of property are exempt from taxation. These are: the property of the United States; the property of the commonwealth; the personal property of literary, benevolent, charitable and scientific institutions, and the real estate belonging to such institutions and used for the purpose of their incorporation; all property belonging to common school districts the income of which is appropriated for purposes of education; the Bunker Hill Monument; wearing apparel and farming utensils of every person; his household furniture not exceeding one thousand dollars in value, and the necessary tools not exceeding three hundred dollars in value of a mechanic; houses of religious worship; cemeteries; real and personal estate of incorporated agricultural societies; the property, not exceeding five hundred dollars in value, of a widow or spinster over twenty-one, or of any person over seventy-five, or of any minor whose father is deceased; plantations of certain timber for ten years; ships engaged in the foreign carrying trade; the property of disabled soldiers and sailors to the amount of $2,000.

There has been agitation over some of these exemptions. Some towns consider it a hardship to have large acres of taxable property taken by the State for its public institutions (prisons, hospitals and the like) and by its exemption increase the burden on the remainder. Other towns complain of the growing wealth of great educational institutions; a considerable party objects to the exemption of churches, claiming that this in a degree connects church and State, which should be absolutely separate.

The system of taxation in Massachusetts is the product of more than two hundred and fifty years; nearly every year has seen some changes in the law, but it is still in a transition state. The total sum raised from all sources in 1894 was $44,897,377, and to distribute this heavy burden so that it shall bear equally upon all is the problem of the hour.

THE ESTIMATES OF THE CORN CROP.

The "St. Louis Republic" asks us to explain how we arrived at the figures of corn production, based on the reports of the Department of Agriculture at Washington, given in our paper of October 12. In its issue of October 19 it had an article on the subject, from which we take the following extracts.

> The FINANCIAL CHRONICLE should explain how it obtained the figures for its estimate of the yield of corn in the different States this year. The reader is led to infer that they are based on Government reports, but they are not. . . . .
>
> The total yield of the country is too high, as is also that of Iowa while the estimate for Missouri is 15,000,000 bushels too low. The Agricultural Department reports the condition of this State's corn crop to be 11 per cent better on the average than the standard officially set for Missouri. This standard is 39 bushels of shelled corn per acre. No other State ranks above Missouri in respect to yield per acre under normal conditions. The standard set by the Government for the country as a whole is but 28·6 bushels per acre.

A percentage of 111 in condition is the Government's way of saying that Missouri's probable yield per acre will be 43·29 bushels. If our corn acreage is 7 per cent greater than it was last year, and our acreage then was 5,273,257, as reported by the Agricultural Department, almost any school-boy could figure out a probable yield of over 244,000,000 bushels for the entire State.

In the same way—using only Government estimates—Iowa's probable yield is found to be 215,000,000 bushels and that of the entire country about 1,800,000,000. * * * *

The CHRONICLE's reports may be depended on as a rule, but this one is certainly misleading. We should like to know the process by which that journal obtained its estimate for Missouri.

Before outlining our method it may be well to say that there appear to be several errors in the foregoing. Our contemporary is certainly astray in its figures of acreage. It assumes an increase of 7 per cent for Missouri, and says the acreage last year was 5,273,257 acres. The United States Agricultural Department in July did report an increase in 1895 for that State of 7 per cent, but this was expressly stated to be "as compared with the area *planted* in 1894," which was 6,180,484 acres. The 5,273,257 acres taken by the "Republic" was the acreage *harvested*, a considerable portion of land sown to corn in that year having had to be abandoned by reason of the great drouth during the summer. On this basis of the acreage planted last year the 7 per cent increase makes the acreage the present year 6,613,000 acres. If, therefore, our contemporary is right in assuming that there is an official standard of yield per acre, and that based on such standard the condition reported for 1895 indicates for Missouri a yield of 43·29 bushels per acre, the aggregate crop of the State would be not 244,000,000 bushels, as the "Republic" makes it, but actually over 286,000,000 bushels. We are obliged to confess, however, that we know of no official standard, and we think the Agricultural Department would be the first to repudiate the suggestion that it had set up such a standard. That either the "Republic's" method or its figures are erroneous is evident from the fact that this method and these figures give it a crop for the whole country of only 1,800 million bushels. No one has claimed that the crop is as small as this, nor has any one but our contemporary suggested that the Agricultural Bureau report was capable of such an interpretation.

Our own method is very easily explained. We will take Missouri for purposes of illustration. That State last year harvested 116,012,000 bushels of corn on an area of 5,273,257 acres. The area planted to corn the present year, as already shown, was 6,613,000, being an increase of 25 per cent as compared with the acreage on which the crop of 116,012,000 bushels was raised last year. With this addition of one quarter to the acreage, the crop the present year on the basis of the same condition as in 1894 would be 145,015,000 bushels. But the condition last year was reported only 70 while the present year it is reported 111. If now a condition of 70 gives a crop of 145,015,000 bushels, a simple application of the rule of three will show that a condition of 111 must give a crop of roughly 229,900,000 bushels, which agrees with the amount (229,849,000 bushels) reported in our issue of October 12. A like process has been used in arriving at the results for the United States as a whole. The acreage the present year is 82,304,000 acres, the area harvested last year was only 62,582,269 acres, thus giving an increase of 31½ per cent. As the crop in 1894 was 1,212,770,000 bushels, this increase would make the crop the present year 1,594,792,000 bushels, supposing that the condition of the plant was the same. But the condition in 1894 was only 64·2, whereas in 1895 it is 95·5; using this difference in like manner as above, the indicated product the present year is seen to be 2,372,000,000 bushels, as shown by us October 12.

There is still another method of reaching the result, that is by using the yield per acre as the basis. The product in Missouri in 1894 was 22 bushels per acre, on a condition of 70; with a condition of 111, as reported for 1895, the indicated product per acre is 34⅞ bushels. Applying this to the 6,613,000 acres planted to corn, the aggregate promised crop is found to be a little over 230 million bushels, which differs but slightly from the 229,900,000 bushels arrived at by the first method. In the same manner, taking as a basis the 19⅜ bushels per acre harvested for the whole country in 1894 on a condition of 64·2, the product promised per acre in 1895 on a condition of 95·5 is seen to be 28 13 16 bushels, and this on the 82,304,000 acres planted points to a crop of 2,371,384,000 bushels, or substantially the same as the amount obtained by the other calculations.

It should of course be borne in mind that the Bureau has put out no estimate yet of the crop, and that the foregoing calculations are simply an attempt to interpret its latest condition figures. The method of doing this is the same as that which we have always pursued. At best the condition figures are only a rough approximation of the probable yield, and the calculations based upon them are necessarily subject to the same qualification. As far as the country as a whole is concerned the total reached above is certain to be very close to the actual result, judging by the reports of various competent authorities. How near the totals for Missouri and the several States are likely to be, however, we have no means of knowing. In another week or two the Department will issue a statement showing the corn yield per acre, and then it will be possible to form a more accurate judgment in that particular. But even these results will be subject to change, and it is not until the close of the year that we shall have from the Department an actual and a definite and final statement of the crop yield.

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO NOVEMBER 1.

The gathering of the cotton crop has made very rapid progress during October as a result of the favorable weather conditions prevailing, and marketing has also been on a free scale, restricted however to some extent in the last ten days of the month owing to the quite sharp decline in value. The movement has not however been of as large volume as a year ago. Our statements show that 1,722,122 bales have come into sight through the ports, interior towns and the rail movement overland, whereas in October of 1894 the total reached 2,116,630 bales, in 1893 it was 1,637,555 bales and in 1892 reached 1,465,067 bales. The aggregate for the two months of 1895 is 2,264,516 bales, against 2,780,333 bales for the like period a year ago and 2,148,828 bales in 1893. Northern spinners have taken 304,336 bales during the month, but their total takings for the season to date exhibit a considerable decrease compared with last year, when low prices induced them to stock up quite liberally.

OVERLAND MOVEMENT TO NOVEMBER 1.

The movement overland has been much less than in October of 1894, the *gross* shipments reaching only 206,093 bales, which compares with 271,027 bales in

1894, 111,453 bales in 1893 and 138,432 bales in 1892. The greater part of the falling off this year is in the movement via St. Louis, although the shipments via Cincinnati have decreased appreciably, and there is a noticeable loss via Cairo. The movement via Louisville, however, is a little greater, and a large gain is recorded in the amount of cotton carried via Parker City. The *net* overland for the month is of course considerably smaller than for October last year, being but 170,662 bales, against 220,466 bales. There is, however, a large increase compared with 1893. The total for the two months falls below that of a year ago 62,737 bales. The details of the whole movement overland for three years are appended :

OVERLAND FROM SEPTEMBER 1 TO NOVEMBER 1.

	1895.	1894.	1893.
Amount shipped—			
Via St. Louis	115,512	162,048	65,393
Via Cairo	51,152	64,171	32,049
Via Parker City	6,293	1,603	.....
Via Evansville	.....	177	1,408
Via Louisville	27,770	26,318	10,013
Via Cincinnati	11,486	24,433	12,302
Via other routes	9,876	21,669	11,779
Shipped to mills, not included above	2,038	2,516	2,270

Deduct shipments -			
Overland to New York, Boston, &c.	34,319	38,302	18,567
Between interior towns	1,382	4,423	2,135
Galveston, inland and local mills	959	959	569
New Orleans, inland and local mills	3,872	5,653	2,398
Mobile, inland and local mills	1,426	7,153	4,070
Savannah, inland and local mills	396	943	180
Charleston, inland and local mills	1,276	3,173	1,451
N. Carolina ports, inland and local mills	243	400	167
Virginia ports, inland and local mills	1,120	672	2,734
Total to be deducted	44,993	61,028	32,373
Leaving total net overland*	179,170	241,907	103,141

* This total includes shipments to Canada by rail, which since September 1 in 1895 amounted to 7,648 bales; in 1894 were 8,156 bales and in 1893 were 6,092 bales

RECEIPTS, EXPORTS AND SPINNERS' TAKINGS.

The port movement—the net receipts—has been of smaller volume this October than in the same month of 1894 or 1893, and compared with last year the decline is conspicuously heavy; the receipts for the month have been 1,202,460 bales, against 1,622,654 bales a year ago and 1,311,279 bales in 1894. All of the important Southern ports have shared in the decrease from last year. For the two months the decline from 1894 is 355,080 bales and compared with 1893 reaches 102,341 bales. Foreign exports have been of fair volume during the month, and have reached 632,468 bales against 921,711 bales last year and 720,947 bales in 1893.

Movement from Sept. 1, 1895, to Nov. 1, 1895	Receipts since Sept. 1, 1895	Receipts same time 1894	EXPORTS SINCE SEPT. 1, 1895, TO— Great Britain*	France.	Continent.	Total.	Stocks Oct. 31, 1895.

* Great Britain exports include to the Channel.

Using the facts disclosed by the foregoing statements we shall find that the portion of the crop which has reached a market through the outports and overland, and the Southern consumption, since September 1 this year and the two previous years is as follows.

	1895.	1894.	1893.
Receipts at the ports to Nov. 1....bales.	1,586,346	2,141,426	1,688,687
Net shipments overland during same time	179,170	241,907	103,141
Total receipts.....bales.	1,765,516	2,383,333	1,791,828
Southern consumption since September 1	168,000	143,000	132,000
Total to Nov. 1.....bales	1,933,516	2,526,333	1,923,828

The amount of cotton marketed since September 1 in 1895 is thus seen to be 592,817 bales less than in 1894 and 9,688 bales greater than in 1893. To determine the portion which has gone into the hands of Northern spinners during the same period we have prepared the following:

Total receipts to November 1, 1895, as above.....bales.			1,933,516
Stock on hand commencement of year (Sept. 1, 1895)—			
At Northern ports.....	169,527		
At Southern ports.....	110,536 -	280,063	
At Northern interior markets.....	5,782 -		285,845
Total supply to November 1, 1895.....			2,219,361
Of this supply there has been exported			
to foreign ports since Sept. 1, 1895	741,613		
Less foreign cotton included.....	3,566 -	738,047	
Sent to Canada direct from West.....		7,948	
Burnt North and South.....		1,434	
Stock on hand end of month (Nov. 1, 1895)—			
At Northern ports.....	203,293		
At Southern ports.....	714,924 -	918,217	
At Northern interior markets.....	6,587 -		1,671,963
Total takings by spinners since September 1, 1895.....			547,398
Taken by Southern spinners.....			168,000
Taken by Northern spinners since September 1, 1895.....			379,398
Taken by Northern spinners same time in 1894.....			472,786
Decrease in takings by Northern spinners this year..bales.			93,388

The above indicates that Northern spinners had up to November 1 taken 379,398 bales, a decrease from the corresponding period of 1894 of 93,388 bales, and a gain over the same period of 1893 of 156,626 bales.

AMOUNT OF CROP NOW IN SIGHT.

In the foregoing we have the number of bales which has already been marketed this year and the two previous seasons. An additional fact of interest is the total of the crop which was in sight on November 1 compared with previous years. We reach that point by adding to the above the stock remaining at that date at the interior towns less stock held by them at the beginning of the season. In this manner we find the result for three years on November 1 to be as follows :

	1895.	1894.	1893.
Total marketed, as above....bales.	1,933,516	2,526,333	1,923,828
Interior stocks in excess of Sept. 1.	331,000	254,000	225,000
Total in sight.....bales.	2,264,516	2,780,333	2,148,828

This indicates that the movement up to November 1 of the present year is 515,817 bales less than in 1894 and 115,688 bales in excess of 1893.

As it will interest the reader to see what has come into sight each month of the season during this and previous years, we have prepared the following, which shows the movement for the last four seasons.

Months.	1895	1894	1893	1892.
September..	542,894	643,703	511,273	522,552
October....	1,722,122	2,136,630	1,637,555	1,464,067
Total 2 months	2,264,516	2,780,333	2,148,828	1,987,619
Balance season..	.....	7,117,453	5,378,383	4,729,523
Total crop.....	.....	9,897,786	7,527,211	6,717,142

WEIGHT OF BALES.

To furnish a more exact measure of the receipts up to November 1 we give below our usual table of weight of bales. We give for comparison the figures for the same time in the two previous years.

	Four months ending Nov. 1, 1895			Same period in 1894	Same period in 1893
	Number of Bales.	Weight in Pounds.	Average Weight.	Average Weight	Average Weight
Texas	356,773	192,900,026	540·68	544·73	522 24
Louisiana	497,803	258,957,121	520·20	524·50	497·50
Alabama	65,062	32,856,810	505 0	520 00	508·00
Georgia*	320,826	157,230,406	490 08	503 44	494·51
South Carolina	124,783	61,295,905	491·22	502·60	490 00
Virginia	116,795	57,224,878	489 96	489·73	483·95
North Carolina	69,985	34,498,406	492 94	501·97	490 70
Tennessee, &c	381,489	191,125,989	501·00	499 00	495 10
Total	1,933,516	986,089,041	510 00	516·59	499 71

* Including Florida.

It will be noticed that the movement up to November 1 shows a decrease in the average weight as compared with the same period of last year, the average this year being 510·00 lbs. per bale, against 516·59 lbs. per bale for the same time in 1894, or a decrease of 6·59 lbs. per bale. In 1893 the average weight was 499·71 lbs., or 10·29 lbs. per bale less than in the current season.

THE DRY GOODS TRADE DURING OCTOBER.

The early part of the month was marked by a decidedly strong tone in staple cottons, a good demand, and a gradual moving up of prices to the top limits set in the latter part of September by leading makes. The reserve of sellers gradually checked business, and when the collapse of the cotton market came the demand was already light. Since then it has been dull for brown, bleached and coarse colored goods, but nevertheless the month's results are reported unusually good for October. Prices of staples show no material change. The break in cotton checked the advancing tendency, but did not cause any relapse in values, and with cotton again advancing the tone at the close is decidedly firm. In prints the more staple varieties are often ¼c. per yard higher; seasonable ginghams show no change. Stocks of both staple and fancy cottons are small at the close, and the former are often well sold ahead yet for leading makes. Spring business in cotton dress fabrics has developed considerably and the outlook is promising. Print cloths advanced ⅛c. for spots and 3-16c. for contracts prior to the decline in cotton; since then spots have been quietly steady, but contracts have declined 1-16c., the market closing at 3¼c. for extras in all positions.

October.	1895					1894.				
	Cott'n low middling.	Printing cloths, 64x64	Sheetings, standard.	Lancaster ginghams.	5/4th'n 3-yd. sheetings.	Cott'n low middling.	Printing cloths, 64x64	Sheetings, standard.	Lancaster ginghams	5/4th'n 3-yd. sheetings.

The above prices are—For cotton, low middling uplands at New York; for printing cloths, manufacturers' net prices; for sheetings and ginghams, agents' prices, which are subject to an average discount of 5 per cent, except when otherwise stated; Southern sheetings *net*.

Monetary and Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, Oct. 19, 1895.

The Sultan has, happily, at last yielded to the Powers and has issued an irade sanctioning the reforms in Armenia demanded by them. But great uneasiness continues to prevail respecting Southeastern Europe. The bitter attacks in the Russian press upon English policy leads to a very general belief that there is friction between the three Powers. And the uneasy feeling is heightened by the report that the Russian fleet has been ordered to the mouth of the Bosphorus. Moreover, there are strong doubts whether the Turkish Government will earnestly endeavor to give effect to the scheme of reform, and there is much fear that the discontent of the Mohammedans may have serious consequences. Altogether the condition of Turkey is very critical, and either a mutiny or a palace intrigue against the Sultan is widely expected.

The Russian Government, too, has issued an order for reorganizing and reinforcing the Russian forces on the Chinese frontier, which is calculated to increase the disquiet so widely prevailing. And lastly, a note has appeared in the semi-official organ of the French Government which seems to indicate that France is about to reopen the Siamese question. It appears also that China has not yet paid over any of the indemnity to the Japanese Government. The proceeds of the Russo-Chinese loan have been remitted from Paris to the Bank of England, and it was generally understood that a portion had been handed over to the Japanese Government. Now it is stated on good authority that this has not been done. China need not pay until next month and there are rumors that the Russian Government is urging her to refuse payment until Japan has evacuated the Liao-tung peninsula. An anxious winter, therefore, seems to be before us, though nobody anticipates a disturbance of the peace.

Money is as plentiful as ever. Rates are exceedingly low and are likely to continue so for a considerable time. The silver market has given way somewhat. There is little demand for the Far East, and apparently the speculators who had been hoping for large purchases for China and Japan are growing weary and are disposing of their stocks. The Eastern exchanges likewise are lower, and the demand for India Council drafts has fallen off. On Wednesday the Council offered as usual 50 lakhs of rupees and the applications but little exceeded 60 lakhs. The average price obtained was barely over 1s. 1¾d. per rupee.

The Stock Exchange and the Paris Bourse have been excited and depressed all through the week. Partly the political anxieties referred to above have brought about this state of things; but mainly it is due to the overspeculation in gold-mining shares since May. It was evident to every careful observer that the speculation could not go on much longer. It had been entirely overdone, and prices in too many instances were extravagantly high. The first check was given by the refusal of the London banks to discount acceptances of foreign banks which were believed to be issued for the purpose of financing the speculation. The foreign banks in consequence had to withdraw money from the Bourse to take up their acceptances; and the difficulties encountered at the last Paris settlement led to a sharp fall. When the settlement ended it was hoped that there would be a recovery. It is understood that the Paris banks withdrew from the Bourse about 4 millions sterling, and it was thought that that would have been sufficient. But it is now said that the banks have intimated to their customers that they will have to withdraw more, and there are fears consequently that the next settlement may be even more difficult. Here in London the fortnightly settlement in mines began on Saturday morning. In the other departments it began on Monday morning, and in all markets it closed on Wednesday evening. There were no failures, but there were very great difficulties. Several brokers had to be helped by their friends; and it is alleged that very large sums due as differences were not paid by outside operators.

Although money was undoubtedly withdrawn from the market by some of the banks, there was quite sufficient for all requirements. But lenders discriminated against weak borrowers. In some cases they charged exceedingly high rates; in others they refused accommodation altogether. And the brokers, fearing that they might be refused loans by the banks, are putting pressure on their customers to sell.

The sales all through the week, therefore, have been very large and very continuous. On Wednesday evening, however, the feeling in London was decidedly better and most people hoped for a slight recovery. But disquiet returned on Thursday morning. Selling on an immense scale from Paris began, and then there was equally large selling in London.

Regarding the future of the market much will depend upon how the special settlement in Barnato Bank shares in London and in East Rand shares in Paris goes off on Monday next. Some time ago East Rand shares said to amount to about 100,000 in number were sold in Paris. They have been admitted to quotation and Monday has been appointed as a special settling day. It is understood that they have been sold at prices ranging from 10 to 12½. Therefore the amount due from Paris to London is somewhere between a million and a million and a quarter sterling. The Barnato Bank was brought out here a couple of months ago. It was received very unfavorably by the public. But there was a great speculation on the Stock Exchange and the price of the £1 shares was rushed at one time as high as £4¼. The first settlement comes on upon Monday and there are great fears that serious difficulties will be encountered.

All other departments have been over shadowed by the mining market. Scarcely anything has been doing either here or on the Continental bourses, and prices generally have given way. The political anxieties would account for some fall; but the main cause undoubtedly is the apprehensions respecting the mining market. The American department is for the moment neglected like the others; but there has been no serious fall; indeed there is little inclination either to buy or to sell. Mr. Hamilton Smith having examined the Anaconda mine and verified all Mr. Haggin's statements, the provisional purchase of 200,000 shares by the Exploration Company of London has been ratified. There will be no public issue of the shares here; but a small quantity has been sold to members of the Stock Exchange at about $45 per share, and dealing in them on the Stock Exchange will begin on Monday.

The Bank rate of discount and open market rates at the chief Continental cities have been as follows:

Rates of Interest at	Oct. 18.		Oct. 11		Oct. 4.		Sept. 27.	
	Bank Rate	Open Market	Bank Rate	Open Market	Bank Rate	Open Market	Bank Rate	Open Market
Paris	3	1½	3	1½	3	1½	3	1½

Commercial and Miscellaneous News

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods October 24 and for the week ending for general merchandise October 25; also totals since the beginning of the first week in January.

FOREIGN IMPORTS AT NEW YORK.

For Week.	1892.	1893.	1894	1895.
Dry Goods	$1,978,683	$1,691,698	$1,569,136	$2,305,340
Gen'l mer'dise	8,814,576	7,374,549	6,075,467	8,071,628
Total	$10,793,259	$9,466,236	$7,645,303	$10,376,968
Since Jan. 1				
Dry Goods	$106,799,848	$108,144,146	$72,084,524	$123,354,471
Gen'l mer'dise	367,702,089	358,641,896	284,412,882	308,505,954
Total 43 weeks	$474,492,937	$466,786,042	$357,397,406	$431,860,425

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending October 29 and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1892	1893	1894	1895
For the week	$8,705,750	$9,055,340	$5,276,320	$6,556,028
Prev. reported	313,478,534	303,707,261	294,976,680	274,385,498
Total 43 weeks	$322,379,614	$312,762,601	$300,272,000	$291,944,926

The following table shows the exports and imports of specie at the port of New York for the week ending October 26 and since January 1, 1895, and for the corresponding periods in 1894 and 1893:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	.....	$38,811,040	.....	$15,838,621
France	.....	13,000,000	$135,030	5,761,918
Germany	$4,000	8,412,000	.....	1,849,853

—The National Safe Deposit Co., in the Mutual Life Building, which opened for business May 1, 1894, has been a great success. Over half its boxes were taken the first year. The company has the advantage of being the latest in the field, and in the construction of its vaults all the most approved appliances and methods have been adopted. The extra size of the boxes has been an important feature in attracting customers. The vaults are in the new part of the Mutual Life Building, on the Liberty Street side, and are in keeping with everything appertaining to that very substantial institution.

—George R. Sheldon, chairman of the Bondholders' Committee of the Spokane & Palouse Railway Co., gives notice that on November 1 next $25 for each deposited first mortgage bond of the Spokane & Palouse Railway Company (Washington Division) will be mailed to the holders of its registered trust certificates of deposit and will be paid to the holders of its unregistered certificates on presentation at the offices of the New York Security & Trust Company.

—Messrs. Russak Bros. & Herzog, 46 Exchange Place, dealers in investment securities, execute orders for purchase or sale of stocks, bonds, exchange, etc. Their card will be found on the last page of the Quotation Supplement for Nov 2.

—Messrs. Wm. J. Wollman & Co., 148 La Salle Street, Chicago, issue a monthly quotation sheet of Chicago bank stocks which is very complete in its details as to book values, last sale, dividends, yield to investor, etc.

—Messrs. Chas. T. Wing & Co. advertise in to-day's issue some first and consolidated mortgage bonds of roads in the New York New Haven & Hartford system.

WALL STREET, FRIDAY, NOV. 1, 1895.—5 P. M.

The Money Market and Financial Situation.—There has been considerable activity at the Stock Exchange during the week, due in part to continued liquidation by foreign holders and the shaking out of weak speculative interests in stocks. The situation was taken advantage of by capitalists to pick up good stocks at low prices, and on Thursday the tone of the market was somewhat changed, largely because of this fact.

The Kaffir markets abroad continue to be very much unsettled, and the effect of these and the sensitive political situation are unfavorable to all classes of securities.

There was a break on Wednesday in electric stocks on the Philadelphia Exchange, and that event was given as a reason for the rapid decline of General Electric shares in this market to near the lowest price of the year.

The conditions in the foreign exchange market remain unchanged. The supply of commercial bills is very much restricted, and on a limited demand rates for exchange have advanced during the week. It is reported, however, that cotton has begun to move more freely and therefore a better supply of bills may be looked for.

Progress has been made this week with the trunk-line traffic agreement. Its adoption by all the interested lines is now considered certain, and its importance is not likely to be over-estimated.

The money market is without new features of interest.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 2 to 2½ per cent. To-day rates on call were 2 to 2½ per cent. Prime commercial paper is quoted at 4½ to 5 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £175,877, and the percentage of reserve to liabilities was 58 25 against 59 07 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 4,780,000 francs in gold and 25,350,000 francs in silver.

The New York City Clearing-House banks in their statement of Oct. 26 showed an increase in the reserve held of $991,800 and a surplus over the required reserve of $16,689,700, against $15,480,175 the previous week.

Foreign Exchange.—The foreign exchange market has been dull and firm. There has been a scarcity of all classes of bills, and on a limited demand rates have fractionally advanced during the week.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 87¼@4 88; demand, 4 89¾@4 89; cables 4 89@4 89¼.

Posted rates of leading bankers are as follows:

November 1	Sixty Days.	Demand.
Prime bankers sterling bills on London	4 87½	4 89½
Prime commercial	4 86¾@4 87½	———
Documentary commercial	4 86¾@4 87	———
Paris bankers (francs)	5 15⅛@5 17½	5 13¾@5 13⅝
American bankers	39 @40	40 @40⅛
Frankfort or Bremen (reichsmarks) b'kers'	95⅝@95¾	95⅝@95¾

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying ¼ discount, selling par; Charleston, buying ⅛ discount, selling par; New Orleans, bank, par; commercial, $1 00 premium. Chicago, par. St. Louis, 50 @ 75c. per $1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include $55 000 4s coup. at 122¾ to 122½; $5,000 do (ex-int.) at 121½; $5,000 5s coup. at 115¾; $1,000 cy. 6s, '98, at 102½, and $20,000 4s coup., 1907, at 112. Following are closing quotations:

Fine gold bars	par @¼ prem.	U. S. trade dollars	— 55 @ — 75

State and Railroad Bonds.—Sales of State bonds at the Board include $2,000 No. Carolina con. 4s at 104¼; $2,000 Tenn. 6s, new series, at 75. $50,000 Virginia fund. debt, 2-3s, 1991, at 62½ to 62¾; $35,000 Virginia 6s, def'd. trust rcts., stamped, at 6 to 6¼; $1,000 No. Carolina 6s, 1919, at 125, and $3,000 Louisiana con. 4s at 99½.

The railroad bond market has been weak in sympathy with the market for stocks, and the activity in bonds conspicuous in a few issues. Readings have been the feature, and while the gen. 4s have been fractionally higher than last week, and close at the same price, the income bonds, which with the stock must bear the burdens imposed by the reorganization plan, have declined from 3 to 4 points. All the Atchisons, Kan. Pac. 1st rcts., Or. Short Line & U. N. con. rcts., Mo. Kan. & Texas and Texas & Pacific issues are from 1 to 2 points lower, and Sav. & West. 1st rcts. and several of the Union Pacific issues are fractionally lower than last week. Chic. & Erie 1sts, New York Ont. & West. ref. 4s and some Mo. Pac. issues have advanced from 1 to over 2 points and O. S. Line 6s are fractionally higher than last week. Other active issues include Ches. & Ohio gen 4s, Chic. & No. Pac. 1st rcts., Or. Imp. issues, St. Louis Southwestern and Wabash bonds, which have been generally steady.

Railroad and Miscellaneous Stocks.—The stock market was weak and prices generally declined until Thursday, when parties representing strong interests bought stocks more freely and changed the tone of the market.

The industrial list was most affected by the influences which prevailed, and in some cases fluctuations were wide. Erie Telegraph & Telephone, which closed at 68¾ last week, sold at 50 on Tuesday and closes to-day at 65¼. General Electric sold at 29½ on Wednesday, a drop of 7 points from the close last week, affected no doubt by the break in electric stocks on the Philadelphia Exchange, as there is no news in regard to the company to warrant such a decline. American Tobacco has been weak on the methods adopted to meet sharp competition, and sold at 88¾ on Wednesday. U. S. Leather preferred has sold within the week below 70, and in the study of this class of securities it is interesting to recall that these quotations represent a decline of about 28 points within six months in the two last-named stocks. American Sugar at 101 on Wednesday was at its lowest point since April last. It closes to-day at 103⅜. Pacific Mail has been the strong feature of this list, although weaker to-day, closing at 34¼, against 29½ last week.

Railroad stocks with an international market have been freely sold for foreign account, and this movement has naturally contributed to lower prices. It is reported that the Reading plan soon to be announced provides for a heavy assessment on the stock, which declined 6¼ points to 18 on Wednesday and closes at 20½. The other coal stocks have been weak in sympathy, notwithstanding the improved anthracite situation. The grangers and Southwestern shares have declined an average of from 1 to 2 points. Southern Railway preferred and Manhattan Elevated have been relatively steady at about our last quotations.
